MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 1755.

City of New York, Office of the Mayor. }
March 16, 1909. }

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, disapproved, resolution No. 1755, adopted by your Honorable Board March 2, 1909, entitled

“Resolution permitting duly licensed pushcart peddlers to stand on East One Hundred and Eighth street, Manhattan.”

My reason for disapproving this ordinance is that I am of the opinion that the Board of Aldermen has no power to authorize the use of the street for this purpose, as it would amount to making a market of this section.

Respectfully,

GEO. B. McCLELLAN, Mayor.

The Committee on Streets, Highways and Sewers, to which was referred on February 9, 1909 (Minutes, page 683), the annexed resolution in favor of permitting pushcart peddlers to occupy part of the carriageway of East One Hundred and Eighth street, between Second and Third avenues, Manhattan, respectfully

REPORTS:

That, having examined the subject, it believes the proposed permission will afford an opportunity to centralize this class of traffic, which is now scattered throughout this vicinity, and thus benefit possible purchasers and users of the streets of this neighborhood.

It therefore recommends that the said resolution be adopted.

Resolved, That permission be and the same is hereby given to pushcart peddlers, duly licensed, to stand for the sale of their wares on each side of the carriageway, near the curb, at suitable distances apart, on East One Hundred and Eighth street, between Second and Third avenues, in the Borough of Manhattan, provided that said carriageway be kept free and clear of any refuse whatsoever, and always subject to the supervision of the President of the Borough and the Commissioner of Street Cleaning, such permission to continue only during the pleasure of the Board of Aldermen.

MICHAEL STAPLETON, JOHN J. McDONALD, J. D. KAVANAGH, JAMES J. NUGENT, WILLIAM DRESCHER, WM. P. CORBETT, HERMAN W. BEYER, Committee on Streets, Highways and Sewers.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

No. 1825.

City of New York, Office of the Mayor. }
March 16, 1909. }

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, disapproved, resolution No. 1825, adopted by your Honorable Board March 2, 1909, entitled

“Resolution permitting P. Goodman to erect a balcony.”

I am of the opinion that this resolution should be reframed so that the proposed balcony would be erected under the general ordinances.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Resolved, That permission is hereby granted to Patrick Goodman, owner of the premises known as No. 257 East One Hundred and Thirty-third street, to erect an iron balcony three feet out from building and four feet along the front of building, with an iron stairs leading to same, to be used as a fire escape and exit, not over 13 feet in height; premises occupied as a factory.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

No. 1826.

City of New York, Office of the Mayor. }
March 16, 1909. }

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, disapproved, resolution No. 1826, adopted by your Honorable Board March 2, 1909, entitled

"Resolution permitting J. Prinkle to keep two platforms, in the Borough of The Bronx."

My reason for disapproving this resolution is that the general ordinances provide for platforms of this kind, and this resolution should be redrafted so as to conform therewith.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Resolved, That permission be and the same is hereby given to J. Prinkle to place and keep two platforms, not exceeding eight feet in length each, within the stoop line in front of his premises, Nos. 88 and 90 Alexander avenue, in the Borough of The Bronx, the said platforms to be used in facilitating the receipt and delivery of merchandise, and to be constructed so as to leave a free passageway for pedestrians at all times; the work to be done at his own expense, under the direction of the President of the Borough, such permission to continue only during the pleasure of the Board of Aldermen.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

Board of Aldermen, Aldermanic Chamber, City Hall, New York:

Dear Sirs—On March 2, by action of the Public Service Commission, the resolution adopted by your Honorable Board on February 23, was referred to the Chief Engineer for a report as to the possibility of constructing and maintaining a subway station at Hicks and Joralemon streets, Brooklyn.

I beg to advise you that the Chief Engineer reports that as to that part of the resolution which refers to an emergency station already constructed at the point in question, there is an error, as the only construction at that point is a ventilating shaft. He further reports that it is not practicable to construct a station or to stop trains at that point, as the elevation of the rail is below high water and that the grade of the tunnel, which is the maximum of 3 per cent., is too steep to permit station stops. It is further pointed out that a station at Joralemon and Hicks streets would be only three blocks from the present station at Borough Hall.

Very truly yours,

TRAVIS H. WHITNEY, Secretary.

The President laid before the Board the following communications from the President of the Borough of Brooklyn:

No. 1892.

The City of New York, Office of the President of the Borough of Brooklyn, }
Brooklyn, March 12, 1909. }

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—Inclosed is submitted for the consideration of the Honorable the Board of Aldermen, a proposed ordinance drafted by the Corporation Counsel amending section 92 of the Code of Ordinances of The City of New York relating to permits issued by Borough Presidents.

More than two years ago the Board of Estimate and Apportionment, with the concurrence of the Board of Aldermen, authorized what is known as the Division of Substructures, in the office of the President of the Borough of Brooklyn, for the purpose of providing means and plans for the scientific and economical use of one of the City's most valuable assets—the subsurface rights in its streets and avenues. This Division, attached directly to the office of the Consulting Engineer here, has since its inception been systematically organized and has prosecuted the work of surveying, accumulating and recording the existence and location of all subsurface constructions, so that at the present time a large amount of data is on record and authority is now sought to afford a legal method for the collection of fees for the use of such data.

The most thickly settled section of the Borough streets was mapped in the beginning of the work, and in the section radiating, generally speaking, from the Borough Hall, about 27 miles of streets have been surveyed and mapped on a large scale, and the various substructures are shown in distinctive colors, each sheet showing about 3½ miles of gas pipes, water pipes, mail tubes, electric conduits, telephone conduits, subways, private tunnels, sewers, as well as other surface and substructures. These accurate locations amount to a total of more than 175 miles.

The fees in the proposed ordinance are similar to those collected in Philadelphia for some years, and at the present time a number of the principal cities in the United States have organized or are about to organize similar bureaus for recording subsurface works.

In addition to the original surveys and locations made by the Engineers of the Division of Substructures, every effort to accumulate all information obtainable relating to existing and new structures being placed by the various public service corporations is being made; and while most of the public service corporations in the Borough of Brooklyn have heartily co-operated in supplying information as to what portion of the City streets they occupy, it has been considered necessary to have some mandatory provision in the ordinance to better enforce the collection of the data to which the City is entitled. The ordinance makes such provision in definite terms, and the Corporation Counsel has further suggested a penalty for non-compliance with this requirement.

I explain this matter in some detail, knowing the interest and assistance you gave in creating this Division in 1906, and for the purpose of bringing in all possible revenue to the City from this organized Bureau, with valuable records at hand, I would urge that the earliest possible action be taken by your Board so that fees may be collected and paid into the treasury of the City.

Very truly yours,

BIRD S. COLER, President, Borough of Brooklyn.

Law Department, Office of the Corporation Counsel,
New York, February 2, 1909.

Hon. BIRD S. COLER, President of the Borough of Brooklyn:

Sir—I have received your communication of January 13, 1909, returning an ordinance prepared by me at your request, regulating the granting of permits for the construction of subsurface structures in the streets and highways of the City, concerning which you suggest certain amendments and additions. You inclose copies of the ordinance as now suggested by you, and ask my approval of the same. I have made a few slight changes in phraseology, not affecting in any way the object sought to be attained, and I have added a penalty to attach in case of refusal or neglect to furnish a plan as provided for in the last two paragraphs. As so amended the proposed ordinance reads as follows:

"AN ORDINANCE to amend section 92 of the 'Code of Ordinances of The City of New York' relating to permits issued by Borough Presidents.

"Be it Ordained by the Board of Aldermen of The City of New York as follows:
"Section 92 of the Code of Ordinances of The City of New York is hereby amended so as to read as follows:

"Section 92. In all cases where provision is made by ordinance that the consent of any Borough President may be obtained to authorize any act to be done, he may grant permits therefor subject to the restriction of the ordinances in relation thereto. And in all cases where provision is made by ordinance or otherwise for permits for the opening of streets or highways for the purpose of constructing subsurface structures therein, the Borough President shall, when practicable, assign the location and furnish to the applicant such information as may be necessary to insure the proper location of such substructures in relation to other substructures in the street or highway affected. For such information the following rates or fees may be charged:

"Permit for substructures, minimum charge without field work, \$5; minimum charge with field work, \$10.

"Permit for substructures, 300 feet or less in length, 8 cents a linear foot where survey is necessary or 5 cents a linear foot where information is taken from office records alone.

"Permit for continuous runs of substructures over 300 feet and not less than 2,500 feet, 5 cents a linear foot.

"Permit for substructures extending over 2,500 feet, 5 cents a linear foot for the first 2,500 linear feet and 3 cents a linear foot beyond such length.

"In all cases applicants receiving permits for the opening of streets or highways for the purpose of constructing subsurface structures therein shall promptly, upon the completion of the work, furnish the Borough President a plan, on durable cloth or paper, showing clearly and distinctly the final location of the substructure. On this plan must be shown full dimensions of the substructure, including all manholes, or junction boxes, and like information and the location of same with reference to the nearest curb and curb intersection. The depth from the surface of the highway or street to the top of the substructure and location and dimensions of any substructures encountered in the course of the work must also be shown.

"In highways or streets where curbs have not been set, reference locations must be made from well defined objects, such as sewer manholes, hydrants, fences and like appropriate objects.

"Any persons or corporation neglecting or refusing to furnish such plan as herein required, shall be liable to a penalty of \$100."

The ordinance above set forth I approve as to form.

Yours respectfully,

G. L. STERLING, Acting Corporation Counsel.

Respectfully yours,

A. EMERSON PALMER, Secretary.

To the Board of Education:

The Committee on Special Schools respectfully reports that it has given careful consideration to the following preambles and resolutions adopted by the Board of Aldermen on January 26, 1909:

"Whereas, There are for the children of the west side, between Twenty-eighth and Fifty-fourth streets, no playgrounds, except the City streets, congested with traffic by trucks and by the freight tracks on Tenth and Eleventh avenues of the New York Central and Hudson River Railroad; be it

"Resolved, That the Board of Education be urged to open the school yards as playgrounds for the children of the west side on school days, between the hours of 3.30 and 4.30 p. m., and from 9 a. m. to 4.30 p. m. Saturdays.

"Whereas, Much damage has been caused to glass windows and street lamps and other property by bands of stone-throwers, so that no plate glass insurance company will insure such property; be it

"Resolved, That the Board of Aldermen request the Board of Education to provide more recreation centres and study rooms at night in this densely populated district, as on the east side."

In connection therewith the Committee has also considered a communication from Hon. Herman W. Beyer, Alderman of the Eleventh District, and communications from the West Side Taxpayers' Association and the Eleventh Avenue Track Removal Association, all relating to the great need of playgrounds for boys and girls on the west side, and for recreation centres and study rooms in that section of the City. The communications referred to were addressed to the President of the Board of Education, who, in acknowledging the receipt of the same, expressed his hearty approval of the plan suggested, and called attention to the fact that, in view of the reductions made in the appropriations requested by the Board of Education for this year, it would not be in the power of the Board to do very much in the way of establishing additional playgrounds, recreation centres, etc., in the near future.

After careful consideration your Committee is of the opinion that the City authorities should be asked to provide additional funds to enable the Board of Education to carry into effect the recommendations of the Board of Aldermen and the associations above mentioned. In our Departmental estimate for 1909, the amount of \$441,752.25 was included for vacation schools, playgrounds, recreation centres, baths, etc. The amount allowed by the Board of Estimate and Apportionment was \$175,000, and this amount has been included in the apportionment of the General School Fund made by the Board of Education on January 27, 1909 (see Journal, pages 111-112). This item shows a reduction of \$266,752.25.

The cost of the activities above mentioned during the year 1908 was approximately \$215,000, and as the amount allowed for the current year is only \$175,000, it is deemed advisable that steps be taken to secure additional funds to the amount of \$40,000. To provide for the additional recreation centres, study rooms, etc., requested by the Board of Aldermen, it is estimated that a further amount of \$15,000 will be required.

Your Committee recommends that the Board of Aldermen be requested to authorize the issue of Special Revenue Bonds for the purpose, and submits the following resolutions for adoption:

Resolved, That the Board of Aldermen be and it hereby is respectfully requested to adopt a resolution requesting the Board of Estimate and Apportionment to authorize the issue of Special Revenue Bonds to the amount of \$55,000, pursuant to the provisions of subdivision 8 of section 188 of the revised Charter, for the purpose of providing means to enable the Board of Education to conduct recreation centres, vacation schools, etc., during the current year, and to provide for additional recreation centres, study rooms, etc., on the west side as requested by the Board of Aldermen in the resolutions adopted by it on January 26, 1909.

Resolved, That, in the event of favorable action by the Board of Aldermen on the request contained in the preceding resolution, the Board of Estimate and Apportionment be and it hereby is respectfully requested to authorize the issue of Special Revenue Bonds to the amount of \$55,000, for the purposes above set forth.

No. 1896.

To the Board of Education:

The Committee on Finance respectfully reports that the Committee on Vocational Schools and Industrial Training has made application for funds to the extent of \$50,000 for the purpose of establishing industrial training in the public schools for the school term commencing next September; also for the establishment of girls' vocational schools from the commencement of the next school term, and for other matters incidental generally to the establishment of industrial training in connection with the public school system.

The Committee on Finance has considered the subject and believes that it is necessary and proper to take steps toward additional funds for the purposes hereinbefore indicated, and as set forth in a communication from Hon. Frederic R. Coudert, Chairman of the Committee on Vocational Schools and Industrial Training, dated March 8, 1909, and hereto attached.

There being no funds available for such extensive educational work, it is recommended that application be made to the Board of Aldermen, and through it to the Board of Estimate and Apportionment for the issue of Special Revenue Bonds.

The following resolution is submitted for adoption:

Resolved, That the Board of Aldermen be and it hereby is requested to authorize and the Board of Estimate and Apportionment to approve and ratify an issue of Special Revenue Bonds to the amount of \$50,000, pursuant to subdivision 8 of section 188 of the Charter, for the purpose of defraying the necessary cost of establishing vocational schools and industrial training in connection with the public school system.

A. EMERSON PALMER, Secretary.

New York, March 8, 1909.

Hon. JOHN R. GREENE, No. 49 Lafayette Street, Manhattan:

My Dear Mr. Greene—I understand that the Finance Committee is to recommend the expediency of the sale of some Revenue Bonds in order to obtain needed funds for the special schools. It seems to me that this is a timely opportunity to call to your attention the advisability of similar action in regard to the vocational schools and industrial training.

The two most necessary things to provide for at the present time are (1st) an industrial school for girls in Brooklyn, because, as you already know, with the meagre resources in our possession under the present Budget, it will be all that we can possibly do to equip one industrial school in Manhattan for boys. Thus no provision whatever could be made this year for industrial education in the Borough of Brooklyn. In addition, it is only fair that the girls should have an opportunity for such industrial education, and I understand that there is a particular demand for it in Brooklyn. Under these circumstances, I feel very strongly that we should endeavor to obtain a sufficient fund to equip and supply with Teachers an industrial school for girls in Brooklyn, such school to be opened in September next. I enclose herewith a memorandum made by the Superintendents showing the estimated cost.

(2d) In addition to this very obvious need, some provision should be made for keeping open at least some of our shops and cooking schools in the afternoon and on Saturdays. This requires provision for extra pay for Teachers. It seems to me anomalous and absurd that these valuable plants or centres should be practically useless to the City after 3 o'clock in the afternoon, and all day on Saturdays. Under these circumstances, a very moderate appropriation to put in operation during the present year at least some of them, seems to me a most reasonable request. I write to you, knowing that you sympathize with these views and sincerely regretted the fact that we did not obtain a larger amount from the Board of Estimate and Apportionment. I subjoin herewith a memorandum of the estimated cost, on which you will see that the amount is slightly under \$50,000. I suggest, to cover contingencies, that your Committee recommend the sale of bonds to the amount of \$50,000.

I remain,

Yours very truly,

FREDERIC R. COUDERT.

The President laid before the Board the following communication from the Local School Board of the Ninth District, Manhattan:

No. 1897.

Department of Education,
Local School Board, District No. 9,
Borough of Manhattan, March 13, 1909.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, New York City:

Dear Sir—At a meeting of the Local School Board of the Ninth District, held February 18, a resolution was passed unanimously praying speedy and favorable action by your Board on the application of the Board of Education for an appropriation of \$55,000, to be expended in improving the playground and recreation facilities of the City.

Pursuant to a resolution recently passed by the Board of Education, \$15,000 of this appropriation will be expended for recreation purposes in the lower west side.

This school district includes the entire lower west side, from Fourteenth street to the Battery, and nowhere in the City are school children provided with fewer opportunities in respect to recreation centres and playgrounds.

Your approval of the application of the Board of Education would undoubtedly prove most beneficial to the health and happiness of the children of this locality.

Yours respectfully,

MARTHA LINCOLN DRAPER, Secretary.

The President laid before the Board the following communication from the Commissioner of Street Cleaning:

No. 1898.

Department of Street Cleaning,
Nos. 13 to 21 Park Row,
New York, March 15, 1909.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, City of New York:

Sir—This Department has just condemned three automobiles, which are to be sold at the next public auction, one 24-horsepower Panhard, 1903 model, one 12-horsepower Panhard, 1897 model, and one 16-horsepower Premier, 1905 model. As you will note, these cars have seen good service in the Department, and they are unfit for further service.

I desire to purchase two automobiles for the use of this Department, to cost not more than eight thousand five hundred dollars (\$8,500).

The Deputy Commissioner in the Borough of The Bronx is at present without a car, and in order to carry on his work it has been necessary to hire a car in times of emergency. The Borough of The Bronx covers a large territory, and the use of an automobile is necessary in order to make proper inspections.

An automobile is absolutely necessary for use by the General Superintendent, who is required to visit the three Boroughs, in conjunction with the Superintendent of Final Disposition, who has to visit all Department dumps in the Boroughs of Manhattan, The Bronx and Brooklyn.

Thorough and frequent inspections of the stables, dumps and all other branches of the Department service are absolutely necessary, and in no other way can this work be done so promptly and so efficiently than by the use of automobiles. Past experience has proven that this is the most effective and economical method to be pursued when the distances to be covered are so great.

I therefore request that your Honorable Board recommend to the Board of Estimate and Apportionment the issue of Special Revenue Bonds to the amount of eight thousand five hundred dollars (\$8,500), for the purchase of two automobiles for the use of this Department.

Respectfully,

WM. H. EDWARDS, Commissioner.

The President laid before the Board the following communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond:

No. 1899.

Department of Parks, Manhattan and Richmond,
The Arsenal, Central Park,
March 11, 1909.

To the Board of Aldermen, The City of New York:

Dear Sirs—Application has been made to me by the authorities of the Metropolitan Museum of Art to apply to your Honorable Board for authority to enter into contract, without public letting, for exhibition cases, furniture for the library and electric light fixtures for the library, all within the building of the Metropolitan Museum of Art, for a sum not to exceed thirty thousand dollars (\$30,000), from an issue of Corporate Stock which has already been authorized for the building and equipping of the Museum. Pursuant to such application, this Department hereby requests such authority.

The reasons therefor are:

First, it is desired that these exhibition cases be of the most modern type adopted by the best museums in the world, and that they be constructed of light metal frames with concealed locks and absolutely dust-proof, and that in the interest of efficiency as well as the economical use of City money, that they be built in this city by a firm of high standing, over whom the Museum authorities could exercise supervision during the progress of the work. If let by open competition, it may happen that some contractor from a distant city might be the lowest bidder, and the cost and inconvenience of proper inspection would be expensive and probably delay the work.

Second, the same reasons apply in connection with the furniture and fixtures for the library, which will be required to be designed and executed in an artistic manner and constant artistic inspection exercised during the work of construction.

Third, the same reasons apply for the electric light fixtures for the library, which will be of special design consistent with the furnishings and purposes of the building.

It has been found by experience that public letting of such equipment is not satisfactory and the best results are not obtained. The approximate estimate of the cost of the three items is as follows:

100 cases (approximate), at an average cost of \$200.....	\$20,000 00
Furniture for the library.....	3,500 00
Electric light fixtures for the library.....	4,000 00
	\$27,500 00

Respectfully,

HENRY SMITH, Commissioner.

No. 1900.

Department of Water Supply, Gas and Electricity,
Nos. 13 to 21 Park Row,
New York, March 15, 1909.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—In the minutes of the meeting of your Honorable Board held on the 9th inst., printed in the City Record of March 11, on page 2799, following the introduction of my application for \$88,435.08 in Revenue Bonds for the Borough of

Richmond, is a report of the Committee on Finance recommending the adoption of a resolution requesting the Board of Estimate and Apportionment to authorize Revenue Bonds, the report being on my request of June 26 last year, when I asked for \$144,704.46 for the purpose of operating, during the balance of that year, the plants of the two private water companies that I was then advised would shortly be turned over to this Department. Possession of these plants, however, was not secured at that time, and, in fact, only one of the companies has been purchased.

There is, therefore, no need of the adoption of the resolution complying with my request of last year, but I earnestly request favorable and quick action on my letter of March 8, 1909.

Respectfully,

JOHN H. O'BRIEN, Commissioner.

Alderman B. W. B. Brown called the attention of the Board to a resolution introduced by Alderman Davis, which he stated related to the above subject, and which, on the recommendation of the Committee on Laws and Legislation, had been placed on file; Alderman Brown moved that this resolution be taken from file.

Which motion was adopted.

The resolution was then ordered to be referred to the Committee on Laws and Legislation.

The Vice-Chairman asked and obtained unanimous consent to introduce the following:

No. 1902.

Whereas, The cold blooded murder of Lieutenant Joseph Petrosino, in Palermo, Sicily, while engaged in secret service for the Police Department of The City of New York, of which he was for many years a member, has deeply stirred the sentiment of the community; and

Whereas, During the many years of duty in behalf of the people of our City in bringing to justice many malefactors of his own race, the great mass of which are peaceable, hard working persons, he displayed indomitable courage and proved himself an exemplar of the standard of excellence and efficiency for which the Police Force of The City of New York is justly noted; therefore

Resolved, That the Board of Aldermen deplores the untimely death of Lieutenant Joseph Petrosino and joins in the generally expressed wish that his cowardly assassins may be speedily brought to justice.

Resolved, further, That sincere sympathy be and hereby is extended to the wife and family of the late Lieutenant Joseph Petrosino, and that a copy hereof suitably engrossed and duly authenticated by the City Clerk be transmitted to Mrs. Joseph Petrosino.

Which was unanimously adopted by a rising vote.

The Committee on Public Letting, to which was referred on February 9, 1909 (Minutes, page 565), the annexed resolution authorizing the Commissioner of Water Supply, Gas and Electricity to purchase hydrants for high pressure service at a cost not to exceed \$62,387.50, respectfully

REPORTS:

That Deputy Commissioner Loughman appeared before the Committee and explained that inasmuch as tests aggregating three years in duration had established the superiority of the make of hydrant called for in the resolution, this permission would result in a saving to the City of the amount which it would cost to advertise for bids and prepare specifications. The Committee recommends that the said resolution be adopted.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized and empowered to purchase without competitive bids and proposals, 575 high pressure fire service hydrants from the A. The Committee on Public Letting, to which was referred on February 23, 1909 (Minutes, page 739), the annexed communication from the Fire Commissioner, asking for authority to purchase coal without public letting, at a cost not to exceed \$25,000, respectfully

REPORTS:

That Deputy Commissioner Whitney and the Commissioner's Secretary appeared before the Committee and reiterated the facts set forth in the letter from the Commissioner. It was stated that the total appropriation for this purpose was \$150,000, and this amount was necessary to enable the Department to proceed until the coal situation had become settled, so that less exorbitant bids could be secured. For some sections no bids had been received. The Committee recommends that the accompanying resolution be adopted.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Fire Commissioner be and he is hereby authorized to purchase in open market without public letting, at the lowest procurable price for the required quality, coal for the fireboats, houses, etc., of the Department, in quantities as may be needed at a cost not to exceed an aggregate amount of twenty-five thousand dollars (\$25,000), in the following proportions:

For the Borough of Manhattan.....	\$7,000 00
For the Borough of Brooklyn.....	5,000 00
For the Borough of Queens.....	5,000 00
For the Borough of Richmond.....	2,000 00
For the Borough of The Bronx.....	6,000 00

Nos. 157 and 159 East Sixty-seventh Street,
Manhattan, February 19, 1909.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, City Hall, New York:

Sir—I have the honor to request that the Honorable Board of Aldermen will adopt a resolution permitting the Fire Commissioner to purchase, in the open market, coal for the fireboats, houses, etc., in quantities that may be required from time to time during the next few months.

In explanation of this request, I have to say that at public letting held in this office on the 8th inst. there was practically no competition and the prices were higher than the coal can be purchased at private sale at the present time. It is believed that if authority is granted by your Honorable Board, it will result in a saving to the City. It is estimated that the expenditures necessary for this purpose will be as follows:

Borough of Manhattan.....	\$7,000 00
Borough of Brooklyn.....	5,000 00
Borough of Queens.....	5,000 00
Borough of Richmond.....	2,000 00
Borough of The Bronx.....	6,000 00

Respectfully,

NICHOLAS J. HAYES, Fire Commissioner.

The Committee on Public Letting, to which was referred on February 16, 1909 (Minutes, page 692), the annexed communication from the Tenement House Commissioner asking for authority to purchase typewriters without public letting at a cost not to exceed \$3,700, respectfully

REPORTS:

Commissioner Butler stated that owing to the large increase in work, he had recently appointed a large additional force, and in order to utilize their services he needed these typewriting machines. He stated that he wished to buy them without public letting so that he might buy the particular make of machine considered best in the judgment of all of his employees best qualified to select.

The Committee recommends that the accompanying resolution be adopted.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Tenement House Department be and it is hereby authorized to purchase, without public letting, at the lowest procurable price, forty-one (41) typewriting machines of a quality to meet the requirements of the Department, the total cost of such machines not to exceed three thousand seven hundred dollars (\$3,700).

No. 44 East Twenty-third Street,
New York, February 11, 1909.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen, City Hall, N. Y.:

Dear Sir—I respectfully request that under section 419 of the Charter of The City of New York, that this Department be authorized to purchase forty-one (41) typewriting machines without public letting, the total cost of said machines not to exceed \$3,700.

The reasons for this are, first, that the typewriting machines desired are manufactured under a patent and if competing bids were obtained, it would be necessary to purchase low priced machines, which would not answer the requirements of the Department. Second, the machines are required at once, and it is therefore necessary to secure the machines without advertising.

Yours respectfully,

EDMOND J. BUTLER, Commissioner.

Report of Committee on Laws and Legislation—

No. 1809.

The Committee on Laws and Legislation, to which was referred on February 23, 1909 (Minutes, page 753), the annexed ordinance in favor of amending the Code of Ordinances (section 364 of article 4 of chapter 7 of part 1), relative to stands within stoop lines, respectfully

REPORTS:

That, having examined the subject, they believe the proposed amendment to be eminently proper. That before a stand owner can better his condition he must get the consent of a property owner who may have originally granted him permission to occupy space in front of his premises, whether with or without consideration, implies a sort of quasi slavery, a lien on a man's liberty and industry, and is really verbiage of a mischievous character. Your Committee therefore recommends that the said ordinance be adopted.

AN ORDINANCE to amend section 364 of article 4 of chapter 7 of part 1 of the Code of Ordinances relating to "Stands within the stoop lines, etc."

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Section 364 of article 4 of chapter 7 of part 1 of the Code of Ordinances of The City of New York, relating to "Stands within the stoop lines, etc.," is hereby amended so as to read as follows:

Sec. 364. Every such stand must be strictly within the stoop line and shall not be an obstruction to the free use of the sidewalk by the public, and shall not exceed the space of 6 feet long by 4 feet wide, except that in the case of bootblack stands a space not more than 3 feet wide and 4 feet long may be occupied by each chair of such stand. The construction and erection of all stands permitted by this ordinance shall be at the expense of the applicant and under the direction of the President of the Borough in which said stand is located. No person shall be permitted to sleep in any portion of the structure or hold more than one license. The Mayor, or Chief of the Bureau of Licenses, shall have power to transfer a permit or license to another location for the period of its unexpired term; provided, however, that the application for such transfer shall be accompanied (by the written revocation of the owner's consent previously given therefor) by the consent of the owner of the premises to which the proposed transfer is to be made and by the consent of the Alderman of the district in which said premises are located.

Sec. 2. This ordinance shall take effect immediately.

Note—Old matter, in parenthesis (), to be omitted.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Kenney moved the adoption of this report.

The Vice-Chairman put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Bent, J. W. Brown, Carter, Colgan, Collins, Corbett, Crowley, Delaney, Doull, Dowling, Downing, Drescher, Flanagan, Flynn, Goldschmidt, Grimm, Gunther, Handy, Heffernan, Hickey, Hines, Hochdorffer, Hogan, Kavanagh, Kenneally, Kenney, Levine, Loos, McAleer, McCann, McDonald,

Moskowitz, Mulcahy, Mulligan, Nagle, Nugent, O'Reilly, Reardon, Rendt, Smith, Stapleton, Velten, Walsh, Weston; President Cromwell, President Haffen and the Vice-Chairman—49.

Report of Committee on Bridges and Tunnels—
No. 1884.

REPORTS:

That having examined the subject, they believe the proposed permission to be desirable. The bridge will be a public convenience and is to be erected under conditions and stipulations carefully conserving the rights of the United States and the authority of the Supervisors of the County of Nassau and of the Commissioner of Bridges of The City of New York. It therefore recommends that the said resolution be adopted.

Resolved, That permission be and the same is hereby given to Margaret A. Hill to place, erect and maintain a bridge approach and a bridge over Hook Creek, from a point on the Jamaica and Rockaway Turnpike road, in the Borough of Queens, over the private property of said Margaret A. Hill to a place known as Hungry Harbor South, in the Town of Hempstead, in the County of Nassau, also owned by said Margaret A. Hill, as shown on the accompanying diagram; the said bridge to be open always for the convenience of the public as foot passengers only, without fee, and to be built and maintained at the expense of the said Margaret A. Hill, under the supervision of the Commissioner of Bridges, it being agreed that this consent is granted on the express stipulation that the proper consents be first obtained from the War Department of the United States, from the Supervisors of the County of Nassau and the Commissioner of Bridges of The City of New York, before said consent becomes operative.

REPORTS:

That, having examined the subject, it believes the proposed issue to be necessary for the proper operation and maintenance of these facilities which have been but recently acquired by the City. Inclosed you will please find an estimate which I have prepared giving the amount required for the proper operation and maintenance of the water companies' plants for the balance of this year.

I would respectfully request that the Honorable Board of Aldermen provide for an issue of Special Revenue Bonds in the sum of \$144,704.46 for the works and purposes referred to in the above mentioned estimate.

JOHN H. O'BRIEN, Commissioner.

Which was placed on file.

The Vice-Chairman called up General Order No. 140, being a report and resolution, as follows:

MOTIONS, ORDINANCES AND RESOLUTIONS, RESUMED.

Alderman Levine asked and obtained unanimous consent to introduce the following:

No. 1903.

Whereas, Effort is being made to secure a site in Central Park for exhibition purposes by the National Academy of Design, by act of Legislature, and

Whereas, Many minds are in conflict on the question, the diversity of opinion exciting the notion that such proposition, if adopted, may lead to other persons and associations seeking like privileges, which may curtail greatly the too scanty area set apart for public recreation; therefore

Resolved, That the Committee on Laws and Legislation be and hereby is instructed to hold a public hearing on the question involved, and upon opinion expressed thereat formulate and present to the Board for its consideration an ordinance which will preclude the setting aside of sites in public parks or squares, for such purposes.

Which was referred to the Committee on Laws and Legislation.

GENERAL ORDERS RESUMED.

Alderman McAleer called up General Order No. 135, being a report and resolution, as follows:

No. 1611.

The Committee on Public Letting, to which was referred on January 19, 1909 (Minutes, page 346), the annexed communication from the Trustees of Bellevue and Allied Hospitals to buy fresh fruits and vegetables during 1909 to an amount not to exceed \$11,200, respectfully

REPORTS:

That Dr. Brannan appeared before the Committee and stated that this permission was an annual one and was asked for the reason that more satisfactory service could be secured by the system of purchasing these perishable commodities in open market than by contract, without any increase in price; that the increase in amount asked for was caused by taking over the Nurses' Home with 145 nurses and 30 servants. The Committee believes that this matter of fruit and vegetables is one that is so closely connected with the health of the patients and employees that it may well defer to the dictates of the experience of the Department, and it therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Board of Trustees of Bellevue and Allied Hospitals be and hereby is authorized and empowered to purchase in the open market, without public letting, the fresh fruits and vegetables required by the Hospitals of the Department during the year 1909 in an amount not to exceed eleven thousand two hundred dollars (\$11,200).

FRANK L. DOWLING, JAMES J. SMITH, G. A. COLGAN, THOS. J. MULLIGAN, JOSEPH FLANAGAN, FREDERICK C. HOCHDORFFER, JOHN S. GAYNOR, Committee on Public Letting.

Board of Trustees, Bellevue and Allied Hospitals,
Foot of East Twenty-sixth Street,
New York, January 18, 1909.

Board of Aldermen, City Hall, New York City:

Gentlemen—The Board of Trustees of Bellevue and Allied Hospitals respectfully requests permission from the Board of Aldermen to buy fresh fruits and vegetables required by the Hospitals of the Department during the year 1909 in an amount not to exceed \$11,200. The Trustees find it necessary to ask for an increased allowance this year on account of opening the new Nurses' Training School, with 145 nurses and 30 servants. The Trustees have fixed the allowance for the various messes at the lowest possible figure, and hope therefore that prompt action may be taken by your Board in allowing the purchase of the necessary fruits and vegetables without public letting, in an amount not exceeding \$11,200.

Respectfully,

J. K. PAULDING, Secretary, Board of Trustees.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

President Cromwell called up General Order No. 145, being a report and resolution, as follows:

No. 1645.

The Committee on Finance, to which was referred on January 26, 1909 (Minutes, page 418), the annexed communication from the President, Borough of Richmond, asking for an issue of \$4,000 Special Revenue Bonds to pay for services in procuring and filing of data on cost of sewer and highway maintenance, respectfully

REPORTS:

That Commissioner Tribus appeared before the Committee and stated that it was imperative, under the orders of the Board of Estimate and Apportionment, that this work be done, and that he had no force with which it could be performed. He had, however, separated the two Bureaus, and asked that this request be cut to \$2,000 to cover the Bureau of Sewers only. The Committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of two thousand dollars (\$2,000), the proceeds whereof to be used by the President of the Borough of Richmond for the purpose of employing an Assistant Engineer of experience and judgment in the Bureau of Sewers.

Office of the President of the Borough of Richmond,
Borough Hall, New Brighton,
New York City, January 23, 1909.

Board of Aldermen, City of New York:

Gentlemen—At its meeting on January 22, the Board of Estimate and Apportionment directed the procuring and filing of data throughout the year, upon which detailed costs of sewer and highway maintenance can be shown, so that the City may have uniform comprehensive information upon which to base successive Budget allowances. This work, not contemplated in the Budget for 1909, will call for, in Richmond, the services of two Assistant Engineers of experience and judgment, one for each of our maintenance Bureaus of Sewers and Highways. We have facilities for providing the necessary transportation for these two men, but have no funds with which to meet their prospective salaries. It will take men of the \$2,000 grade to do the work required.

We would ask, therefore, that an issue of Special Revenue Bonds in the sum of \$4,000 be authorized for carrying on this work during the current year, 1909.

Yours respectfully,

GEORGE CROMWELL, President, Borough of Richmond.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

The Committee on Finance, to which was referred on March 2, 1909 (Minutes, page 759), the annexed communication from the President, Borough of Richmond, asking for \$4,500 Special Revenue Bonds for collecting highway statistics, respectfully

REPORTS:

That, having examined the subject, it believes the proposed issue to be necessary to properly carry into effect the mandates of the Board of Estimate and Apportion-

ment, Commissioner Tribus having assured the Committee that the present force and facilities are inadequate. It therefore recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of four thousand five hundred dollars (\$4,500), the proceeds whereof to be used by the President of the Borough of Richmond for the purpose of gathering, collating and promulgating various statistics required by the Board of Estimate and Apportionment.

Borough Hall, New Brighton, }
New York, March 1, 1909. }

Board of Aldermen, City Hall, New York City:

Gentlemen—At its meeting Friday, February 26, the Board of Estimate and Apportionment passed a resolution asking the different Borough Presidents to have daily engineering reports filed, covering highway maintenance work, so that when the time comes to consider Budget appropriations, intelligent and comparable information will be at hand showing materials used and labor accounts, so that unit costs may be compiled for different classes of pavements. As this matter was not considered in the Budget, the Board of Estimate and Apportionment suggested that requests be made for Special Revenue Bonds to the amounts necessary in each Bureau for properly gathering the information.

We have made such a request for the Sewer Bureau, which is now before the Finance Committee, and would now request for the highway work the sum of \$4,500 for the remainder of the year 1909, to provide for the following:

- One Assistant Engineer.
- One Transitman or other Helper.
- One new runabout automobile.

To get the greatest advantage from the figures, we should commence gathering the statistics at once, so should have a special fund to call upon for the expenditures at the earliest possible date, as other appropriations do not warrant the drafts, in fact, are already insufficient, as stated heretofore when request was made to augment the engineering (construction) appropriation.

Yours respectfully,

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Whereas, There has been presented in the State Legislature a bill to authorize the placing of the National Academy of Design in Central Park on the site now occupied by the Arsenal; and

Whereas, The enactment of such legislation would establish a bad precedent and numerous demands for placing other institutions there would undoubtedly follow; and

Resolved, That the Board of Aldermen hereby expresses its disapproval of said bill and regards it as inimical to the best interests of the people of our City and does hereby request all members of the Legislature from this City to oppose said bill to the end that Central Park may remain unobstructed and continue to be one of the most beautiful, natural and genuine parks to be found in any great city of the world.

Whereas, Several of the ferry boats recently placed in operation between the foot of East Twenty-third street, in the Borough of Manhattan, and the foot of Greenpoint avenue, in the Borough of Brooklyn, are the source of constant and serious complaints on the part of the many who are compelled to cross the East River thereon, the burden of said complaints being:

First—That they are poorly lighted at night, thus denying convenience to those who choose to while away the time by reading.

Second—That the cabins of said boats provide only discomfort for the reason that leaky roofs let in the rain, thus menacing the health of passengers; therefore

DEPARTMENT OF PARKS.

REPORT FOR THE QUARTER ENDING SEPTEMBER 30, 1908.

Department of Parks, Manhattan and Richmond,
The Arsenal, Central Park,
October 10, 1908.

Hon. GEORGE B. McCLELLAN, Mayor:

Sir—I have the honor to submit herewith, in accordance with the provisions of the Charter, quarterly report of the operations and finances of the Department of Parks, Boroughs of Manhattan and Richmond, for the three months ending September 30, 1908.

Respectfully,
HENRY SMITH, Commissioner.

DEPARTMENT OF PARKS,

BOROUGH OF MANHATTAN AND RICHMOND.

Report for the Quarter Ending September 30, 1908.

The cleaning of drives, bridle paths and walks in the parks and parkways of Manhattan and Richmond was given the necessary attention; also the watering of drives, weeding, cultivation and cutting of grass in the lawns and grass borders. The usual summer pruning, seeding and sodding was carried on, and the lawns and plantations kept in a creditable condition. Quantities of manure have been used upon impoverished spots in the parks, with the result that many of the unsightly areas have been greatly improved.

The force at the Conservatory in Central Park has been engaged in the propagation and growing of chrysanthemums for the fall display.

Extensive repairs were made to the drives in Central and Riverside Parks, practically all these drives having been resurfaced with fresh gravel, and rolled with steam rollers, all the work being done by the Department labor force.

Experiments were undertaken to solve the problem of a satisfactory dust-laying compound for sprinkling the park drives. The use of Texas crude oil combined with a soap emulsion was found to give the best results.

A large force has been constantly employed in Central Park in the section below Seventy-second street in restoring the lawns and plantations. Thousands of yards of fertile mold were spread upon the lawns and slopes in this part of the park, the deposit varying from six inches to two feet, according to the condition of the soil, and many shrubs were added to the plantation. Climbers and pruners were engaged under the direction of an expert arboriculturist in thinning out overcrowded plantations of the park. Many dead trees were removed and new trees planted in their places.

The laboring forces of the Department have been engaged in the cleaning and repair of the drives and walks, in the general maintenance work and repair of park property.

The park concerts were continued during the quarter, ending during the latter part of September. Many requests were received for additional concerts, but owing to the lack of money, such requests could not be complied with.

The construction of an entrance to the bridle path at Sixty-second street and Eighth avenue was begun during the summer by the Department force and practically completed during this quarter.

Work on the improvement of St. Nicholas Park south of One Hundred and Thirty-fifth street progressed during the quarter, and the construction of Colonial Park north of One Hundred and Forty-ninth street was completed.

Work in connection with the contract for furnishing and erecting a three-rail pipe fence around the grass plots in City Hall Park was completed, and the second coat of paint applied.

The improvement of the small plots on Broadway, between Sixtieth and One Hundred and Twenty-second streets was begun during the quarter. This work included the removal of the top layer of mold and the excavation of the underlying materials to a depth of about two feet, the spreading of mold previously excavated and depositing from the sub-grade to the finished grade of the curb fresh garden mold.

The work of raising the grade of Riverside drive at One Hundred and Twenty-seventh street, made necessary by the defective conditions of the approaches to the viaduct carrying the drive over Manhattanville, was begun in July. This improvement included the furnishing and depositing of clean earth fill on the line of the drive and in slopes adjacent, the setting of bluestone curb, the building of Telford macadam drive with a gravel superstructure, the laying of asphalt walks, the spreading of mold, the laying of sod, the installing of a water supply and drainage system with the necessary basins.

The Department force continued the resurfacing and regrading of Riverside drive, laying new asphalt gutters on said drives and property roads, and installing new drainage systems where required.

The work of installing a new water supply system for the Harlem River driveway was completed during the quarter, the contract for the section between One Hundred and Seventy-fifth and Dyckman streets having been completed during 1907.

Repairs to the asphalt walks of Riverside Park, made necessary by change of grade of curbs, raising and lowering of gutters, was completed, 1,390 square feet of asphalt walk being laid.

The necessary attention was given to the repair of roadway pavements of avenues, streets and public places under the supervision of this Department.

In addition to the construction work above described the Engineering Force has been engaged in the preparation of surveys, working drawings, estimates of cost, specifications, contract plans, etc. The routine work of tabulation of bids, inspection of materials and work, cement testing, etc., was also carried on.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN THAT the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction all the buildings, parts of buildings, etc., now standing upon property owned by The City of New York, acquired by it for street opening purposes, in the

Borough of Brooklyn.

Being all those buildings, parts of buildings, etc., lying within the lines of Avenue T, from Coney Island avenue to Ocean parkway, all of which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Sinking Fund Commissioners adopted at a meeting held March 16, 1909, the sale of the above-described buildings and appurtenances thereto will be held by direction of the Comptroller on

THURSDAY, APRIL 1, 1909

at 1:30 p. m., upon the premises, upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the

their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession, will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than 2 feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

Beginning at and connecting with the proposed tracks of the Company to be constructed upon a route for which a franchise was granted by a contract dated February 1, 1909, on Chestnut street at Murray lane; thence northerly in and upon Murray lane to Higgins lane; thence easterly in and upon Higgins lane to a point where Ninth avenue if extended would intersect said Higgins lane; thence northerly through private property along the line of Ninth avenue to Fourth street; thence westerly in and upon Fourth street to Eighth avenue; thence northerly in and upon Eighth avenue to Twenty-first street; thence easterly in and upon Twenty-first street to Eleventh avenue; thence northerly in and upon Eleventh avenue to a point about 300 feet north of the north side line of the Boulevard in the former Village of Whitestone, all in the Borough of Queens.

(1) Beginning at and connecting with the proposed tracks of the Company to be constructed upon the route for which a franchise was granted to the Company by a contract dated February 1, 1909, in Chestnut street at Van Riper avenue, so called; thence northerly in and upon Van Riper avenue to and across Bayside avenue; thence northerly through private property to Higgins lane at a point whereon westerly from the intersection of said Higgins lane with Seventh avenue; thence easterly in and upon Higgins lane from said point to Seventh avenue; thence northerly in and upon Seventh avenue to Fourth street; thence easterly in and upon Fourth street to Eighth avenue, and there connecting with the route first herein described.

(3) Beginning and connecting with the proposed tracks of the Company to be constructed upon the route for which a franchise was granted to the Company by a contract dated February 1, 1909, in Chestnut street, at a point near the intersection of Central avenue with Chestnut street; thence northerly upon private property, and crossing Bayside avenue; thence, still upon private property, to Higgins lane, at a point thereon near the intersection of said Higgins lane with Seventh avenue; thence in and upon Higgins lane to Seventh avenue; thence northerly in and upon Seventh avenue to Fourth street; thence easterly in and upon Fourth street to Eighth avenue, and there connecting with the route first herein described.

The said routes, with switches and cross-overs, are shown upon a map entitled:

"Map showing proposed street surface railway of the New York and North Shore Traction Company in the Borough of Queens, to accompany petition for a franchise to the Board of Estimate and Apportionment, dated December 17, 1908, and also petition dated January 18, 1909, to said Board."

—and signed by John J. Stanley, President, and Charles H. Clark, Consulting Engineer, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional switches and cross-overs which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—It is agreed that the Company before commencing construction on any portion of the routes herein described lying between Chestnut street and the intersection of Fourth street with Eighth avenue, shall notify the Board in writing which one of the three routes herein described between Chestnut street and the intersection of Fourth street with Eighth avenue the Company selects and adopts as the route upon which it shall construct the railway. Upon such notification by the Company to the Board all of the rights and privileges hereby granted upon the routes not so selected and designated shall be considered null and void and of no effect, and the Company shall be deemed thereupon to have waived all rights or franchises which are hereby granted upon the routes not so selected and designated by the Company. The Company further agrees that it shall select and designate its route as herein provided not later than six months from the date upon which this contract is signed by the Mayor.

Second—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within six (6) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Third—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor until February 1, 1934, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one year

before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Fourth—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of five thousand dollars (\$5,000) in cash within four (4) months after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum, which shall in no case be less than one thousand five hundred and seventy-five dollars (\$1,575), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of one thousand five hundred and seventy-five dollars (\$1,575).

During the second term of five (5) years an annual sum, which shall in no case be less than two thousand six hundred and fifty dollars (\$2,650), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of two thousand six hundred and fifty dollars (\$2,650).

During the third term of five (5) years an annual sum, which shall in no case be less than two thousand nine hundred dollars (\$2,900), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of two thousand nine hundred dollars (\$2,900).

During the fourth term of five (5) years an annual sum, which shall in no case be less than three thousand eight hundred and fifty dollars (\$3,850), and which shall be equal to six (6) per cent. of its gross annual receipts, if such percentage shall exceed the sum of three thousand eight hundred and fifty dollars (\$3,850).

During the remaining term of five (5) years an annual sum, which shall in no case be less than four thousand two hundred dollars (\$4,200), and which shall be equal to six (6) per cent. of its gross annual receipts, if such percentage shall exceed the sum of four thousand two hundred dollars (\$4,200).

The gross annual receipts mentioned above shall be that portion of the gross earnings of the Company from all sources within the limits of the City as shall bear the same proportion to such gross earnings as the length of the extension hereby granted shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimums shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law as amended.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes, of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fifth—The annual charges or payments shall continue throughout the whole term of this contract, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payments for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege, upon the same or other terms and conditions, over the same streets and avenues hereinbefore described.

The use of said railway which shall be constructed by the Company under this contract, including the tracks, wires and other equipment, or

any structure in public streets and avenues owned by the Company and used in connection therewith, shall be permitted by the Company to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets and avenues hereinbefore described, for street railway purposes, for a distance not exceeding two thousand (2,000) feet, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railway and structures, and of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract in connection with the maintenance or the operation of the said railway so used. Provided, however, that if in the opinion of the Company the legal rate of interest of the cost of such railway shall be an insufficient sum to pay for the use of such tracks, it may appeal to the Board, and the Board may fix a percentage of the cost to be paid to the Company at a sum in excess of the legal rate of interest, if in its opinion such action is justified.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company pursuant to this contract.

Seventh—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Eighth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Ninth—The Company shall commence construction of the railway herein authorized within six (6) months from the date upon which the consents of the property owners are obtained, or from the date upon which the decision of the Appellate Division of the Supreme Court that such railway ought to be constructed is rendered in lieu of such consents, and shall complete the construction and place the same in full operation within eighteen (18) months from the date of obtaining such consents or such decision, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company; and provided, further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Tenth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time the rights hereby granted shall cease and determine.

Eleventh—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structure in the streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Twelfth—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Queens, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Provided, however, that the Board, at any time after the first ten (10) years of this contract, upon giving to the Company one year's notice, may require the Company to operate its railway upon the whole or upon any portion of its route by underground electric power substantially similar to the system now in use on the street surface railways in the Borough of Manhattan, or by any

other practical motive power then in use which does not require the use of poles and overhead wires in the streets and avenues, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets and avenues of the City.

Thirteenth—Upon six (6) months' notice by the Board to the Company all wires for the transmission of power, except trolley wires, for the operation of the railway, upon all or any portion of the route hereby authorized, shall be placed in conduits beneath or alongside of the railway. The Company shall provide in such conduits two (2) ducts not less than three (3) inches in diameter for the exclusive use of the City. Such ducts shall be used only by the Company for the operation of its railway, and by the City as above.

Fourteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on said railway, or a line or branch operated in connection therewith, to any point thereof, or of any connecting line or branch thereof, within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fifteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars, cars for the transportation of express matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

The rate for the carrying of such property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, and may be fixed by the Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, its successors or assigns, and no greater sum shall be charged for such service than provided for by it.

Sixteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Seventeenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Eighteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Nineteenth—Cars on the said railway shall run at intervals of not more than thirty minutes, both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board. Provided, however, that the Company during the first five years of this contract, shall not be required to operate its cars between the hours of 1 o'clock a. m. and 5 o'clock a. m., each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Twentieth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall cause to be watered at least three times every twenty-four hours when the temperature is above 35 degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed sixty (60) feet between curb lines, in which case the Company shall cause to be watered only sixty (60) feet in width of such roadway, and the Company shall provide for such purpose at least one tank car the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Twenty-first—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the President of the Borough of Queens, enter into an agreement for each winter season or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-second—As long as the said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-third—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-fourth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized, be changed at any time after the railway has been constructed, and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said street the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-fifth—Should, in the opinion of the President of the Borough of Queens, the present roadway of any of the said streets and avenues be of insufficient width to accommodate both railway and other vehicular traffic, the Company shall widen such roadway under the direction of the President of the Borough of Queens to a width sufficient to accommodate such traffic, provided that no roadway shall be widened beyond the total width of the street or avenue.

Twenty-sixth—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner as directed by the City officials having jurisdiction over such public work.

Twenty-seventh—If at any time before or during construction of the railway the Board

should deem any of the streets and avenues on which said railway is to be constructed of insufficient width to accommodate both railway and other vehicular traffic, the Company shall either construct and operate its railway upon a private right of way outside of the lines of such streets, or avenues, or shall purchase and cede to the City a strip of land adjacent thereto, for the purpose of widening the same to a width sufficient for the use of a street surface railway and for the accommodation of other vehicular traffic. If such street or avenue is so widened the Company shall grade the roadway thereon as directed by the City official having jurisdiction over the construction of streets and avenues.

Twenty-eighth—Where the bridges, viaducts or culverts encountered in the route are of insufficient width to carry the roadway as the same may be widened as herein provided, or of insufficient strength to bear the additional load of a street surface railway, the Company shall either carry its tracks upon new structures independent of the existing ones, so as not to interfere with the present and future use by the City of such bridges, viaducts or culverts, or shall, without cost to the City, construct new bridges, viaducts or culverts sufficiently wide to carry the roadway as the same may be widened, as herein provided.

Provided, however, that the Company shall not be required to pay the portion of the cost of strengthening or rebuilding of the existing bridge across the tracks of the Long Island Railroad at Eighth avenue, which the Long Island Railroad Company shall be required to pay, pursuant to law.

Twenty-ninth—The Company hereby agrees that if the City is or shall become entitled to acquire, and shall at any time during the term of this contract acquire, or otherwise come into possession of any of the property on which this Company shall construct railway tracks, on the route herein described, no compensation shall be awarded for the right to have railway tracks thereon.

Thirtieth—The Company shall submit to the Board a report, not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Thirty-first—The Company shall at all times keep accurate books of account of the gross earnings from all sources, within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross earnings, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Thirty-second—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day, not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear action may be taken by the Board forthwith.

Thirty-third—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Thirty-fourth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues in which the Company is authorized to operate.

Thirty-fifth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-sixth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with

the Comptroller of the City the sum of five thousand dollars (\$5,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railway, and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or, after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or, in case of failure to keep the said terms and conditions of this contract relating to the roadway, heating and lighting of cars, fenders, wheel guards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of the violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its President, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of five thousand dollars (\$5,000), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-seventh—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-eighth—The words "streets or avenues" and "streets and avenues," wherever used in this contract, shall be deemed to mean "streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title," encountered in the route hereinabove described, and upon or in which authority is hereby given to the Company to construct a railway.

Thirty-ninth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This grant is also upon the further and express condition that the provisions of the Railroad Law, pertinent hereto, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
