The number of complaints received from citizens during the three months ending December 31, 1874, was six hundred and seventy-eight, all of which were referred to the Sanitary Inspectors for investigation and report.

The Sanitary Superintendent during the same period granted, under instructions and authority of the Board, six hundred and three permits to vessels to discharge cargoes upon proper vouchers from the Health Officer of the Port; one thousand and fifty permits to scavengers to empty privies, their work being inspected by officers of this Board detailed for that purpose; one hundred and thirty-two permits to remove and transport manure, and sixty-seven permits were granted to land rags (in bulk) under bonds.

The number of places visited where contagious cases of contagious diseases were found and reported was twelve hundred and thirty-four; the number of cases sick with contagious disease, who could not be properly isolated or cared for at their own houses, and were therefore removed to hospital, was three hundred and sixty-eight; the number of vaccinations performed was eighteen thousand six hundred and forty-five. The number of premises disinfected and fumigated, where contagious diseases had prevailed, was eleven hundred and twelve. The number of bodies removed to the Morgue was twenty-two.

The work of the Disinfecting Corps has been mainly confined to the disinfection of houses infected with contagious diseases.

The ambulances used for the removal of small-pox patients have been made more comfortable in conformity with demands of the now prevailing severe cold. A coupe has also been added to the conveyances used for the removal of less severe cases of variola.

The systematic disinfection of street-gutters, privies, cellars and yards, was discontinued September 30; the apparatus necessary for this work was repaired, as far as practicable, and if entirely worn out, replaced by new ones, and, with the surplus of disinfectants on hand, stored at No. 128 Worth street, No. 146 Hester street, and at No. 197 Washington street.

The amount of meat, fish and cheese condemned by the officers of the Sanitary Company of Police during the quarter ending December 31, 1874, was as follows: Sheep, two hundred and fifty-one (251) carcasses; veal (bob), thirty (30) carcasses; veal (cut), eight hundred and seventy-eight (878) pounds; poultry, five thousand one hundred and twenty-two (5,122) pounds; fish, forty-eight thousand five hundred and fifty (48,550) pounds; calves (cases), forty-one (41) carcasses; calves (bob), one hundred and three (103) carcasses; lambs, two (2) carcasses; beef, two thousand three hundred and eighty-two (2,382) pounds; mutton, forty-six (46) pounds; scollops, three hundred and fifteen (315) gallons; antelope, two hundred and seventy (270) pounds; cattle, seventeen (17) carcasses; corned beef, one hundred and forty (140) pounds; game, five hundred and ninety (590) pounds; tongue, forty-six (46) pounds; cheese, four hundred and sixty-seven (467) pounds; hogs, one hundred and fifteen (115) carcasses; venison, ninety-five (95) pounds; and ham, four hundred and ten (410) pounds.

The following statement gives the amount of work performed by the Vaccinating Corps for the purpose of preventing the spread of small-pox during the quarter ending December 31, 1874:

Number of Primary Vaccinations.....	6,292
Number of Re-Vaccinations.....	12,353
Total.....	18,645

### AGES OF PRIMARIES.

Under one year of age.....	2,428
Between one and two years of age.....	1,771
“ two and three “.....	1,099
“ three and four “.....	411
Over four years of age.....	583
Total.....	6,292

Amount of virus distributed gratuitously for use in public institutions, etc.:

Quill points.....	1,841
Crusts.....	58

During this period every tenement house in the City above Grand street has been visited, and free vaccination has been offered to the inmates. The past two months are the most unfavorable ones in the whole year for vaccinating, and the Board has been obliged to commence the work with inexperienced men. At the time this work began small-pox was increasing very rapidly, owing, no doubt, to the fact that for about two years there had been but few vaccinations performed by the officers of the Health Department, and it has been found that the great mass of the poor people rely almost entirely upon the Department for vaccination. There are, probably, thousands of unvaccinated children in the City at this time, between the ages of three months and four years, and the parents expect that the work will be performed by the Health Department. This fact can be readily proven by reference to the tabulated statement of ages of children, included in this report, and by which it will be seen, that out of 6,292 primary vaccinations there were but 2,428 under one year of age. When the fact is taken into consideration that all babies should be vaccinated before reaching the age of six months, it can be seen that there is great danger from the spread of small-pox. All of this work is being performed as thoroughly as possible. Every primary vaccination is examined, and when a failure occurs, there are re-vaccinations and re-examinations, until the child is considered thoroughly protected. The name is then recorded in the books kept for the purpose. The same is being done in all vaccinations performed in public institutions, schools, etc.

In the Deaf and Dumb Asylum, One Hundred and Sixty-second street and Tenth avenue, an unrecognized case of small-pox occurred. It was nearly two weeks before the true nature of the disease was discovered, and then only from the fact of others being taken down with the same disorder; consequently vaccination was not attended to until after a majority of the inmates had been exposed to contagion for that length of time. Between twenty and thirty cases followed this in rapid succession, and quite a number of these resulted fatally. It was then discovered, from vaccinations performed, that a large number had never been vaccinated. In the New York Juvenile Asylum in the same neighborhood, and which probably owed its origin to these cases in the Deaf and Dumb Asylum, one confluent case occurred there, and on the following day all of the inmates, numbering about six hundred, were vaccinated, and there was no further spread of the disease in the institution. In this instance was found a large number who had never been vaccinated, and who would consequently have fallen an easy prey to the disease. From these cases, as well as many others of like importance, may be seen the benefit of careful vaccination in such institutions, and it is recommended that all persons be vaccinated upon their admission. As the Health Department has offered to supply gratuitously all vaccine virus required in such cases, there will be no occasion in future of any serious epidemic of small-pox in any public institutions.

The annexation of the Westchester wards, with between thirty and forty thousand inhabitants, at the beginning of the year 1874, increased the population and the aggregate mortality in the City about three per cent. The records of death in the annexed district the past year show that, taken as a whole,

the rate of mortality in that district falls below that of older wards, even after accounting for deaths in hospitals. Even before drainage improvements and public water supplies in those new wards, the death-rate there is shown by records for the year to be much below that which prevails in the tenement-house districts of the Fourth, Fifth, Sixth, Eighth, Tenth, Eleventh Wards, and some other portions of the City. The following table presents a view of the mortality in the different wards of the City in the several quarters of the year:

Total.....	6,328	6,548	8,509	7,342	28,727

It will be observed that the aggregate number of deaths in hospitals and other institutions amounted to 4,757. This number falls nearly 200 below the annual average of the last five years. The inmates of these institutions are chiefly derived from the crowded districts, namely—in the Eleventh, Twelfth, Nineteenth, and Twenty-first Wards. They appear to add nearly 20 per cent. to the actual death-rate in those hospital districts.

#### ORDERS OF THE BOARD.

The orders of this Board, for the abatement of nuisances, are issued upon the facts and evidence contained in the written reports of the Sanitary Inspectors, the result of personal inspection of the premises complained of. During the three months ending December 31, 1874, the number of orders issued by the Board was two thousand eight hundred and seventy-five (2,875). Of this number nine hundred and eighty-eight (988) were issued under the first sub-division of section 14, chapter 74, Laws of 1866, by the terms of which the party served is allowed three days in which to demand a hearing by the Board of the testimony which may be presented to show that the order should be modified or revoked. In cases where no hearing has been asked for, and the orders have not been complied with, final orders, in the original or amended form, to the number of three hundred and sixty-one (361) have been issued, and the Board has directed the Attorney to commence actions for penalties for non-compliance with such orders. All other written orders, in number one thousand eight hundred and eighty-seven (1,887), have been issued under the second sub-division of section 14, chapter 74, Laws of 1866, and are of a peremptory character, requiring that the nuisance be abated within five days, and if not complied with, directing the Sanitary Superintendent to enforce the same without further notice, unless the Board shall elect to commence a suit for penalty in lieu of the execution of the order by its officers or agents.

January 28.—His Honor the Mayor advised that the provisions of the Charter of 1873 require that the Comptroller shall furnish each head of Department a weekly statement of the unexpended balance of the appropriation for his Department, but that the Comptroller considers that, inasmuch as the funds for the Department are derived from the proceeds of the sale of Dock Bonds, is at least doubtful whether there is any provision of law calling for such weekly statement. The said Department of Finance omits to advise this Department when dock bonds are sold, as well as the amount remaining unexpended to its credit, requiring frequent personal application to the Department of Finance to obtain such information, and that whenever deductions are made at the Finance Department in the amount of bills sent to that Department for payment, no statement of such reduction is returned to this Department, therefore the books and accounts of this Department cannot be adjusted to correspond with the account as kept by the Finance Department, and for these reasons the attention of his Honor the Mayor is thereto called.

January 28.—Statement of what work can be commenced in the next two months, as well as to what legislation is needed that said work may be commenced, transmitted to Board of Aldermen, at their request.

January 28.—Fifty-one reports and communications were received and read, of which twenty-two were placed on file, no further action thereon being deemed necessary, sixteen were laid on the table, ten were referred to the Executive Committee, and three were referred to the Auditing Committee.

AN ACT to provide more effectually for the punishment of peculation and other wrongs affecting public moneys and rights of property.

Passed February 17, 1875: three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. Every person who, with intent to defraud, shall wrongfully obtain, receive, convert, pay out, or dispose of, or who, with like intent, by willfully paying, allowing, or auditing any false or unjust claim, or in any other manner or way whatever shall aid or abet any other in wrongfully obtaining, receiving, converting, paying out, or disposing of any money, funds, credits, or property, held or owned by this State, or held or owned, officially or otherwise, for or on behalf of any public or governmental interest by any municipal or other public corporation, board, officer, agency or agent of any city, county, town, village, or civil division, sub-division, department or portion of this State, shall, on conviction of such offense, be punished by imprisonment in a State prison for a term not less than three years or more than ten years, or by a fine not exceeding five times the loss resulting from the fraudulent act or acts which he shall have so committed, aided, or abetted, to be ascertained as hereinafter mentioned, or by both such imprisonment and fine.

## APPROVED PAPERS.

Ordinances, Resolutions, etc., approved by the Mayor during the week ending February 27, 1875, respectively.

AN ORDINANCE to regulate the use of snow-ploughs and sweeping-machines by railroad companies and others, in the City of New York.

The Mayor, Aldermen, and Commonalty of the City of New York, in Common Council convened, do ordain as follows:

Sec. 1. It shall not be lawful for any or either of the street or horse-car railroad or stage companies, proprietors, or corporations within the limits of the City of New York, or their officers, agents, or servants, to cause or allow any snow-plough, sweeping-machine, or other similar instrument to pass over the tracks or lines occupied or used by them within the said limits, unless by the express permission in that behalf to be granted to them by the Mayor.

Sec. 2. Any of the said companies, proprietors, or corporations who shall violate the provisions of the above section, shall be punished by a fine not exceeding one hundred dollars for each offense, and the officers, agents, or servants of such companies, proprietors, or corporations who shall violate the said provisions, shall be punished by a fine not exceeding one hundred dollars for each offense.

Sec. 3. No such permit, or renewal thereof, shall be granted, unless upon the express condition and agreement to be assented to on the part of the company, proprietor, or corporation applying for such permit or renewal, that in case of any fall of snow so deep that the throwing up of the snow by any such snow-plough or machine will render the highway unsafe for travel, or make inconvenient the approach to the curb-stone, then, within twenty-four hours after any such fall of snow, and after the use of such snow-plough or machine, such company, proprietor, or corporation shall and will, at his or at their own expense, remove and carry away the snow thrown up by such plough or machine, and shall and will reduce the snow upon the highway adjacent to their tracks or lines, to such level as will make convenient for all vehicles the approach to the curb-stone, and render the whole width of the roadway safe for travel; and that such snow-plough, sweeping-machine, or other instrument be so constructed as not to throw any snow or slush on the walks or buildings, under a penalty of ten dollars for every house or sidewalk in front thereof upon which such snow or slush shall be thrown.

Sec. 4. No such permit or renewal shall be granted, unless such company, proprietor, or corporation shall expressly covenant, stipulate, and agree that in case of his or their failure,

neglect, or omission to remove and carry away the snow to be thrown up by such snow-plough or machine, and to reduce and level snow on the adjacent highway, within the time and manner aforesaid, then the same may be removed, reduced, and leveled, under the direction of the Commissioners of Police, and the expense of such removing, reducing, and leveling shall be paid by such company, proprietor, or corporation to the said Commissioners on demand.

Sec. 5. In case of the neglect or refusal or omission of any company, proprietor, or corporation, to whom such permit or renewal may be granted to remove and carry away the snow thrown up by such plough or machine, and to reduce and level the snow within the time and in the manner aforesaid, then the Commissioners of Police, by the direction of the Mayor, shall forthwith cause the same to be removed, reduced, and leveled at the public expense, and all the expenditures made or incurred therefor shall be chargeable upon the company, proprietor, or corporation so neglecting, refusing, or omitting to perform his or their agreement, and the same recoverable by an action at law to be commenced by the Corporation Attorney on behalf of the Mayor, Aldermen, and Commonalty of the City of New York.

Sec. 6. The permission to use such plough, sweeper, or similar machine shall be determined by and continue only during the pleasure of the Mayor.

Sec. 7. All ordinances or parts of ordinances inconsistent or conflicting with the provisions of this ordinance are hereby repealed.

Sec. 8. This ordinance shall take effect immediately.

Adopted by the Board of Aldermen, February 11, 1875.
