AQUEDUCT COMMISSION.

Minutes of Stated Meeting of the Aqueduct Commissioners, held at their Office, No. 209 Stewart Building, on Wednesday, May 14, 1890, at 3 o'clock P. M.

Present—The Comptroller, and Commissioners Duane, Tucker, Scott and Howe.
 The minutes of stated meeting of May 7, 1890, were read and approved.
 The Committee of Finance and Audit reported their examination and audit of Vouchers Nos. 5857 to 5868, inclusive, being estimates for work done by contractors during the month of April, 1890, and amounting to \$35,954.04; also of bills contained in Vouchers Nos. 5869 to 5883, inclusive, amounting to \$1,209.72.
 On motion of Commissioner Howe, the same were approved, and ordered certified to the Comptroller for payment.
 The Construction or Executive Committee reported in favor of the adoption of the following resolution:
 Resolved, That the action of the Chief Engineer in assigning Tunnel Inspector A. L. Crosby to duty under Division Engineer Burbank, with the rank and pay of Inspector of Masonry, as of May 12, 1890, be and the same is hereby approved.
 On motion of Commissioner Tucker, the same was adopted.
 The Committee also presented the resignation of Computer David S. Merritt, dated May 2, 1890, and recommended that the same be accepted as of said date.
 On motion of Commissioner Tucker, the same was accepted.
 The Committee also presented the following:
 The Construction or Executive Committee present the following communication received from the Chief Engineer:

NEW YORK, May 14, 1890.

To the Honorable the Committee on Construction:

GENTLEMEN—I herewith return the offer of Mr. John Fox to make and place the necessary sluice-gates for Bog Brook and Sodom Dam for the price of \$700 complete.
 Referring to the bids for similar sluice-gates for the One Hundred and Thirty-fifth Street Gate-house and for Section 17, for which two bids only were received, I find that the bid of Messrs. Coldwell, Wilcox & Co., which was next to that of John Fox, named the price of \$1,020 for each sluice-gate, and in addition a price for testing the gates, which for the former work was \$700 and for Section 17 \$200. I am of the opinion that it is for the interest of the city to give the proposed work to Mr. John Fox, and I hereby recommend that his bid be accepted.
 The total cost of furnishing the six gates, with their appurtenances, under his proposal, will be \$2,800 for Sodom Dam and \$1,400 for Bog Brook, which sums include the testing of the gates.
 I am, very respectfully,

A. FTELEY, Chief Engineer.

—and recommend the adoption of the following resolution:

Resolved, That the Chief Engineer be and he is hereby directed to procure the sluice-gates required for the Bog Brook and Sodom Dams from John Fox at the prices named in the foregoing communication.

On motion of the Comptroller, the report was laid on the table.

The Committee also presented the following communication received from the Chief Engineer:
 NEW YORK, May 14, 1890.

To the Honorable the Aqueduct Commissioners:

GENTLEMEN—This is to inform you that yesterday at noon work had not been resumed near Shaft 19½. It may be proper to recall here that, after a number of verbal communications with the contractor, I reported on January 22, 1890, that the work was unnecessarily delayed. On February 19 last I reported additional delay above the incline and general disregard of my orders. On April 23 last I reported that the work in that locality had not been resumed.

I desire now to state again and to certify that the work in the vicinity of Shaft 19½ is unnecessarily and unreasonably delayed, and unless the Aqueduct Commissioners have other information which may modify their views on the subject, I would recommend them to ask the contractor, Mr. Heman Clark, to discontinue all work, if any, between Station 1249 + 30, which is the boundary between Sections 9 and 10B of the Aqueduct and Station 1286, which is about one hundred and eighty-four feet south of Shaft 20, and to complete the work by such means as are in their power under the contract.

In case the Commissioners agree with my views, I submit herewith a form of contract and specifications for the above mentioned work.

I am, very respectfully,

A. FTELEY, Chief Engineer.

On motion of Commissioner Scott, the communication was ordered laid on the table, and the Secretary was directed to have the contract and specifications, therein referred to, printed and triplicate copies of the same presented for action by the Commissioners at the next meeting.

On motion of Commissioner Scott, the hearing of the order to show cause by Heman Clark, contractor for the construction of Section 10B of the New Aqueduct, why the further work of construction of said section should not be discontinued, owing to the fact that the work is unnecessarily and unreasonably delayed, and for his failure to comply with the directions and orders of the Chief Engineer, and the further completion of said section done under the direction and supervision of the Aqueduct Commissioners, as provided in Clause P of the contract for the construction of said section, adjourned to this day, was postponed until Friday next, May 16, 1890, at 3 o'clock P. M.

On motion of Commissioner Scott, all proceedings on the order to show cause why the further work of construction of Section 9 should not be discontinued and the same done under the direction of the Aqueduct Commissioners were dismissed.

The following communication was received from E. T. Lovatt, attorney for O'Brien & Clark:

TARRYTOWN, N. Y., May 14, 1890.

To the Honorable the Board of Aqueduct Commissioners of the City of New York and the Comptroller of said City:

SIRS—I herewith submit to your Honorable Board a statement of the claims of Messrs. O'Brien & Clark for certain work, labor and services performed and materials furnished on Section 6 of the New Croton Aqueduct; also, damages suffered, amounting in all to the sum of \$1,449,426.36, and of which there has been paid the sum of \$727,255.83, leaving a balance due them of \$722,170.53. Messrs. O'Brien & Clark have instructed me to notify you that, unless the said claims are settled within thirty days, I will institute proceedings for the collection of the full amount due thereon.

Yours, very respectfully,

E. T. LOVATT, Attorney for O'Brien & Clark.

On motion of Commissioner Scott, the communication and the statement therein referred to were referred to the Construction or Executive Committee.

A communication was received from E. T. Lovatt, attorney for O'Brien & Clark, calling attention to the delay of Special Counsel in furnishing the Board with an opinion as to whether the time clause in the contracts for the construction of sections of the Aqueduct under contract to O'Brien & Clark was operative, and requesting the Commissioners to aid in securing a decision of the question at once.

On motion of Commissioner Scott, the communication was referred to the Construction or Executive Committee.

Mr. Lovatt then addressed the Board on the matters referred to in said communication.

Whereupon, On motion of the Comptroller, Mr. Lovatt was requested to submit his arguments on said matter in writing, and that the same would be considered by the Commissioners, and transmitted to the Special Counsel for the Board.

Commissioner Scott then moved that when the Commissioners adjourn, they adjourn to meet on Friday next, May 16, 1890, at 3 o'clock P. M. Carried.

The Commissioners then adjourned.

JOHN C. SHEEHAN, Secretary.

BOARD OF CITY RECORD.

MAYOR'S OFFICE, CITY HALL,
 NEW YORK, May 7, 1890.

The Hons. Hugh J. Grant, Mayor; William H. Clark, Counsel to the Corporation, and Thomas F. Gilroy, Commissioner of Public Works, the officers designated by section 66 of the New York City Consolidation Act, met this day.

The minutes of the meeting of May 2 were read and approved.

The Supervisor of the City Record reported that he had tabulated the bids to supply books for the courts and departments, as follows:

Total of M. B. Brown's lower bids..... \$11,242 07

Total of the L. W. Ahrens S. and P. Co.'s lower bids..... 693 02

Respecting the books required by the Department of Charities, the Supervisor reported that M. B. Brown had offered to supply them all for \$3,397.44, and the L. W. Ahrens S. and P. Co. for \$3,713.74, while H. D. D. Ripley had offered to supply fifteen lots of them for \$1,361.54, which was below the sums bid by the other two estimators on the same lots. The Supervisor stated that the envelope containing Mr. Ripley's bid was not indorsed as directed in the proposals, that one of the jurats of the estimate was not filled out, and that, as the books were not for any bureau and no single lot involved the expenditure of \$500, the bid seemed informal.

On motion of Commissioner Gilroy, all the bids for the Charities Department books were rejected, and the Supervisor was directed to readvertise, with the stipulation that the bids must be made on every lot of books in the specifications or they would not be considered.

On motion of the Counsel to the Corporation, contracts were awarded to M. B. Brown and the L. W. Ahrens Stationery and Printing Company in accordance with the bids as tabulated by the Supervisor.

The following-named newspapers were designated in accordance with section 66 of the New York City Consolidation Act: Morning—"The Sun" and "Tribune"; Evening—"Daily News" and "Evening World"; Weekly—"Weekly Union" and "Irish-American"; German—"Staats Zeitung."

The Supervisor presented a communication from the Public Administrator, calling attention to the fact that some provision should be made for the publication of that officer's annual report. Commissioner Gilroy objected to the publication of the report in the CITY RECORD alone, on the ground that it contained matters which should be made widely known. On his motion the question was referred to the Corporation Counsel for his opinion.

The Park Department was, by a concurrent vote of the Mayor, Counsel to the Corporation and Commissioner of Public Works, given authority to advertise, in two of the papers designated under section 66 of the Consolidation Act, twice a week for three consecutive weeks, a notice of a hearing respecting the proposal to change the grade of One Hundred and Seventy-third street.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as is possible in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received.

Bidders must satisfy themselves, by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate, dispute or complain of such statement or estimate, nor assert that there was any misunderstanding in regard to the nature or amount of work to be done.

The foregoing estimates being approximate only are not to be held as entitling the contractor to any claim for extra time in the completion of the work, nor to any claim for damages, if the quantity of work should prove to be greater or less than is here estimated, and the Harlem River Bridge Commission expressly reserves the right of increasing or diminishing the said quantities, as in its opinion become necessary.

Bidders will be required to complete the entire work to the satisfaction of the Harlem River Bridge Commission, and in substantial accordance with the specifications hereto annexed and the plans therein referred to. No extra compensation beyond the amount payable for the several classes of work before enumerated which shall be actually performed, at the prices therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

Bidders are particularly cautioned that a provision in the contract authorizes the sum of TWENTY-FIVE CENTS per lineal foot (measured on the centre line of the street) of the work done upon Undercliff place and upon Undercliff avenue under this agreement, to be retained out of the contract moneys as security for keeping the whole work, when completed, in good order for a period of six months from the date of its acceptance by the Harlem River Bridge Commission, not including in the computation of the said period the months of December, January, February and March. The amount of security required is Twenty Thousand Dollars.

Bidders are informed that no deviation from the specifications will be allowed unless written permission shall previously have been obtained from the Harlem River Bridge Commission.

Bidders are specially notified that the Harlem River Bridge Commission reserves the right to determine the times and places for commencing and prosecuting the work, and that postponement or delay on the whole, or any part thereof, occasioned by the precedence of other contracts, cannot constitute a claim for damages.

Bidders are notified that the Harlem River Bridge Commission reserves the right to reject any or all bids. Blank forms of proposals can be obtained on application to the Secretary at this office.

Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work to be done under the contract (except about 60 feet of the shore end of the pier, which will not be constructed until the sewer opening in the bulkhead-wall is constructed by the Department of Docks) is to be fully completed on or before the 1st of October, 1890. And the said about 60 feet is to be completed within thirty days after notice shall be given to the Contractor by said Department of Docks that work on the said about 60 feet may be begun; and the damages to be paid by the Contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price for the whole of the work to be done in each class, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work comprised in both classes, and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates, their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any con-

nection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a household or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-book, and no estimate can be deposited in said book until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

Pier "A," Battery place, in the City of New York, on

WEDNESDAY, JUNE 11, 1890,

at 12 o'clock noon, for and on account of the Department of Docks, the right to dump and fill in behind the new bulkhead or river wall on the Laight Street Section, between Laight and Vestry streets, N. R., when built. The right or privilege to fill in the said premises will be sold to the highest bidder, and the price for such right or privilege must be paid at the time of sale. The material to be dumped or filled in must be composed of clean ashes, sand, loam, earth, etc., or of stone; if of stone, no piece of stone must be greater than 16 inches in its largest dimensions, and all material must be dumped and filled in only at such times and places and in such manner as shall be directed by the Engineer-in-chief of the Department of Docks, or such other officer or employee of the Department of Docks as may be designated by him, and all the work of dumping and filling-in must be done under the direction of the Engineer-in-chief or designated employee.

The estimated quantity to be filled in at the said premises is about 20,000 loads, more or less, but this quantity is approximate only, and the Department is not bound in any way by such estimate, and bidders must satisfy themselves of the quantities required to fill in at the place named by examination of the premises, or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead or river wall when it is built and ready to have filling put in behind it.

In case the party who is the highest bidder does not proceed with the work of filling-in to the satisfaction of the Board of Docks, the said Board will at once proceed to have the filling-in done by other parties in such way and manner as it deems proper.

The Auctioneer's fees (\$25) for filling-in on the said sections must be paid by the highest bidder thereon at time of sale.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance ; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting ; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must NOT be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal ; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

Blank forms of bid or estimate, the proper envelopes in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at Rooms 9 and 5, No. 31 Chambers street.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, August 14, 1889.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonality, containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited ; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot, that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act : When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

Commissioner of Public Works.
