The minutes of each meeting were approved as read.

May 2—The Fire Commissioner was requested to arrange for the use of a garage within The City of New York for the installation of a McCabe gasoline and oil separator for the purposes of a practical test of same.

A conference was held with the Fire Commissioner in relation to special permits, examination for certificates of fitness, right to enter and inspect buildings, amount of bonds in special cases, and right to revoke special permits.

At the meetings of May 3, 4, 5, 6, 7, 9, 10, 11, 16, 17, 18, 19, 20, 24, 27, 28 and 31 the work of revising the old regulations was taken up and new sections adopted under the heads of "Transportation of Explosives," "Keeping, Care and Use of Explosives," "Magazines," "Blasting," "Sale and Storage of Explosives," "Authorized Explosives," and "Manufacture, Storage, Transportation, Sale and Use of Fireworks."

May 12—John Slattery was given a hearing on his application for a certificate of fitness for blasting operations for his employee, Pasquale Esposita. Application denied.

George Lezinsky and R. S. Waddell, Jr., representing the Hyrox Corporation, were given a hearing by the Commission in support of their application for a permit for the sale and use of the blasting explosive called "Hyrox" in The City of New York. The Commission arranged to make various tests of the explosive before rendering a decision.

May 13—The Commission, after witnessing various tests of the blasting explosive called "Hyrox" at the works of the Hyrox Corporation, South Amboy, N. J., recommended to the Fire Commissioner that the application of said company for a permit for the sale and use of "Hyrox" in The City of New York be granted.

May 14—The Commission inspected the distilling apparatus of T. F. Bourne, installed at No. 17 John street, Manhattan, and disapproved of same after testing it as it does not comply with the requirements of the Commission for the separation of gasoline from garage effluent.

May 19—The Commission unanimously adopted the following resolution, a copy of which was sent to the Fire Commissioner to be submitted to his Honor, the Mayor, for approval:

"Resolved, That the following be substituted for section 43, chapter 4, Part V. page 72 of the present Laws, Ordinances and Regulations governing the Manufacture, Storage, Sale and Use of Explosives and Combustible Material in the City of New York:

"No permit shall be issued by the Fire Commissioner for the sale of fireworks at retail in any building which is wholly or in part occupied or used as a dwelling or tenement house, or in any store or building which is not equipped with an approved system of automatic sprinklers."

Said resolution was returned by his Honor, the Mayor, approved on May 20, 1910.

May 21—The Commission inspected the gasoline and oil separator of Norman Bentley Gardiner at Grimes Hill, St. George, Staten Island, and decided that it could not approve of the apparatus as at present constructed as on testing same it did not completely separate oil and gasoline from water. Mr. Gardiner was requested to notify the Commission when he met the objections indicated.

May 25—The Commission visited the garage Nos. 47-49 East Fifty-second street, for the purpose of inspecting the practical working of the McCabe gasoline and oil separator installed there by the Ansonia Manufacturing Company. Approval of the apparatus is withheld by the Commission pending further tests.

May 26—The Commission unanimously decided to rescind the following resolution adopted by the former Commission at its meeting held December 13, 1909:

"Resolved, The Commission has examined the traps of the Hydraulic Oil Storage Company, No. 25 Broad street, the E. J. McCabe Company, No. 1238 Lexington avenue, and the McNutt Non-Explosive Manufacturing Company, No. 122 Morningside avenue, and while the Commission feels no one of the three is perfect, yet they all perform the work of separating the larger masses of oil from the water. We would recommend that permits be granted for the use of either of these traps, and the Commission is ready to examine any other traps and report on them."

May 28—In pursuance of the invitation of the Commission, Mr. John F. O'Rourke, of the O'Rourke Engineering Company, was present and discussed conditions relating to blasting operations throughout the City.

In the matter of the petition of the Queens Lighting Company for a franchise to construct, maintain and operate mains and conductors in and along the streets, avenues and highways of a certain portion of the Borough of Queens, for the purpose of supplying gas to public and private consumers.

At the meeting of February 4, 1910, a public hearing was had for the purpose of inquiring into the desirability of, and the public necessity for the grant of such a franchise, and, at the conclusion thereof, the matter was referred to a committee consisting of the Presidents of the Boroughs of Manhattan and Queens.

The Board of Estimate and Apportionment, No. 277 Broadway, New York City:

GENTLEMEN—Your Committee, to which was referred the application of the Queens Lighting Company for a franchise to establish an extended system in certain parts of the Borough of Queens, have to report that they have given a public hearing in the matter, and that they believe that the interests of the Borough will be served by the granting of such franchise upon the terms proposed in the amended report of the Engineer in charge of the Division of Franchises, given under date of January 17, 1910.

Yours very respectfully,
GEORGE McANENY, President, Borough of Manhattan;
LAWRENCE GRESSER, President, Borough of Queens;

Which was referred to the Chief Engineer.

Third Avenue Bridge Company.

The President of the Board of Aldermen presented the following:

BEFORE THE BOARD OF ESTIMATE AND APPORTIONMENT.

In the Matter of the Application of the Third Avenue Bridge Company for approval of a contract.

To the Board of Estimate and Apportionment:

The petition of the Third Avenue Bridge Company respectfully shows:

First—That the said petitioner and The City of New York have entered into a contract bearing date December 31, 1909, herewith submitted, for the construction of a railroad in Fifty-ninth and Sixtieth Streets, across the Queensboro Bridge to Long Island City, and the tracks on said two streets connecting on Third Avenue.

Second—Your petitioner having obtained the necessary consents of property owners, has applied to the Public Service Commissions for the approval of its amended Articles of Incorporation under Section 59-a of the Railroad Law and of the franchise so granted by the City under Section 53 of the Public Service Commissions Act.

Third—The Third Avenue Bridge Company has entered into a contract with Frederick W. Whitridge, receiver of the Third Avenue Railroad Company, for the construction of its road, and for the operation of its cars interchangeably over the lines of the Bridge Company and the lines formerly owned and operated by the Third Avenue Railroad Company upon Amsterdam Avenue, One Hundred and Twenty-fifth Street, Third Avenue, the Bowery, Chatham Square, Park Row to the City Hall, a copy of which is herewith submitted. The said contract provides in paragraph Third thereof (page 16), as follows:

"The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statute relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents."

And in paragraph Fifth, (page 17) as follows:

"The rate of fare for any passenger upon said railway shall not exceed five (5) cents and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on said railway, or a line or branch operated in connection therewith, to any point thereof, or of any connecting line or branch thereof within the limits of the City.

The Company shall arrange that transfers be exchanged with the company or companies operating the lines of the Third Avenue Railroad Company, the Forty-second Street, Manhattanville and St. Nicholas Avenue Railway Company, Kingsbridge Railway Company and the Dry Dock, East Broadway and Battery Railroad Company, whereby passengers shall be given a continuous ride over all of said lines, including the lines of the Third Avenue Bridge Company herein provided for, for a single fare of five cents. It is expressly agreed, however, that the foregoing shall not include a transfer and ride over the Williamsburg Bridge for such single fare.

In the event of the failure at any time of the Company or any of the other companies whose lines are covered by the said provisions as to transfers or of the successors or assigns of such company or companies, for any reason whatsoever to exchange transfers as hereinabove provided, this franchise shall ipso facto become void and forfeited.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform."

Fourth—Your petitioner is advised and verily believes that the joint operating contract between F. W. Whitridge, Receiver, and your petitioner is not a breach of the provisions of the third paragraph of the contract. It proposes however and has the consent of the said Whitridge, as Receiver and of the Third Avenue Railway Company to the carrying of passengers by transfer tickets in accordance with the provisions of the fifth paragraph of the contract.

Wherefore your petitioner prays that the Board of Estimate & Apportionment ratify and approve the contract between F. W. Whitridge, Receiver, and the Third Avenue Bridge Company, bearing date the second day of May, 1910, and express its assent to the operations of the said contract, in furtherance of the provisions of the contract with the City of New York, providing that transfers be exchanged between lines of the Third Avenue Bridge Company and the Third Avenue Railroad Company, the Forty-second Street, Manhattanville & St. Nicholas Avenue Railway Company, the Kingsbridge Railway Company and the Dry Dock, East Broadway & Battery Railroad Company, to the extent provided in the said fifth paragraph of the contract.

Dated, New York, June 3rd, 1910.

THIRD AVENUE BRIDGE COMPANY,
By WALTER J. QUINN, President.

State of New York, County of New York, ss.:

Walter J. Quinn, being first duly sworn, deposes and says: That he is the President of the Third Avenue Bridge Company, the petitioner herein; that he has read the foregoing petition and knows the contents thereof, and that the same is true to his own knowledge, except as to those matters which are therein stated to be alleged on information and belief, and as to those matters he verily believes it to be true.

WALTER J. QUINN.

Sworn to before me this 3rd day of June, 1910.

[SEAL] JAS. S. WILLIAMS, Notary Public, New York County.

Agreement made and entered into this Second day of May, 1910, between Frederick W. Whitridge, as Receiver of the Third Avenue Railroad Company, herein called the Receiver, party of the first part, and the Third Avenue Bridge Company, herein called the Bridge Company, party of the second part, Witnesses as follows:

Whereas, The Receiver is in possession of and controls the existing railroad tracks in Park Row, Chatham Square, the Bowery, Third Avenue, 125th Street, Manhattan Street and Amsterdam Avenue, all in the Borough of Manhattan, City of New York, and constituting the so-called Third Avenue Line; and

Whereas, The Bridge Company has been organized and incorporated for the purpose of constructing, maintaining and operating a street surface railroad upon and along the surface of the following streets and avenues in the Borough of Manhattan, City of New York, to wit:

Beginning at the intersection of 59th Street and Third Avenue thence in and upon East 59th Street to the existing tracks constructed upon bridge property for the use of street surface railways upon the westerly approach to the Queensboro Bridge; also connecting with such tracks upon the bridge approach in and upon East Sixtieth Street to its intersection with Third Avenue and thence in and upon Third Avenue to the point or place of beginning, and upon the tracks upon the Queensboro Bridge and approach beginning at the westerly end of the Queensboro Bridge at the terminus of the tracks above described, thence upon and along the westerly approach of the Queensboro Bridge in the Borough of Manhattan upon and along the Queensboro Bridge and upon and along the Easterly approach and across the intersecting streets and avenues to the terminal at or near Jackson Avenue, in the Borough of Queens, said last mentioned route to be operated as a continuous route in connection with the route as above described. And

Whereas, It is desirable that by agreements passengers may be carried over the so-called Third Avenue Line to and across the said Queensboro Bridge by way of Fifty-ninth and Sixtieth Streets, upon a continuous railroad route, and without change of cars and for a single fare of Five (5) cents for the transportation of each passenger over the whole or any portion of the routes of both Companies; and

Whereas, It will be for the mutual advantage of the parties hereto to use and run their cars upon their respective railroad tracks in common;

Now, therefore, the parties hereto do hereby agree as follows:

First—The Bridge Company, in consideration of the premises and of the covenants on the part of the Receiver hereinafter contained, does hereby agree that when its tracks are constructed on Fifty-ninth Street or a right of contract obtained to operate over the existing road therein and also upon Sixtieth Street from Third Avenue to a connection with the surface tracks on said Bridge, the Receiver shall be permitted to connect the tracks controlled by him with such tracks, at the intersection of Fifty-ninth and Sixtieth Streets with Third Avenue and to run its cars, or so many thereof as he may elect, in common with the cars of the Bridge Company upon, over and along the said tracks of the Bridge Company upon Fifty-ninth and Sixtieth Streets from Third Avenue to a connection with and upon and over the constructed railroad tracks on said Bridge to the terminus in Long Island City in such manner that passengers riding in cars of the Receiver may be carried from points on the lines of Amsterdam Avenue, 125th Street, Manhattan Street and Third Avenue and from the Post Office by way of Park Row, Chatham Square, the Bowery and Third Avenue to and over the Queensboro Bridge upon a continuous route without change of cars and for a single fare of Five (5) cents for the transportation of each passenger over the whole or any portion of the routes of the Receiver and of the said Bridge Company.

Second—In consideration of the premises and of the covenants contained on the part of the Bridge Company, the Receiver does hereby covenant and agree that whenever and as soon as the Railroad of the Third Avenue Bridge Company is constructed and in operation and when actually connected with the tracks of the Receiver, that the said Bridge Company shall be allowed to use in common with the Receiver the tracks constructed on Third Avenue, 125th Street, Manhattan Street and Amsterdam Avenue and upon the Bowery, Park Row in the Borough of Manhattan, City of New York, and to have and use in common with the Receiver the existing tracks now controlled by him on the said streets.

Third—In consideration of the premises the said Receiver at his sole expense agrees as follows:

1st. To construct the whole or such part of the railroad of the Bridge Company as shall be required for the operation of its road.

2nd. That during the operation of cars by him thereover, to maintain the road in good condition and repair and to comply with the obligations contained in the contract made by the City of New York with The Third Avenue Bridge Company, dated December 31, 1909.

3rd. To pay or discharge all bridge tolls and percentages on gross receipts required to be paid under the said contract with the City of New York, so far as relates to cars operated by the Receiver.

4th. To pay all franchise taxes which may be levied from year to year on the property of the Bridge Company.

Fourth—The Receiver also agrees, as part consideration of this contract, to furnish to the Bridge Company such number of properly equipped cars as it may reasonably require, and at reasonable rates, together with suitable depot accommodations for housing and cleaning the same as may be required to be run and used by the Bridge Company, and at the expense of the latter to furnish electric current for operation of the cars and to clean the same; such charges are to be at a reasonable rate, to be hereafter agreed upon, or to be determined by arbitration in case of disagreement.

Fifth—The Bridge Company hereby expressly covenants and agrees that it will not lease its railroad tracks, except to the Receiver or his successor in interest, or allow or permit the same to be used by any other railroad company other than the Companies of the Third Avenue System and in Fifty-ninth Street by the Central Park, North and East River Railroad Company. It agrees to designate its cars by painting the same in colors different from the color used on the Receiver's cars or by the use of appropriate signs, in order that its equipment may be readily distinguished from that used by the Receiver.

Sixth—It is hereby further mutually agreed that each party shall have, retain and collect for its own use, all the fares paid by or received from passengers carried in cars run by the said parties respectively, over the whole or any portion of the railroad tracks aforesaid.

Any sum herein provided to be paid to the other party shall be due and payable in quarter yearly installments.

Twelfth—It is agreed that this contract binds the parties and is made for the benefit of the successors in trust of the Receiver and may be assigned by the Receiver to the Re-organization Committee of the Third Avenue Railroad Company or to any Company formed which shall become the owner of the franchise and property of the Third Avenue Railroad Company.

In witness whereof the Receiver has signed this agreement and the Bridge Company has caused the agreement to be signed by the respective officers, with the corporate seal affixed, the day and year first above written.

FINANCIAL MATTERS.

The following transfers of appropriations were made, upon the recommendation of the Comptroller:

A—$15,000, as requested by the President of the Borough of Brooklyn, from the account "No. 1587, Bureau of Sewers, Maintenance, Including Cleaning and Repairs, Hired Teams, Horses and Carts," to the account "No. 1581, Bureau of Sewers,

Maintenance, Including Cleaning and Repairs, Repairs and Replacements by Contract or Open Order," within the appropriation made for the year 1910.

The City of New York,
Office of the President of the Borough of Brooklyn,
Brooklyn, April 30, 1910.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—I hereby make application to your honorable body for a transfer of $15,000 in Budget account, 1910, Office of the President of the Borough of Brooklyn, as follows: From Bureau of Sewers, Maintenance (No. 1587), Hired Teams, Horses and Carts, to Maintenance (No. 1581), Repairs and Replacements, by Contract or Open Order.

The necessity for this transfer is due to the fact that the boiler house at Coney Island Disposal Works is badly in need of repair.

A contract has been let for the replacing of boiler in this boiler house, and before installing these boilers it will be necessary to take down part of the walls and rebuild same. There is not a sufficient amount of money in Account 1581 to do this work, and as $40,000 will be a sufficient amount of money to pay for the needs of Account No. 1587, therefore I would respectfully request that your honorable body consent to the transfer as requested above.

Yours very truly,
L. H. POUNDS, Acting President of the Borough.

Department of Finance, City of New York,
Bureau of Municipal Investigation and Statistics,
May 25, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—In relation to a request of the President of the Borough of Brooklyn for a transfer of $15,000 within the appropriations made for the year 1910 to the Bureau of Sewers, which was referred to the Comptroller, I would report as follows:

The transfer is to be made from account No. 1587. Hired Teams, Horses and Carts, $55,000, to the account No. 1581. Repairs and Replacements by Contract or Open Order, $15,000.

Account No. 1587 shows at present a balance of over $46,000, and the President states that, including this transfer, the account will be ample to provide for all calls thereon.

The replenishment of account No. 1581 is necessitated by the fact that the boiler house at Coney Island Disposal Works is badly in need of repair and that before these boilers can be installed parts of the walls will have to be taken down and rebuilt.

In view of these facts, I recommend granting the request, and attach resolution for such action.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the sum of fifteen thousand dollars ($15,000) be and the same hereby is transferred from the appropriation made to the office of the President of the Borough of Brooklyn for the year 1910, entitled No. 1587, Bureau of Sewers, Maintenance, Including Cleaning and Repairs, Hired Teams, Horses and Carts, the same being in excess of the amount required for the purposes thereof, to the appropriation made to the same office for the year 1910, entitled No. 1581, Bureau of Sewers, Maintenance, Including Cleaning and Repairs, Repairs and Replacements by Contract or Open Order, the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

B—$2,000, as requested by the Commissioner of the Department of Docks and Ferries, from the account Bureau of Engineering (No. 147), Materials for Repairs and Replacements by Departmental Labor, to the account Bureau of Superintendence (No. 156), General Supplies, within the appropriation made for the year 1910.

Department of Docks and Ferries, City of New York,
Pier "A," North River,
New York, May 17, 1910.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman of the Board of Estimate and Apportionment:*

SIR—When the Budget estimate for this Department was prepared last fall, there was evidently an oversight, in that no provision was made for coal supply chargeable against Budget account. Considerable coal, however, is used from time to time on Pier "A," at the Dockmasters' offices, and at other places under the control of this Department, not connected with construction, and which is properly a charge against the item for general supplies in the Bureau of Superintendence. This item, Line No. 156, allows $7,500 only and is so heavily encumbered that it would be an impossibility to charge the coal supply against the present appropriation.

Line No. 147, Bureau of Engineering, allows for repairs and replacements by departmental labor, the sum of $150,000. From present indications this amount is more than will probably be used during the current year. I, therefore, request and urge that a resolution be adopted transferring the sum of $2,000 from Item No. 147 to Item No. 156, in order to make provision for a coal supply chargeable against Budget appropriation.

Yours respectfully,
CALVIN TOMKINS, Commissioner of Docks.

Department of Finance, City of New York,
Bureau of Municipal Investigation and Statistics,
May 25, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—In the matter of a request, under date of May 17, 1910, from the Commissioner of the Department of Docks and Ferries, for a transfer of $2,000 within the appropriations made to such Department for the year 1910, I present my report herewith, as follows:

The requested transfer is from Bureau of Engineering (No. 147), Materials for Repairs and Replacements by Departmental Labor, $2,000, to Bureau of Superintendence (No. 156), General Supplies.

The Commissioner states that owing to an oversight in preparing the departmental estimate for 1910 no provision was made for the coal supply chargeable against Budget account, although considerable coal is used on Pier "A," at the Dockmaster's offices and at the other places under the control of the Department, for purposes not connected with construction work.

He further states that such fuel supply is properly a charge against the item for general supplies in the Bureau of Superintendence, but that the Budget appropriation for such general supplies, namely, $7,500, is so heavily encumbered at present that such coal supply cannot be charged to that account unless the same is increased by the requested transfer of funds.

The appropriation made for the Bureau of Engineering, No. 147, Materials for Repairs and Replacements by Departmental Labor, $150,000, is, however, in the Commissioner's opinion, in excess of the probable requirements for such purpose during the current year, hence may safely be reduced by such amount of $2,000.

Had the Commissioner's predecessor included in his 1910 departmental estimate, under the Bureau of Superintendence, General Supplies, or Fuel, an amount covering such coal, the same would doubtless have been allowed in drafting the Budget allowances for the Department of Docks and Ferries, as such fuel supply cannot be regarded as connected with construction work, and hence properly chargeable to corporate stock funds.

From memoranda furnished by the representative of the Commissioner, it appears that the status of the two appropriation accounts in question, as of May 23, 1910, was as follows:

147.	Budget appropriation for 1910	$150,000 00
	Incumbrances to date	39,970 20
	Unencumbered balance	$110,029 80
156.	Budget appropriation for 1910	$7,500 00
	Incumbrances to date	3,836 21
	Unencumbered balance	$3,663 79

It therefore appears that an ample unencumbered balance exists in account No. 147 to permit of the desired transfer of $2,000 therefrom.

In view of the previous statements, and in order that the necessary expenditures for such fuel supply may be provided for, I recommend the adoption of the resolution hereunto attached.

Respectfully,
WILLIAM A. PRENDERGAST, Comptroller.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—Request is hereby made for a modification of the schedules of salaries and wages supporting the appropriations made to the Department of Finance for the year 1910, to provide for the transfer of two Stenographers and Typewriters between the Auditing Bureau and the Bureau of Municipal Investigation and Statistics, the salary of one being $1,350, that of the other $1,200.

The transfer necessitated thereby is $87.50, but as in a modification requested January 11, 1910, a clerical error was made whereby the sum of $125 was transferred from the Auditing Bureau to the Main Office, which should have read $137.50. I take this occasion to rectify the same and request a transfer of but $75 from the Bureau of Municipal Investigation and Statistics to the Auditing Bureau, the other $12.50 being transferred to the Main Office.

The necessary resolutions are attached hereto.

Respectfully,

The Secretary presented a report of the Committee on Standardization of Supplies, consisting of the Mayor, the Comptroller and the President of the Board of Aldermen, pursuant to resolution adopted May 20, 1910, submitting form of specifica-

tions for forage and recommending that the specifications be adopted for the use of the various Departments, Bureaus and Offices and County Offices under the control of the City Government, subject to such modifications, from time to time, as may be determined by the Committee as the result of experience to be expedient; also recommending that the Comptroller be requested to pay the expenses of the "Commission on Standardization," acting under the direction of the Select Committee of the Board, from his contingent account and that the Board authorize the transfer of $10,000 from the appropriation made for the year 1910, entitled "No. 53, Redemption of the City Debt—The City of New York," to the appropriation made for the same year, entitled "Department of Finance, No. 27, Contingencies," to provide means therefor.

The Secretary presented the following communication from the Commissioner of the Department of Parks, Boroughs of Manhattan and Richmond, requesting, and report of the Comptroller recommending, a modification of the schedules of salaries supporting the appropriation made in the Budget for the year 1910 for said Department, providing for the salary of a Stenographer and Typewriter at $1,080 per annum in the Engineer's office, involving no additional appropriation:

The City of New York,
Department of Parks, Manhattan and Richmond,
April 27, 1910.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—I beg to request that the schedule supporting the Budget appropriations for the year 1910 for the Department of Parks, Boroughs of Manhattan and Richmond, as revised by your honorable Board February 25, 1910, be further revised by the modification of Item No. 846, so as to provide a Stenographer in the Engineer's office, at $1,080 per annum, using the "unassigned balance" of $480, in addition to the amount of $600 now provided for that purpose. The sum of $1,080 was provided in the supporting schedule for the Engineer's Stenographer, but owing to the fact that the present incumbent was not entitled under Civil Service rules to receive that amount until May, the schedule was revised as above stated to permit the payment of her salary at the rate of $600, until such time as she should become eligible to receive the amount appropriated and heretofore paid to such Stenographer.

As the present incumbent will become eligible on the 3d prox., and has shown pronounced ability in the performance of her work, I deem it proper to recommend the above provision, in order that she may receive the established compensation of the position.

Respectfully,
CHAS. B. STOVER, Commissioner.

Department of Finance, City of New York,
Bureau of Municipal Investigation and Statistics,
May 3, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—In the matter of a communication received from the Commissioner of Parks, Boroughs of Manhattan and Richmond, under date of April 27, 1910, requesting a modification of schedule No. 846, supporting the Budget appropriations for the year 1910, I submit the following report:

Provision was made in the Budget for the year 1910 for a Stenographer and Typewriter in the office of the Engineer at $1,080 per annum, but owing to the fact that the incumbent of the position had not been in the Department a year as required by the rules of the Municipal Civil Service Commission, the Commission refused to pass the payroll, and it was necessary to modify the schedule by reducing the salary of the incumbent to $600 per annum, and by leaving the difference, $480, as an unassigned balance.

Action to this effect was taken upon a report made by me under date of February 14, 1910, recommending a decrease in the salary until such time as the incumbent had been in the office for the period of one year, the time required under the Civil Service rules. I am informed by the Park Commissioner that the incumbent is now eligible for advancement, and because of the ability she has shown in the performance of her work, he desires to pay her the compensation provided in the Budget, which will necessitate the modification of the schedule by eliminating the item unassigned balance, $480, and the item Stenographer and Typewriter, $600, and inserting in lieu thereof the line item Stenographer and Typewriter, $1,080 per annum, as originally provided. The employee to be benefited in this case prior to her employment in the Department of Parks was connected with the Children's Farm in DeWitt Clinton Park.

In view of these facts I recommend favorable consideration of the resolution hereunto appended.

Respectfully
WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the schedule No. 846 supporting the appropriations made in the Budget for the year 1910 for the Department of Parks, Boroughs of Manhattan and Richmond, as revised as hereinafter indicated:

Engineers' Office—

846 Salaries and Wages:

Chief Engineer	$4,000 00
Assistant Engineer	2,500 00
Stenographer and Typewriter	1,080 00
Services of Engineering force temporarily employed on maintenance work	6,500 00
	$14,080 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Commissioner of the Department of Docks and Ferries requesting, and report of the Comptroller recommending, a modification of the schedules of salaries supporting the appropriation made in the Budget for the year 1910 for said Department, by increasing the number of Supervising Marine Engineers, at $2,500 per annum, from one to two, and decreasing the number of Chief Marine Engineers, at $1,800 per annum, from 33 to 32, Bureau of Ferries, involving no additional appropriation:

The City of New York,
Department of Docks and Ferries,
New York, May 16, 1910.

Hon. WILLIAM A. PRENDERGAST, *Comptroller:*

SIR—Item 170 of the Budget for 1910, Bureau of Ferries, Operation, as it originally appeared, provided for 2 Supervising Marine Engineers, at $2,500 per annum each, and for 32 Chief Marine Engineers, at $1,800 per annum each.

As only one promotion had been made to the position of Supervising Marine Engineer, at $2,500, the second promotion having been withheld, owing to a demand pending before the Municipal Civil Service Commission for a change in the eligible list, this item was changed to read:

Supervising Marine Engineer, 1, at $2,500 per annum.
Chief Marine Engineers, 33, at $1,800 per annum each.

The employment of 2 Supervising Marine Engineers is necessary for the proper prosecution of the ferry work, and I now desire to promote one of the Chief Marine Engineers at the head of the eligible list to fill the vacancy in the position of Supervising Marine Engineer. To meet this proposed change I request that Budget Item 170 be amended to provide for:

Supervising Marine Engineers, 2, at $2,500 per annum each.
Chief Marine Engineers, 32, at $1,800 per annum each.

This change will eliminate the present unassigned line in Item 170.

Yours very truly,
CALVIN TOMKINS, Commissioner of Docks.

Department of Finance, City of New York,
Bureau of Municipal Investigation and Statistics,
May 24, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—I transmit herewith a request under date of May 16, 1910, from the Commissioner of Docks for a further revision and modification of the salaries and wages schedules supporting the appropriations made for the Bureau of Ferries under his jurisdiction, for the year 1910; and present my report thereon, as follows: The requested modifications are:

Bureau of Ferries, Operation (No. 170), Salaries.

Line Items.	Present Schedule.	Requested Schedule.
Supervising Marine Engineer	(1) $2,500 00	(2) $5,000 00
Chief Marine Engineer, at $1,800	(33) 59,400 00	(32) 57,600 00
Unassigned	1,300 00	600 00
	$63,200 00	$63,200 00

The original salary schedule for the Bureau of Ferries, Operation, as set forth in the 1910 Budget, provides for 2 Supervising Marine Engineers at $2,500 per annum each, and 32 Marine Engineers at $1,800 per annum each, but such schedule was revised by the Board of Estimate and Apportionment on February 11, 1910, to read 1 Supervising Marine Engineer at $2,500, and 33 Chief Marine Engineers at $1,800, to meet the then existing conditions, the difference in the amounts required for such salaries as originally provided for and revised, namely $700, being placed as "unassigned" in the revised schedule.

As the modification now proposed by the Commissioner will simply restore such line items to read as they appeared in the original budget schedule, I recommend the adoption of the resolution hereto attached.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following communication from the Commissioner of the Department of Docks and Ferries requesting, and report of the Comptroller recommending, a modification of the schedules of salaries supporting the appropriation made in the Budget for the year 1910, for said Department, by increasing the number of Dockmasters, at $1,800 per annum, from 4 to 8, and decreasing the number of Dockmasters at $2,100 per annum, from 21 to 17, Bureau of Superintendence:

Department of Docks and Ferries,
Pier "A," North River,
New York, May 18, 1910.

Hon. WILLIAM A. PRENDERGAST, *Comptroller:*

SIR—The Budget appropriation for this Department—Bureau of Superintendence, Item 154—allows the employment of 21 Dockmasters at $2,100 per annum each and of 4 Dockmasters at $1,800 per annum each.

The employment of some of the Dockmasters now receiving $2,100 is to be dispensed with and new Dockmasters are being appointed in their stead who will receive $1,800 per annum. To meet this change I respectfully request that the Budget be modified to provide for 17 Dockmasters at $2,100 per annum and for 8 Dockmasters at $1,800 per annum, leaving the balance of $1,200 unassigned.

Yours very truly,
CALVIN TOMKINS, Commissioner of Docks.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—I transmit herewith request under date of May 18, 1910, from the Commissioner of Docks, for a further revision and modification of the salaries schedule supporting the appropriations made for the Bureau of Superintendence, under his jurisdiction for the year 1910, and present my report thereon as follows. The requested changes are:

Bureau of Superintendence (No. 154), Salaries.

Line Items.	Present Schedule.		Requested Schedule.	
Dockmasters, at $2,100	(21)	$44,100 00	(17)	$35,700 00
Dockmasters, at $1,800	(4)	7,200 00	(8)	14,400 00
Unassigned				1,200 00
		$51,300 00		$51,300 00

I am advised that while this proposed change may be only temporary, the exact number of Dockmasters to be appointed in each of the existing grades not being as yet fully determined, such change is necessary to permit of the proper audit of the present payroll of such Bureau.

As the requested changes in no way violate the provisions of the Budget resolutions relative to salaries and wages schedules, I recommend the adoption of the resolution hereunto attached.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

The Secretary presented a report of the Comptroller, referring to the request of the Fire Commissioner for a modification of the schedules of salaries supporting the appropriation made in the Budget for the year 1910, for his Department, providing for an increase in the salary of an Assistant Fire Marshal, from $1,500 to $2,000 per annum, and recommending that said request be not approved as there does not seem to be sufficient evidence to justify the granting of same.

Which was ordered filed and the Secretary directed to transmit a copy thereof to the Commissioner of the Fire Department.

The Secretary presented a report of the Comptroller recommending that the resolution of the Board of Aldermen requesting an issue of $285 special revenue bonds (subdivision 8, section 188, of the Charter), the proceeds to be used by the President of the Borough of Richmond for the purpose of paying the rent of an office for the use of Engineers on construction of sewers in Stapleton, Borough of Richmond, be returned to said Board for an amendment to provide that the proceeds thereof be used by the Comptroller for said purpose.

Which was referred to the Board of Aldermen in accordance with the recommendation contained in the report of the Comptroller.

(On May 13, 1910, the resolution of the Board of Aldermen requesting the above issue was referred to the Comptroller.)

The Secretary presented the following resolution of the Board of Aldermen requesting an issue of $1,575 special revenue bonds (subdivision 8, section 188, of the Charter) for the purpose of providing means for the increase in the salaries of the Clerk and two Probation Officers in the Children's Court, Special Sessions, First Division, for the balance of the year beginning April 26, 1910, together with a report of the Comptroller recommending an issue of $1,430 for this purpose.

In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand five hundred and seventy-five dollars ($1,575), the proceeds whereof to be used by the Court of Special Sessions, First Division, for the purpose of providing means for payment of salaries of two Probation Officers and the Clerk of the Children's Court, recently increased in accordance with the provisions of section 56 of the Charter.

Adopted by the Board of Aldermen April 26, 1910, three-fourths of all the members elected voting in favor thereof.

Received from his Honor the Mayor May 10, 1910, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

New York, May 9, 1910.

Hon. JOSEPH HAAG, *Secretary, Board of Estimate and Apportionment, New York City:*

DEAR SIR—I am addressing this to you thinking that you perhaps may be able to expedite a matter which concerns certain of the attaches of this office. It would seem that in March last, the Board of Estimate and Apportionment, after a report of an investigation conducted by a Select Committee comprising the Comptroller and the President of the Board of Aldermen, requested the latter Board to fix and grade certain salaries in this office. The matter was held in the Board of Aldermen for a considerable time pending investigations by the Salaries and Finance Committees. The latter reported favorably and the salaries were accordingly designated according to the terms of section 56 of the Charter. This involved the grading of the salary of the Clerk of the Children's Court at $4,000; of the male Probation Officer at $2,000, and of the female Probation Officer at $1,800. In order to pay these increased salaries it was, of course, necessary to authorize the issuance of special revenue bonds in the sum of $1,575. This matter was referred to the Board of Aldermen and reported favorably. It must now come before the Board of Estimate.

What I want is that the latter Board should authorize the Comptroller to issue these special revenue bonds so that the salaries may be paid in accordance with the provisions above stated. The Aldermanic measure was passed this week and I would ask if you can expedite this matter to see that it is on the calendar of the Board of Estimate at the next meeting.

Yours very truly,
W. M. FULLER, Clerk.

Department of Finance, City of New York,
Bureau of Municipal Investigation and Statistics,
May 23, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—In the matter of the following resolution adopted by the Board of Aldermen April 26, 1910,

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand five hundred and seventy-five dollars ($1,575), the proceeds whereof to be used by the Court of Special Sessions, First Division, for the purpose of providing means for payment of salaries of two Probation Officers and the Clerk of the Children's Court, recently increased in accordance with the provisions of section 56 of the Charter,

—which resolution was referred to the Comptroller for consideration, I would report as follows:

At a meeting of the Board of Aldermen held April 12, 1910, resolutions adopted by the Board of Estimate and Apportionment February 25, 1910, were concurred in establishing the following grades of positions and fixing salaries in the Children's Court, Court of Special Sessions, First Division:

Clerk of the Court (Ernest K. Coulter), only, at $4,000 instead of $3,000 per annum.

Male Probation Officer (Joseph C. Graneur), only, at $2,000 instead of $1,500 per annum.

Female Probation Officer (Mrs. Sophie B. Axman), only, at $1,800 instead of $1,200 per annum.

The increases amount to $2,100 per annum. The resolution of the Board of Aldermen provides for the increased salary rates from April 1. The new grades did not become operative until April 26 and the amount required to meet the increases in salaries is $1,430 instead of $1,575.

In view of the fact that the resolution of the Board of Aldermen is to provide funds to meet increases in salaries regularly established and fixed, I would recommend for favorable consideration the resolution hereto attached.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen adopted April 26, 1910, in relation to an appropriation of one thousand five hundred and seventy-five dollars ($1,575), to the extent of one thousand four hundred and thirty dollars ($1,430), to meet the increase in the salaries of the Clerk and two Probation Officers in the Children's Court, Court of Special Sessions, First Division, and for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Charter, to issue Special Revenue Bonds of The City of New York to an amount not exceeding one thousand four hundred and thirty dollars ($1,430), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented a report of the Comptroller referring to the claim of Katie Maesel, executrix, etc., filed pursuant to the provisions of chapter 601, Laws of 1907, for the sum of $1,100.13 for interest on the purchase price of $41,000 of property No. 26 Chrystie street, Manhattan, acquired by The City of New York for bridge purposes, and stating, from the facts set forth in the accompanying report of the Division of Law and Adjustment of the Department of Finance, and the opinion of the Acting Corporation Counsel, dated February 10, 1910, this claim does not come within the purview of chapter 601 of the Laws of 1907.

Which was ordered filed and the Secretary directed to notify petitioner.

(On December 18, 1908, the above petition was referred to the Comptroller.)

The Secretary presented a report of the Comptroller returning communication from the Commissioner of the Department of Docks and Ferries requesting authority to advertise and award a contract for coal for the Bureau of Construction, at an estimated cost of $18,000, for the reason that allowance for said purpose was contained in the Commissioner's Departmental estimate for the corporate stock budget and no further action is required by the Board.

Which was ordered filed and the Secretary directed to transmit a copy thereof to the Commissioner of the Department of Docks and Ferries.

(On May 20, 1910, the above communication was referred to the Comptroller.)

The Secretary presented a report of the Comptroller and of the President of the Borough of Manhattan referring to the request of the County Clerk of New York County that provision be made for the removal, care and preservation of the records in his office, in view of the proposed demolition of the County Court House, etc., and advising that the removal of the records in the present Court House be deferred until the building of a new Court House on the site of the present Court House is definitely decided.

Which was ordered filed and the Secretary directed to transmit a copy thereof to the County Clerk, New York County.

(On March 11, 1910, the above matter was referred to the Comptroller and to the President of the Borough of Manhattan.)

The Secretary presented a report of the Comptroller, recommending that the resolution of the Board of Aldermen requesting an issue of $800 special revenue bonds (subdivision 8, section 188 of the Charter), the proceeds to be used by the Trustees of the Bellevue and Allied Hospitals for the purpose of paying the rent of the premises No. 117 West One Hundred and Thirty-sixth street, Manhattan, for the accommodation of Nurses at Harlem Hospital, for the year 1910, beginning May 1, 1910, be amended to provide that the proceeds thereof be used by the Comptroller for said purpose.

Which was referred to the Board of Aldermen in accordance with the recommendation of the Comptroller.

(On May 6, 1910, the resolution of the Board of Aldermen requesting the above issue was referred to the Comptroller.)

The Secretary presented communications (2) from the President of the Board of Education, pursuant to resolution adopted May 20, 1910, in regard to the elimination of part-time classes in the public schools, and stating that the matter has been referred to a Special Committee of three of the Board of Education, and that the information requested by the Board of Estimate and Apportionment will be furnished at the earliest possible moment.

Which was ordered on file.

The Secretary presented the following communication from the Commissioner of the Fire Department requesting, and report of the Comptroller recommending, a modification of the schedule of salaries supporting the appropriation made in the Budget for the year 1910 for the said Department, in order to provide for a Machinist at $4.50 per diem in place of an Engineer at the same rate:

JOSEPH HAAG, Esq., *Secretary, Board of Estimate and Apportionment:*

SIR—I have the honor to transmit herewith for your information copy of communication forwarded on the 10th inst. to the Board of Estimate and Apportionment requesting substitution of provision in Repair Shops payroll, 1910, Boroughs of Manhattan, The Bronx and Richmond, for a Storekeeper and an additional Machinist, in place of a Nickel Plater and an Engineer.

Respectfully,
R. WALDO, Fire Commissioner.

Headquarters, Fire Department, City of New York,
Nos. 157 and 159 East Sixty-seventh Street,
Borough of Manhattan, May 10, 1910.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman of the Board of Estimate and Apportionment:*

SIR—I have the honor to request that the Board of Estimate and Apportionment revise salary schedule No. 753, Repair Shops, Boroughs of Manhattan, The Bronx and Richmond, by eliminating therefrom the position of one Nickel Plater, a new position which is not to be filled, at $1,216 per annum, and substituting in lieu thereof one Storekeeper at $1,200 per annum, which position was established April 26, 1910; also by eliminating an Engineer, a new position, at $4.50 per diem, not to be filled, and substituting in lieu thereof one Machinist, at the same rate.

Respectfully,
R. WALDO, Fire Commissioner.

Department of Finance, City of New York,
Bureau of Municipal Investigation and Statistics,
May 28, 1910.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—Under date of May 10, 1910, the Commissioner of the Fire Department requests a modification of the salary schedule supporting the appropriation for 1910 for Repair Shops, Boroughs of Manhattan, The Bronx and Richmond.

The modification calls for the elimination of one of the positions of Nickel Plater, also an Engineer, for both of whom provision is made in the Budget for 1910 at the rate of $4.50 per day. These positions have not been filled, and the Commissioner proposes to substitute a Storekeeper at an annual salary of $1,200, to replace the Nickel Plater, and a Machinist in place of the Engineer at the same per diem rate.

The request of the Fire Commissioner would, in part, involve the application of money appropriated for the payment of an employee at a per diem wage to the payment of one at an annual salary, which I deem to be contrary to the intent of the Board of Estimate and Apportionment as expressed in the resolution accompanying the Budget, as adopted October 29, 1909.

I would therefore recommend that the request be approved to the extent of permitting the substitution of a Machinist for an Engineer, as per resolution attached hereto.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

CORPORATE STOCK BUDGET, STREET REPAVING FUND, ALL BOROUGHS.

New York, May 23, 1910.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—We transmit herewith for adoption an amendment to a resolution of the Board of Estimate and Apportionment of June 11, 1909, authorizing the issue of corporate stock of The City of New York to the amount of $3,000,000, for repaving streets and avenues in The City of New York, to be distributed as follows:

Borough of Manhattan	$1,000,000 00
Borough of Brooklyn	1,000,000 00
Borough of The Bronx	350,000 00
Borough of Queens	350,000 00
Borough of Richmond	300,000 00
	$3,000,000 00

In preparing the corporate stock budget for the year 1910 your Committee found that whereas it would be necessary to allow the Boroughs of Manhattan, Brooklyn and Richmond additional authorizations to continue the work of repaving, the Boroughs of The Bronx and Queens had balances to their credit in excess of the exigencies of this year, and the amendment of the resolution presented herewith provides for the rescindment of the sums for these two Boroughs which will not be required during the present year, namely:

For the Borough of The Bronx	$160,000 00
For the Borough of Queens	36,000 00
	$196,000 00

The total amount of the authorization is therefore reduced from $3,000,000 to $2,804,000.

Respectfully,

WM. A. PRENDERGAST, Comptroller;
JOHN PURROY MITCHEL, President, Board of Aldermen;
GEORGE McANENY, President, Borough of Manhattan;
Corporate Stock Budget Committee.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following communication from the President of the Borough of Richmond requesting, and report of the Select Committee, consisting of the Comptroller and the President of the Board of Aldermen, recommending, the establishment of the grade of position of Superintendent of Buildings in the office of the Borough President, with salary at the rate of $3,000 per annum, for one incumbent.

(On March 11, 1910, the request of the President of the Borough of Richmond for the establishment of the above grade of position was referred to said Select Committee.)

The City of New York,
Office of the President of the Borough of Richmond,
Borough Hall, New Brighton, February 7, 1910.

JOSEPH HAAG, Esq., *Secretary, Board of Estimate and Apportionment:*

DEAR SIR—I beg respectfully to ask that the Board of Estimate and Apportionment fix the salary of the Superintendent of Buildings, of this office, at $3,000 per annum. The present incumbent, Mr. John Seaton, is a man of large experience in the building line and has been my Superintendent of Buildings since 1902, under the present Charter, and has been receiving the sum of $2,500, his present salary, since his appointment. I feel that he is entitled to this increase and is now receiving an entirely too small a salary.

Very truly yours,
GEORGE CROMWELL, President of the Borough.

P. S.—The salaries of all the other Superintendents is $3,000, and I feel that the salary of the Superintendent of Buildings should be the same, not as that provided in the Charter—$2,500.

Department of Finance, City of New York,
Bureau of Municipal Investigation and Research,
May 4, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—Under date of March 11, 1910, the President of the Borough of Richmond requested the establishment of the grade of the position of Superintendent of Buildings, with a salary at the rate of $3,000, which matter was referred by your Board to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen.

In the Boroughs of Manhattan, Brooklyn and The Bronx the rate of compensation for the Superintendent of Buildings is $5,000 per annum. The rate paid in the Borough of Queens is $3,000. The present rate of Richmond, therefore, is $500 less than the lowest rate paid for similar service in the city.

The President has stated that the present incumbent is a man of large experience in the building line and that he has served in the capacity of Superintendent of Buildings since 1902, receiving the sum of $2,500 per annum during the entire term of service.

In view of the facts submitted, your Committee recommends the adoption of the resolution attached hereto.

Respectfully,
WM. A. PRENDERGAST, Comptroller;
JOHN PURROY MITCHEL, President, Board of Aldermen;
Select Committee.

The following resolution was offered:

Resolved, That, in accordance with the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment of the following grade of position in the office of the President of the Borough of Richmond, in addition to those already existing therein, viz.:

	Incumbents.	Per Annum.
Superintendent of Buildings.....	1	$3,000 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

On motion of the Comptroller, the Board adjourned to meet Friday, June 10, 1910, at 10.30 o'clock in the forenoon.

JOSEPH HAAG, Secretary.

Corporation Sales.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE BY SEALED BIDS.

AT THE REQUEST OF THE PRESIDENT of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale by sealed bids all the buildings, parts of buildings, etc., now standing upon property owned by The City of New York acquired by it for street opening purposes in the

Borough of Brooklyn.

Being all the buildings, parts of buildings, etc., situated within the lines of Hemlock street, from Jamaica avenue to Fulton street, in the Borough of Brooklyn, all of which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held May 18, 1910, the sale by sealed bids of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

TUESDAY, JUNE 14, 1910,

at 11 a. m., in lots and parcels and in manner and form as follows:

Parcel No. 1. Two-story frame house, with one-story frame extension, No. 13 Danforth street.

Parcel No. 2. Two-story frame house, with one-story frame extension, No. 15 Danforth street.

Parcel No. 3. One-story frame house, No. 20 Danforth street.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 14th day of June, 1910, and then publicly opened for the sale for removal of the above described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids, and that a deposit of $500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened June 14, 1910," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser,

cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property, not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Acting Comptroller.

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate an extension to its present street surface railway, with the necessary wires and equipment, for the purpose of conveying passengers only in the Borough of Manhattan, in The City of New York, upon the following route, to wit:

The said route with turnouts, switches and crossovers hereby authorized is shown upon a map entitled:

"Map showing proposed extension of The 42d Street, Manhattanville & St. Nicholas Ave. Railway Co. in the Borough of Manhattan, City of New York, to accompany the petition dated March 3d, 1910, to the Board of Estimate and Apportionment."

—and signed by F. W. Whitridge, Receiver, and T. F. Mullaney, Chief Engineer; a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and a copy of such consent shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said three (3) months or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company for the term of ten (10) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of fifteen (15) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agree-

ment with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of one hundred dollars ($100) in cash within three (3) months after the date on which this contract is signed by the Mayor and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum which shall in no case be less than three hundred and twenty-five dollars ($325) and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of three hundred and twenty-five dollars ($325).

During the second term of five (5) years an annual sum which shall in no case be less than five hundred and seventy-five dollars ($575) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of five hundred and seventy-five dollars ($575).

The gross annual receipts mentioned above shall be that portion of the gross receipts of the Company from all sources within the limits of the City as shall bear the same proportion to such gross receipts as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law as amended.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege, upon the same or other terms and conditions, over the same streets and avenues hereinbefore described.

The use of the railway constructed by the Company under this contract, including the tracks, wires and other equipment, or any structures used in connection therewith, in streets and avenues hereinbefore described shall be permitted by the Company to any individual or corporation to which the City may have granted or may hereafter grant the right or privilege to use such streets and avenues for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company which shall equal the legal interest on such proportion of the actual cost of the construction of such railway and structures, and additions and betterments thereto, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the Companies then using the same; and also such proportion of the cost of keeping the tracks and electrical equipment in repair, and the cost of additions and betterments thereto, such proportion of laying and repairing of pavement and removal of snow and ice, and all other duties imposed upon the Company by the terms of this contract in connection with the maintenance or the operation of said railway so used, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the Companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation. Provided, however, that if in the opinion of the Company the legal rate of interest upon the cost of such railway shall be an insufficient sum to be paid for the use of such tracks, it may appeal to the Board, and the Board may fix a percentage upon the cost to be paid to the Company at a sum in excess of the legal rate of interest if in its opinion such action is justified.

The Company shall not at any time oppose, but shall upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company pursuant to this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway herein authorized within three (3) months from the date upon which the consents of the property owners are filed with the Board, or from the date upon which the order of the Appellate Division of the Supreme Court that such railway ought to be constructed is rendered in lieu of such consents, and shall complete the construction and place the same in full operation within six (6) months from the date of filing such consents or such order, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six (6) months each; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided, further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions as a condition of the granting of the same as are necessary for the purpose of protecting any structures in the streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—Said railway shall be operated by underground electric power substantially similar to the system of underground electric power now used by the street surface railways in the Borough of Manhattan, provided that any other power may be used except locomotive steam power, horse power or overhead electric power which may be lawfully used, approved by the Board and consented to by the abutting property owners in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York.

Twelfth—No wires for the transmission of power shall be permitted unless they be placed in conduits underneath or along the side of the railway. When such conduits are constructed the Company shall provide two (2) conduits not less than three (3) inches in diameter each for the exclusive use of the City. The Company hereby agrees that such conduits shall be used only by the Company and the City as above.

Thirteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on its road or any road, line or branch operated by it or under its control to any other point thereof or any connecting branch thereof within the limits of the City.

Fourteenth—No cars shall be operated upon the railway hereby authorized other than passenger cars and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway, and the tracks hereby authorized shall not be used for the storage of cars.

Fifteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Seventeenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Eighteenth—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Nineteenth—As long as said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Twentieth—Any alteration to the sewerage or drainage system, or any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-first—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-second—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said street the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

The Company shall, within sixty (60) days from the commencement of the operation of the railway hereby authorized, remove, at its own expense, the four tracks, together with the crossovers, conduits and other equipment now existing in Manhattan street; such tracks being as shown by dashed lines upon the map or plan attached hereto and made a part of this contract, and shall restore the street to its original condition. In case of the failure of the Company within such time to comply with the provisions relative to the removal of the tracks, crossovers, conduits and other equipment in Manhattan street, and the restoring of the surface of the street to its original condition, the rights hereby granted shall cease and determine.

Twenty-third—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-fourth—The Company shall at all times keep accurate books of account of the gross earnings from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-fifth—In case of any violation or breach or failure to comply with any of the provisions herein contained or with any orders of the Board acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-sixth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars ($250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-seventh—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-eighth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of five hundred dollars ($500), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railway and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the headway, heating and lighting of cars, fenders, wheel-guards and watering of street pavements, the Company shall pay a penalty of fifty dollars ($50) per day for each day of violation, and the further sum of ten dollars ($10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel-guards, in case of a violation of the provisions relating to those matters, all of which sums may be deducted from the said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board, to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of five hundred dollars ($500), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-ninth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirtieth—The words "streets or avenues" and "streets and avenues," wherever used in this contract, shall be deemed to mean "streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement," encountered in the route hereinabove described, and upon or in which authority is hereby given to the Company to construct a railway.

Thirty-first—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other Board authority, officer or officers, then and in such case such other Board authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 4. This grant is also upon the further and express condition that the provisions of Article IV. and other provisions of the Railroad Law pertinent thereto, shall be strictly complied with by the Company.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to, abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed the day and year first above written.

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Union Railway Company of New York City, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Union Railway Company of New York City the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates, fares and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

Proposed Form of Contract.

This contract, made this day of , 1910, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Union Railway Company of New York City (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double-track extension to its present street surface railway, with the necessary wires and equipment, for the purpose of conveying passengers only, in the Borough of The Bronx, in The City of New York, upon the following route, to wit:

Beginning at and connecting with the tracks of the Company in Westchester avenue, at its intersection with East One Hundred and Sixty-seventh street; thence southwesterly in and upon East One Hundred and Sixty-seventh street to the intersection of East One Hundred and Sixty-ninth street at Fox street or Simpson street; thence westerly in and upon East One Hundred and Sixty-ninth street to Franklin avenue; thence southerly in and upon Franklin avenue to East One Hundred and Sixty-eighth street; thence westerly in and upon East One Hundred and Sixty-eighth street to Webster avenue; thence southerly in and upon Webster avenue to East One Hundred and Sixty-seventh street; thence westerly in and upon East One Hundred and Sixty-seventh street and the Transverse road underneath the Grand Boulevard and Concourse, and again in and upon East One Hundred and Sixty-seventh street to Jerome avenue, and there connecting with the existing tracks of the Company in Jerome avenue.

The said route, with turnouts, switches and crossovers, hereby authorized is shown upon a map entitled:

"Map showing proposed extension of the Union Railway Company in the Borough of The Bronx, City of New York, to accompany petition dated February 9, 1910, to the Board of Estimate and Apportionment,"

—and signed by F. W. Whitridge, receiver; Edward A. Maher, president, and T. F. Mullaney, chief engineer, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent, in writing, of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and a copy of such consent shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within said three (3) months or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor until March 1, 1924, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient, if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound, upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of two thousand dollars ($2,000) in cash within three (3) months after the date on which this contract is signed by the Mayor and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum which shall in no case be less than fifteen hundred dollars ($1,500), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of fifteen hundred dollars ($1,500).

During the second term of five (5) years an annual sum which shall in no case be less than three thousand dollars ($3,000), and which shall be equal to five (5) per cent. of its gross annual receipts if such percentage shall exceed the sum of three thousand dollars ($3,000).

During the remaining term, expiring March 1, 1924, an annual sum which shall in no case be less than thirty-six hundred dollars ($3,600), and which shall be equal to five (5) per cent. of its gross annual receipts if such percentage shall exceed the sum of thirty-six hundred dollars ($3,600).

The gross annual receipts mentioned above shall be that portion of the gross receipts of the Company from all sources within the limits of the City as shall bear the same proportion to its whole such gross receipts as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City, pursuant to the Railroad Law as amended, and such charges as are required under chapter 340 of the Laws of 1892 to be paid by the Company for this extension, if said act applies to or controls the Company in relation to the right and privilege hereby granted.

The City does not and shall not demand or require the payment by the Company of a percentage of gross receipts under the provisions of chapter 340 of the Laws of 1892 on the gross receipts earned on the extension constructed pursuant to this contract.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City or resolution of the Board or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets and avenues, hereinbefore described.

The use of the railway constructed by the Company under this contract, including the tracks, wires and other equipment or any structure used in connection therewith, in streets and avenues hereinbefore described shall be permitted by the Company, to any individual or corporation to which the City may have granted or may hereafter grant the right or privilege to use such streets and avenues for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall equal the legal interest on such proportion of the actual cost of the construction of such railway and structures, and additions and betterments thereto, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same; and also such proportion of the cost of keeping the tracks and electrical equipment in repair, and the cost of additions and betterments thereto, such proportion of laying and repairing of pavement and removal of snow and ice and all other duties imposed upon the Company by the terms of this contract in connection with the maintenance or the operation of said railway so used, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation. Provided, however, that if, in the opinion of the Company, the legal rate of interest upon the cost of such railway shall be an insufficient sum to be paid for the use of such tracks, it may appeal to the Board and the Board may fix a percentage upon the cost to be paid to the Company, at a sum in excess of the legal rate of interest, if, in its opinion, such action is justified.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company pursuant to this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway herein authorized within three (3) months from the date upon which the consents of the property owners are filed with the Board or from the date upon which the order of the Appellate Division of the Supreme Court that such railway ought to be constructed is signed in lieu of such consents, and shall complete the construction and place the same in full operation within twelve (12) months from the date of filing such consents or such order, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six (6) months each; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of The Bronx, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Twelfth—Upon six (6) months' notice by the Board to the Company, all wires for the transmission of power, except trolley wires, for the operation of the railway, upon all or any portion of the route hereby authorized, shall be placed in conduits beneath or alongside of the railway. The Company shall provide in such conduits two (2) ducts not less than three (3) inches in diameter for the exclusive use of the City. Such ducts shall be used only by the Company for the operation of its railway and by the City, as above.

Thirteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on its road or on any road, line or branch operated by it or under its control to any other point thereof, or any connecting branch thereof within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fourteenth—No cars shall be operated upon the railway hereby authorized other than passenger cars and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

Fifteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter during the term of this contract be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Seventeenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Eighteenth—Cars on the said railway shall run at intervals of not more than thirty (30) minutes, both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Nineteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall cause to be watered at least three (3) times every twenty-four (24) hours when the temperature is above thirty-five (35) degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed sixty (60) feet between curb lines, in which case the Company shall cause to be watered only sixty (60) feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Twentieth—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-first—As long as said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City officer, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-second—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-third—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-fourth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said street the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-fifth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.

9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.

14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries, and such other information in regard to the business of the Company as may be required by the Board.

Twenty-sixth—The Company shall at all times keep accurate books of account of the gross earnings from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-seventh—In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-eighth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars ($250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-ninth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirtieth—This grant is upon the express condition that any and all sums of money or any securities heretofore deposited with the Comptroller by the Company under and pursuant to franchises heretofore granted to it by The City of New York for the faithful performance by the Company of the several franchises so granted shall likewise form a fund for the performance by the Company of all the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, the removal of snow and ice, the quality of construction of the railway and the maintenance of the property in good condition throughout the whole term of the contract, and in case of default in the performance by the Company of such terms and conditions, or compliance with such orders, or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof, after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or, after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or, in case of failure to observe the said terms and conditions of this contract and orders of the Board hereunder, relating to the headway, heating and lighting of cars, fenders, wheel-guards and watering of street pavements, the Company shall pay a penalty of fifty dollars ($50) per day for each day of violation, and the further sum of ten dollars ($10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel-guards, in case of the violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount, and in default thereof this contract shall be canceled and annulled at the option of the Board, acting on behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-first—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-second—The words "streets or avenues" and "streets and avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, encountered in the route hereinabove described, and upon or in which authority is hereby given to the Company to construct a railway.

Thirty-third—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 4. This grant is also upon the further and express condition that the provisions of Article IV. and the other provisions of the Railroad Law pertinent hereto shall be strictly complied with by the Company.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

Dated New York, May 27, 1910.

PUBLIC NOTICE IS HEREBY GIVEN that at the meeting of the Board of Estimate and Apportionment held this day the following proceedings were had:

Whereas, The Electric Protection Company of New York in a petition dated September 15, 1909, made application to this Board for a grant of the right, privilege and franchise to lay, erect, construct and maintain wires and other conductors with the necessary poles, pipes, conduits and appliances in, over and under the streets, avenues and highways within The City of New York for the operation of electrical call boxes in connection with telephones, telegraph and other systems for providing wires and signals for protection service: and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on October 8, 1909, fixing the date for a public hearing thereon as October 29, 1909, at which citizens were entitled to appear and be heard, and publication was had for at least two days in the "New York Herald" and the "Morning Telegraph," newspapers designated by the Mayor, and in the CITY RECORD, for ten days immediately prior to the date of hearing, and the public hearing was duly held on such date; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for, and proposed to be granted to the Electric Protection Company of New York, and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Electric Protection Company of New York, containing the form of proposed contract for the grant of such franchise or right be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Electric Protection Company of New York, the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name, and on behalf of The City of New York, as follows, to wit:

This contract, made this day of , 19 , by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Electric Protection Company of New York (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company subject to the conditions and provisions hereinafter set forth the right and privilege to lay, construct, maintain and operate suitable wires or other electrical conductors in conduits under the streets and avenues within the Borough of Manhattan and the portion of the Borough of The Bronx lying west of the Bronx River, for the purpose of electrically connecting detecting and signalling apparatus to be located upon the premises of subscribers with signal recording apparatus located at some suitable point or points where such signals are to be received and thereby maintaining and operating burglary and fire alarm systems for the protection of the premises of subscribers and for no other purpose whatsoever.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits for the purpose aforesaid shall be held and enjoyed by the Company, for the term of fifteen (15) years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for a further period of ten (10) years upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof

Second—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of five thousand dollars ($5,000) in cash within three (3) months after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum which shall in no case be less than twelve hundred dollars ($1,200), and which shall be equal to two (2) per cent. of its gross annual receipts if such percentage shall exceed the sum of twelve hundred dollars ($1,200).

During the second term of five (5) years an annual sum which shall in no case be less than twenty-five hundred dollars ($2,500), and which shall be equal to two and one-half (2½) per cent. of its gross annual receipts, if such percentage shall exceed the sum of twenty-five hundred dollars ($2,500).

During the remaining term of five (5) years an annual sum which shall in no case be less than forty-five hundred dollars ($4,500), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of forty-five hundred dollars ($4,500).

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the wires and equipment of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its wires and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall construct, maintain and operate its protection system, subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters under the Charter of the City, and in strict compliance with all laws or ordinances, now in force or which may be adopted, affecting companies operating electrical conductors in the City.

Seventh—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as subways). Such subways shall be leased from the company or companies having control thereof under the provisions of law, or from the City, should it succeed to the rights of such company or companies. If the City shall construct or acquire subways for electrical conductors in the Borough of Manhattan, and the portion of The Bronx west of the Bronx River, or in any portion thereof, the Company hereby agrees to lay its wires and conductors in such subways and the City agrees to lease to the Company such space as may be required for the

operation of the signal and alarm systems hereby authorized.

Eighth—The Company shall, upon request from any individual or corporation occupying or owning premises in the territory in which the Company is operating, not in arrears to it for service already rendered, extend its wires to such premises and furnish protection service to such individual or corporation, provided that such premises are not more than one-half mile from any other premises in which the Company has its apparatus installed at the time such request is made.

Ninth—The Company shall file with the Board on the first day of November in each year a map or plan upon which shall be plainly indicated the number of wires which are in use by the Company on that date, and the streets in which the same are located, and also those which were put in use during the preceding year.

Tenth—It is agreed that the Board shall have absolute power to regulate all charges or rates for fire or burglar alarm services rendered by the Company to subscribers, pursuant to this contract, and it is further agreed that the charges or rates for certain classes of service furnished by the Company shall be limited as follows:

(a) For automatic fire alarm protection of five-story double tenement houses, or tenement houses of less dimensions, the annual charge for service shall not exceed fifty dollars ($50), where there are sufficient subscribers within the same city block to require the protection of not less than ten tenements in the same city block, and the Company shall make no charge for installation of equipment in such buildings.

(b) For interior manual fire alarm protection, installed according to the requirements of the National Board of Fire Underwriters, the annual charge for service shall not exceed the sum of twenty-five dollars ($25) for the first manual fire alarm box, and the sum of five dollars (5) per annum for each additional manual fire alarm box in the same building, where there are sufficient subscribers within the same city block to require not less than fifty manual fire alarm boxes, and the Company shall make no charge for installation of equipment in such buildings.

Eleventh—The Board may, by resolution and notice to the Company, direct the Company to install manual fire alarm apparatus in any or all offices or buildings used by the City, situated in the portion of the City in which the Company shall operate at the time when such notice shall be given. The Company, upon receiving such notice, shall install such apparatus, free of charge, and shall furnish service at rates not exceeding fifty (50) per cent. of the rate charged by the Company for similar service to any corporation or to any other individual.

Twelfth—The Company shall not require nor receive from its subscribers any deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate whenever such money is held for more than one month. Unpaid bills, unless due from its owner, shall never be charged against property, and no person not himself in arrears shall be denied service because any previous occupant of the same premises is in arrears to the Company for service.

Thirteenth—The wires of the Company shall be employed for no other purposes than those explicitly set forth herein and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

Fourteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Fifteenth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant.

Sixteenth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars ($100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Seventeenth—If for a period of twelve consecutive months, the fire alarm and burglar alarm systems of the Company shall not be operated, or if the same shall not be operated for a period of eighteen months out of any consecutive twenty-four months, the Board may declare the right and franchise and this contract terminated without further proceedings at law or in equity.

Eighteenth—The Company shall at all times keep accurate books of account and shall, on or before November 1 in each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding. Such report shall contain a statement of the gross receipts received from the operation of the systems hereby authorized from all subscribers served by the Company, together with such other information and in such form and detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Nineteenth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, furnish service to applicants as herein provided or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of the contract, or under the authority of any laws or ordinances now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars ($50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, in writing, pay to the City a sum sufficient to restore said security fund to the original amount of five thousand dollars ($5,000), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-first—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the system constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-second—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such cases such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-third—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

The following is the petition:

SUPREME COURT,
APPELLATE DIVISION,
FIRST JUDICIAL DEPARTMENT.

In the matter of the application of The City of New York, pursuant to the provisions of Chapter 276 of the Laws of 1910, for a determination of the amount of indebtedness incurred by said City prior to the first day of January, 1910, for the Manhattan and The Bronx Rapid Transit Railroad, which may be excluded in ascertaining the power of said City to become otherwise indebted, pursuant to the provisions of section ten of article eight of the Constitution.

THE PETITION AND APPLICATION OF The City of New York, acting by its Board of Estimate and Apportionment, respectfully shows to the court upon information and belief:

First—Pursuant to the provisions of section ten of article eight of the Constitution, as amended, which went into effect on the first day of January, 1910, and which, among other things, provided that any indebtedness incurred by The City of New York for any rapid transit or dock investment prior to said first day of January, 1910, may be excluded proportionately to the extent to which the current net revenue received by such city therefrom shall meet the interest and the amortization instalments thereof, and that the legislature should prescribe the method by which and the terms and conditions under which the amount of any debt to be so excluded should be determined, and that the legislature might, in its discretion, confer appropriate jurisdiction upon the Appellate Division of the Supreme Court in the First Judicial Department, for the purpose of determining the amount of any debt to be so excluded, the legislature passed an act, being chapter 276 of the Laws of 1910, which was duly signed by the Governor and went into effect on the 11th day of May, 1910.

By said act, which prescribed the method by which and the terms and conditions under which the amount of any debt to be so excluded should be determined, The City of New York, acting by the Board of Estimate and Apportionment of said City, was authorized to present to the Appellate Division of the Supreme Court in the First Judicial Department, a verified petition setting forth the facts and praying for a determination of the amount of any debt incurred by The City of New York for rapid transit or dock investment prior to the first day of January, 1910, which might be excluded in ascertaining the power of said City to become otherwise indebted under the provisions of said section ten of article eight of the Constitution and conferred jurisdiction upon said Appellate Division to make such determination.

The petitioner begs leave to submit to this Court upon the return day of the notice of the application hereon certified copies of said section ten of article eight of the Constitution, as amended, and of chapter 276 of the Laws of 1910.

Second—Pursuant to the said constitutional provision and statute hereinbefore recited, the Board of Estimate and Apportionment of the petitioner, by a resolution duly adopted on the 20th day of May, 1910, required the Comptroller of the petitioner to prepare and submit to said Board a statement showing in detail indebtedness incurred by the petitioner for rapid transit investment prior to the first day of January, 1910, with the dates of maturity of such indebtedness, the terms of any and all agreements and contracts made by or in behalf of the petitioner with respect to such investment, the gross revenue received therefrom, the interest paid and to be paid by the petitioner on said indebtedness, the annual instalments necessary for the amortization thereof, and the current net revenue derived from said investment, and pursuant to such resolution the said Comptroller did prepare and submit to said Board such statement, and thereupon, the said Board of Estimate and Apportionment, did, by resolution adopted on the 31st day of May, 1910, direct that application be made to this Court for a determination of the amount of indebtedness incurred by said City, prior to the first day of January, 1910, for the Manhattan and The Bronx Rapid Transit Railroad, which may be excluded in ascertaining the power of the petitioner to become otherwise indebted under the provisions of said section ten of article eight of the Constitution of the State of New York.

Third—The material facts relative to the construction of the said Manhattan and The Bronx Rapid Transit Railroad are as follows:—Pursuant to a contract made and entered into under date of February 21, 1900, between the petitioner, acting by the Board of Rapid Transit Railroad Commissioners for The City of New York, and John B. McDonald and various supplemental, amendatory and modifying contracts, a rapid transit railroad was constructed by and at the expense of the petitioner which was and is known as the Manhattan and The Bronx Rapid Transit Railroad. A brief resume of said contracts is hereto annexed, marked "A" and forms part hereof to the same extent as if herein fully and at length set forth, and the petitioner asks leave to submit to this Court upon the return day of the notice of the application hereon, certified copies of said contract, dated February 21, 1900, and of said supplemental, amendatory and modifying contracts.

Fourth—Thereafter said railroad was constructed and was and has continued to be and is now being operated by the Interborough Rapid Transit Company, to which was assigned, with the consent of the Board of Rapid Transit Commissioners for The City of New York, so much of the said contracts as provided for the maintenance and operation of said rapid transit railroad including the equipment thereof and the right or obligation to maintain and operate the said road or roads in said contract described and all rights with respect to such maintenance or operation, or included in the leasing provisions of such contracts.

Fifth—The petitioner has issued its bonds to pay indebtedness incurred under said contracts prior to January 1st, 1910, as follows:

No other bonds were issued by petitioner prior to January first, 1910, to pay such indebtedness.

The current net revenue which the petitioner is receiving from the said Interborough Rapid Transit Company under the terms of said contracts, is the sum of $2,001,472.91, apportioned as follows:

Interest—Rental	$1,557,535.36
One per cent. upon bonds issued by the petitioner upon which, under the terms of the contracts, the said Interborough Rapid Transit Company was to pay this percentage	443,937.55
	$2,001,472.91

The annual interest paid and to be paid by the petitioner on its bonds issued to pay indebtedness incurred and annual instalment necessary for the amortization of such bonds is the sum of $2,118,459.52, apportioned as follows:

Interest	$1,628,318.38
Amortization instalment	490,141.14
	$2,118,459.52

The proportion of such indebtedness which may be excluded in ascertaining the power of said City to become otherwise indebted would therefore appear to be the proportion which the sum of $2,001,472.91 bears to $2,118,459.52.

Sixth—Under the contracts aforesaid work to be done and materials to be furnished to the amount of $1,804,419.62 therein contracted for were not payable prior to the first day of January, 1910. A brief resume of said contracts showing the amounts agreed to be paid therefor and not paid, is as follows:

Contracts Nos. 2124 and 6212—For fully equipping Rapid Transit Railway—outstanding liability December 31, 1909	$611,740.07
(Modification of Contracts 2124 and 6212) 96th Street Extension—Outstanding liability December 31, 1909	671,505.34
Contract No. 18407—(Modification of Contracts 2124 and 6212) For Van Cortlandt Park Extension—outstanding liability December 31, 1909	17,556.50
Contract No. 25997—(Modification of Contracts 2124 and 6212) Station at 190th Street and St. Nicholas Avenue—outstanding liability December 31, 1909	322,163.84
Contract No. 25096—(Modification of Contracts 2124 and 6212) Construction of additional station facilities at 181st Street and St. Nicholas Avenue—outstanding liabilities December 31, 1909	150,453.87
Contract No. 25792—(Modification of Contract No. 2124) Construction and operation of Rapid Transit Railroad—Construction Zoological Park Station	31,000.00
	$1,804,419.62

On the 31st day of December, 1909, there was pending a proceeding for the acquisition of easements of light, air and access appurtenant to land abutting on Westchester Avenue, Southern Boulevard and Boston Road, in the Borough of The Bronx, City of New York, in which proceeding title to the easements taken vested in The City of New York on the 29th day of May, 1906.

On the said 31st day of December, 1909, there was also pending a proceeding for the acquisition of easements of light, air and access appurtenant to land abutting on Nagle Avenue, Tenth Avenue and Broadway, in the Boroughs of Manhattan and The Bronx, City of New York, in which proceeding title to the easements taken vested in The City of New York on the 23rd day of October, 1907.

These easements are being acquired for the purposes of the said Manhattan and The Bronx Rapid Transit Railroad.

There are no other proceedings pending for the acquisition of lands or easements for the purposes of said railroad.

Hearings in both of these proceedings are now being held, but the same have not been concluded and no awards to the owners of the abutting premises have been made.

While it is impossible to state the amount the City will be required to pay in these easement proceedings with accuracy, petitioner alleges that in no event under the most unfavorable circumstances will the City be held liable in such proceedings in excess of the sum of $2,000,000. No other indebtedness or liability except as hereinbefore stated for or on account of said Manhattan and The Bronx Rapid Transit Railroad of any character whatever, has been contracted for or incurred by The City of New York.

The petitioners pay no interest upon either of the amounts hereinbefore in this paragraph of this petition mentioned and no instalment is necessary for their amortization for the reason that the same have not been funded. The rate of interest and the time of maturity of the bonds to be issued to pay therefor have not been determined.

For the information of the Court a computation is here submitted of the annual instalment which would be required for the amortization of these amounts and the annual interest thereon, upon the basis that bonds to be issued to pay therefor will bear interest at the highest probable rate, viz., 4½ per cent., and that the minimum term of said bonds will be fifty years;—as follows:

Upon this basis the annual amortization instalment and annual interest on the sum of $1,804,419.62, hereinbefore mentioned, are as follows:

Annual Amortization Instalment	$15,997.07
Annual Interest	81,198.88

Upon this basis the annual amortization instalment and annual interest on the sum of $2,000,000 hereinbefore mentioned are as follows:

Annual Amortization Instalment	17,730.98
Annual Interest	90,000.00

—making a total of:

Annual Amortization Instalment	$33,728.05
Annual Interest	171,198.88

Seventh—By a resolution adopted by the said Board of Estimate and Apportionment on the First day of June, 1910, the said Board duly approved this petition, and directed that a copy thereof be spread upon its minutes and that the same be verified in behalf of this Board acting for The City of New York, by The Mayor, The Comptroller and the President of the Board of Aldermen.

Wherefore your petitioner prays that this Court will, pursuant to said Chapter 276 of the Laws of 1910, designate six daily newspapers of general circulation published in the City of New York, at least one of which is published in the Borough of Brooklyn, in said City, in which notice of this application shall be given as prescribed by said act and fix the date when the application of your petitioner shall be heard and that this Court shall determine the amount of such debt which may be excluded in ascertaining the power of The City of New York to become otherwise indebted under the provisions of section ten of article eight of the Constitution of the State of New York and for such other and further relief as may be just.

William J. Gaynor, William A. Prendergast and John Purroy Mitchel, being severally duly sworn, depose and say, that William J. Gaynor is Mayor of The City of New York; that William A. Prendergast is Comptroller of The City of New York, and that John Purroy Mitchel is President of the Board of Aldermen of The City of New York; and as such are members of the Board of Estimate and Apportionment of the petitioner.

That by resolution adopted by said Board on the 1st day of June, 1910, deponents were authorized and directed by said Board to subscribe and verify the foregoing petition in behalf of said Board, acting for the petitioner herein.

That they have read and know the contents of the foregoing petition, and that the same is true to their own knowledge, except as to the matters therein stated to be alleged upon information and belief, and as to those matters they believe it to be true.

The reason this verification is made by deponents, and not by the petitioner, is that the petitioner is a domestic municipal corporation, of which deponents are officers. The source of deponents' information and the grounds of their belief as to the matters not therein stated upon their knowledge, are the statement submitted by the Comptroller to said Board in this petition mentioned, information obtained from the books and records of the Department of Finance and of other departments of the petitioner, and statements made to them by certain officers and agents of the petitioner.

Terms of any and all agreements and contracts made by or in behalf of The City of New York with respect to the Manhattan-Bronx Subway.

1. Contract for construction and operation, dated February 21, 1900, between the City of New York, acting by the Board of Rapid Transit Railroad Commissioners for the City of New York and John B. McDonald, for the sum of $35,000,000. and in addition the sum of $1,000,000. for terminals and $500,000. for real estate. The said contract provided that the contractor should deposit with the Comptroller bonds and cash aggregating $6,000,000. for construction and a further continuing bond of $1,000,000. for rental and also for construction and that the City should have a first lien on equipment as further security for the faithful performance by the contractor of the terms of the contract. Said contract also provided that upon default of the contractor the City should have the right to complete the road and hold the contractor liable for any excess of cost of the completion of such construction and equipment over the amount payable to the contractor therefor under the terms of the contract, or to make a new contract, and recover all damage the City might sustain thereby from the contractor, or after the road was complete to take possession and as agent of the contractor operate the road, or make a subcontract, or terminate the contract, or might enforce its lien upon equipment, or use the remedies of a landlord, or make a new lease and bring suit for rental due under the said contract. The contract further provided that no change should be made in the contract except by written instrument duly authorized by the Board of Rapid Transit Commissioners or their successors and consented to by the contractor and his sureties; that no claim should be made against any member of the said Board personally; that the contractor should not be taxable on his interest under said contract or on equipment; that the contract should not be assigned without the written consent of the said Board; that no City official should be interested in the contract with the contractor; and that all necessary legal provisions should be deemed included in the contract. The said contract contained full specifications for the construction of the said subway, and further provided that the contractor should furnish the equipment necessary for operation.

In and by said contract The City of New York leased the subway when completed, to the contractor, upon terms as follows:

"The Contractor hereby agrees to equip, maintain and operate the Railroad during the whole of the said term. The said term shall be fifty (50) years, and shall run from the date on which Section 1 of the Railroad shall be declared by the Board to be ready for operation, Provided, however, that, if the Railroad shall include Sections II, III and IV, or any of them, the term of the Lease as to each of such sections so included shall begin on the date or dates on which it shall be declared by the Board to be ready for operation and shall end at the end of the said first mentioned term of fifty years.

"The Contractor shall surrender possession of the Railroad at the end of the said term of fifty years or at the earlier termination of this Lease, as herein provided.

"The Contractor shall pay to the City rental for the Railroad, which rental shall consist of the following:

"(1) An annual sum equal to the annual interest payable by the City upon all bonds which shall be issued by it in order to provide means for Construction. The amount of such interest shall be ascertained as of the time when the Railroad shall be declared by the Board to be ready for operation; but it shall be increased from time to time by the amount of the annual interest payable by the City for all bonds which, after the date when the Railroad shall be so declared to be ready for operation, shall be issued in order to provide means for Construction. The amount or amounts payable under this subdivision shall not be subject to decrease by reason of the refunding by the City at lower rates of interest of any of the bonds issued as aforesaid. Bonds issued in order to provide means for Construction shall be deemed to include bonds issued to pay interest on bonds theretofore issued pursuant to this Contract under the provisions of section 34 of the Rapid Transit Act; but shall not be deemed to include bonds issued to pay for rights, terms, easements, privileges or property other than lands acquired in fee.

"(2) A further annual sum which shall be equal to one per centum upon the whole amount of the said bonds (with the exceptions above mentioned) except that the annual payment in excess of such interest shall, for each year during the period of five (5) years from the date at

which the payment of rental shall begin, be such sum not exceeding such one (1) per centum as shall be equal to the excess of the profits of the Contractor for such year in the operation of the Railroad over five (5) per centum upon the capital of the Contractor invested in the enterprise, and except further that for each year during a second and immediately succeeding period of five (5) years, there shall, in lieu of such one per centum, be paid one-half (½) of such one (1) per centum, and in addition an amount not exceeding one-half (½) of such one (1) per centum which shall be equal to the excess of the profits of the Contractor for such year in the operation of the Railroad over five (5) per centum per annum upon its capital invested as aforesaid.

"The rental shall begin as to each Section with the date of the declaration of the Board that such Section is ready for operation, and shall be payable at the end of each quarter on the first days of January, April, July and October."

The said contract further provided that during the first ten years the contractor should at the time each payment of rental is due, furnish to the City a statement showing the profits derived by the contractor from the operation of the road, and after the expiration of the said ten years, should at the time each payment of rental is due deliver a statement showing the gross receipts from the road.

The contract further provided that the contractor should run local and express trains at certain intervals, should keep the road and stations in good condition, and use electricity or some other power involving no combustion as motive power, should at all times provide sufficient rolling stock, should keep the equipment in good order, the City retaining its lien on all new equipment, and should charge not exceeding five (5) cents for fare.

The contract contained a further provision as follows:

"Upon the written demand of the Contractor or its lawful assignee delivered to the Board not more than two (2) years and not less than one (1) year before the expiration of the term of this Lease, the Contractor shall be entitled to a renewal hereof, for the term of twenty-five (25) years. Such renewal lease shall be in the same form as this lease except that, in lieu of the terms or terms of duration of this lease, such renewal lease shall be for the term of twenty-five (25) years from the date of the expiration of this lease, and except further that such renewal lease shall contain no provision for a renewal and except further that the amount of the annual rental shall be an amount not less than the average amount of the annual rental for the ten (10) calendar years of the lease next preceding the Contractor's demand for renewal, and that the amount of such rental, subject to such minimum limit, shall be agreed upon between the Board and the Contractor or its assignee or, if they shall not agree, then the amount of such rental shall, subject to such minimum, be fixed by arbitration, or, if either party shall object to arbitration, or if the terms of procedure shall not be agreed on or if the arbitration shall fail, then by an appropriate suit or proceeding in the Supreme Court of this State."

The contract further provided that at the termination of the lease or its renewal the City should buy and the Contractor should sell the whole of the property of the contractor employed in and about the equipment, maintenance and operation of the railroad at a reasonable price.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
