Present—Seth Low, Mayor; Edward M. Grout, Comptroller; Charles V. Fornes, President of the Board of Aldermen; Jacob A. Cantor, President of the Borough of Manhattan; J. Edward Swannstrom, President of the Borough of Brooklyn; Louis F. Haffen, President of the Borough of The Bronx; Joseph Cassidy, President of the Borough of Queens; George Cromwell, President of the Borough of Richmond.

Hon. Seth Low, Mayor, presiding.

The reading of the minutes of the meetings held July 11, 18, 25 and 28, August 4, 7, 21 and 28, September 5, 12 and 26, and October 3, 6, 8, 9, 10, 13, 14, 15, 16, 17, 20, 22, 23 and 24 was dispensed with.

The Secretary presented the following communication from the Brooklyn League approving of the action of the Commissioner of Water Supply, Gas and Electricity and the Board of Estimate and Apportionment in reference to the resolution adopted affecting the removal of overhead feed wires in the Borough of Brooklyn, etc.:

BROOKLYN, N. Y., October 20, 1902.

Resolved, That the Brooklyn League express its approval of the action of the Commissioner of Water Supply, Gas and Electricity and of the Board of Estimate and Apportionment in reference to the resolutions adopted affecting the removal of overhead feed wires in Brooklyn; further

Resolved, That the Brooklyn League shall co-operate with the Department in whatever way possible to secure the enforcement of its resolutions.

(Signed)

HIRAM R. STEELE, Chairman.

JOHN B. CREIGHTON, Secretary.

Extract from the minutes of the meeting held October 15, 1902.

The Secretary presented two communications from the Police Department, under date of October 20, 1902, relative to the appointment of Thomas R. Short as Architect to prepare plans, etc., for the station houses of the Nineteenth and Seventy-fifth Precincts, which were ordered on file.

The Secretary presented a communication from the Commissioner of Bridges, under date of October 21, 1902, requesting the transfer of \$1,000 to "Supplies and Contingencies":

NEW YORK CITY, N. Y., October 21, 1902.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—I respectfully request the transfer in the estimate of 1902 of \$1,000 from "Salaries—General Administration, 1902," to "Supplies and Contingencies, 1902."

Respectfully,

G. LINDENTHAL, Commissioner of Bridges.

The following resolution was offered:

Resolved, That the sum of one thousand dollars (\$1,000) be and hereby is transferred from the appropriation made to the Department of Bridges for the year 1902, entitled "Salaries—General Administration, 1902," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the said Department for 1902, entitled "Supplies and Contingencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan and Brooklyn—13.

The Secretary presented the following communication from the Deputy and Acting Commissioner of Water Supply, Gas and Electricity, requesting the transfer of \$1,147 to "Borough of Queens, Rental of Fire Hydrants":

CITY OF NEW YORK, October 17, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

DEAR SIR—To enable this department to pay bills for hydrant rentals of last year that exceeded the estimated amounts, I have to request your Board to transfer \$1,147 to the appropriation "Rentals of Fire Hydrants," 1901, Queens, from the following appropriations of 1901, Borough of Queens, from which the amounts may be spared, viz.:

Laying water mains.....	\$337 00
Maintenance and repairs of water pipes.....	285 00
Pumping stations, fuel and supplies.....	525 00
	<u>\$1,147 00</u>

Respectfully,

WM. A. DE LONG,

Deputy and Acting Commissioner of Water Supply, Gas and Electricity.

The following resolution was offered:

Resolved, That the sum of one thousand one hundred and forty-seven dollars (\$1,147) be and hereby is transferred from the appropriations made to the Department of Water Supply for the year 1901, entitled and as follows:

"Borough of Queens: Laying water mains".....	\$337 00
"Borough of Queens: Maintenance and repairs of water pipes, etc.".....	285 00
"Borough of Queens: Pumping stations, fuel and supplies"....	525 00
	<u>\$1,147 00</u>

—the same being in excess of the amounts required for the purposes thereof, to the appropriation made to the same Department for 1901, entitled "Borough of Queens: Rentals of Fire Hydrants," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan and Brooklyn—13.

The Secretary presented the following resolution from the Department of Education, requesting the transfer of \$5,000 to "Special School Fund, Incidental Expenses":

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to transfer the sum of five thousand dollars (\$5,000) from the Special School Fund of the Department of Education for the current year and from the item contained therein, entitled "Supplies," which item is in excess of its requirements, to the item also contained within the Special School Fund for the current year, entitled "Incidental Expenses," which item is insufficient for its purposes.

The Secretary presented the following report from the Engineer of the Department of Finance relative to the requisitions of the Board of Education for appropriations as follows:

BOROUGH OF MANHATTAN.

Improving lots, Public School 70.....	\$9,400 00
Construction of Public School 110.....	222,640 00
Alterations and repairs, Public School 49, Annex.....	13,992 00

BOROUGH OF BROOKLYN.

Heating and ventilating, Public School 141.....	\$286,645 00
Sanitary work, Public School 139.....	7,840 00

October 20, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—At a meeting of the Board of Education, held October 15, 1902, resolutions were adopted appropriating Corporate Stock, subject to the approval of the Board of Estimate and Apportionment, for the following purposes, contracts for which have been awarded:

BOROUGH OF MANHATTAN.	
Improving lots, Public School 70, John Fury.....	\$9,400 00
Construction of Public School 110, Peter Cleary.....	222,640 00
Alterations and repairs, Public School 49, Annex, P. Sullivan..	13,992 00
BOROUGH OF BROOKLYN.	
Heating and ventilating, Public School 141, Frank Dobson....	\$28,645 00
Sanitary work, Public School 139, James Harley.....	7,840 00
Total.....	\$282,517 00

The contracts were all awarded to the lowest bidders after due advertisement.

The work at Public School 70 consists in removing the buildings on a plot of land 125 feet on Seventy-sixth street by 102 feet 2 inches in depth, immediately in the rear of the present school building, and which plot was acquired in the years 1897 and 1900, building fence walls, concreting yard and sidewalks, and removing closets to the new yard. A full description of the new building to be erected on the northeasterly corner of Broome and Cannon streets, Public School 110 has been furnished me by the Superintendent of School Buildings and is inclosed.

At Public School 49 a plot of land 100 feet on Thirty-eighth street by 72 feet 6 inches deep, immediately in the rear of the present building, was acquired in 1899 and the present contract calls for the taking down of the three-story brick buildings to the height of the first story and forming ten new class-rooms in the buildings. The yards are to be concreted, new water closets built and a heating apparatus installed.

In Brooklyn the two contracts are for work on new buildings, heating plant in one and plumbing for the other.

I am of the opinion that the appropriation as made may be properly approved by the Board of Estimate and Apportionment.

Respectfully,

EUG. E. McLEAN, Engineer.

PUBLIC SCHOOL 110, BOROUGH OF MANHATTAN.

This new building is to be erected on the northeasterly corner of Broome and Cannon streets, and will be five stories in height, with cellar underneath containing the boiler, coal and fan rooms.

The building will occupy a space 150 feet by 100 feet. This includes the space now occupied by the old school, which will be removed, making it necessary to build and equip one portion of the new building first and then remove the old building before finishing the entire structure.

The exterior will be faced with stone to the level of the second-story window sills and above will be of gray brick and terra cotta; the interior will be entirely fireproof in construction.

The style of the building is somewhat of the Tudor Gothic, conventionalized to meet modern requirements.

The building has been arranged to provide for a playground and gymnasium on the first floor, while the four succeeding floors provide accommodations for thirty-six class-rooms, portions of the second and fourth floors being constructed with sliding-door partitions, which slide back against the side walls forming large assembly rooms.

The building will accommodate about sixteen hundred pupils.

Each floor will be provided with the proper number of teachers' retiring rooms and toilets; also pupils' wardrobes, closets, etc. The main toilet accommodations for pupils will be placed in a separate building in the yard.

Shower baths and lockers have been provided on the first floor.

The building will be equipped with the most modern and approved apparatus and furniture.

The plenum system of forced ventilation will be employed and the building will be heated by steam. The sanitary appliances will be complete in every particular, and the structure when completed will be one of the best and most modern of public schools.

The present contract includes the general construction only, and amounts to \$222,640.

October 17, 1902.

To the Executive Committee:

The Committee on Buildings respectfully reports that, in response to duly authorized advertisements for bids for improving lots, etc., Public School 70, Borough of Manhattan, and for the general construction of Public School 110, Borough of Manhattan, the following bids were received by the Superintendent of School Buildings:

The Secretary presented a communication from the Board of Education requesting that the salaries of Thomas J. Cline and James M. De Witt, Patrol Inspectors, Bureau of Buildings, be increased to \$30 per week, and that their title be changed from "Patrol Inspector" to that of "Inspector of Repairs." Also requesting that the salary of Christopher A. Kassenbrock, Electrician in the Bureau of Buildings, Borough of Brooklyn, be increased from \$27 to \$30 per week.

Referred back for a statement of reasons for such increases.

The Secretary presented the following communication from the Board of Education requesting that the salaries of Cornelius F. McCahill and Matthew S. O'Connor, Clerks in the Bureau of Buildings, be fixed at the rate of \$750 per annum:

To the Executive Committee:

The Committee on Supplies respectfully reports that Cornelius F. McCahill, Junior Clerk in the Bureau of Supplies, and Matthew S. O'Connor, Junior Clerk in the Bureau of Buildings, have been certified by the Municipal Civil Service Commission as eligible for appointment to the position of Clerk in the Building Bureau at a salary of \$750 per annum. The two persons mentioned have been employed in this Department for upwards of two years, and have rendered efficient and satisfactory service. The Superintendents of the above-mentioned Bureaus report that they are well equipped for the work they are now doing, and that it would be greatly to the disadvantage of their respective Bureaus if these clerks should be transferred elsewhere.

Your committee has given the matter very careful consideration, and recommends that the salaries of Messrs. McCahill and O'Connor be increased to \$750 per annum each.

The following resolution is submitted for adoption:

Resolved, That the Board of Estimate and Apportionment be and it is hereby

requested to recommend to the Board of Aldermen, that the salaries of the following-named employees in the Board of Education be increased as specified below:

Cornelius F. McCahill, Clerk, to be promoted from the position of Junior Clerk in the Bureau of Supplies, \$750 per annum (present salary \$540.)
Matthew S. O'Connor, Clerk, to be promoted from the position of Junior Clerk in the Bureau of Buildings, \$750 per annum (present salary \$540.)

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Amended Greater New York Charter, that the salaries of the following-named Clerks in the Department of Education be fixed as follows:

Cornelius F. McCahill, Clerk, Bureau of Buildings..... \$750 00
Matthew S. O'Connor, Clerk, Bureau of Buildings..... 750 00
=====

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan and Brooklyn—13.

The Secretary presented the following communication from the Board of Education requesting that the salary of Amelia Saumenicht, Stenographer and Typewriter, be increased from \$750 to \$900 per annum, and that the salary of James J. Brady, Clerk, be increased from \$750 to \$900:

NEW YORK, October 16, 1902.

Hon. JOHN W. STEVENSON, Deputy Comptroller, City of New York:

DEAR SIR—I beg leave to call your attention to resolutions adopted by the Executive Committee of the Board of Education September 17, 1902, relative to increasing the salary of Amelia Saumenicht, Stenographer and Typewriter, from \$750 to \$900 per annum, and the salary of John J. Brady, Clerk, from \$750 to \$900 per annum. Miss Saumenicht was promoted to take the place of a Stenographer and Typewriter who received a salary of \$1,050 per annum, and Mr. Brady was promoted to take the place of an employee who resigned receiving \$1,200 per annum.

It is to be hoped that inasmuch as these promotions involve a saving to the City of \$450 per annum, necessary action in the matter will be taken by the Board of Estimate and Apportionment without delay. May I request that you will give this matter your personal attention?

Respectfully,

A. EMERSON PALMER, Secretary, Board of Education.

The Secretary presented the following communication from the Board of Education requesting the fixing of salaries of certain Draughtsmen:

To the Executive Committee:

The Committee on Buildings respectfully reports that on September 24, 1902, it presented a report to the Board recommending the temporary appointment of fifteen Draughtsmen (60 days), pending a competitive examination to be held by the Municipal Civil Service Commission. (See Journal, pages 1823-25.) This examination was held on September 15, 1902, and all of the fifteen men appointed temporarily, with the exception of Bertram R. Williams, George H. Dumper and Theodore McClosky, took advantage of it, and all passed successfully except Harry W. Cooke and Louis Goltz. These five men have been notified that their services will be dispensed with on October 11, 1902, under Rule 7 of the Municipal Civil Service Commission.

There have also been certified by the Municipal Civil Service the names of seven other persons eligible for appointment as Architectural Draughtsmen. These men have been examined as to qualifications, etc., and have been placed on duty.

The following resolutions are submitted for adoption:

Resolved, That the appointments of the following-named Draughtsmen, whose temporary appointment was approved by the Board of Education on September 24, 1902 (see Journal, pages 1823-25), be and they are hereby confirmed, the rates of compensation to be subject to the approval of the Board of Estimate and Apportionment and the Board of Aldermen, as required by section 56 of the Revised Charter:

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan and Brooklyn—13.

The Secretary presented a communication from the Board of Education requesting that the salaries of two Physicians to be appointed by the Board of Education to examine applicants for Teachers' licenses, be fixed at \$1,200 each per annum.

Referred back to the Board of Education for further information.

The Secretary presented a report from the Engineer of the Department of Finance in regard to the proposed Carnegie Library site on the northeast corner of Main and Woolsey streets, Astoria, Borough of Queens.

Referred to the Comptroller.

The President of the Borough of The Bronx appeared and took his seat in the Board.

The continuation of the hearing in regard to the report of the Comptroller and of the State Board of Charities relative to the Institution for the Improved Instruction of Deaf Mutes was postponed until November 7, 1902, at 11 a. m.

The Secretary presented the following request from the Police Department, requesting authority to have surveys made of premises No. 135 West Thirtieth street, Borough of Manhattan, the same having been acquired by the City for an additional site for the Nineteenth Precinct:

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
300 MULBERRY STREET,
NEW YORK, October 18, 1902.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—The following proceedings were this day directed by the Police Commissioner:

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested to authorize the Police Commissioner to procure survey of premises No. 135 West Thirtieth street, Manhattan, such premises having been acquired by the City for the purposes of an additional site for a station-house for the Nineteenth Precinct, in order that the architect designated by the Board of Estimate and Apportionment October 13, 1902, Thomas R. Short, may prepare plans and specifications for the building upon said premises, together with the present site of the Nineteenth Precinct Station-house, of a station-house, prison and stable for patrol wagons, the expense of said survey to be paid from the appropriation when raised by the issue of Corporate Stock of The City of New York, requested by the Police Commissioner in communication of July 31, 1902.

Very respectfully,

WILLIAM H. KIPP, Chief Clerk.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby authorizes the Police Commissioner to have surveys made of premises No. 135 West Thirtieth street, Borough of Manhattan, such premises having been acquired by the City for an additional site for a station-house for the Nineteenth Precinct.

The Secretary presented the following communication from the Police Department requesting authority to have surveys made of premises on the north side of Fourth street, one hundred feet west of Vernon avenue, Long Island City, said premises having been assigned by the Commissioners of the Sinking Fund through the Police Department for a station-house for the Seventy-fifth Precinct:

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
300 MULBERRY STREET,
NEW YORK, October 18, 1902.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—The following proceedings were this day directed by the Police Commissioner:

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested to authorize the Police Commissioner to have surveys made of premises formerly owned by the Board of Education, on north side of Fourth street, 100— feet west of Vernon avenue, 125— by 100— feet, Long Island City, which premises were assigned by the Commissioners of the Sinking Fund to the Police Department for the purposes of a station-house for the Seventy-fifth Police Precinct, in order that the architect designated by the Board of Estimate and Apportionment October 13, 1902, Thomas R. Short, may prepare plans and specifications for the building upon said premises of a station-house, prison and stable for patrol wagons.

Very respectfully,

WILLIAM H. KIPP, Chief Clerk.

The Secretary presented the following report of the Engineer of the Department of Finance relative to plans and specifications for certain repairs and additions and improvements to the buildings of the Department of Public Charities:

October 23, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. Homer Folks, Commissioner, Department of Public Charities, in communication under date of October 16, 1902, requests the Board of Estimate and Apportionment, pursuant to chapter 724 of the Laws of 1896, to approve the plans and specifications for certain repairs, additions and improvements to the buildings of the Department of Public Charities.

I would report:

First—For furnishing and installing steam heating apparatus at the male and female barracks, Almshouse, Blackwell's Island. Estimated approximate cost, \$10,000.

These buildings are provided at present with a few direct radiators and an indirect scheme for the general heating of the buildings. The present indirect heating system, I am informed by the Supervising Engineer of the Department of Public Charities, is a failure, and does not heat the building satisfactorily. The use of this old system is to be discontinued and disconnected in so far as it interferes with the installation or operation of the new. The new or proposed work consists of an entirely new system of steam and return mains, together with a number of radiators, as set forth in the specifications and shown on the plans, erected in manner known as "one pipe system."

Second—For installing steam heating apparatus in building known as Wards 25 to 28, together with new system of returns for building known as Wards 21 to 24, Randall's Island. Estimated approximate cost, \$2,000.

The work in Wards 25 to 28 consists of furnishing and erecting sixty-four new radiators, running new steam and return mains as shown on plan; the system is to be the ordinary "two pipe system." In building known as Wards 21 to 24, the present old return is to be replaced by an entirely new system of return mains and branches, beginning at the return valve in radiators and running branches to the 2-inch main, which is to be provided and is to run at the highest point in cellar, and connect to the present 2-inch line which runs to basement of Wards 25 to 28.

Third—For installing steam heating apparatus in a building known as the Retreat Building, occupied by the Tuberculosis Infirmary on Blackwell's Island. Estimated approximate cost, \$8,000.

It is the intention to provide an entirely new heating apparatus for the building. This is to consist of sufficient surface to be connected up in a manner known as the "one pipe system." Steam will be supplied from boilers located in boiler-house through 6-inch main which now runs through subway and into basement of this building.

The specifications and plans for the respective work clearly state how the work is to be done, and the estimates appear to be made with some care. As stated by the Commissioner, the money being available, I think the Board of Estimate and Apportionment, pursuant to section 2 of chapter 724 of the Laws of 1896, may properly approve the plans and specifications.

Respectfully,

EUG. E. McLEAN, Engineer.

DEPARTMENT OF PUBLIC CHARITIES,
BOROUGH OF MANHATTAN AND THE BRONX,
NEW YORK, October 16, 1902.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment:

DEAR SIR—Pursuant to the provisions of chapter 724, Laws of 1896, I beg to submit herewith for the approval of the Board of Estimate and Apportionment plans and specifications for certain repairs, additions and improvements to the buildings of this Department. The plans and specifications proposed are as follows:

1. For furnishing and installing steam heating apparatus at the male and female barracks, Almshouse, Blackwell's Island. Estimated approximate cost.....	\$10,000 00
2. For installing steam heating apparatus in the building known as Wards 25 to 28, on Randall's Island. Estimated cost.....	2,000 00
3. For installing steam heating apparatus in a building known as the Retreat Building, occupied by the Tuberculosis Infirmary, on Blackwell's Island. Estimated cost.....	8,000 00

The funds for the above purposes are available from bonds previously authorized under the provisions of chapter 724, Laws of 1896, by reason of the fact that certain work for which the issue of bonds under this statute was authorized has been considered less important and has not been carried out. Among the pieces of work for which bonds were authorized from this fund, but which have not been carried out, are:

Four new pavilions, Infants' Hospital. Estimated cost.....	\$125,000 00
Receiving and Ferry House, City Hospital landing. Estimated cost.....	7,500 00

I have the honor to remain,

Yours very truly,

HOMER FOLKS, Commissioner.

P. S.—As it is desirable that this work should be completed at as early a date as may be possible, I beg to request that action be taken as speedily as may be practicable.

The following resolution was offered:

Resolved, That pursuant to chapter 724 of the Laws of 1896, the Board of Estimate and Apportionment hereby approves of the plans and specifications submitted by the Department of Public Charities for the following works:

1. For furnishing and installing steam heating apparatus at the male and female barracks, Almshouse, Blackwell's Island. Estimated cost.... \$10,000 00
2. For installing steam heating apparatus in the building known as Wards 25 to 28, on Randall's Island. Estimated cost..... 2,000 00
3. For installing steam heating apparatus in a building known as the "Re-treat Building," occupied by the Tuberculosis Infirmary, on Blackwell's Island. Estimated cost..... 8,000 00

—and that the Department of Public Charities be and hereby is authorized to proceed with the construction thereof, and that payment of the expenses thereby incurred be met out of the proceeds of any bonds heretofore authorized to be issued pursuant to said act.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx—14.

The Secretary presented the following report from the Engineer of the Department of Finance relative to the purchase by the Fire Commissioner, with the assent of the Comptroller, of the premises on East Eighth street, Borough of Queens, for the sum of \$3,500, for Fire Department purposes:

October 23, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—In communication under date of October 22, 1902, the Commissioner of the Fire Department requests the Board of Estimate and Apportionment to authorize the Fire Commissioner to purchase at private sale, from Joseph and Elizabeth McKee, premises in the First Ward, Borough of Queens, for the sum of \$3,500, said premises being located and described as follows:

Beginning at a point on the southerly side of East Eighth street, 175 feet west of the westerly line of East avenue; running thence southerly and parallel with East avenue 100 feet; thence westerly and parallel with said East Eighth street 50 feet; thence northerly and parallel with said East avenue 100 feet to the southerly line of said East Eighth street; thence easterly along the southerly line of said East Eighth street 50 feet to the place of beginning.

I would report that on October 14, 1901, in connection with other fire sites, I reported that the asking price—\$3,500—was just and reasonable. Hence I think the Board of Estimate and Apportionment can properly authorize the Fire Commissioner to enter into an agreement, subject to the consent of the Comptroller, to purchase at private sale the above described premises for a sum not to exceed \$3,500.

Respectfully,

EUG. E. McLEAN, Engineer.

HEADQUARTERS FIRE DEPARTMENT CITY OF NEW YORK,
Nos. 157 AND 159 EAST SIXTY-SEVENTH STREET,
BOROUGH OF MANHATTAN, October 22, 1902.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—I am directed by the Commissioner to transmit herewith for the action of your Board drafts of two resolutions authorizing the purchase at private sale by the Fire Commissioner, pursuant to the provisions of chapter 151, Laws of 1894, with the assent of the Comptroller, as required by section 149 of the Greater New York Charter, from Joseph and Elizabeth McKee, of two plots of ground, each 100 by 25 feet, on East Eighth street, First Ward, Borough of Queens, for the sum of \$1,750 each. The assent of the Comptroller has already been accorded.

Yours respectfully,

JOHN R. SHIELDS, Assistant Secretary.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the purchase at private sale by the Fire Commissioner, with the assent of the Comptroller, as required by section 149 of the Greater New York Charter, of the plot of ground beginning at a point on the southerly line of East Eighth street, one hundred and seventy-five (175) feet west of the westerly line of East avenue; running thence southerly and parallel to East avenue one hundred (100) feet; thence westerly and parallel to said East Eighth street twenty-five (25) feet; thence northerly and parallel to said East avenue one hundred (100) feet to the southerly line of said East Eighth street, and thence easterly along the southerly line of East Eighth street twenty-five (25) feet to the point or place of beginning, in the Borough of Queens, from Elizabeth McKee, for the sum of one thousand seven hundred and fifty dollars (\$1,750).

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx—14.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the purchase at private sale by the Fire Commissioner, with the assent of the Comptroller, as required by section 149 of the Greater New York Charter, of the plot of ground beginning at a point on the southerly line of East Eighth street two hundred (200) feet west of the westerly line of East avenue; running thence southerly and parallel to East avenue one hundred (100) feet; thence westerly and parallel to said East Eighth street twenty-five (25) feet; thence northerly and parallel to said East avenue one hundred (100) feet to the southerly line of said East Eighth street, and thence easterly along the southerly line of East Eighth street twenty-five (25) feet to the point or place of beginning, in the Borough of Queens, from Joseph McKee, for the sum of one thousand seven hundred and fifty dollars (\$1,750).

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx—14.

The Secretary presented the following report of the Engineer of the Department of Finance relative to the purchase of a site for an apparatus house at Richardson and Ewen streets and Manhattan avenue, in the Borough of Brooklyn:

October 23, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. Thomas Sturgis, Fire Commissioner, in communication under date of October 20, 1902, requests the Board of Estimate and Apportionment to authorize the purchase at private sale, from Mary L. Brush, for the sum of \$1,500, of a site for an apparatus house, said plot in the Borough of Brooklyn, located and described as follows:

Beginning at a point on the northerly line of Richardson street distant 150 feet westerly from the corner formed by the intersection of the westerly line of Ewen street (now called Manhattan avenue) with the northerly line of Richardson street; running thence northerly and parallel with Manhattan avenue 100 feet; thence westerly and parallel with Richardson street 25 feet; thence southerly and parallel with Man-

hattan avenue 100 feet to the northerly line of Richardson street, and thence easterly 25 feet to the point or place of beginning.

I would report that on March 25, 1902, in connection with other fire sites in the Borough of Brooklyn, I recommended this site and reported that I considered the asking price, \$1,500, just and reasonable. Hence I think the Board of Estimate and Apportionment can properly authorize the Fire Commissioner to enter into an agreement, subject to the consent of the Comptroller, to purchase at private sale the above-described premises for a sum not to exceed \$1,500.

Respectfully,

EUG. E. McLEAN, Engineer.

BOROUGH OF MANHATTAN, October 20, 1902.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—I have the honor to request that, pursuant to the provisions of chapter 151 of the Laws of 1894, your Honorable Board approve of the purchase, at private sale, by the Fire Commissioner, with the assent of the Comptroller, as required by section 149 of the Greater New York Charter, as a site for an apparatus house, of the plot of ground beginning at a point in the northerly line of Richardson street distant 150 feet westerly from the corner formed by the intersection of the westerly line of Ewen street (now called Manhattan avenue) with the northerly line of Richardson street; running thence northerly parallel with Manhattan avenue 100 feet; thence westerly parallel with Richardson street 25 feet; thence southerly parallel with Manhattan avenue 100 feet to the northerly line of Richardson street, and thence easterly 25 feet to the point or place of beginning, in the Borough of Brooklyn, from Mary L. Brush, for the sum of one thousand five hundred dollars (\$1,500).

The purchase price will be payable from the proceeds of the bond issue of \$241,000 for sites and buildings, Boroughs of Brooklyn and Queens, approved of, pursuant to the provisions of section 48 of the Greater New York Charter, by the Board of Estimate and Apportionment, April 10, 1901, the necessary ordinance to give effect thereto having been adopted by both branches of the Municipal Assembly and approved by the Mayor June 5, 1901. The funds thereunder became available December 19, 1901.

It is understood that, in accordance with the requirements of section 149 of the Greater New York Charter, the Comptroller will assent to the purchase of the property at private sale at the price named, in view of the report to him on the subject of the Engineer of the Department of Finance under date of March 25, 1902.

Early and favorable action by your Honorable Board on this matter is desirable, as the public welfare requires that a firehouse be erected on the site in question at the earliest practicable day.

Yours respectfully,

THOS. STURGIS, Commissioner.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the purchase at private sale by the Fire Commissioner, with the assent of the Comptroller, as required by section 149 of the Greater New York Charter, of the plot of ground in the Borough of Brooklyn, located and described as follows:

Beginning at a point on the northerly line of Richardson street distant one hundred and fifty (150) feet westerly from the corner formed by the intersection of the westerly line of Ewen street (now called Manhattan avenue) with the northerly line of Richardson street; running thence northerly and parallel with Manhattan avenue one hundred (100) feet; thence westerly and parallel with Richardson street twenty-five (25) feet; thence southerly and parallel with Manhattan avenue one hundred (100) feet to the northerly line of Richardson street; thence easterly twenty-five (25) feet to the point or place of beginning,

—from Mary L. Brush, for the sum of one thousand five hundred dollars (\$1,500).

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx—14.

The Secretary presented a communication from the Department of Health, requesting an amendment to a resolution authorizing the issue of \$75,000 for repairs and alterations to various buildings.

Laid over, and the Secretary directed to advise the Department of Health that such amendment should emanate from the Board of Aldermen.

The Secretary presented the following communication from the Sheriff of the County of New York, relative to repairs, painting, etc., to the County Jail:

NEW YORK, October 22, 1902.

To the Board of Estimate and Apportionment:

GENTLEMEN—The Superintendent of Public Buildings and Offices, admitting that the New York County Jail requires extensive repairs, both inside and out, and to the roof, is, however, unable to have the work done now, because his appropriation for this year is insufficient, but offers to undertake the work immediately as soon as the appropriation for 1903 becomes available.

The condition of the interior of the jail is such as to demand immediate attention.

If your Honorable Board will cause an accurate estimate to be made of the cost of such repairs, painting, etc., as I shall indicate, and a contract is let, I will consent to the transfer of the amount of such contract from the appropriation made to me for the current year, entitled "Salaries—Sheriff's Office," in which there will be at the end of this year an unexpended balance of about \$3,500.

Respectfully,

WILLIAM J. O'BRIEN, Sheriff.

The following resolution was offered:

Resolved, That the communication from the Sheriff of New York County be referred to the Engineer, to have an accurate estimate made of the cost of the contemplated repairs to the County Jail.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx—14.

The Secretary presented the following communication from the Brooklyn Public Library, requesting an appropriation for the removal of buildings, survey of lots, grading, curbing and other work necessary to place sites purchased by the City in condition for the erection of library buildings:

October 22, 1902.

To the Honorable the Board of Estimate and Apportionment, New York City:

GENTLEMEN—At a meeting of the Board of Directors of the Brooklyn Public Library, held Tuesday, October 21, 1902, the following resolution was unanimously adopted:

"Resolved, That the Board of Estimate and Apportionment be requested to appropriate sufficient money for the removal of buildings, survey of lots (showing levels), grading, curbing and other work necessary to place the sites purchased by the City in condition for the erection of the Carnegie Library buildings."

Respectfully yours,

R. ROSS APPLETON, Secretary.

The Secretary was instructed to inform the trustees of the Carnegie Library Fund of the Borough of Brooklyn that the Carnegie Library Committee in Manhattan treats the matters referred to in the aforesaid communication as part of the construction work of the building, and takes the money out of the cost of the building, and that in the judgment of the Board of Estimate and Apportionment this course should be followed in all boroughs.

The President of the Borough of Queens appeared and took his seat in the Board.

The Secretary presented a communication from the Commissioner of Bridges, under date of October 22, 1902, requesting an issue of Corporate Stock to the amount of \$175,000 for the acquisition of property and the construction of a new bridge at Borden avenue over Dutch Kills creek, in the Borough of Queens.

Referred to the Engineer of the Board for report.

The Secretary presented the following communication from the President of the Borough of Manhattan, requesting the appropriation of \$250,000 for the purpose of constructing pipe galleries in the subway of the Rapid Transit Railway, from Ann street to Morris street, together with a report of Professor James C. Bayles, under date of September 22, 1902; report of Nelson P. Lewis (517), Chief Engineer of the Board of Estimate and Apportionment, under date of October 14, 1902; communication of Corporation Counsel, under date of October 6, 1902, relative thereto.

CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,
CITY HALL,
September 25, 1902.

JAMES W. STEVENSON, Esq., Secretary of the Board of Estimate and Apportionment,
New York City:

DEAR SIR—I herewith request the Board of Estimate and Apportionment to appropriate the sum of two hundred and fifty thousand dollars (\$250,000) for the purpose of constructing pipe galleries in the subway of the Rapid Transit Railway on Broadway, from Ann street to Morris street.

Yours respectfully,

JACOB A. CANTOR, President.

CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,
CITY HALL, September 25, 1902.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—In connection with the request made by me for a bond issue of \$250,000 for the construction of a pipe gallery in lower Broadway, I enclose copy of a report made to me by Professor James C. Bayles, with plans prepared by him at my request.

Very truly yours,

JACOB A. CANTOR, President.

(Copy).

September 22, 1902.

Hon. JACOB A. CANTOR, President, Borough of Manhattan, New York:

SIR—In my report of July 10, on the general subject of the placing of the subterranean pipes and conduits of lower Broadway in a pipe gallery to be constructed in connection with the extension of the subway of the Rapid Transit Commission from Ann street to Morris street, I covered as well as I could from the limited amount of exact data available the argument in favor of this ultimately inevitable public improvement in connection with a work which will minimize its cost and public inconvenience of its construction. So far as possible, I shall avoid repeating in this report the points included in the one referred to.

Whether the pipe gallery shall or shall not be built as part of this important public improvement, is a question demanding instant and final decision. Indeed, it should have been decided two months ago. The working drawings for the subway have been practically completed, and orders placed for the structural steel to specifications which could be modified with advantage and economy if the pipe gallery is to be built. It is not too late, however, to make such changes as are needed to accommodate the pipe gallery; but if the work on the subway is not to be held back, it is important that drawings and calculations should be made and the steel shapes ordered without further delay.

Without knowing definitely that the city would meet the cost of the pipe gallery, the chief engineer of the Rapid Transit Board made provision for it to the extent of sinking the subway to a depth which will permit the gallery to be built over it. But for this foresight it would even now be practically impossible without great cost and loss of time to the city, to construct the gallery at all. The gallery contemplated is a chamber the width of the subway and occupying all the space between it and the supports for the street. The height of this chamber is variable, owing to the fact that the grade of the subway could not be changed to conform to that of the street surface. The minimum height or headroom, is at Rector street, where, for a short distance, the net vertical height of the space available for pipes will be about three feet. The gross vertical height is seven feet six inches. Of this it is necessary to allow about four feet six inches for the beams under the yokes of the surface electric railroad. The average headroom in the gallery will be from four to five feet. The "pinch" at Rector street is for a comparatively short distance, but the net available space even there is greater than the largest of the street mains will require, and when necessary workmen can follow them for examination and repairs without serious difficulty.

As showing what the pipe gallery will look like in cross section, in its relation to the subway and to the street surface, I hand you herewith certain plans of the Subway Commission, on which the gallery and the disposition of pipes within it are indicated in pencil. The drawings marked "2D1" and "2D2" show the subway, pipe gallery and position of pipes in gallery from Ann street to Cedar street. The drawing marked "2D3" shows the same from Cedar street to Rector street; that marked "2D4" the same from Rector street to Morris street. It will be seen by one accustomed to the reading of drawings that the work presents no difficulties of moment from the engineering point of view. The excavation of the subway will be from the surface, consequently the whole area of the gallery must be removed, whether it is replaced or not. Some difference in the proportioning of the steel beams will be necessary if the pipe gallery is built, but this is a small matter. The ceiling of the subway may be made somewhat lighter than if it had the street to sustain, while the ceiling of the gallery does not need to be calculated for the rolling loads of traffic in addition to five to eleven feet of superincumbent earth, which if the gallery is omitted will have to be carried by the arches of the subway roof. These considerations warrant the estimate that the gallery may be built from Ann street to Morris street for \$250,000. For this figure I am indebted to the calculations of the engineers of the Rapid Transit Commission. With the information at my command I could not hope to revise or correct them, and to attempt to verify them would be a work of supererogation. Their deliberate and well considered judgment in such a matter may be accepted as the best obtainable.

I recommend that you ask for an appropriation of \$250,000 to build the pipe gallery, and am convinced that this amount will be sufficient for the purpose.

A consensus of engineering opinion would warrant the conclusion on the part of any intelligent student of municipal affairs that the time is not far distant when the concentration of underground pipes in galleries, where they will be accessible from end to end, will become a public necessity by reason of the existence of intolerable conditions from leakage, street excavation and other evils inseparable from the present system. That the authorities then responsible could not be aroused to a realizing sense of their duty in this matter when the subway excavation was begun is regretted by all who appreciate the serious character of the conditions now existing and realize the magnitude and cost of the work of correcting them as an undertaking by itself. In point of fact they never can be corrected in the streets and avenues occupied by the sections of the subway now under construction. Throughout most of its length the subway is as near the surface as the requirements of the street railroads will permit. A pipe gallery above it would be impossible; galleries on either side of it would be enormously costly, and involve a doubling up of mains which would scarcely be considered practicable.

For information of the conditions, as affecting the fire and health risks of New York resulting from the enormous leakage of gas from buried mains, it is not necessary to depend upon either professional or lay opinion. From tests made for gas in a large number of places of public assembly in Manhattan by Hon. Perez M. Stew-

art, Superintendent of Buildings, the records of which are public documents, though wisely denied sensational publicity, some idea may be had of the extent to which gas leakage under impervious pavements is led or driven into buildings. The fire risk due to this cause has been studied and proclaimed in a circular (No. 559) of the National Board of Fire Underwriters. The health risks are suggested by the clinical study of typical cases of gas poisoning undertaken by the Committee on Hygiene of the New York County Medical Association. If these subjects have interest in this connection the original documents will have greater value than a summary thereof. In connection with my report of July 10, 1902, above referred to, this report seems to me to cover the subject so far as the matter immediately in hand is concerned.

Respectfully,
(Signed)

JAMES C. BAYLES.

BOARD OF ESTIMATE AND APPORTIONMENT,
NEW YORK, October 14, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On September 26 there was referred to me by the Board of Estimate and Apportionment a communication from the President of the Borough of Manhattan asking the Board to appropriate the sum of \$250,000 for the purpose of constructing pipe galleries in connection with the subway of the Rapid Transit Railroad, on Broadway, from Ann street to Morris street. This communication was accompanied by a report of Dr. James C. Bayles, and I was instructed to confer with Chief Engineer Parsons of the Rapid Transit Commission, Dr. Bayles and the Corporation Counsel as to the feasibility of constructing these pipe galleries in connection with the Rapid Transit subway, and the proper way of providing the money to pay for this construction.

In accordance with these instructions I have conferred with Chief Engineer Parsons, Dr. Bayles and the Corporation Counsel, and have also discussed the plan quite fully with representatives of the different departments and corporations having pipes, subways and conduits in the street.

The pipes and conduits to be dealt with are the following:

Those of the Department of Water Supply, Gas and Electricity the mains of the New York Steam Company; the subways of the Consolidated Telegraph and Electrical Subway Company and of the Empire City Subway Company; the mains of the Consolidated Gas Company; the tubing of the Edison Electric Illuminating Company containing wires which have not been placed in the subways; and the pneumatic tubes of the Western Union Telegraph Company north of Dey street. The sewers belonging to the City have not been considered, as it is manifestly impracticable to place them in a pipe gallery which would be over the railroad subway, and provision having already been made for them in the contract already let.

It can be taken for granted that the best place for a pipe gallery will be over the roof of the railroad subway, there being scant room for such construction on the sides of the railroad, while the grade is such as to permit placing the chamber above it, although at several places the space here will be uncomfortably limited.

I have found the different corporations whose interests are affected by this plan conciliatory and not disposed to offer any obstruction to the suggestions which I have made. These suggestions, however, have been based upon the assumption that the placing of high tension electrical conductors in the same subway with gas mains, which have always leaked to a more or less degree, would be hazardous if the high tension wires were at any time to be exposed, or were not securely encased in a separate chamber of their own. I have therefore suggested that inasmuch as the high tension wires are already in the subways of the Consolidated Telegraph and Electrical Subway Company and the Empire City Subway Company, that these subways be treated as incidents in the street, and that wherever possible they be left intact and simply be incorporated in the pipe gallery it is proposed to construct, supporting them upon the floor, suspending them from the roof or building the side walls around them, as may be determined by their position with respect to the proposed gallery. The companies are disposed to accept such an arrangement in the belief that there would be no danger of explosions of mixed gas and air caused by their wires.

The representative of the gas company tells me that the gas mains would probably be entirely relaid and that flanged joints would likely be used, although with such a rigid construction it would doubtless be necessary to provide expansion joints at frequent intervals.

The Edison Company states that what is known as Standard Edison tubing, of which there are from two to seven lines on Broadway, is designed for burying in the earth, and they do not think it wise to place such tubing in a pipe gallery without protection, and that they would probably use some other kind of insulating covering. The pneumatic tubes of the Western Union Telegraph Company present no difficulty.

All of the companies above referred to are agreed, however, that they do not wish to occupy the same chamber or gallery with the mains of the New York Steam Company, not only for the reason that the great heat of these mains at times will cause an extreme amount of expansion, but for the reason also that the temperature of the gallery would be raised to a point which would render it almost intolerable for workmen. The president of the steam company has advised me that they will place their mains where directed, at some point outside the chamber.

The limited height available in the neighborhood of Rector street would make it difficult to lay and properly care for a 24-inch gas main, which is the size of the main of the Consolidated Gas Company at this point, and it would be very desirable if the grade of the railroad subway could be lowered sufficiently at this point to permit of a greater height for the chamber. It might be possible also to obtain an increased height on the sides of the street by raising the roof outside of the cable railroad tracks, although this would mean a more expensive and difficult construction.

An essential feature of a pipe gallery of the kind proposed would be ample drainage to provide for the prompt carrying off of water in case of a break in one of the water mains or the necessity of cutting into a main for any purpose. Such drainage would be provided at frequent intervals by direct connections with the sewers, which will doubtless be located on each side of the subway, and the grade of the floor of the chamber should be such as to readily carry the water to these outlets.

It is not safe, in my judgment, to presume that the gas mains will be laid so well as effectually to prevent leakage, although Dr. Bayles is of the opinion that this can be done. Some provision should therefore be made for ventilation. This could readily be accomplished by the location, at frequent intervals in the roof of the main tunnel, of light valves, made perhaps of mica or of thin aluminum discs, which would be opened by the slight air pressure in front of moving trains and would not permit air to be drawn back in the rear of such trains. This would result in the constant forcing of air from the railroad subway into the pipe gallery, from which it would escape through perforated manhole covers. It would probably be wise, however, to install at one or two points ventilating fans, not for constant use, but for emergencies, such as the breaking of a gas main, in order that the air in the galleries might be purified before workmen entered.

As to the method of meeting the cost of this gallery, I attach a communication received from the Corporation Counsel stating that in his opinion the appropriation for this purpose had better be included in the tax levy for the year 1903. If the Board of Estimate and Apportionment should decide to do this, the availability of the funds would be assured and all the preliminary work could be done except the making of the contract. I would suggest, however, that in order to avoid complications it would probably be wise to have plans for this gallery prepared by and the inspection of the work entrusted to the engineering staff of the Rapid Transit Commission. This would probably avoid misunderstanding and delay.

Although not especially instructed so to do, I have considered the feasibility of the building of a similar pipe gallery in connection with the subway in Fulton street, between Joralemon street and Flatbush avenue, in the Borough of Brooklyn.

The grades of the subway, as shown upon the plans of the Rapid Transit Commission, are such as will not permit of the building of a pipe gallery above the railroad subway on this street, and if such an addition to the Brooklyn subway is to be considered it would be necessary to lower the grade as much as five feet. The only alternative would be the placing of the galleries at the sides of the subway. I am of the opinion, however, that the narrow, deep gallery on each side, although it would have the advantage of accommodating the sewers, would be so filled with

pipes and conduits as to make access to the lower part of it very difficult, if not impossible.

The gas and electric companies in the Borough of Brooklyn have not shown the same disposition to co-operate with the City in this matter, as have those of the Borough of Manhattan, but there are no great difficulties in the way of the construction of a subway in Fulton street except the present grade of the railroad tunnel. The distance along Fulton street, from Joralemon street to Flatbush avenue is about 2,650 feet, or about 300 feet more than the proposed gallery in Broadway, but the estimate of the cost of the latter seems very liberal and I believe the Brooklyn work would probably cost less.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, October 6, 1902.

NELSON P. LEWIS, Esq., Chief Engineer, Board of Estimate and Apportionment:

SIR—I have received your letter, dated October 1, 1902, in reference to the project for constructing pipe galleries in the subway of the rapid transit railroad on Broadway, from Ann to Morris street.

Without going into the subject at greater length it will be sufficient to state that I think that the best method of accomplishing the object will be to include in the Budget for 1903 an appropriation of the amount deemed necessary for the construction of the pipe gallery.

The money would be available immediately after the 1st of January, 1903, through the issue of revenue bonds, which is doubtless as soon as it would be actually needed.

The fact that the money had been actually appropriated would doubtless be sufficient to enable the rapid transit contractor to complete his plans and specifications for the steel work of the rapid transit structure.

Respectfully yours,
G. L. RIVES, Corporation Counsel.

The matter was referred to the Chief Engineer of the Rapid Transit Railroad Commission with a request to prepare plans for the pipe galleries referred to as soon as possible.

The Secretary presented the following communication from the Department of Health requesting the transfer of \$1,000 to "Borough of Brooklyn—Support of Ambulance Service."

NEW YORK, October 23, 1902.

Hon. EDWARD M. GROUT, Comptroller of The City of New York:

SIR—At a meeting of the Board of Health of the Department of Health, held October 22, 1902, it was

Resolved, That the Board of Estimate and Apportionment be and is hereby respectfully requested to transfer the sum of one thousand dollars (\$1,000) from the appropriation entitled "For Support of Ambulance Service, 1902, Borough of Queens," which is in excess of the amount required therefor, to the appropriation entitled "For Support of Ambulance Service, 1902, Borough of Brooklyn," which is insufficient for the purposes thereof.

A true copy.

C. GOLDBERMAN, Secretary.

The following resolution was offered:

Resolved, That the sum of one thousand dollars (\$1,000) be and hereby is transferred from the appropriation made to the Department of Health for the year 1902 entitled "Borough of Queens—Support of Ambulance Service," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the said Department for 1902, entitled "Borough of Brooklyn—Support of Ambulance Service," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The Secretary presented the following communication from the Department of Health, requesting the transfer of \$2,350 to "Borough of Manhattan—Supplies and Contingencies":

NEW YORK, October 24, 1902.

Hon. EDWARD M. GROUT, Comptroller of The City of New York:

SIR—At a meeting of the Board of Health of the Department of Health, held October 22, 1902, it was

Resolved, That the Board of Estimate and Apportionment be and is hereby respectfully requested to transfer the sum of two thousand three hundred and fifty dollars (\$2,350) from the appropriation entitled "For Removal of Night Soil, Offal and Dead Animals, 1902, Borough of Brooklyn," which is in excess of the amount required therefor, to the appropriation entitled "Supplies and Contingencies, 1902, Borough of Manhattan," which is insufficient for the purposes thereof.

The Secretary presented the following communication from the Coroners, Borough of Brooklyn, requesting the approval of an expenditure of \$600 for furniture, etc.:

CORONER'S OFFICE, BOROUGH OF BROOKLYN,
ROOM 17, BOROUGH HALL,
NEW YORK, October 23, 1902.

Hon. SETH LOW, Chairman, Board of Estimate and Apportionment, New York, N. Y.:

DEAR SIR—We desire to secure the approval of the Board of Estimate to expend \$600 for the purpose of obtaining office furniture that is absolutely necessary to preserve the records of this office. It was our intention to provide for this expenditure in our estimate for 1903, but inasmuch as there will be a sufficient amount of money unexpended of the appropriation for 1902 to cover this expenditure, we therefore submit this proposition for your approval.

Very respectfully yours,

PHILIP T. WILLIAMS,
MICHAEL J. FLAHERTY,
Coroners.

The Secretary was directed to notify said Coroners that if the appropriation for their office was sufficient to meet the expenditure, the authorization of the Board of Estimate and Apportionment to purchase said furniture was unnecessary.

The Secretary presented the following communication from the Comptroller transmitting copy of report made by the Chief Engineer of the Department of

Finance on the condition of the public markets in the Borough of Manhattan, together with his recommendations for action by the city authorities:

October 27, 1902.

To the Board of Estimate and Apportionment.

GENTLEMEN—I hand you herewith a copy of a report made by Mr. Eugene E. McLean, Chief Engineer of the Department of Finance, on the condition of the public markets in the Borough of Manhattan, City of New York, together with his recommendations for action of the city authorities.

Respectfully,

EDWARD M. GROUT, Comptroller.

October 23, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Health, at a meeting held June 11, 1902, directed that a copy of a report upon the markets of The City of New York, made by the Assistant Sanitary Superintendent, be furnished to the Comptroller.

This report deals with the general unsanitary condition of the markets, and more particularly with the dilapidated condition of the floors and roofs and the uncleanness of the walls, as well as the defective plumbing and toilet arrangements, and also, in certain cases, points out that extensive repairs to the market buildings are absolutely necessary in the interest of the public health.

Recommendations are made as to remedying these defects, and stating further that unless the matter is attended to at once certain markets should be declared a public nuisance and ordered vacated.

A supplementary report from the Health Board upon the condition of Centre Market, dated October 9, 1902, has been received, in which reference is made to the previous communication, and states that a re-inspection of Centre Market has recently been made, and that nothing has been done to remedy the defects complained of nearly four months ago, and that the Board notified President Cantor that unless it learns that improvements are to be undertaken at once it will be necessary to order Centre Market premises vacated.

Still another communication, dated October 21, from the Health Board, states that the conditions of the several markets have not been improved since the June report, and requests that the President be informed what has been done by the Comptroller in order that the conditions may be remedied.

Copy of the original report was likewise sent to the Borough President and referred by him to the Superintendent of Public Buildings and Offices, who reported that certain of the nuisances would be abated, he having served notice on the stand-holders to comply with the requirements of the Board of Health, but that there was no money available for a general overhauling of the markets as required. Further, that he had made an estimate of the amount necessary to comply with the order of the Board of Health, and that the President of the Borough will endeavor to secure an issue of Special Revenue Bonds to cover the same.

The markets are controlled by the Collector of City Revenue and Superintendent of Markets, of the Department of Finance, but the maintenance devolves upon the Superintendent of Public Buildings and Offices, connected with the office of the Borough President.

This division of authority over the markets is, to my mind, a most serious defect in the system of government, and, taken in connection with insufficient appropriations for their maintenance, is largely responsible for the conditions of the markets to-day.

The Collector of City Revenue has reported to the Comptroller under date of September 17, 1902, which report contains a statement of the revenue received from the respective markets from 1893 up to July, 1902, and this shows that the revenue increased from 1893 to 1895, after which it steadily decreased up to the present time, except in the year 1899, when the receipts from West Washington Market alone showed an increase of \$10,600 over the previous year and brought up the total amount received for that year, but the following year showed a decrease, which has continued to date.

Total revenue, 1893	\$331,169 23
Total revenue, 1895	338,385 69
Total revenue, 1901	306,153 58

In his report, the Collector describes the markets generally and their condition, and suggests that it might be advisable to use the sites of Clinton, Centre, Union, Tompkins and Catharine markets for other purposes.

Revenue from these markets, 1901	\$22,040 36
--	-------------

Markets were primarily established for the purpose of giving the local government a supervision of all food furnished the inhabitants, and the selection of locations for the different markets was made largely with a view to having them convenient to the different centres of population in the various districts.

Many of the markets of the past have been discontinued when their usefulness as such was deemed to be over, and it would now appear, from my investigation, that owing to the shifting of population away from the old centres, the encroachment of business, the changed conditions under which we now live, including the establishment of large and small stores for the sale of all food products, and especially the manner in which the markets have been maintained, or rather not maintained, but simply patched up from time to time, some radical action should be taken at once with certain of those still remaining.

I have caused an examination to be made of the five markets mentioned above, and would report that it is my opinion that these markets have outlived their usefulness for the reasons I have given, and that money spent in repairs upon them, except in the case of Tompkins Market, would be money wasted, and for your information I submit a brief history of each market, and will make certain recommendations for the utilization of the plots by the City.

The manner in which the markets as such may be abolished, is as follows:—

Section 47 of the Charter states:—

"The Board of Aldermen shall have power to provide by ordinance for the acquisition, construction or establishment of markets."

It will be necessary then to have the Board of Aldermen adopt a resolution similar to that when Essex Market was abolished in 1895, which declared the said market to be no longer a public market. (See resolution of June 4, 1895; approved by the Mayor June 7, 1895; all as printed in the minutes of the Sinking Fund of June 12, 1895, page 134.)

When the markets are abolished as such, the property should be turned over by the Comptroller to the Commissioners of the Sinking Fund, who shall reassign the same for other purposes, or dispose of the same pursuant to the provisions of Section 205 of the Charter which reads in part as follows:

"Commissioners of the Sinking Fund have power to sell * * * any City property except parks, wharves and piers and land under water * * *. If such property be market property it shall be sold only pursuant to a resolution adopted by an unanimous vote of the Commissioners of the Sinking Fund, concurred in by the Board of Aldermen. The Commissioners of the Sinking Fund shall have power to assign to use for any public purpose, any city property for whatsoever purpose originally acquired which may be found by the department having control thereof to be no longer required for such purpose."

There are no restrictions that I have been able to discover upon any of these five market sites, which would prevent their use for other City purposes, or the sale of the same upon proper action by the authorities.

Centre Market.

Located on the block bounded by Centre street, Centre Market place, Grand and Broome streets. Size of plot 88 feet 6 inches on Grand street, 35 feet 7 inches on Broome street, by 382 feet 10 inches in length on Centre street, and comprising an area of 23,750 square feet, or nine and one-half City lots.

Original site was purchased September 17, 1817, for \$5,000, and a market house, 25 feet by 80 feet, was completed in November of the same year, at a cost of \$1,000. Pursuant to chapter 232, Laws of 1836, additional land was acquired December 6, 1837, at a cost of \$32,127.38.

The present two-story and cellar brick building was erected during the year 1838, an appropriation of \$50,000 having been made. The contract price was \$40,370, and the building was opened January 17, 1839.

The ground floor was used for market purposes and the second story was assigned by the Board of Aldermen "to the use of the officers commanding the different divisions of militia."

In the year 1853 an addition on the Centre Market place side 30 feet wide and 35 feet high was made at a cost of \$5,000. The assessed valuation to-day is \$200,000. Value of land about \$275,000.

The market contains 124 stands, of which 49 are vacant, and the revenue has steadily declined since 1899, when it was \$6,500, and will probably not be over \$4,500 for 1902, with an expense account of from \$2,500 to \$2,700.

Estimate of cost of repairs to comply with the orders of the Board of Health is \$3,000. The character of this market as such has entirely disappeared, only three butchers and a poultry stand now doing business. Their trade is practically a wholesale trade and not local, in any sense of the word.

The cellar or basement is divided into 11 stands or cellars, so called, leases of which were offered at public auction on April 27, 1899, for a term of five years, and but five (5) were sold. Each lease contains a clause requiring the lessee to vacate at thirty days' notice, if the premises are required by the Corporation; the other cellars are leased from month to month. Total revenue from the cellars per annum is about \$1,600.

The occupation of these cellars is in nowise connected with market purposes, as several of them are used by Italians for sorting rags, the others for storage purposes. All are in an extremely dirty condition.

The City occupies the southerly end of the second story for court purposes for the Second District Municipal Court. In the rear of this the Police Department has a place for the storage of election material, and the northerly portion is now leased for a box manufactory, the lease being sold at the same time as the cellars, for a term of five years, at \$1,200 per annum. Total receipts from the building, about \$7,300.

I think from the above it will be seen that an expenditure of any money upon this building is not warranted, and unless such money is so spent the Board of Health has declared its intention of ordering the same vacated.

I would therefore recommend that you apply to the Board of Aldermen to discontinue the market as such. This having been done and the premises vacated, to turn the same over to the Commissioners of the Sinking Fund, who should order the building demolished or sold at auction, the purchaser to remove the building and erect a suitable fence around the entire plot. Provision will have to be made for the housing of the Second District Municipal Court.

To my mind the site of this market is a most desirable one, being so centrally located and fronting upon three main thoroughfares, and would prove a most exceptional site for a new building to be used as Police Headquarters, of which the City is sadly in need.

The present Police Headquarters covers a plot of about 15,000 square feet, and I believe that a building could be so erected on the market site of 23,750 square feet, that an open space would be left on the Broome street end, which would materially enhance the effect and beauty of such a building.

Should this proposition be considered favorably, I would recommend that an issue of Corporate Stock be made, sufficient to cover the cost of the architect's fees in preparing plans, etc.

Tompkins Market.

Located on the block bounded by Third avenue, Hall place, East Sixth and East Seventh streets and facing Cooper square. Size of plot, 181 feet 9 inches on Third avenue by 100 feet, equal to 18,175 square feet, or 7.27 City lots.

A petition was presented to the Board of Aldermen October 6, 1828, signed by Nicholas Fish and others, asking for a market near the intersection of the Bowery and Third avenue, and the above site was selected on December 15, 1828. The property was acquired by purchase December 28, 1828, the consideration being \$20,000.

By the provisions of chapter 267 of the Laws of 1829, entitled "An Act authorizing the Mayor, Aldermen and Commonalty of The City of New York to erect a public market, and to lay out a public street in the Eleventh Ward of said City," a market building was erected and opened May 8, 1830. The act provided that whenever the Mayor, etc., or their successors, shall deem the continuation of such market upon the aforesaid premises unnecessary, they were empowered to convert the said premises to any other public purpose, or dispose of the same.

The present market building, a three-story and basement iron structure, was completed August 6, 1860, at a cost of \$186,541, and was originally planned for a market on the first floor, and as an armory for the Seventh Regiment. Subsequently other quarters were provided for the Seventh Regiment and the Sixty-ninth Regiment was assigned to the building, and is now in occupation of the basement, second and third floors.

The average revenue received from the market stands has been about \$6,000 per annum, and the expenses about \$2,400. The total number of stands is 110 of which 29 are now vacant. Wholesale meat dealers occupy quite a large amount of the rented space, and the character of a market for the general public is largely lost.

The report of the Health Department deals almost exclusively with the plumbing arrangements and the flooring, and the estimate as made by the Bureau of Public Buildings and Offices to put the premises in proper sanitary condition, including inside painting, is \$2,500.

The general condition of the market I consider fair, and as the building will be required as quarters for the Sixty-ninth Regiment for at least two years, until the new armory is constructed on the plot located on the west side of Lexington avenue, between Twenty-fifth and Twenty-sixth streets, which has been recently acquired for the purpose, I believe that the market should be placed in not only first-class sanitary condition, but should also be painted inside and out, as I believe that while this building remains, it should be kept in a condition creditable to the City. The stands on the outside of the building, at which are sold various articles of merchandise, are certainly not ornamental and in no wise market stands, and should be torn down.

I would therefore recommend that an issue of Special Revenue Bonds be authorized, pursuant to the provisions of subdivision 8, of section 188 of the Charter, sufficient to provide for repairs and painting, and that this market be maintained in good order until the regiment vacates the building.

The City is greatly in need of an uptown municipal building to accommodate the various departments and offices now located in leased buildings.

I give here a list of the leases made, with the square feet of space occupied, rental paid, etc., to show the requirements of the City at the present time.

List of Leased Premises.

Location.	Lease Expires.	Rental Per Annum.	Square Feet.
Health Department, No. 967 Sixth avenue.....	May 1, 1909	\$16,000 00	25,800
Bureau of Buildings, No. 220 Fourth avenue.....	May 1, 1905	16,500 00	17,500
Tenement House Commission, No. 61 Irving place.....	Feb. 1, 1907	7,200 00	6,250
Board of Examiners, No. 1 Madison avenue.....	Jan. 1, 1903	1,400 00	722
Examining Board of Plumbers, No. 149 Church street....	May 1, 1903	960 00	624
Board of Elections, Nos. 112-14 West Forty-second street..	May 1, 1907	7,500 00	7,152
Department of Correction, No. 148 East Twentieth street..	April 1, 1906	2,000 00	4,000
Total		\$51,560 00	62,048

This shows a rent roll of over \$51,000 per annum or the interest on nearly \$1,500,000, to say nothing of the inconvenience to the general public in being obliged to travel from one part of the City to another to reach the offices of various Boards, more or less intimately connected with each other, and also the time lost by the employees in going to and from the different departments.

I fully appreciate that the Board of Health would be visited by an entirely different class of people from that having business with the other offices I have mentioned, but the site of Tompkins Market is sufficiently large to provide for an almost complete isolation of the Board of Health in one end of the building with ample entrances, while the general offices could be placed in the other.

It appears to me that no site could be more advantageously located with regard to communication with all parts of the City than this one, and as the Health Board lease does not expire until 1909, and it will be impossible to obtain possession of the market property until 1904 or 1905, there is ample time to make plans and construct an office building which will meet all requirements, if the matter is taken in hand at once.

It is seldom that property can be secured fronting on four streets without large cost to the City in acquiring additional land for new streets, as in the case of the Hall of Records.

Should this proposition receive favorable consideration, I believe that it is not too early for the Board of Estimate and Apportionment to authorize an issue of Corporate Stock to provide the means necessary for the employment of an architect to draw the plans, as it must be remembered that in all cases of public buildings constructed by the City the progress has been extraordinarily slow in the past. The market property is assessed at \$176,000; valuation of land would be about \$240,000.

Clinton Market.

Located on the block bounded by Canal, Washington, Spring and West streets. Contains an area of about 23,800 square feet, equal to nine and one-half city lots. Part of the land was acquired by the City under the Charters of 1686 and 1730, and chapter 214 of the Laws of 1827, authorized the City to acquire by purchase or condemnation all the remaining land in the block not owned by the City. Two plots were secured by purchase in 1827 at a cost of \$14,650 and the remainder was condemned by a Sheriff's Jury. A market house was constructed and finished in 1829, the estimated cost of which was \$20,450.

During the present year the Bureau of Buildings condemned the building as unsafe and obtained a precept from the Supreme Court ordering the same to be taken down within 48 hours. At the earnest solicitation of the standholders, who represented that some of them had been in the market all their lives and that their means of livelihood lay in the market, I am informed that a modification of this precept was obtained, which permitted a portion of the market to stand, provided it was strengthened and made safe.

The modified order has been largely carried out and a greater part of the building has been razed to the level of the floor. That remaining consists of a wooden structure, 30 feet deep, extending along the southerly side of Spring street from the corner of Washington street for 150 feet, and along the westerly side of Washington street for 69 feet; also a two-story brick building adjoining on Washington street, about 31 feet by 41 feet. The foundations under the wooden structure are of stone and apparently of no great depth, the roof being supported by upright granite posts. The building has been strengthened by tie rods, straps and some new beams, but at best is but a shambles, and to my mind a veritable eyesore, and cannot be put in even a presentable appearance either inside or outside.

Should all of the thirty-five stands be rented, an estimate of the revenue would be about \$2,500 per annum.

I do not think it creditable to the City to own or operate such a building and I believe that it is deeply to be regretted that the original order to raze the entire structure was not carried out.

I would therefore recommend to you that you apply to the Board of Aldermen to abolish this market, and that you turn the premises over to the Commissioners of the Sinking Fund, who should order the remaining building removed, and the premises properly fenced, the fence to be painted and not used for advertising purposes.

I expect at an early date to submit a report for your consideration upon the use of this land for another city purpose.

The premises are assessed on the tax books at \$110,000, and a fair valuation of the land would be nearly twice this sum.

Union Market.

The original market site was acquired by condemnation proceedings November 21, 1834, pursuant to chapter 150 of the Laws of 1834, at a cost of \$13,888.15, and was the block bounded by East Houston, Columbia, East Second and Sheriff streets, being 21 feet 3 inches on Columbia street, 46 feet 6 inches on Sheriff street by about 200 feet in depth, and containing an area of 6,775 square feet, equal to 2.71 city lots.

A market house was constructed in 1835, a large part of which was destroyed by fire in 1836 and was rebuilt in 1837. The present three-story and cellar brick building, covering the entire plot, was erected in 1853 for a market and a police station combined, and to-day the Police Department occupies the entire building with the exception of what might be termed a store on the ground floor facing Columbia street, and cellar beneath, containing a total area of 1,500 square feet, divided up into twelve stands, five of which are leased to coffee merchants and one stand used for the sale of milk.

Outside of the building on the sidewalk are located two stands, at one of which fish is sold and at the adjoining one fruit, both stands being of a temporary character.

I do not consider that these premises are in any sense of the word a market, and as they have been allowed to become in bad repair I would recommend that you apply to the Board of Aldermen to have the same abolished as a market; that the standholders be told to vacate, and that the premises be turned over to the Commissioners of the Sinking Fund.

The receipts from the standholders for the year 1901 were less than \$1,000, and the expense of maintaining this so-called market was \$1,310.37.

I am now causing an investigation to be made to ascertain what department is most clearly in need of additional quarters, and will make a further recommendation to you as soon as I have obtained all the facts.

Catharine Market.

Located in the centre of Catharine slip, and comprising two plots of land, the first between South and Water streets, 41 feet 2 inches by 160 feet 4 inches, and the second between Water and Cherry streets, 37 feet 6 inches by 109 feet.

This land was acquired under the original charters of 1686 and 1730, and the first market was established in 1786 by Henry Rutgers and others, who obtained permission to erect a public market house at their own expense. A second building was erected in 1800 and another in 1828, and still another in 1854.

From the outside this market presents a most dilapidated appearance, and there is really but little worth preserving except the roofs, and I am in some doubt if even these would stand long enough to make it desirable to make other extensive repairs.

The stands are fairly well rented, only seven out of a total of sixty-seven being vacant. However, two restaurants, one in each building, occupy 2,200 square feet, while all of the stands for market purposes cover but about 4,500 square feet.

Extensive repairs are necessary, estimated to cost \$4,500, and as there is no sewer under the market it will be necessary to make long connections from the different leaders to comply with the orders of the Board of Health.

I am informed that the price of stands is much lower than stores in the vicinity could be secured for, and that there is little or no local trade, the market men now holding stands depending almost entirely upon the trade from the watermen.

Receipts from stands for 1901 were about \$5,000, with a promise of a slight increase this year. Expenses about \$3,500.

I do not believe the buildings, even when the orders of the Board of Health are complied with, should be permitted to stand, for, as I have said in the case of Clinton Market, it is my opinion that the City should not own and maintain any such unsightly structures, and I do not believe that were the two market houses to be entirely reconstructed and put in presentable shape, the revenue derived would pay for the new work and maintaining them in proper condition.

I would therefore recommend to you that you apply to the Board of Aldermen to abolish Catharine Market as such, the property to be turned over to the Commissioners of the Sinking Fund.

In my opinion, the land upon which these market buildings stand could not be put to better use than for street purposes, and by paving the entire width of Catharine slip the public will be much benefited.

A ferry to Brooklyn is located at the foot of Catharine slip and the roadways on either side of the market building are narrow—17 to 19 feet on one side and 28 to 30 feet on the other—when considered as the only direct approach to a ferry. The traffic is greatly congested in front of the ferryhouse and alongside of the market at frequent intervals.

It would appear to me that should this market be abolished it would be most

desirable to pave the entire space, which is greatly needed for the traffic at this point.

The property is assessed on the tax books at \$80,000, and a fair valuation of the land would be about \$125,000.

In regard to the condition of the other markets mentioned in the report of the Board of Health, I would recommend that Special Revenue Bonds be issued in an amount sufficient to enable the President of the Borough to comply with the orders issued by the said Board, and also to make other necessary repairs, which will place the markets in fairly good condition.

Much work can be done to advantage in Washington Market by removing the partition erected on the curb lines of Vesey, West and Fulton streets and replacing the same by entirely new work; also removing all the cold air pipes in the upper part of the market which are no longer in use, and placing new doors at all entrances.

Recommendations for Action.

1. The Board of Aldermen be requested to abolish by resolution the following markets:

Centre, Clinton, Union and Catharine markets.

2. That when so abolished the Comptroller cause the same to be vacated and turn the premises over to the Commissioners of the Sinking Fund.

3. That the Commissioners of the Sinking Fund (a) cause the buildings known as Centre Market and Clinton Market to be removed and the property properly fenced. (b) Assign Catharine Market site to the jurisdiction of the President of the Borough of Manhattan, with the request to remove the building and pave and maintain the market site in the same manner as the other roadways of Catharine slip. (c) Assign the site of Centre Market to the Police Department as a site for a new building for Police Headquarters. (d) Select new quarters for the Second District Municipal Court, now located in the Centre Market building.

4. That the Board of Estimate and Apportionment (a) authorize the issue of Special Revenue Bonds, pursuant to sub-division 8 of section 188 of the Charter, in an amount as may be estimated by the President of the Borough sufficient to comply with the orders of the Board of Health in regard to placing in sanitary condition the following markets:

Tompkins, Washington, West Washington, Fulton, Jefferson and Gansevoort markets.

(b) Authorize an issue of Corporate Stock to an amount not exceeding \$20,000 for the employment of an architect to prepare plans for police headquarters, to be located on the site of Centre Market.

(c) Authorize an issue of Corporate Stock to an amount not exceeding \$20,000 for the employment of an architect to prepare plans for a new municipal building, to be located on the site of Tompkins Market.

All of which is respectfully submitted.

Which was ordered on file.

The secretary presented the following resolution approving of the action of the Board of Education by resolution adopted May 28, 1902, selecting a site for school purposes on East Third and East Fourth streets, between First avenue and avenue A, Borough of Manhattan:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Board of Education by resolution adopted May 28, 1902, selecting site for school purposes in the Borough of Manhattan, located on East Third and East Fourth streets, between First avenue and Avenue A, bounded and described as follows:

Beginning at a point on the northerly line of East Third street distant two hundred and twelve (112) feet eleven (11) inches easterly from the easterly line of First avenue; running thence northerly parallel with First avenue one hundred and ninety-two (192) feet to the southerly line of East Fourth street; thence easterly along the said southerly line of East Fourth street one hundred and fifty (150) feet; thence southerly and again parallel with First avenue one hundred and ninety-two (192) feet to the northerly line of East Third street; thence westerly along said northerly line of East Third street one hundred and fifty (150) feet to the point or place of beginning;—and that the Corporation Counsel be and is hereby authorized to institute condemnation proceedings for the acquisition of the above described premises.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The secretary presented the following communication from the President of the Borough of Brooklyn, requesting a transfer of \$15,000 to "Bureau of Highways: Repairs, Maintenance and Supplies":

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,
BROOKLYN, October 25, 1902.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment, New York City:

DEAR SIR—I am directed by the President of the Borough to transmit to you, herewith enclosed, two resolutions; one for the transfer of \$12,000 and the other for the transfer of \$3,000, which he wishes to be presented at the next meeting of the Board of Estimate and Apportionment.

Yours very truly,

JUSTIN MCCARTHY, Jr., Secretary.

The following resolution was offered:

Resolved, That the sum of fifteen thousand dollars (\$15,000) be and hereby is transferred from the appropriations made to the President of the Borough of Brooklyn, for the year 1902, entitled and as follows:

"Topographical Bureau: Salaries and Supplies"	\$12,000 00
"Bureau of Public Buildings and Offices: Salaries and Wages"	3,000 00
	<u>\$15,000 00</u>

—the same being in excess of the amounts required for the purposes thereof, to the appropriation made to the said President of the Borough of Brooklyn, for 1902, entitled "Bureau of Highways; Labor, Maintenance and Supplies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The Secretary presented the following communication from the Board of City Magistrates requesting the transfer of \$1,100 to "City Magistrates' Courts, First Division, for 1902, Supplies and Contingencies":

BOARD OF CITY MAGISTRATES—FIRST DIVISION,
ONE HUNDRED AND TWENTY-FIRST STREET AND SYLVAN PLACE,
NEW YORK, October 24, 1902.

To the Board of Estimate and Apportionment:

GENTLEMEN—The Board of City Magistrates of the First Division respectfully request that your Honorable Board transfer the sum of eleven hundred dollars (\$1,100) from the salary fund of the City Magistrates' Courts of this division to the Fund for Supplies and Contingencies, that amount being necessary to meet the expenses for the balance of the year in the management of the seven City Magistrates' Courts of this division.

Respectfully,

JOSEPH M. DEUEL, President.

PHILIP BLOCH, Secretary.

The following resolution was offered:

Resolved, That the sum of one thousand one hundred dollars (\$1,100) be and hereby is transferred from the appropriation made to the City Magistrates' Courts, First Division, for the year 1902, entitled "Salaries of Police Clerks, Police Clerks' Assistants, Employees, etc.," the same being in excess of the amount required for the purposes thereof, to the appropriation made in the said City Magistrates' Courts, First Division, for 1902, entitled "Supplies and Contingencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The Secretary presented the following resolution approving of the selection of property at Bushwick avenue and DeKalb avenue, in the Borough of Brooklyn, as a site for a Carnegie Library:

Resolved, That the Board of Estimate and Apportionment hereby approves of the selection of the property located on the southeast corner of Bushwick avenue and DeKalb avenue, in the Borough of Brooklyn, being 134 feet 6 inches front on Bushwick avenue with a depth of 100 feet on DeKalb avenue, with the building thereon erected, as a site for a Carnegie Library, and hereby requests the Corporation Counsel to prepare the necessary agreement for the purchase of the same at private sale at a price not exceeding twenty-eight thousand dollars (\$28,000), which is to be presented to the Comptroller for his consent under the provisions of section 149 of the Charter.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The Secretary presented the following communication from the Commissioner of Water Supply, Gas and Electricity, requesting an amendment to a resolution adopted by the Board of Estimate and Apportionment on May 23, 1902, authorizing the issue of Corporate Stock to the amount of \$888,500 for various purposes by said Department:

CITY OF NEW YORK, October 21, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On May 23 your Board passed a resolution authorizing the issue of Corporate Stock to the total amount of \$888,500, the proceeds to be applied to certain purposes for this department.

This department was furnished originally with a copy of said resolution, providing

For additional driven wells, stations, etc.....	\$154,000 00
For additional lands for pipe conduit and stations.....	25,000 00
For test wells.....	5,000 00

In this copy no mention was made of the fact that this money was to be used for work in Suffolk County, and this department has proceeded with the work in question on certain parts of Long Island not in that county. Subsequently, another copy of this resolution has been furnished to us, in which those three items read as follows:

For additional driven wells, stations, etc., to enable the City to seek an additional water supply in Suffolk County.....	\$154,000 00
For additional lands for pipe conduit and stations, to enable the City to seek an additional water supply in Suffolk County.....	25,000 00
For test wells, to enable the City to seek an additional water supply in Suffolk County.....	5,000 00

I should like to be informed whether by the resolution as passed on May 23, 1902, I am confined in the expenditure of the money in question to work in Suffolk County, or whether the work already authorized and in progress in certain parts of Long Island not in that county may be paid for out of the proceeds of the Corporate Stock, the issue of which was authorized on that date.

If the resolution as passed applied solely to Suffolk County, I respectfully request that your Board will pass a resolution, either in the form of the enclosed or in some other form that may be agreeable to your Board, authorizing me to use the funds in question for work on Long Island elsewhere than in that county.

Respectfully,

(Signed) ROBERT G. MONROE,
Commissioner of Water Supply, Gas and Electricity.

The following preamble and resolution was offered:

Whereas, On May 23, 1902, a resolution was passed by the Board of Estimate and Apportionment authorizing the issue of Corporate Stock in the aggregate amount of \$888,500 for certain purposes of the Department of Water Supply, Gas and Electricity, and among other purposes the following:

For additional driven wells, stations, etc., to enable the City to seek an additional water supply in Suffolk County.....	\$154,000 00
For additional lands for pipe conduit and stations, to enable the City to seek an additional water supply in Suffolk County.....	25,000 00
For test wells, to enable the City to seek an additional water supply in Suffolk County.....	5,000 00

—and

Whereas, The Commissioner of Water Supply, Gas and Electricity desires to use said funds, amounting in the aggregate to \$184,000, for additional driven wells, stations, lands and test wells in other portions of Long Island than Suffolk County,

Resolved, That said resolution of May 23, 1902, be and the same hereby is amended so as to read as follows:

Resolved, That pursuant to the provisions of sections 169 and 178 of the Amended Greater New York Charter, the Board of Estimate and Apportionment hereby authorizes the Comptroller to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of eight hundred and eighty-eight thousand, five hundred dollars (\$888,500), the proceeds whereof shall be applied to the following purposes:

BOROUGH OF BROOKLYN.

For two additional boilers at the Millburn Pumping Station.....	\$22,000 00
For the construction of a filtering plant at Hempstead.....	200,000 00
For additional driven wells, stations, etc., to enable the City to seek an additional water supply	154,000 00
For additional lands for pipe conduit and stations, to enable the City to seek an additional water supply.....	25,000 00
For test wells, to enable the City to seek an additional water supply....	5,000 00
For new water mains.....	175,000 00

BOROUGH OF MANHATTAN AND THE BRONX.

For new water mains.....	250,000 00
--------------------------	------------

BOROUGH OF QUEENS.

For new water mains.....	57,500 00
--------------------------	-----------

\$888,500 00

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The Secretary presented the following resolution authorizing the issue of Corporate Stock to the amount of \$500,000, the proceeds to be applied to the improvement of Atlantic avenue, Borough of Brooklyn:

Resolved, That, pursuant to the provisions of chapter 499 of the Laws of 1897, as amended by sections 169 and 170 of the amended Greater New York Charter, the Board of Estimate and Apportionment hereby authorizes the Comptroller to issue Corporate Stock of The City of New York in the manner provided by section 169 of the amended Greater New York Charter, to the amount of five hundred thousand dollars (\$500,000), the proceeds whereof shall be applied to the improvement of Atlantic avenue, Borough of Brooklyn.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The Secretary presented the following report from the Engineer of the Department of Finance relative to the selection of a school site on the northwest corner of Albany avenue and Bergen street, Borough of Brooklyn, together with a communication from the Department of Education relative thereto:

October 28, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Education, at meeting of October 22, 1902, passed the following resolution:

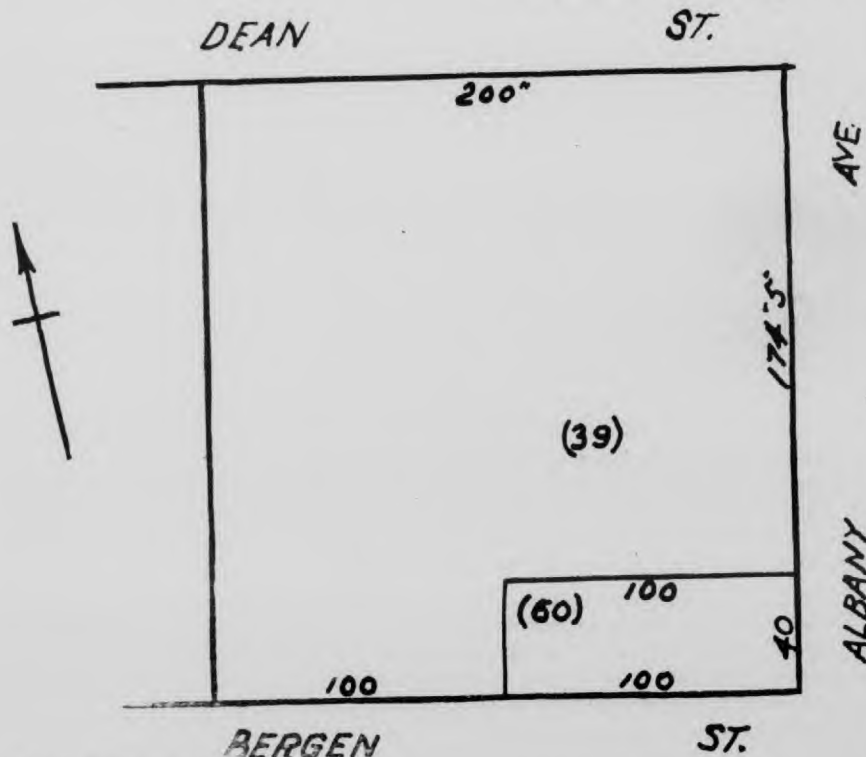

"Resolved, That the Board of Estimate and Apportionment be and it hereby is requested to authorize the Corporation Counsel to institute proceedings for the condemnation of a plot of land 40 feet by 100 feet on the northwest corner of Albany avenue and Bergen street, being that part of the premises heretofore selected as a site for school purposes on Albany avenue, Bergen and Dean streets, Borough of Brooklyn, which was not included in the resolution adopted by the Board of Estimate and Apportionment on July 11, 1902, authorizing the purchase of said site."

I would report that the entire plot, 214 feet 5 inches by 200 feet on the westerly side of Albany avenue, between Bergen and Dean streets, was selected for a school site by the Board of Education at meeting of March 26, 1902.

On June 6, 1902, I reported that the plot, all except the lot 40 feet by 100 feet on the northwest corner of Bergen street and Albany avenue, could be purchased at private sale, and on July 11, 1902, the Board of Estimate and Apportionment authorized it to be purchased at private sale for a sum not to exceed \$42,000. In relation to the lot 40 feet by 100 feet on the northwest corner of Bergen street and Albany avenue, I reported that the owner, Daniel Farrel, according to a statement of his wife, is "mentally sick" and violently opposed to parting with his property. The title to this property can therefore only be obtained through condemnation proceedings.

As this plot is necessary to complete the site and cannot be bought at private sale, I would advise that the Corporation Counsel be authorized to institute condemnation proceedings.

Respectfully,
EUG. E. McLEAN, Engineer.

To the Board of Education:

The Committee on Sites respectfully reports that at the meeting of the Board of Education held March 26, 1902 (see Journal, page 526), action was taken selecting and determining as a site for school purposes in Local School Board District No. 29, Borough of Brooklyn, premises on the westerly line of Albany avenue, running from Bergen street to Dean street, being 214 feet 5 inches on Albany avenue and 200 feet on Bergen street and Dean street, respectively.

The Board of Estimate and Apportionment at a meeting held July 11, 1902, authorized the purchase of said site, with the exception of a plot 40 feet by 100 feet on the northwest corner of Albany avenue and Bergen street, the owner of which has placed a valuation thereon which is considered excessive. Your Committee believes that said plot on the northwest corner of Albany avenue and Bergen street should be acquired, and submits the following resolution for adoption:

Resolved, That the Board of Estimate and Apportionment be, and it hereby is, requested to authorize the Corporation Counsel to institute proceedings for the condemnation of a plot of land 40 feet by 100 feet on the northwest corner of Albany avenue and Bergen street, being that part of the premises heretofore selected as a site for school purposes on Albany avenue, Bergen and Dean streets, Borough of Brooklyn, which was not included in the resolution adopted by the Board of Estimate and Apportionment on July 11, 1902, authorizing the purchase of said site.

A true copy of report and resolution adopted by the Board of Education on October 22, 1902.

A. EMERSON PALMER, Secretary Board of Education.

The following resolution was offered:

Resolved, That the Corporation Counsel be and he is hereby authorized to institute condemnation proceedings for the acquisition of title, in behalf of the corporation of The City of New York, to a plot of land 40 feet by 100 feet on the northwest corner of Albany avenue and Bergen street, Borough of Brooklyn, as a site for school purposes.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The Secretary presented the following report of the Engineer of the Department of Finance in regard to a site for school purposes situated on Mott and Elizabeth streets, adjoining Public School 106, Borough of Manhattan:

October 28, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—At a meeting of the Board of Education, held October 22, 1902, the following resolution was adopted:

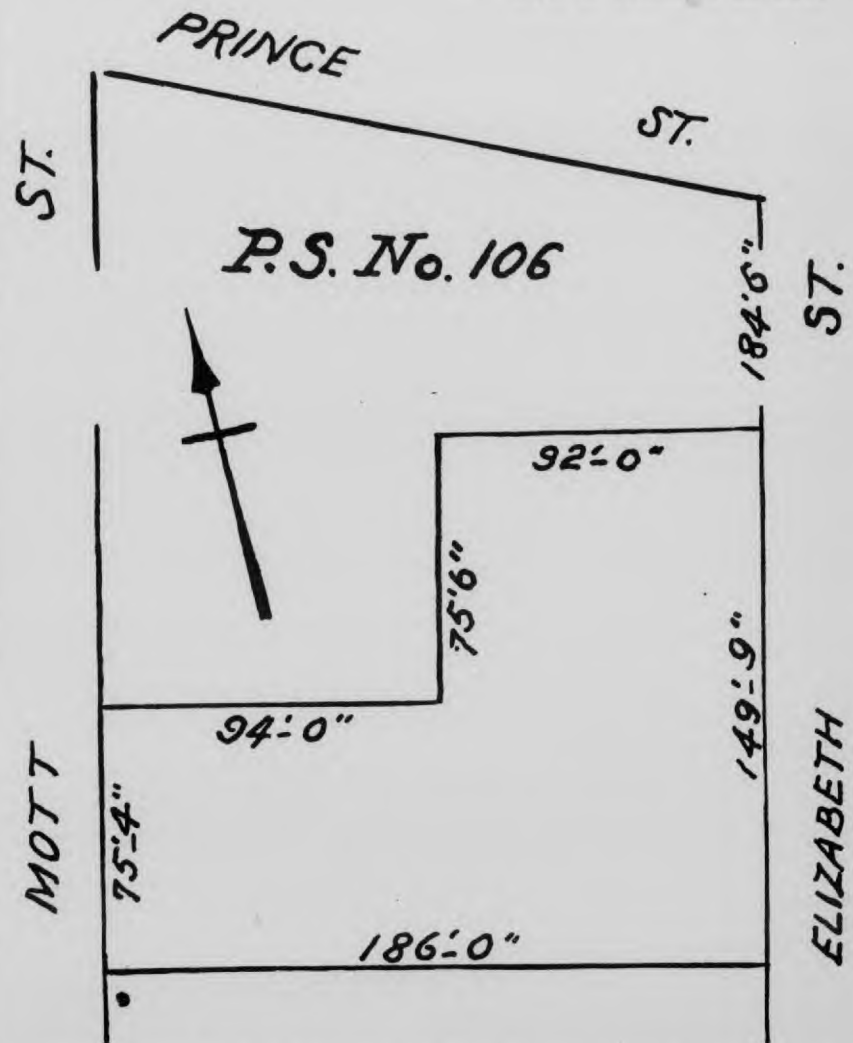

"Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to direct by resolution, in accordance with section 1439 of the Revised Charter, that title to said site shall vest in The City of New York two months after the passage of such resolution."

I would report that this site was selected by the Board of Education at meeting of May 28, 1902. The premises consist of a plot of six lots on the west side of Elizabeth street, 184 feet 6 inches south of Prince street, fronting 149 feet 8 inches on Elizabeth street, and three lots on the east side of Mott street, south, and adjoining the present school site, and fronting 75 feet 4 inches on Mott street. This is Section 2, Volume 3, Block 493, Lots 3 to 5 and 24 to 29.

On June 13, 1902, I reported that I had not been able to get a fair selling price on any of this property except one lot, and on July 8, 1902, the Board of Estimate and Apportionment authorized the Corporation Counsel to institute condemnation proceedings.

The Commissioners of Estimate and Appraisal having been appointed by an order entered and filed in the office of the Clerk of the County of New York, on October 3, 1902, and the Superintendent of School Buildings having stated that the plans and specifications for the new building to be erected on said site will be ready to advertise for proposals by December 15, 1902, I would recommend that the request of the Board of Education be granted, and that the Board of Estimate and Apportionment adopt a resolution, pursuant to section 1439 of the Amended Greater New York Charter, that title to said premises shall vest in The City of New York two months after the passage of such resolution.

Respectfully,
EUG. E. McLEAN, Engineer.

Whereas, The Board of Education on May 28, 1902, selected a site for school purposes on Mott and Elizabeth streets, adjoining Public School No. 106, Borough of Manhattan, and transmitted its action to the Board of Estimate and Apportionment on May 29, 1902; and

Whereas, The Board of Estimate and Apportionment on July 8, 1902, approved said site and authorized the institution of condemnation proceedings for the acquisition of title thereto; and

Whereas, The papers, surveys, etc., were transmitted to the Corporation Counsel on August 2, 1902, and Commissioners of Estimate and Appraisal were appointed by an order entered and filed in the office of the Clerk of the County of New York on October 3, 1902; and

Whereas, The Superintendent of School Buildings states that the preparation of plans and specifications for the new building to be erected on said site has advanced so far that he will be ready to advertise for proposals by December 15, 1902; therefore

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to direct by resolution, in accordance with section 1439 of the revised Charter, that title to said site shall vest in The City of New York two months after the passage of such resolution.

A true copy of preamble and resolution adopted by the Board of Education on October 22, 1902.

A. EMERSON PALMER, Secretary, Board of Education.

The following resolution was offered:

Resolved, That in pursuance of the provisions of section 1439 of the Revised Greater New York Charter, the Board of Estimate and Apportionment hereby directs that the title to site for school purposes situated on Mott and Elizabeth streets, adjoining Public School 106, Borough of Manhattan, vest in The City of New York on January 2, 1903.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The Secretary presented the following resolution amending the resolution adopted July 28, 1902, approving of the selection of property on the northwest corner of Leonard street and Norman avenue, Borough of Brooklyn, as a site for a Carnegie Library:

Resolved, That the resolution adopted by this Board at meeting held July 28, 1902, approving of the selection of the property on the northwest corner of Leonard street and Norman avenue, in the Borough of Brooklyn, being 95 feet by 100 feet, with the buildings thereon, as a site for a Carnegie Library, be and the same is hereby amended by describing the property as on the "northeast" corner of Leonard street and Norman avenue, in place of on the "northwest" corner.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The Secretary presented the following communication from the Aqueduct Commissioners, transmitting copies of correspondence between Coleman, Breuchaud & Coleman, contractors, in connection with the proposition of said contractors for a modification of their contract for the construction of a New Croton Dam; also a copy of chapter 588 of the Laws of 1902 of The City of New York, and of preliminary Report No. 425 of the Chief Engineer of the Aqueduct Commission, dated October 22, 1902, and Report No. 426, dated October 24, 1902, with a request that a time be fixed for a joint public hearing of the Aqueduct Commissioners and the Board of Estimate and Apportionment in relation to said modification of contract:

NEW YORK, October 29, 1902.

To the Board of Estimate and Apportionment:

GENTLEMEN—At a stated meeting of the Aqueduct Commissioners, held October 28, 1902, I was directed to transmit to your Honorable Board copies of the correspondence between Coleman, Breuchaud & Coleman, contractors, and the Aqueduct Commissioners in connection with the proposition of said contractors for the modification of their contract for the construction of the New Croton Dam, together with copy of chapter 588 of the Laws of 1902 of the State of New York and of preliminary Report No. 425 of the Chief Engineer of this Commission, dated October 22, and Report No. 426, dated October 24, 1902, with request that a time be fixed for a joint public hearing with the Aqueduct Commissioners in relation to the subject-matter thereof; and in accordance with such direction I enclose herewith the documents above mentioned, with the request that a time be fixed for such joint public hearing.

Respectfully,
HARRY W. WALKER, Secretary.

To the Honorable the Aqueduct Commissioners:

GENTLEMEN—This is to confirm our previous verbal statements to the President of the Aqueduct Commissioners in regard to an important matter concerning the future progress of the work at the New Croton Dam.

In the beginning of August all the men there employed struck and abandoned the work; when asked regarding the cause of the strike, their representatives told us that, as they learned that a law had been passed making the working day for all men employed on City works eight hours instead of ten, they wanted their working time reduced to eight hours. We informed them that we would present the case for the consideration of the Aqueduct Commissioners at the earliest opportunity. On the strength of this statement they resumed work after two days.

The matter was verbally explained at the time to the President of your Board, and we were again prepared to-day to call your attention to it, but were told by the Chief Engineer that no meeting would take place.

Our men are becoming uneasy in regard to this matter, and we are fearful of another strike occurring.

The uninterrupted consummation of the work is of such importance that we trust you will give the matter your early consideration.

Very respectfully yours,
(Signed) COLEMAN, BREUCHAUD & COLEMAN.

To the Honorable the Aqueduct Commissioners, No. 280 Broadway, New York City:

GENTLEMEN—The men employed by us at the New Croton Dam struck again yesterday for an eight-hour workday; we had foreseen their action, and so reported to you in our communication of September 9, 1902.

This morning our employees came to our office and stated that the reason for the strike was that the Legislature and City officials have passed a law making eight hours a day's work, and that all the employees of the City or under contracts made by the City were now working eight hours for a day's work, or had been promised—as in the case of the Jerome Park Reservoir—that eight hours would be a day's work when the necessary papers or amended contract were provided.

We have been trying to enforce the ten hours a day work, but in the face of the new law and from previous experience in handling strikes at the Dam, we know that it will be impossible to prosecute the work on those lines, and our efforts in that direction would only result in delay to the work.

We respectfully request you to arrange our contract prices proportionately in accordance with the change of time or hours worked, substantially as you have just done for the contract for Jerome Park Reservoir, which presents a case absolutely parallel to ours.

Very respectfully yours,
(Signed) COLEMAN, BREUCHAUD & COLEMAN.

Hon. WM. H. TEN EYCK, President, Aqueduct Commissioners, No. 280 Broadway, New York:

DEAR SIR—Yesterday morning we sent for the principal English speaking workmen and the English speaking Italians to come to our office on the work; they sent in answer a delegation of about twenty men. We stated to them that we had presented to the proper authorities what they, the workmen, claimed as a grievance, that they should be excluded from the benefits of the law that was passed for the reduction of the hours of labor of all employees on contracts let by The City of New York. We told them that there was some differences of opinion in relation to the law, and that while the matter was under consideration by the authorities, we wanted all our employees to return to their work, and to do so at once. Further, we wanted any man that was not satisfied with these conditions to come to the office, receive his pay and leave the work at once. The delegation were apparently satisfied, and said that they would report to the workmen immediately what we had directed. We expected from the way in which they listened to our statement and ultimatum—which we thought was fair to all concerned—that they would return to the work this morning; but instead of the force employed at the Dam returning to the work, our superintendent, Mr. Goldsborough, reports by telephone that all men on the work at the Dam, highways and quarries are on the strike this morning.

We make this report so that you may be fully apprised of the condition of affairs on the work at the present time.

Very respectfully yours,
(Signed) COLEMAN, BREUCHAUD & COLEMAN.

Messrs. COLEMAN, BREUCHAUD & COLEMAN, Contractors, New Croton Dam:

GENTLEMEN—We are in receipt of your letters of the 17th and 18th of September, notifying us that men employed by you under your contract with the City for the construction of the New Croton Dam had struck for an eight-hour workday.

We are sorry to learn that this important work is again delayed, but in the absence of any provision in the contract respecting the hours of labor of your employees, we cannot now intervene.

We assume from the statements in your letter that you do not think that you can continue the execution of your contract with the City under present circumstances, but we would like a definite statement from you on the subject.

We do not understand that we can arbitrarily make the changes in the contract desired by you upon the request contained in your letter of September 17, 1902, and without any specific statement of your proposals, which in any event must be considered on their merits. If you will read the terms of the act to which you refer, and which is alleged to give us authority to change the contract, you will see there stated the conditions under which alone we would have power to act. Moreover, we cannot agree with your conclusion that you present a case absolutely parallel with that of the contract for the Jerome Park Reservoir.

Yours truly,
WM. H. TEN EYCK, President.

COLEMAN, BREUCHAUD & COLEMAN,
NEW CROTON DAM CONTRACTORS,
CROTON-ON-HUDSON, N. Y., September 22, 1902.

To the Honorable the Aqueduct Commissioners:

GENTLEMEN—The following is an answer to your communication of September 19:

You refer to the absence in our contract of any provisions respecting the hours of labor of our employees. It is precisely for that reason that we hold that new conditions have been established when the Act of April 14, 1902, approved by the Mayor of the City, rendered the eight-hour day mandatory.

As to the impossibility of prosecuting the work under present circumstances, in regard to which you desire a "definite statement," we have to state as follows: Since the eight-hour law was passed many of our men waited patiently for the application of it to the work on the dam, but a large number of them, attracted by the shorter hours obtaining elsewhere, left us. It is with extreme difficulty that we have succeeded in keeping the work going, but during all the summer, notwithstanding our efforts, we have been short-handed, thus working at a disadvantage and to the detriment of the progress of the work.

We have already reported to you that our men asked for the application of the eight-hour law, and that, after waiting a month for an answer, which we could not at that time obtain from your Board, they struck.

Desirous to avoid delay we have tried to resume work with willing men. Last Wednesday a working party was assailed and dispersed by armed strikers and a man was wounded. To-day we have succeeded in working fifty (50) men on the highway, but we are unable to resume work at the dam.

We have read the terms of the act and we entertain the opinion expressed by Chief Engineer Nelson P. Lewis, of the Board of Estimate and Apportionment, of July 15, 1902 (page 179 of the printed minutes of the Aqueduct Commissioners), that "The intent of the law doubtless is that the working time of the men now employed upon any of these contracts may be reduced from ten to eight hours a day, and that the contractor shall be reimbursed for the additional cost of doing the work on an eight-hour basis."

We respectfully maintain that our case is absolutely parallel with that of the contract for the Jerome Park Reservoir, for the reasons that all the arguments on the strength of which the Aqueduct Commissioners resolved to recommend to the Board of Estimate and Apportionment the necessary amendments to the Jerome Park Reservoir can apply equally well in our case. The aforesaid arguments are mainly contained in the communication of the Secretary of the New York Central Federated Union and in the resolutions of the Aqueduct Commissioners of July 26, 1902, the statements in which apply equally well for the contract for our work (with the exceptions of dates, names, schedule of prices, mention of public hearing, etc., which obviously apply only to Jerome Park Reservoir).

The only difference verbally mentioned by one of the Commissioners was that Jerome Park Reservoir is within the boundaries of New York City. We fail to see how this fact can affect the question at hand, inasmuch as New York City is our labor market.

It may not be out of place to state here that the eight-hour work system would expedite the work, as in the most favorable season it would be possible to work two shifts of stonecutters and masons.

In conclusion, and in conformity with our communication of September 17, we respectfully request that the Aqueduct Commissioners recommend to the Board of Estimate and Apportionment for the new Croton Dam amendments similar to those recommended for Jerome Park Reservoir.

Very respectfully yours,
(Signed) COLEMAN, BREUCHAUD & COLEMAN.

NEW CROTON DAM CONTRACTORS,
CROTON-ON-HUDSON, N. Y., September 25, 1902.

To the Honorable the Aqueduct Commissioners:

GENTLEMEN—We respectfully submit that since our last letter matters at the New Croton Dam are in the same condition. The men will not go to work nor allow others to go to work on the ten-hour system.

These conditions exist because of the laws passed by the State authorities making eight (8) hours a day's work on all public works in the State of New York.

Therefore we suggest that it would be for the best interests of The City of New York, as well as for the early completion of the work, to apply the law signed by the Governor April 14, 1902, to the New Croton Dam contract.

Very respectfully yours,
(Signed) COLEMAN, BREUCHAUD & COLEMAN.

Messrs. COLEMAN, BREUCHAUD & COLEMAN, Croton-on-Hudson, N. Y.:

GENTLEMEN—We have received your communications of September 22 and 25, 1902, and have carefully considered them.

We cannot undertake to change the terms of your contract for the construction of the New Croton Dam upon the applications therefor, submitted by you. There is nothing in the contract which prevents your acceding to the alleged desire of your employees that their working hours be reduced and no statement from you that the effect of so doing would cause you any injury. No facts are stated as a basis for a proposed modification, nor is any sufficient reason given why such a modification would be for the best interests of The City of New York. The Act of the Legislature referred to is in no sense mandatory, and in our opinion you have not presented a case which would enable us to exercise a discretion in accordance with its terms. We must therefore insist upon your proceeding with the work without further delay.

Yours respectfully,
HARRY W. WALKER, Secretary. THE AQUEDUCT COMMISSIONERS.

COLEMAN, BREUCHAUD & COLEMAN,
NEW CROTON DAM CONTRACTORS,
CROTON-ON-HUDSON, N. Y., September 29, 1902.

To the Honorable the Aqueduct Commissioners:

GENTLEMEN—We have received your letter of September 26, 1902.

You maintain that you have no statement from us that a reduction of the hours of work would cause us any injury. We beg to state that if we had to pay our men the same wages for a reduced number of hours, it follows that our financial loss would be large and easily estimated, causing us an obvious injury.

As regards facts for a basis of modification of our contract, we beg to hand you herewith a table of prices which we submit for your consideration.

We notice that you refer to an absence of sufficient reasons given by us why such a modification would be for the best interests of The City of New York. We respectfully submit the following reasons for your consideration:

The contract for the construction of the New Croton Dam was executed in 1892, before the eight-hour working day had been adopted by Legislation as the policy of the State in all public works.

Since then, the eight-hour day has been given the force of law in relation to public work by action of the Legislature and has, as a matter of fact, become universal for City work.

In the vicinity of the New Croton Dam an important contract is in force under the eight-hour law and others have to be made in the Croton Reservoir upon the same basis.

Under these circumstances there have already been, since the passing of the Law of April 14, 1902, many delays in the construction of the Dam owing to our inability of securing a sufficient number of men for working on a ten-hour basis, and while these conditions remain unchanged, more delays are certain to occur; and, as you are aware, the work is now stopped, owing to the impossibility of keeping our men at work under the old conditions.

From what precedes it can be seen that the adoption of the eight-hour day would importantly hasten the completion of the Dam, which is of vital consequence to the Water Supply System of New York.

Considering that the demands of the workmen are due to a legislative act approved by the Mayor of New York, which imposes upon us new conditions which were not contemplated in our contract, we do not consider that we can be held responsible for the delays which have already occurred. Although we know that the Act of April 14, 1902, is not mandatory, we feel justified in representing that in our opinion our case calls for the exercise of discretion in accordance with its terms.

Yours very respectfully,

(Signed) COLEMAN, BREUCHAUD & COLEMAN.

Messrs. COLEMAN, BREUCHAUD & COLEMAN, Contractors, New Croton Dam:

GENTLEMEN—The Aqueduct Commissioners are in receipt of your communication of September 29, 1902, concerning the New Croton Dam.

The Commissioners desire you to state, in writing, as to when the work on the New Croton Dam could be completed at the rate which it was proceeding prior to the strike, and how much it would shorten the time of completion if the contract was amended to make eight hours a day's work; also, as to whether or not you can assure the Commissioners that upon their taking under serious consideration the matter of amending the contract to make eight hours a day's work at the New Croton Dam, the work will meanwhile be resumed.

Respectfully,

To the Honorable the Aqueduct Commissioners:

GENTLEMEN—In answer to yours of October 2 we beg to state that in relation to the final completion of the work—"at the rate which it was proceeding prior to the strike"—it would take about three years to complete under the most favorable conditions; and if the contract was amended to make eight hours a day's work the work could be completed in two years, and so far advanced that it could be utilized in saving the overflow from the Old Croton Dam in about one year from the present time.

In answer to the second inquiry in your letter, we beg to state that we have called all our employees on the work together to-day, and stated to them that the reduction of hours of labor from ten to eight for a day's work was under consideration by

your Honorable Board, and that it would only injure their case by remaining on a strike, and that it was our urgent request that they should return to the work on Monday morning and attend to their duties as usual and await your action.

Yours very respectfully,

PRELIMINARY REPORT NO. 425.

CHIEF ENGINEER'S OFFICE—AQUEDUCT COMMISSIONERS,
October 22, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—Relating to the communications received from Messrs. Coleman, Breuchaud & Coleman, addressed to the Aqueduct Commissioners, dated September 29 and October 4, 1902, relative to the additional cost to complete the contract for building the New Croton Dam, which would result from the observance of eight hours to constitute a day's work for all men employed instead of the present system of ten hours, which communications were referred to me for examination and report, I beg to report that I have conferred with the Engineer of the Department of Finance and the Chief Engineer of the Board of Estimate and Apportionment as directed.

Reducing the period of a day's labor from ten to eight hours with the same rate of wages per day increases the cost of such labor 25 per cent. In the table of prices submitted October 4, 1902, an additional price, equivalent to 25 per cent increase on the contract prices, is asked for all items produced by labor; some of the items are the result of labor only, others embrace both labor and material. In the latter cases the value of the material, such as brick, granite, cement, powder, timber, etc., has been deducted from the contract prices, and the balance has been treated as the cost of labor. I have examined each item of the prices with the Engineers mentioned above, and from the best information I find that 25 per cent. additional is asked on all items of labor.

The estimated cost of the work remaining to be done to complete the contract on September 30, 1902, the date of the last estimate, is \$1,375,567.01, of which I estimate that \$155,531.69 is for material and \$1,220,035.32 is for labor, and upon the latter the Contractors ask an additional price of 25 per cent., which amounts to \$305,008.83.

The following is an estimate of the different items of work remaining to be done at the date of the last estimate, namely, September 30, 1902, the additional price per unit of each item, and the increased cost to complete each item of the contract:

Items.	Description.	Increase of Price.	Increased Cost.

The additional price asked for granite dimension stone masonry is 25 per cent. of the cost of the labor of quarrying, cutting, hauling and laying it in the finished work. This cost has been determined by deducting from the contract price, \$35 per cubic yard, the value of the material used, which is 25 cents per cubic yard for the granite in its natural position in the quarry, and 59 cents for cement used to lay a cubic yard, making 84 cents per cubic yard; this, deducted from the contract price (\$35), leaves \$34.16 for the labor portion of the item. On this the contractors ask an additional price of 25 per cent., which is equivalent to \$8.54 per cubic yard.

The quarry from which the granite is procured is located six miles distant from the dam, to which the stone is carried on a steam railroad which was constructed for that purpose. The stone used for the construction of the highways is hauled by teams, as well as by the railroad.

In computing the cost of the labor and materials used in the different items of the contract the question of profit or loss to the contractors has not been considered.

Respectfully,

W. R. HILL, Chief Engineer.

REPORT No. 426.

To the Aqueduct Commissioners:

GENTLEMEN—In compliance with a resolution of October 7, 1902, I beg to submit the following, relating to the New Croton Dam:

(a.) If the contract now in force could be diligently carried out, the work should be completed by April 1, 1903, provided, however, that the contractors would not be embarrassed by strikes or by inability to secure sufficient labor to keep a full force employed.

(b.) In prosecuting the proposed amended contract under the eight-hour law provision three shifts of men could be employed on the work of earth and rock excavation by allowing half an hour or so for lunch, and two shifts of masons could be employed five months of the year.

(c.) In my opinion it would be possible to shorten the time for the completion of the contract in its proposed amended form by increasing the number of shifts employed, and by keeping the gangs constantly full of a better class of men, as could be secured under the eight-hour system.

(d.) Earth and rock excavation is the only class of work which could be done both day and night. The plant is equipped with electric lights for such work.

(e.) I can suggest no additional provisions for the proposed amended contract which would enable you to enforce diligence on the part of the contractors in the completion of the contract other than is provided in the contract under clauses M and P.

(f.) As to a form of a weekly report that would keep you informed as to the diligence of the contractors in prosecuting the work, I would say that the extension of the New Croton Dam consists of two general features, namely—the excavation of the foundation pit and the building of the masonry. The engineer could estimate the time required to excavate the pit and report to you weekly as to whether the contractors were doing more or less work than required, and the same practice could be instituted when the contractors commence the construction of the masonry.

All other work on the contract can be completed before the time of the completion of the work of extending the dam.

Yours respectfully,

(Signed) W. R. HILL, Chief Engineer.

CHAPTER 588.

An Act relative to the powers of the Aqueduct Commissioners provided for and holding office under and pursuant to the provisions of chapter four hundred and ninety of the Laws of Eighteen Hundred and Eighty-three and its amendments. (Became a law April 14, 1902, with the approval of the Governor. Passed, three-fifths being present. Accepted by the City.)

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The Aqueduct Commissioners, provided for and holding office under and pursuant to the provisions of an act of the Legislature of the State of New York, entitled "An Act to provide new reservoirs, dams, and a new aqueduct, with the appurtenances thereto, for the purpose of supplying The City of New York with an increased supply of pure and wholesome water," said act being chapter four hundred and ninety of the Laws of Eighteen Hundred and Eighty-three, and its amendments, are hereby authorized and empowered to agree with any person, firm or corporation with whom they have contracted or may hereafter contract, upon such terms and conditions as shall in their judgment and discretion be for the best interests of The City of New York, that eight hours shall constitute a day's work for all laborers employed by said person, firm or corporation in the performance of his or its contract, and that no laborer employed in the performance of any such contract shall be required, permitted or allowed to work more than eight hours. No agreement made under the provisions of this act shall be valid or binding until the same has been approved by the Board of Estimate and Apportionment of The City of New York.

Sec. 2. This act shall take effect immediately.

The Board fixed Friday, November 7, 1902, at 2.30 p. m., as the time for such public hearing.

The Secretary presented a petition of Frederick Lang, Watchman in the Department of Docks and Ferries, requesting that the resolution of the Board of Estimate and Apportionment, adopted February 11, reducing his salary to \$900 per annum be rescinded; that his salary be fixed at \$2,000 per annum, and that he receive due

compensation from said Department for failure to pay him the compensation of \$2,000 as agreed upon.

Referred to the Comptroller.

The Comptroller presented the following communication submitting a statement showing in detail the amounts necessary to be included in the Budget for 1903, for the payment of the principal of and interest on the City debt:

Which was ordered spread upon the minutes.

The Comptroller presented the Departmental Estimates for the year 1903.

Which were ordered to be printed in the Minutes (see Volume II. of the Minutes).

The President of the Borough of Richmond appeared and took his seat in the Board.

The Comptroller offered the following resolution and Budget for the year 1903:

Resolved, That pursuant to the provisions of section 226 of the Greater New York Charter, the Board of Estimate and Apportionment, by the unanimous vote of all the members thereof, makes this the Budget of The City of New York for the year one thousand nine hundred and three, being, first, the amounts estimated to be required to pay the expenses of conducting the public business of said City for the said year, including State Taxes; and, secondly, the amounts estimated to be required to pay the charges and expenses of the Counties of New York, Kings, Queens and Richmond for the said year; amounting in the aggregate to the sum of ninety-seven million, one hundred and nineteen thousand, thirty-one dollars and ten cents (\$97,119,031.10).

THE CITY OF NEW YORK.

FOR CHARITABLE INSTITUTIONS.

All such appropriations being made subject to the following conditions:

1. The accounts of all charitable institutions receiving public moneys shall be so kept as to show the receipts of and disbursements from public moneys separately from the other funds of such institutions, and all institutions shall keep an exact record, to be corrected from time to time, in a form to be approved by the Comptroller, showing the addresses of the parents, guardians, or nearest relatives of inmates, and other information designed to facilitate inquiry into their financial inability to provide for such inmates.
2. Moneys received from the City Treasury shall be used by such institutions only for recurring expenses of "care, support and maintenance."
3. All institutions receiving public moneys shall be at all reasonable times open to the visitation and inspection of duly authorized representatives of the Department of Public Charities and the Department of Finance.
4. Upon it appearing to the satisfaction of the Comptroller that it would be to the public interests to withhold payments to any charitable institution for which appropriation has been made, he shall give written notice to such institution of his intention to apply to the Board of Estimate and Apportionment for authority to so withhold such payments, and upon the determination of said Board that such payments should terminate, the right of any such institution to receive payment for services rendered thereafter shall thereupon cease.
5. Except where appropriations are made in bulk, and not upon a per capita basis, no payment shall be made for inmates of private charitable institutions unless the same shall have been accepted by the proper Commissioner of the Department of Public Charities as a proper charge against the City, and, except in emergency cases, Commissioners of Charities shall not accept as proper charges against the City inmates capable of paying for their own support, or for whose care adequate provision can be made in public institutions. The City shall not become liable for any payment to a charitable institution in excess of the appropriation which may have been made to such institution, notwithstanding any per capita rates of payment that may have been fixed for the inmates thereof.
6. All institutions receiving money from the City are required to state specifically the amount so received, as, from the City Treasury, in their printed annual reports.
7. The rates of payments to private charitable institutions, unless otherwise specially provided for, are fixed for the various classes of inmates as follows:

Adopted by the Board of Aldermen, January 13, 1903.

No. 11.

Resolved, That upon the request of the Hon. Leslie M. Shaw, Secretary of the Treasury, transmitted to this Board from the office of his Honor the Mayor, December 15, 1902, permission be and the same is hereby given to the International American Customs Congress to use the Aldermanic Chamber for its meetings, which are to begin in this city on January 15, 1903; such meetings, however, not to interfere with the regular sessions of the Board of Aldermen.

Which was adopted.

Adopted by the Board of Aldermen, January 13, 1903.
Approved by the Mayor, January 14, 1903.

P. J. SCULLY, City Clerk.

BOROUGH OF MANHATTAN.

Yorkville District.

At a meeting of the Board of Local Improvements of the Yorkville District, held December 23, 1902, the following members were present: Alderman Chambers and President Cantor.

The Board took under consideration the question of flagging the north side of Sixty-ninth street, from Avenue A to the river.

Mr. John F. Doyle appeared in opposition to the improvement, and the matter was laid over for one week to give Mr. Doyle an opportunity to present his objections in writing.

The fencing of vacant lot at Fifty-fifth street and East river was laid over.

Adjourned.

GEORGE W. BLAKE, Secretary.

DEPARTMENT OF FINANCE.

Abstract of the Transactions of the Bureau of the City Chamberlain for the Week ending December 6, 1902.

THE CITY OF NEW YORK—OFFICE OF THE CITY CHAMBERLAIN,

MUNICIPAL EXPLOSIVES COMMISSION.

Proceedings of the Municipal Explosives Commission at meeting held on Friday, November 28, 1902, at 3 p. m.

Present—Fire Commissioner Thomas Sturgis, presiding, and Commissioners Charl-ton, Eaton, Haskell and McKenna.

On motion, duly seconded, the reading of minutes of meeting of November 25 was dispensed with.

Communication was read from the Secretary of the New York Board of Trade and Transportation, advising that at meeting of manufacturers of and dealers in matches, held at the rooms of the Board of Trade and Transportation on the 21st inst., a committee of eighteen was appointed to prepare and recommend for consideration of this Commission, regulations for traffic in matches in The City of New York, and that said Committee was expected to report back to the general body early in December. A copy of resolution adopted by the manufacturers of and dealers in matches was also received, as follows:

"Resolved, That the Municipal Explosives Commission be requested to extend the time for going into effect of the regulations regarding parlor matches until March 1, 1903, or until such time as the Committee appointed at this meeting shall have formulated a report suggesting regulations to be adopted by your Honorable Board."

Upon motion, duly seconded, the communication and resolution from the Board of Trade were laid on the table.

Communication was read from T. M. McCarthy, of the firm of Austin, Nichols & Co., respecting the danger of accident to children from the use of small percussion paper caps. Communication ordered on file.

The Commission resumed consideration of the proposed regulations governing the manufacture, storage, sale and use of fireworks, from paragraph 13 to and including the last paragraph.

Commissioner Haskell offered a motion, that the first subject for consideration at the next meeting of the Commission at which the subject of fireworks is considered, shall be the size of certain fireworks, which was seconded and carried.

Upon motion duly seconded, the Commission adjourned until Tuesday, December 2, 1902, at 2 p. m.

JOHN F. CUNNINGHAM, Secretary.

The Delivery Room of THE CITY RECORD, located temporarily at No. 98 Duane street, is again at ROOM 2 CITY HALL, entrance at northwest end of the City Hall.

The office of the Supervisor is Room 1637, No. 21 Park Row. Tele- phone, 467 Cortlandt.

AQUEDUCT COMMISSION.

AQUEDUCT COMMISSIONERS' OFFICE, ROOM 207, STEWART BUILDING, No. 280 BROADWAY, NEW YORK, December 27, 1902.

PROPOSALS FOR BIDS OR ESTIMATES.

SEALED BIDS OR ESTIMATES WILL BE received by the Aqueduct Commissioners at the above office until 12 o'clock noon on

TUESDAY, JANUARY 20, 1903.

FOR DOING THE WORK AND FURNISHING MATERIALS REQUIRED TO BUILD FOURTEEN HIGHWAY BRIDGE STEEL SUPERSTRUCTURES ACROSS CROTON LAKE AND RIVER AND ITS TRIBUTARIES IN THE TOWNS OF YORKTOWN, NEW CASTLE, SOMERS, LEWISBORO, BEDFORD AND NORTH SALEM, WESTCHESTER COUNTY, STATE OF NEW YORK.

The security required will be fifty thousand dollars.

Two bridges must be entirely completed by January 1, 1904, and the remainder thereafter as rapidly as the construction of the abutments therefore will permit, as provided in contract.

The work is authorized by chapter 490, Laws of 1883, State of New York, and the amendments thereto.

The person or persons making an estimate shall furnish the same in a sealed envelope, indorsed with the title, "Fourteen Highway Bridge Superstructures Across Croton Lake and River and Its Tributaries," for which the estimate is made, with his or their name or names and the date of presentation, to the Aqueduct Commissioners, at the said office, on or before the date and hour above named, at which time and place the estimates received will be publicly opened by the said Commissioners and read, and the award of the con-

tract made according to law as soon thereafter as practicable.

The Commissioners reserve the right to reject any and all bids if they deem it for the interest of the City so to do.

Each estimate shall contain the name and place of residence of each of the persons making the same, the names of all persons interested with him therein; and that no officer of The City of New York is directly or indirectly interested therein, as provided in chapter 490, Laws 1883, and in the blank form or bid mentioned below and furnished by the Commissioners.

The estimates must be verified.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as a surety, and shall contain the matters set forth in the blank form of bid mentioned below.

No estimate will be received or considered unless accompanied by a certified check or money to the amount of ten per centum of the amount of the bond required. The check must not be inclosed in the envelope with the bid or estimate.

For particulars as to the approximate quantity and quality of the supplies or the nature and extent of the work required or of the materials to be furnished, bidders are referred to the printed specifications and the plans.

Bidders are requested to make their bids or estimates upon the blank form prepared by the Commissioners, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor to the Secretary, at the above office of the Aqueduct Commissioners, where the plans and drawings, which are made parts of the specifications, can be seen.

By order of the Aqueduct Commissioners,

WILLIAM H. TEN EYCK,

President.

HARRY W. WALKER, Secretary.

MUNICIPAL CIVIL SERVICE COMMISSION.

PUBLIC NOTICE WILL BE GIVEN OF ALL competitive examinations at least two weeks in advance of the date upon which the receipt of applications for any scheduled examination will close.

Persons desiring application blanks may obtain the same by applying to the office of the Commission, either in person or in writing, stating in each case the position or positions for which they wish to apply.

When application is made for a position for which no examination is scheduled, the name of the applicant will be recorded and an application blank sent, when a date for such examination is fixed.

All notices of examination will be posted and advertised. Such notices will state the scope of the examination, but for more general information application should be made at the office of the Commission.

Regulation adopted by the Municipal Civil Service Commission at the meeting held November 19, 1902.

APPEALS.

No candidate for a position for which a physical examination is required who is rejected or who fails to appear on the date set, shall be again examined within nine months, unless by order of the Commission. A candidate asking a new examination shall be required to submit to the Commission an affidavit stating the reasons for which such examination is asked, and if such reasons be that the candidate's physical disability was temporary, the affidavit must be accompanied by a physician's certificate showing explicitly that the disability has been wholly remedied.

A candidate who has been notified of the result of his examination may, upon personal application to the Chief Examiner or other person duly authorized by the Commission, and on presentation of his notice, be entitled to see his papers and the ratings thereon.
No appeal from the ratings of examiners will be considered unless the grounds on which it is based are stated specifically and in full, in writing, and unless it is presented within fifteen days after the applicant has been notified of the result of his examination.

S. WILLIAM BRISCOE,

BOARD OF ESTIMATE AND APPORTIONMENT.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to alter the Map or Plan of The City of New York, by laying out and extending Carey avenue, from Bement avenue eastward, and by laying out and extending Oakland avenue from the extension of Carey avenue to Castleton avenue, in the First Ward, Borough of Richmond, City of New York, and that a meeting of said Board will be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 30th day of January, 1903, at 2:30 o'clock p. m., at which such proposed laying out and extending will be considered by said Board, all of which is more particularly set forth and described in the following resolutions adopted by the Board on the 9th day of January, 1903, notice of the adoption of which is hereby given, viz:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442, of the Greater New York Charter, deeming it for the public interest so to do, proposes to alter the map or plan of The City of New York, by laying out and extending Carey avenue, from Bement avenue eastward, and by laying out and extending Oakland avenue from the extension of Carey avenue to Castleton avenue, in the First Ward, Borough of Richmond, City of New York, more particularly described as follows:

Beginning at a point on the east line of Bement avenue, distant 491 feet 11 inches southerly, from the intersection formed by the east line of Bement avenue and the south line of Castleton avenue; thence in an easterly direction 235 feet to a point distant 454 feet 1 inch southerly, from a point on the south line of Castleton avenue, which is 238 feet easterly from the intersection of the east line of Bement avenue and the south line of Castleton avenue; thence northerly 454 feet 1 inch to a point on the southerly line of Castleton avenue, distant 238 feet easterly from the intersection of the east line of Bement avenue and the south line of Castleton avenue; thence easterly and along the south line of Castleton avenue 60 feet 9 inches; thence southerly and parallel with the last but one mentioned line and 60 feet distant therefrom 503 feet 6 inches; thence westerly and parallel to the first mentioned line and 60 feet distant therefrom, 295 feet to the east line of Bement avenue; thence northerly along the east line of Bement avenue, 60 feet to the point or place of beginning.

Resolved, That the President of the Borough of Richmond cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed laying out and extending and the location of the immediate adjacent or of intersecting open or established streets, roads, squares, or places, sufficient for the identification and location thereof.

DEPARTMENT OF FINANCE.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF THE BRONX:

TWENTY-THIRD WARD, SECTION 10.

DAWSON STREET—PAVING AND CURBING, from Westchester avenue to Leggett's lane. Area of assessment: Both sides of Dawson street, between Westchester avenue and Leggett's avenue, and to the extent of one-half the blocks on the intersecting and terminating avenues.

—that the same was confirmed by the Board of Revision of Assessments on January 13, 1903, and entered on January 14, 1903, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before March 16, 1903, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

CONDITIONS OF SALE.

As provided for by The Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for stock shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon one of the State or National Banks of The City of New York, two per cent. of the par value of the stock bid for in said proposal.

No proposal will be received or considered which is not accompanied by such deposit.

All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.

4. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the stock awarded to him or them, at its par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.

5. Upon the payment into the City Treasury of the amounts due by the persons whose bids are accepted, respectively, certificates thereof shall be issued to them as authorized by law, and in such denominations as they may desire.

6. It is required by the Charter of the City that "every bidder may be required to accept a portion of the whole amount of stock bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected." Under this provision, the condition that the bidder will accept only the whole amount of stock bid for by him, and not any part thereof, cannot be inserted in any bid.

7. It is also provided by the Charter that these bonds, being registered, may be issued in denominations of ten dollars or any multiple thereof; and that "preference shall, so far as practicable, and without pecuniary disadvantage to the City, be given to applicants for the smallest amounts and smallest denominations of said bonds in issuing the same."

8. The proposals, together with the security deposits, should be inclosed in a sealed envelope, indorsed "Proposals for Bonds of The City of New York," and said envelope inclosed in another sealed envelope, addressed to the Comptroller of The City of New York.

EDWARD M. GROUT,
Comptroller.

The above-entitled assessment was entered on Titles of Assessments, kept in the Bureau for the date hereinabove given in the Record of the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record." The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third ave-

nue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before March 9, 1903, will be exempt from interest as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the opening and extending of BRADLEY AVENUE (although not yet named by proper authority), from Borden avenue to Greenpoint avenue, in the First Ward, Borough of Queens, in The City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 21 Jackson avenue, in the Borough of Queens, in The City of New York, on or before the 28th day of January, 1903, and that we the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at our said office on the 30th day of January, 1903, at 2 o'clock p. m.

Second—That the abstract of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 21 Jackson avenue, in the Borough of Queens, in said City, there to remain until the 6th day of February, 1903.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at a point formed by the intersection of a line parallel to and 200 feet easterly from, the easterly line of Bradley avenue with the southeasterly prolongation of the middle line of the block bounded by Bradley avenue, Review avenue and Pine street; thence northwesterly, along said prolongation and middle line to its intersection with a line parallel to and 100 feet southeasterly from, the southeasterly line of Pine street; thence, southwesterly along said parallel line to its intersection with the southeasterly prolongation of a line parallel to, and 100 feet southwesterly from, the southwesterly line of Star avenue; thence, northwesterly along said prolongation and last mentioned parallel line to its intersection with a line parallel to, and 100 feet northwesterly from, the northwesterly line of Fox street; thence, northwesterly along said last mentioned parallel line and its prolongation to its intersection with a line parallel to, and 100 feet northwesterly from, the northwesterly line of Borden avenue; thence, southeasterly, along said last mentioned parallel line to its intersection with a line drawn from a point on the northwesterly line of Greenpoint avenue midway between Gale street and Bradley avenue and parallel to Bradley avenue; thence, southeasterly along said prolongation and parallel line to Bradley avenue to its intersection with a line parallel to, and 100 feet southeasterly from, the southeasterly line of Greenpoint avenue; thence, southwesterly, along said parallel line to its intersection with a line parallel to, and 200 feet northwesterly from, the northwesterly line of Bradley avenue; thence southeasterly and southerly, along said last mentioned parallel line to the point or place of beginning; as such streets are shown on the Commissioners' map of Long Island City, filed in the Office of the County Clerk of Queens County, Jamaica, on the 25th day of April, 1873.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, for the hearing of motions, to be held in the County Courthouse, in the Borough of Brooklyn, in The City of New York, on the 19th day of March, 1903, at the opening of the Court on that day.

Dated Borough of Manhattan, New York, November 29, 1902.

SECOND DEPARTMENT.

In the matter of the application of Robert A. Van Wyck, Mayor, of The City of New York; Lewis Nixon, Smith E. Lane, James W. Boyle, Julian D. Fairchild, John W. Weber and James D. Bell, constituting a commission created and existing under chapter 789 of the Laws of 1895, entitled "An act to authorize the construction of a bridge over the East river, between the cities of New York and Brooklyn," and all other acts amendatory thereof and supplementary thereto, by the Corporation Counsel of The City of New York relative to acquiring title by The City of New York to certain lands on SOUTH FIFTH STREET, SOUTH SIXTH STREET, BROADWAY, WYTHE AVENUE, BERRY STREET, BEDFORD AVENUE and DRIGGS AVENUE, in the Thirtieth Ward of the Borough of Brooklyn, in The City of New York, duly selected according to law, with other lands, as a site for the construction and permanent location of a suspension bridge over the East river, between the cities of New York and Brooklyn (now the boroughs of Manhattan and Brooklyn, in The City of New York), and approaches thereto, authorized to be constructed by said chapter 789 of the Laws of 1895, and all other acts amendatory thereof and supplementary thereto.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate in the above-entitled matter, hereby give notice to the owner or owners, lessee or lessees, parties and persons respectively entitled to or interested in the lands, tenements,

hereditaments and premises, title to which is sought to be acquired in this proceeding, and to all others whom it may concern, to wit:

First—That we have completed our estimate of the loss and damage to the respective owners, lessees, parties and persons respectively entitled to or interested in the lands or premises affected by this proceeding or having any interest therein, and have filed a true report or transcript of such estimate in the office of the Commissioner of Bridges, the head of the Department of Bridges, and a copy thereof in the office of the Clerk of the County of Kings, for the inspection of whomsoever it may concern.

Second—That all parties or persons whose rights may be affected by the said estimate or who may object to the same or any part thereof may, within ten days after the first publication of this notice, January 8, 1903, file their objections to such estimate in writing with us at our office, Room No. 401, in the Rogers-Peet Building, No. 258 Broadway, in the Borough of Manhattan, in the City of New York, and we the said Commissioners will hear parties so objecting at our said office on the 21st day of January, 1903, at 3 o'clock in the afternoon, and upon such subsequent days as may be found necessary.

Third—That our report herein will be presented to the Supreme Court of the State of New York, at a Special Term thereof for the hearing of motions, at the County Courthouse, in the County of Kings, in the City of New York, Borough of Brooklyn, on the 9th day of February, 1903, at the opening of the court on that day, and that then and there or as soon thereafter as counsel can be heard thereon a motion will be made that said report be confirmed.

Dated New York, January 7, 1903.
DAVID F. MANNING,
OTTO F. STRUSE,
EZRA D. BUSHNELL,
Commissioners.

Second—That the abstract of our said supplemental and amended estimate of assessment, together with our benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 31st day of January, 1903.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at a point formed by the intersection of a line parallel to and distant 100 feet southerly from the southerly line of West Two Hundred and Fifty-sixth street with a line parallel to and distant 100 feet westerly from the westerly line of Netherland avenue; running thence northerly along last-mentioned parallel line to its intersection with the westerly prolongation of the middle line of the block between West Two Hundred and Sixty-first street and West Two Hundred and Sixty-second street; thence easterly along said westerly prolongation, middle line and its easterly prolongation to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence southerly along said parallel line to its intersection with the southwesterly line of Mosholu avenue; thence westerly in a straight line to the point formed by the intersection of the westerly line of Newton avenue with a line parallel to and distant 100 feet southwesterly from the southwesterly line of Faraday avenue; thence northwesterly, westerly and southwesterly along said parallel line to its intersection with the easterly prolongation of a line parallel to and distant 100 feet southerly from the southerly line of West Two Hundred and Fifty-sixth street; thence westerly along said easterly prolongation and parallel line to the point or place of beginning, as such streets are shown upon the final maps and profiles of the Twenty-third and Twenty-fourth Wards of The City of New York, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That our supplemental and amended report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Courthouse, in the Borough of Manhattan, in The City of New York, on the 24th day of March, 1903, at the opening of the court on that day.

Dated Borough of Manhattan, New York, December 23, 1902.

FIRST DEPARTMENT.

In the matter of the application of The Mayor, Aldermen and Commonalty of The City of

New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the purpose of opening EAST ONE HUNDRED AND FORTY-NINTH STREET (although not yet named by proper authority), from the Southern Boulevard to the east side of Austin place, as the same has been heretofore laid out and designated as a first-class street or road, in the Twenty-third Ward of The City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate of assessment for benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 21st day of January, 1903, and that we the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at our said office on the 26th day of January, 1903, at 2 o'clock p. m.

Second—That the abstract of our said estimate of assessment for benefit, together with our benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 31st day of January, 1903.

Third—That pursuant to provisions of chapter 613 of the Laws of 1896, we have assessed to the extent of 50% only of the total awards, costs and expense of the acquisition of any land, property, rights, rents, easements and privileges, not the property of The Mayor, Aldermen and Commonalty of The City of New York, required for the widening and improvement of said street, upon each and every parcel of land in the Twenty-third Ward, Borough of The Bronx, of the said City, to an amount in each case which we have deemed said parcel or parcels of land benefited by said widening and improvement.

Fourth—That our last partial and separate report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Courthouse, in the Borough of Manhattan, in The City of New York, on the 10th day of May, 1903, at the opening of the Court on that day.

Dated Borough of Manhattan, New York, December 30, 1902.
CHARLES V. GABRIEL, Chairman,
PATRICK A. MC MANUS,
CHARLES V. HALLEY,
Commissioners.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any service, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department. No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do. Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
