# AQUEDUCT COMMISSION.

Minutes of Adjourned Meeting of the Aqueduct Commissioners, held at their office, No. 209 Stewart Building, on Friday, August 3, 1888, at 11 o'clock A. M.

Present—The Mayor, the Comptroller, the Commissioner of Public Works, and Commissioners are, Scott and Howe. Duar

The minutes of the stated meeting of August 1, 1888, were read and, on motion of the Mayor, amended and approved.

The Special Committee to whom was referred the matter of awarding the contract for the construction of Shaft No. 24, on Section A of the New Aqueduct, submitted the following report:

NEW YORK, August 3, 1888.

To the Aqueduct Commissioners:

GENTLEMEN—The undersigned, a Special Committee to whom was referred the matter of awarding the contract for the construction of Shaft No. 24, on Section A of the New Aqueduct,

That they have given the matter a thorough examination and present for your adoption the following report, adopted by the Committee of Finance and Audit of the late Aqueduct Commission. The Committee of Finance and Audit, to whom was referred the bids received July 3, 1888, for deepening and finishing Shaft No. 24, and constructing a Head House connected therewith, of the New Croton Aqueduct, report: That they have examined the same, and find that the checks received as security deposits, amounting to \$16,000, were correct, and the amount so received has been transmitted to the Comptroller, and the receipt therefor is on file with the Commissioners.

The bids were found correct as to their formality, and the sureties proposed by the bidders seem to be sufficient.

Your Committee also recommends the adoption of the following resolution:

Resolved, That the contract for deepening and finishing Shaft No. 24, on Section A of the New Aqueduct, be and the same is bereby awarded to the firm of O'Brien & Clark at their bid, it being the lowest received for doing said work, and below the estimate of the Chief Engineer.

Respectfully,

(Signed)

J. C. DUANE,

FRANCIS M. SCOTT

J. C. DUANE, FRANCIS M. SCOTT, JOHN NEWTON.

On motion of the Mayor, the report was accepted and ordered spread in full on the minutes.

Commissioner Scott then moved that the resolution referred to in the report be adopted, and that the contract for deepening and finishing Shaft No. 24 be awarded to O'Brien & Clark.

The resolution was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Commissioner of Public Works, and Commissioners Duane, Scott and Howe—6.

The Special Committee appointed to consider and report on the organization of the Commission, presented the following report:  $\frac{1}{2} \left( \frac{1}{2} \right) = \frac{1}{2} \left( \frac{1}{2} \right) \left( \frac{1}{2$ NEW YORK, August 3, 1888.

To the Aqueduct Commissioners:

Gentlemen—The undersigned, a Special Committee appointed to consider and report to the Commissioners as to the organization of the Commission, respectfully report:

That they have given the matter such consideration as has been possible within the limited time which has elapsed since their appointment, and have consulted with and interrogated the Secretary, the Chief Engineer and other employees of the Aqueduct Commission, and recommend that for the present the By-laws enforced by the former Commission, and contained in a printed pamphlet dated september 15, 1886, be adopted as the By-laws and Rules of Order of the Aqueduct Commissioners until changed by vote of the Commissioners.

The Committee found that the organization of the Aqueduct Commission had been substantially as follows:

First—A President and Vice-President, a Secretary, Auditor, Bookkeeper, Stenographer, and a Clerk to the Committee on Real Estate.

That the Committees of the Board had been three in number, as follows:

First-A Committee on Construction, performing the duties of an executive committee, and composed of the whole number of Aqueduct Commissioners.

Second-A Committee of Finance and Audit, consisting of three Commissioners; and

Third-A Committee on Real Estate, likewise consisting of three members.

Third—A Committee on Real Estate, likewise consisting of three members.

Your Committee were in some doubt at first as to whether an executive committee, composed of the whole number of the Commissioners, would not be too large and unwieldy; but it was considered that much of the executive work of the Board would necessarily have to be performed by that Committee, and that it was proper that all the members of the Commission should have the right to attend its sessions and take part in its deliberations.

Of course, it will frequently happen that the ex-officio members of the Commission will not find it necessary to attend the meetings of the Executive Committee; and, in view of that fact, your Committee are of the opinion that three members of the Committee should constitute a quorum for the transaction of business.

The provision in the By-laws, that the meetings of the Commissioners shall be held on Wednesday of each week, at 3 o'clock P. M., except during the months of July, August and September, when the hour of meeting shall be at 2 o'clock P. M., seems to your Committee to be a wise provision, and one which should be retained.

Your Committee are of opinion that the Construction, or Executive Committee, should hold its meetings on Thursday of each week, instead of on Monday, as heretofore; the purpose of this change being that the Committee may come to the consideration of any matter referred to it with fresh minds, and that if any investigation or inquiry is necessary to be made, there will be sufficient time to make the same between the meeting of the Committee and the next meeting of the Commissioners.

Your Committee have ascertained that it has been the practice of the Academy Committee.

time to make the same between the meeting of the Committee and the next meeting of the Commissioners.

Your Committee have ascertained that it has been the practice of the Aqueduct Commissioners to hold a sort of double meeting, sitting first in private and determining upon what business should be transacted, and then reconvening in public and transacting the business thus determined upon. Your Committee are of the opinion that this practice should be discontinued, and that the meetings of the Aqueduct Commissioners, like the meetings of all other City Commissions, should be public meetings, except when, for special reasons, executive sessions of the Commission are deemed to be desirable, in which case they can be held on special motion.

Your Committee have found that there are many subjects connected with the organization of the Aqueduct Commission and its force that require to be inquired into before an intelligent recommendation can be made; and your Committee ask that they be continued with power to report at any time upon any subject connected with the organization of the Commission that may seem to them to require action.

All of which is respectfully submitted.

m to require action.
All of which is respectfully submitted.

J. C. DUANE, FRANCIS M. SCOTT, WALTER HOWE. (Signed)

FRANCIS M. SCOTT, WALTER HOWE.

On motion of the Mayor, the report was accepted and ordered spread in full on the minutes.
On motion of the Mayor, the report was ordered amended so as to provide for meetings of the Construction or Executive Committee on Thursday of each week, at 2 o'clock P. M., and the report as amended was then adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Commissioner of Public Works, and Commissioners Duane, Scott and Howe—6.
On motion of the Mayor, the President was elected ex-officio Chairman of the Construction or Executive Committee.
On motion of the Mayor, Commissioners Howe, Tucker and Scott were elected the members of the Committee of Finance and Audit.
On motion of the Mayor, Commissioners Scott, Howe, and the Commissioner of Public Works were appointed the Committee on Real Estate.
By Commissioner Scott:
