Whereas, In the opinion of the Board of Health of the Department of Health of The City of New York the protection of the public health requires the drainage by means other than sewers of certain lands situated, lying and being on Staten Island, in the Borough of Richmond, City of New York; said lands lying at the southwestern end of Staten Island, north of Tottenville, along Mill creek to Richmond Valley; the marsh area about 1 mile in length and 400 feet in width at Kreischerville; along Fresh Kill creek, about 4½ miles in length, and running from ¼ to 1½ miles in width; the marsh land extending from Linoleumville to Chelsea, 1½ miles in length and 1¾ miles in width; the marsh lands lying between Chelsea and Hollands Hook, a distance of 4 miles and from 1 to 2 miles in width; the territory from Hollands Hook to South Beach, and the stretch of land running from the court-house located at Richmond to the inlet to the Great Kills; and

Whereas, The proper drainage of said lands located as aforesaid requires the digging of ditches which cut through the turf layer into the clay or hard mud sub-soil and the filling in of depressions; and

Whereas, The inspection and investigations made by experts of these certain areas show that the proper drainage and filling in of same may be accomplished for the sum of about seventeen thousand dollars (\$17,000); therefore be it

Resolved, That the Board of Health of the Department of Health of The City of New York, pursuant to the provisions of chapter 535 of the Laws of 1893, hereby certifies to the Board of Estimate and Apportionment that the sum of seventeen thousand dollars (\$17,000) should be appropriated for the purpose of defraying the necessary expenses required to be incurred by the Board of Health during the period from July 1, 1905, to June 30, 1906, inclusive, for the preservation of the public health, in providing means for the drainage and filling in of certain marsh lands and the filling in of certain depressions, in various localities on Staten Island, in the Borough of Richmond, City of New York, and the destruction of all mosquito-breeding areas located on said island.

The President called the attention of the Commission to the case of Michael Conyngham, No. 611 Mott avenue, New York City, who was dismissed from the position of Inspector of Regulating, Grading and Paving in the office of the President of the Borough of The Bronx on December 5, 1903, for cause. The President stated that on September 9, 1904, Mr. Conyngham filed an application for Clerk, Department of Taxes and Assessments, which was rejected by the Chief Examiner for the reason that the applicant had been dismissed from the City service, and his name was black-listed; that since that time Mr. Conyngham's name has been removed from the black-list, and upon investigation, he could find no authority for such action, the matter never having been presented to the Commission.

A report of the Record Clerk on the matter stated as follows:

"Since that time (September 9, 1904), acting on instructions of which I can find no written copy, I have taken out the blacklist card and checked as to record, subsequent applications filed by said candidate. I am satisfied in my own mind that I received such order during Mr. McCooey's administration, but I cannot furnish the proof, and I submit to you this report as to action to this case.

"Very respectfully,

"JOHN W. WOODWARD."

After considering the matter, the explanation of the Record Clerk was accepted, and he was authorized to accept Mr. Conyngham's application for any future examination for which he might apply.

A letter was presented from the Department of Water Supply, Gas and Electricity, dated June 1, transmitting a copy of an order of the Supreme Court, restoring Mr. James D. Coveney, No. 206 Fifty-seventh street, Brooklyn, to the position of Inspector of Electrical Conductors in that Department, he having been removed from such position on July 24, 1903. The papers were ordered filed, and the Secretary was instructed to pass Mr. Coveney's pay-roll under authority of the said order of the Court.

A letter was presented from the War Veterans' and Sons' Association, dated May 31, stating that, "notwithstanding the fact that a veteran of the Civil War is first on the eligible list for Hostler, others (presumably from the Laborer list) have been appointed to and are at the present time discharging the duty prescribed for Hostlers in the Park Department in violation of law and regulations." The Secretary was instructed to communicate with the association and state that the records of the office show no appointments to the position of Hostler; and that if Laborers are being assigned to perform the duties of that position (Hostler), if the association will state in which borough the law is being violated, the matter will be immediately investigated.

A letter was presented from Mr. William F. Rousseau, Candidate 13723 for the position of Fireman, dated May 31, 1905, stating that, after an examination of his papers, he wished to protest against an error of the examiners who rated his arithmetic paper in giving him zero on the second question on said paper, the answer given by him being correct. After a consideration of the matter, the Commission believing that the candidate was entitled to credit for the question, the Secretary was instructed to return the candidate's arithmetic paper to the examiners who rated it, for correction.

On motion, it was

Resolved, That no affidavits relating to civil service matters shall be drawn up or taken by any employee of the Municipal Civil Service Commission.

The Commission then adjourned to meet on Wednesday, June 7, at 9.30 a. m.

Attest:

HENRY BERLINGER, Secretary.

Overburdened Piers, Bulkheads, etc.

Rule 3. No cargo shall be discharged from any vessel upon any pier, bulkhead or wharf structure, at which such vessel is being unloaded, after notice signed and served by the Dock Master of the District, upon the owner, consignee, master or other officer of such vessel, or stevedore, that such pier, bulkhead or structure will be endangered by the placing of additional cargo thereon, under a penalty of one hundred dollars for each and every such offense, in addition to all damages caused thereby after the service of said notice, to be recovered from such owner, consignee, master or other officer, or stevedore, severally and respectively.

No vessel of any kind shall be loaded or discharged by horse-power, unless proper planking be provided to protect the surface of such pier, bulkhead or wharf structure from injury consequent upon the travel of the horse, or the unloading of stones or similar cargo thereupon, under a penalty of twenty-five dollars for each offense of discharging such stones or like cargo upon such pier, bulkhead or wharf structure, to be recovered from the owner, consignee or master of any such vessel, or stevedore, severally and respectively.

No ashes, refuse, offal, fruit, vegetables or any other substance shall be thrown into the water surrounding or adjacent to any pier or bulkhead, or any other part of the water-front of the City, under a penalty of twenty-five dollars for each and every such offense, to be recovered from the owner, lessee or occupant, severally and respectively, of any pier, bulkhead, wharf, structure, or any property from which any such substance shall be thrown, or from the person actually throwing the same; or, if any such substance be thrown, from any vessel lying in water within the jurisdiction of the Department, whether berthed or not, then such penalty to be recovered from the owner, consignee or master of such vessel, severally and respectively.

Inflammable Material.

All rules and regulations of the Fire Department and other departments of the City Government, and all ordinances of the Board of Aldermen and of any commission or officer lawfully constituted governing the handling and storage of any of the substances hereinbefore in this rule mentioned, shall be complied with.

Snow and Ice.

Rule 8. No snow or ice shall be dumped into the waters adjacent to the water-front of the City, except from the piers, bulkheads and other places designated from time to time, by the Commissioner, for such dumping, under a penalty of twenty-five dollars for each and every such offense, to be recovered from the owner, lessee or occupant of any pier, bulkhead or other wharf property, from which any such snow or ice shall be dumped, or from the person actually dumping the same severally and respectively.

Storage on Shedded Piers, etc.

Rule 9. It shall not be lawful for the owners, lessees or occupants of any pier, wharf or bulkhead, which has been covered with a shed, pursuant to the statute in such cases made and provided, and constructed in conformity with the authority of the Department to use such shedded pier, wharf or bulkhead for the permanent storage of goods, merchandise, cargo or material of any kind which may be discharged or placed thereon. Permits for Sand and Building Material.

Rule 11. No brick, sand, gravel or similar material shall be unloaded on any wharf property, unless a permit therefor shall be issued by the Superintendent, and no such material shall be unloaded on unleased City property unless an application shall be submitted to the Superintendent, accompanied by a receipt from the Dockmaster for \$10, specifying the name of the vessel from which the cargo is to be unloaded, and a permit issued therefor by the Superintendent. At the expiration of ten days from the date of said permit, if any portion of said cargo remains, a similar application, accompanied by a receipt for an additional \$10, shall be submitted as in the first instance. No vessel carrying such material or cargo shall be allowed to occupy a berth for a period longer than three days when said berth is required by another vessel. PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
