NEW YORK, Dec. 31, 1873.

To the Board of Police:

Since my last report, which embraced the period in which the general election of 1872 occurred, the general registration and election for 1873 have taken place.

The total registration in 1872 was..... 149,008  
The total vote was..... 134,947  
In 1873, the total registration was..... 123,881  
And the total vote was..... 105,634

All the material provisions of law relating to the filing of registry books in this bureau, as well as triplicate copies of the canvass of the votes, and poll clerks tallies, have been complied with.

Section 9 of the election act provides that "it shall not be lawful for said board to thereafter alter or change either the number or boundaries of any election district so fixed by them save in such years as by law the said city and county is re-districted by assembly districts \* \* \*."

Since the passage of that act, the Legislature has passed another, (Chapter 798, Laws of 1873), dividing the State into Congressional districts.

The Eighth Avenue being a Congressional district boundary by said act, runs through and cuts in twain seven election districts of the Seventeenth Assembly District.

In the Twentieth Assembly District a similar division of three election districts is made by the Third Avenue, which, by the same act, is established as the boundary of another Congressional district.

It seems therefore to be necessary that an amendment to said Section 9 be recommended to the Legislature, permitting the Board of Police to revise and change the election district boundaries in the two Assembly Districts named, so as to correct such an anomalous condition of things.

The additional power should be obtained to divide election districts which have already outgrown the Act of 1872, having become so populous that complaints are made by citizens of serious inconvenience, if not actual

disfranchisement by reason of the large number of voters, exceeding six hundred in some cases, whereas the election law contemplates a maximum number of two hundred and fifty.

It is also suggested that discretionary power should be obtained, to consolidate an election district with another adjoining when the vote falls below one hundred, provided the districts so consolidated do not contain more than three hundred and fifty voters.

By the Act of 1872 it was made incumbent on the Board of Police to advertise in "five daily newspapers published in the city of New York, having the largest city circulation," thus leaving the Board no alternative but to ascertain the newspapers which were entitled to the advertising under the law, and leaving the papers at liberty to charge their full rates for the service.

An amendment to this law, procured in 1873, has (it is believed without prejudice to the objects sought) reduced the expenses of advertising from \$32,800 to \$3,122.

The following is a statement of expenses of the last registration and election:

Compensation of Inspectors, as fixed by statute at \$7 50 per day.....	\$77,700 00
Compensation of poll clerks, as fixed by statute at \$7 50 per day.....	7,770 00
Compensation of lessors of places of registry and election.....	18,130 00
Bills of newspapers for advertising.....	3,122 10
Fitting up polling places.....	1,717 00
Carting ballot boxes.....	604 10
Stationery, maps, books, blanks, etc.....	5,781 00
Total.....	\$114,824 20

Notwithstanding the pay of inspectors was increased fifty per cent. by the Amendment Act of 1873, being an increased aggregate of \$21,756, the reduction effected in expenses of advertising, &c., brings the total sum considerably below that of last year, being as above stated \$114,824 20, as against \$127,652 66 in 1872.

Of the above sum the Board of Police has made requisition, and had control of but \$10,000, payment of inspectors, poll clerks and landlords, as well as for fitting up the polls and carting off ballot boxes, being made at the Comptroller's office.

Respectfully submitted.

D. B. HASBROUCK,  
Chief of the Bureau of Elections.

### SECOND IMPROVEMENT OF THE WATER FRONT.

You are respectfully referred to the following report of Charles K. Graham, Engineer-in-Chief of the Department, for the details of the work of improving the water front of the city, under the new plans adopted:

DEPARTMENT OF DOCKS,  
NEW YORK, December 31st, 1873. }

Eugene T. Lynch, Esq., Secretary of Board of Docks:

SIR: I have the honor to submit the following supplementary report of the work done during the months of November and December, 1873.

Work upon New Pier No. 1, North river, was continued until nearly the last week of December, all repairs being completed, so that the part of the pier already constructed was left in a proper condition for the winter season.

Work upon the bulkhead wall at the Battery was also continued through the months of November and December, the wall being completed on the 30th inst., with the exception of one stone, which will shortly be in place.

The work of repairing the damage to the bulkhead wall, occasioned by the striking of the steamship City of Limerick, was completed on the 19th of November.

The construction of storage and work sheds at the Battery, at Gansevoort Street yard, at Seventeenth Street yard, of offices at these points, and at Christopher street, has been pushed satisfactorily.

Work at the Christopher street section begun early in November, and has proceeded without serious intermission to the present date.

The amount of dredging found necessary has been somewhat greater than was anticipated, owing to the constant action of the tides in bringing in soft mud, but the work of preparing for the proposed structures is well advanced.

The piles of new Pier 44 are already driven 150 feet out into the river from the line of departure, and the caps are fitted thus far.

New Pier 46 was commenced late in December. A large part of the timber and iron for these Piers has already been received, under existing contracts.

The work of constructing Beton blocks at the Department yard at Gansevoort street, is necessarily suspended until the return of settled mild weather in the Spring.

The several surveys of the shallows and marshes adjacent to Randall's Island, made during these two last months of the year, may be regarded as valuable, with reference to the present utilization of those places by the Board of Health for dumping purposes, and their eventual reclamation and addition to the area of the main island.

The improvements at the East Seventeenth Street yard has progressed satisfactorily, largely enhancing its convenience and utility for the purposes of the Department.

The routine work at the office of the Engineer-in-Chief, and the preparation of maps, plans and specifications for present and future operations, has gone forward as usual.

Very respectfully,  
Your obedient servant,  
CHARLES K. GRAHAM,  
Engineer-in-Chief.

(Signed,)
