PROCEEDINGS OF THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

AT A MEETING OF THE BOARD HELD IN NO. 320 BROADWAY ON THURSDAY, THE 5TH OF APRIL, 1906,

There were present—Alexander E. Orr, President, presiding; John H. Starin, Vice-President; Comptroller Herman A. Metz and Commissioners Woodbury Langdon, Charles Stewart Smith and John Claffin.

Mr. Boardman presented to the Board a memorandum of proposed amendments to the so-called Elsborg bill pending in the Legislature to amend the Rapid Transit Act. He reported that Mr. Rives was in Albany prepared to represent the Board before the Cities Committee of the Senate.

On motion, the memorandum was unanimously approved and the Secretary instructed so to inform Mr. Rives.

Harry Robitzek, representing the Vyse estate; Olin J. Stephens, president of the North Side Board of Trade; James L. Wells, president of the Bronx League; Mr. Haas, of the Board of Brokers; Mr. Peters, of the Taxpayers' Alliance, and Alderman Kuntze, of the Thirty-eighth Aldermanic District, addressed the Board on the immediate necessity of running all subway express trains through to the Borough of The Bronx rather than stopping them, as at present, in Lenox avenue, and again pointing out the badly congested condition of the station at One Hundred and Forty-ninth street and Third avenue. It was understood that the Chief Engineer would confer with the Interborough Rapid Transit Company, with a view to arriving at some solution of this difficulty.

The minutes of the meeting of the 22d of March were read and it was moved that they be approved.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Claffin.

Nays—None.

Carried.

Mr. Boardman reported to the Board that he thought the work of obtaining consents for the different additional rapid transit routes, or, in lieu thereof, of the Appellate Division of the Supreme Court, would be so far advanced that it would be possible to advertise for bids for construction, etc., by July 1 next.

Letter, as follows, of the New York and Jersey Railroad Company was presented and a copy ordered forwarded to counsel for their information:

NEW YORK AND JERSEY RAILROAD COMPANY,
No. 111 BROADWAY,
NEW YORK, March 22, 1906.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners for The City of New York, No. 320 Broadway, New York City:

DEAR SIR—We are advised that your Board, by resolution adopted on March 22, 1906, has approved the proposed plan for the terminal station of this company between Thirty-second and Thirty-third streets, on Sixth avenue, upon the understanding that such terminal station is not included in the property as to which the City is given an option of purchase by the certificate of February 2, 1905. Your resolutions further provide in substance that no certificate of approval of these plans is to be delivered to this company, except on receipt of an assurance in writing that the option above referred to and the provisions for the exercise thereof will not be claimed by this company to apply to the said terminal station.

In order to obtain from your Board your approval of the plans of the Rapid Transit Commission, I am authorized to state, on behalf of this Company, that this company does not and will not claim that the provisions of clause 10 of the certificate of February 2, 1905, relating to an option to the City to purchase certain property of this company, apply in any way to the said terminal station; and this company will be prepared

to execute a supplemental agreement with the City, embodying this understanding, in such definite legal form as may be agreed upon by counsel.

Respectfully yours,

(Signed) W. G. McADOO, President.

Draft of agreement was presented between The City of New York, the Interborough Company and the Manhattan Railway Company, providing for a change of passengers without extra fare between the Manhattan Elevated system in The Bronx and the subway going in either direction.

The following resolution was moved:

Resolved, That the officers of this Board be and they hereby are authorized to execute agreement in form substantially as follows:

Agreement made this day of March, in the year nineteen hundred and six, between The City of New York, hereinafter called the City, acting by the Board of Rapid Transit Railroad Commissioners for The City of New York, hereinafter called the Board, party of the first part; Interborough Rapid Transit Company, hereinafter called the Interborough Company, party of the second part, and the Manhattan Railway Company, hereinafter called the Manhattan Company, party of the third part, witnesseseth:

Whereas, By a certain agreement made the 16th day of July in the year nineteen hundred and three, between The City of New York, acting by the said Board, party of the first part, and John B. McDonald and the Interborough Company as parties of the second part, it was agreed that the contract made between the said City and the said John B. McDonald for the construction and operation of a rapid transit railroad in The City of New York, dated February 21, 1900, and the routes and general plan therein contained, should be and were modified by providing for the construction of a branch or spur extending from the line of the route of the said Rapid Transit Railroad on Westchester avenue at or near the intersection of St. Ann's avenue and Westchester avenue, to a point of connection with the railroad of the Manhattan Company in Third avenue, near Westchester avenue; and

Whereas, It was in said agreement provided that the said agreement should take effect if and when, and only when, in addition to the consents of the various corporations and individuals therein provided for there should be duly executed and delivered in form satisfactory to the Board an agreement under seal between the City, the Interborough Company and the Manhattan Company, providing and assuring that during the period of the lease contained in the said contract between the City and John B. McDonald made on or about the 21st day of February, 1900, and every renewal or extension thereof, passengers traveling upon the said Rapid Transit Railroad and the railroad of the said Manhattan Company should have the rights herein provided for; and

Whereas, The lease contained in the said contract between the said City and John B. McDonald was duly assigned unto the Interborough Company with the consent of the Board, by assignment duly executed and dated on or about the 10th day of July, 1902, and the construction of the portions of the said Rapid Transit Railway at and near the points above mentioned has now been completed by the said John B. McDonald, and he has no present interest in the subject matter of this agreement;

Now, therefore, in consideration of the premises and of the mutual advantage derived by the parties of the second and third parts from the agreement of the City to the modification of the routes and general plan of the said Rapid Transit Railroad above referred to, the Interborough Company and the Manhattan Company do respectively agree to and with the City and with each other that during the period of the lease contained in the said contract between the City and John B. McDonald, made on or about the 21st day of February, 1900, and assigned to the Interborough Company, and every renewal or extension thereof, any passenger upon the Rapid Transit Railroad constructed under and pursuant to the said contract, traveling along Westchester avenue from the north as far as St. Ann's avenue shall have the right as part of the same trip, and without additional fare, to be carried thence upon the portions of the Rapid Transit Railroad, which were added by said agreement of July 16, 1903, to the railroad of the Manhattan Company along Third avenue and thence southerly upon the railroad of the Manhattan Company to any point upon the said railroad south of the intersection of Third avenue and Westchester avenue, and that any passenger upon the said railroad of the Manhattan Company traveling northerly along said Third avenue as far as Westchester avenue shall have the right, as part of the same trip, and without additional fare, to be carried easterly upon the portion of the Rapid Transit Railroad added by said contract of July 16, 1903, along Westchester avenue to St. Ann's avenue, and thence continue easterly or northerly to any point upon the eastern branch of the said Rapid Transit Railroad as described in the routes and general plan referred to in and annexed to the said contract between the City and John B. McDonald, dated the 21st day of February, 1900.

In witness whereof, this contract has been executed for The City of New York by the Board of Rapid Transit Railroad Commissioners under and by resolution duly adopted by said Board and concurred in by more than six of its members, and the seal of the said Board has been hereunto affixed and these presents signed by the President and Secretary of the said Board, and the said Interborough Rapid Transit Company and the said Manhattan Railway Company have caused their respective corporate seals to be hereto affixed and attested by their respective Secretaries, and these presents to be signed by their respective Presidents, all on the day and year first above written.

Hon. ALEXANDER E. ORR, President of the Board of Rapid Transit Commissioners:

DEAR SIR—The undersigned, Louisa W. Rohrlé, as administratrix of the goods, chattels and credits of Edward Rohrlé, deceased, does hereby offer to sell and convey any and all easements in, over and upon said Southern Boulevard in front of and adjoining the property known as No. 2390 Southern Boulevard, and designated on the tax maps of The City of New York as Lot No. 7, Block 2981, with a frontage on Southern Boulevard of 26.64 feet, necessary for the maintenance and construction of the Rapid Transit Railroad, now completed in front of the said premises, at and for the sum of ten dollars (\$10) per running foot, provided this offer be accepted in writing on or before the 15th day of April, 1906, and said offer to be paid to Louisa W. Rohrlé, as administratrix of the goods, chattels and credits of Edward Rohrlé, deceased, on or before the 15th day of May, 1906.

(Signed) LOUISA W. ROHRLÉ,
as Administratrix, etc., of Edward Rohrlé, deceased.
By JOSEPH A. FLANNERY, Attorney,

No. 170 Broadway, Borough of Manhattan, New York City.
Dated New York, March 28, 1906.

The Secretary reported that the President had transmitted to the Board of Estimate and Apportionment communication as follows, as authorized at the previous meeting:

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,
No. 320 BROADWAY, NEW YORK.

To the Board of Estimate and Apportionment of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York was heretofore duly organized pursuant to chapter 4 of the Laws of 1891, as amended, and since such organization it has conducted the inquests and investigations necessary to determine whether it is for the interest of the public and of the City that a rapid transit railway or railways for the conveyance of persons and property should be established therein; and after such inquests and investigations has duly determined, by resolutions adopted on the 22d day of March, 1906, by the concurrent vote of at least six of its members, that the rapid transit railway hereinafter described, in addition to any already existing, authorized or proposed, is necessary for the interest of the public and the City, and has duly determined and established the routes thereof and the general plans of construction; and it herewith transmits to your Honorable Body certified copies of the routes and general plans so determined and established.

Briefly stated, the proposed route begins at a point in Fourth avenue, in the Borough of Brooklyn, at which connections (without grade crossings) can conveniently be made with the projected subway running under Fourth avenue from Flatbush avenue to Fort Hamilton. From thence the new route runs under Fortieth street and New Utrecht avenue to Eighty-sixth street, then through Eighty-sixth to a point between Twenty-third and Twenty-fourth avenues, where it emerges from the ground and becomes an elevated railway, and continues thence over Eighty-sixth street and Stillwell avenue to Coney Island. In effect the proposed route is an extension of the Fourth avenue and Fort Hamilton subway, the plans for which were approved by your Board on July 14, 1905, and by the Mayor on July 28, 1905. This latter route is so planned, as the records of your Board will show, that connections

can be made with the subway now constructing and with the Prospect Park extension heretofore authorized, and also with the Brooklyn and Manhattan loop lines, approved by your Board on July 14, 1905. In this way direct communication may be established between all points along the new route herewith submitted, and the points in the boroughs of Brooklyn, Manhattan and The Bronx which are reached either by the present subway or by the Brooklyn and Manhattan lines above referred to.

The proposed new route traverses a part of the Eighth Ward, and practically all of the Thirtieth and Thirty-first Wards in the Borough of Brooklyn. The population of this district at the present time is said to be upwards of ninety thousand, and is increasing at a very rapid rate. Borough Park, Bensonhurst, Bath Beach, Blythebourne, Martense, Lefferts Park and Homewood are the local designations of various parts of the district through which the route passes after leaving Fourth avenue and before reaching Coney Island. It is stated that during the year 1905 building improvements in the district involved an actual expenditure of six million dollars, and that the average house constructed was built at an expense of from five thousand to ten thousand dollars. It is anticipated that the year 1906 will see a like increase.

The population of the district is made up almost exclusively of persons who are engaged in business in the Borough of Manhattan, and who go to and fro between their residences and their places of business every day. The present means of communication are overcrowded, uncomfortable, inadequate and probably incapable of being materially improved.

The figures above given as to the population of the district through which the road passes do not include the population of Coney Island nor the number of transient visitors. The Commission is informed that in the year 1905 twenty-eight million persons visited Coney Island, and that ninety-four per cent. of this number came from the Borough of Manhattan. It is, of course, unnecessary for the Commission to call the attention of your Honorable Board to the desirability of improving by every possible means the conveniences of travel between Coney Island and the rest of the City, nor to call attention to the delay and difficulty of reaching that point at the present time. The Coney Island traffic on the projected line of railway would, of course, be in itself a very great factor in making that a profitable line.

As above stated, the proposed new railway is to be in a subway from Fourth avenue to a point in Eighty-sixth street, between Twenty-third and Twenty-fourth avenues, where it will emerge from the ground. At certain points on this road it will necessarily be constructed at a very considerable depth below the surface, being as much as one hundred feet under Sixth avenue. This portion of the road, it is proposed, shall be of the type of subway already familiar to all the citizens of New York. Southeasterly from the point where the line emerges from the ground, it would be impossible, except at what might prove to be prohibitive expense, to construct a subway under the low-lying land near Coney Island and under the Gravesend Ship Canal. It is therefore proposed to construct an elevated railroad of a type similar to that now in operation for the rapid transit railway in Westchester avenue, Southern Boulevard and the Boston road, in the Borough of The Bronx.

Between Twenty-third and Twenty-fourth avenues, where the railway emerges from the ground, it will be necessary to construct it partly in open cut and partly on an embankment, thus closing passage across Eighty-sixth street, between the two avenues last mentioned. This mode of construction, which is similar to that on Broadway, near One Hundred and Twenty-second street and One Hundred and Thirty-fifth street, in Manhattan, will involve an occupation of about 60 feet in width of the entire street, leaving a very inadequate width on each side for sidewalks and roadways. It will consequently probably be thought expedient, if the route herewith submitted is approved, to provide for the widening of Eighty-sixth street, between these two avenues. The property at that point is practically unimproved at the present time, and the necessary widening could be made without serious expense. It would doubtless be thought proper to charge the cost of such widening to the City at large, and not assess it upon the neighboring property; and it might prove possible to recover the amount from the company operating the new railway by adding to its rental an annual sum equal to the interest on the bonds issued to pay for the street widening plus a suitable sinking fund payment.

It is proper to add that a very large majority of the abutting property owners along the line have already consented to the construction and operation of the proposed railroad.

The route and general plans above set forth are submitted to your Honorable Body for its approval.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be signed by its President and Secretary this 22d day of March, 1906.

[SEAL]

BION L. BURROWS, Secretary.

A. E. ORR, President.

Letter of Dr. Soper was presented as follows, and the Secretary was instructed to inform him that the maximum limit of expenditure under the arrangement for investigating the possible physiological effects of subway dust was understood to be \$2,500:

GEORGE A. SOPER, PH. D., CONSULTING SANITARY ENGINEER,
No. 29 BROADWAY, NEW YORK,
March 28, 1906.

Mr. ALEXANDER E. ORR, President, Rapid Transit Commissioners, New York, N. Y.:

DEAR SIR—Your kind letter of March 24 has been received, and a formal notice from the Secretary of the Board of Rapid Transit Railroad Commissioners came this morning. On the receipt of your favor, I immediately took steps to proceed with my investigation of the possible physiological effects of subway dust.

Although my letter of March 22 makes no reference to some of the details of our arrangement, I suppose these matters are sufficiently well understood not to need repetition. The principal point is that I shall be responsible only to the Commissioners and that my work will not be directed, restricted or extended by any of your employees.

Owing to the fact that many of the details of my expenses will be of such a character as cannot be well described, I will not itemize my bills for services and expenses unless you desire it.

Very respectfully,
(Signed) GEORGE A. SOPER.

Report of the Comptroller on proposed bond of the New York and Jersey Railroad Company for \$200,000, in accordance with the certificate of February 2, 1905, was presented as follows:

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
March 28, 1906.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners:

SIR—In reply to your communication of the 23d inst., relative to the bond of the New York and Jersey Railroad Company, in the sum of \$200,000, I return herewith original bond, together with a report on the same, and recommend that the course suggested in said report be taken.

Respectfully,
(Signed) H. A. METZ, Comptroller.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
March 27, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—With reference to the bond for \$200,000 of the New York and Jersey Railroad Company, as principal, and the United States Fidelity and Guaranty Company, as security, for the faithful performance by the New York and Jersey Railroad Company of all the conditions and requirements of the certificate granted by the Board of Rapid Transit Railroad Commissioners, I respectfully submit that while under chapter 24 of the Insurance Law the United States Fidelity and Guaranty Company can write a bond for such amount, it would be advisable, considering that \$200,000 is practically the limit of a bond which this surety company can write, to have another strong company join the above-mentioned surety company in writing the bond, thereby halving the risk taken by each of the surety companies. The Fidelity and Deposit Company of Maryland or the American Surety Company, for instance, could readily qualify as co-surety for the amount in question.

Respectfully submitted,
(Signed) PAUL LOESER, Clerk to the Comptroller.

The Comptroller reported that representatives of the New York and Jersey Railroad Company, to whom his report had been referred by President Orr, had already called upon him, and arrangements had been made for adding another company to the bond, whereupon the matter was referred back to him for further report as to the amended bond.

Report of the Chief Engineer was presented as follows:

NEW YORK, March 31, 1906.

Hon. A. E. Orr, President, Rapid Transit Board:

DEAR SIR—For your information I beg leave to state that I am in receipt of a letter from the Secretary of the New York Zoological Society setting forth that at a meeting of the Executive Committee held on March 28, 1906, unanimous action was taken in objecting to the station proposed to be permanently located north of One Hundred and Eightieth street on the Boston road, the Zoological Society favoring its location at One Hundred and Eightieth street immediately opposite the entrance to the park at that point. In this connection I beg to submit the following facts:

According to the original contract the railroad was to extend to East One Hundred and Eighty-second street and have a station at that place, but at the suggestion of the authorities of the Zoological Park the railroad was temporarily stopped at the south side of East One Hundred and Eightieth street, owing to the fact that the park authorities said they were negotiating for land on the east side as well as on the west side of Boston road, between East One Hundred and Eightieth and East One Hundred and Eighty-second streets. A part of this land on the east side was bought by the Interborough Company for the purpose of a terminal yard, and out of courtesy to the Zoological Park authorities it did not put its yard at this place, but located it at One Hundred and Seventy-seventh street, and a temporary station was built at One Hundred and Eightieth street. At the present time this temporary station is inadequate to handle the traffic, and located as it is at the foot of a grade, is awkward from an operating standpoint.

The park authorities have not acquired the land on the west side of Boston road, and the extension, with its station, has been finally located at East One Hundred and Eighty-first street, and there is no intention of running northward through the park; nor was the elevated structure designed with that point in view.

The station is located to accommodate the traveling public and make it easy to reach the park. Traffic on this branch of the Rapid Transit Railroad is very large, and on the increase, and therefore it is desirable for the convenience of the public to run longer trains, have better terminal facilities and make the station a permanent one.

For these reasons I consider the carrying out of the plans as desirable, both from the standpoint of the general public and the park authorities; and I do not see that the park, either in an aesthetic or in a practical sense, is materially interfered with. The subway is on the City's street and particular attention has been taken to have the stairway on the side of the station away from the park.

I think if the park authorities object to the proposed location of this station that they are sacrificing the interests of the public and of the park to gratify a one-sided view.

I enclose a blue print showing the location of the station.

Yours very respectfully,

(Signed) GEORGE S. RICE, Chief Engineer.

The following resolution was moved:

Resolved, That the President of this Board be and he hereby is authorized to appoint a committee to confer with the committee of the New York Zoological Society on the subject of the station at One Hundred and Eighty-first street and Boston road.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Clafin.

Nays—None.

Carried.

The President appointed as such committee Commissioner Jesup, Commissioner Smith and Mr. Rice.

Letter of John C. Hertle, member of the Mayor's Advisory Commission, was presented as follows and referred to the Chief Engineer for the preparation of a statement of possible cost of future subways:

OFFICE OF THE COMMISSIONERS OF ACCOUNTS,
STEWART BUILDING, No. 280 BROADWAY,
NEW YORK, March 29, 1906.

Mr. BION L. BURROWS, Secretary, Rapid Transit Commission, No. 320 Broadway, City:

DEAR SIR—As a member of the Mayor's Advisory Commission, I have been requested by one of the subcommittees to submit certain figures relating to the margin of debt limit available for future public improvements for the next five years. Although these figures will naturally be an estimate, I am desirous of giving said Committee this information as nearly accurate as possible.

I have the amounts of Corporate Stock already authorized to be issued for the various public improvements under your supervision, but I am compelled to ask you to furnish me with the following information:

First—A detailed statement of the various projected improvements for which your Department will require the authorization of additional issues of Corporate Stock.

Second—The amounts of such additional authorizations which will probably be expended during the five years from January 1, 1906.

Third—The amounts of issues authorized prior to January 1, 1906, which in your judgment would not be required to be expended during the next five years.

As the Commission is anxious to conclude its labors as soon as possible, you will greatly assist me by supplying this information at your earliest convenience.

Thanking you in advance for any trouble you may be put to, and hoping to be favored with an early reply, I am,

Very truly yours,

(Signed)

JOHN C. HERTLE,

Member of the Mayor's Advisory Commission.

Report of Counsel was presented as follows, and it was understood that the Chief Engineer would confer with the Engineering Department of the New York Central and Hudson River Railroad Company on the subject:

No. 32 NASSAU STREET,
NEW YORK, March 29, 1906.

ALEXANDER E. ORR, Esq., No. 346 Broadway:

MY DEAR MR. ORR—I beg to call your attention to the act of the Legislature which has just been signed by the Governor relative to the removal of steam railroad tracks laid in the streets in the Borough of Manhattan.

By the terms of this law the Rapid Transit Commission is required "as speedily as possible" to prepare a plan for the removal of the tracks of "railways now operated by steam locomotive power" laid on or along public streets in this Borough. The Commission is also required to make an agreement in reference to the matter of the removal of these tracks with any railroad company which operates such a railroad. The agreement must provide for the placing of tracks in a subway at the railroad company's expense, and may provide also for compensation being paid to the City for laying additional tracks and for permitting connections with other subways. If an agreement is not reached within a year from the date when the act was signed by the Governor, application must be made to the courts to condemn this part of the railroad and pay the company its value.

The Rapid Transit Commission is therefore charged under this law with the active duty of preparing plans for a subway in which shall be laid the tracks of the New York Central Railroad along Eleventh avenue and other streets, and the time within which this duty must be discharged is limited.

I venture, therefore, to suggest that at its next meeting the Rapid Transit Commission ought to take up the subject. It will be necessary, in the first place, to have careful surveys made, showing just what tracks now exist in this Borough which come within the language of the act, and to have a report from the engineering staff of the Commission, showing what possible means can be provided for placing such tracks in a subway.

In getting at the facts, I should think it would be very desirable to get from the Railroad Company all the data which it possesses and to work as far as practicable in harmony with the engineers of that Company. For this purpose it might be very desirable to have a conference between you or some other member or members of the Commission and Mr. Newman at an early day.

Mr. Rice knows, of course, better than any one else whether any additional force will be needed in his office to do the necessary engineering work, but I should suppose it would be essential to put some one division engineer in charge of this particular business and keep him at it until it was concluded.

I will try to have a complete copy of the bill to lay before the Commission at its next meeting.

Very truly yours,

(Signed)

G. L. RIVES.

Letter of the Secretary of the Committee on the Prevention of Tuberculosis of the Charity Organization Society of The City of New York, asking upon whom the duty rests—the Rapid Transit Board or the Department of Health—to see that the law concerning the use of cuspidors in subway stations is enforced was presented, and it was understood that the Secretary would inform the Committee that no decision had been reached on this subject.

Letter of Frank Bailey, Vice-President of the Title Guarantee and Trust Company, Brooklyn, and report of the Chief Engineer, on the possibilities of interference with work of putting out a fire in Fulton street, Brooklyn, by the condition of the street growing out of subway construction, were presented as follows, and a copy of the report of the Chief Engineer ordered transmitted to the complainant:

TITLE GUARANTEE AND TRUST COMPANY,
No. 175 REMSEN STREET,
BROOKLYN, March 12, 1906.

Rapid Transit Commission, Manhattan:

DEAR SIR—As far as you have charge of the construction of the tunnel on Fulton street, I beg to call your attention to the fact that the condition of that street is such that it would be almost impossible to take care of a fire of any size on that street.

As a citizen of Brooklyn and as a member of the Committee having the fire insurance rates under consideration, I feel that that section of the City is being considerably jeopardized because of the tunnel conditions.

Very truly yours,

(Signed)

FRANK BAILEY.

NEW YORK, March 27, 1906.

BION L. BURROWS, Esq., Secretary, Rapid Transit Board:

DEAR SIR—Referring to yours of March 13, I have looked into the question raised by Mr. Frank Bailey, Vice-President of the Title Guarantee and Trust Company, in his letter of March 12 on the subject of fire protection of Fulton street, and think that Mr. Bailey's statement that the condition of Fulton street is such that it would be almost impossible to take care of a fire of any size on that street, is not borne out by the facts. The whole theory of the fire protection of Fulton street seems to be based on the idea of fighting the fire from the side streets. In the entire distance from Boerum place to Flatbush avenue, about one-half mile, there are only three hydrants directly on Fulton street, but at all intersecting streets there are numerous hydrants just around the corners.

The principal objection that could be raised against the subway work in this connection is that under present conditions fire apparatus cannot be hauled along Fulton street for any great distance without first stopping the street cars in both directions and sending them around by some other route. This is due to the open spaces which are left between the street railway tracks and the curb, and could only be avoided by planking over the entire roadway from curb to curb.

The clauses in our specifications, bearing on the subject of access to fire hydrants and fire alarm boxes, have been rigidly observed by the contractor. Where hydrants have been exposed to the weather they have been wrapped and packed with salt hay to prevent freezing. Where access to a hydrant has been cut off by the opening of the street near the curb, the hydrant has been extended by a three-inch pipe to an accessible point in the roadway. Connections between the roadway and the sidewalk occur at frequent intervals, so that the Fire Department can have easy access at all times to any building for the extinguishing of a fire.

Very truly yours,

(Signed)

GEORGE S. RICE, Chief Engineer.

Resolution of the Board of Aldermen was presented as follows, and the Chief Engineer was directed to confer with the Interborough Company with a view to arriving, if possible, at some immediate solution of the trouble:

In the Board of Aldermen.

Whereas, The traffic at the subway station at One Hundred and Forty-ninth street and Third avenue is the heaviest of any station on said rapid transit route, with the exception of the Brooklyn Bridge station, and all other large stations on said route are provided with separate exits and entrances; and

Whereas, The Rapid Transit Commission and the operating company in control of the said railroad have failed to provide such necessary exits and entrances at One Hundred and Forty-ninth street station aforesaid, and the conditions thereof owing to the immense traffic and large number of passengers transferring at this point to and from the elevated railroad are such that during the rush hours there is considerable unnecessary delay, and the confusion resulting is dangerous to the life and limb of the residents of the Borough of The Bronx using said station.

Resolved, That the Rapid Transit Commission be called upon to remedy these conditions by causing the erection of separate exits and entrances at this station without delay.

Adopted by the Board of Aldermen March 27, 1906, a majority of all the members elected voting in favor thereof.

(Signed)

P. J. SCULLY, Clerk.

Report of the Chief Engineer, submitting sheets 1604-C and 1604-D, being statements giving interest to be paid by the Interborough Rapid Transit Company for part of the Rapid Transit Railroad operated to the 31st of December, 1905, inclusive, under Contracts Nos. 1 and 2, was presented as follows, and ordered transmitted to the Comptroller:

NEW YORK, March 29, 1906.

BION L. BURROWS, Esq., Secretary, Rapid Transit Board:

DEAR SIR—Referring to the rental payable by the Interborough Rapid Transit Company referred to in copy of communication of the Comptroller transmitted with yours of January 15: I beg leave to hand you herewith sheets 1604-C and 1604-D, being statements giving the interest to be paid by the Interborough Rapid Transit Company to the City for part of Rapid Transit Railway operated up to December 31, 1905, inclusive, on Contracts Nos. 1 and 2.

It should be noted that these figures are subject to change, as they are based on tentative figures which may be revised when final adjustments are made, and hence the acceptance of these statements by the City and contractor should be understood not to commit either party to the figures provisionally used in ascertaining the rental due up to December 31, 1905.

Very truly yours,

(Signed)

GEORGE S. RICE, Chief Engineer.

Report of the Chief Engineer was presented as follows:

NEW YORK, April 5, 1906.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,
No. 320 Broadway, New York City:

DEAR SIR—During the progress of our investigations with a view to improving the condition of the air in the subway, two devices were evolved by a former member of the engineering staff.

First—A device for cooling the air by causing it to pass over or through wire gratings, or mats, kept wet with running water.

Second—A check valve, or movable louver, designed to allow the air to pass through it only in one direction, thereby permitting the air compressed in front of moving trains to escape through the louver, but preventing the air from being drawn in at the same point.

Some time after we had evolved the devices referred to, we learned that patents were pending on both of them. Mr. Rives informs me that he hardly thinks it probable that patents will be granted to these applicants. It seems desirable, however, to oppose the granting of any such patents in order to avoid the possibility of future litigation. To do this it will be necessary for the Assistant Engineer, who has evolved the devices,

to file caveats, or applications for patents which he can previously assign to the City. An interference will then be declared in the Patent Office and testimony taken to show priority of invention.

In order to file the necessary applications, therefore, I respectfully request that I be authorized to make expenditures, not exceeding \$500, to permit me to retain a patent solicitor and to cover other necessary expenses incident to the applications.

Respectfully,
(Signed) GEORGE S. RICE, Chief Engineer.

The following resolution was moved:

Resolved, That the Chief Engineer be and he hereby is authorized to make an expenditure not exceeding \$500, as outlined in his letter printed above.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Claflin.

Nays—None.

Carried.

In this connection President Orr brought up the subject of the report of the Chief Engineer on ventilation. The Chief Engineer reported verbally that he thought an expenditure of \$300,000, or thereabouts, would be sufficient to cover the necessary changes outlined in his report, and that this could be done as extra work and would be approved by the Interborough Rapid Transit Company as such.

The following resolution was moved:

Resolved, That this Board hereby approves the report of its Chief Engineer, dated the 22d of March, 1906, on plans for improving the ventilation of the subway, and refers the matter back to him to make final arrangements with the Interborough Rapid Transit Company preparatory to the adoption of a resolution covering the matter.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Claflin.

Nays—None.

Carried.

Letter of the Realty Associates was presented as follows, and the Chief Engineer was authorized to make the request referred to therein:

REALTY ASSOCIATES,
No. 176 REMSEN STREET, BROOKLYN, N. Y.,
April 4, 1906.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,
No. 320 Broadway, New York:

DEAR SIR—In considering the subway now planned on Flatbush avenue, between Nevins and Livingston streets, it will be necessary to underpin the foundations of the building known as the Journey & Burnham Building, Nos. 26 to 42 Flatbush avenue, necessitating the entering and occupation of part of the property in question, owned by this company.

An informal request for permission to make this entry was recently made by a representative of the contractor and the Engineering Department of your Board.

We are now inclined to grant such a request, but think that formal application for this permission should be made by your Board.

Yours truly,
(Signed) CLIFFORD S. KELSEY,
Second Vice-President.

Communications of Beardsley & Hemmens, Attorneys for the New York Edison Company, stating that that company had placed with them for collection, claims against the Degnon-McLean Contracting Company, amounting to \$14,141.05, and against the Degnon Contracting Company for \$1,893.77, and against William Bradley for \$314.99, all sub-contractors on rapid transit work, being for labor and services and changing underground conductors, etc., of the New York Edison Company, were presented and referred to counsel for report.

The following resolution was moved:

Resolved, That this Board hereby makes the following appointments and promotions, consents to the following transfer and accepts the following resignations on the staff of its Chief Engineer:

Report of counsel on the proposition of the Interborough Rapid Transit Company to make a connection between the feed wires of the subway and those of the street railway at One Hundred and Eighty-first street and Broadway and elsewhere, was presented as follows, and referred to the Chief Engineer to prepare a statement of facts for submission to counsel for the preparation of a further report:

No. 32 NASSAU STREET, NEW YORK,
April 4, 1906.

ALEXANDER E. ORR, Esq., No. 320 Broadway:

MY DEAR MR. ORR—Some time ago Mr. Rice called my attention to the fact that the Interborough Railway Company were proposing to make a connection between the feed wires of the subway and those of a street railway at One Hundred and Eighty-first street and Broadway. I then expressed to him my opinion that the legal questions involved were not free from doubt and might become very important, and I suggested that a statement of the facts should be prepared and submitted to me, with the view to having Mr. Boardman and myself take it up and write an opinion for the Board. Mr. Rice has been in consultation with Mr. Pegram, chief engineer of the Interborough Company, and Mr. Pegram at one time proposed to ask for a permit from the Board allowing the connection to be made. He has, however, now, under advice of counsel as we are informed, withdrawn this application upon the ground that the Interborough Company have a right to make this connection without any permission from the Rapid Transit Board.

The grounds upon which this conclusion rests are that the power house of the company is capable of producing much more electrical current than is needed now for the efficient operation of the railroad; that the number of electrical ducts provided are in excess of those needed at present for the operation of the road, and that the company is therefore at liberty to sell the surplus product of electricity, so long as this is not inconsistent with efficient operation. The argument seems to be also reinforced by the further contention that the surplus current is to be used in operating a line which will form a feeder to the railroad, and to which, I understand, transfers are to be given.

This connecting railroad is known as the New York City Interborough Railway Company, and its lines connect with the subway routes at One Hundred and Eighty-first street and Broadway, at Two Hundred and Thirtieth street and Broadway, at One Hundred and Forty-fifth street and Lenox avenue, at One Hundred and Forty-ninth street and Mott avenue, at One Hundred and Seventy-seventh street and Boston road and at One Hundred and Forty-ninth street and Westchester avenue. Besides this, they connect with the elevated railway system at Eighth avenue and One Hundred and Fifty-fifth street, Third avenue and One Hundred and Fifty-sixth street and other intermediate points.

The legal points involved are now under consideration by Mr. Justice McCall in the suit brought against the Interborough Company in relation to slot machines. The contention of Mr. Boardman and myself was, briefly, that under the contract of February 21, 1900, the subway could only be used for the purposes of this particular railroad, and that even if this was not apparent from the language used, yet it necessarily followed from the fact that all grants of franchises should be construed most favorably for the public.

There are some other considerations to be borne in mind in connection with the proposed use of the electrical ducts in the subway, which do not apply in the case of slot machines.

In view of the attitude of the counsel for the Interborough Company it is for the Rapid Transit Board to say whether they desire to raise any question in regard to the matter. If they do, some proper application should be made to the courts at an early day. In my judgment it would not be wise to wait for the decision of the slot machine case, because that may be determined on grounds which would not affect the question of the electrical ducts.

As to the prospects of success, I think that all we could say would be that the question at the present time is not free from doubt, and that no one can predict what the courts might ultimately decide in regard to it.

Very truly yours,
(Signed) G. L. RIVES.

Bills of \$11,635.79 of the Lawyers' Advertising Company for advertising applications for appointment of commissioners to determine whether certain proposed rapid transit routes should be constructed as follows, Gerard avenue, Van Cortlandt avenue, Fourteenth street, Thirty-fourth street, Manhattan and Queens and Brooklyn-Manhattan loop lines, were presented and the following resolution was moved:

Resolved, That the bills of the Lawyers' Advertising Company for advertising the applications for appointment of commissioners to hear and determine whether additional rapid transit routes ought to be constructed and operated as follows, Gerard avenue, Van Cortlandt avenue, Fourteenth street, Thirty-fourth street, Manhattan and Queens and Brooklyn-Manhattan loop lines, be and the same hereby are approved in the sum of eleven thousand six hundred and thirty-five dollars and seventy-nine cents (\$11,635.79);

Resolved further, That a voucher be drawn on the Comptroller in due form for the said amount.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Claflin.

Nays—None.

Carried.

The Secretary reported that the President had executed lease for office No. 317 Furman street, Brooklyn, at \$13 per month, for the year ending the 31st of December, 1906, and for offices Nos. 59-61 Pearl street for eleven months from June 1, 1906, at \$1,778 per annum, as authorized in resolution of March 22, 1906, and had also executed contract with Martin B. Brown Company for the printing and binding of the annual report of the Board for the year 1905, as reported February 28, 1906, and authorized January 25, 1906.

The Board then adjourned.

BOARD OF EXAMINERS.

Board of Examiners,
April 24, 1906.

Present—Messrs. Warren A. Conover, Charles Buek, Lewis Harding, Charles G. Smith, Edward F. Coker, Henry R. Marshall and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes of last meeting approved as read.

Appeal 22 of 1906, Fireproof Shutter Case 2 of 1906, No. 117 Hester street, Manhattan; Louis J. Marx, appellant.

Referred for examination on the 17th inst., return on the 19th inst., with the following recommendation: "That all window openings on the east, west and rear walls not already equipped with iron shutters be provided with same."

On motion, report accepted and approved. Appeal denied.

Appeal 23 of 1906, Alteration 893 of 1906, No. 362 Fifth avenue, Manhattan; Jay H. Morgan, architect and appellant.

No. 1. By the addition of the new story, the building will be made to exceed twelve stories and 150 feet in height; same should conform to all the provisions of Section 105 of the Code, relating to the fireproofing of structures of that height.

As the present building is a fireproof structure, with the exception of not having fireproof trim; the floors on each story being hollow tile and cement fill, and the elevators being enclosed in four-inch blocks and wire glass, as well as the stairways being fireproofed; each floor is cut off from the other, and as the additional mezzanine story is to be built of fireproof materials, viz.: metal covered sashes, frames and trim, wire glass and four-inch terra cotta block partitions and angle iron framework.

That a new mezzanine story is to be built of fireproof materials, and being used by same and only tenant of the building, and as, with the exception of the metal sashes and frames and trim in lower stories of present building, is absolutely fireproof.

As the new mezzanine story is to be occupied by the same and only tenant of building, and as lower floors are occupied and used as piano warerooms, the fire hazard is reduced to a minimum.

Mr. J. H. Morgan appeared before the Board.

On motion, appeal laid over for one week.

The Chairman presented and read a letter from his Honor the Mayor, enclosing copy of report made by the Commissioners of Accounts, dated the 18th inst., covering the books and accounts of this Board from January 17, 1902, to April 11, 1906, said examination and report having been requested by the Chairman in a letter dated the 6th inst.

On motion, the Clerk was instructed to comply with the recommendations made in said report, the papers being ordered on file.

Adjourned.

EDWARD V. BARTON, Clerk.

DEPARTMENT OF FINANCE.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of the City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of the assessment for OPENING AND ACQUIRING TITLE TO THE FOLLOWING-NAMED STREET IN THE BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTION 11.

FORDHAM ROAD—OPENING, from Harlem river to Jerome avenue. Confirmed March 26, 1906; entered April 28, 1906. Area of assessment includes all those land tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in the City of New York, which, taken together, are bounded and described as follows, viz.: Beginning at a point formed by the intersection of the United States pier and bulkhead line of the Harlem river with the southerly side of East One Hundred and Ninety-second street, and running thence easterly along said southerly side of East One Hundred and Ninety-second street and its prolongation easterly to the westerly side of Sedgwick avenue; thence northeasterly along said westerly side of Sedgwick avenue to its intersection with the westerly prolongation of a curve forming the southerly side of Kingsbridge road, between Sedgwick avenue and Aqueduct avenue; thence easterly along said prolongation of and southerly side of Kingsbridge road to its intersection with a line drawn parallel to Jerome avenue and distant 100 feet easterly from the easterly side thereof; thence southerly along said line to a line drawn parallel to East One Hundred and Ninety-second street and distant 100 feet northerly from the northerly side thereof; thence easterly along said line to the middle line of the blocks between Creston avenue and the Grand Boulevard and Concourse; thence southerly along said line to a line drawn parallel to East One Hundred and Eighty-fourth street and distant 100 feet southerly from the southerly side thereof; thence westerly along said line to a line drawn parallel to Jerome avenue and distant 100 feet easterly from the easterly side thereof; thence southerly along said line to a line drawn parallel to East One Hundred and Eighty-first street and distant 100 feet southerly from the southerly side thereof; thence westerly along said line parallel to East One Hundred and Eighty-first street and its prolongation westerly to its intersection with the United States pier and bulkhead line of the Harlem river; thence northerly along said pier and bulkhead line of the Harlem river to the point or place of beginning.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such

assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before June 27, 1906, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

HERMAN A. METZ,

Comptroller.

CITY OF NEW YORK—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE, April 28, 1906.

SALE OF LEASE OF CITY PROPERTY.

THE COMPTROLLER OF THE CITY OF New York will sell at public auction to the highest bidder of yearly rental, at the Comptroller's Office, Stewart Building, No. 280 Broadway, in the Borough of Manhattan, City of New York, on

WEDNESDAY, MAY 16, 1906,

at 12 o'clock m., a lease for the term of ten years from May 1, 1906, with the privilege of renewal for an additional term of ten years upon the same terms and conditions, of the following-described premises belonging to the Corporation of The City of New York, viz.: All that certain plot of ground situated on the northerly side of West One Hundred and Fifty-first street distant one hundred and twenty-five (125) feet easterly from the northeasterly corner of West One Hundred and Fifty-first street and Amsterdam avenue; size of plot seventy-five (75) feet front and rear by ninety-nine (99) feet eleven (11) inches in depth on either side.

The minimum or upset price for which said lease is to be sold is five hundred dollars (\$500) per annum, payable quarterly, and said sale shall be made upon the following

TERMS AND CONDITIONS.

The highest bidder will be required to pay the auctioneer's fee and 25 per cent. of the amount of the yearly rental at the time and place of sale; the amount so paid for one quarter's rent shall be forfeited if the successful bidder does not execute the lease when notified that it is ready for execution. He will also be required to give a bond in double the amount of the annual rent bid, with two sufficient sureties to be approved by the Comptroller, conditioned for the payment of the rent quarterly in advance, and for the performance and fulfillment of the covenants and terms of the lease. The City of New York will not be liable for any damages for failure of the purchaser at the sale to obtain a permit from the Bureau of Buildings of The City of New York for the erection of a building on the site, in view of the fact that an aqueduct is constructed beneath said property. No building shall be erected upon said site except approval shall have been first obtained from the Commissioners of the Sinking Fund, and plans and specifications of said building shall be presented to said Board and approval in writing obtained. No person shall be received as lessee or surety who is a delinquent on any former lease from the corporation, and no bid shall be accepted from any person who is in arrears to the corporation upon debt or contract, or who is a defaulter as surety or otherwise upon any obligation to the corporation as provided by law. The lease will be in the usual form of leases of like property, a copy of which may be seen at the Bureau for the Collection of City Revenue and Markets, Room No. 139, Stewart Building, No. 280 Broadway, Borough of Manhattan.

The Comptroller shall have the right to reject any bid if deemed to be for the best interest of the City.

By order of the Commissioners of the Sinking Fund, under and pursuant to a resolution adopted at a meeting held April 18, 1906, as amended by resolution adopted April 26, 1906.

H. A. METZ,

Comptroller.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

SALE OF FREIGHT SHED ON PIER (old) 20, East river, at the foot of Burling slip, Borough of Manhattan, to be sold by order of the Commissioners of the Sinking Fund on Thursday, May 3, 1906, at 11 a. m. on the premises.

SALE OF SHED.
The Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan, will sell at public auction, on behalf of the Commissioners of the Sinking Fund, on

THURSDAY, MAY 3, 1906,
commencing at 11 a. m., on the premises, the freight shed as it stands on Pier (old) 20, East river, at the foot of Burling slip, Borough of Manhattan, of the following approximate dimensions, and composed of the principal parts or items as enumerated below, all in good condition.

The shed is a single story structure, about 390 feet long and about 40 feet wide. Its centre height from the deck of the pier is about 26 feet. The entire shed covers an area of about 15,600 square feet. The posts, studs, purlins, trusses and bracing composing the framing of the shed are of structural steel and wood. The sides of the building not taken up by doors are covered with galvanized corrugated steel and partly with boards. The roof is partly covered with roofing, tar and gravel on boards and galvanized iron (corrugated) which rest on wooden purlins.

The following are the principal parts or items composing the shed on Pier (old) 20, East river, which is hereby offered for sale:

All the trusses, columns, studs, purlins, bracing, corrugated steel sliding doors, wooden sliding doors, corrugated steel sheeting and wooden boarding composing sides and end of shed, steel frames and all the material of every description comprising the shed proper on Pier (old) 20, East river, down to the level of the decking of the pier, excepting the backing log and any portion or portions of the pier proper which may be above the level of said decking of the pier.

TERMS OF SALE.

The above-described shed will be sold for a sum in gross.

The items enumerated in the previous description are believed to be approximately correct; however, bidders must satisfy themselves as to quantity, quality and condition of the material composing the shed to be sold when making their bids, and the Commissioners will not make any allowance from the purchase money for any deviation from the above description.

The removal of the above-described shed shall be begun by the purchaser within three (3) days from the date of receipt of notification from the Commissioner of Docks to begin work.

All the parts of this shed and the materials composing them are to be torn down to the level of the decking of the pier and entirely removed within thirty (30) days after the receipt of said notice to begin work. If the purchaser fails to begin the said removal as specified and diligently to prosecute the same with a sufficient force and to complete same within the time specified, the money paid on the day of the sale will be forfeited and all claims of ownership in said materials is waived by the purchaser; then the Commissioners may, at their option, complete the said removal and charge the expense of the same to said purchaser, who shall sign the present terms of sale and agree to be bound thereby.

The work of removing the materials composing the various buildings herein enumerated shall be carried on in such manner and at such times as may be directed by the Commissioner of Docks. The work of removal may be suspended and shall not be resumed until written notice is given by said Commissioner of Docks so to do. The time elapsed during such suspension shall not be counted against the purchaser, but a like number of days will be given him which may have elapsed during such suspension.

For the further securing of the removal of the said materials, etc., hereinbefore mentioned, the purchaser will be required at the time of sale and the award of said property to him, to execute a bond in such form and with such securities as may be approved by the Commissioners of the Sinking Fund of The City of New York, and in a penalty of Five Hundred Dollars (\$500) that he will in all things carry out the terms of sale and comply with the conditions thereof, and remove all of said property within the time required by the said terms of sale.

The form of bond to be executed by the purchaser may be seen at the office of the Secretary of the Commissioners of the Sinking Fund, Room No. 12, Stewart Building, No. 280 Broadway, Borough of Manhattan.

It being the purpose of The City of New York to proceed with the improvement of the water front adjacent to Pier (old) 20, East river, and the premises immediately adjacent thereto, it is hereby stipulated and agreed that the purchaser of the materials composing the shed on Pier (old) 20 will make no claim or demand that he has been interfered with or hampered in the prosecution of the work of removal by virtue of the operations of the City.

The purchaser further stipulates and agrees that he will make no claim for damage, nor will it affect the bond furnished by him for the faithful performance of the work, in the event of any portion of the premises from and after the date set for the removal of the materials composing said shed.

The purchaser further stipulates and agrees that he will permit no material of any description composing said shed to go adrift or deposit same in the waters adjacent to said pier, and that he will conform in every way to the laws relative to the depositing of materials or permitting same to go adrift as established by the United States Government, the State and City authorities.

The materials to be sold will be those only which comprise the shed and are on the premises at the time of sale, and the purchaser must immediately take the necessary and proper precautions to protect same.

Terms of sale to be cash, to be paid at the time of sale.

H. A. METZ,
Comptroller.

PUBLIC NOTICE.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE.

To Whom It May Concern:

On May 9, 1904, chapter 686 of the Laws of 1904, "An act to authorize the Comptroller and the Corporation Counsel of The City of New York, on behalf of said City, to compromise and settle with property owners interested, certain claims for taxes, assessments and sales for the same, and for or on account of evidences of indebtedness issued on account of local improvements in the territory formerly included within the boundaries of Long Island City," became a law.

The purpose of this act was to grant relief to the owners of property located within the territory of the former City of Long Island City, which property had become encumbered with liens approaching, in many cases, almost the assessed value of the property. Owing to the phenomenal increase in values of real estate in the Borough of Queens during the past year, the object for which said act was passed has ceased to exist.

Notice is therefore given that on and after May 15, 1906, the Comptroller of The City of New York will refuse to consider applications filed under chapter 686 of the Laws of 1904.

All applications filed after May 15, 1906, will be rejected.

HERMAN A. METZ,
Comptroller.

DEPARTMENT OF DOCKS AND FERRIES.

FILLING-IN PRIVILEGE.

DEPARTMENT OF DOCKS AND FERRIES, FOOT OF BATTERY PLACE, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

MONDAY, APRIL 30, 1906,

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT OR TO BE BUILT ON THE MAIDEN LANE SECTION AND ON PART OF THE FULTON SECTION, ON THE EAST RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from a line at right angles to the bulkhead wall and distant about 57 feet easterly from the east side of Pier, new 13, East river, easterly a distance of about 575 feet to the line of earth filling distant about 82 feet easterly from the east side of Pier, new 15, East river, and also extending from the rear of the bulkhead wall, when it is completed, inshore a distance of from about 35 feet to 55 feet to the old crib bulkhead running along the southerly side of South street. The exact limits of the basin to be filled under this agreement may be seen on a map at Pier "A," together with the soundings and other data used, said map being a part of this agreement.

The filling shall be brought to a grade level with the top of the coping of the bulkhead wall and shall extend inshore on a regular grade to the level of the street adjacent.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to about 14,000 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the void space behind the bulkhead wall, built or to be built at the Maiden lane section, on the East river, Borough of Manhattan.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 30 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling shall be started at the bank and carried outshore toward the bulkhead wall or close row of piles.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun. The Department reserves the right of ordering the Contractor to deposit not less than 100 cubic yards per day, as directed by the Engineer, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within 140 calendar days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his

twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT OR TO BE BUILT ON THE WESTERLY PART OF THE OLD SLIP SECTION ON THE EAST RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from about the easterly side of Pier, new 7, East river, easterly a distance of about 554 feet to the westerly side of Pier, new 10, East river, and extending from the rear of the bulkhead wall, when it is completed, inshore a distance of from about 28 feet to 55 feet to the old crib bulkhead running along the southerly side of South street.

The exact limits of the basin to be filled under this agreement may be seen on a map at Pier "A," together with the soundings and other data used, the said map being a part of this agreement.

The filling will be brought to a grade level with the top of the coping of the bulkhead wall and will extend inshore on a regular grade to the level of the street adjacent.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to about 17,000 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the void space behind the bulkhead wall, built or to be built on the westerly part of the old slip section, as described above, and as appears in detail on the map at Pier "A," and which becomes a part of the contract or agreement.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. FIRST DEPARTMENT.

In the matter of the application of the Board of Street Opening and Improvement of The City of New York for and on behalf of the Mayor, Aldermen and Commonalty of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to EDGECOMBE ROAD (although not yet named by proper authority), from One Hundred and Fifty-fifth street to a point in the easterly line of Tenth avenue opposite One Hundred and Seventy-fifth street, in the Twelfth Ward of The City of New York, as the same has been heretofore laid out and designated as a first-class street or road by said Board.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That in accordance with the order of the Special Term of the Supreme Court of the State of New York, First Department, dated November 19, 1901, and entered in the office of the Clerk of the County of New York on the 9th day of December, 1901, and affirmed by the Appellate Division of said Court on the 23d day of September, 1905, returning the report of the former Commissioners in this proceeding for amendment and correction with reference to Damage Parcels Nos. 12, 13, 14, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 33A, 34, 34A, 35, 36, 36A, 36B, 37, 38, 39, 40, 42A, 43, 44, 45, 46, 47, 48, 49, 50, 51, 51A, 51B, 51C and 52, and also in so far as relates to the assessments for benefit, we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 14th day of May, 1906, and that we the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at our said office on the 16th day of May, 1906, at 4 o'clock p. m.

Second—That the abstract of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 24th day of May, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on a line drawn parallel to One Hundred and Eighty-first street distant 100 feet northerly from the northerly side thereof, and distant also 100 feet westerly from the westerly side of Audubon avenue; thence easterly along said line drawn parallel to One Hundred and Eighty-first street to a line drawn parallel to Amsterdam avenue and distant 100 feet easterly from the easterly side thereof; thence southerly along said line drawn parallel to Amsterdam avenue to the southerly exterior line of the reservoir; thence easterly along the southerly exterior line of the reservoir and said line produced to the easterly side of the Croton Aqueduct; thence southerly along the easterly side of the Croton Aqueduct to the prolongation easterly of the centre line of One Hundred and Fifty-eighth street; thence easterly along said prolongation to the centre line of the Harlem River driveway; thence southerly along said centre line of the Harlem River driveway to the centre line of Edgcombe avenue; thence southerly along said centre line of Edgcombe avenue to the northerly side of One Hundred and Forty-fifth street; thence westerly along said northerly side of One Hundred and Forty-fifth street to a line drawn parallel to Avenue St. Nicholas and distant 100 feet westerly from the westerly side thereof; thence northerly along said line to the centre line of One Hundred and Fifty-eighth street; thence northerly along the middle line of the blocks between Avenue St. Nicholas and Amsterdam avenue to the middle line of the blocks between One Hundred and Sixtieth street and One Hundred and Sixty-first street; thence westerly along the middle line of the blocks between One Hundred and Sixtieth street and One Hundred and Sixty-first street to a line drawn parallel to Amsterdam avenue and distant 100 feet westerly from the westerly side thereof; thence northerly along said line drawn parallel to Amsterdam avenue and distant 100 feet westerly from the westerly side thereof to the middle line of the blocks between One Hundred and Sixty-sixth street and One Hundred and Sixty-seventh street; thence westerly along said middle line of the blocks between One Hundred and Sixty-sixth street and One Hundred and Sixty-seventh street to a line drawn parallel to Audubon avenue and distant 100 feet westerly from the westerly side thereof; thence northerly along said line to the point or place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in

the County Court House in the Borough of Manhattan, in the City of New York, on the 29th day of June, 1906, at the opening of the Court on that day.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.

THE CITY RECORD.

OFFICIAL JOURNAL OF THE CITY OF NEW YORK.

There shall be published daily, Sundays and legal holidays excepted, under a contract to be made as hereinafter provided, a paper to be known as the CITY RECORD. And said CITY RECORD, and the newspapers now by law designated as corporation newspapers in the present City of Brooklyn, shall be the only papers to be included within the term corporation newspapers, as the same is used anywhere in this act; There shall be inserted in said CITY RECORD nothing aside from such official matters as are expressly authorized. All advertising required to be done for the City, except as in this act otherwise specially provided, and all notices required by law or ordinance to be published in corporation papers, shall be inserted at the public expense only in the CITY RECORD, and the publication therein shall be a sufficient compliance with any law or ordinance requiring publication of such matters or notices. The Comptroller shall cause a continuous series of the CITY RECORD to be bound as completed, quarterly, and to be deposited with his certificate thereon in the office of the Register of Deeds of the County of New York in the County Clerk's office of said County, and in the office of the City Clerk, and copies of the contents of any of the same, certified by such Register, County Clerk or City Clerk, shall be received in judicial proceedings as prima facie evidence of the truth of the contents thereof.—§1526. *Greater New York Charter.*
