On recommendation of the Sanitary Superintendent, the following preambles and resolutions were adopted:

Whereas, Two bills have been introduced in the New York Legislature for the restriction or prevention by law of experimentation on living animals; and

Whereas, The enactment of either of these bills into law would be most detrimental to the interests of the Department of Health, and would seriously interfere with and curtail its activity and usefulness; and

Whereas, All of the advances in preventive medicine which have occurred during the last twenty years, and the application of which has resulted in a decrease in the death rate in New York City of nearly one-third, have been to a large extent directly based upon experiments upon living animals; and

Whereas, The reduction in the death rate means in New York City alone an annual decrease in the deaths of over thirty thousand persons a year; therefore be it

Resolved, That the Board of Health records its most emphatic protest against the attempt to restrict or regulate by legislation a matter which is of such vital importance to the health and lives of the people; and further be it

Resolved, That, in the opinion of this Board, there exists no good reason for the enactment of this legislation, as the alleged cruelties and atrocities to animals in such experimentation are not practiced.

On motion, the following preambles and resolution were adopted:

Whereas, The International Congress on Tuberculosis will give an exhibition in the City of Washington, District of Columbia, from September 21 to October 11, 1908, inclusive, of statistics, methods, apparatus and other material used in connection with the treatment and prevention of tuberculosis, and all printed matter designed for the education of the public in this disease, under the auspices of the National Association for the Study and Prevention of Tuberculosis; and

Whereas, These societies have invited the Department of Health and such other departments of The City of New York as are interested in the treatment and prevention of tuberculosis to join in this exhibit for the purpose of arousing public interest in the methods for its prevention and extermination; and

Whereas, The Board of Health believes that such an exhibit will be beneficial and in the interests of the public health; therefore be it

Resolved, That the Board of Aldermen be and it is hereby respectfully requested to recommend to the Board of Estimate and Apportionment, pursuant to the provisions of subdivision 8 of section 188 of the Charter of The City of New York, the appropriation of \$2,500 in Special Revenue Bonds, to be devoted to the expenses necessary to be incurred to make such exhibit on the part of the Department of Health of The City of New York.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, in accordance with the provisions of chapter 372 of the Laws of 1907, will hold a public hearing in Room 16, City Hall, Borough of Manhattan, at 11.05 o'clock in the forenoon, on

TUESDAY, APRIL 14, 1908,

relative to a plan adopted by the Commissioner of Docks March 2, 1908, for improving the water-front of The City of New York, between Montgomery and Jackson streets, East River, and amending the former plan for improving this portion of the water-front adopted by the Commissioners of the Sinking Fund April 27, 1871, and transmitted to the Commissioners of the Sinking Fund for approval.

A technical description of the proposed amendment is as follows:  
It is proposed to amend the new plan determined by the Board of Docks April 13, 1871, and adopted by the Commissioners of the Sinking Fund April 27, 1871, between Montgomery and Jackson streets, East River, in accordance with the map submitted herewith in duplicate, as follows:

The six piers between Montgomery and Jackson streets, East River, including the pier at the foot of Montgomery street, shown on the new plan for improving the water-front of The City of New York on the East River, determined by the Board of Docks April 13, 1871, and adopted by the Commissioners of the Sinking Fund April 27, 1871, are hereby discontinued.

The bulkhead line established on said new plan of 1871, extending from the westerly side of Corlears Hook Park and prolonged southerly to a point in said bulkhead line where a line drawn parallel with and 100 feet southerly from the northerly line of South street intersects the same, is hereby discontinued.

A new bulkhead line is hereby established 100 feet southerly from and parallel with the northerly line of South street, to extend westerly from the southerly prolongation of the westerly side of Corlears Hook Park to an intersection with the bulkhead line established in 1871 below Montgomery street.

A marginal street, wharf or place 30 feet in width is hereby established adjoining the southerly side of South street and adjoining said new bulkhead line, extending from the southerly prolongation of the westerly side of Corlears Hook Park southerly to the westerly side of Montgomery street.

A new pier 60 feet wide is hereby established at the foot of Montgomery street, with its easterly line extending southerly and at right angles from the said proposed bulkhead line at a point where the southerly prolongation of the easterly side of Montgomery street intersects said bulkhead line.

A new pier 70 feet wide is hereby established easterly of the preceding pier with its westerly line parallel with and distant 140 feet easterly from the easterly line of the last described pier at Montgomery street.

A new pier 70 feet wide is hereby established at the foot of Gouverneur slip, with its easterly line extending southerly or outshore at right angles from the said proposed bulkhead line at a point where the southerly prolongation of the easterly line of Gouverneur slip intersects said bulkhead line.

A new pier 60 feet wide is hereby established easterly of the preceding pier with its westerly line parallel with and distant 120.62 feet easterly from the easterly line of the preceding described pier at the foot of Gouverneur slip.

A new pier 60 feet wide is hereby established easterly of the last described pier, with its westerly line parallel with and distant 106 feet easterly from the easterly line of the last described pier.

A new pier 60 feet wide is hereby established at the foot of Jackson street, with its easterly line extending southerly or outshore at an angle of 90 degrees from the said proposed bulkhead line at a point where the southerly prolongation of the westerly side of Corlears Hook Park intersects said bulkhead line.

A new pier 60 feet wide is hereby established westerly of the last described pier, with its easterly line parallel with and 140 feet westerly from the westerly line of the last described pier, at the foot of Jackson street.

All of the seven hereinbefore described new piers to extend from the said proposed new bulkhead line southerly and at right angles with said bulkhead line to the pierhead line established by the Secretary of War in 1890.

The Engineer of the Department of Finance, in his report to the Comptroller, states that the newly adopted plan reduces the width of the marginal street between Montgomery and Jackson streets 30 feet, making the combined width of the marginal street and South street 100 feet, which is wide enough.

The advantage of this plan is that large piers and greater wharfage length is provided than in the plan adopted in 1871, and he recommends its approval by the Commissioners of the Sinking Fund.

The plan as adopted by the Commissioner of Docks, together with his communication and the report of the Chief Engineer of the Department of Finance, approved by the Comptroller, are open to the inspection of any citizen, at the office of the Comptroller of The City of New York, No. 280 Broadway, Borough of Manhattan, at all times during business hours.

Chairman, Commissioners of the Sinking Fund.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.
