Having obtained the approval of the Board of Public Improvements, I request that the matter be presented to the Mankeipal Assembly, under the requirements of the last-mentioned section 413 of the Charter, with a request that resolutions authorizing these works be passed. The formoing severs, Seventy-lifth street and One Hundred and Farty-sixth street, were projected during the fall of t807, and steps required by the existing laws were then taken, up to the fault one, of preparing continer plans and letting the work. Sewer in Forty-fifth street, between Third and Vanderbilt avenues, is in continuation of an improvement to sewer in Forty-fifth street, between Madison avenue system, which was rebuilt avenues to be indirer the Malison avenue underground trolley realized and remaying the

lass year, previous to building the Malisan avenue underground trolley railroad and repaying the avenue. The portion across the Central Railroad yard was omitted at that time because the time required to build across the railroad yard would have delayed the Madison avenue improvement. This piece of sewer is of terra-cotta pipe, had some 25 years ago; is out of repair and inadequate, and should be rebuilt at once.

Sewer in Seventy-fifth street is proposed for the drainage of a firs-engine house to be built in that block, there being at present no sewer there. Sewer in One Hundred and Forty-sixth street is proposed for the drainage of property apart which the awners desire to build,

Three copies of these plans are furnished, to be filed in the following places, viz. t Corporation Counsel's office, Register's office and Board of Public Improvements. Also three copies to accompany resolution of approval in the Board of Public Improvements and the two bodies forming the Massemal Assembly. Yours respectfully, HORACE LOOMIS, Chief Engineer of Sewers, Borough of Manhattan.
