BELLEVUE AND ALLIED HOSPITALS.

REPORT FOR QUARTER ENDING SEPTEMBER 30, 1907.

New York, October 1, 1907.

Hon. GEORGE B. McCLELLAN, Mayor:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to report as follows for the period of three months just completed:

THE DEPARTMENT AS A WHOLE.

Appropriations.

The estimates for the year 1908 were approved by the Board of Trustees at its first meeting in July, and were then forwarded to the Board of Estimate and Apportionment. In the new estimates the Trustees asked for a sufficient increase in the appropriation for salaries to enable them to provide for a monthly increase of \$5 in the salaries of such employees as had served one year, until these salaries should be \$25 for men and \$20 for women Helpers, per month. A difficulty was experienced in presenting exact figures for the increases needed in the salaries and supplies accounts, owing to the impossibility of foreseeing the precise date at which it will be practicable to open the two new pavilions of Bellevue Hospital, which, when opened for the reception of patients, will necessitate the employment of many additional Helpers and Nurses. For the Nurses required in the new hospitals opened this year, the sum of \$30,000 in Special Revenue Bonds has already been requested. The census of the institutions under our care has been unusually high throughout the summer months, when it is generally much lower than in the winter, and it is evident that a considerable percentage of the old amounts will have to be added to the estimates in order to provide for even the normal increase of hospital inmates due to advance in population. The same cause will operate to increase certain minor appropriations, such as the incidental account, including postage, messengers' care, etc., and the special appropriation for the purchase of fresh fruit and vegetables in the open market, for which renewed application has been made to the Board of Aldermen. An additional item of \$8,000 or less has been asked for the purchase of two automobile ambulances. There is no doubt that the efficiency of the ambulance service would be greatly increased by this addition to its equipment, especially at the time of year when heat cases, requiring emergent treatment, are frequent. In order to avoid a deficit in the ambulance fund this year, it has been necessary to request the transfer of \$3,000 from Supplies and Contingencies to this account.

Rules Affecting the Administration.

Confusion having occurred at some of the hospitals, owing to the absence of a properly accredited head during the vacation of the Supervising Nurse, it was provided that the Head Nurse in charge of the Training School shall represent the hospital in her absence. Leave of absence for a vacation has been granted in the past only to employees having to their credit a year's continuous service. This was amended to allow a vacation of a single week to all employees who have completed six months' service, provided that conditions warrant their absence at the time when the vacation is requested.

To meet the situation arising from the growing use of the public hospitals by a class of persons able to pay for treatment in their homes or at a private institution, the Trustees adopted a rule providing that the sum of \$1.50 per day shall be collected from such patients as may possess money in excess of \$50, this sum being allowed them as likely to be necessary for their support upon leaving the hospital. The sums collected will be applied to their care and treatment while in the hospital.

A rule has been adopted by the Trustees prohibiting the use of the telephone as a means of communication with members of the visiting staff who are absent from the city. In case of necessity the house staff is instructed to call upon the assisting visiting doctor, or upon some other member of the attending staff. The expense of

these out-of-town calls is very great, and the Trustees felt that they were not justified in certifying them to the Finance Department for payment.

The discovery having been made that a certain employee was being paid by a private benefactor of the hospital, the rule was laid down that all employees must have their names appear upon the City payroll, as in this way alone is it possible to comply with the Civil Service regulations.

The Medical Service.

The Committee on the Prevention of Tuberculosis of the Charity Organization Society offered the Board of Trustees to pay for the services of a physician at the Out-Patient Department of Bellevue, Harlem and Gouverneur hospitals at the rate of \$10 per week each for a stated period, provided that the Board would assign a room at each hospital three afternoons in the week where such physicians might examine children suspected, by reason of defective home environment, heredity or any other cause, of having tuberculosis. The nomination of such a physician was to be left to the Trustees, and he was to act under the direction of the Medical Chiefs of each Out-patient Department. Upon this understanding the Board of Trustees accepted the Society's offer for Bellevue and Harlem hospitals, the lack of space at Gouverneur rendering it inadvisable to institute any new service there. Valuable scientific results are expected from this effort to discover the extent of pulmonary tuberculosis among children.

A rule has been adopted forbidding the retention in any of the allied hospitals of patients afflicted with tuberculous or any other chronic disease, or of prisoners, unless their condition is such as to make impracticable their removal to Bellevue.

Rules are now under consideration concerning the method to be followed in making medical appointments, the visiting hours of the attending staff and the treatment of members of the house staffs who may be taken ill while in the performance of their duty.

Miscellaneous.

The Board was informed through the Corporation Counsel on July 11 that Mr. Justice Fitts of the Supreme Court had decided in its favor the action brought by the State Board of Charities to compel it to submit plans of new hospitals for the inspection and approval of the State Board. Hospitals, the Justice decides, are not almshouses within the meaning of the law, and he therefore refuses the mandamus asked for. It is understood that the suit will be appealed.

The contractor for the white duck suits worn by the house staff and Nurses, Mr. Louis Friedman, has furnished suits of such unsatisfactory quality and fit that the Board has been compelled to purchase in the open market, charging the difference in price to his account.

The purchase of 300 new bed screens for the hospitals of the Department at a cost of \$750 has been made.

Census.

The total number of admissions to the various hospitals of the Department during the quarter ending September 30, 1907, compared with the corresponding period last year was 10,624 and 8,558, respectively, an increase this year of 24 per cent. The average daily census for the same period was 1,152 and 883, respectively, or an increase of 30 per cent. The total number of patients treated was 11,738, compared with 9,425 last year, an increase of 25 per cent. These increases are explained by the fact that the capacity of Gouverneur, Harlem and Fordham hospitals was almost trebled by the opening of the new buildings last April, and that each of these institutions was well occupied during the quarter just closed.

One of the many advantages of the new hospitals is well evidenced by the reduction in the number of transfers made to Bellevue Hospital during the past quarter compared with a year ago. The figures are as follows:

BELLEVUE HOSPITAL.

Pavilions A and B.

The progress on Pavilions A and B has not been as satisfactory during the quarter as could be desired. This has been caused by the fact that the contractor has had to lay off a number of workmen on account of non-payment of his bills by the Department of Finance. This situation has now been overcome by a sale of bonds and it is expected that there will be no further delay in hurrying the building to completion.

The work of exterior brickwork is entirely completed. All terra cotta partitions have been erected throughout the building, except a few on the ground floor of Pavilion B, and partitions of the blower room on the roof house. The cleaning and pointing of exterior brickwork is being done and is practically completed on south and west elevations. Reinforced concrete floors have been completed on balconies on the north and west elevations. The white finish plaster work has been completed in Pavilion A from first to fifth floor, and this work is now in progress in Pavilion B. All sleepers and rough flooring have been laid throughout the entire building except on ground floor of Pavilion B. The structural iron work, including the balconies, is practically completed, with the exception of the iron supports for glass roof, which, however, are in course of erection. All piping has been completed in the cellar so far as the work of other trades allows. The electrical contractor has practically completed all conduit work.

The contractor has been reminded of the expiration of his contract on January 24, 1908, and urged to have the building completed at that time.

The contractors were directed early in July to remove the fence about the new pavilions to the south of the roadway. This was required by the Fire Department in order to give their engines free access to the hospital grounds, and it was also desirable from the point of view of better light and air for the tuberculosis and isolation wards.

Specifications for the furnishing and setting of the lighting fixtures were approved by the Trustees in July, and advertisement authorized, the style of chandelier having been determined on by the Building Committee. These plans and designs were finally approved by the Department of Water Supply, Gas and Electricity on August 30.

New Pathological Department and Male Dormitory.

The excavation for this building is completed except a portion of the southeast corner, amounting to 15 by 65 feet, which is occupied by a part of the power plant of the United Electric Light and Power Company. Work cannot be commenced on this corner until the site has been cleared. During the past quarter the plant has been twice advertised for sale at the instance of the Bureau of City Revenue of the Department of Finance. The first occasion was on July 11 when the sale was adjourned by the Comptroller owing to the claim that an agreement had perviously been made to allow the company until September 1 to vacate. On the second occasion, September 3, the company secured a temporary injunction, on the petition that the immediate closing of the plant would put two sections of the City in darkness.

An agreement has now been arrived at which will allow the obstructing corner of the power plant to be taken down at once so that the remaining excavation work may be proceeded with without further delay.

Specifications for the vacuum cleaning system in this building were approved on July 18 and advertisement authorized. Three bids were received on August 12, and the lowest of these, that of the Vacuum Cleaner Company for \$5,985, was accepted.

The Board has been informed by the Commissioner of Public Works that surveys to close the sewer in East Twenty-eighth street have been made.

The New Training School Building.

The past three months have seen the completion of the piling, excavation, foundation and granite work, along with the limestone of the basement story. The iron work has proceeded to a point where the second tier of beams and girders are practically all in place and the third tier ready for delivery. The brick walls all around have been brought up to level of the second tier and those of Twenty-fifth street pavilion are now up to level of third tier. The fireproof floor arches are being laid in first tier.

Application was made to the Department of Water Supply, Gas and Electricity early in July for an extension of the water main to permit of proper connections with the new building.

The same department specified the style of fixture, number of lights, etc., in this building, but it was found that \$5,200 additional would be required to carry out these specifications. The matter was referred to the Building Committee of the Board, which has it now under consideration.

Bids for the building of a tunnel under Twenty-sixth street to connect Pavillions A and B with the Training School building were opened on August 12, six bids being received in all, ranging from \$6,869 to \$10,700. These bids were not considered satisfactory, however, and the Board has decided to advertise the work anew.

The Bulkhead Line.

The Department of Docks and Ferries has made considerable progress with the construction of the new bulkhead between Twenty-eighth and Twenty-ninth streets. On June 17, 1907, the architects reported that the plans at the office of the Department of Docks showed that the revised bulkhead line does not run sufficiently to the west to permit the carrying out of the arrangements proposed for the new boiler house and coal pocket. On the same date the President and the architect conferred with the Commissioner of Docks who stated that the City is not the owner of the property between Twenty-ninth and Thirtieth streets, East river, and that no work of construction at that point could be undertaken until title to the property was acquired. The existing bulkhead runs along the north side of Twenty-ninth street for a distance of over 200 feet, but the plans as established by the War Department provide that the new bulkhead shall be built an equal distance on the south side of the street. The architects, conformably to an understanding with the Commissioner of Docks and Ferries, have advised the Board of Trustees to oppose the moving of the present bulkhead at any time in the future when such change may be proposed.

The construction of the new bulkhead necessitated the destruction of a portion of the pier at Twenty-eighth street; and so as not to prevent the commercial use of the pier at the present time, the Trustees approved of the removal of a portion of the fence about Bellevue Hospital, and agreed to the continued use of the ground to allow a temporary approach to the lower end of the pier to be built for this purpose pending the construction of additional wharfage facilities along the East river, or until the work of the new Bellevue Hospital is in such shape as to render necessary the abandonment of the pier and the entire closure of Twenty-eighth street.

Miscellaneous.

The contract for painting the fire escapes at Bellevue was awarded to George Jungmann on July 12 for \$1,335, his bid being the lowest received. The contractor has been most dilatory in his work, as has H. A. Jacobsen, who obtained the contract for completing the work of fire protection as recommended by Mr. Bonner in his report to the City Visiting Committee of the State Charities Aid Association. Certain alterations required in the Mills Training School were contracted for with William Horne for \$774, the price being the lowest of four bids received.

A request having come from one of the surgical divisions for the purchase of a complete new set of valuable surgical instruments, some of a special character rarely used, the General Medical Superintendent was given authority to purchase those immediately necessary, omitting the rest until such time as the Executive Committee of the Medical Board could be invited to pass upon the subject and present a plan for providing the entire hospital with a sufficient supply of such instruments.

A new set of rules regulating the care of typhoid patients and other infectious cases has been prepared by the Executive Committee of the Medical Board and adopted by the Board of Trustees.

Medical Appointments.

On July 18, upon the recommendation of the Medical Board, the following Internes were appointed on the Second Division: George M. Gelser, Walter Edward Lowthian, Anthony Charles Zehnder, John R. Bradley, Walter Hesse and Thomas Rickett Pooley. The first named three to commence duties July 1, 1907, and the others on January 1, 1908.

On July 25, upon the recommendation of the Conference Committee, Dr. Carl G. Burdick and Dr. B. S. Barringer were appointed Assistant Surgeon to Out Patients and Assistant Genito Urinary Surgeon to Out Patients respectively on the Fourth Division for the remainder of the year 1907.

On September 17, Dr. I. O. Woodruff was appointed Assistant Physician to the Tuberculosis Clinic of the First Division, also upon nomination by the Medical Board.

Census.

The total number of admissions and the average daily census for the quarter were 7,914 and 840 respectively, as compared with 6,442 and 727 during the corresponding quarter of 1906. The total number of patients treated was 8,729 as compared with 7,205. The number of visits made to the Out-Patient Department was 22,490, as compared with 22,131 during the same quarter of last year.

GOUVERNEUR HOSPITAL.

The situation with regard to the ex-contractors for the construction of Gouverneur Hospital, Messrs. John R. Sheehan & Co., has not perceptibly improved since the writing of our last report. The list of incomplete items in Messrs. Sheehan's contract was received from Mr. R. F. Almirall, the architect, on August 5. On the 8th Mr. John R. Sheehan met the Board of Trustees at his own request, and after referring to a bill of charges amounting to some \$7,000 which he claimed to have against the Board, offered to allow the difference between that claim and the bill against him, estimated by the architect at something like \$13,000. Mr. Sheehan was requested to put his offer in writing for the consideration of the Board, which then submitted it to the architect for his opinion and advice. Mr. Almirall reported that the claims of the contractor were not just and should be refused. He recommended that a settlement be offered Messrs. J. R. Sheehan & Co. on the basis of the payment by them of \$11,538, this being his estimate of the amount needed to make the repairs and finish the uncompleted work. Sheehan to withdraw his claim altogether, and the whole arrangement to be subject to the approval of the Finance Department. This proposal was declined by Sheehan, and a subsequent proposal, based upon a revised estimate of \$6,875, is now being examined by one of the Consulting Engineers of the Finance Department as to its adequacy to meet the needs of the situation.

An outbreak of typhoid fever occurred at the end of August among those who eat in the Nurses' dining-room at the hospital. Nine cases in all occurred, none of the eighty other employees being affected. Careful investigations were made by the General Medical Superintendent and by Dr. Charles Norris, Director of the Pathological Laboratories, without the discovery of any condition in the hospital that would account for the disease. The Board of Trustees called upon the Board of Health for a thorough investigation, which was held, but did not indicate the probable source of the contagion. Fortunately all the patients recovered, and there has been no new case since September 9.

The Nurses at Gouverneur Hospital have hitherto been supplied by the City Hospital Training School, but of late this school has been able to supply only twenty-three women Nurses when thirty-three are required for the service. The recommendation has accordingly been made by the General Medical Superintendent that the Bellevue Training School be requested to take over the nursing at this institution, extra Nurses from the City Training School being admitted whenever possible. The Board has not yet acted upon the suggestion, having referred it to the President for further investigation.

Bids for the construction of a new coal vault were opened on August 12, and that of John Fury, for \$5,300, was accepted and the contract awarded for the work.

The estimate of P. Behan of \$270 for fitting up the Pathological Laboratory was accepted, and the work has been done.

A sad accident occurred in one of the wards on the morning of July 19, when a patient jumped from his bed in delirium and flung himself from the fire-escape into the street. The Coroner's jury which investigated the case found that the death was due to no negligence on the part of the Nurse in charge, the action of the patient having been too sudden to be foreseen, and no symptoms of delirium having been apparent previously.

Medical Appointments.

On July 25 Dr. H. E. Grizzard was appointed as a one year Interne to fill the vacancy caused by the resignation of Dr. R. H. McBain.

Census.

The total number of admissions and the average daily census for the quarter were 970 and 109, respectively, as compared with 712 and 61 during the corresponding quarter of 1906. The total number of patients treated was 1,085, compared with 784. The number of visits made to the Out-Patient Department was 26,988, as compared with 27,771 during the same quarter of last year.

HARLEM HOSPITAL.

Matters have been running smoothly for some time now at the new Harlem Hospital, and there is little requiring separate report at present. Mr. Almirall's plans for the new Training School for Nurses have received the approval of the Art Commission, and are thus available for use whenever the City is able to spend the money for this building. In the meantime it has been found necessary to engage another room in the neighborhood of the hospital at a monthly rental of \$15 for the accommodation of two additional Nurses.

Medical Appointments and Changes.

During the past quarter there have been no changes in the staff of either the hospital or the Out-Patient Department.

Census.

The total number of admissions and the average daily census for the quarter were 1,173 and 106, respectively, as compared with 954 and 44 during the corresponding quarter of 1906. The total number of patients treated was 1,282, as compared with 1,023. The number of visits made to the Out-Patient Department was 13,854, as compared with 16,306 during the same quarter of last year.

FORDHAM HOSPITAL.

Some necessary repairs to the water tanks on the roof were finally carried out by the plumbing contractors, after some dispute concerning their responsibility for this work.

At the request of the architect, an extension of time until the acceptance of the work was granted on the contract of Ely J. Rieser & Co. for the fitting up of the Apothecaries' Room.

The contract for supplying door and window screens was awarded on August 8 to Arthur B. Lovejoy for \$1,374, this being the lowest of the three responsible bids received. It is expected that these screens will greatly enhance the comfort of patients and inmates another year.

Complete plans, with contract and specifications, have been received from the architect for the awnings and mesh railings to be used on the roof garden of the Hospital; these, when installed, will make the roof, with its beautiful outlook over the surrounding country, an ideal resort for convalescents.

New surgical instruments have been supplied by the Kny-Scheerer Company at a cost of \$750.

The Board of Trustees has inquired of Hon. Joseph I. Berry, Park Commissioner for the Borough of The Bronx, whether the triangular piece of land to the north of Pelham road, in the immediate vicinity of the Hospital, cannot be acquired for park purposes, thus removing a building (now used as a saloon and restaurant) unsightly in itself, and permitting of freer access to the Hospital. The Commissioner replied that title had not yet been vested in the City, and the matter was referred to the Superintendent to see what could be done.

A proposed change in the assignment of wards for the female medical and surgical services is under advisement at present.

In view of the exceptional character of her service to the Hospital during the trying period of removal from the old to the new building, Miss Ferrier, the Acting Supervising Nurse, was granted a vacation of two weeks, in suspension of the rule requiring an employee to serve at least six months before becoming entitled to a vacation.

Medical Appointments.

On July 25, upon the recommendation of the Medical Board, Dr. L. Hirsch and Dr. Joseph Lordi were appointed Second Junior Assistants on the House Staff. Dr. William H. Mitchell was advanced to the position of House Surgeon, Dr. B. Bickelhaupt to Senior Assistant, Dr. L. J. Placek to First Junior Assistant, and Dr. L. H. Taft to House Physician.

Census.

The total number of admissions and the average daily census for the quarter were 567 and 97, respectively, as compared with 354 and 51 during the corresponding quarter of 1906. The total number of patients treated was 642, as compared with 413. The number of visits made to the Out-Patient Department was 2,924, as compared with 1,743 during the same quarter of last year.

Respectfully submitted,

J. K. PAULDING, Secretary, Board of Trustees.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application thereto at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
