Oak Tree Place—Regulating and grading, setting of curbstones and flagging of sidewalks a space of four feet wide, laying of crosswalks, building approaches and erecting fences where necessary from Lafontaine to Hughes avenue; also that trees be planted and streets macadamized.

President Haffen presented the following communication:

New York, April 12, 1902.

Hon. LOUIS F. HAFFEN, President of the Local Board, Bronx Borough, New York City:

Dear Sir—Having been informed that at its next meeting your Board will consider the question of route for the underground Rapid Transit Railway, I beg to urge the proposed change by which the line may be carried across Third avenue at One Hundred and Forty-ninth street and come to the surface on what are now back yards in the block between Bergen and Brook avenues and Westchester avenue and One Hundred and Forty-ninth street, rather than the original plan of turning from One Hundred and Forty-ninth street under Third avenue into Westchester avenue, which would completely close Bergen avenue, destroy the finest portion of Westchester avenue, seriously injure some of the most valuable property in the Bronx and cause a very heavy and needless expense.

The lots on Westchester avenue in the block above referred to are unusually long, some as long as 200 feet, the cost of the portion needed for the new route would be very small in comparison and the taking would cause very slight inconvenience to the owners, while the road itself could then be built in almost a straight line and the disadvantage of the S curves on the old plan entirely eliminated.

Yours truly,

(Signed) CHAS. B. LAWSON, President Y. M. C. Union.

On motion of Alderman Goldwater, it was

Resolved, By the Local Board of Morrisania (Twenty-fourth District) that the necessary steps be taken to bring about a change in the route of the Rapid Transit line, so that the line will be from the intersection of One Hundred and Forty-ninth street and Third avenue and Melrose avenue easterly through One Hundred and Forty-ninth street to and crossing under Bergen avenue, and thence by curves through the block to the intersection of Brook and Westchester avenues, instead of the line as proposed by the Rapid Transit Commission, which runs from One Hundred and Forty-ninth street and Third avenue through Third avenue to Westchester avenue, along Westchester avenue to Brook avenue, etc.

This request is made because the construction of the tunnel in Third and Westchester avenues will interfere very materially with the traffic on those two thoroughfares at a very important centre.

The present plan will involve the crossing of Bergen avenue and will reduce the width of Westchester avenue, causing great damage to property; whereas, the line herein recommended will cause no damage and will leave all streets open to traffic.

On motion of Alderman Leitner, it was

Resolved, That we, the members of the Local Board of the Morrisania District, hereby protest against and vigorously oppose the application of the Rapid Transit Railroad Commissioners to reduce the width of the sidewalks on Westchester avenue from the east side of Third to the west side of Brook avenue, Borough of The Bronx, from twenty feet to twelve feet. The great mass of the citizens, residents and property owners in the section affected by the proposed application are averse to any such change.

On motion of Alderman Leitner, it was

Resolved, That copies of these resolutions be forwarded to the Board of Aldermen and the Board of Rapid Transit Commissioners.

On motion, the meeting adjourned.

HENRY A. GUMBLETON, Secretary.

No. 73.

Opening and extending East Two Hundred and Twenty-second street, formerly Eighth street or Avenue (although not yet named by proper authority) from the Bronx River to Seventh avenue.

The following report was read:

To the Honorable, the Board of Estimate and Apportionment of The City of New York:

Gentlemen—We, the undersigned, members of the Local Board of Chester, of the Twenty-fifth District, Bronx, to whom was referred for investigation and report the matter of acquiring title to, widening and opening East Two Hundred and Twenty-second street, in the Borough of The Bronx, from the Bronx river to a point to be known as Seventh avenue, respectfully beg to state that we have held two public hearings and considered all the facts in the matter and respectfully report as follows:

Two Hundred and Twenty-second street is now a street fifty feet in width, extending from the Bronx river to a point at or about the place known as Fifth avenue in the former village of Williamsbridge, Borough of The Bronx. Under chapter 357 of the Laws of 1897 there was provided for a bridge to be constructed over the Bronx river and the railroad tracks at Two Hundred and Twenty-second street to be not less than fifty feet in width, connecting Webster avenue at the westerly approach with a point at or about Second avenue and Two Hundred and Twenty-second street, the easterly approach. We believe the opening and widening of Two Hundred and Twenty-second street will be a necessity in the future for the development of the adjacent territory, as there is at the present time no direct communication with the easterly section of that portion of the Bronx. There are contemplated two thoroughfares, one at Briggs avenue, a street over one-half to the south of Two Hundred and Twenty-second street, and one at Two Hundred and Thirty-third street, nearly a mile to the north of Two Hundred and Twenty-second street, which will run over to the extreme easterly portion of that section. The resolution adopted by the Board of Public Improvements on May 15, 1901, to acquire title, to open and widen Two Hundred and Twenty-second street, from the Bronx river to Seventh avenue, will not serve any particular purpose at this or any future time which will benefit the district affected.

We would therefore recommend that your Honorable Board request the Corporation Counsel to institute proceedings in the Supreme Court for the First Judicial Department to condemn the necessary land needed for the westerly approaches to the said bridge provided for by legislative enactment; and further in the interests of economy and expediency, to have the Corporation Counsel request the Honorable Justices of the Supreme Court for the Second Department to designate the Commissioners who have already been appointed in the matter of acquiring title to, and open and widen East Two Hundred and Twenty-second street, from the Bronx river to Seventh avenue, be empowered and authorized to condemn and acquire title to the land necessary for the easterly approaches of the said bridge and these same Commissioners be further empowered and authorized to acquire title to, open and widen Two Hundred and Twenty-second street, from Seventh avenue eastwardly to the Shore road, thereby opening up a thoroughfare in the section affected which will be of benefit to the residents of that entire territory. This will open a street from Webster avenue clean across to the Shore road, which will be a public necessity in the near future, and the plan as recommended by us will be of real benefit to all concerned. Further, this Board recommends to your Honorable Body to amend the resolutions of May 15, 1901, passed by the late Board of Public Improvements by striking out the resolution providing that the entire cost should be assessed against the property deemed to be benefited and by substituting in place thereof the following, viz.:

1st. "The City shall pay the entire cost of any buildings taken for opening East Two Hundred and Twenty-second street."

2d. "The City shall pay forty per cent. of the cost of any land taken in opening Two Hundred and Twenty-second street to 100 feet in width, and we therefore respectfully suggest the adoption by your Honorable Body of this report."

(Signed) LOUIS F. HAFFEN,
FRANK GASS,
JOHN H. BEHRMANN.

On motion of Alderman Behrmann, the following was adopted:

Resolved, By the Local Board of Chester, that the petition of Joseph Stickney, James B. Krescheimer, and others, dated January 18, 1902, presented to the Board of Estimate and Apportionment to discontinue and to request the Corporation Counsel to discontinue any and all legal proceedings taken relative to acquiring title for the opening and extending of East Two Hundred and Twenty-second street, formerly Eighth street or Avenue, from the Bronx river to Seventh street, in the Twenty-fourth Ward, Borough of The Bronx, City of New York; and, further, to rescind the resolution of the late Board of Public Improvements, adopted May 15, 1901, in pursuance of which said legal proceedings have been commenced, which said petition was referred by the Board of Estimate and Apportionment to the Local Board, Borough of The Bronx, for a public hearing thereon, and said Local Board having on March 12 and March 27, 1902, held public meetings on the said petition, therefore, be it

Resolved, That, in the opinion of this Local Board, said petition to discontinue the legal proceedings to acquire title, and to rescind the resolution of the late Board of Public Improvements, should be denied.

Affirmative—President Haffen, Alderman Gass and Alderman Behrmann.

Negative—None.

On motion of Alderman Gass, the following was adopted:

Resolved, That the Local Board of Chester, Twenty-fifth District, hereby recommends to the Board of Estimate and Apportionment that the Corporation Counsel institute proceedings to condemn the necessary lands needed for that part of the bridge and approaches at Eighth street, or Two Hundred and Twenty-second street, between the Bronx river and Webster avenue, provided for by chapter 357 of the Laws of 1897; and, further, in the interest of economy and expediency, that the Corporation Counsel request the Supreme Court of the Second Department to designate the same Commissioners who have already been appointed in the matter of acquiring title to, and opening and widening East Two hundred and Twenty-second street, from the Bronx river to Seventh avenue, so that the same Commissioners be empowered and authorized to acquire title to the land necessary for the easterly approaches of said bridge, and that the same Commissioners be further empowered and authorized to acquire title to, opening and widening of East Two Hundred and Twenty-second street, from Seventh avenue easterly to the Hutchinson river.

Opening and widening Eighth street, or East Two Hundred and Twenty-second street, from Seventh avenue eastward to Hutchinson river.

On motion of Alderman Behrmann, the following was adopted:

Resolved, That proceedings be and they are hereby initiated by the Local Board of Chester (Twenty-fifth District) for acquiring title to the lands, tenements and hereditaments required for the opening and widening of Eighth street, or Two Hundred and Twenty-second street, from Seventh avenue eastward to Hutchinson river, in accordance with petition of William S. Germain, H. Lipps, Jr., George P. Shimer and others, duly advertised and submitted the 12th day of March, 1902.

Resolved, That a copy of this resolution be transmitted forthwith to the said Board of Estimate and Apportionment.

Affirmative—President Haffen, Alderman Gass and Alderman Behrmann.

Negative—None.

Report No. 351 was received from the Chief Engineer, dated March 31, 1902, relating to the communication of Wilson Brown, Jr., attorney for relator, and Frank S. Reynolds, Supervisor of the town of North Salem, dated White Plains, N. Y., March 18, 1902, addressed to the Commissioner of the Department of Water Supply and the Chief Engineer of said Department, stating that Division Engineer Frederick W. CITY OF NEW YORK, March 29, 1902.

WILLIAM H. TEN EYCK, Esq., President, Aqueduct Commissioners:

DEAR SIR—The inclosed communication from Mr. Wilson Brown, Jr., attorney for the Supervisor of the town of North Salem, was received at this office on the 25th inst. It states that Mr. Watkins, Engineer, is running the line for a new road at Titicus Reservoir, contrary to an order of the Court, which by writ of mandamus commands the building of the road and fixes the termini of the same, and formal request is made that the Court writ be obeyed.

On reference of this communication to the Chief Engineer of Water Supply, I have report from him that under an opinion of the Corporation Counsel the road is to be built by the Aqueduct Commissioners and that Mr. Watkins is the Engineer employed by the Aqueduct Commissioners. The matter is, therefore, referred to your Commission, and I have so advised Mr. Wilson Brown, Jr.

Very respectfully,

J. HAMPDEN DOUGHERTY,

Commissioner of Water Supply, Gas and Electricity.

On motion of Commissioner Ryan, the Secretary was directed to acknowledge the receipt of the above communication.

Very respectfully,

On motion of Commissioner Ryan, the Secretary was directed to request the Corporation Counsel to take the necessary steps to collect the rent due from Oscar Miersch, and also to take whatever action might be necessary to dispossess him, in order that the city may remove the building by May 1, 1902.

The following communication was also received from the Chief Engineer:

BOARD OF EXAMINERS.

MINUTES OF THE BOARD OF EXAMINERS.

Meeting held at the office of the Board, rooms 516 and 517 No. 1 Madison avenue, Manhattan, April 22, 1902.

Meeting called to order at 3 p. m.

Present—Messrs. William J. Fryer, Warren A. Conover, Cornelius O'Reilly, William C. Smith, Chief Croker and Francis C. Moore.

The Clerk read the following letter from the Chairman, Mr. A. F. D'Oench:

Mr. WILLIAM J. FRYER:

Dear Sir—Will you be good enough to act as Chairman at the Board meeting to-day. I am unable to attend, being confined to my bed.

Very truly yours,

A. F. D'OENCH.

Mr. Fryer thereupon took the chair, and called the meeting to order.

Minutes of meeting of April 15 were read and, on motion duly made and seconded, approved.

Appeal No. 77 of 1902, matter of fireproof shutters, premises Nos. 5 and 7 East Fifty-ninth street; Messrs. Park & Tilford, appellants; petition to be exempted from fireproof shutters above the first story.

On motion duly made and seconded, approved.

Appeal No. 78 of 1902, alteration No. 1201 of 1902, premises Nos. 109 and 111 North Third street, Borough of Brooklyn; Messrs. Horgan & Slattery, appellants.

"This building is at present two stories high, the first being 11 feet 5 inches high from floor to floor, and the second 12 feet 5 inches. Permission is desired to raise the building two additional stories with 12-inch brick walls built on the present 12-inch walls. The new stories will be built 11 feet 10½ inches and 11 feet 2 inches from floor to floor, and will be on the same level as the corresponding floors of the present adjoining factory with which it will connect by a doorway on each floor. The total height of the building when thus raised will be 46 feet 10½ inches to the highest part of the roof. The building is to be used merely for the storage of empty tinware."

Laid over; no action being taken by reason of a letter from Hon. William M. Calder, Superintendent of Buildings, Borough of Brooklyn, stating that there is no record in his office of any action or denial in this case.

Appeal No. 79 of 1902, New Building No. 153 of 1902, premises easterly side of Union avenue, 17½ feet from southeasterly corner of Union avenue and One Hundred and Fifty-first street (Bronx); J. William Limer, architect and appellant.

"That we be permitted to build the party and side walls of the extensions or rear portions of the buildings of brick work 8 inches thick, for the following reasons:

"(1) As regards the party walls, the buildings we propose to erect are outside of the fire limits where we could build frame structures, but we are willing to put up brick ones which will be of a more permanent character and at a greater expense, but if we have to make the walls 12 inches thick it will discourage such intention, on account of the greater cost.

"(2) The buildings will be built on solid rock, and while we admit that they exceed the height limit for 8-inch walls, such excessive height is largely caused by the greater part of our basements being above the grade, the basement walls being of stone work 20 inches thick, and carried up that full thickness 10 feet above the grade.

"(3) The side walls of the extensions or rear portions of the buildings will be but 11 feet 9 inches apart, and as will be seen by looking at the 'longitudinal section' that portion of the buildings is but a basement and two stories in height, or 31 feet 6 inches above the surface of the yard, and 8 feet 6 inches of that height is of 20-inch stone work."

Mr. Limer appeared before the Board in explanation of the appeal.

On motion, duly made and seconded, approved.

Appeal No. 80 of 1902, New Building No. 193 of 1902, premises east side of Broadway, southeast corner of West Twenty-eighth street, commencing about 105 feet 8¾ inches from southeast corner of West Twenty-eighth street and Broadway; Messrs. Schickel & Ditmars, architects and appellants.

"Building should be classed as thirteen stories high on account of large roof house, and conform to section 108 of the Code as to fireproofing. Roof house should be inclosed on all sides with 12-inch brick walls, section 32 of Building Code. We respectfully request that

"(1) The building be considered as a twelve story building, therefore not requiring compliance with said section of the Code relative to method of construction, and

"(2) That roof house construction as proposed be approved for the following considerations:

"The roof house will be used entirely as a toilet room and in no way be used for office purposes. Its dimensions are less than one-fourth the area of the building.

"The walls of roof house are proposed to be built of hard burnt clay blocks covered with metal; these walls are all back from the street fronts, rendering them less exposed than outside walls."

Mr. Otto M. Eidlitz appeared in explanation.

No action was taken on this case by reason of a letter from Hon. Perez M. Stewart, saying that on reconsideration of the matter at issue, he finds the modification desired comes within his own jurisdiction and authority.

Appeal No. 81 of 1902, alteration No. 464 of 1902, premises Nos. 557 and 559 West End avenue; New York Protestant Episcopal Public School, appellants; S. E. Nash, Treasurer.

"The corporation propose to occupy the two dwelling houses Nos. 557 and 559 West End avenue as a girls' school, and for that purpose they propose:

"(1) To cut openings not over three feet in width, in each story, between the two buildings, each provided with a fireproof door.

"(2) To remove several partitions and to build others, as indicated on the plans.

"(3) To remove and fill in staircase between pantries and basement.

"(4) To strengthen, if necessary, the floor timbers.

"(5) To erect such fire-escapes as may be required by the Bureau of Buildings."

Messrs. C. C. Haight and S. E. Nash appeared to explain.

On motion duly made and seconded, approved, on condition that a fire-escape with regular stairs to same be placed on the building, as may be approved by the Superintendent of Buildings before the building is ready for occupancy; and that the openings in the wall dividing the building be provided with self-closing fireproof doors.

Appeal No. 82 of 1902, New Building No. 436 of 1901 (Brooklyn, premises Nos. 16 and 18 Hoyt street; Alphonse Friedrick, appellant; George M. Walgrove, architect.

"It is proposed to erect a 2-inch solid partition of angle and tee irons, metal lath and plaster of Schratweiser's patent, or one equally as good, around two sides of elevator shaft, in new building Nos. 16 and 18 Hoyt street; the other two sides being formed by front and side walls of building. The framing around openings at present is of iron beams on second, third, fourth and fifth stories and roof, as shown on original plans; to these iron beams the angle and tee irons, if desired, will be bolted on each story, so as to make same perfectly rigid; the partition to start on concrete base in cellar, or on top of present brick wall, inclosing shaft in cellar. Said brick wall inclosing shaft in cellar is laid up in Rosendale cement mortar. All openings in shaft to be inclosed with Rapp's patent fireproof doors, except present doors in cellar, which are of sheet iron, hung on iron eyes built into the brickwork, and the present entrance door from sidewalk to elevator opening, which is of pine and tinned on shaft side. Above roof at present there is a bulkhead formed of angle and tee irons and 3-inch terra cotta blocks, laid in cement mortar, supported on present iron framing around opening. Over said bulkhead there is a galvanized iron skylight. The cost of shaft and elevator complete will be two thousand dollars."

Mr. Geo. W. Walgrove appeared to explain the appeal.

On motion, duly made and seconded, laid over; and Mr. Calder be requested to transmit to this Board his objections to the construction of shaft proposed to be used in this case.

Appeal No. 83 of 1902, Alteration No. 327 of 1902, premises Nos. 152 and 154 West Thirty-fourth street; Alfred H. Taylor, architect and appellant.

"Existing walls being party walls of insufficient thickness for proposed alteration, I respectfully request a modification of the law be granted allowing me to use the walls of thickness shown on drawings reinforced by columns and girders supporting the new portions of walls and floors."

Mr. W. W. DeVeaux appeared to explain the appeal.

On motion, duly made and seconded, approved.

Appeal No. 84 of 1902, Alteration No. 1920 of 1901, premises No. 36 West Washington square; Charles H. Fox, architect and appellant.

"I respectfully ask to be allowed to continue present pent house on roof of building, as shown on plan, constructing same of angle and tee iron frame, filled in with terra cotta blocks and covered with sheet galvanized corrugated iron, all to be fastened to present steel beam construction of roof. I ask to use this construction in place of brick wall so as not to overload present roof beams."

Mr. Charles H. Fox appeared in explanation.

On motion, duly made and seconded, denied, owing to inadequate plans and lack of information.

Appeal No. 85 of 1902, Alteration No. 2726 of 1901, premises Nos. 702-732 East Fourteenth street; Bruno W. Berger, architect and appellant.

"That the easterly and westerly walls be allowed of the thickness shown, as they are non-bearing walls and will be about 56 feet high and built in cement. The northerly and southerly bearing walls will be built 16 inches thick to the top and built in cement."

Mr. Bruno W. Berger appeared in explanation.

On motion, duly made and seconded, approved.

Appeal No. 86 of 1902, New Building (no number), Brooklyn, premises southwest corner of Fifty-third street and Fourteenth avenue; A. B. Jennings, architect and appellant.

Mr. Jennings having asked for a reconsideration of Appeals Nos. 20 and 25 of 1902, relating to above plans, on motion, duly made and seconded, reconsideration was granted.

In lieu of a new petition presented by Mr. Jennings, asking that the iron columns required at the rear ends of the Howe trusses be omitted, and masonry piers be used for the support of the ends of the trusses, was, on motion, duly made and seconded, approved.

Adjourned.

JAMES GAFFNEY, Clerk of the Board of Examiners.

BOARD OF ESTIMATE AND APPORTIONMENT.

(PUBLIC IMPROVEMENTS.)

A meeting of the Board of Estimate and Apportionment of The City of New York, for the consideration of public improvements, was held on Thursday, April 17, 1902, in Room 16, City Hall, Borough of Manhattan.

Present—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of Queens and the President of the Borough of Richmond.

The Mayor, Hon. Seth Low, presided.

The following resolution of the Local Board, Murray Hill District, Borough of Manhattan, was submitted, together with the report from the Chief Engineer of the Board:

LOCAL BOARD, MURRAY HILL DISTRICT.

Resolved, That, pursuant to section 433, chapter 466 of the Laws of 1901, the President of the Borough of Manhattan be authorized, with the consent of the Board of Estimate and Apportionment, to proceed to construct sewer in Fifty-first street, between Park and Fifth avenues.

Adopted by the Local Board of the Murray Hill District February 27, 1902, having been first advertised as required by law.

Estimated cost, \$0.500. Assessed value of property within the probable area of assessment, \$6,547,000.

JACOB A. CANTOR, President of the Borough of Manhattan

BOARD OF ESTIMATE AND APPORTIONMENT.

CHIEF ENGINEER'S OFFICE, CITY HALL,

April 8, 1902

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Murray Hill District, Borough of Manhattan, passed on February 27, 1902, initiates proceedings to construct a sewer in Fifty-first street, between Park and Fifth avenues.

There is no question as to the pressing need of a sewer in this street, the south side of which is entirely built up. At the northeast corner of Fifth avenue a large and costly building is now being erected, while buildings are under way or work preliminary to building is being done on the remainder of the street, on the north side.

The estimated cost of this sewer is \$0.500, and as the entire cost and expense is to be borne by the abutting property owners, I would recommend that the contract be authorized.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

IN BOARD OF ESTIMATE AND APPORTIONMENT.

A copy of a resolution of the Local Board of the Murray Hill District, duly adopted by said Board on the 27th day of February, 1902, and approved by the President of the Borough of Manhattan on the same day, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That, pursuant to section 433, chapter 466, of the Laws of 1901, the President of the Borough of Manhattan be authorized, with the consent of the Board of Estimate and Apportionment, to proceed to construct sewer in Fifty-first street, between Park and Fifth avenues."
