(2.) Bidders will be required to complete the entire work to the satisfaction of the Department of Street Cleaning, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all work contracted for is to be fully completed on or before the 22d day of March, 1889, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price for the whole of the work to be done in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also, that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and

with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract.

Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Commissioner.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if deemed for the interest of the Corporation of the City of New York.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

DEPARTMENT OF PUBLIC WORKS.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
Room 6, No. 31 CHAMBERS ST.,
NEW YORK, February 23, 1889.

TO CONTRACTORS.

BIDS OR ESTIMATES, INCLOSED IN A sealed envelope, with the title of the work and the name of the bidder indorsed thereon, also the number of the work as in the advertisement, will be received at this office until 12 o'clock M., Thursday, March 7, 1889, at which place and hour they will be publicly opened by the head of the Department.

No. 1. FOR FURNISHING MATERIALS AND PERFORMING THE WORK FOR THE PLUMBING AND DRAINAGE OF THE BUILDING NO. 49 BEEKMAN STREET.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested in the estimate, or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

Blank forms of bid or estimate, the proper envelopes in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at Room 15, No. 31 Chambers street.

REGULATIONS ESTABLISHING A SCALE OF WATER RENTS AND RULES GOVERNING THE USE OF WATER, FOR THE CITY OF NEW YORK, BY ORDER OF JOHN NEWTON, COMMISSIONER OF PUBLIC WORKS.

UNDER CHAPTER 410, LAWS 1882, SECTIONS 350, 351, 352 and 353, and as amended by chapter 559, Laws 1887, as follows:

"The commissioner of public works shall, from time to time, establish scales of rents for the supplying of water, which rents shall be collected in the manner now provided by law, and which shall be apportioned to different classes of buildings in said city in reference to their dimensions, values, exposure to fires, ordinary uses for dwellings, stores, shops, private stables and other common purposes, number of families or occupants, or consumption of water, as near as may be practicable, and modify, alter, amend and increase such scale from time to time, and extend it to other descriptions of buildings and establishments. All extra charges for water shall be deemed to be included in the regular rents, and shall become a charge and lien upon the buildings upon which they are respectively imposed, and, if not paid, shall be returned as arrears to the clerk of arrears. Such regular rents, including the extra charges above mentioned, shall be collected from the owners or occupants of all such buildings respectively, which shall be situated upon lots adjoining any street or avenue in said city in which the distributing water-pipes are or may be laid, and from which they can be supplied with water. Said rents, including the extra charges aforesaid, shall become a charge and lien upon such houses and lots, respectively, as herein provided, but no charge whatever shall be made against any building in which a water-meter may have been, or shall be placed as provided in this act. In all such cases the charge for water shall be determined only by the quantity of water actually used as shown by said meters. * * * * *

"The said commissioner of public works is hereby authorized to prescribe a penalty not exceeding the sum of five dollars for each offense, for permitting water to be wasted, and for any violation of such reasonable rules as he may, from time to time, prescribe for the prevention of the waste of water; such fines shall be added to the regular water rents."

The regular annual rents to be collected by the Department of Public Works shall be as follows, to wit:

All closets connected in any manner with sewer shall be charged two dollars for each seat per annum, whether in a building or on any other portion of the premises. Urinals shall be charged two dollars per annum each.

For any pan closet, or any of the forms of valve, plunger, or other water-closet not before mentioned, supplied with water as above described, per year, ten dollars.

For any form of hopper or water-closet, supplied from the ordinary style of cistern filled with ball-cock, and overflow pipe that communicates with the pipe to the water-closet, so that overflow will run into the hopper or water-closet, when ball-cock is defective, or from which an unlimited amount of water can be drawn by holding up the handle, per year, each, five dollars.

For any form of hopper or water-closet, supplied from any of the forms of waste-preventing cisterns, that are approved by the Engineer of the Croton Aqueduct, which are so constructed that not more than three gallons of water can be drawn at each lift of the handle, or depression of the seat, if such cisterns are provided with an overflow pipe, such overflow pipe must not connect with the water-closet, but be carried like a safe-waste, as provided by the Board of Health regulations, per year, two dollars.

Cistern answering this description can be seen at this Department.

Under the provisions of section 352, Consolidated Act 1882, water-meters, of approved pattern, shall be hereafter placed on the pipes supplying all stores, workshops, hotels, manufactories, public edifices, at wharves, ferry-houses, stables, and in all places where water is furnished for business consumption, except private dwellings.

It is provided by section 352, Laws of 1882, that "all expenses of meters, their connections and setting, water rates, and other lawful charges for the supply of Croton water, shall be a lien upon the premises where such water is supplied, as now provided by law."

All manufacturing and other business requiring a large supply of water will be fitted with a meter.

The rate charged for steam-vessels taking water daily or belonging to daily lines, is one-half cent. per ton (Custom House measurement) for each time they take water. Steamers taking water (retail) one cent per ton (Custom House measurement).

Water supplied to sailing vessels and put on board, twenty-five cents per hundred gallons.

All matters not hereinbefore embraced are reserved for special contract by and with the Commissioner of Public Works.

HYDRANTS, HOSE, TROUGHS, FOUNTAINS, ETC., ETC.

No owner or tenant will be allowed to supply water to another person or persons.

All persons taking water from the City must keep their own service-pipes, street tap, and all fixtures connected therewith, in good repair, protected from frost, at their own risk and expense, and shall prevent all waste of water.

The use of hose to wash coaches, omnibuses, wagons, railway cars or other vehicles or horses, cannot be permitted.

No horse-troughs or horse-watering fixtures will be permitted in the street or on the sidewalk, except upon a license or permit taken out for that purpose. All licenses or permits must be annually renewed on the first of May. Such fixtures must be kept in good order and the water not allowed to drip or waste by overrunning the sidewalk or street, or to become dangerous in winter by freezing in and about such troughs or fixtures.

No hydrant will be permitted on the sidewalk or in the front area, and any hydrant standing in a yard or alley, attached to any dwelling or building, must not be left running when not in actual use, and if the drip or waste from such hydrant freezes and becomes dangerous in winter, the supply will be shut off in addition to the penalty of five dollars imposed.

Taps at wash-basins, water-closets, baths and urinals must not be left running, under the penalty of five dollars for each offense, which will be strictly enforced.

Fountains or jets in hotels, porter-houses, eating-saloons, confectioneries or other buildings are strictly prohibited.

The use of hose for washing sidewalks, stoops, areas, house-fronts, yards, court-yards, gardens, and about stables, is prohibited. Where premises are provided with wells, special permits will be issued for the use of hose, in order that the police or inspectors of this department may understand that the permission is not for the use of Croton water.

Opening fire-hydrants to fill hand sprinklers or other vessels will not be allowed.

The penalty for a violation of any of the preceding rules and regulations will be five dollars for each offense, and if not paid when imposed will become a lien on the premises in like manner as all other charges for unpaid water rates.

By order, JOHN NEWTON,
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, June 21, 1887.

PUBLIC NOTICE AS TO WATER RATES.

PUBLIC NOTICE IS HEREBY GIVEN THAT in compliance with the provisions of chapter 559, Laws of 1887, amending sections 350 and 321 of the New York City Consolidation Act of 1882, passed June 9, 1887, the following changes are made in charging and collecting water rents:

1st. All extra charges for water incurred from and after June 9, 1887, shall be treated, collected and returned in arrears in the same manner as regular rents have heretofore been treated.

2d. In every building where a water meter or meters are now, or shall hereafter be in use, the charge for water by meter measurement shall be the only charge against such building, or such part thereof as is supplied through meter.

3d. The returns of arrears of water rents, including the year 1887, shall be made as heretofore on the confirmation of the tax levy by the Board of Aldermen, and shall include all charges and penalties of every nature.

4th. A penalty of five dollars (\$5) is hereby established, and will be imposed in each and every case where the rules and regulations of the Department prohibiting the use of water through hose, or in any other wasteful manner, are violated, and such penalties will be entered on the books of the Bureau against the respective buildings or property, and, if not collected, be returned in arrears in like manner as other charges for water.

5th. Charges for so-called extra water rents of every nature, imposed or incurred prior to June 9, 1887, will be canceled of record on the books of the Department.

D. LOWBER SMITH,
Deputy and Acting Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, November 10, 1886.

NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore given to all householders that in all further applications for reduction of water rents, no allowance will be made on account of waste of water occurring through leaks, from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will be allowed for any portion of one year.

JOHN NEWTON,
Commissioner of Public Works.

GRANTS OF LANDS UNDER WATER.

THE OWNERS OF LANDS IN THE CITY OF New York, which were formerly under water, and which were granted by the City of New York, are notified that nearly all of the grants of such lands contain covenants, on the part of the grantees, and their successors and assigns, to maintain and keep in repair the adjacent streets. The condition of many of these streets is such as to make it necessary that they should be repaired and repaved, and that the obligation resting upon the present owners of adjacent lots to do this work should now be enforced. Many of such owners have requested that such covenants be commuted, and wholly released, upon the payment by them of a certain sum per lot.

The matter will shortly be presented to the Commissioners of the Sinking Fund for their consideration, and the adjustment of the basis of commutation, and application for releases should therefore be made at once.

They may be sent to the undersigned.

Dated New York City, August 7, 1888.

JOHN NEWTON,
Commissioner of Public Works.

SCHEDULE No. 5.

This is a list of claims received for collection, showing their disposition. To a certain extent it is intended to be a ledger account with the various departments transmitting claims, with the qualification that when a claim is put in suit it disappears from this schedule, to reappear in one or more of those concerned with litigated business. The collections for the year are shown in the cognate Schedule No. 8, post.

SCHEDULE No. 7.

This is a table showing the disposition of calendar cases. It shows what actions and special proceedings appeared on the day calendars of the courts during the year; which ones were tried or argued, with the results of such trials or arguments; and which were adjourned. Only a very small number of adjournments were had on the City's motion, and it may confidently be asserted that nine-tenths of the cases included in the list were fully prepared for trial by this office. This fact must be borne in mind when the table is examined as a record of work done, because the labor of preparation is almost always greater than the labor of trial or argument. If the Department were to be credited only with the cases actually disposed of the full measure of its yearly work would not be appreciated.

The essential details of this schedule, together with a statement of the results accomplished for the year 1888, are embraced in the following table:

Total number of different cases on the calendars at Trial Term	321
Total number of attendances at the terms of the different courts to attend to cases on the different calendars, embracing all the calendars	1,750
Total number of cases tried in court	191
Total number of separate appeals on the General Term calendars	156
Total number of such appeals argued or submitted	100
Total number of appeals on the Court of Appeals calendar	57

Number of references	50
Total number of attendances before Referees and Commissioners	279
Total number of motions disposed of after argument	695

In addition to these trials there have been, during the year 1888, the following trials held in places other than the civil courts of record:

Surrogate's Court	2

The total amount collected by the Department, including the three bureaux, is \$433,903.21.

SCHEDULE No. 9.

This is a table showing the condition and disposition of street and park opening proceedings. During the year 41,065 lineal feet of new streets were opened, an increase over 1887 of more than 12,000 lineal feet.

GENERAL REMARKS, MISCELLANEOUS WORK, ETC.

WATER-FRONT LITIGATION.

During the past year very important results have been achieved in the settlement of long standing and much litigated questions with respect to the basis upon which the City should make compensation to owners of bulkhead rights taken for the improvement of the water-front. In June the appeal of the plaintiff in the case of William M. Kingsland, surviving trustee, etc., against the Mayor, from the order of the General Term reversing the judgment entered on the report of the Referee and ordering a new trial was heard in the Court of Appeals. On October 26 a decision was made in that court affirming the order of the General Term and ordering judgment absolute for the City. The effect of this decision has been to sustain the position taken by myself and my predecessors in assessing these damages, viz.: That the valuations should be made upon a basis which should exclude the sheds or platforms built in front of the bulkhead, or the chance or privilege of obtaining the right from the City to build them. The importance of this decision can hardly be overestimated. It virtually disposes of the foundation of by far the greater part of the claims for damages made by owners of bulkhead rights that have been taken or interfered with, and furnishes a basis for fixing prices and awards to be paid for future purchases and condemnations. It is no exaggeration to say that upon a proper application of the principles laid down in this decision several millions of dollars will be saved to the City Treasury. A hearing is now in progress before a Referee, and approaching completion, which will determine the values of bulkhead rights, upon application of these principles in the old litigations of Langdon and others against the City. There is every prospect of a speedy, final determination of this question of damages, so that no further obstacle will be presented to the acquisition of all rights of this character that will need to be acquired.

In May, a settlement was made of the long standing litigation of the Mayor vs. Van Ness and others, upon the basis of a grant made to the defendants of the land in the block bounded by Twenty-seventh and Twenty-eighth streets, and Eleventh and Thirteenth avenues, and a relinquishment by them of all wharfage and riparian rights and claims, and the payment by them into the City Treasury of \$115,000. A settlement upon a substantially similar basis of the long standing litigation of Charles E. Appleby against the City has been agreed upon, and it is expected will be consummated by the end of the year, Mr. Appleby to receive a deed of the lots between high-water mark and Twelfth avenue, in front of his upland, between Fifty-sixth and Fifty-eighth streets, and to relinquish all riparian and wharfage rights to the City, and to pay \$180,000 into the City Treasury.

The somewhat complicated litigation between the City and the Cunard Steamship Company, respecting the shed maintained by the company outside of the bulkhead north of Pier, new 40, was decided against the City in the Court of Appeals in 1887, on a technicality, the result involving the bringing of a new action by the City against the steamship company. This action was brought and was tried in January, and a decision made in December sustaining the City's claim and directing the removal of the shed.

NEW AQUEDUCT—WESTCHESTER SECTION.

In August, 1888, I received a report from Henry T. Dykman, Esq., the attorney in charge of the matter of acquiring lands under chapter 490 of the Laws of 1883, for the New Aqueduct, in Westchester County, under original and supplemental proceedings, presenting a detailed statement of what has been accomplished during a period of upwards of four years, before Commissioners William A. Hunt, Silas D. Gifford and Henry Allen. In these proceedings it became necessary for the City to acquire title to nearly six thousand acres of land for the necessary shaft sites and all its rights to construct the Aqueduct in Westchester County. The value of the lands taken and the incidental damage done was stated by the sworn testimony of the respective claimants to amount to \$989,125.43. The total amount awarded, however, was only \$116,981.70, thus saving to the City in the cases mentioned in the report, \$872,143.73. This highly gratifying result was chiefly accomplished through the labor of Mr. Dykman, and I take great pleasure in saying that he is a gentleman fully qualified in every particular to perform the duties of his onerous position. He has performed an unusual amount of labor at all hours of the day and night and at all seasons of the year, and his skill, fidelity and industry, which have prevented fraud and large recoveries against the City, are justly entitled to the highest praise.

THE SODOM RESERVOIR.

Proceedings to acquire lands for the new reservoir known as Reservoir I., in Sodom, Putnam County, were begun in July, 1887, and are still pending. Over 1,400 acres of land are embraced in these proceedings. The Commissioners of Appraisal, Messrs. Robert Sewell, of New York, and Philip D. Penny and Charles Denton, of Putnam County, have now heard nearly all the testimony to be offered on behalf of the property-owners.

One of the most important claims before them, that of the New England Railroad Company, has been closed on behalf of both sides, and a report thereon was filed in October.

The company claimed upwards of \$160,000 as the cost of making such change in the route and roadbed of its road as was made necessary by the construction of the reservoir, and this claim was supported by the evidence of a number of well-known railroad engineers.

It was vigorously contested by Mr. H. T. Dykman, who represented the City as special counsel. The result of his active efforts was to effect a material saving to the City, as the award made by the Commissioners (including interest from the date of their appointment), was but \$75,817.

NEW PARKS BEYOND THE HARLEM RIVER.

Within the past year the proceeding known as the taking and appraisal of lands for new parks beyond the Harlem river has been brought to a most satisfactory conclusion before the Commissioners of Estimate, Messrs. Luther R. Marsh, George W. Quintard and J. Seaver Page. When the year opened the hearing of testimony in reference to the Bronx Park had not yet been finished, but by the 9th day of June the evidence, not only as to the lands in that park, but also covering the lands in all the remaining parks and parkways was fully taken. This required constant and energetic work on behalf of the City. The Commissioners filed their report on October 22, 1888, awarding to the property-owners for their lands and buildings \$9,352,101.69, as against estimates by the City's expert appraisers of about \$8,000,000, and claims by the property-owners of over \$30,000,000. The General Term of this Department, on November 26, 1888, on motion of the City, confirmed nearly all of the awards. On December 12, 1888, the order of the General Term was entered, and the lands taken became vested in the City in fee. Every point taken by the City was decided by the General Term in its favor, the property-owners being required to pay out of their awards all taxes and to accept the money without interest, and to execute quit-claim deeds to the City.

As to certain portions of the park lands, the owners of which have objected to the awards made, the further consideration of the report has been adjourned by the court to January 18, 1889.

The decision upon these objections and such other matters as were also reserved by the court, will finally dispose of this proceeding probably in the early part of the year.

From the beginning this office has had the valuable assistance of Mr. Franklin Bartlett, as special counsel; upon him the responsibility of conducting the proceeding on behalf of the City has principally devolved. He has been vigilant, painstaking, persistent and tenacious, and it is only just, that in considering the highly satisfactory result accomplished, the credit due to his conscientious and active labors should be recognized.

ASSESSMENT LITIGATION.

The business of this branch of the Law Department may be classed under the following heads:

(A.) Actions.

The actions may be subdivided into:

(1.) Suits in the form of bills in equity instituted after payment to vacate or reduce the assessment and to recover in whole or in part, the money that had been previously paid.

In 1886, the Court of Appeals decided that a suit of this character could be maintained in a proper case. On the strength of that decision several hundred suits were brought against the City. During the past year much litigation has been had on the various questions that have arisen in this class of cases.

The Court of Appeals has recently handed down decisions in three test cases, under which a large proportion of these suits must be determined in favor of the City. These decisions established the point that in any case the six year statute of limitations is a bar to an action of this nature.

These decisions not only saved the City an enormous sum of money, but also effectually stopped any attempt to litigate anew the legality of the contracts of the Tweed days. The Legislature has passed remedial statutes in reference to those contracts, under which property-owners have had ample opportunity of getting relief from excessive assessments.

I have reason to believe that many of the cases of this class are of a speculative character and can hardly be considered as bona fide litigation.

In order to discourage such litigation I have insisted that the plaintiffs be compelled to pay costs after decisions have been had in test cases under which they must be defeated. In many of these cases costs have been collected and I expect to dispose of many more suits in the same way on the authority of the above decisions of the Court of Appeals.

This result of the policy pursued, as well as of the City's success in the litigation, is shown by the fact that in the first six months of the year 45 suits of this class were begun, while in the second six months only 4 were begun.

(2.) Suits at law to recover money paid for assessments which have been adjudged illegal in whole or in part in proceedings instituted for that purpose.

In the majority of suits of this character the Department is able to advise repayment without the expense of more than costs and disbursements accruing before the service of the answer.

In some cases, however, a trial is necessary to determine with certainty to whom repayment should be made.

(3.) Miscellaneous cases.

The cases under the three above-mentioned subdivisions, which have appeared on the day calendar, have been disposed of as follows:

At Special or Trial Term the whole number of cases reached and disposed of is 76.

Decisions in favor of the City, 56.

In favor of the plaintiff, 20.

In 16 of the 20 cases the result cannot properly be considered a defeat of the City. It was conceded that some one was legally entitled to recover the money, but there was doubt to whom it belonged. It was considered safer to pay after a judicial determination of the matter, in order to avoid the danger of paying to the wrong person. These cases are all under the second subdivision of this class of cases.

In 2 of the 20 cases the decisions were on a demurrer in cases where, under present decisions, the City must succeed in final judgment.

To these are to be added many cases where no answer was interposed or where the suit was voluntarily discontinued.

At General Term:

Fourteen cases have been disposed of. In 7 cases the judgment of the court has been in favor of the City, on the merits, and in 7 cases the appeals of the plaintiffs have been dismissed.

In the Court of Appeals:

Three cases have been decided in favor of the City, and 1 case has been argued but not decided.

In 2 of these cases motions were made by the plaintiffs for reargument, but denied with costs.

There are besides 2 cases on the calendar of the court which, under the previous decisions, will doubtless be decided in favor of the City.

One case that was on the calendar has been settled without argument.

(B.) Special Proceedings by way of Petition.

It appears from the report of this Department that on December 31, 1887, there were pending 2,804 of these petitions to vacate or reduce assessments.

680 of these have been disposed of during the last year. During the year 283 new petitions have been filed.

A large proportion of these proceedings were dismissed on motion of the City for lack of prosecution on the part of the petitioners. In a small proportion vacations or reductions of the assessments were obtained. Many proceedings mentioned in the report for 1887 as pending, had been begun as early as 1873. These have been disposed of except a few isolated cases down to 1880, and almost without exception in favor of the City. This has been a matter of much labor, owing to the death of the petitioner or his attorney or to the difficulty of finding them.

In 6 test cases decisions favorable to the City were made at Special Term. The petitioners appealed and argument has been had before the General Term, but no decision of the latter court has yet been handed down. When the decision of these test cases by the Court of Appeals shall have been obtained, a large proportion of petitions of this class can be disposed of at once. One case involving a single petition only has been settled by allowing a reduction. Testimony has been nearly or quite completed in several other test cases which will soon be brought to the attention of the court.

At the General Term in addition to the argument of the 6 cases above referred to, 16 appeals of the petitioner have been dismissed and 1 case decided in favor of the petitioner.

In the Court of Appeals one of this class of special proceedings has been argued and a reduction of the assessment ordered.

(C.) Special Proceedings by way of Certiorari.

Several writs of certiorari have been granted by the Supreme Court to review the action of the Board of Assessors and the Board of Revision and Correction of Assessments.

Returns are being prepared in these cases and I expect to argue them before the next General Term.

(D.) Proceedings Before the Board of Revision and Correction of Assessments, under Special Acts of the Legislature.

In two instances which have been brought to my attention during the last year, acts have been passed by the Legislature under which the Board of Revision and Correction of Assessments have been called upon to practically exercise the powers of a court in examining into the propriety of giving awards and modifying assessments.

These proceedings are practically suits in which this Department has been called upon to defend the City's interests.

THE BROADWAY SURFACE RAILROAD CASE.

The case of the People against John O'Brien, as Receiver of the Broadway Surface Railroad Company and the City and others, involved questions of grave importance to the City. In 1886, the Legislature passed three acts relating to this railroad. The first, chapter 268, called the Annuling Act, dissolved the company and repealed its charter. The second, chapter 271, called the Franchise Disposal Act, provided that when a railroad company was dissolved by legislative act, the right to use and enjoy the consents of property-owners, the consents of the local authorities and the order of the General Term should be sold under the Cantor Act, at public auction, for the benefit of the municipality. The third, called the Winding Up Act, provided for the appointment of a receiver of a company so dissolved, and the proof of claims and distribution of assets.

The effect of all of these acts was decided by the Court of Appeals late in November. The Franchise Disposal Act was declared to be unconstitutional and void. So also was the Winding Up Act in most of its features, if not all. The Annuling Act was held to accomplish nothing but the extinction of the corporate life of this company, leaving all of its property and franchises, of every

kind, still in existence for the benefit of its stockholders and creditors, and subject to all the contract made by the company during its life, and to be administered by its trustees, subject to the rights of the mortgagees and lessees. The validity of the traffic agreements between this company and the Broadway and Seventh Avenue Railroad Company and the Twenty-third Street Railroad Company, respectively, was also in question, and, so far as the City or State are concerned, they were held valid. The effect of this decision was that the rights of the City in respect to this road were left unimpaired. Had these acts been sustained the City, probably, would have been deprived of the large and steadily increasing revenue it receives from this franchise.

As it is, however, the practical result of the decision has been to increase the value of the franchise, which must be regarded as highly beneficial to the City. It is believed that the time is not far distant when our revenue from the Broadway Surface Railroad will be upwards of \$100,000 annually.

NEW PUBLIC SCHOOL SITES.

Under the provisions of chapter 191 of the Laws of 1888, proceedings have been instituted and Commissioners of Estimate appointed in 18 different proceedings for the purpose of appraising the value of the lands and premises to be taken as sites for new public schools at the following places, viz.: Northwest corner of Delancey and Ludlow streets; on Broome and Ridge streets; northwest corner of Ninety-third street and Tenth avenue; northwest corner of Sixty-eighth street and Tenth avenue; southerly side of Thirty-eighth street, near Second avenue; northwest corner of Fifty-first street and First avenue; on the northerly side of Fifty-first street, near Lexington avenue; on the westerly side of Johnson avenue; on Courtland avenue and One Hundred and Fifty-seventh street; at southeast corner of Hester and Chrystie streets; on the westerly side of Norfolk street, near Hester street; at the northeast corner of Mulberry and Bayard streets; on Washington, Albany and Carlisle streets; on the northerly side of One Hundred and Thirtieth street, near Third avenue; in the block bounded by First and Second streets and First and Second avenues; on the northerly side of Seventy-fifth street, near Third avenue; on the northerly side of Fourth street, near First avenue, and on the northerly side of Forty-first street, between Seventh and Eighth avenues.

The Commissioners are about to commence taking testimony as to title and value and it is my hope and expectation that in a very short period the reports will be confirmed and title to all of the above sites vested in the City for school purposes.

It is of the greatest importance to the City that these proceedings should be pushed to a speedy termination, in view of the fact that many thousands of children have been turned away from our public schools during the past year, because of the want of sufficient and proper accommodations. I have therefore, in pursuance of the provisions of the act above referred to, made arrangements to employ special counsel whose duty it will be to prepare and present the evidence of the City as to value, etc., and who will have full charge and management of the matters on behalf of the City before the Commissioners, so that the 18 separate proceedings may be simultaneously progressed and closed with the least possible delay.

LICENSE FEE CASES.

In the so-called "license fee" litigations, brought against surface railroads to recover unpaid license fees upon their cars, 2 judgments in favor of the City against the Third Avenue Railroad Company, aggregating \$89,642.02, were affirmed on appeal by the General Term of the Supreme Court. The same court at General Term, on the City's appeal, reversed the judgments at Circuit in two actions where the City had been defeated in its claim for license fees against the Dry Dock, East Broadway and Battery Railroad Company, for cars operated on its Grand street route, the effect of the reversal being to sustain the City's claim. These cases are now pending on appeal in the Court of Appeals where they were carried by the railroad companies.

THE CITY'S INTERESTS AT ALBANY.

As in previous years, the exclusive attention of one of the principal Assistants has been devoted to watching the course of legislation affecting the interests of the City, and from the commencement of the legislative session last January until the final hearings before the Governor during the thirty days allowed him after the adjournment of the Legislature to pass upon all bills left in his hands, the Assistant detailed for this portion of the work spent almost all his time in Albany.

During the session of 1888 upwards of 300 bills directly affecting the public interests of the City were introduced, and of these 216 were found upon examination to be of sufficient importance to require records to be kept showing their progress and to be constantly watched. Of the number last mentioned more than one-half were introduced simultaneously in both Houses, thus doubling, as to them, the labor involved in the necessary examination and in making the essential record of its introductory number, its title and, in a summary form, its substance and purport, as well as a note of the committee to which it was referred. Each bill was then compared with existing laws, for the purpose of determining its precise effect, and the Assistant detailed for that duty appeared before the committee to which the bill was referred, opposing it, favoring it, or suggesting amendments to it, as the occasion might require. Of the bills of which such a record was kept at the last session of the Legislature, 40 were drafted by the Law Department at the request of the Mayor or some head of department, and 20 were amended during their progress, at the suggestion of the Law Department, either to eradicate existing objections or to conform the proposed bill to existing laws.

57 bills affecting the City were left in the hands of the Governor when the Legislature adjourned. All these were carefully examined and briefed, and in many of them oral arguments were made before the Governor, or briefs prepared and submitted to him showing the purport and effect of the bill, and stating the approval or disapproval of the municipal authorities.

191 bills directly affecting the City of New York became laws.

The results attending this careful and laborious scrutiny and watchfulness over proposed legislation have been found to be most satisfactory.

NUMBER OF OPINIONS GIVEN.

The preparation of opinions at the request of the heads of the various departments is a very important and rapidly increasing branch of the office work. The policy of the City and of the various municipal departments and officers with regard to the public interests, and the action to be taken in cases of doubt or dispute, is determined by these opinions, which cover an enormous field and range of subjects, and which sometimes require for their proper preparation prolonged study. It has frequently happened during the past year that as much time has been given to the preparation of an important opinion as to the preparation and trial in court of an important case.

Familiar instances are the opinions given to the Comptroller and the Aqueduct Commissioners as to the matter of allowances to the contractors for the construction of the New Croton Aqueduct for tunnel excavations outside of certain cross-section lines upon the plans, and as to what, if any, liability had been imposed upon the City to pay for tunnel excavation outside such lines.

During 1888 there were opinions given as follows:

There were received from the Police Department 384 reports of accidents, which were examined into and filed.

There were received from the Finance Department 411 requests for the examination of claimants, in 227 of which oral examinations under oath were conducted. The circumstance that only 227 claimants were examined, when 411 requests for examination were received, is principally explained by the fact that a large number of the claims filed were in assessment matters, where, all the facts being already within the knowledge of the City officers, examinations were not necessary.

CONTRACTS.

There were contracts examined or drafted and approved as to form, as follows :

Department of Public Works.....	236
Department of Public Parks.....	52
Department of Public Charities and Correction.....	92
Department of Docks.....	29

THE OFFICE STAFF.

The office force, which varied from time to time during the year, owing to various causes, consisted at its close, as shown by the December pay-roll, of :

- The Counsel to the Corporation.
- One First Assistant.
- Seven Assistants.
- Six Junior Assistants.
- Four Senior Law Clerks.
- Four Junior Law Clerks.
- One Chief Clerk.
- One Deputy Chief Clerk.
- One Register Clerk.
- One Librarian.
- Four Clerks.
- One Copyist.
- Five Type-writers.
- Four Stenographers.
- Two Examiners.
- Two Messengers.
- Two Messenger Boys.
- One Office Boy.

In all 48 individuals. At the end of the year 1887, 51 persons composed the office force.

RESUMÉ OF COURT WORK.

The amount of work done in court by the office is well exhibited in the following table, in which what has been accomplished during 1888 is contrasted with similar work performed in recent years :

	1885.	1886.	1887.	1888.
Total actions and special proceedings pending undisposed of December 31.....	5,646	4,960	4,600	4,192
Total separate cases appearing on trial calendars during the year.....	245	265	245	321
Total cases tried, Circuit, Trial and Special Terms.....	88	117	116	191
Total appeals argued.....	69	109	107	151
Total motions argued.....	280	313	331	695
Total days' attendances before referees and commissioners.....	185	241	186	279
Total lineal feet of streets opened.....	7,794	850	28,935	41,065

The excellent results shown in the foregoing report are, in my opinion, directly traceable to the high and business-like organization of the office. For many years past, the scheme of administration of the Law Department has been to conduct the entire law business of the City through a corps of Assistants who have been appointed for their professional skill and merit, and who, in the daily study, for many years, of the various questions affecting the diverse interests of the City, have become specialists in the departments of work to which they have been assigned. In the changes which have taken place in the head of the Department, such of these Assistants as have desired to remain have been uniformly retained, and from time to time promoted, as their length of faithful service and value to the City have commended them to reward.

In revising my salary list, I have endeavored to readjust it, so as to proportion their compensation, as far as the means at my command would admit of, to the value of the services rendered, believing that true economy is best realized in the larger results which flow from the recognition of meritorious service.

I have accordingly made considerable increase in the salaries of my Assistants. This I have been enabled to accomplish by exercising judicious economy in other respects, without exceeding the aggregate amount appropriated for salaries during the current year. I cannot exaggerate the importance of the continuance of the policy which has thus brought together and retained in the public employment so able a body of men, who have become, by their experience, specially educated in branches of the law particularly relating to the interests of the City, and of which little is known by the general practitioner.

Under no other circumstances could the law business of the City be done to greater advantage than under the present system and organization of the office, and the services of none of this corps of able and highly-trained men could be dispensed with without serious injury to the public interest.

I am, sir, very respectfully yours,

HENRY R. BEEKMAN, Counsel to the Corporation.

Hon. HENRY R. BEEKMAN, Counsel to the Corporation:

SIR—I have the honor to transmit herewith report of street opening proceedings for the year terminating December 31, 1888.

In preparing this report I have followed substantially the plan adopted in the annual report for the year 1887, adding, however, to the statistics of work performed, two schedules; one, a list of proceedings in which appeals have been determined, and the other, a list of proceedings finally disposed of.

The statistics of the work performed during the year are therefore embraced in eight schedules, as follows:

SCHEDULE 1.

This schedule is sub-divided into two heads, "A" and "B."

"A" is a complete list of proceedings considered during the year terminating December 31, 1888, showing the length of the street or avenue or portion of the street or avenue sought to be opened, and where reports have been confirmed during the year or preliminary reports completed, the amount of awards, total assessment, number of parcels assessed and number of city lots assessed.

"B" is a statement showing the condition of each proceeding considered under "A," on December 31, 1888.

This schedule shows that there have been under consideration during the year ninety-two proceedings.

SCHEDULE 2.

This is a list of proceedings confirmed during the year, with the dates of the entries of orders of confirmation.

The number of proceedings confirmed during the year, as shown by this schedule, is fourteen.

SCHEDULE 3.

This is a list of proceedings discontinued during the year, with the dates of the entries of orders of discontinuance.

It appears from this schedule that there has been one proceeding discontinued during the year.

SCHEDULE 4.

This is a list of proceedings in which appeals have been determined during the year. The list shows the number and character of such appeals and the disposition of the same.

As shown by this schedule, four appeals have been determined, in three proceedings.

SCHEDULE 5.

This is a list of proceedings finally disposed of during the year.

The number of such proceedings this schedule shows to be seventeen.

SCHEDULE 6.

This is a list of proceedings instituted during the year, with the dates of the appointments of Commissioners of Estimate and Assessment.

This schedule shows that there have been instituted during the year twenty-six proceedings.

SCHEDULE 7.

This is a list of proceedings in which appeals have been taken to the General Term or to the Court of Appeals, either on the part of the City or on the part of property-owners.

There are two such proceedings, as shown by this schedule.

SCHEDULE 8.

This is a list of proceedings pending on the 31st day of December, 1888.

The number of proceedings pending is shown by this schedule to be seventy-five.

These schedules are followed by a summary of the work performed during the year.

It will be observed that the aggregate of the awards, as shown in this summary of work performed, is somewhat in excess of the aggregate of the assessments. The explanation of this is that, in the matter of opening Bungay street, from East One Hundred and Forty-ninth street to Long Island Sound, the sum of \$11,259.09 of the awards and costs of the proceeding was not assessed upon the property benefited by the improvement in consequence of the limited area which could be legally assessed for benefit by the Commissioners and the provisions of section 981 of the Consolidation Act which prohibits Commissioners from assessing for benefit any property more than one-half the value of such property as valued by the Tax Commissioners.

There have been 41,065 lineal feet of streets opened during the year, an increase of 12,129.20 over the number opened during 1887.

The communications written during the year aggregate seventeen hundred and fifty-four. This is a considerable increase over the number written last year.

Respectfully, yours,

CARROLL BERRY, Clerk of Street Openings.

The report will be presented to the court for confirmation as soon as the decision of the General Term in a matter involving the right of the City to take possession of One Hundred and Eleventh street, between Fifth and Sixth avenues, has been rendered. This question of the right of the City to take possession has a direct bearing upon the claim of the Metropolitan Exhibition Company for damages as lessees of a tract of land through which One Hundred and Eleventh street runs and a portion of which land is to be taken in this proceeding.

The Commissioners held a great number of meetings in executive session to pass upon the questions raised in the objections of property-owners. On November 24 a decision was handed down by Mr. Justice Lawrence denying the motion in all respects, and an order in conformity with such decision was duly entered on December 4, and on December 6 a copy thereof with notice of entry served on John C. Shaw, attorney of record for John Shreyer. The report of the Commissioners will be presented to the court for confirmation early in the coming year.

As a question of dedication was raised in this proceeding it was deemed advisable to await the decision of the General Term in the matter of opening One Hundred and Sixtieth street, which also involved a question of dedication, before presenting the report for confirmation. It was also found necessary to enable the Commissioners to pass intelligently upon this question of dedication, to make an additional and more thorough examination of the records of the Clerks' offices of both Westchester and New York Counties. The Commissioners now, with the decision of the General Term in One Hundred and Sixtieth street and such other information as has been presented to them as a result of the examination of the public records, will be prepared to pass upon the question of dedication and to sign their final report early in the coming year. An assessment, which will probably be satisfactory to all parties, is now being made up and will shortly be completed. Upon the completion of this assessment the Commissioners will request from the Department of Public Works the maps necessary to attach to their abstract of estimate and assessment. Such abstract will be ready for filing with the Commissioner of Public Works for the inspection of all interested parties very shortly after the receipt of these maps. The Commissioners have been greatly delayed in advancing this proceeding by reason of the time occupied in the preparation of the various maps required by the Commissioners. The report of the Commissioners was presented to the court (Patterson, J.) on October 9, and motion for the confirmation of the same argued. Confirmation opposed by A. B. Haskin, an owner, upon the ground that the Commissioners were in error in not making a substantial award for land and buildings for which they awarded a nominal sum only; by James P. Campell, attorney for St. John's College, upon the ground that the college was entitled to an award for a portion of a parcel designated by the Commissioners as forming a part of the Kingsbridge road; by John O'Byrne, attorney for Bridget Curry, upon the ground that the awards made to the said Curry for land taken were insufficient; Granville P. APPENDIX.

Report of the Attorney for the Collection of Arrears of Personal Taxes for the Year 1888.

OFFICE OF ATTORNEY FOR COLLECTION OF ARREARS OF PERSONAL TAXES,
No. 53 CHAMBERS STREET,
NEW YORK, December 31, 1888.

Hon. HENRY R. BECKMAN, Counsel to the Corporation:

DEAR SIR—I enclose herewith a report of the transactions of this Bureau during the year past, including a detailed statement of all collections made, and a full list of delinquent proceedings to December 31, 1888.

The collections for the year, as per statement, are entirely from the lists of delinquents for the years of 1884, 1885 and 1886, none having as yet been received from last year's lists, which did not reach this office until the present month, which accounts for the large number of pending proceedings, but the amount collectable from 1887 lists, that will come in during the coming year, will probably bring up the average of yearly collections.

I have collected and paid over to the Receiver of Taxes, during the current year, up to the 11th day of December, arrearage aggregating, as per annexed statement, the sum of sixty hundred and three dollars and fifty-two cents (\$6003.52), and total cost, as per statement paid to the Comptroller up to December 11, three hundred dollars (\$300), making in all the sum of sixty-three hundred and three dollars and fifty-two cents (\$6303.52).

I have on hand, of arrearage and costs, collected since that date (December 11), and of partial payments on account of arrearages, in all, the sum of nineteen hundred and twenty-eight dollars and sixty-two cents (\$1928.62), which make the total collection of the Bureau to this date, eighty-two hundred and thirty-two dollars and fourteen cents (\$8232.14).

Respectfully,
C. S. BEARDSLEY.

BUREAU OF THE PUBLIC ADMINISTRATOR,
No. 49 BEEKMAN STREET,
NEW YORK, December 31, 1888.

Hon. HENRY R. BEEKMAN, Counsel to the Corporation:

SIR—In compliance with the regulation of your Department, requiring the Public Administrator to render to you, annually, a full and complete report of all the proceedings of this Bureau, I beg to submit the following report, for the year ending December 31, 1888:

The number of estates reported which were investigated by the Bureau was two hundred and sixty-six.

Letters of administration have been granted and received on one hundred and forty-eight estates.

Letters of administration, with the will annexed, have been granted and received on five estates.

The accounts of proceedings of the Public Administrator have been judicially settled and allowed by the Surrogate in one hundred and two estates, and the estates distributed pursuant to the decree of the Surrogate.

Under the law of 1887, providing for the closing of estates under \$250, without judicial settlement, one hundred and twenty-nine estates have been closed during the year.

In four hundred and nineteen estates, averaging very small amounts, the money and assets were received from the Coroner's Office and Commissioners of Charities and Correction, and paid directly into the City Treasury.

Objections were filed to one of the accounts above mentioned, but were subsequently withdrawn.

No references or contests are now pending involving any question as to the correctness of said accounts.

Two references are now pending before Referees relating to the question of kinship, but involving no other question.

Fifteen actions were commenced in courts of record against the Public Administrator and five by him.

Three special proceedings are now pending to determine the validity of rejected claims.

On application by creditors for letters of administration, letters were granted to the Public Administrator in fifty-five cases.

In thirty-seven cases citations were served on the Public Administrator to attend the probate of a last will and testament, and his appearance noted.

About thirteen hundred notices were served on hotel and boarding-house keepers and others, pursuant to law.

All reports and returns to the Comptroller, Common Council, and to the Supervisor of the CITY RECORD, have been rendered.

The amount paid into the City Treasury for commissions and intestate estates was twenty-five thousand nine hundred and thirty-nine dollars and thirty-nine cents.

The amount collected and received was two hundred and twenty-two thousand nine hundred and twenty dollars and nine cents, exclusive of stocks, bonds and other kinds of personal property.

The amount disbursed to creditors, next of kin, and for expenses of administration upon estates judicially settled was one hundred and five thousand two hundred and fifty-six dollars and sixty-one cents.

The balance on hand was three hundred and one thousand five hundred and one dollars and four cents.
