BELLEVUE AND ALLIED HOSPITALS.

REPORT FOR THE QUARTER ENDING DECEMBER 31, 1911.

New York, January 1, 1912.

Hon. WILLIAM J. GAYNOR, Mayor:

Sir—In behalf of the Board of Trustees of Bellevue and Allied Hospitals, I have the honor to present the following report for the closing quarter of the year 1911:

The Department as a Whole.

After extensive study of the needs of the Department and a careful investigation as to which of these should be undertaken first, the Trustees have resolved to approve of the following requests for corporate stock for the year beginning July 1, 1912: Pavilions F and G, new Bellevue Hospital, \$1,250,000; enclosing ends of balconies, Pavilions A and B, to correspond with the new pavilions, \$8,500; purchase of site on 29th st. for new power plant, \$100,000; power plant, new Bellevue Hospital, \$150,000; enlargement of Bellevue Training School, \$200,000; site for school for Hospital Attendants, \$100,000; cost of building school for Hospital Attendants, \$200,000; additional funds required to complete new Out-Patient Department, Nurses' residence, boiler house, etc., Gouverneur Hospital (\$200,000 now available), \$150,000; alterations and addition to present Harlem Hospital, \$45,000; additional story on power and ambulance station, Harlem Hospital, to accommodate more employees, \$75,000; enlargement of Fordham Hospital, \$260,000; enlargement of employees' quarters, Fordham Hospital, \$125,000; enlargement of Nurses' residence, Fordham Hospital, \$90,000. Total, \$2,753,500.

Some disagreements which arose between the Board of Trustees and the various architects employed on contracts at the present time are in a fair way to being satisfactorily settled. These disagreements arose from the fact that the rate allowed by the American Institute of Architects differed, apparently, from that authorized by the City Law Department in certain cases. The preliminary contracts with the architects had been made for the rate, namely, 6 per cent., allowed by the American Institute of Architects, but the Trustees finding that 5 per cent. had been exacted in other work for the City, insisted upon a modification of the agreements in this sense. After conference and consultation with the Law Department of the City, the architects in question have agreed to accept the lower percentage.

After a transfer of \$5,750 within the appropriations had been effected, it is found that the sum of \$29,000 will still be required to meet the deficit in appropriations for the present year. This is in addition to the amount of \$5,000 already voted by the Board of Aldermen. It was found necessary at the end of November to advertise for fresh meats and vegetables for the balance of the year. In adopting specifications for bids upon supplies for the coming year the standards adopted by the Committee on Standardization of Supplies were accepted.

In view of the active building operations that will soon be under way at the several hospitals, and for the purpose of enabling the Superintendent to visit these hospitals without announcing his visit beforehand, the Trustees have requested anew that an automobile be provided for the Department.

Permission having been received from the Board of Aldermen, the General Medical Superintendent has arranged for the purchase of an electric truck in the open market at a cost not to exceed \$4,000.

An improvement affecting the arrangement for paying employees who are discharged or resign during the interval between pay days has been effected by the Department of Finance. On presentation of an order properly signed, it has been arranged for them to receive their money. It is expected that this will prevent the practice of employees assigning their claim for a consideration.

It has been arranged for Dr. S. S. Goldwater, Expert on Hospital Construction, to resume his position on the first of January, 1912, in order to be able to assist with his advice in the preparation of plans for all the new construction work now under contemplation.

The owner of the present residence of the General Medical Superintendent has made a request that the house be vacated. While the lease does not expire until October, 1912, in view of the fact that work will be going on in the adjacent house, it is desirable that this be done. The Trustees have accordingly instructed the General Medical Superintendent to seek at once for a suitable house or apartment for his occupancy until another residence can be obtained.

BELLEVUE HOSPITAL.

Pathological Laboratory.

The claim of Blake & Williams of \$1,050 for maintaining heat in the Pathological Building last winter, the responsibility for which was assumed by the P. J. Carlin Construction Company, contractors, remains unsettled, and in view of the fact that the Carlin Company now attaches conditions to the acceptance of the claim, the whole correspondence has been referred to the Corporation Counsel for advice as to what action should be taken by the Trustees to enforce payment of the claim.

New Laundry Building.

The contract of the John H. Parker Company for the new laundry building was completed on September 30, and the payment of the final bill has been authorized by the Trustees. The offer of the Parker Company to allow \$900 for the omission of motor connections in the building was accepted on recommendation of the architects, good reasons being supplied why the connections could not be made at the present time. Plans and specifications for the installation of lighting fixtures in the new building have been received and referred to the Board of Estimate and Apportionment for their approval.

Corporate stock, in amount of \$12,000, has been issued to provide additional means for the installation of machinery in the new building. Two companies, the American Laundry Machinery Company and the Troy Laundry Machinery Company, put in estimates for this machinery, the first amounting to \$61,197, and the second to \$65,243, both to include removing the old machinery and the work of setting up the new. After consideration of a protest made by the Troy Laundry Machinery Company concerning the drawing up of the specifications, it was resolved to accept the lower bid, that of the American Laundry Machinery Company, and a contract was accordingly executed with them.

Pavilions I and K.

Authority has been given to advertise for bids for the construction of Pavilions I and K, the plans and specifications for these pavilions having received the approval of the Board of Estimate and Apportionment.

Proposed New Power Plant.

Property on the block north of the present Bellevue tract, namely, that between 29th and 30th sts., bounded by 1st ave. and the East River, having been offered the Trustees by a real estate concern, action was taken urging consideration by the Board of Estimate and Apportionment of the acquisition of a plot for the purpose of erecting an electric generating plant. The Trustees have been convinced from the beginning of the desirability of such a plant from the point of view of the economical supply of electricity for the Hospital, and they believe that the property in question would afford an ideal site for this purpose. In acknowledging receipt of the communication the Board of Estimate suggested deferring the question until it could be taken up in connection with the Corporate Stock Budget for the coming year.

Other Building Matters.

Plans and specifications for the proposed roof wards on Pavilions A and B, the estimated cost of which is \$32,000, have been received from the architects, Messrs. McKim, Mead and White. On motion of Mr. Farley, the Chairman of the Building Committee, they were returned to the architects with the request to provide a covering for the entire roof and not merely at the ends, as provided for in the plans submitted.

The plans and specifications for additional balconies on Pavilions A and B, the estimated cost of which is \$17,500, have been approved by the Board of Estimate and Apportionment. It is proposed to expend \$7,968 to enclose the ends of the balconies on Pavilions A and B to make them conform with the construction of the balconies on the new pavilions. Arrangements will be made for this in the Corporate Stock Budget.

Final payment has been made to the Namon Gewertz Company on the completion of their contract for altering Ward 31 into isolation quarters.

Fire Protection.

Reference was made in the last quarterly report of the Trustees to the fact that the Fire Commissioner was undertaking, at the request of the Trustees, an investigation of fire conditions in the old buildings of Bellevue Hospital. A report of this investigation was received early in October from the Fire Commissioner. All the minor recommendations contained in this report were referred to the General Medical Superintendent to carry out without delay. The other changes recommended, involving as they did very considerable and extensive reconstruction, were referred to the Board of Estimate and Apportionment for a report by their engineers as to the best action possible for the Trustees in the premises. Word was received in due time from Messrs. Nelson P. Lewis, Chief Engineer of the Board of Estimate, and Rudolph P. Miller, Superintendent of Buildings for the Borough of Manhattan, to whom the matter had been reported by the Board of Estimate for report. They advised the Trustees that in view of the approaching demolition of these buildings, it would be inadvisable to carry out the far-reaching structural changes recommended by the Fire Commissioner in his report. In acknowledging the receipt of the communication the Trustees expressed their desire to comply with all the suggestions made by the Fire Commissioner, provided that the money would be supplied by the Board of Estimate. The Board of Estimate, however, was unwilling to approve the more radical of these suggestions and denied authority to make the changes in the old buildings recommended by the Fire Department.

The H. C. Vogel Company, contractors for the installation of the sprinkler system in the Hospital, have been accorded an extension of 30 days on their contract on account of delays occasioned by their desire to proceed with as little noise and inconvenience to the patients as possible.

The Medical and Nursing Service.

The plan referred to in the last quarter's report to divide the children's service between the First and Fourth Medical Divisions, was rejected by the Board of Trustees, it being deemed to the better interests of the Hospital and the patients to leave the service substantially as it is. It was, however, suggested to the Medical Board that the following changes in the conduct of the service might, if approved by them, be made: First, that the internes of all four divisions of the Hospital be admitted to the children's wards in order that they may receive instruction in the care and treatment of the children, the same as the internes of the First Division now receive; second, that the patients in the children's wards who may be found to require surgical treatment be referred to each of the surgical divisions in rotation, instead of to the First Division alone, as is now the practice.

A rule has been adopted restricting the leave of absence to physicians working on salary in the Out-Patient Department to once a month. As these physicians are expected to attend their clinics in the Out-Patient Department on an average of 12 days in each month, more than one absence hereafter will be attended by a corresponding deduction in the salary.

A protest has been received from the Chairman of the Executive Committee of the Social Service Bureau against the payment of \$800 to Nurses who are to live outside, instead of \$900 as previously allowed. Consideration of the matter was postponed until such time as the Budget for 1913 should be under preparation, and the Executive Committee was informed that the recent ruling of the Municipal Civil Service Commission fixing \$180 as the limit for a position without maintenance over that of the same position with maintenance, was the Trustees' reason for stating the lower amount of salary.

The resignation of Dr. Ernest S. Bishop as Resident Physician in the alcoholic wards was accepted by the Trustees early in November. Dr. Bishop retiring to find a much-needed rest after his self-sacrificing service in these most difficult wards. Dr. Gregory, the head of the Alcoholic and Psychopathic Service, later submitted to the Trustees a plan for the improvement of this service, which has now been adopted, and which is expected to provide a very material improvement in the treatment and management of the difficult class of patients who come to these wards for treatment. The principal points of this reform are as follows: First, that the structural changes now under way in Ward 34 be completed as soon as possible; second, that suitable provision be made for the care of the critically ill and delirious patients in Ward 30 by providing for these patients, and for those in Ward 6, in some other part of the Hospital; third, that a clerk be provided, whose duty it shall be to keep the records and do such other work as may be assigned to him by the physician in charge; fourth, that two additional internes be provided for this service, to serve for a period of six months; fifth, that an additional salaried assistant be allowed at the rate of \$600 per year; sixth, that a request be made of the Board of Magistrates, or the Chief Magistrate, to have one of their Board visit the prison wards at stated periods and dispose of such cases as may be submitted for their consideration; seventh, that action be deferred in the matter of excluding so-called "rounders," pending further report from Dr. Gregory.

Miscellaneous.

Word was received from the Municipal Civil Service Commission in September that they had acceded to the request of the Trustees to classing the position of Employment Agent, at \$900 per year, as non-competitive. The reason of the Trustees for making this request was that the individual selected might have the necessary character and experience to undertake social welfare work among the employees. In accordance with this plan, Mr. Arthur Yergin, who has had considerable experience in similar work in the Y. M. C. A., was appointed to the position, this appointment to take effect at the beginning of the year.

Medical Appointments, Resignations, etc.

October 17, 1911—Dr. Reginald H. Savre, appointed Assistant Visiting Surgeon in charge of the orthopedic service of the Third Division.

November 8, 1911—Dr. Joseph P. Hoguet, appointed Surgeon to Out-Patients and Adjunct Assistant Visiting Surgeon, Second Division; Dr. F. Cruger Edgerton, appointed Assistant Visiting Genito-Urinary Surgeon, Second Division; Dr. Fred H. Albee, appointed Assistant Visiting Surgeon in charge of the orthopedic service of the Second Division; Dr. Seth M. Milliken, appointed Surgeon to Out-Patients and Adjunct Assistant Visiting Surgeon, Fourth Division; Dr. B. Raymond Hoobler, Externe in Clinical Pathology, Second Division, resigned; Dr. William E. Youland, appointed Externe in Clinical Pathology, Second Division.

Dental Service.

October 17, 1911—Dr. Charles O. Kimball, Dr. S. B. Hush and Dr. J. E. Requa, appointed Visiting Dentists.

GOUVERNEUR HOSPITAL.

The matter of a new site for the out-patient and other departments of the Hospital is still under advisement and consultation with the City's financial authorities. The needs that would have to be provided for are: A new Out-Patient Department, Nurses' home, boiler plant and quarters for employees. Whether these purposes can all be provided for in a single building is problematical, and as yet undetermined. Acting upon the advice of the Comptroller, the President of the Board of Trustees has requested that the sum of \$50,000 be transferred from an unexpended balance in the appropriation for Pavilions L and M, Bellevue Hospital, to a new fund to be established for the purchase of a site at Gouverneur. The Medical Board has appointed a committee to confer with the Trustees in planning for the needs of the new Out-Patient Department.

To meet the temporary needs of the new nurses, the houses at 199-201 Monroe st., in the neighborhood of the Hospital, have been leased as a temporary home. In seeking new nurses to take the places of those formerly submitted by the Department of Public Charities, nurses with a knowledge of foreign languages will be given preference.

It has been found necessary to alter the mooring of the ferryboat "Westfield," used as a tuberculosis day camp. An investigation of the condition of the boat has been undertaken with a view to determining how far it may be wise to expend any further money upon its equipment.

The Anderson-Martin Electric Company, having in charge the contract for the reconstruction of the lighting system at Gouverneur, have requested an extension of three weeks' time on their contract because of the destruction by fire of completed fixtures in the workshop of a subcontractor. The facts having been found to be as represented by the company, the extension of time was allowed.

Permission has been accorded Dr. I. H. Alexander to give a post-graduate course in the Hospital, to physicians in his ear, nose and throat clinic. It is understood that Dr. Alexander received no compensation for this course.

Medical Appointments, Resignations, etc.

October 17, 1911—Dr. George McSweeney, appointed Interne for two years, beginning on January 1, 1912.

November 8, 1911—Dr. Benjamin Rosenthal, reappointed Assistant Surgeon to Out-Patients.

December 19, 1911—Dr. Joseph Girsdinsky and Dr. Edward Woods, appointed Internes for a service of two years, beginning on January 1, 1912, in place of Dr. George McSweeney and Dr. Daniel E. Pugh, resigned. Reappointments for the year 1912 were made as follows:

Physicians to Out-Patients and Assistant Visiting Physicians: Dr. John L. Sheils, Dr. Alfred C. Henderson.

Surgeon to Out-Patients and Assistant Visiting Surgeon: Dr. Philip M. Grausman.

Assistant Physicians to Out-Patients—Dr. Frank Friedman, Dr. Benjamin Berger, Dr. N. G. Seymour, Dr. Isaac P. Starr, Dr. William Narins, Dr. Charlotte Blum, Dr. Isador N. Kahn, Dr. Max Y. Assistant Surgeons to Out-Patients—Dr. Isaac Rosenstein, Dr. Aaron Weller, Dr. Sam Greenfield, Dr. Thomas H. Russell, Dr. Emil Finkelstein, Dr. Israel I. Bernstein, Dr. Joseph Bakst, Dr. Ary Flaks, Dr. Louis LeFrak, Dr. Samuel Moskowitz, Dr. Gustavus W. Faber, Dr. Robert Wiener, Dr. Samuel J. Scadron.

The tentative plans for the extension of Harlem Hospital were approved by the hospital's medical board, at its meeting in October. The preliminary plans and specifications were submitted by Mr. Freedlander, the architect, at this time, and later received the approval of the Municipal Art Commission. Dr. Goldwater, when he assumes his position as Hospital Expert in the Department on January 1, will give his first attention to these plans.

Plans and specifications for the new Nurses' residence, in connection with this hospital, have been received from Mr. Almirall and approved by the trustees, subject to certain amendments.

The Phillips Manufacturing Company, having the contract for the installation of a fire alarm system in the hospital, requested an extension of time on their contract, alleging that the contractors who are furnishing the gongs had been so rushed with work that they had not yet completed the equipment. The trustees were not satisfied with the reason given and refused the request accordingly.

The Department Estimate for 1912 has been amended by the insertion of an item of \$12,000 to meet the cost of rewiring Harlem and Fordham Hospitals.

The erection of a fence to enclose the grass plot in front of the hospital has been arranged for, the cost not to exceed \$1,000.

A request by the Medical Board that provision be made in the Budget for the payment of salaries to some of the physicians employed in the Out-Patient Department has been refused for the present, the Budget having been adopted for the coming year. The trustees feel also that it should be possible to find physicians who are willing to give gratuitous service in these positions.

Medical Appointments, Resignations, Etc.

October 17, 1911—Dr. Ralph H. Goldberg reappointed Assistant Physician to Out-Patients.

November 21, 1911—Dr. H. B. Pettingill, Assistant Surgeon to Out-patients, dismissed.

Dental Service.

October 17, 1911—Dr. Charles O. Kimball, Visiting Dentist, transferred to Bellevue Hospital; Dr. Earl Krows, promoted from Assistant Visiting Dentist to Visiting Dentist, in place of Dr. Kimball.

FORDHAM HOSPITAL.

The Bendetto & Eagan Construction Company, in charge of the work of enclosing and enlarging the balconies at Fordham, were granted an extension of time upon their contract for the reason that they were prevented by the hospital authorities beginning work on balconies of both wings of the hospital at the same time. Their contract was finally executed on the 23d of November, and the architect has been asked to recommend in regard to the delay in the completion of the work after October 15, when the contract expired.

The L. J. Wadsworth Construction Company asked an extension of three weeks on their contract for the construction of a workshop because of delays experienced by them in obtaining brick of the desired color, and because of bad weather. An extension of twenty-one calendar days was allowed them.

The authorities of the Fordham University Medical School have requested permission to conduct clinical teaching in the wards of Fordham Hospital. The request is now under advisement and will in all probability be granted when the necessary arrangements have been concluded with the Medical Board, in order that proper restrictions may be observed.

Provision has been made in the Budget for the rewiring of the hospital.

Medical Appointments, Resignations, Etc.

October 17, 1911—Dr. James H. Kenyon appointed Surgeon to Out-Patients and Assistant Visiting Surgeon.

November 8, 1911—Dr. Maximilian Stern appointed Assistant Surgeon to Out-Patients (skin and genito-urinary diseases).

PUBLIC SERVICE COMMISSION.

INVITATION TO CONTRACTORS.

PART OF LEXINGTON AVENUE ROUTE.
The City of New York, acting by the Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section No. 2-A of the Lexington Avenue Rapid Transit Railroad, including the underlying portion of the Canal Street Rapid Transit Railroad or Route No. 20.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2-A. Beginning at a point under Broadway about ninety (90) feet north of the centre line of Walker street and extending thence northerly under Broadway for about five hundred and thirty (530) feet to a point about fifty (50) feet north of the centre line of Howard street; including the underlying portion of the Canal Street Rapid Transit Railroad, or Route No. 20 extending under Canal street and Broadway and under and across the portion of the Lexington Avenue Route above described a distance of about one hundred and fifty-seven (157) feet.

The general plan of construction calls for a subsurface railroad having four tracks for such portion of the Lexington Avenue Route and two tracks for such underlying portion of the Canal Street Route; all of which are more particularly indicated on the contract drawings.

Bidders will not be required to do the station-finish work, nor to provide or lay tracks, ties or ballast.

The work of construction under the contract will include the construction of all necessary sewers and connections along the route of the railroad in Broadway and in Canal street; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning where necessary, of all buildings, surface railroads and other structures, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and the temporary paving and maintenance of roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders by payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Commission.

Partial payments to the Contractor will be made monthly as the work proceeds as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of forty (40) months.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 22nd day of March, 1912, at twelve (12) o'clock noon, at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Separate proposals must be submitted for the portion of the Lexington Avenue Route above described and for the underlying portion of the Canal Street Route above described. The Commission may accept the proposal for such portion of the Lexington Avenue Route while at the same time rejecting the accompanying proposal for such portion of the Canal Street Route. Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

Statements based upon estimates of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required on such portion of the Lexington Avenue Route and on such portion of the Canal Street Route are to be found in the schedules forming a part of the form of Contractor's Proposal. The quantities given in such schedules are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

If the contract as awarded embraces both such portion of the Lexington Avenue Route and such portion of the Canal Street Route, the Commission further reserves the right to omit such portion of the Canal Street Route upon the terms and conditions stated in the form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 5, Section No. 2-A," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in the City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of Fifteen Thousand Dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly approved.

At the time of the delivery of the contract, the Contractor will be required to furnish security to the City by giving a bond for thirty-five thousand dollars (\$35,000) if the contract as awarded embraces only such portion of the Lexington Avenue Route and fifty thousand dollars (\$50,000) if the contract as awarded embraces both such portion of the Lexington Avenue Route and such portion of the Canal Street Route. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen per centum (15%) of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal the sum of One Hundred Thousand Dollars (\$100,000) if the contract as awarded embraces only such portion of the Lexington Avenue Route and One Hundred and Fifty Thousand Dollars (\$150,000) if the contract as awarded embraces both such portion of the Lexington Avenue Route and such portion of the Canal Street Route. Thereafter there shall be so deducted and retained for such

purpose ten per centum (10%) of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other Contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
