No. 802.

The Board of Trade,
Brooklyn, N. Y., June 18, 1902.

Board of Aldermen, City Hall, New York City, N. Y.:

Gentlemen—Inclosed please find copy of a resolution recently adopted at a meeting of the Board of Trade, Twenty-sixth Ward, of the Borough of Brooklyn.
Respectfully,

CHRISTIAN J. BODE, Secretary.

At a regular meeting of the Twenty-sixth Ward Board of Trade, held at Penn Fulton Hall, on the 10th day of June, 1902, the following resolutions were unanimously adopted:

Whereas, The Rapid Transit Commission is about to award a contract for the construction of a tunnel under the East river, from the City Hall, in Manhattan, to the junction of Flatbush and Atlantic avenues, in the Borough of Brooklyn, for the purpose of providing the public with satisfactory rapid transit; and

Whereas, The Brooklyn Rapid Transit Company has indicated its intention to bid for said tunnel, and for the franchise for operating transportation facilities therein; and

Whereas, The said Brooklyn Rapid Transit Company has heretofore utterly failed to provide adequate and proper rapid transit facilities for the people of the Borough of Brooklyn, having reduced its car service, removed transfer stations, cut off through and continuous service, thereby producing overcrowding of cars and causing great delay and inconvenience in travel; and

Whereas, The said company has, by virtue of the absence of competition, disregarded the public needs and its obligations under its charter, and failed and refused to furnish efficient and proper service on its present roads, and has, by reason of its control of a monopoly of the street railway service in Brooklyn, openly declared its purpose to conduct its transportation facilities with a view to earning profits for its stockholders, without regard to the public needs or requirements, and claims the right to run its cars as it pleases, without interference from the courts; and

Whereas, The experience of the public with said company makes it positive that it would manage and operate the tunnel in the same manner unless compelled, by written contract, to do otherwise;

Resolved, That the Rapid Transit Commission be respectfully requested to require of the successful bidders for said tunnel a stipulation to furnish complete and perfect rapid transit on a specified headway on all its lines, and that they will continue such cars to the end of each line, thereby permitting passengers to ride through to their destination without change of cars, for one fare, and without loss of time, and we respectfully protest against the award of any contract unless it contains such conditions and restrictions.

Which was referred to the Committee on Streets, Highways and Sewers.

No. 803.

In connection therewith, Alderman Dowling introduced the following:

New York, June 19, 1902.

To the Honorable the Board of Aldermen of The City of New York:

We, the undersigned merchants and taxpayers of The City of New York, do most respectfully petition your Honorable Body that such action may be taken by you in your representative capacity as will protect our interests and foster the industries undertaken by us, and which have tended to make this city, in fact as well as in name, the metropolis of the Western Hemisphere.

Mindful of the fact that the phenomenal growth of this city has been attained with a minimum loss to the laboring classes, while the capitalist has most ungrudgingly met the demands of heavy taxation in the interest of the common weal, and

now, appreciating the necessity of maintaining as far as possible, consistent with fair dealing, that mercantile supremacy which has given this city its position as the metropolis, we would most respectfully urge that your Honorable Body should, by virtue of the powers conferred on it, enact such suitable legislation as will protect and foster the said industries, and, in so far as lies in its power, maintain that commercial supremacy which has in the past enabled the metropolis to keep free from such harsh and oppressive measures as have in other localities forced upon the part of labor an opposition to capital which has resulted in the—to be regretted—strikes throughout our land.

We, therefore, most respectfully beg leave to call to your attention the fact that at present, in the awarding of contracts for manufactured articles, an unjust discrimination is exercised against us in this, that in no manner whatever contribute to the betterment of this city, such as lower wages, smaller expenses for labor, and many other causes, are enabled to furnish such articles at a reduced price, in depriving the laboring classes of this city from reaping the benefits otherwise inure to them. And by so doing the conscientious taxpayer, who is employing labor at good wages, is deprived of the benefit of reaping the result of his work, and is compelled to stand idly by and see strangers reap that benefit which should be the reward of his fealty and civic pride.

Recognizing that competition is the life of trade, we do not wish to interfere with honest competition, but we do most earnestly call the attention of your Honorable Board to the fact that it is not a fair competition when the taxpayer of this city, who pays his labor a good living scale of wages, and who meets promptly and sincerely the demands made on him for the necessary support of the civic government, and who with pride does his share in building up and upholding the commercial supremacy of the city, should be compelled to compete with cheap labor and have his bid compared, not with that of a brother competitor in this city, but with some competitor from a foreign state whose expenses account is comparatively a minimum.

We would, therefore, ask that your Honorable Body would so enact that in all contracts to be awarded hereafter by any of the departments or bureaus of the Boroughs of Greater New York, it should be provided that all manufactured articles to be furnished should be manufactured within the limits of Greater New York, provided, of course, that should it so happen that such article as may be called for is not manufactured in this city, then, in that event, the same should be contracted for at the lowest bid irrespective of place of manufacture.

The total value of the "Cinderella" as determined by the cost of the construction and alterations up to the time of the first policy is \$37,352, and of the "Aschenbroedel" and the "Cenerentola" is \$40,000 each.

These policies cover the time during which the said steamboats have been in use and are as follows:

For one year from March 13, 1902, at a premium of two and three-quarters per cent. in the Western Assurance Company, at a valuation of \$25,000.

For the Aschenbroedel and Cenerentola, each as follows, at a premium of three per cent. in the following companies and at the following valuations:

Home Insurance Company of New York.....	\$24,000.00
Providence Washington Insurance Company.....	10,000.00
St. Paul Fire and Marine Insurance Company.....	5,000.00

Western Assurance Company.....	12,500.00

For the Cenerentola at a premium of two and three-quarters per cent. in the Home Insurance Company at a valuation of \$25,000.

This Department has no information as to whether or not any loss on account of marine risks has been paid to the City under these policies. Any such facts can be furnished by the Finance Department.

Respectfully,

JOHN McG. WOODBURY,
Commissioner.

P. J. SCULLY, Esq., City Clerk:

Sir—In compliance with resolution of the Board of Aldermen, adopted June 3, 1902, and approved by his Honor the Mayor June 12, 1902, calling for certain information relative to insurance carried by this Department on City property from 1895 to 1902, inclusive, I beg to hand you herewith a statement showing the dates of the policies issued, description of the property insured, amount of insurance, premiums paid, estimated value of property and term of each policy.

The only loss recovered by the Department during the period named amounted to \$275, for damage to tug Richard Croker, by collision, on October 4, 1900. The policies under which this loss was recovered are dated February 16, 1900, issued by the Aetna and Home Insurance Companies; \$137.50 collected from each.

In connection with the above, however, it is proper to state that this Department has just applied to the various companies for cancellation of all existing policies of insurance, and for a refund of unearned premiums, this having been done in accordance with a resolution of the Commissioners of the Sinking Fund.

Yours respectfully,

RUSSELL BLEECKER, Secretary.

The following bills are the ones in question:

The President laid before the Board the following communication from the Board of Estimate and Apportionment:

No. 816.

Department of Finance, City of New York,
June 21, 1902.

Hon. CHARLES V. FORTES, President Board of Aldermen:

Dear Sir—At a meeting of the Board of Estimate and Apportionment held June 20, 1902, a communication from the Commissioner of Water Supply, Gas and Electricity, calling attention to the insufficiency of the water service of the New York and Westchester Water Company to the people in the Borough of The Bronx, and requesting the Board of Estimate and Apportionment to determine whether the acquisition of the plant of said company, or any part thereof, is necessary for the public use, was presented, and in accordance with the direction of the Board, I inclose you herewith a copy of the same.

Respectfully yours,

J. W. STEVENSON, Deputy Comptroller.

(Copy.)

Department of Water Supply, Gas and Electricity,
City of New York, June 16, 1902.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

Dear Sir—The insufficiency of the water service of the New York and Westchester Water Company to the people of the Borough of The Bronx, in the section east of the Bronx river, became apparent soon after that section was annexed to The City of New York, in 1895, and the discomforts and even dangers from such inadequate supply have grown to such an extent as to demand the most speedy and efficacious measures of relief, for the accomplishment of which the superseding of the

Water Company's service by the City's own service appears to be the best practicable plan.

The application of the former Department of Public Works and of the Department of Water Supply for authority and funds to build a high service pumping station near the site of the Jerome Park Reservoir (still in course of construction under the direction of the Aqueduct Commissioners), resulted in a grant of the requisite funds and authority, in 1899 and 1900, for the construction of the pumping station and of two lines of 48-inch water mains from the stations to different sections of the borough. While the several contracts for foundations, buildings, engines and boilers for the pumping station will not be completed until next year, the work under the contract for one of the two 48-inch mains will be finished by the close of September next, and under the other, before the end of the year. These mains will be connected with the Old Croton Aqueduct, in advance of the completion of the pumping station, and will at once become available for additional water supply to the Borough of The Bronx west of the Bronx river, and will also furnish sufficient quantity for distribution east of the Bronx river (to supersede the service of the New York and Westchester Water Company), as soon as the City shall have either acquired or laid the necessary distributing mains in the section now served by the Water Company.

Recognizing the necessity of the early introduction of the city's own service east of the Bronx River, I drafted and caused to be introduced in the last Legislature a bill to authorize the city to acquire the property and franchises of the New York and Westchester Water Company. This bill has been enacted as chapter 617, Laws of 1902. It authorizes the Commissioner of Water Supply, Gas and Electricity, with the approval of your Board, to acquire for the public use of the city, all the real estate, reservoirs, wells, streams, pumping stations, pumps, machinery, pipes, franchises and other property of the New York and Westchester Water Company and of its receivers, and provides that upon application of said Commissioner the said Board of Estimate and Apportionment is authorized to determine whether the acquisition of the above "or any part thereof, and if so, what part or parts thereof, are necessary for the public use."

It is for your Board to determine what part of the company's property, if any, is necessary and advantageous for the city's public use. To this end and in conformity with the duty imposed upon me by the act of the Legislature, I recently sought and obtained from the receivers of the company a description of its property, plants and franchises, accompanied by maps, and have caused an investigation to be made by department engineers, from all of which I present the following results:

The company's system and plant extend beyond the boundaries of the city and of the Borough of the Bronx, to towns and villages in Westchester County, and for consideration of the subject in hand may be divided into three sections:

- 1st. The district outside the boundaries of the city, including Yonkers, Dobbs Ferry, Tarrytown, etc., supplied from the pumping station at Glen Park, Yonkers, with water from the Pocantico River, through about forty-four miles of water main.
- 2d. The southeasterly district of the Borough of The Bronx, supplied from the company's pumping station at Pelham, through about eight miles of water mains.
- 3d. The district in the northeasterly section of the Borough of The Bronx, supplied in part from the Glen Park pumping station, but principally with water furnished to the company by the city, at the rate of about one million gallons per day, through a six-inch connection with the Bronx River conduit, under a contract made by the Commissioner of Public Works in 1897. In this district the company has about fifty miles of water mains, ranging from twenty inches down to four inches in diameter.

Investigations of the company's plant and property included analysis of the water by the City Department of Health, in March last, at four different points of the company's system, which showed the water to be considerably inferior in quality to that from the Croton and the Bronx Rivers.

The purchase by the City of the company's property and plant, outside of the boundaries of the City, which, as stated above, are principally used for supplying towns and villages in Westchester County, appears to be out of the question, and the acquisition of any of the company's sources of supply is undesirable, because of the inferior quality of the water.

As already stated, a new forty-eight-inch main will, by the close of September next, be connected with the Croton Aqueduct, and another forty-eight-inch main by the close of this year. Through the first of these mains the Department will be able not only to furnish the needed increase of supply and pressure through the City's distributing mains west of the Bronx, but to deliver into mains east of the Bronx, when laid or acquired, from eight to ten million gallons of water per day, which is more than the New York and Westchester Water Company ever has furnished or is likely to furnish. With the additional supply obtainable from the Aqueduct through the second forty-eight-inch main, by the close of this year, an ample supply will be had in all parts of the Borough, except the very high locations, which, for full relief, will have to await the completion of the high service pumping station next year.

Under these circumstances it would be advantageous to the City to acquire only so much of the company's property as is comprised in the system of its distributing mains, with stopcocks, fire hydrants and drinking hydrants, as lies within the boundaries of the City and the Borough of The Bronx. The advantages to the City for condemning these mains and appurtenances, in place of laying its own mains, are:

1st.—The streets in which the company's mains exist have not yet been improved or graded or legally established on permanent lines, and it would be less expensive to acquire these mains, even with allowance of possible collateral damages to the company's other property and franchises, than to proceed now to parallel and displace the company's system by City mains and incur the expense of relaying as street improvements on legal lines and grades progress.

2d.—If your Board determines upon the acquisition of the mains and the institution of legal proceedings, Commissioners of Appraisal may be appointed and may qualify, giving opportunity to the City to take possession of the mains in time to use them for distributing the available supply from the Croton Aqueduct this year, as soon as the 48-inch mains, already alluded to are completed and connected, thus assuring better supply by the City's own service far in advance of the time which would be consumed in duplicating or displacing the company's system by new City mains.

By the terms of the act the City may acquire title immediately upon the appointment and qualification of Commissioners of Appraisal in condemnation proceedings.

If your board should approve of the proposed acquisition, and should at once authorize the commencement of appropriate proceedings, the people of the City east of the Bronx river would soon reap the benefit of your action, and the contract between the City and the company, under which the company draws water from the City, be at once terminated. The inhabitants of the district would be relieved from the company's excessive charge for scant supply, and would obtain a full and adequate supply of better water, direct from the City's mains.

I inclose herewith a list of the water mains, stopcocks, drinking hydrants and fire hydrants proposed to be acquired, and submit also a draft of a resolution for the consideration of your Board. In view of the supreme importance of prompt relief to the people concerned, I bespeak your early action upon this subject.

Very respectfully,
(Signed.) J. HAMPDEN DOUGHERTY,
Commissioner of Water Supply, Gas and Electricity.

No. 817.

Board of Estimate and Apportionment,
New York, June 24, 1902.

To the Honorable the Board of Aldermen of The City of New York:

Sirs—I inclose herewith certified copy of preamble and resolutions adopted by the Board of Estimate and Apportionment on the 20th instant, providing for a change in the map or plan of The City of New York by laying out an approach to the Willink entrance of Prospect Park, in the Borough of Brooklyn.

These resolutions were adopted by this Board after hearing, duly advertised in accordance with the provisions of Section 442 of the Greater New York Charter. The proposed change of the map was recommended to the Board by the Local Board of the Flatbush District, Borough of Brooklyn, and it is advocated by the President of the Borough of Brooklyn, the President of the Park Board, and the Commissioner of Parks for the Boroughs of Brooklyn and Queens.

I also inclose herewith copy of a protest submitted by Mr. Henry B. Davenport, with a copy of the inclosure referred to therein, and transmit, for the action of your Honorable Board, a form of ordinance approving the resolution of this Board.

Respectfully,

J. W. STEVENSON, Secretary.

(Copy.)

Brooklyn, April 17, 1902.

Hon. E. M. GROUT, Comptroller, N. Y.:

Dear Sir—I enclose copy of a letter which I sent to Alderman McInnes last February, and also a copy of the diagram referred to in that letter. I am one of those who think it a waste of public money to take the land so remote from the Park. I think the railroad should be the dividing line. I submit it to you as I did to the Alderman and to Mr. Swanstrom. The amount, \$280,000, for which it is claimed the land and buildings can be bought and improvements made, seems to me inadequate. It will be nearly twice that before they get through with it, and I think the money that would be spent in condemning A and B could be better spent in buying little triangular blocks, of which there are a number along the line of Flatbush avenue, between Prospect Park and Bergen Beach, and in completing the Park circle at the Ocean avenue entrance to Prospect Park.

Yours truly,

(Signed) HENRY B. DAVENPORT.

Brooklyn, February 26, 1902.

Hon. J. H. McINNES:

My Dear Alderman—I signed a petition a short time ago for the taking of a couple of blocks of land at the Willink entrance to Prospect Park and adding the same to the East Side Park lands. Looking at the map since, and giving it proper consideration, I find that I cannot conscientiously approve the proposed scheme. It is certainly a waste of public money to buy land so remote from the entrance, when the object is only to secure a proper approach to the Park.

The diagram which I enclose shows by the yellow lines the land intended to be taken. The part colored green shows the land lying between the East Side Park lands and the Brighton Beach road, which runs through a cut and under bridges at this point. If anything is to be taken, and I think something should be, it should be this part colored green, and that would do away with the objectionable features and leave the railroad cut between the Park lands and the lands of private owners.

It seems to me a waste of money to buy up one-half million dollars' worth of property, which lies in blocks marked "A" and "B," when it is so remote that it will have no bearing on the purpose of protecting the Park entrance. There is much greater reason for taking the land lying between Flatbush avenue and Ocean avenue, where the Melrose Hotel stands.

I hope you will consider this matter fully and go over the land, and I think you will agree with me.

Yours very truly,

AN ORDINANCE for the construction of an approach to the Willink entrance to Prospect Park, Borough of Brooklyn.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

That, in pursuance of the provisions of section 442 of the Greater New York Charter, the following resolution of the Board of Estimate and Apportionment, adopted by that Board on the 20th day of June, 1902, be and the same hereby is approved, viz.:

"Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, deeming it for the public interest to alter the map or plan of The City of New York by locating and laying out an addition to Prospect Park, and closing and discontinuing certain streets for the construction of an approach to the Willink entrance to Prospect Park, in the Twenty-ninth Ward, Borough of Brooklyn, City of New York, does hereby favor and approve of the same so as to locate and lay out the said approach, as follows:

I. Locating and laying out of addition to Prospect Park.

Beginning at the intersection of Flatbush avenue and Malbone street, as the same are laid down on the map of the City;

1. Thence northerly along the eastern line of Flatbush avenue for 477.28 feet, more or less, to the southern line of east side lands;
2. Thence easterly along the southeasterly line of east side lands for 763.55 feet, more or less, to the western line of Washington avenue;
3. Thence southerly for 1,050.79 feet, more or less, along the western line of Washington avenue to the northern line of Malbone street;
4. Thence westerly along the northern line of Malbone street for 341.82 feet to the point of beginning.

II. Closing and discontinuing of Washington place, and a street north of Washington place, as the same are laid down, between Washington avenue and Flatbush avenue.

June 17, 1902.

Hon. J. W. STEVENSON, Deputy Comptroller:

Dear Sir—Your communication of even date, with inclosure, relating to the increasing of the salaries of certain employes of this Department, which the Board of Estimate and Apportionment refers back for explanation in each case, is received.

I beg to inform you that the salary of Henry W. Vogel was fixed at \$500 on February 23, 1898, payable from the Block Tax Assessment Maps Fund. Through error, his salary was placed in the schedule adopted by your Honorable Board April 30, 1902, at \$450 per annum.

The salaries of Hugh J. Kelly and John C. Keating were fixed at the rate of \$1,500 per annum previous to the year 1885, and have so remained ever since. They were also erroneously returned in the said Schedule at \$1,200 per annum.

The salary of Kingsley Lloyd, draughtsman, was increased by the Board from \$1,400 to \$1,500 per annum, and through error was placed in said Schedule at \$1,200 per annum.

The salary of Thomas A. Moorehead was increased by the Board from \$1,200 to \$1,500, and was also erroneously entered in said schedule at \$1,200 per annum.

The errors occurred in correcting a previous schedule, and they now necessitate the action of the Board of Estimate and Apportionment to enable said employees to obtain the salaries intended.

With these corrections the Department of Taxes and Assessments is well within the appropriation granted.

Yours truly,

JAMES L. WELLS, President.

Whereas, The Board of Estimate and Apportionment, at meeting held June 20, 1902, adopted the following resolution:

Board of Education,

Park Avenue and Fifty-ninth Street.

New York, June 14, 1902.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment:

Dear Sir—Referring to your communication of the 11th inst., returning certified copy of resolution adopted by the Board of Education on May 28, 1902, relative to fixing the salary of Clinton P. Lovell, draughtsman, at \$25 per week, I am directed by President Burleigh to inform you that it has always been the custom in this department to pay architectural draughtsmen and building inspectors at a weekly rate of compensation and for actual service. This enables us to dispense with their services from time to time on account of lack of work, etc. To fix Mr. Lovell's salary at an annual rate, as suggested, would establish a precedent, and all the draughtsmen and inspectors would then probably request that their salaries also be fixed at annual rates, which would make it very inconvenient to dispense with their services, if necessary to do so.

I therefore beg leave to return the certified copy of resolution above mentioned, with the request that the Board of Estimate and Apportionment take action in accordance therewith.

Respectfully,

(Signed) A. EMERSON, Secretary, Board of Education.

The President laid before the Board the following communication from the Department of Water Supply, Gas and Electricity, transmitting proposed rules and regulations for the construction and maintenance of poles, wires, etc.

No. 823.

Department of Water Supply, Gas and Electricity,

Commissioner's Office, No. 13 and 21 Park Row,

City of New York, June 24, 1902.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—Section 523 of the Revised Greater New York Charter provides as follows:

"The said Commissioner of Water Supply, Gas and Electricity shall from time to time submit, for the consideration of the Board of Aldermen, such proposed ordinances in regard to electric wires, appliances and currents for furnishing light, heat, or power when introduced into or placed in any building in said city. Such proposed ordinances shall prescribe the method of construction, operation, location, arrangement, installation and use of such wires, appliances and currents as said Commissioner shall from time to time deem necessary for the protection of life and property."

Section 528 prescribes, among other things, that

"The Board of Aldermen may establish and may, from time to time enact general ordinances, regulating the construction, maintenance, use and management of the electrical conductors, poles and fixtures above ground, and the conduits and subways therefor constructed under ground."

In conformity with the provisions of Section 523 of said Charter, I have prepared a code of rules and regulations for the construction, care, maintenance and operation of poles, wires, conduits, subways and other electrical appliances in, on, over or under the streets, or in buildings of The City of New York; and herewith submit a copy of the same, to you, with the request that pursuant to Section 528 of the Charter the Board of Aldermen enact the said rules into ordinances.

The rules and regulations which are herewith presented consist, with such modifications as experience has shown to be necessary, of the compilation originally adopted by the Department of Public Buildings, Lighting and Supplies, after approval by the Corporation Counsel. That department in preparing its compilation, used the rules and regulations of the Board of Electrical Control, which, by chapter 263 of the Laws of 1892 (section 2), was authorized to establish rules. The residue of the compilation consisted of rules theretofore adopted by the Fire Department of The City of New York, in pursuance of power conferred by section 517½ of chapter 275 of the Laws of 1892. In conformity with sections 416, 417 and 584 of the Greater New York Charter (chapter 378 of the Laws of 1897), the Late Commissioner of Public Buildings, Lighting and Supplies submitted the rules so formulated by him to the Board of Public Improvements, by which body they were approved, and afterward to the Municipal Assembly, which, for some reason, declined to enact the same into ordinances.

The rules herewith submitted, it is believed, are in full conformity with the most advanced state of the art of electrical installation and wiring, and it is of importance that early action should be taken upon the same by the Board of Aldermen, so that the rules may obtain the force of law.

In presenting these rules to the Board for enactment into ordinances, I beg to remind it that this Department has no power to enforce compliance with such rules, and has no means of punishing violations thereof. It may, in proper cases, withhold permits where applicants for such permits have violated its regulations; but this, it will be observed, is a very inadequate means of securing obedience, whereas, should the Board of Aldermen give the rules the force of law penalties may follow every violation.

For the foregoing reasons, I beg to request that these rules be enacted into ordinances.

Respectfully yours,

J. HAMPDEN DOUGHERTY,

Commissioner of Water Supply, Gas and Electricity.

Report of Committee on Buildings—

(No. 396—G. O. No. 129).

The Committee on Buildings, to whom was referred on April 1, 1902 (Minutes, page 1764), the annexed resolution and ordinance in favor of providing for the issuing of permits for the erection of bay windows projecting beyond the building line, respectfully

REPORT:

Your Committee held a public hearing in regard to this ordinance, and have consulted with the Park Commissioners and Commissioner of Public Works in regard to its provisions. The necessity of a general ordinance governing the erection of bay windows is apparent from the fact that a number of building operations in the City are to-day being delayed, because no such ordinance has as yet been passed by this Board; consequently the plans cannot be approved by the Building Department. As a result of the suggestions offered at the hearing and made by the Park Commissioners and the Commissioner of Public Works, the substitute ordinance herewith submitted, which your Committee believes meets all the requirements, and overcomes all the objections made to the original ordinance, is recommended for adoption.

(Substitute Ordinance.)

A GENERAL ORDINANCE providing for the issuing of permits for the erection of bay windows projecting beyond the building line.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Commissioners of Public Works and the Park Commissioners, having jurisdiction, shall issue permits for the erection of bay windows projecting beyond the building line, provided, in the opinion of the Commissioner having jurisdiction, no injury will come to the public thereby. Permits for the erection of bay

windows lying within any park, square or public place, or within a distance of three hundred and fifty feet from the outer boundaries thereof shall be issued by the Park Commissioner having jurisdiction, as provided in section 612 of the Charter, as amended by section 1, chapter 723 of the Law of 1901. Permits for the erection of all other bay windows shall be issued by the Commissioner of Public Works having jurisdiction.

For the purposes of this ordinance a "bay window" shall be taken to mean and include all projections on the face of a building in the nature of windows, such as are commonly called bay windows, show windows, oriel windows and bow windows, without regard to the material of which they are constructed or to the purposes for which they are to be used.

Sec. 2. Before the erection of any bay window projecting beyond the building line shall have been commenced, the owner or his duly authorized agent shall make application in writing to the Commissioner having jurisdiction, on suitable blanks furnished by him, and shall state the length and width of the proposed bay window, the number of stories through which it is intended to be carried, and the number of square feet of area covered by that portion of the bay window projecting beyond the building line. Drawings showing the size of and area covered by the bay window, the number of stories through which it is proposed to be carried, and its location in reference to the lot and building lines, shall be submitted with each application, and for the purpose of computing the area covered by a bay window projecting beyond the building line, the outside face of the bay, exclusive of cornices, pilasters, trims, etc., shall be the line taken as a basis of computation.

Each application for the erection of a bay window projecting more than one foot beyond the building line, shall have endorsed thereon the consent of all the adjoining property owners within a distance of fifty feet from the centre of the bay window, on the same side of the street; meaning, thereby, so much of the side of a street as is unintersected by any other street, on which it is proposed to be erected.

Each application shall be accompanied by a certified cheque for the amount of the compensation due the City for the privilege of erecting said bay window, as hereinafter provided.

Sec. 3. The amount that shall be paid as a compensation to the City for the privilege of erecting each bay window shall be not less than one dollar nor more than five dollars, for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line for each and every story through which it is carried, the rate to be based upon the assessed valuation of the property as confirmed by the City authorities.

The Commissioners of Public Works and the Park Commissioners shall divide the City into districts, throughout which, in each district, the rate per square foot shall be uniform, the maximum rate being charged where the assessed valuation per square foot is the greatest, and the minimum rate where the assessed valuation per square foot is the least; the intermediate rates being proportioned accordingly.

Sec. 4. Bay windows may be hereafter erected with a projection of not more than three feet beyond the building line, providing that when the projection exceeds one foot beyond the building line, the total number of feet in width occupied by all the bay windows on the same frontage of the same building shall not exceed seventy-five per cent. of the width of the frontage of the building on which they are located. When the total number of feet in width occupied by all the bay windows on the same frontage of the same building exceeds seventy-five per cent. of the width of the frontage of the building on which they are located, the projection shall not exceed one foot beyond the building line, nor shall the bay window be carried higher than the sill course of the second-story windows.

FRANKLIN B. WARE, DAVID M. HOLMES, JOHN A. SCHAPPERT, FREDERICK BRENNER, LEOPOLD HARBURGER, Committee on Buildings.

Which was laid over.

No bay-window shall be hereafter erected projecting more than one foot beyond the building line, on a street forty feet or less in width, or on any street south of Forty-third street in the Borough of Manhattan.

Sec. 5. Permits for the erection of bay-windows shall be issued in duplicate, one of which shall be retained by the applicant and kept at the building during the erection of the window, and the other shall be filed by him, with the plans for the construction of the window, in the Department of Buildings. It shall be the duty of the applicant, upon the completion of the bay-window, to file with the Commissioner issuing the permit a certificate from a city surveyor stating the dimensions of said window, the number of square feet contained therein, and the number of stories through which it has been carried, as erected. If it shall appear by said certificate, or otherwise, that the bay-window occupies a greater number of square feet, or has been carried through a greater number of stories, than shall have been paid for, the applicant shall pay twice the sum previously paid for each square foot of area occupied by said bay-window, over and above the number of square feet paid for originally.

Sec. 6. Permits granted pursuant to the provisions of this ordinance are revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof at any time hereafter by the Board of Aldermen of The City of New York, upon the recommendation of the Commissioner having jurisdiction, when the space occupied by said bay, or any portion thereof, may be required for any public improvement; or upon any violation of any of the terms or conditions upon which this permit is issued." A permit for the erection of a bay-window shall be deemed to have expired when the bay-window is taken down, and the space formerly occupied thereby shall no longer be used for the purpose for which the permit was issued. In case it is thereafter desired to erect a bay-window on the said property, the applicant shall comply with all the provisions of this ordinance.

Sec. 7. Permits for the reconstruction of now existing bay-windows as defined by this ordinance, and for all bay-windows which shall be hereafter erected under the provisions of this ordinance, shall be issued by the Commissioner having jurisdiction, without the applicant's obtaining the consent of adjoining property owners, and provided in section 2 of this ordinance; provided that the bay-window, when reconstructed, shall have no greater projection or width, nor be carried through a greater number of stories, nor cover a greater area, than the window as originally constructed. And further provided that no fee shall be charged for the reconstruction of bay-windows which have been erected under the provisions of this ordinance, or for which a fee has been paid for the privilege of erecting the same under the provisions of the laws in force at the time of the erection of the said bay-window. The restrictions specified under section 4 of this ordinance shall not apply to the reconstruction of now existing bay-windows; but permits issued for the reconstruction of now existing bay-windows, for which no fee has heretofore been paid, shall be paid for as provided in section 3 of this ordinance.

Sec. 8. Nothing herein contained shall be deemed to conflict with the provisions of the Building Code, and all bay windows for which permits are issued, under the provisions of this ordinance, shall be erected in accordance with all the provisions of said Code in regard to the kind and quality of materials used. No plans for the construction of a bay window as defined in this ordinance shall be approved by the Superintendent of Buildings until the permit is filed as provided by section 5 of this ordinance.

Sec. 9. All fees received by the Commissioners of Public Works or the Park Commissioners for the issuing of permits for the erection of bay windows shall be accounted for in proper books kept for that purpose, and shall be turned over by them to the Commissioners of the Sinking Fund and credited to the Fund for the Redemption of the City Debt.

Sec. 10. Any person, firm or corporation violating any of the provisions of this ordinance shall be liable to a fine of one hundred dollars (\$100) for each offense, and for ten dollars (\$10) for each and every day that such offense shall continue, which shall be duly sued for and collected.

Sec. 11. All ordinances or parts of ordinances inconsistent or conflicting with the provisions of this ordinance are hereby repealed.

Sec. 12. This ordinance shall take effect immediately.

(Original.)

A GENERAL ORDINANCE providing for the issuing of permits for the erection of bay windows projecting beyond the building line.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Commissioners of Public Works having jurisdiction are hereby empowered to issue permits for the erection of bay windows projecting not more than three (3) feet beyond the building line, provided, in the opinion of the Commissioner having jurisdiction, no injury will come to the public thereby.

In case a Commissioner of Public Works refuses to grant a license for the erec-

tion of a bay window, the applicant may appeal to the Local Board of Improvement for the district in which the bay window is to be erected, and its decision shall be final.

For the purposes of this ordinance, a "bay window" shall be taken to mean and include all projections on the face of a building in the nature of windows, such as are commonly called bay windows, show windows, oriel windows and bow windows, without regard to the material of which they are constructed or to the purposes for which they are to be used.

Sec. 2. Before the erection of any bay window projecting beyond the building line shall have been commenced, the owner, or his duly authorized agent, shall make application in writing to the Commissioner of Public Works having jurisdiction, on suitable blanks furnished by him, and shall state the length and width of the proposed bay window, the number of stories through which it is intended to be carried and the number of square feet of area covered by that portion of the bay window projecting beyond the building line. Each application shall have indorsed thereon the consent of all the adjoining property owners within a distance of one hundred and fifty feet from the centre line of the bay window, on the same side of the street (meaning thereby so much of the side of a street as is unintersected by any other street) on which it is proposed to be erected.

A drawing showing the size of and area covered by the bay window, the number of stories through which it is proposed to be carried, and its location in reference to the lot and building lines, shall be submitted with each application.

Each application shall be accompanied by a certified check for the amount of the compensation due the city for the privilege of erecting said bay window, as hereinafter provided.

Sec. 3. The amount that shall be paid to the Commissioner of Public Works for the Borough of Manhattan, as a compensation to the city for the privilege of erecting each bay window in that borough, shall be two dollars (\$2) for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line, for each and every story through which it is carried. For the boroughs of Brooklyn and The Bronx one and one-half dollars (\$1.50), and for the boroughs of Queens and Richmond one dollar (\$1) shall be paid for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line for each and every story through which it is carried.

For the purpose of computing the area covered by a bay window projecting beyond the building line, the outside face of the bay, exclusive of cornices, pilasters, trim, etc., shall be the line taken as a basis of computation.

Sec. 4. Bay windows may be erected with a projection of not more than three (3) feet beyond the building line, provided that when the projection exceeds one (1) foot beyond the building line, the total number of feet in width occupied by all the bay windows on the same frontage of the same building shall not exceed fifty per cent. of the width of the frontage of the building on which they are located.

No bay window shall be erected projecting more than one (1) foot beyond the building line, or carried higher than the sill course of the second story windows, on a street forty (40) feet or less in width, or on any street south of Twenty-fourth street in the Borough of Manhattan.

Sec. 5. Permits for the erection of bay windows shall be issued in duplicate, one of which shall be retained by the applicant and kept at the building during the erection of the window, and the other shall be filed by him, with the plans for the construction of the window, in the Department of Buildings.

It shall be the duty of the applicant, upon the completion of the bay window, to file with the Commissioner of Public Works issuing the permit, a certificate from a City Surveyor stating the dimensions of said window, the number of square feet contained therein and the number of stories through which it has been carried, as erected. If it shall appear by said certificate or otherwise that the bay window occupies a greater number of square feet, or has been carried through a greater number of stories than shall have been paid for, the applicant, in addition to the penalty imposed by this ordinance, shall pay twice the sum previously paid for each square foot of area occupied by said bay window over and above the number of square feet paid for originally.

Sec. 6. Permits granted pursuant to the provisions of this ordinance shall be revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof at any time hereafter by the Board of Aldermen of The City of New York, upon recommendation of the Commissioner of Public Works having jurisdiction, when the space occupied by said bay, or any portion thereof, may be required for any public improvement, or upon any violation of any of the terms or conditions upon which this permit is issued."

A permit issued for the erection of a bay window shall be deemed to have expired when the bay window shall be taken down for any cause whatever, except that a bay window may be rebuilt if damaged by fire or by other cause, through no fault of the owner, without the issuing of a new permit, provided that the bay window when reconstructed shall conform to the bay window as originally constructed in all particulars.

Sec. 7. Nothing herein contained shall be deemed to conflict with any of the provisions of the Building Code, and all bay windows for which permits are issued under the provisions of this ordinance, shall be erected in accordance with all the provisions of said code in regard to kind and quality of materials used.

Sec. 8. All fees received by the Commissioners of Public Works for the issuing of permits for the erection of bay windows shall be accounted for in proper books kept for that purpose, and shall be turned over by them to the Commissioners of the Sinking Fund and credited to the Fund for the Redemption of the City Debt.

Sec. 9. Any person, firm or corporation violating any of the provisions of this ordinance shall be liable to a fine of one hundred dollars (\$100) for each offense, and for ten dollars (\$10) for each and every day that such offense shall continue.

Sec. 10. All ordinances or parts of ordinances inconsistent or conflicting with the provisions of this ordinance are hereby repealed.

Sec. 11. This ordinance shall take effect immediately.

Reports of Committee on Finance—

No. 707—(G. O. No. 130).

The Committee on Finance, to whom was referred, on June 10, 1902 (Minutes, page 596), the annexed ordinance, in favor of an issue of bonds for \$10,000 for the construction of an armory for Troop C, in the Borough of Brooklyn, respectfully

REPORT:

That, having examined the subject, they believe the expenditure necessary. The City has started proceedings to acquire property in Brooklyn, situated on the easterly side of Bedford avenue, extending 278 feet eastwardly on Union street and 382 feet eastwardly on President street. These bonds, however, are for construction. The total cost of construction is estimated at \$250,000, of which not more than \$100,000 will be needed during the current year. The site is a very large one. It comprises much more than 70,000 square feet, whereas the armory for Squadron A, in the Borough of Manhattan, comprises only 21,000 square feet. Whether this will cause a greater increase in maintenance for Troop C Armory than for Troop A Armory your Committee are unable to say.

They recommend that the said ordinance be adopted.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of \$10,000, the proceeds to be used to provide means for the construction of an Armory for Troop "C" in the Borough of Brooklyn.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 6, 1902, authorizing the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the amended Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of bonds to an amount not exceeding ten thousand dollars (\$10,000), for the purpose of providing means for the construction of an Armory for Troop C, in the Borough of Brooklyn, and that when authority shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding ten thousand dollars (\$10,000), the proceeds thereof to be applied to the purposes aforesaid."

The Committee on Finance, to whom was referred on June 17, 1902 (Minutes, page 665), the annexed ordinance in favor of authorizing issue of Corporate Stock (\$320,000) for construction and equipping of interior public baths and the acquisition of sites therefor, respectfully

REPORT:

That, having examined the subject, they believe the proposed issue of stock to be necessary. The Board has already advocated as large an expenditure by Special Revenue Bonds. Believing the Board have already expressed themselves in favor of this expenditure, your Committee therefore recommend that the said ordinance be adopted.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of three hundred and twenty thousand dollars (\$320,000), the proceeds to be used to provide means for the construction and equipping of interior public baths and the acquisition of sites therefor in The City of New York.

"Resolved, That, pursuant to the provisions of section 47 of the amended Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding three hundred and twenty thousand dollars (\$320,000), to provide means for the construction and equipping of interior public baths and the acquisition of sites therefor in The City of New York, as follows:

In the Borough of Manhattan.....	\$220,000 00

\$320,000 00

—and that when authority shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of three hundred and twenty thousand dollars (\$320,000), the proceeds thereof shall be applied to the purposes aforesaid."

The Committee on Finance, to whom was referred on June 10, 1902 (Minutes, page 597), the annexed ordinance in favor of the issue of \$10,000 of stock for the Seventy-first Regiment Armory, respectfully

REPORT:

That, having examined the subject, they believe the proposed expenditure necessary. This is the initial expense towards building a new armory on the old site.

They therefore recommend that the said ordinance be adopted.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of \$10,000, the proceeds to be used for providing means for the construction of the Seventy-first Regiment Armory, in the Borough of Manhattan.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 6, 1902, authorizing the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

The Committee on Finance, to whom was referred on June 17, 1902 (Minutes, page 664), the annexed ordinance in favor of an issue of \$150,000 of Corporate Stock for the completion of an addition to the Brooklyn Institute of Arts and Sciences, respectfully

REPORT:

That, having examined the subject, they find that more than this amount will be needed in order to provide funds for a power house and power plant, natural history cases, furnishing auditorium and other rooms with necessary furniture. Until this money is provided and the power house and power plant, and the cases and furniture installed, the addition in question, which will have cost approximately \$616,000, will not be of use. The collections of the Institution, furnished through the generosity of public spirited citizens, are continually increasing and have for the last two years exceeded \$60,000 in each year. The Institute is, of course, the most accessible Museum of Natural History to the people of Brooklyn. The City having already spent so much money upon the addition in question should, of course, complete it.

Your Committee accordingly recommend the adoption of the ordinance.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of one hundred and fifty thousand dollars (\$150,000) to be used for the purpose of providing means to pay for the completion of an addition to the Brooklyn Institute of Arts and Sciences.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of, and concurs in, the following resolution adopted by the Board of Estimate and Apportionment June 13, 1902, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the amended Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of bonds to an amount not exceeding one hundred and fifty thousand dollars (\$150,000) for the purpose of providing means to pay for the completion of an addition to the Brooklyn Institute of Arts and Sciences, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the amended Greater New York Charter, to an amount not exceeding one hundred and fifty thousand dollars (\$150,000)."

The Committee on Finance, to whom was referred on June 10, 1902, (Minutes, page 637), the annexed resolution in favor of requesting the Board of Estimate and Apportionment to authorize issue of Special Revenue Bonds (\$17,500), for repairs to the Borough Hall, in the Borough of Brooklyn, respectfully

REPORT:

That, having examined the subject, they believe the proposed issue of bonds to be necessary. The part of the Brooklyn Borough Building occupied by the Court of Special Sessions, has been pronounced unsafe and must be repaired. At present beams have been placed below to give necessary support, thus rendering unfit for use those parts of the building until permanent repairs have been made.

They therefore recommend that the said resolution be adopted.

Resolved, That, pursuant to the provisions of subdivision 8, section 188 of the amended Greater New York Charter, the Board of Estimate and Apportionment is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of seventeen thousand five hundred dollars (\$17,500) for the purpose of defraying the cost of making necessary repairs to the Borough Hall in the Borough of Brooklyn.

The Committee on Finance to whom was referred on January 17, 1902 (Minutes, page 721), the annexed resolution in favor of authorizing the President of the Department of Taxes and Assessments to draw upon the Comptroller for contingent expenses, respectfully

REPORT:

That, having examined the subject, they believe the proposed authorization to be necessary. It is similar to many others already given.

They therefore recommend that the said resolution be adopted.

Resolved, That, for the purpose of defraying any minor or incidental expenses, contingent to the Department of Taxes and Assessments, as cannot be conveniently accounted for on separate vouchers, the President of the Department of Taxes and Assessments may, by requisition, draw upon the Comptroller for a sum not exceeding five hundred dollars (\$500).

That the President of the Department of Taxes and Assessments may, in like manner, renew the drafts as often as may by him be deemed necessary, to the extent of the appropriation set apart for the contingencies of the Department of Taxes and Assessments, but no such renewal shall be made until the money paid upon the preceding draft shall be accounted for to the Comptroller by the transmittal of a voucher or vouchers, certified by the President of the Department of Taxes and Assessments, covering the expenditure of the money paid thereon.

The Committee on Finance, to whom was referred on June 17, 1902 (Minutes, page 668) the annexed ordinance in favor of an issue of bonds of \$200,000 for the construction and installation of a new heating and lighting plant for the American Museum of Natural History, respectfully

REPORT:

That they have examined the subject and find that the present heating and lighting plant is old, antiquated, worn out, inadequate and badly located, and that if the various parts of the Museum are to be heated and lighted so that they can be used, this new plant is necessary. Your Committee are informed that over 461,000 people used the Museum during the year 1901, that the collections now stored in the Museum, which have been gifts from individuals, exceed in value \$3,000,000, and that the accessions by way of gifts of specimens in the year past amount to not less than half a million dollars in value. Your Committee mention these things in order to show to the Board that this additional construction will go to an Institution of which the City may be proud, of which its citizens make much use and from which they doubtless obtain much pleasure and benefit. They accordingly recommend the adoption of the ordinance.

AN ORDINANCE to provide for an issue of Corporate Stock in the sum of two hundred thousand dollars (\$200,000), the proceeds to be used to provide means for the construction and installation of a new heating and lighting plant for the American Museum of Natural History, in the Borough of Manhattan.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 13, 1902, authorizing the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the amended Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of bonds to an amount not exceeding two hundred thousand dollars (\$200,000), for the purpose of providing means to pay for the construction and installation of a new heating and lighting plant for the American Museum of Natural History, in the Borough of Manhattan, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, as amended by Chapter 563 of the Laws of 1902, to an amount not exceeding two hundred thousand dollars (\$200,000), the proceeds thereof to be applied to the purposes aforesaid."

REPORT:

That, having examined the subject, they believe the proposed improvement to be necessary. It is necessary in order to install a fire alarm system in Richmond Borough. In the Budget a partial provision was made. This additional amount is needed in order to provide the amount which the Fire Commissioner has officially said is needed.

They therefore recommend that the said resolution be adopted.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment is hereby re-

quested to authorize the Comptroller to issue Special Revenue Bonds to the amount of twenty-five thousand three hundred dollars (\$25,300) for the establishment, equipment and maintenance by the Fire Commissioner of The City of New York of a fire alarm telegraph system for the Borough of Richmond.

No. 668.

Alderman Florence called up General Order 95, being a report and ordinance as follows:

The Committee on Finance, to whom was referred on June 3, 1902 (Minutes, page 481), the annexed ordinance in favor of the issue of \$1,000,000 of Corporate Stock for the Dock Department, respectfully

REPORT:

That, having examined the subject, they believe the proposed authorization to be proper. Under the revised Charter the Board of Estimate and Apportionment may, upon recommendation of the Sinking Fund Commissioners, authorize the issue of \$5,000,000 of bonds for the Dock Department, but any amount in addition to that must come into the Board of Aldermen for consideration. The Sinking Fund Commissioners have recommended the issue of \$6,000,000 of bonds for the Dock Department and the Board of Estimate has authorized the \$5,000,000 which it can without our consideration. It has also authorized another \$1,000,000, which is now before us. Your Committee are informed that the \$5,000,000, which is not before this Board for consideration, will be used for the purpose of acquiring and improving the wharf property between Bloomfield street and West Twenty-third street, in which section there is great demand for wharfage accommodations, and also in improving the sections between Forty-second street and Forty-fourth street and One Hundred and Twenty-ninth street and One Hundred and Thirty-fourth street on the North river. The work between Bloomfield street and West Twenty-third street must be done in order that that part of the water front shall conform to the general plan of the water front on the North river. The \$1,000,000 which is before us for consideration will be used more particularly on the East river and for the general expenses of the Department, all of which are payable from the issue of bonds. The work on the East river consists of the improvement of the Broad street, Fulton street, Catherine street, Market street, Rutgers street and East Twenty-third street sections, and acquiring wharf property on the East river. Your Committee are of the opinion that the improvements to which the Dock Department proposes to devote these moneys are necessary. The City's piers are insufficient to meet the demand. The City receives by wharfage upon its dock property an amount which, in the course of not so very many years, will pay both principal and interest of the bonds issued to the Department. Of course, the commerce of the port requires that our dock facilities shall be as perfect and ample as possible.

They therefore recommend that the said ordinance be adopted.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of one million dollars (\$1,000,000), the proceeds to be used for the building of docks, wharves or piers, and for acquiring land by purchase or condemnation for said purpose.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment May 23, 1902, authorizing the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"That, pursuant to the provisions of sections 47 and 180 of the amended Greater New York Charter, and the recommendation of the Commissioners of the Sinking Fund by resolution adopted May 21, 1902, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding one million dollars (\$1,000,000), to provide means for the building of docks, wharves or piers, and for acquiring land by purchase or condemnation for said purpose, and that when authority shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Charter, to the amount of one million dollars (\$1,000,000); the proceeds thereof shall be applied to the purposes aforesaid."

HERBERT PARSONS, WILLIAM T. JAMES, JAMES H. MCINNES, JOSEPH A. BILL, FREDERICK W. LONGFELLOW, JOHN T. MCCALL, JAMES E. GAFFNEY, TIMOTHY P. SULLIVAN, Committee on Finance.

The President put the question whether the Board would agree to accept said report and adopt said ordinance.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Behrmann, Bill, Brenner, Chambers, Coggey, Cuklin, Devlin, Dickinson, Diemer, Dowling, Florence, Foley, Gass, Goldwater, Goodman, Harburger, Higgins, Holmes, James, Jones, Leitner, Longfellow, John T. Alderman Florence called up General Order 97, being a resolution, reported by the Committee on Finance, as follows:

The President put the question whether the Board would agree to adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Behrmann, Bennett, Brenner, Bridges, Coggey, Cuklin, Devlin, Dickinson, Diemer, Dietz, Doull, Dowling, Downing, Florence, Foley, Gillen, Goldwater, Goodman, Haggerty, Harburger, Harnischfeger, Higgins, Holmes, James, Jones, Kennedy, Kenney, Leitner, Longfellow, John T. SPECIAL ORDERS.

The hour of two o'clock having arrived, Alderman Ware called up Special Order No. 21, being a report and ordinance as follows:

No. 276.

The Committee on Buildings, to whom was referred on March 11, 1902 (Minutes, page 1350), the annexed ordinance to regulate the construction of signs, fences, bill boards and sky signs, being an amendment to section 144 of the Building Code, respectfully

REPORT:

That your committee held a public hearing, to which all interested parties were invited to attend in order to discuss the proposed amendment to the Code, and they recommend that the ordinance as introduced be placed on file and the substitute hereto annexed be adopted in its stead.

Greater restrictions than those imposed in the original ordinance were demanded by the Municipal Art Society, the Reform Club, the League for Political Education, the City History Club, the City Improvement Society, the American Scenic and Historic Preservation Society and the West End Association. The bill posters and advertising companies asked to have the restrictions made less than proposed in the original ordinance.

The Superintendent of Buildings for the Borough of Manhattan requested that reasonable restrictions be imposed, as his Department was hampered in its work by the ambiguous wording of the clause in the Building Code relating to this subject.

The limitation in height of fences, signs and bill boards to ten feet if built of wood, and eighteen feet six inches, if of metal, and a limitation in height of sky signs to nine feet, as proposed in the substitute ordinance, will interfere in no way with legitimate advertising. The man who puts up one of the mammoth monstrosities that meet the eye at every turn simply does so because his competitor in business has one as big. Prominence is merely comparative, and with the size of signs limited the contest would become one of artistic quality and attractiveness.

The public control of private property, whenever such control is needed for the preservation of the lives, the health, the morals, or the welfare of the community, is applicable in the case of the ordinance under consideration, and therefore under section 43 of the Charter, the Board of Aldermen has the power to restrict fences, signs, bill boards and sky signs in height, to specify the materials of which they are to be constructed so as to lessen the danger of their being the means of spreading fire, and to provide for their firm and secure support so as to prevent their blowing down into the street to the injury of passers-by.

Your committee believes that the restriction as proposed in the substitute ordinance submitted is for the general good of the public at large, and that no business will be aggrieved thereby, and they therefore recommend that the substitute ordinance be adopted.

(Substitute.)

AN ORDINANCE to regulate the construction of fences, signs, bill boards and sky signs within the building line, being an amendment to Part XXVIII., section 144 of the Building Code.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Part XXVIII., section 144 of the Building Code, is hereby amended by striking out the paragraphs relating to fences, signs and bill boards beginning with the words "Fences of wood shall not be erected over ten feet high," and ending with the words "and the same shall be properly supported and braced," and substituting in lieu thereof the following words:

Fences, signs or bill boards shall not be at any point over ten feet above the adjoining ground; except that when any fence, sign or bill board shall be constructed entirely of metal or of wood covered on all sides with sheet metal, including the uprights, supports and braces for same, it shall not be at any point over eighteen feet six inches above the adjoining ground.

Any letter, word, model, sign, device or representation in the nature of an advertisement, announcement or direction, supported or attached, wholly or in part, over or above any wall, building or structure, shall be deemed to be a "sky sign."

Sky signs shall be constructed entirely of metal, including the uprights, supports and braces for same, and shall not be at any point over nine feet above the front wall or cornice of the building or structure to which they are attached or by which they are supported.

All fences, signs, bill boards and sky signs shall be erected entirely within the building line, and be properly secured, supported and braced, and shall be so constructed as not to be, or become, dangerous.

Before the erection of any fence, sign, bill board or sky sign shall have been commenced, a permit for the erection of the same shall be obtained from the Superintendent of Buildings having jurisdiction, as provided in Part II., section 4, of this Code. Each application for the erection of any fence, sign, bill board or sky sign, shall be accompanied by the written consent of the owner or owners, or the lessee or lessees of the property upon which it is to be erected.

Sec. 2. All ordinances or parts of ordinances inconsistent or conflicting with the provisions of this ordinance are hereby repealed.

Sec. 3. This ordinance shall take effect immediately.

(Original.)

AN ORDINANCE to regulate the construction of fences, signs, bill boards and sky signs within the building line, being an amendment to Part XXVIII., section 144, of the Building Code, an ordinance providing for all matters concerning, affecting or relating to the construction, alterations, or removal of buildings or structures erected or to be erected in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Part XXVIII., section 144, of the Building Code is hereby amended by striking out the paragraphs relating to fences, signs, and bill boards, beginning with the words "Fences of wood shall not be erected over ten feet high," etc., and ending with the words "and the same shall be properly supported and braced," and substituting in lieu thereof the following words: Fences, signs, or bill boards, within the building line, erected upon uprights or supports extending into the ground, shall not be at any point over ten feet above the surface of the adjoining ground; except that when any such fence, sign or bill board shall be constructed entirely of metal, or of wood covered with sheet metal, including the uprights, supports and braces for same, it shall not be at any point over sixteen feet above the surface of the adjoining ground.

Any letter, word, model, sign, device, or representation in the nature of an advertisement, announcement or direction, supported or attached, wholly or in part, over or above any wall, building or structure, which shall be visible wholly or in part against the sky from any point in the street or ground below, shall be deemed to be a "sky sign."

Sky signs shall not extend or project beyond the building line, and shall be constructed entirely of metal, including the uprights, supports and braces for same, and shall not be at any point over ten feet above that part of the wall, building or structure to which they are attached or by which they are supported. All fences, signs, bill boards and sky signs must be properly secured, supported and braced, and must be so erected as not to be, or become, dangerous. Before the erection of any fence, sign, bill board or sky sign, as herein described, shall have been commenced, a permit for the erection of the same shall be obtained from the Superintendent of Buildings having jurisdiction. Each application for the erection of any such fence, sign, bill board or sky sign, shall be accompanied by the written consent of the owner or owners of the property upon which it is to be erected, and shall state the location of the said property, the location of said fence, sign, bill board or sky sign on said property, and the materials and dimensions of said fence, sign, bill board or sky sign.

Sec. 2. All ordinances or parts of ordinances inconsistent or conflicting with the provisions of said ordinance are hereby repealed.

Sec. 3. This ordinance shall take effect immediately.

FRANKLIN B. WARE, LEOPOLD W. HARBURGER, JOHN C. KLETT, PETER HOLLER, FREDERICK BRENNER, DAVID M. HOLMES, JOHN A. SCHAPPERT, Committee on Buildings.

Alderman Marks moved that the paper be recommitted to the Committee on Buildings, with instructions to report in one week.

Alderman Stewart moved, as an amendment, that it be again laid over and made a special order for 2 o'clock at the next meeting.

Which amendment was lost.

Alderman Walkley moved that the substitute ordinance be amended by striking out the word "eighteen" before the word "feet" in the second paragraph of said ordinance, and inserting in lieu thereof the word "fourteen," and also by striking from the fourth paragraph of said ordinance the word "nine" before the word "feet," and inserting in lieu thereof the word "five."

On motion of Alderman Ware, the special order and amendment were referred to the Committee on Buildings.

I return herewith, without my approval, resolution adopted by the Board of Aldermen on June 10, 1902, permitting Harry C. Kennedy and wife to maintain a chimney at Second street and Eighth avenue, in the Borough of Brooklyn.

GENERAL ORDERS RESUMED.

Alderman Goldwater called up General Order 111, being a report and resolution as follows:

No. 637.

The Committee on Streets, Highways and Sewers, to whom was referred on May 27, 1902 (Minutes, page 461), the annexed resolution in favor of permitting John M. Ruhl to erect a retaining wall in front of No. 691 East One Hundred and Ninety-fourth street, Borough of The Bronx, respectfully

Which report was accepted and the resolution adopted.

Alderman Goodman called up General Order 99, being a report and resolution, as follows:

No. 713—(G. O. No. 99).

The Committee on Finance, to whom was referred on June 10, 1902 (Minutes, page 617), the annexed resolution providing for the issue of Special Revenue Bonds to the amount of \$1,650 for the purpose of meeting the expense incurred and to be incurred for telephone service, ice, etc., in the several courts of the Board of City Magistrates, First Division, respectfully

REPORT:

That, having examined the subject, they believe the proposed resolution to be necessary. These Special Revenue Bonds will be provided for in the Budget next year. An appropriation should have been placed in the Budget for 1902 covering these items. There seems to have been some misunderstanding on the part of the Board of City Magistrates as to whether they should request the appropriation or whether it would come under the appropriations to the Borough President. Because of the misunderstanding no provision was made. It is, of course, necessary that these things should be provided for the courts. The \$1,650 is to be used as follows:

\$1,100 for seven telephones, one for each of the courts; \$364 for supplying ice at the rate of \$1 per week for each court; and \$186 for directories, Penal Codes and Session Laws.

They therefore recommend that the said resolution be adopted.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of one thousand six hundred and fifty dollars (\$1,650), for the purpose of providing the amount necessary to meet the expense incurred and to be incurred for telephone service, ice, Penal Codes, directories and Session Laws, in the several courts of the Board of City Magistrates, First Division.

HERBERT PARSONS, WILLIAM T. JAMES, JOHN L. FLORENCE, JAMES H. MCINNES, JOSEPH A. BILL, FREDERICK W. LONGFELLOW, TIMOTHY P. SULLIVAN, JAMES E. GAFFNEY, Committee on Finance.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative, three-fourths of all the members elected failing to vote in favor thereof.

Affirmative—Aldermen Baldwin, Bennett, Bill, Brenner, Bridges, Chambers, Culk, Devlin, Dickinson, Diemer, Dowling, Downing, Florence, Foley, Gillen, Goldwater, Goodman, Harnischfeger, James, Jones, Keely, Kenney, John T. McCall, Thomas F. McCaul, Malone, Maloy, Marks, Mathews, Metzger, Meyers, Nehrbauer, Oatman, Owens, Parsons, Peck, Porges, Richter, Shea, Stewart, Sullivan, Tebbetts, Twomey, Wafer, Walkley, Ware, Whitaker, Willett, Wirth, President Cromwell, Borough of Richmond; the Vice-Chairman of the Board of Aldermen and the President of the Board of Aldermen—51.

On motion of Alderman Parsons, the above vote was reconsidered and the paper was restored to the list of General Orders.

At this point the Vice-Chairman took the chair.

Alderman James called up General Order No. 98, being a report and ordinance as follows:

No. 706.

The Committee on Finance, to whom was referred on June 10, 1902 (Minutes, page), the annexed resolution providing for Special Revenue Bonds for \$75,000 for the Department of Health and the annexed ordinance providing for an issue of bonds for \$425,000 for the Department of Health, respectfully

REPORT:

upon the said resolution and the said ordinance, as follows:

The Board will recollect that at the meeting on June 3 the Board, upon the recommendation of the Committee on Finance, rejected a resolution which had come from the Board of Estimate authorizing \$500,000 of bonds for the Department of Health. The Board will notice that the amounts in the resolution and ordinance herein reported upon aggregate \$500,000. They relate to that same subject matter. The aggregate is divided into two amounts, as the Health Department wished, for the reason that it is as necessary to spend \$75,000 in repairs, which can only be done by Special Revenue Bonds to be cared for in the Budget next year, as it is \$425,000 in construction. The total of \$500,000 is to be used for the purposes specified in the resolution as to the \$75,000, and so far as possible for the following purposes:

In the Borough of Manhattan, at the Willard Parker and Reception Hospitals, one new pavilion.

In the Borough of The Bronx a station for disinfection and ambulance service, and, if there is sufficient money, some new pavilions.

In the Borough of Brooklyn, at the Kingston Avenue Hospital, one new pavilion.

In the Borough of Queens, a station for disinfection and ambulance service, and, if there is sufficient money, some new pavilions.

In the Borough of Richmond, a station for disinfection and ambulance service, and, if there is sufficient money, one pavilion.

At the Riverside Hospital on North Brother's Island in the Borough of The Bronx, Shelter-house on dock and other shelters.

Additions:

In the Borough of Manhattan, an Annex to the Willard Parker Hospital building, if there is sufficient money.

The Department originally asked the Board of Estimate for over a million dollars for all the foregoing and some other purposes. How far the amount allowed will go the Department cannot tell, but it hopes to spend it in the manner aforesaid. Your Committee are informed that the repairs and alterations are absolutely necessary and the new buildings urgently needed. Your Committee have also been furnished with the following statement of existing conditions:

The Boroughs of The Bronx (exclusive of North Brother Island), Queens and Richmond, are absolutely without hospital accommodations for cases of contagious diseases, and have no arrangements for carrying on proper disinfection. In the Boroughs of Manhattan and Brooklyn and at North Brother Island the present buildings are wholly inadequate, out of repair and of such a character as not to meet the requirements. The Department has been greatly handicapped in caring for contagious diseases in the first three mentioned Boroughs on account of the lack of these facilities. Cases of smallpox have to be carried from Tottenville, S. I., to North Brother Island, a distance of over thirty miles. This long journey is considered very dangerous and detrimental to recovery in these cases. The Department is not able to care for all the cases of scarlet fever, diphtheria, measles, etc., which it should properly do, to stamp them out, in places where proper isolation can not be had. At present only the very worst cases can be cared for. As a result scarlet fever and diphtheria cases are always to be found in large numbers, and will be so until the Department can properly isolate them in its own hospitals.

The only additions to the plant in recent years have been three small frame pavilions at North Brother Island, and one small brick pavilion at the Kingston Avenue Hospital in Brooklyn. A year ago the Riverside Hospital at North Brother Island was overcrowded with smallpox patients, and cases of scarlet fever from The Bronx, Manhattan and Queens had to be taken to the Kingston Avenue Hospital in Brooklyn. This necessitated long journeys for some of these cases, a very imprudent and dangerous arrangement in cases of this character. Last Summer the hospitals were all so crowded that it was necessary to erect tents at the Kingston Avenue Hospital in Brooklyn to care for all the cases that the Department was called upon to treat. At present all the hospital facilities are crowded to the limit, and it is contemplated erecting tents at Riverside Hospital and at Kingston Avenue Hospital should the same number of cases continue to be sent to the hospitals in the coming weeks as have been in the last month or so.

It is hoped under this new scheme to take care of the cases arising in any Borough at hospitals in that Borough. This will reduce the danger arising from carrying patients from their homes to the hospital to a minimum, the distance carried being greatly reduced in comparison with the present service.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of four hundred and twenty-five thousand dollars (\$425,000), the proceeds to be used for the construction of new buildings under the jurisdiction of the Department of Health.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment, June 6, 1902, authorizing the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the amended Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding four hundred and twenty-five thousand dollars (\$425,000) for the purpose of providing means to pay for the construction of new buildings under the jurisdiction of the Department of Health, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue said Corporate Stock of The City of New York, in the manner provided by section 169 of the amended Greater New York Charter, to an amount not exceeding four hundred and twenty-five thousand dollars (\$425,000)."

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICES TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said department, and read, and the award of the contract made according to law as soon thereafter as practicable. Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department. No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to The City.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done. Plans and drawings of construction work may also be seen there. m14
