LEGISLATIVE DEPARTMENT.

From the proceedings of the Board of Assistant Aldermen, February 16, 1874:

By Assistant Alderman Theiss—
AN ORDINANCE to prohibit the use of snow ploughs, by stage companies, in the streets of the City of New York.

The Mayor, Aldermen, Commonalty of the City of New York, in Common Council convened, do ordain, as follows:

Section 1. It shall not be lawful for any or either of the stage companies, or proprietors, within the limits of the City of New York, or their officers, agents, or servants to cause or allow any snow-plough to pass over the streets used by them within the said limits.

Section 2. Any of the companies or proprietors who shall violate the provisions of the above section, shall be punished by a fine not exceeding one hundred dollars for each offence, and the officers, agents or servants of such company, or proprietor, who shall violate the said provisions, shall be punished by a fine not exceeding one hundred dollars for each offence, and the same shall be recovered at law by an action to be commenced by the Corporation Attorney, on behalf of the Mayor, Aldermen and Commonalty of the City of New York.

Section 3. All ordinances or parts of ordinances inconsistent or conflicting with the provisions of this ordinance are hereby repealed.

Section 4. This ordinance shall take effect immediately.

Which was referred to the Committee on Railroads.

The Special Committee of the Board of Assistant Aldermen, to whom was referred the resolution to examine the building on Fourth and Madison avenues, Twenty-sixth and Twenty-seventh streets, respectfully

REPORT:

That they have personally examined the building referred to, and the Committee find the work under progress and partly finished or completed. The building is enclosed with a brick wall 28 feet high, the inner construction is of frame work 35 feet high at the highest point, and the roof is to be covered with felt and gravel; the seats will cover a space about 50 feet all around the block, except the openings for entrances and egress, leaving a space in the centre of 140 feet by 340 feet of an opening for the performances and garden grounds. There is to be 12 or 14 large doors for egress in case of fire or a panic. The proprietors informed the Committee that there is no fire or heaters to be used in the building; gas is to be used, and all the woodwork near the gas-burners is to be covered with tin. There is to be hydrants placed in various parts of the building, and sufficient quantity of hose near at hand in case of fire.

Your Committee are therefore of the opinion that the building is perfectly safe from fire, and much better chances in case of a panic for egress than any other places of amusements.

And your Committee are further of the opinion that they have no jurisdiction in the matter. They therefore respectfully asked to be discharged from further consideration, and that the resolution be placed on file.

GEORGE F. CODINGTON,
WM. S. KREPS,
PHILIP CUMISKY,
Special Committee.

Which was referred to the Committee on Public Buildings.
