Mandatory requirements for qualifying sites

* * *

- (b) Mandatory publicly accessible space requirements for qualifying sites
 - (1) Type and minimum size
 - * * *

- (iii) A #qualifying site# with a #lot area# of 65,000 square feet or greater shall provide an open publicly accessible space with an area of not less than 10,000 square feet. Where such #qualifying site# has a #through lot# portion, such #qualifying site# shall provide an open publicly accessible space across the #through lot# portion.

However, for a #qualifying site# with a #lot area# of 80,000 square feet or greater that includes an existing entrance to a rail mass-transit facility located outside the #through lot# portion of the #zoning lot#, such open publicly accessible space may be located so as to include the entrance to a rail mass-transit facility, provided that such open publicly accessible space adjoins a #street# or a required sidewalk widening, as applicable.

- (2) Design requirements for publicly accessible spaces

- (i) Open publicly accessible space

For open publicly accessible space, the provisions of Section 37-70, inclusive, shall apply, except that the provisions of Section 37-713 (Locational restrictions) shall not apply. In addition, the following modifications or waivers may be applied under certain circumstances:

- a. For #qualifying sites# where an open publicly accessible space is permitted to adjoin a #street# or a required sidewalk widening to accommodate an entrance to a rail mass-transit facility in accordance with Paragraph (b)(1)(iii) of this Section, and the majority of the subsurface area of such #qualifying site# is occupied by a railroad right-of-way, thus imposing practical difficulty in configuring the #building# or required publicly accessible space:
 1. the provisions of Sections 81-42 (Retail Continuity Along Designated Streets), 81-43 (Street Wall Continuity Along Designated Streets), and 81-671 (Special street wall requirements), Paragraph (d) of Section 37-715 (Requirements for major portions of public plazas) need not apply;
 2. where #street wall# requirements are not applied, the provisions of Paragraph (a) and (b) of Section 37-726 (Permitted obstructions) may be modified to allow a portion of a publicly accessible open space to be covered by a #building or other structure#, provided that there is an average separation of at least 50 feet between the level of such publicly accessible open space and any portion of #building# above, and further provided that any such portion shall be located no lower than 40 feet above the level of such publicly accessible open space. In addition, such #building or other structure# shall not obstruct more than 60 percent of the area of such publicly accessible open space;
 3. the provisions of Paragraphs (a) and (c) of Section 37-76 (Mandatory Allocation of Frontages for Permitted Uses) need not apply, where at least one food service kiosk shall abut or be included within such open publicly accessible space. The size limitations of Paragraph (a), and the certification requirements of Paragraph (c) of Section 37-73 shall not apply to such kiosk.
 4. where the provisions of Paragraph (d) of Section 37-715 are not applied, the provisions

of Section 37-721(a) (Sidewalk frontage) may be modified to require no more than 40 percent of the area within 15 feet of any such #street line# to be free of obstructions and the provisions of Section 37-741 (Seating), may be modified to exclude the length of any such #street line# from the calculation of the amount of seating required within 15 feet of such #street line#.

- b. For #qualifying sites# where an open publicly accessible space is permitted to adjoin a #street# or a required sidewalk widening to accommodate an entrance to a rail mass-transit facility in accordance with Paragraph (b)(1)(iii) of this Section, the Chairperson of the City Planning Commission shall permit modifications to the remaining provisions of Section 37-70, inclusive, upon certification to the Department of Buildings that such modifications address practical difficulties resulting from the presence of the entrance to a rail mass-transit facility within the open publicly accessible space.

● Win More Contracts at nyc.gov/competetowin

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
● Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
● Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
● Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children's Services (ACS)
Department for the Aging (DFTA)
Department of Consumer Affairs (DCA)
Department of Corrections (DOC)
Department of Health and Mental Hygiene (DOHMH)
Department of Homeless Services (DHS)
Department of Probation (DOP)
Department of Small Business Services (SBS)
Department of Youth and Community Development (DYCD)
Housing and Preservation Department (HPD)

REQUEST FOR EXPRESSIONS OF INTEREST: TRUCKS OF ART - Request for Information - PIN# 82719AD0032 - Due 3-31-19 at 11:59 P.M.

The NYC Department of Sanitation, is seeking volunteer artists for Trucks of Art, a new public art project to transform 23-ton collection vehicles into roving works of art. These heavy-duty machines offer nearly 400 square feet of "canvas," and artists may leverage the trucks' sides, front and back in their works.

Trucks of Art will highlight the importance of sustainability and honor New York's Strongest, the workforce that keeps New York City healthy, safe and clean – while adding a bit of flair to neighborhoods as we serve them. Because the Department is leading New Yorkers to send zero waste to landfills, artists are challenged with utilizing paints that would otherwise be discarded or recycled.
