The figures salumitted representate amount appropriated by the State, and apportional by the State Superintendent of Public Instruction to the entire City of New York for the year 1895, in order to take advantage of which the lows require that the City should appropriate in addition a similar sum. The apportionment by the State Superintendent of Public Instruction of State Library moneys applicable to the year 1899 will not be made for some time yet. It is therefore impossible to anticipate the exact sum which it is necessary to appropriate under the circumstances. The figures for 1898 are therefore submitted in the belief that there will nearly equal the probable apparationment by the State Superintendent of Public Instruction. If such to the case, it will be necessary to request a small arms for in order (but the City shall receive the full tonesis of the State negative mean. apportionment.

Office of Deputy Superintendent of School Buildings. 150 00 175 00 200 00

The decrease as noted above is only apparent, for the reason that it has been found necessary to request a transfer of \$5,000 to the hourance fund for 1898 of the Borough of Queens; the true increase would therefore be \$6,000. In view of the fact that the Comptroller and Corporation Counsel have considered it necessary that school property in these boroughs be insured, the risks have been covered. The Committee on Ruildings is now considering the advisability of insuring on the "schedule" plan, which will probably effect a considerable saving in rates. The whole matter is in process of revision and re-arrangement.

Total accommodation, 7,200 pupils.

These buildings will accommodate the school children for 1899, and do away with the annexes, which are unsuitable for school purposes, and withal wasteful from every point of view. The Superintendent estimates that there are at least, with all the annexes, at present 3,000 children without school accommodation in Long Island City alone, and no buildings suitable for annexes; those now in one are very unsatisfactory.

Manhattan and The Bronx, for Elementary Schools for High Schools	
Brooklyn, for Elementary Schools	2,873,000 00

The fact that the City's bonded indebtedness appears to have reached its limit at this time precludes the issue of any School-house Bonds heretofare authorized by special acts of the Legislature. The necessary for additional school-house accommodations is apparent to a greater or less extent throughout each of the borone's contained within The City of New York; therefore it has been deemed expedient to include, as one of the neems of the Special School Fund, the amount of Sq. 47 hour, as representing the immediate needs of the City.

Under the provisions of recipies togg and tooloof the Charler, it appears to be proper to present this item to the Board of Estimate and Apportionment, and Manisipal Assembly, to be included in the fact lest the existing conditions in relation to the City's boarded indelitedness are similar to the conditions prevailing some foirteen or fifteen years ago. At that time the difficulty was correctne in the case of School-bouse Boards by including in the tax budget an amount sufficient for the nece sites to school-accommodations existing at that time. Subsequently the matter of the City's boarded indebtechess was cincidated, and the City Treasury was eximplanced by the sale of School-bouse Boards to the extent of what had been paid out on account or the tax levy.

In view of the fact that it is believed that the present difficulty in relation to the issuing of bonds will be settled or oversome by the maddle of the year 1899, the Committee deems it proper to call attention to the present which occurred in the past, with the hope that it may be of some use and assistance in outstaining money for the purpose of providing school accommodations for the writing masses.

In the school-industrial in relation to the Borongh of Manhatan and The Broax relative agreementation to

In the schedule sub-sitted in relation to the Boroughs of Manhattan and The Bronx relative to accommodation for elementary schools, particular attention is called to the fact that the buildings and improvements contemplated therein are confined to sites and school premises at this time in possession of the Board of Education and awaiting development. In several instances hids have been invited and almady accepted, and if provision be made, work could be commenced at the beginning of near year. Schedules are also submitted showing the actual regalements for additional school accommodations in the Borough of Queens. In the case of the Borough of Richmond an item of \$150,000 has been inserted tentatively, though actual locations and descriptions ranned be given at this time. In regard to the matter of High Schools in the Boroughs of Manhattan and The Bronx, the Legislature anthonized by special act the issue of \$250,000 of founds for the establishment of tour High Schools. Sites have been chosen, conformation proceedings instituted and pions and specifications prepared for the buildings, all of which matters are now in abstract, while the demand for this form of education still increases.

The increase requested is slight, and is mainly due to the fact that the contracts for firel have been let in balk, covering all boroughs, by which method considerable saving has been effected. The increase in Mashattan and The Brook is for extra weighers and moving scales, in view of the increased distances to be covered, owing to recent antexation of territory north of the Harlem. The increase of \$2,000 in Brooklyn is intended to rover the purchase of coal scales and the cost of moving them from place to place; also, repairs, etc. The system of weighing coal outside the school-house doors, in vogue in the former City of New York, is found to be beneficial, and is, therefore, extended to Brooklyn.

The increase over the appropriation for 1898 is \$79,720, and may be accounted for by stating that the sum allowed for 1898 was intended to cover the cost of administrative expenses for the last half of the year. Owing to the fact that the practical organization of the several bureaus of the Department did not occur until July 1, 1898, and also the fact of the inadequate facilities for conducting business, occasioned by the very limited available space at the Hall of the Board of Education, many appointments have remained in abeyance, through sheer lack of room in which to place the necessary employees. This fact has involved extra labor on the part of many, in order that delay should not occur in the regular matters of business routine. The increase over 1898 salaries of \$20,930, referred to in the foregoing schedule is, therefore, in part only apparent, by reason of the fact that the appropriation for the present year has not been wholly used, for the reasons hereinbefore stated. Arrangements in regard to additional space are now in progress, whereby it will be possible to employ the necessary additional assistance. On the basis of the appropriation of \$0.2,520.20 for six months of 1898, the annual rate would necessarily be \$125,040,52; and, deducting the last-mentioned sum from \$142,240 (the assaunt of the estimate for 1899), the true increase will be found to be \$17,190,48, which amount is intended to cover the cost of additional help to be employed in the year 1899, and for some small increases to the salaries of a few worthy employees.

The fact that three boroughs show a decrease indicates that progress has been made to house the school population in permanent structures, in place of hired accommodations. The ever increasing number of scholars renders it necessary to continue the antiprity of the rented buildings, and also to obtain further accommodations in districts where congested conditions prevail. It has therefore been deemed expedient to include the sum of \$10,000 for continuencies in Manhatian and The Bronx, and a similar sum in Brooklyn; also the sum of \$3,000 in the last-named torough for the building of temporary premises at Barren Island. The increase of \$1,015 in the estimate of the Board of Education is incidental to the fact that the appropriation for 1898 only covered a half year, and a small item of \$28 per month has been added for the office of a Doputy Superintendent of School Buildings. While the rented buildings in Richmond are now nearly all abandoned, some districts in other parts of the borough are congested, so that \$1,000 is a set to cover contingencies.

The following statement shows the totals of the estimates or items comprising the General School Fund, comparisons being made with the appropriations for the year 1898, and intermental established by the School boards of the several tems of expenditure, comprising the General School Fund, as submitted by the School boards of the several boroughs:

#### BOARDS OF LOCAL IMPROVEMENTS.

TWENTY-FIRST DISTRICT, POROUGH OF THE BRONX.

Pursuant to call by President Haffen, the members of the Local Board, Twenty-but District, met at 2 n. m., October 6, 1898, at the office of the President of the Borough of The Bronx, Manicipal Bullding, Critican Park.

Present—President Haffen and Councilman Hottenroth.

Minutes of meeting held September 15 last read and adopted.

East One Hundred and Sexty-third Street, Proving With George, from Courtlandi Avenue to Head Avenue.

Petition of France Keil and where was read. Mr. Christopher Valkmann, Frederick Winkler and Francis Keil appeared in support at it.
On motion of Councilman Hattenroth, it was
Resolved, That this Board hereby recommends to the Board of Public Improvements that the work be done.

Light Wanted in East One Hundred and Sixtyshird Street.

Mr. Francis Keit stated that there was no light of any kind at night in East One Hundred and Staty-third street, between Courtlandt avenue and Brook avenue.

On motion of Councilman Huttenrath, it was Resolved, To recommend to the Board of Public Improvements that lights be placed in One

Hundred and Sixty-third street, between Courtlands avenue and Brook aven

One Hundred and Fifty-third Street Bridge and Melross Avenue Viaduct.

One Hundred and Fifts-third Street Bridge and Meleon Attenue Viaduet.

By Councilman Hottenroth—
Whereas, It is a matter of vital necessity to the Berough of The Broax that the bridge and approaches over the New York and Harlem Railroad at East One Handred and Fifty-third street, as authorized by chapter 650 of the Laws of 1897, and the Meirose accenic studied over the tracks of the New York and Harlem and the Port Morris branch of the New York and Harlem Railroad, connecting Melrose arenue from East One Hundred and Sixty-third street to the junction of Webster avenue and Brook avenue at East One Hundred and Sixty-fifth street, as authorized by chapter 680 of the Laws of 1897, be constructed at the earliest moment possible, and
Whereas, The contracts for both works have been let; therefore be it
Resolved, That the Corporation Counsel be and he is hereby requested to take steps immediately to acquire any easement or right of way that may be necessary for the bridge and approaches over the tracks of the New York and Harlem Railroad at One Hundred and Fifty-third street, in the Borough of The Brows; and, be it
Resolved, further, That the Corporation Counsel be and he is lorely requested to procure, as soon as possible, the appointment of Commissioners of Estimate and Assessment, so that the necessary lands or easements may be acquired for the construction of the Melrose Avenue riaduct.

Adopted.

Adopted.

Councilman Hottenroth submitted the following, and a suitable ordinance therefor was recommended to the Municipal Assembly:

The petition of the undersigned respectfully represents:

That they reside on and comprise all the owners of property on the west side of Anthony avenue, between Berry and Bush streets, in the Borough of The Bronx, in The City of New York.

That the recent change of grade of Anthony avenue has left their property and said street in an unsightly condition, and that a retaining wall four feet in height and one not in thickness, will greatly improve the appearance of said street and the grounds of petitioners.

That unless the wall is constructed as contemplated, the means of access to and from the street will remain extremely impaired by such change of grade of said avenue.

That unless such retaining wall is constructed as contemplated, the foundation walls of the buildings freeting on said street and to be secured by and to about such contemplated improvement will remain exposed and assightly, and made less secure, which, however, will be remedied by the erection of such contemplated wall.

That "Exhibit A" hereto amened is a sketch or plan of a portion of the retaining well and steps as contemplated to be exerted in front of the places of residence of the petitioners on the west side of said avenue.

Your petitioners therefore pray that they may be quarted the privilege of constructing a retaining wall more feel in height and one and one-half feet in thickness, at their individual expense, on the sidewalk in front of their residences, so that the outer side of the retaining wall treating on said street shall be, not exceeding one foot, beyond the line designated in the Ordinances of the City of New York as the stoop line of their respective residences.

(Signed) JOHN J. McCAFFREV and eight others.

Adjournment.

JOSEPH P. HENNESSY, Secretary.

#### TWENTY-SECOND DISTRICT, BOROUGH OF THE BRONX,

OCTUBER &, 1898.

Present—President Haffen, Councilman Hyland and Alderman Gass. Minutes of September 15 last, read and adopted.

Somers Construction in Former Village of Wakeheld.

The following petition was read and, on motion of Alderonan Gass, it was resolved that it be forwarded, with recommendation, to the Board of Public Improvements:

To the Heard of Local Improvements, Themps-mond District, Borous of the Booms;
GENVLEMEN—On behalf of the Wakefield Improvement Association of the Annexed District of The City of New York, the undersigned respectfully request that spendy action be taken looking to the construction of severs on so many of the streets of the late Village of Wakefield as lie on the water-shed of the Bronx river. We understand that the necessary legislation has been secured to make it possible to comply with this request, and it only needs action by your Board to put it into effect.

The taxpayers of this territory are fully aware that the expense of sewers must be assessed directly back upon the property, and will cheerfully bear this expense to secure the much-needed benefit.
