The report of the President was adopted.

The Secretary was authorized to make a contract with Miss C. S. Sutcliffe for the tabulation of the Commission's roster and its report for the year 1905, together with the tables and statements of the work performed in the various bureaus, to be forwarded to the State Commission in compliance with the law.

The Secretary was instructed to communicate with the heads of the City Departments, and call their attention to the following provisions of Clause 6 of Civil Service Rule XI:

Every person selected for appointment shall be required to fill out and sign, in the presence of the appointing officer or his representative, an identification sheet, repeating the essential facts stated by him at the time of examination, which shall be forwarded to the Commission with the notice of appointment, and filed with the appointee's application papers, and to request that each head of a Department designate one person as his representative, before whom every appointee shall be required to fill out and sign, in his own handwriting, the official declaration sheet before being assigned to duty.

The following matters which had been laid over from previous meetings of the Commission were then considered:

(a) Recommendation of the Labor Clerk that the Commission rescind its action of December 13, 1905, in granting the request of Thomas F. S. Halpin that his name be restored to the list for Plumber, for the reason that the candidate had not signed his appeal himself, but had same signed by some person unknown to the Commission.

On motion, it was

Resolved, That the action of the Civil Service Commission, taken December 13, 1905, in restoring the name of Thomas F. S. Halpin to the eligible list for Plumber, be and the same is hereby rescinded.

(b) Request of Patrick J. Flaherty that he be restored to eligibility for appointment from the list for Deputy Superintendent of Hospitals. The candidate's name appeared on the list, but on May 15, 1903, for the reason that he had just been dismissed from the position of Storekeeper in the Department of Public Charities, he was disqualified.

After consideration of the matter, the request was denied. The Secretary was instructed to communicate with Mr. Flaherty, and inform him that he would not be barred, however, from entering any examination conducted by the Commission in future.

(c) Report of the Chief Examiner, submitting a statement of the experience possessed by the persons whose names appear on the existing eligible list for Assistant Engineer.

The communication was ordered continued on the calendar.

(d) Protest of James Coyle against the action of the Commissioner of Parks, Boroughs of Manhattan and Richmond, in transferring him from the position of Head Gardener at a salary of \$1,800 per annum to that of Gardener at \$1,200 per annum, and the action of the Civil Service Commission in approving such transfer, on the ground that he was a veteran volunteer fireman.

The Secretary was instructed to communicate with Mr. Coyle and state that the action of the Commission in his case was perfectly regular, and that whether he was transferred to the position formerly held by him or not depended upon the head of his Department; that if at any time such transfer were requested, it would be allowed by the Commission, under the provisions of paragraph 3 of Civil Service Rule XIV.

(e) Request of the Commissioner of Public Charities, under date of December 28, that the Commission conduct an examination for promotion from Nurse to Supervising Nurse, in order that a vacancy in that position may be filled. It appeared that there were five names on the list for promotion to Supervising Nurse in the Department of Public Charities, which list had been certified and returned with the statement that all five persons had declined appointment.

The matter was again laid over.

(f) Communication from the Chief Examiner, dated December 18, submitting the experience sheets of several candidates in the examination for Prison Keeper, in which experience sheets the candidates had in one way or another revealed their identity, and requesting instructions from the Commission as to whether the said sheets should be rated.

After consideration of the matter the Chief Examiner was instructed not to rate the said papers, in view of the provisions of Civil Service Rule VII, paragraph 10,

and also of the explicit instructions given the candidates at the outset of the examination regarding the necessity of not revealing their identity in any way.

(g) Application and examination papers of William J. Stone, candidate for Fireman, which had been under investigation by Examiner Byrne, owing to certain irregularities that were detected in same.

The matter was ordered continued on the calendar.

Communications were presented from the Chief Examiner, dated December 29, recommending that the appeals of the following named candidates be denied, there having been no errors or mistakes of marking pointed out:

John E. Nelson, promotion to Sergeant.

William E. Warden, Gas Inspector.

Patrick J. O'Reardon, promotion to Sergeant.

The recommendation of the Chief Examiner was adopted.

A communication was presented from the Chief Examiner, dated January 2, with reference to the appeal of Andrew J. Casassa, candidate for Gas Inspector. It appeared that the candidate after completing one of his examination papers, discovered that the other side of the paper had been written on and marked with lead pencil by some person other than himself; that upon appealing to the Monitor in charge of his section he was informed that it would be necessary to rewrite said page, and that owing to the time lost in doing so he had been unable to complete his examination in the given time. The Chief Examiner stated in his report that so far as the candidate's answers went it had been reported to him that they were of a high order of merit, but that it did not seem to him that the copying of one sheet of answers accounted for his having failed to answer as many as three questions; that one of the Examiners had reported to him that she did not think the time taken in copying the sheet would have more than sufficed to answer one additional question, and apparently if he were given credit for that one question on the same basis as was warranted by the marking which he received on the questions that he did answer, his name would, in all probability, be placed on the eligible list. After careful consideration of the matter, it appearing that the time lost by the candidate was the fault of one of the employees of the Commission, the Secretary was instructed to request the Chief Examiner to give the candidate as fair a rating as possible on the unanswered questions; to state that the Commission would leave the method of rating the paper to him, and for him to use his best judgment in the matter.

A communication was presented from the Chief Examiner, dated January 2, with reference to the appeal of Herman H. Wolf, candidate for Roundsman, for a rerating of his seniority in said examination. It appearing from the report of the Chief Examiner that the appeal was without merit, the same was denied.

A communication was presented from the Chief Examiner, dated January 2, with reference to the appeal of John McAuliffe, candidate for Roundsman, for a rerating of his seniority in the said examination. It appearing from the report of the Chief Examiner that the appeal was without merit, the same was denied.

A communication was presented from the Chief Examiner, dated January 2, with reference to the appeal of E. S. Conklin, candidate for Gas Inspector, that the papers submitted by him in that examination be rated. It appeared from Mr. Ireland's report that the candidate's papers had not been rated for the reason that he addressed a communication to the Chief Examiner, which was deemed a violation of the rule prohibiting candidates in examinations from revealing their identity; that he had not made known the contents of said communication to the examiners who rated the papers in that examination, however, and that they were in no way aware of the candidate's identity. The Chief Examiner stated further that the candidate's papers were of a high order of merit, and that inasmuch as he seemed to have acted from entirely proper motives and under a misapprehension of the rules, he would recommend that the papers be rated. The recommendation of the Chief Examiner was adopted.

A communication was presented from the Chief Examiner, dated January 2, with reference to the cases of Detective Sergeants Arthur E. Gloster, Herbert Graham, Andrew Delaney and Daniel J. Farrell, candidates for promotion to Captain, who were unable to be present for the mental examination on the day set by the Commission. It appeared from a communication transmitted by the Chief Clerk of the Police Department that Detective Sergeants Gloster and Graham were unable to appear, for the reason that they were detailed on special duty in Chicago, Ill., and that Detective Sergeants Delaney and Farrell were confined to their homes by sickness. The Secretary was instructed to communicate with the Chief Clerk of the Police Department and state that, under the provision of Civil Service Rule VII, the Commission was without power to grant a special examination or re-examination unless it could be shown that the candidates' failure to appear for the general examination was due to a manifest error or mistake for which the Commission was responsible; or that such failure was due to compulsory attendance before any court or other public authority having the power to compel such attendance; that, under the rules, Messrs. Delaney and Farrell could not be granted a special examination for promotion to Captain, as their failure to appear for the regular examination was not covered by the foregoing rule, and to request, with reference to the cases of Messrs. Gloster and Graham, that the Commission be furnished with the date on which said persons were sent to Chicago, and by whose authority.

A communication was presented from the Chief Examiner, dated January 2, with reference to the appeal of John A. McGrath, candidate for promotion to Sergeant, stating that the same had no merit. It appeared that the candidate appealed for credit for a medal and honorable mention awarded him, on the ground that they were awarded after he was promoted to Roundsman, but that the records show that the said medal and honorable mention were conferred on the candidate on the day before he was promoted to that rank and while he was still a patrolman. The appeal was denied.

A communication was presented from the Chief Examiner, dated January 2, with reference to the appeals of John H. Thompson and John Carroll, candidates for promotion to Captain of Police, stating that, in his opinion, the candidates' appeals were not entitled to any consideration. It appeared that the candidates left the examination room on the morning of the examination before handing in their second paper, and that when they found that the same should have been completed before leaving they immediately returned to the examination room and requested to be allowed to complete the same, which was denied. The Chief Examiner stated in his report that explicit instructions were given to the candidates at the outset of the examination, from three different parts of the room, so that all candidates could hear, that there were to be four papers in the examination, and that they were to be allowed a recess only after handing in their answers to the second paper. The order in which the papers were to be presented to them was stated at the same time, and paragraph 4 of the instructions furnished to all candidates, to which their attention was called, stated as follows:

"Candidates must observe that each question sheet is received in proper order and be sure that none of the question sheets have been omitted. They are held responsible for all errors and omissions."

After consideration of the matter the Secretary was instructed to communicate with the candidates and state that, in the opinion of the Commission, the instructions given them were very plain, and if they did not follow the same their appeals could not be considered at this time.

A communication was presented from the Chief Examiner, dated January 3, with reference to the appeal of candidate No. 206 in the recent examination for promotion to Captain of Police, that an extra sheet handed in by him after one set of examination papers had been completed and presented to the Chief Examiner, be rated. The Chief Examiner stated in his report that as the extra sheet handed in by the candidate was not presented to him until the candidate's fourth set of papers had been completed, he had given instructions that same was not to be rated. The Secretary was instructed to communicate with the candidate and inform him, in view of the Chief Examiner's report, his appeal that the said paper be rated as part of his examination could not be granted.

A communication was presented from Dr. Houghton, Medical Inspector in the employ of the Commission, dated January 3, requesting that his salary be fixed at \$2,100 per annum, the maximum of the grade for which he qualified by examination, and stating that on July 28, 1904, the Civil Service Commission increased his salary from \$1,500 to \$1,800, but that the same never went into effect, for the reason that the latter grade had not been fixed by the Board of Estimate and Apportionment and the Board of Aldermen. The matter was laid over.

Communications were presented from the Secretary of the Board of City Magistrates of the Second Division, dated January 3 and January 5, requesting that the following named persons be granted a non-competitive examination to qualify them for provisional appointment as Probation Officers in that Court, under the provisions of

Civil Service Rule XII., paragraph 3, pending the establishment of the eligible list for that position:

Maria E. Hatfield.
Letitia Taylor.
Annie V. Roon.
Emilie J. Meury.
Alice Leahy.
Mary Hickey.
Margaret S. Beaver.

Mary E. Gibbons.
Mary E. Peacock.
Ida Tietgen.
Myra F. Hughes.
Julia O'Brien.
Emma L. Feeney.

—and that the Civil Service Commission certify the pay-rolls of the aforesaid persons for services rendered as Probation Officers in the City Magistrates' Court, Second Division, from November 30, 1904, to the present time. The Secretary was instructed to communicate with the Board of City Magistrates of the Second Division and state that, under the law, the Commission was without power to certify the pay-rolls of the persons now serving in that court as Probation Officers, from November 30, 1904, as requested, as such persons were not appointed in conformity with the Civil Service law, but to state further that the Commission would conduct non-competitive examination at the earliest possible date to qualify the persons nominated for employment pending the establishment of the new eligible list, according to the provisions of Civil Service Rule XII., paragraph 3; that upon said persons qualifying they would be certified as eligible for temporary appointment, and that their pay-rolls would be certified by the Civil Service Commission from the date of such appointment.

A communication was presented from the Secretary of the Board of Education, dated September 28, requesting approval of the restoration to duty of Mary Vail, Janitress, whose name had been off the pay-roll since June, 1905, pending the hearing of charges. In view of the fact that the Board of Education had reconsidered its action and desired to restore her to duty, the reassignment was approved.

A communication was presented from President Cromwell, dated December 26, requesting authority to appoint Harry V. Berry and George J. Corbett, provisionally, as Topographical Draughtsmen, pending the establishment of the new list for that position. The request was granted, and the Secretary was instructed to request the Chief Examiner to conduct a non-competitive examination of the candidates, according to Civil Service Rule XII., paragraph 3.

A communication was presented from the Fire Commissioner, dated December 29, stating that he had rescinded his action of December 21, 1905, in accepting the resignation of Harry G. Hose, a Probationary Fireman who was assigned to Engine Company 1, and whose resignation was caused by injuries received in the performance of his duties. The action of the Fire Commissioner was approved.

A communication was presented from the Fire Commissioner, dated December 28, requesting approval of the leave of absence, without pay, granted Albert P. Hess, Stenographer and Typewriter, from October 1, 1905, to January 1, 1906. It appearing from the certificate furnished that the said leave of absence was granted because of illness, the same was approved.

A communication was presented from the Commissioner of Bridges, dated December 29, requesting approval of the reassignment to duty of John J. McDonough, Bridge Keeper, who had been absent from November 1, 1905. It appearing from the certificate furnished that the said absence was due to illness, the reassignment was approved.

The request of the President of the Borough of Queens, under date of December 30, for approval of a leave of absence without pay, for one year from December 30, 1905, granted Preston B. Seaman, Topographical Draughtsman, was denied.

A communication was presented from the Secretary of the Board of City Magistrates, Second Division, dated December 30, requesting that, in the event of the Commission's being unable to certify a list of Interpreters having a knowledge of Yiddish, Slavish, Polish, Russian and German, an eligible list of that character be prepared, and that in the meantime a provisional appointment in that Court be authorized. The request was denied and the Secretary was instructed to certify the existing eligible list for Interpreter, with the request that the Board of City Magistrates endeavor to make a selection from same.

A communication was presented from the Clerk of the Court of General Sessions, dated January 3, requesting that an examination be held for promotion to the position of Assistant Court Clerk in that Court, such examination to be limited to the Record Clerks serving in same. The request was granted and the Chief Examiner was requested to proceed with the examination at the earliest possible date.

A communication was presented from the Commissioner of Street Cleaning, dated November 27, requesting that the classification of positions in the labor class as fixed by the Civil Service rules be amended by including therein the position of Stableman, that position having been established by the Board of Estimate and Apportionment and the Board of Aldermen, and the salary fixed at the rate of \$720 per annum. The Secretary was instructed to advertise a public hearing on the proposed amendment, in accordance with Civil Service Rule III., to be held at the office of the Commission on Wednesday, January 10, 1906, at 10 o'clock.

A communication was presented from Mr. John J. Halley, No. 446 Warren street, Brooklyn, dated December 28, requesting that the Commission reconsider its action in disqualifying him for appointment from the eligible list of Measurer. The Secretary stated that the records show that the candidate passed the examination for that position and obtained a place on the list; but having been dismissed from the position of Inspector of Tenements on August 31, 1905, he was disqualified for appointment to the new position. The Secretary was instructed to communicate with the candidate and state that his application could not be granted, and that the only remedy that the Commission could see in his case would be for the Tenement House Commissioner to reinstate him in the position from which he was dismissed, after which the disqualification could be removed from his name.

A communication was presented from Miss Fanny Dembe, No. 1225 Madison avenue, dated December 26, requesting that her name be restored to the eligible list for Medical Inspector, on the ground that she notified the Commission of a temporary change in her address, but notwithstanding that fact, notice of certification was sent to her old address and did not reach her. The request was granted.

The request of Walter L. Mohn, No. 692 Chauncey street, Brooklyn, dated December 27, that his name be restored to the list for promotion to Leveler for the Borough of Richmond, was considered. The Secretary stated that the candidate's name had been dropped from the list on the statement of President Cromwell that he had declined said promotion on the score of insufficiency of the compensation offered. He was requested to produce an affidavit.

A communication was presented from Mr. U. S. Lutz, a Transitman and Computer in the Department of Finance, under date of December 28, requesting that the Commission permit him to withdraw his declaration of appointment to the position of Assistant Engineer in the Borough of The Bronx, at \$1,500 per annum, on the score of "insufficient compensation," and that the records be changed to show that he declined on account of location; for the reason that he would be glad to accept an appointment at \$1,500 in the Department where he is now serving, and he was not aware of the fact that under the rules if he declined appointment at that salary he would not again be certified for same. The request was granted.

The request of Edward F. Small, No. 136 Boulevard, Rockaway Beach, for a special mental examination for the position of Fireman, was denied for lack of power.

An affidavit was presented from Edgar B. Benjamin, No. 318 West Fifty-seventh street, City, dated December 29, setting forth that he was out of town when certified to the Department of Water Supply, Gas and Electricity and the Department of Street Cleaning for appointment as Automobile Engineer, and that he therefore could not report in person, but that he had written to these Departments and had heard nothing from them, and requesting that his name be restored to the list. The request was granted.

The appeal of Michael J. O'Loughlin, Roundsman, Fifty-ninth Police Precinct, dated January 2, that he be given credit in his examination for promotion to Sergeant for an honorable mention and medal awarded him on December 28, 1905, was denied, for the reason that the same were not awarded him before the date of the said examination (September 12, 1905).

A communication was presented from Albert L. S. Ward, No. 2453 Washington avenue, dated December 31, requesting that his name be restored to the list for Office Boy. It appearing that the candidate declined appointment in the Tenement House Department on November 23, 1905, for the reason that he wished to complete his term at Fordham College, the Secretary was instructed to communicate with him and request him to furnish an affidavit setting forth the facts in his case.

An affidavit was presented from Thomas McManus, No. 1665 Park avenue, dated December 22, to the effect that he made an error in his application for Patrolman in

setting forth the date of his birth, and requesting that he be permitted to correct the same to correspond with the birth certificate furnished by him. The request was granted.

The appeal of Patrick Farragher for a special examination for the position of Sweeper in the Department of Street Cleaning was denied.

The President stated that he had entered into a contract with the New York Telephone Company to furnish the Commission's telephone service for the year 1906, on the following terms: Charges for the maintenance of telephone switchboard, four trunk lines and ten extensions, 14,000 local messages at \$678, payable quarterly, in advance; and for additional local messages, four cents each. The action of the President was approved.

On motion, it was

Resolved, That the Chief Examiner be and he hereby is instructed to procure the services of two experts to conduct the coming examination for Architectural Draughtsman, with compensation at the rate of thirty-five dollars a day while employed.

The Commission then adjourned to meet Monday afternoon, January 8, 1906, at four o'clock.

The Secretary called attention to the existence of an eligible list for the position of Process Server, and to the fact that a request had been received from the Tenement House Commissioner for the certification of names from which to make an appointment to that position; also that that title had in some manner been dropped from the classification in December, 1903. 5. Upon the payment into the City Treasury by the persons whose bids are accepted of the amounts due for the stock awarded to them respectively, certificates thereof shall be issued to them in such denominations provided for by the Charter as they may desire.

6. It is required by the Charter of the City that "every bidder may be required to accept a portion of the whole amount of bonds or stock bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected, provided, however, that any bidder offering to purchase all or any part of the bonds offered for sale at a price at par or higher may also offer to purchase all or none of said bonds at a different price, and if the Comptroller deems it to be in the interests of the City so to do, he may award the bonds to the bidder offering the highest price for all or none of said bonds; provided, however, that if the Comptroller deems it to be in the interests of the City so to do, he may reject all bids."

Under this provision, the condition that the bidder will accept only the whole amount of stock bid for by him, and not any part thereof, cannot be inserted in any bids, except those for "all or none" offered by bidders who have also bid for "all or any part" of the stock offered for sale.

7. The proposals, together with the security deposits, should be enclosed in a sealed envelope, indorsed "Proposals for Bonds of The City of New York," and said envelope inclosed in another sealed envelope, addressed to the Comptroller of The City of New York.

For particulars as to the quantity and quality of the supplies or the nature and the extent of the work required or of the materials to be furnished, bidders are referred to the specifications and the blank proposals and lists of articles, materials, supplies and apparatus to be furnished and delivered to the places designated. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates, and are cautioned against referring to any samples or specifications other than those furnished by the Board of Trustees. Nothing in the specifications shall be interpreted or taken to violate the provisions of section 1554 of the Greater New York Charter, which provides that "except for repairs no patented pavement shall be laid and no patented article shall be advertised for, contracted for or purchased, except under such circumstances that there can be a fair and reasonable opportunity for competition, the conditions to secure which shall be prescribed by the Board of Estimate and Apportionment."

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, per pound, ton, dozen, gallon, yard, or other unit of measure, by which the bids will be tested. The extensions must be made and footed up, as the bids will be read from the total for each item and awards made to the lowest bidder on each item.

All prices to include proper containers delivered in perfect condition at the College of The City of New York. Duty-free affidavits, where necessary, will be given by the proper official of said college when the proper forms are provided, the expense of the same being paid by the contractor.

CORPORATION SALE OF A STEEL FREIGHT SHED AND APPURTENANCES THERETO.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction on

FRIDAY, FEBRUARY 23, 1906,

at 11 a. m., on the premises, the steel freight shed now located at Pier, old 11, at the foot of Old slip, East river, Borough of Manhattan, including the shed extension at the inshore end of the westerly side of the pier, together with the appurtenances thereto belonging, erected upon real estate acquired for Dock Department purposes, belonging to The City of New York.

The shed to be sold consists of the office portion of the inshore end and the shed proper. The office portion is about 50 feet long and about 34 feet wide, and is built in two stories. The shed proper is a single story structure about 400 feet long and about 34 feet wide, its centre height from the deck of the pier being about 26½ feet. The shed extension at the inshore end of the westerly side of the pier is about 50 feet long and about 50 feet wide. The entire shed covers an area of about 17,800 square feet.

All the posts, studs, purlins, trusses and bracing composing the framing of the shed are of structural steel.

The roof sheathing, window frames, partitions, walls, ceilings, office doors, etc., in the second story of the office portion are of woodwork in first-class condition. The sides of the building not taken up by doors are covered with corrugated steel. The roof is covered with tar and gravel over board sheathing, which rests on the wooden purlins. The principal parts or items composing the shed on Pier, old 11, East river, which is offered for sale include all the trusses, columns, studs, purlins, bracing, corrugated steel folding doors, wooden sliding doors, corrugated steel sheeting composing sides and end of shed, steel frames and all material of every description comprising the shed proper on Pier, old No. 11, East river, and the shed extension at inshore

end, westerly side, down to the level of the decking of the pier, excepting the backing log, and any portion or portions of the pier proper which may be above the level of said docking of the pier.

The items in the description are believed to be approximately correct, but bidders must satisfy themselves as to the quantity, quality and condition of the material composing the shed to be sold when making their bids.

All the parts of the shed and extension and the materials composing them must be torn down to the level of the decking of the pier and entirely removed.

It is the purpose of the Dock Department to proceed with the improvement of the water front at Pier, old 11, East river, and it is stipulated and agreed that the purchaser of the materials composing the shed and shed extension will make no claim or demand of being interfered with or hampered in the prosecution of the work of removal by virtue of the operations of the Dock Department.

The purchaser will be required to stipulate and agree that no claim for damage will be made nor will it affect the bond furnished for the removal of the structures, in the event of the Dock Department entering or taking possession of any portion of the premises from and after the date set for the removal of the materials composing the shed and extension. The purchaser must also stipulate and agree that no material of any description composing the shed or extension will be allowed to go adrift or to be deposited in the waters adjoining the pier and that the purchaser will conform in every way to all the laws relative to the depositing of materials or permitting same to go adrift, as established by the United States Government, the State and City authorities.

The shed on Pier, old 13, consists of two parts; the office portion of the inshore end and the shed proper. The office portion is about 53 feet long, about 30 feet wide, and is built in two stories. Its centre height from the deck of the pier is about 35 feet.

The shed proper is a single story structure about 357 feet long and about 30 feet wide, except a portion at the outshore end which narrows to a width of about 25 feet. Its centre height from deck of the pier is about 25 feet. The entire shed covers an area of about 11,850 square feet.

All the posts, studs, purlins, trusses and bracing composing the framing of the shed are structural steel. The roof sheathing, window frames, partitions, walls, ceiling, office doors, etc., in the second story of the office portion are all of woodwork in first class condition. The sides of the building not taken up by doors are covered by galvanized corrugated steel. The roof is covered with a slag roofing on boards which rest on the wooden purlins.

The following are the principal parts or items composing the shed on Pier, old No. 13, East river, which is hereby offered for sale:

All the trusses, columns, studs, purlins, bracing, suspended steel walkway, corrugated steel sliding doors, corrugated steel folding doors, corrugated steel sheathing composing sides and ends of shed, glass skylights, steel frames, conductors, and all the material of every description comprising the shed proper and office portion of the shed on Pier, old No. 13, East river, down to the level of the decking of the pier, excepting the backing log and any portion or portions of the pier proper which may be above the level of said decking of the pier.

The items enumerated in the description are believed to be approximately correct; however, bidders must satisfy themselves as to the quantity, quality and condition of the material composing the shed to be sold when making their bids, it being the purpose of the Department to proceed with the improvement of the waterfront adjacent to Pier, old No. 13, East river, it being stipulated and agreed that the purchaser of the materials composing the shed on Pier, old No. 13, will make no claim or demand that he has been interfered with or hampered in the prosecution of the work of removal, by virtue of the operations of the Department of Docks and Ferries; the purchaser to further stipulate and agree that he will make no claim for damage, nor will it affect the bond furnished by him for the faithful performance of the work, in the event of the Department entering or taking possession of any portion of the premises from and after the date set for the removal of the materials composing said shed; the purchaser to further stipulate and agree that he will permit no material of any description composing said shed to go adrift or deposit same in the waters adjacent to the pier, and that he will conform in every way to the laws relative to the depositing of materials or permitting same to go adrift as established by the United States Government, the State and City authorities.

Pursuant to a resolution of the Commissioners of the Sinking Fund adopted January 25, 1906, the Comptroller was directed to sell the above-described property. The sale will take place under the supervision of the Collector of City Revenue on Friday, February 23, 1906, at 11 a. m. on the premises.

Failure to remove the said shed and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such shed or appurtenances, or any portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said shed by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
