## MUNICIPAL CIVIL SERVICE COMMISSION.

Minutes of Meeting of the Municipal Civil Service Commission of New York Held on Wednesday, July 16, 1913, at 10 o'clock A. M.

Present—President Frank Gallagher and Commissioner Alexander Keogh. The President presided.

The minutes of the meeting held July 9 were approved.

A public hearing was had on the application of the Board of Estimate and Apportionment that the requirement of competition be waived in the case of Dr. Benjamin F. Welton, of No. 1 Weiner place, Tompkinsville, Staten Island, New York City, and his appointment as Efficiency Engineer with salary at the rate of \$6,000 per annum, approved under the provisions of rule 12, clause 5, the position demanding peculiar and exceptional qualifications for which competition was impracticable. Mr. Welton appeared in behalf of the application, and Mr. George T. Keyes, Assistant Secretary of the Civil Service Reform Association, also addressed the Commission. The matter was laid over.

Miss Annie G. Mosher, 220 E. 87th st., New York City, appeared before the Commission, as directed, to explain the discrepancy between the statements in the experience paper of her examination for Telephone Operator, Board of Water Supply, and the facts disclosed by the Commission's investigations. The matter was laid over.

John J. Cauldwell, 7 Jerome ave., Borough of Brooklyn, appeared before the Commission relative to his request that his name be removed from the disqualified list. It appeared from the record that Mr. Cauldwell had been dismissed from the position of Dockmaster in the Department of Docks and Ferries on June 16, 1910, on the charge of absence without leave and misconduct. After careful consideration of the facts, the request was denied.

George W. Clark, 255 Third ave., Borough of Brooklyn, appeared before the Commission, as directed in connection with his application for the position of Court Attendant. It appeared that in his application Mr. Clark had stated that he had been employed as a Fireman in the Fire Department and in response to the Commission's inquiries the Fire Commissioner had furnished an abstract of his record in the department. After considering the record the Commission ordered that Mr. Clark's name be withheld from the eligible list of Court Attendant under the provisions of clause 14 of rule 7.

Edward F. Ryan, 475 Columbia st., Brooklyn, appeared before the Commission, as directed, in connection with the removal of his name from the eligible list of Patrolman. On motion, the matter was referred to Commissioner Welling for consideration.

Thomas B. England, 65 Osgood ave., Borough of Richmond, appeared before the Commission, as directed, relative to the disqualification appearing against his name on the eligible list of Patrolman. On motion the Secretary was authorized to remove the disqualification and to permit the candidate to amend his application by setting forth the circumstances of an arrest.

The Secretary stated that the following named candidates for Fireman had been summoned to show cause why their names should not be removed from the eligible list for physical disability (rule 7, clause 14), they having been rejected by the Surgeons of the Fire Department on that ground, re-examined by the Medical Examiners of the Commission and again rejected.

Thomas Lee, No. 4 Hardy st., Stapleton, S. I.; Thomas A. Dowd, W. 234th st., New York City; George F. Behr, 300 W. 151st st., New York City; Adam Wandel, 1478 Gates ave., Brooklyn, and Arthur V. Doyle, 276 W. 132d st., New York City.

—and that Thomas Lee and Arthur V. Doyle had failed to appear. After consideration of the matter the Secretary was instructed to remove all the foregoing names from the eligible list of Fireman in accordance with the provisions of rule 7 clause 14.

James J. Donovan, 331 Hudson st., New York City, appeared before the Commission to show cause why his name should not be removed from the eligible list of Patrolman for physical disability. It appeared that the candidate had been rejected by the Surgeons of the Police Department and again rejected upon re-examination by the Physicians of the Commission. The Secretary was instructed to remove Mr. Donovan's name from the list in accordance with the provisions of rule 7, clause 14.

William J. Tack, 23 Goerck st., New York City, appeared in connection with his request that his name be removed from the disqualified list and restored to the eligible list of Clerk, 2d grade, for appointment as Temporary Clerk. It appeared that Mr. Tack's name had been placed on the disqualified list as the result of a notification from the Department of Water Supply, Gas and Electricity to the effect that he had been removed from the position of Temporary Clerk on December 24 in consequence of irregular attendance. The request was granted.

The Commission then went into regular session.

On the recommendation of the Committee on Transfers the following transfers were approved:

On the recommendation of the Committee on Transfers the request of the Board of City Magistrates, Second Division, for approval of the transfer of Vincent J. Gowen from the position of Enumerator at \$900 per annum in the Permanent Census Board, to that of Court Attendant, at a salary of \$1,200 per annum, in the City Magistrate's Court, Second Division, was denied for lack of power.

Upon the recommendation of the Committee on Reinstatements the following reinstatement was approved:

The Commission then considered the following reports of Mr. Thomas C. Murray, First Assistant Chief Examiner:

Under date of July 9, transmitting report of Mr. Fuld, Examiner, showing the progress made in the keeping of efficiency records of employees of city departments, Approved.

Under date of July 6, relative to the request of the Department of Docks and Ferries that eligible lists resulting from promotion examinations be divided into separate lists for the several bureaus. The report stated that it would be a bad precedent to allow the division of eligible lists at so long a time after promulgation; but that if the Commissioner of Docks should deem it advisable that new examinations be held under the changed conditions described by him, due consideration might be given his request if made in the month of September; also, that in the opinion of the Examiner, the plan of organization of city departments adopted by the Commission on June 20, 1912, should be amended so far as it related to the Department of Docks and Ferries, in accordance with the Commissioner's request. Report approved.

Sullivan, a Rodman, whose salary had been fixed at \$1,200 per annum, effective May 1, 1913. The report stated that previously the Examiner had recommended that the increase in salary be disapproved; but that at the time he had not been aware that the Corporation Counsel had ruled that Mr. Sullivan was actually promoted to grade C at \$1,200 per annum on December 1, 1909, and that the promotion had been approved by the Commission; for which reasons it was recommended that the increase in salary be approved from May 1, 1913. Recommendation adopted.

The Commission then considered the following reports of Mr. Leonhard Felix Fuld, Examiner:

Reports (2) dated July 10 and 12, relative to Victor Weintraub, whose name appeared on the eligible list of Engineer-Inspector (Civil). Recommendation approved.

July 8, relative to his investigation of statements as to experience made by candidates on the list of Mechanical Draughtsman, Sanitary, recommending that report be filed. Approved.

A report of Mr. James A. Rafferty, Examiner in Charge of the Bureau of Investigation, dated July 2, relative to his investigation of certain candidates on the list of Patrolman, was presented. Shields, 2063 Mapes ave., Borough of The Bronx, be summoned before the Commission at its next meeting to show cause why his name should not be removed from the list in accordance with the provisions of rule 7, clause 14. ## PUBLIC SERVICE COMMISSION.

### Proposals.

### INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called "the Commission") invites proposals to construct Section No. 2 of Routes 4 and 38, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2. Beginning at a point under Greenwich st., in the Borough of Manhattan, near the intersection of West Broadway, about seventy (70) feet south of the southerly building line of Vesey st., and extending thence northerly under Greenwich st., West Broadway and Varick st. to a point about one hundred (100) feet south of the southerly building line of Beach st.

Also a branch to this line, beginning at a point under Park place, in the Borough of Manhattan, about one hundred and seventeen (117) feet east of the easterly line of West Broadway, and curving thence northwesterly under Park place, private property and West Broadway to a connection with the main line.

The general plan of construction calls for a subsurface railroad having two and four tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing, where necessary, of all buildings, monuments, surface and elevated railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof, and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth and other requirements, provisions, details and specifications are stated in the printed form of contract and in the contract drawings herein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction, as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company, for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per cent. of the aggregate sum arrived at by multiplying the estimated approximate quantities by the unit prices as contained in the schedule of unit prices in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River or along the North River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Department of Docks and Ferries, with whom all arrangements must be made with respect to utilizing such docks and bulkheads as may be available.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable, and within a period of thirty-six (36) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 1st day of October,

1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer of the quantities of the various classes of the work and of the nature and extent, as near as practicable, of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 4 and 38, Section No. 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York, for the sum of Fifteen Thousand Dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the contractor will be required to furnish security to the City by giving a bond for Seventy-five Thousand Dollars (\$75,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds, and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

#### Notices of Public Hearings.

##### FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment, held July 10, 1913, the following petition was received:

To the Board of Estimate and Apportionment of The City of New York:

The petition of Manhattan Bridge Three Cent Line respectfully shows as follows:

On the 10th day of July, 1912, The City of New York, pursuant to resolution of this Board, entered into a contract with petitioner whereby said City granted to petitioner a franchise to construct and operate a street surface railroad from the Desbrosses Street Ferry, in Manhattan, to the Long Island Railroad Station, in Brooklyn, via the Manhattan Bridge and certain streets in the Boroughs of Manhattan and Brooklyn.

Paragraph first of section 2 of said contract provides that the rights granted by the contract shall cease unless petitioner shall obtain and file with the Board, within six months from the date of the contract, consents in writing of the owners of one-half in value of the property bounded on said streets and avenues to the construction and operation of said railway, or, in the event that such consents cannot be obtained within such time, shall, within said six months or within one month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine whether said railway ought to be constructed.

Paragraph fourth of section 2 of said contract provides that the rights granted by said contract shall cease unless petitioner shall commence construction of its railway within three months from the date upon which the consents of property owners are filed with the Board, or from the date of the order of the Appellate Division confirming the determination of Commissioners appointed pursuant to section 174 of the Railroad Law, and shall complete the construction and place the same in full operation within six months from the date of filing such consents or the date of such order, provided, however, that the Board may grant an extension, not to exceed six months, of either of such periods.

Prior to the execution of said contract petitioner had obtained from the Public Service Commission for the First District a certificate

of public convenience and necessity under section 9 of the Railroad Law, and immediately on the execution of said contract petitioner applied to the Public Service Commission, pursuant to section 53 of the Public Service Commission Law, for an order permitting it to exercise its said franchise. Said application was opposed by the existing surface railroads of Manhattan and Brooklyn, but was granted by an order made on the 14th day of August, 1912. Petitioner immediately began the construction of the tracks and equipment necessary to operation on the Manhattan Bridge. Said work was delayed by two temporary injunctions obtained by the existing railroads in Manhattan and Brooklyn, acting in concert, both of which were vacated, and such work was completed and operation commenced on the Manhattan Bridge on the 4th day of September, 1912.

Immediately on the execution of said contract petitioner set about obtaining consents of owners of property abutting on the streets in which it was authorized to operate its railroad, and prior to the 1st day of September, 1912, obtained the necessary consents as to Flatbush Avenue Extension, in the Borough of Brooklyn, and began the construction of its road from Manhattan Bridge to Fulton street. This construction was delayed by the refusal of the roads constituting the Brooklyn Rapid Transit system to consent to the installation of crossings over their tracks in Concord and Willoughby streets and Myrtle avenue, and by an injunction obtained by them to prevent such installation. This action on their part made it necessary for petitioner to commence a proceeding under section 22 of the Railroad Law to obtain the right to install such crossings. Said proceeding was commenced on the 10th day of September, 1912, was tried on the 12th day of September, 1912, and decided on the 9th day of November, 1912, such decision being in favor of the contention of petitioner, and on the 16th day of November, 1912, Commissioners were appointed in said proceedings, who made their report as to the manner of said crossings on the 26th day of November, 1912, and the same was confirmed on the 27th day of November, 1912.

Said railroad was put in operation to Fulton street in December, 1912, and is still in operation.

The Brooklyn Rapid Transit Company thereupon appealed from the judgment and various orders made in said proceeding, and said appeal was argued at the June, 1913, Term of the Appellate Division, Second Department, but has not yet been decided.

The petitioner proceeded diligently in obtaining consents of abutting owners, and did obtain a majority on Bridge street, Fulton street, 4th avenue, Atlantic avenue and 3d avenue, in the Borough of Brooklyn, in addition to those obtained on Flatbush Avenue Extension, and filed copies of the same with this Board on the 9th day of January, 1913.

On the 30th day of January, 1913, this Board by resolution accepted said consents, and directed the attention of petitioner to the fact that construction of its road on said streets should be commenced on or before April 9, 1913, and completed on or before July 9, 1913.

On February 10, 1913, petitioner commenced a proceeding in the Appellate Division, First Department, under section 174 of the Railroad Law, for the appointment of Commissioners to determine whether its road ought to be constructed and operated in the streets in Manhattan in which it was authorized by its franchise to construct and operate, and on February 8, 1913, commenced a similar proceeding in the Appellate Division, Second Department, in regard to the streets in the Borough of Brooklyn as to which it had not obtained the necessary consents, to wit, through and along Rockwell place, between Fulton street and Flatbush avenue; Flatbush avenue, between Rockwell place and 4th avenue, and also between 3d avenue and Livingston street; Livingston street, between Flatbush avenue and Hoyt street; Hoyt street, between Livingston street and Fulton street, and diagonally across Fulton street, between Hoyt street and Bridge street.

In the Manhattan proceeding Commissioners were appointed on the 14th day of March, 1913, and made their report in favor of the construction of petitioner's road on the 8th day of May, 1913, and the same was confirmed on the 23d day of May, 1913.

In the Brooklyn proceeding Commissioners were appointed on the 7th day of March, 1913, and made their report in favor of the construction of petitioner's road on the 23d day of June, 1913, and a motion for the confirmation of the same was submitted to the Appellate Division on the 26th day of June, 1913, but has not yet been decided.

This Board by resolution adopted on the 10th day of April, 1913, extended the time of petitioner to commence the construction of its railway on Bridge street, 3d, Atlantic and 4th avenues, and Fulton st., between Flatbush Avenue Extension and Rockwell place, Borough of Brooklyn, the same being the streets as to which petitioner had obtained the consents of abutting owners, up to and including October 9, 1913, and the time of petitioner to complete such construction and place the railway in operation in said streets to the 9th day of January, 1914.

In the construction and operation of its road in Brooklyn it will be necessary for petitioner to cross the tracks of the Brooklyn Rapid Transit Companies in several places and to use their tracks in several streets. Said companies have stated openly that they will not consent to such operation, and consequently, it will be necessary for petitioner to acquire such right in the manner provided in section 183 of the Railroad Law.

The streets in Brooklyn other than Flatbush Avenue Extension, as to which petitioner has procured the necessary consents, namely, Fulton street, between Flatbush Avenue Extension and Rockwell place; 4th avenue, between Flatbush avenue and Atlantic avenue; Atlantic avenue, between 4th avenue and 3d avenue; 3d avenue, between Atlantic avenue and Flatbush avenue, and Bridge street, between Fulton street and Flatbush Avenue Extension, are isolated, and it would be futile to attempt to construct and operate a railroad in them, except in connection with the streets as to which consents have not been obtained.

In view of the attitude of the Brooklyn Rapid Transit Companies, it is obvious that a long litigation will ensue before petitioner can obtain the necessary trackage and crossing rights to enable it to construct and operate its road from its present terminus at Flatbush Avenue Extension and Fulton street to the Long Island Railroad Station.

Similar conditions exist in regard to Canal street and the other streets in Manhattan in which petitioner is authorized to operate its railroad, and which are occupied by tracks of the Third Avenue Railway Company and the New York Railways Company, or their subsidiaries.

The questions which will be involved in this litigation have never been passed upon by the Courts of this State, and for this reason the litigation will in all probability be carried to the Court of Appeals, making it impossible to foresee how much time will be consumed before a final adjudication can be had.

The determination of the Courts on these questions will be of vast importance not only to petitioner, but also to The City of New York and this Board, by ascertaining and fixing the power of the Board with reference to existing

railroad franchises throughout this municipality, and constraining the limitations contained in the Railroad Law with reference to the use of tracks and equipment of existing railways.

Petitioner is ready and anxious to complete the construction of its entire road and put the same in operation at the earliest possible moment.

Wherefore, petitioner prays that paragraph fourth of section 2 of the said agreement between The City of New York and petitioner, dated the 10th day of July, 1912, be amended to read as follows:

The Company shall commence construction of the railway herein authorized on or before the 9th day of October, 1914, and shall complete the construction and place the same in full operation on or before the 9th day of January, 1915; otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board; and provided further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company; and provided further, that in no case shall such delay be deemed to begin until the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Frederick W. Rowe, being duly sworn, deposes and says, that he is the president and an officer of Manhattan Bridge Three Cent Line, the corporation petitioner in the above entitled matter; that the foregoing petition is true to the knowledge of this deponent, except as to matters therein stated to be alleged upon information and belief, and that as to those matters he believes it to be true.

That the reason why this verification is not made by the petitioner is because the petitioner is a corporation, and that the grounds of deponent's belief as to all matters in said petition not stated upon his knowledge are investigations which deponent has caused to be made concerning the subject matter of this proceeding and information acquired by deponent in the course of his duties as an officer of the corporation petitioner.

New York, July 10, 1913. s6,18

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held July 10, 1913, the following petition was received:

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The petition of The New York and North Shore Traction Company respectfully shows:

First—That by two several contracts dated respectively February 1 and April 14, 1909, The City of New York granted to your petitioner a franchise to build and operate an electric street surface railroad, with its appurtenances, on certain streets and avenues in the 3d Ward of Queens Borough, New York City, N. Y.

Second—That in each of said contracts it is provided among other conditions that your petitioner is to pay the City, for the privilege of the franchise, certain annual payments divided into periods of five years at an increased ratio. In the contract of February 1, 1909, during the first term of five years, the annual sum to be paid is to be at least \$2,200, and is to be equal to 3 per cent. of its gross annual receipts if such percentage shall exceed that amount. In the contract of April 14, 1909, during the first term of five years, the annual amount to be paid is to be at least \$1,575, and is to be equal to 3 per cent. of its gross annual receipts if such percentage shall exceed that amount.

Third—That on account of the arrested development of that section of Queens Borough in which its railroad is operated, 3 per cent. of its gross annual receipts has been less than minimum payment required, and so much less than was anticipated by the parties to the contracts that the minimum payments called for by the contracts have been a hardship on petitioner.

Now, therefore, your petitioner respectfully asks that the said contract be modified so that, in each, the term during which petitioner is obligated to pay 3 per cent. of its gross annual receipts or a minimum amount as fixed, shall be extended to a date which shall be five years after the beginning of the operation of its railroad, to wit, to August 12, 1915; and that the dates of the commencement of the other terms of five years, in which the said annual payments are fixed, be changed so as to be computed from the commencement of operation instead of from the dates of said contracts, and that the minimum amount to be paid during the second term of five years be lessened so as to conform more equitably to its gross annual receipts during that period.

Dated July 1, 1913.  
THE NEW YORK AND NORTH SHORE TRACTION COMPANY.  
By GEORGE A. STANLEY, President.

State of New York, County of New York, ss.:  
George A. Stanley, being duly sworn, deposes and says that he is the President of the New York and North Shore Traction Company, the petitioner above named, that he has read the foregoing petition and knows the contents thereof; and that the same is true to the knowledge of deponent, except as to the matters therein stated to be alleged upon information and belief and as to those matters he believes it to be true.

GEORGE A. STANLEY.  
Sworn to before me this 1st day of July, 1913.  
BENJAMIN R. DUFF, Notary Public, Queens County (Certificate filed in New York County, No. 48).

—and the following resolutions were thereupon adopted:

Whereas, The foregoing petition from the New York and North Shore Traction Company, dated July 1, 1913, was presented to the Board of Estimate and Apportionment at a meeting held July 10, 1913,

Resolved, That in pursuance of law this Board sets Thursday, the 18th day of September, 1913, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the City Record immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said three (3) months, within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor, until January 1, 1924.

Third—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of one hundred dollars (\$100) in cash within three (3) months after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law as amended.

Any and all payments to be made by the terms of this contract to the City by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights or privileges hereby granted, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this consent shall be deemed to affect in any way the right of the City to grant to any other corporation or to any individual a similar right or privilege upon the same or other terms and conditions over the route hereinbefore described, and the Company shall not at any time oppose, but shall consent to the construction and operation of any street surface railway by any such other corporation or individual which may receive a franchise therefor from the City, and which may necessitate the use of any portion of the railway which shall be constructed or operated by the Company pursuant to this contract.

Should the City at any time during the term of this contract grant to any other corporation or to any individual the right or privilege to operate a railway upon the tracks of the Company on the route herein described, or any portion thereof, then the City shall, within thirty (30) days thereafter, give notice to the Company that such right has been granted, and of the name of the corporation or individual to which such right has been granted.

At the expiration of ninety (90) days after the giving of such notice, such individual or corporation shall have the right to begin the operation of cars upon the tracks of the Company upon the route, or any portion thereof, over which such corporation or individual may receive a right or privilege, and to use thereof the tracks, equipment, power and all other property of the Company which shall be necessary in the operation of the cars of such individual or corporation upon the tracks of the Company and shall have the right to continue such operation and to use such property until this contract or the right to use such property under the terms of the franchise or right granted said corporation or individual by the City, shall expire. Such corporation or individual shall pay to the Company for the right to use such tracks, equipment, power and other property above described, such sum or sums as may be agreed upon in writing by such corporation or individual and the Company within said ninety (90) days, or in the event that such agreement cannot be reached within said ninety (90) days, such sum or sums shall be determined in the manner hereinafter provided for.

If the Company and such corporation or individual cannot, prior to the expiration of said ninety (90) days agree upon the compensation for the use of such tracks, then such compensation shall be fixed by three arbitrators selected in the following manner:

One fit and impartial person shall be chosen by the Company; one fit and impartial person shall be chosen by such corporation or individual, and the two so chosen shall choose a third fit and impartial person. The decision under oath of any two of said persons who shall be so selected shall be final and conclusive.

The compensation and expenses of the persons selected as arbitrators in the determination of such sum or sums shall be borne by the individual or corporation to which such right may be granted.

Within thirty (30) days after an agreement shall have been reached between said parties, or in case said agreement cannot be reached before the time specified herein, then within thirty (30) days after the determination of the arbitrators, as herein provided, should two of such arbitrators agree, the Company shall file with the Board a duplicate copy of a written agreement which shall specify the sum or sums which shall have been agreed to by the said parties or determined by said arbitrators, as the sum or sums which

such corporation or individual shall pay to the Company for said privilege. If the Company fails to file the same with the Board within said thirty (30) days, then the right herein granted shall cease and determine.

If either party fails to appoint an arbitrator, as herein provided, or should the first two arbitrators fail to agree on the selection of a third arbitrator within thirty (30) days after the expiration of said ninety (90) days, or if no two of said arbitrators so selected agree upon the sum or sums to be paid by such individual or corporation within sixty (60) days after they shall have been so selected, then such sum or sums shall be fixed by the Supreme Court upon the application of either party.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway herein authorized within three (3) months from the date upon which the consents of the property owners are filed with the Board, or from the date of the order of the Appellate Division of the Supreme Court made pursuant to section 174 of the Railroad Law confirming the determination of the Commissioners appointed thereunder, that such railway ought to be constructed, and shall complete the construction and place the same in full operation within six (6) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appliances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Brooklyn, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Twelfth—No wires for the transmission of power, except trolley wires, shall be permitted unless they be placed in conduits underneath or along the side of the railway. When such conduits are constructed the Company shall provide two (2) ducts not less than three (3) inches in diameter each for the exclusive use of the City. Such conduits shall be used only by the Company for the operation of its railway and by the City, as above.

Thirteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on its road or on any road, line or branch operated by it or under its control, to any other point thereof, or any connecting branch thereof within the limits of the City unless a rate of fare in excess of five (5) cents may be lawfully charged therefor. The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fourteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

Fifteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Seventeenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Eighteenth—Cars on the said railway shall run at intervals of not more than thirty (30) minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Nineteenth—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twentieth—As long as said railway, or any portion thereof, remains in any street or avenue the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the Company to make pavement or repairs after the expiration of twenty (20) days' notice to do so from the President of the Borough of Brooklyn, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-first—Any alteration to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-second—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-third—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues, the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-fourth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

Twenty-fifth—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-sixth—In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board, acting under the powers therein reserved, the franchise or consent herein granted, may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or

in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-seventh—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund herein-after provided for.

Twenty-eighth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-ninth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of five hundred dollars (\$500), either in money or securities to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railway and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions, or compliance with such orders or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the roadway, heating and lighting, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board, acting hereunder, relating to the roadway, heating and lighting of cars, fenders, wheelguards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheelguards, in case of the violation of the provisions relating to those matters, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its president or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears, in the judgment of the Board, to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any draft made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of five hundred dollars (\$500), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirtieth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-first—The words "streets or avenues" and "streets and avenues," wherever used in this contract, shall be deemed to mean "streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement encountered in the route hereinabove described, and upon or in which authority is hereby given to the Company to construct a railway.

Thirty-second—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This grant is also upon the further and express condition that the provisions of article 5 and other provisions of the Railroad Law pertinent thereto shall be strictly complied with by the Company.

Sec. 4. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Com-

mission under the Laws of the State of New York.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, hereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rents or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
