DOHMH intends to enter into a limited pool Negotiated Acquisition with NYU School of Medicine (through its Vaccine and Treatment Evaluation Units) to conduct studies on the Jynneos vaccine being used to respond to Monkey pox. The Vaccine and Treatment Evaluation Units (VTEUs) was established by The National institute of Allergy and Infectious Diseases (NIAID) to provide a ready resource for conducting clinical trials of vaccines and treatments for infectious diseases. The VTEUs is a rapid response network to ensure the capability to test vaccines designed to counteract emerging public health concerns. For more than 60 years, NIAID has conducted and supported basic and applied research to better understand, treat, and ultimately prevent infectious, immunologic, and allergic diseases. This research has led to new therapies, vaccines, diagnostic tests, and other technologies that have improved the health of millions of people in the United States and around the world.

In 1962, NIAID established Vaccine and Treatment Evaluation Units (VTEUs) to provide a ready resource for conducting clinical trials of vaccines and treatments for infectious diseases. There are ten VTEUs nation-wide, with one in NYC, which is New York University School of Medicine. The VTEUs were established, in part, as a rapid response network to ensure the capability to test vaccines designed to counteract emerging public health concerns. An important strength of the VTEUs is their ability to enroll large numbers of volunteers into trials rapidly and vaccinate them in a safe, effective and quick manner. They provide a ready resource for conducting clinical trials of vaccines and treatments for infectious diseases. The Agency has determined that it is in the best interest of the City to utilize a Negotiated Acquisition method of source selection directly with NYU as there are no other organizations or entities that have The National institute of Allergy and Infectious Diseases (NIAID)'s depth and breadth of experience in conducts and supports basic and applied research to better understand, treat, and ultimately prevent infectious, immunologic, and allergic diseases.

PRE-QUALIFIED LIST (PQL) PROGRAM FOR VARIOUS TRADES

NYCHA is currently accepting applications for Pre-Qualified List (PQL) program for various trades.

A PQL is a tool that NYCHA will use to qualify vendors and contract goods or services for its developments, streamlining the process for both vendors and NYCHA. NYCHA will publish contracting opportunities, and the PQL will predominantly be used to procure goods or services for those contracts. Vendors who apply to those bids must pre-qualify according to specific criteria, and vendors who are admitted to the PQL can bid on contracts.

Currently NYCHA has established six (6) PQL lists for the Closed-Circuit Television (CCTV), Carpentry, Painting, Lead Based Paint (Assessment and Abatement, Inspection and Assessment & Lab Analysis), Plumbing and Electrical.

All vendors interested in NYCHA's PQLs must follow two (2) important steps:

First, vendors must prepare and submit applications to the PQL: To pre-qualify, vendors must meet the minimum requirements listed on the Request for Qualification of the select PQL. Applications will be evaluated by NYCHA on a rolling basis.

Second, vendors who are admitted to the PQL can then bid on solicitations for services on the PQL: Vendors must bid on each contract award, as these are not guaranteed.

For more information regarding PQL's and to obtain applications, please visit NYCHA's website at: https://www.nyc.gov/site/nycha/business/nycha-pql.page
