PETITIONS AND COMMUNICATIONS.

No. 3565.

West Side Taxpayers' Association, Inc., 267 W. 34th St., New York, April 24, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, New York City:

Sir—At a meeting of the executive committee of the above association, held on the 17th day of April, 1913, at 267 W. 34th st., New York City, the following resolutions were unanimously adopted:

"Resolved, That the executive committee of this association, duly assembled, heartily approves of the resolution presented by Alderman Hannon, entitled 'An Ordinance to prevent non-residents of the State of New York from holding employment in any of the departments or branches of the Government of the City of New York'; and it was further

"Resolved, That a copy of this resolution be sent to the President of the Board of Aldermen."

As stated in the foregoing resolution, it is the sense of the committee that this ordinance, if passed, would fill a long felt want, as the number of employees of The City of New York, who maintain a residence in other jurisdictions is now an extensive one. Yours very truly,

GEORGE WENNER, M.D., President.

Which was ordered on file.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the President, Borough of Richmond:

No. 3566.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, May 1, 1913.

Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—In the budget for 1913, \$2,000 was appropriated for the purchase of equipment of a new automobile for the general administration of my office. This car is needed to take the place of a Locomobile touring car purchased in 1906, which is the only automobile of the touring car type available for general administration purposes. It has rendered excellent service, but has reached the stage where keeping it in operation requires constant attention and frequent supplying of new parts, and it would be more economical to replace it with a new car.

It is our intention as soon as a new car can be secured, to remove the tonneau from the Locomobile and replace it with a light box body, thus reducing the dead load and putting it into commission as a general emergency repair-shop car, in which capacity it would probably render still considerable service.

I hereby make application to your Board, pursuant to the provisions of section 419 of the Greater New York Charter, for authority to purchase in the open market, from the before-mentioned budget appropriation, a five-passenger touring car for the use of my office.

I would ask that your honorable Board grant this request with as little delay as possible, as it is very urgent that this additional automobile be secured so that the locomobile may be put into the shop service, as the car being used for that purpose at present is needed for other work. Yours respectfully,

GEORGE CROMWELL, President of the Borough.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from the Park Commissioner, Manhattan and Richmond:

No. 3567.

The City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Arsenal, Central Park, May 5, 1913.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—I respectfully request that you ask the Board of Estimate and Apportionment to authorize the Comptroller to issue revenue bonds to an amount of \$10,000, to continue the work of repairing dangerous paths throughout Central and other parks in the Borough of Manhattan, under the jurisdiction of this Department.

In compiling the budget for the year 1913, an amount of \$8,000 was allowed for repairing paths. A contract was entered into, and the work on same will be completed in a day or so. In selecting the paths to be repaired under this contract, those in the very worst state were picked out. Many more of the paths are in a dangerous condition, and we receive numerous complaints relative to the same. The amount requested will enable me to repair the worst spots, and eliminate the possibility of suits against the City.

I respectfully request your immediate attention, and if there is any further data required on the subject, I will see that the information necessary will be given when the matter is referred to the Finance Committee of your Board. Respectfully yours,

CHARLES B. STOVER, Commissioner of Parks, Boroughs of Manhattan and Richmond.

Which was referred to the Committee on Finance.

The President laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 3568.

Board of Estimate and Apportionment, City of New York, Office of the Secretary, 277 Broadway, May 6, 1913.

To the Honorable the Board of Aldermen:

Calendar No. 77. Amending resolution adopted April 10, 1913, authorizing issue of \$100,000 corporate stock, for the repaving of West Drive, Central Park with a bituminous pavement, under the jurisdiction of the Department of Parks, Boroughs of Manhattan and Richmond, by including therein those portions of the middle drive

I also transmit copies of reports of the Corporate Stock Budget Committee relative thereto. Yours very truly,

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding fourteen thousand five hundred dollars (\$14,500), to provide means for the erection of an addition to the storehouse, Kings County Hospital, under the jurisdiction of the Department of Public Charities, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid."

—be and the same is hereby amended to read as follows:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding fourteen thousand five hundred dollars (\$14,500), to provide means for the erection and equipment of an addition to, and for additional equipment for, present storehouse, Kings County Hospital, under the jurisdiction of the Department of Public Charities, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, April 8, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On March 29, 1913, the Commissioner of Public Charities requested amendment of a resolution adopted by the Board of Estimate and Apportionment on July 15, 1912, authorizing an issue of corporate stock for the erection of an addition to the Storehouse at Kings County Hospital. In connection therewith we report as follows:

On July 15, 1912, corporate stock to the amount of \$14,500 was authorized by the Board of Estimate and Apportionment for the erection of an addition to the Storehouse at Kings County Hospital. The request is that the resolution be amended to provide not only for the cost of construction, but also for the purchase of equipment for the addition, and for additional equipment for the present Storehouse.

A contract for construction, calling for an expenditure of \$5,770, has been awarded, leaving a balance of \$8,730. The estimated cost of equipment is \$7,000, as follows:

Steel shelving, both buildings..... \$5,000 00
Electrical equipment 1,000 00

We recommend the adoption of the attached resolution approving the request.

Respectfully, WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

No. 3569.

Resolved, That, subject to the concurrence herewith by the Board of Aldermen, the resolution adopted by the Board of Estimate and Apportionment at a meeting held April 10, 1913, and adopted by the Board of Aldermen April 22, 1913, which reads as follows:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding one hundred thousand dollars (\$100,000), maturing not more than ten (10) years after date of issue to provide means for the repaving of West Drive in Central Park with a bituminous pavement, under the jurisdiction of the Department of Parks, Boroughs of Manhattan and Richmond, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid."

—be amended to read as follows:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding one hundred thousand dollars (\$100,000), maturing not more than ten (10) years after date of issue, to provide means for the repaving of West Drive and those portions of the Middle Drive and East Drive lying between Webster Monument and 59th street and 5th avenue in Central Park, under the jurisdiction of the Department of Parks, Boroughs of Manhattan and Richmond, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 1, 1913.

JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, April 29, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—A resolution authorizing an issue of corporate stock in the amount of \$100,000, adopted by your Board on April 10, 1913, and concurred in by the Board of Aldermen on April 22, 1913, for the purpose of providing means for completing the repaving of West drive in Central Park, was so restricted in language that it did not include the necessary connection with the Plaza entrance at 5th avenue and West 59th street.

The most important part of the work of completing the work already done in the West drive is the connection between the Webster Monument and the Plaza. This is the section by which the heavy automobile traffic of 5th avenue reaches the completed portion of the West drive. Technically, the short link is not a part of West drive proper, but belongs partly to the Middle drive and partly to the East drive.

To make the resolution technically correct, it should read "to provide means for the repaving of West drive and those portions of the Middle drive and East drive lying between Webster Monument and 59th street and 5th avenue in Central Park."

We recommend the adoption of the attached resolution which provides the necessary correction. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

Which were severally referred to the Committee on Finance.

No. 3570.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, May 6, 1913.

To the Honorable, The Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment May 1, 1913, recommending the establishment, in the office of the President of the Borough of The Bronx, of the grades of position of Inspector at \$1,950 and \$2,250 per annum, for one incumbent respectively.

I also transmit copy of report of the Committee on Salaries and Grades relative thereto. Yours very truly,

JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the President of the Borough of The Bronx, of the grades of positions, in addition to those heretofore established, as follows:

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 1, 1913.

JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, April 21, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On April 2, 1913, the President of the Borough of The Bronx requested establishment of grades of positions as follows:

Inspector, at \$2,250, for one incumbent.

Inspector, at \$1,950, for one incumbent.

In connection therewith we report as follows:

These grades are intended to provide increases in salaries, as follows:

Thomas T. Peterson, General Inspector, \$2,100 to \$2,250.

Thomas F. Duggan, Inspector, \$1,650 to \$1,950.

These men are Inspectors of seventeen years' experience, having been in the Bureau of Buildings since its organization. Mr. Peterson is General Inspector, and has the supervision of thirty-two Construction Inspectors. Mr. Duggan acts as Plan Examiner in the Engineering Branch of the Bureau; he is first on a civil service promotion list.

It is proposed to make these increases under the resolution governing salary increases adopted by your Board on January 30, 1913.

We recommend the adoption of the attached resolution granting the request.

No. 3571.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, May 1, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—At a meeting of the Board of Estimate and Apportionment held May 1, 1913, two reports were presented from the Comptroller returning resolutions of your Board relative to the acquisition of land at Coney Island for park purposes and public bathing pavilions, for the reason that the terms of the resolutions have already been compiled with.

Said resolutions were ordered on file. Very truly yours,

JOSEPH HAAG, Secretary.

No. 3572.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, May 5, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment May 1, 1913, disapproving the request of your Board for the issue of \$1,200, special revenue bonds to be used by the Commissioner of Parks, Borough of The Bronx, for the purpose of properly cataloguing and indexing certain maps, original drawings and tracings now in possession of his Department.

In accordance with the direction of the Board, I also enclose copy of the report of the Comptroller relative thereto. Very truly yours,

JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment hereby disapproves of the request of the Board of Aldermen, as set forth in a resolution adopted April 1, 1913, for the issue of twelve hundred dollars (\$1,200) special revenue bonds, the proceeds whereof to be used by the Commissioner of Parks, Borough of The Bronx, for the purpose of properly cataloguing and indexing certain maps, original drawings and tracings now in possession of said Department.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 1, 1913.

JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, April 25, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On April 1, 1913, the Board of Aldermen adopted a resolution requesting special revenue bonds to the amount of \$1,200 for the Department of Parks, Borough of The Bronx. In connection therewith I report as follows:

The Commissioner requested the appropriation for the purpose of properly cataloguing and indexing certain maps, original drawings and tracings, now in the possession of his department.

It appears that the majority of the maps, drawings and tracings are fairly well indexed; the main objection to the present system is that it takes a little time to find the map, drawing or tracing needed.

I recommend that the request be not approved. Respectfully,

WM. A. PRENDERGAST, Comptroller.

Which were severally ordered on file.

The President laid before the Board the following communication from the President, Borough of Queens:

No. 3573.

The City of New York, Office of the President of the Borough of Queens, Long Island City, April 28, 1913.

To the Board of Aldermen, City Hall, Manhattan:

Gentlemen—Request is hereby respectfully made for an issue of special revenue bonds amounting to \$1,300 to provide for the repair of a floating bath and for \$630, the estimated cost of maintenance during 1913.

The President of the Borough of Manhattan has made available for the use of this department, a floating bath, which he no longer requires in his department. A mooring on City property has been secured at Whitestone by consent of the Department of Docks and Ferries.

The bath is at present out of use and moored at 25th street basin in the Borough of Brooklyn. In order to make the bath available for use, it will be necessary to do some repair work; an estimate has been prepared and is as follows:

Taking out, repairing, caulking and re-blocking in place eight (8) pontoons at \$38 each, \$304; taking down and replacing five alley ends at \$6 each, \$30; repairing and spiking planking, \$25; towing bath from Brooklyn to berth, \$50; two diaphragm suction pumps 12 feet, \$60; 100 fathoms of hawser, \$34; rope for guy lines, etc., \$25; street water connections, \$150; lighting connections, \$100; stair and bridgework, \$100; painting interior and exterior, \$300; contingencies, \$122. Total, \$1,300.

It is my intention to keep the bath open for use from 5 a. m. to 9 p. m. daily and on Sundays from 5 a. m. to noon for a period of 90 days from June 15 to September 15, and designating the use on alternate days for men and women, thereby requiring a force of 2 Female Attendants, 2 Male Attendants and 1 Watchman. The rates proposed for Female Attendants is \$2; Male Attendants, \$2.50, and the Watchman \$2.50 per diem. The cost for wages would, therefore, be \$630 on the basis of 90 days operation. Respectfully,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Which was referred to the Committee on Finance.

The President laid before the Board the following communications from the Department of Water Supply, Gas and Electricity:

No. 3574.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, May 2, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—The Water Register reports that in spite of his most earnest efforts, the present force are unable to keep up at all times with the work. This condition is in part due to the new law (chapter 108 of the Laws of 1912), which necessitates additional work in connection with the making out of meter bills. In order to get out bills promptly, it has been necessary to retain a number of the force to work evenings, and the expense therefor for the first three months of this year amounted to \$2,600.

It would be more economical if the force were increased, and I respectfully ask that your honorable board request the Board of Estimate and Apportionment to authorize special revenue bonds in the amount of \$3,675, which will be sufficient to employ three Clerks at a salary of \$900 each per annum, and three Bookkeepers at a salary of \$1,200 each per annum, from June 1 to the end of the year. Yours truly,

HENRY S. THOMPSON, Commissioner.

REPORTS:

These departmental requests for special revenue bond appropriations amount to the large total of \$724,074.50, and comprise everything in this nature now in the Finance Committee. The Committee is impelled to this drastic and sweeping action by the coincidence of a dangerous situation in the Board's special revenue bond account and the plentiful supply of moneys available for transfer from the 1913 Budget. If there were no other resource, these applications could not all in justice be turned away, but they have their remedy in the co-ordinate Board of the City government, unfettered by law or ordinance. The Committee wishes it understood that these applications are not in any sense rejected nor disposed of upon their individual merits, but are simply forwarded to the Board that has the money from the Board that has not the money. It is suggested to the Departments concerned that they apply immediately to the Board of Estimate for relief for their wants by transfer of available 1913 budgetary moneys.

The strained situation is, briefly, that while subdivision 8 of section 188 of the Charter places a limitation of \$2,000,000 within any one year upon the issuance of these bonds, we find ourselves confronted by an issuance for the first four months of this year of \$900,239.78 worth of revenue bonds already gone. In addition, \$867,834.19 worth of bonds have been duly authorized by both Boards, and the greater part of these authorizations will be resolved into bonds issued before the end of the year. That leaves a possible emergency fund for all the rest of the year of only \$200,000, and against this we have the figure of \$645,374.43 of these bonds already recommended by the Board of Aldermen but not yet ratified by the Board of Estimate. A great portion of this latter figure must be ratified by the Board of Estimate because the expenditures are necessary; wherefore, it would seem that the chances are fairly good that the whole of the \$2,000,000 limitation will be needed to take care of authorizations already made. With the cupboard prospectively bare, it seems to the Committee the part of not only prudence but of rigorous necessity that no further drains upon this fund be entertained as long as there are moneys which may be obtained elsewhere. That the money may be obtained from the Board of Estimate by transfer is evident from the fact that that Board, by resolution of May 1, transferred \$4,023,298.06 of old unencumbered balances from various previous special revenue bond issues and from the 1912 Budget. Of this, the surprising amount of \$3,227,425.47 was picked up from the 1912 Budget alone. This results, of course, from the excellent practice now in use of scheduling the Budget, so that salary accruals and other moneys not needed may not be diverted to other and unintended purposes during the year. All the Board of Estimate has to do to satisfy these applications, so far as they may be justified on their merits, is to begin picking up the 1913 budgetary surpluses in the middle of 1913, instead of waiting to gather them all in a lump and place them in the general fund for the reduction of taxation for 1914. This will result, furthermore, in 1913 departmental expenses being paid for out of the 1913 tax levy instead of being shifted to the tax burden of the succeeding year. It seems manifest that the best financing so far as possible is to pay 1913 bills with 1913 money, and your Committee is convinced that this is quite possible to do.

The present condition of the Board of Aldermen's special revenue bond account arises from two causes. The first is the annual failure of the Board of Estimate to include in the Budget items of great size that belong there and nowhere else. A sample of such work is the failure to include in either the 1912 or the 1913 Budget a single dollar of appropriation for hose for the Fire Department, with the result that the special revenue bond account for the two years has been burdened in advance to the extent of almost \$200,000, which amount could easily have been foreseen, computed and included in the Budget, where it belongs. This Board's special revenue bond account is not designed by the Charter as a postscript to the Budget. It is meant for emergent, unforeseen and extraordinary expenses arising since the adoption of the Budget, and should be used accordingly. Your Committee deprecates the Board of Estimate's practice of postponing the evil day by rejecting every year a great flood of matters to be taken care of by special revenue bonds, which should be faced honestly and included in the Budget, whatever the effect upon the tax rate.

As an instance of your Committee's effort toward economy, even in the face of these unwarranted burdens, it may be noted that the applications to this present Board of Aldermen for the sixteen months ending May 1, 1913, have totaled \$7,348,188.80, out of which the Committee, after careful study, has rejected a total of \$2,962,576.07; in other words, despite the pressing character of most of the applications, the Committee has rejected about three out of the seven millions asked for, a running proportion of about 40 per cent.

The second cause of the forcing of this Board's revenue bond account into this corner is the great mass of ancient authorizations which have been made use of by the Departments only within the last year. It is to be remembered that the Charter limitation is upon the issuance, so that when, as in the case of last year, only approximately \$1,700,000 of the bonds were used, the City saved permanently the other \$300,000, because the issuance account begins anew at the beginning of every year. This \$300,000 saved by the Board last year can never be spent; the books are closed and the money is saved. The authorizations, however, are subject to no such limitation of time and amount. A revenue bond issue may be authorized in 1906 and yet the money may not be spent by the Department until 1912. Thus the possible extravagance of previous administrations may be visited upon the third and fourth generations of Boards of Aldermen, and we have ever hanging over us this sword of Damocles of former authorizations, which, for unaccountable reasons, the Departments allow to lie idle for five or six years and then suddenly burst into expenditures, and add that ancient burden to a modern and current situation. When this present administration began, there were approximately \$2,400,000 of such old authorizations on the books, and your Committee has put in a great deal of time and hard work in co-operation with the Comptroller in securing the cancellation by the Departments of such of these authorizations as might not now or in the future be needed. The result is that we began the year 1913 with only approximately \$1,200,000 of these old matters, instead of the \$2,400,000 of the year before; that is to say, we cut it in half. Most of the overhanging balances that we began this year with were created in 1912, and the Committee's practice of fastening a date upon the appropriation before which the money must be spent, has resulted in the authorizations turning quickly into bonds issued. That is to say, the accounts nowadays are active, not dormant. This is as it should be in the interest of honest City finance, but that is a contributory easement from former days to which our present day management of the account is unavoidably subjected.

SPECIAL ORDERS.

No. 249—Int. No. 3453.

REPORT.

To the Honorable Board of Aldermen:

The Special Committee appointed to investigate the subject of push-carts and markets, makes the following report and recommendations, and submits the following ordinances for adoption:

This Special Committee was appointed by the Rules Committee, pursuant to a resolution introduced in the Board of Aldermen, on the 9th day of July, 1912.

Pursuant to the terms of said resolution this Committee was appointed to investigate the subject of push-carts and public markets, but in making this their report, they are dealing only with the subject of push-carts, for the reason that on the appointment of the committee and after conferences among its members, the Committee decided that immediate steps should be taken to investigate and report with their recommendations, first on the subject of push-carts, for the reason that it seemed in the judgment of this Committee that the push-cart problem was the one that required immediate attention and on account of the conditions under which push-carts were operated, some immediate relief should be afforded.

Your Committee believes that a comprehensive system of public markets should be established as soon as possible, throughout the greater City, in sections most convenient to the public and adjacent to a railway or water route, so that supplies could be delivered directly to these markets by the farmers and truck gardeners in the immediate vicinity of New York. Your Committee will make a further report in regard to markets, within a short time.

In approaching the solution of the so-called push-cart problem, three facts must be borne in mind:

First—That the push-cart is an economic necessity and tends greatly to reduce the high cost of living for the people living in the sections of the greater City, where the push-cart has become an established factor in trade.

Second—That the push-cart business is a legitimate one, and the people engaged in this business are self-respecting merchants carrying on a legitimate business, and should be treated as such, and should be accorded proper facilities under which to carry on their business.

Third—That the push-cart is as much a necessity to certain sections of New York City as are large department stores and shops in other sections. That the quality of food and merchandise sold from these push-carts is in the main of as good a quality as can be bought anywhere else in the City, and much cheaper.

This Committee has made their investigation without the aid of any appropriation, and have given their time and consideration to the solution of this very important problem. As near as your Committee can judge, there are between five and six thousand push-carts in the greater City, about three thousand of these are on the lower East Side, probably fifteen hundred on the upper East Side, and the rest scattered. About 50 per cent. of these, as near as your Committee can judge, have licenses.

Subsequent to the appointment of this Committee by the Rules Committee the Committee made a thorough investigation of the Greater City in regard to pushcarts, and they found that the principal pushcart sections in the City were at follows:

The section from 106th to 116th sts., lying between 5th ave. and East River, known as "Little Italy."

The section along 1st ave., from 6th to 14th st.

The section on the lower east side, lying between the Bowery and the East River, North and South sts.

In Brooklyn the pushcart sections are known as the Siegel, Moore st. and Graham ave. Districts and the Brownsville District.

The pushcart, at the present time, does not seem to be a problem in The Bronx, Richmond or Queens.

In this investigation that the Committee made their purpose was to afford some immediate relief to these sections where the Committee found the pushcart problem, and the Committee felt that if they waited until permanent pushcart markets could be established, owing to the length of time it would take to acquire property and to erect buildings, that the term of the present Board of Aldermen would have had long since expired before these markets would be established. Therefore, in this investigation, it was the purpose of the Committee to find, if possible, open spaces in the City where it would be practicable to segregate the pushcarts, thus relieving the sanitary and congested conditions of the City streets in these sections, and at the same time placing the pushcart peddler in a market where he would have a permanent stand and could work up an established trade and not be required, as now, under the present ordinances, to move every twenty minutes. With that end in view, the first spaces which your Committee discovered as suitable space for the establishment of pushcart markets were the spaces under the Williamsburg and Manhattan bridges, the old Essex Market Court House, between Ludlow and Essex sts.; the blind alley, between the court house and the abandoned school, and the abandoned school and the available portion of the old Union Market.

From its investigation your Committee believes that the entire pushcart problem of the lower east side could be solved by the placing of these pushcarts in the spaces under the bridges, the Essex Market House, this blind alley and the abandoned school and the old Union Market. The president of the Borough of Manhattan has offered the use of the Essex Market Court House for a pushcart market. Your Committee has endeavored to obtain the use of the school house from the Board of Education for this purpose, but up to the present time has been unsuccessful.

In utilizing the spaces under the Manhattan and Williamsburgh Bridges, in order to make the market a success, the streets adjacent would have to be closed to pushcart peddlers, otherwise the market would be a failure.

At the present time there are a good many pushcart peddlers under the Williamsburgh Bridge who pay a dollar a week to the City for the privilege of standing under this bridge. But many complaints, and justly so, are received by the Comptroller's office, for the reason that at the present time a peddler is allowed to stand in all the streets adjacent, many times without even obtaining a license and without paying any revenue to the City, and sell his wares, thus taking away the business of the peddler who is under the bridge.

At the present time there are probably about 200 peddlers under the Williamsburgh Bridge. From this small amount the City derives a revenue of about \$12,000 a year, and the total expenses are about \$3,000, making a clear profit to the City of about \$9,000 from City property which, unless rented for this purpose, would otherwise be useless as a revenue producer. If all the pushcart peddlers on the lower east side were placed under these bridges and in the Essex Market Court House there would be an additional revenue to the City of about between fifty to seventy-five thousand dollars at very little additional expense. The Essex Market Court House and the old Union Market, with very little expenditure, could be placed in immediate condition for occupancy by the peddlers. The bridge spaces are immediately available and would require no outlay of expense whatever. As to feasible spaces for the pushcarts along 1st ave., from 6th to 14th sts., and from 106th to 116th st., from 5th ave. to the East River, your Committee has not been able at the present time to find suitable spaces. The section lying under the New York Central tracks from 106th to 116th st. would be, in the opinion of your Committee, a suitable place for a pushcart market, and it will be recalled that some years ago the peddlers were segregated in this place under the tracks, but your Committee has been advised by the Corporation Counsel that at the present time, under section 50 of the Charter, the Board of Aldermen has no power to preempt a public highway or any part thereof for a market, and the only way in which this space could be utilized for market purposes would be by application to the Legislature to amend the Charter. It necessarily follows that this opinion would apply equally to the space under the elevated tracks from 6th to 14th st. on 1st ave.

It would seem from the result of the Committee's investigation as to the pushcart problem in the Borough of Brooklyn that the only solution of the problem, in so far as it relates to this particular Borough, would be the erection or establishment of pushcart markets, as there are no available spaces in that Borough, similar to those in Manhattan, where pushcarts could be segregated and still be conveniently located to the people who do their marketing from these carts.

In Brownsville there is now what is termed the "Peddlers' Market," which consists of a one-story building leased, as your Committee is advised, by certain peddlers in that neighborhood who have joined themselves into an association in order to better their condition, but the result of that market is practically the same as the one at present under the Williamsburg Bridge; for as soon as the peddlers segregated themselves in this market in Brownsville and took their carts off the streets adjacent thereto other peddlers came and occupied the streets abandoned by the peddlers who went into the market, thus making it really of no advantage for the peddlers to remain in the market, on account of loss of trade and in order to protect themselves the peddlers who remained in the market were forced to place their carts on the street again. The condition of this peddlers' market is not of the best, and the food stuffs sold are not, in the opinion of your Committee, of as good a grade as were found elsewhere, and the conditions, if anything, under which food stuffs were sold, were more unsanitary. The Committee would recommend that the City, through its proper officials, should take steps as soon as practical, to acquire this market or erect one similar thereto in this section, which would be under the supervision and regulation of the Borough President and the Comptroller, and be frequently inspected by the Board of Health.

Other locations in Brooklyn suitable for pushcart markets and recommended by your Committee are the following:

The block bounded by Siegel st., Graham ave., Moore st. and Manhattan ave., 100 feet frontage on Siegel and Moore sts., running through the entire block. In Brownsville the block bounded by Sutter ave., Osborne st., Blake ave. and Thatford ave., 100 feet frontage on Sutter and Blake aves. This latter location is only a short distance away from the peddlers' market heretofore mentioned in Brownsville, and your Committee was informed at the public hearing which was held in Brooklyn in regard to pushcart locations, that these two locations could be obtained by the City for market purposes at a very small outlay.

As to the conditions under which the push-carts operate at the present time, the Committee find them most deplorable, both from a point of danger to life and limb and on account of their congestion in the streets, and also from a sanitary standpoint.

Your Committee found that during certain times of the day, between the hours of 9.30 and frequently as late as 6 or 7 o'clock, the streets, on account of the large number of push-carts, were impassable for any sort of vehicle, and it was with difficulty that your Committee were able to make their way through this congestion in order to make an inspection of the wares offered for sale. Your Committee found that frequently foodstuffs offered for sale were often placed on top of garbage cans which were filled with garbage; that half-clothed children were frequently found playing among the fruits and vegetables and other foodstuffs offered for sale; that the drippings from the carts caused stagnant pools to form under the carts; that the refuse from the push-carts were thrown indiscriminately in the streets, there to lie and decay until such time as the Street Cleaning Department could come along and remove the same. On account of these conditions, the condition of the streets were necessarily indescribably filthy, and whole blocks were so congested from this pushcart traffic that it would have been impossible, in case of fire, for the Fire Department to make their way through, and it is the opinion of your Committee that, unless these conditions are alleviated immediately, sooner or later there will be a frightful loss of life, either by people being trampled upon or on account of the Fire Department not being able to reach their destination with sufficient speed, owing to this congestion.

In approaching the solution of this problem, as before stated, the Committee have endeavored to act in a spirit of fairness to all interested in the solving of this problem, and, after the Committee had made this investigation, a public hearing was called during the month of July, which was widely advertised and at which appeared a large number of advocates of the segregation of peddlers, taking them from the streets and finding some convenient and suitable places in which they could ply their trade. A great many of the push-cart peddlers appeared also, either individually or by proxy or by the representatives of their organization.

The Committee have found that push-cart men, particularly in Manhattan, are well organized, and they are anxious to better their condition, and that at the hearing the peddlers appeared to be unanimous for the proposition to take them off the streets and give them suitable places to ply their trade, subjecting them to regulation, provided they could be placed in sections which would be convenient to the people who depend upon push-carts to do their trading. Your Committee has talked to a great many individual peddlers and to their organization representatives, and the Committee is informed and believes that the push-cart peddlers are now ready and willing to occupy these spaces under the bridges and Essex Market Court House, and such other places as could be found for them, provided ordinances could be passed to protect them in their trade when once they have submitted themselves to regulation.

As near as your Committee can ascertain, not more than 50 per cent. of the push-cart peddlers to-day have licenses, and the reason for the large discrepancy between the total number of push-carts and total number of licenses is that it has been the policy of the Bureau of Licenses, for some time past, to refuse to issue new push-cart licenses, on the ground of the great congestion which they created in the streets, and only renewal licenses were issued, and the natural result was that peddlers, finding they could not get a license, got a cart and commenced to peddle without one. The City authorities have tried to handle the push-cart problem along the lines of least resistance, until some solution of the problem could be found. Under the present ordinances, push-cart peddlers are supposed to move on every twenty minutes, but in the situation in which the push-cart problem is to-day, it would require practically the whole police force to make them obey this ordinance, leaving the police time for little else.

What better method of reducing the high cost of living than to establish pushcart markets, where the push-cart peddlers buy direct and sell direct, at the least possible cost? The segregation of the push-cart peddler would give to his business a permanency of character which it now necessarily lacks, and would guarantee him a permanent place of business to build up his trade, and would do away with his constant moving from place to place.

It is not the desire of the Committee to make a voluminous report, but to try and point out as briefly as possible what, in their opinion, would be the immediate solution of the push-cart problem. Your Committee would, therefore, recommend that the following locations be designated by the Board of Aldermen for market purposes, and that the same shall be declared by the Board of Aldermen as public markets, and shall be set aside as a market for such purposes during the pleasure of the Board of Aldermen, subject to such rules and regulations concerning fixtures, the order of doing business and the general management of said markets, as may be made by the Comptroller of The City of New York; that the moneys received by the City for market spaces under the bridges be received by the Comptroller and be applied toward the maintenance of said bridges; that section 6 of article 1 of chapter 1 of part 2 of the Code of Ordinances be amended so as to prohibit push-cart peddling in the following streets and highways of The City of New York, and providing for a penalty for failure to obey this ordinance.

Proposed ordinances, in accordance with this report, are hereto annexed, and resolutions calling upon the Health Department, Police Department, Bridge Department and the Street Cleaning Department to co-operate with the Board of Aldermen in placing the peddlers in these spaces:

1. The Essex Market Court House.

The Committee on Finance, to which was referred on April 15, 1913 (Minutes, page 97), the annexed request from the President of the Borough of Queens for \$3,000 special revenue bonds to equip new offices in the Post Office Building, Long Island City, respectfully

REPORTS:

That, having examined the subject, it believes the proposed improvement to be necessary. It figures that five-sixths of the amount asked for will be sufficient, and therefore recommends that the accompanying resolution be adopted.

Lumber	\$165 00
Electrical fixtures and equipment	540 00
Floor coverings	300 00
Window shades	35 00
Drawing tables	375 00
Office furniture	540 00
Plumbing	205 00

	\$2,500 00

HENRY H. CURRAN, ROBERT F. DOWNING, C. AUGUSTUS POST, HENRY F. GRIMM, JOHN DIEMER, FRANK J. DOTZLER, JOHN S. GAYNOR, JAMES HAMILTON, FRANCIS P. KENNEY, Committee on Finance.

The City of New York, Office of the President of the Borough of Queens, Long Island City, April 9, 1913.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—Request is hereby respectfully made in accordance with the provisions of subdivision 8 of section 188 of the Charter for an issue of special revenue bonds amounting to \$3,000 to provide for equipment of new offices for the use of this Department on the second and third floors of the Post Office Building in Long Island City.

On March 1 this Department took possession of two floors in the building and temporarily moved some employees from the Bureaus into the building. It is proposed to erect partitions and install lighting fixtures and equipment. The estimate in detail contemplates the following expenditures:

Lumber	\$200 00
Electrical fixtures and equipment	650 00
Floor covering, linoleum, etc.	350 00
Window shades	40 00
Drawing tables	450 00
Office furniture	650 00
Plumbing	250 00
	\$2,590 00

In addition, it is proposed to purchase a new filing system for correspondence and documents of the Department, which will probably cost the difference between the detailed estimate and \$3,000. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Brush, Carberry, Cole, Coleman, Cummskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixon, Dotzler, Dowling, Downing, Drescher, Dujat, Dunn, Eagan, Eichhorn, Esterbrook, Folks, Gaynor, Gelbke, Gilmore, Hannon, Herbst, Igstaedter, Kenneally, Kenney, Levine, Lieberman, Loos, McCann, McCourt, McGrath, Martyn, Molen, Moore, Morrison, Muhlbauer, Nicoll, O'Neil, O'Rourke, Pendry, Post, Reardon, Schmidt, Shipley, Smith, Stapleton, Stevenson, Walsh, Weil, Wendel, White, Wilmot; President Cromwell, by L. That, having examined the subject, it believes the proposed work to be necessary. The details are fully set forth in the letter of request.

The committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of five thousand six hundred dollars (\$5,600), the proceeds whereof to be used by the President of the Borough of Queens for the purpose of recopying of the records prior to consolidation of the old municipalities now in the Borough of Queens and included in Greater New York. The City of New York, Office of the President of the Borough of Queens, Long Island City, April 9, 1913.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—Your approval is requested for the issue of special revenue bonds amounting to \$5,600 for the recopying of the records prior to consolidation of the old municipalities now in the Borough of Queens and included in Greater New York.

One of the most necessary and important duties of the Topographical Bureau is the search of the records of streets and data relating to them prior to consolidation. It involves a search of old village records, town highway commissioners' records and other books kept by the former municipalities now in the custody of the Bureau of Investigation and Statistics of the Department of Finance in accordance with statutory provision.

The information in these books is of great value and is the original and official record which is essential in proceedings relating to old roads and streets. The books also contain the record of the improvement of streets paid for from county or other funds prior to consolidation.

Much work has been done by this Department in setting up such a record from the originals, but the volume of detail is great and the force of employees limited.

It is my judgment that the work can be greatly economized by copying on a large scale and thereby dispose of the work quickly and efficiently. A force of five or six typewriting copyists could be employed under the direction of a competent person in this Department who is familiar with the requirements and complete the work in a year at an estimated cost for salaries of \$5,250, in addition to which the rent of typewriting machines is estimated at \$216 and \$134 for ribbons and miscellaneous supplies other than typewriting paper, requisition for which will be made upon the City Record if the requested funds are made available. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Brush, Carberry, Cole, Coleman, Cummskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixon, Dotzler, Dowling, Downing, Drescher, Dujat, Dunn, Eagan, Eichhorn, Esterbrook, Folks, Gaynor, Gelbke, Gilmore, Hannon, Herbst, Igstaedter, Kenneally, Kenney, Levine, Lieberman, Loos, McCann, McCourt, McGrath, Martyn, Molen, Moore, Morrison, Muhlbauer, Nicoll, O'Neil, O'Rourke, Pendry, Post, Reardon, Schmidt, Shipley, Smith, Stapleton, Stevenson, Walsh, Weil, Wendel, White, Wilmot; President Cromwell, by L. The Committee on Finance, to which was referred on April 22, 1913 (Minutes, page 218), the annexed request from the Commissioner of Public Charities for \$2,595.83 special revenue bonds for salaries of additional help at Metropolitan Training School, Blackwells Island, respectfully

REPORTS:

That, having examined the subject, it believes the proposed staff to be necessary. The letter of request gives full details of the application. It does not believe, however, that these funds can be made available before July 1, and it, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand two hundred and twenty-five dollars (\$2,225), the proceeds whereof to be used by the Department of Public Charities for the purpose of employing additional help at the Metropolitan Training School, Blackwells Island, as follows:

Deputy Superintendent, at the rate of \$1,050 per annum, from July 1 to December 31, 1913	\$525 00
4 Supervising Nurses, at the rate of \$850 per annum each, from July 1 to December 31, 1913	1,700 00
	\$2,225 00

Department of Public Charities of the City of New York, April 19, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—We would respectfully request an issue of Special Revenue Bonds to the amount of \$2,595.83, with which to employ the following help in this Department for seven (7) months, beginning June 1, 1913:

Metropolitan Training School, Blackwells Island.

One (1) Deputy Superintendent of Training School at the rate of.....	Per Annum.
Four (4) Supervising Nurses at the rate of \$850 per annum each.....	
	\$1,050 00
	3,400 00

Total for 12 months.....	\$4,450 00
Total for 7 months.....	\$2,595 83

The specific duties of these people will be as follows:

The Deputy Superintendent will have charge of the operating room.

The Supervising Nurses—One will assist with the supervision of the general hospital; one will assist with the supervision in the tuberculosis infirmary department; one for night duty, and one for the alcoholic and drug ward.

This request is made because we have an inadequate number of Supervising Nurses and with this lack of supervisory force we are unable to properly train our Nurses and keep in touch with the work. In the general hospital with nearly seven hundred (700) patients, the only people having more than \$600 are the Assistant Superintendent and one (1) Supervising Nurse. In the tuberculosis infirmary with nearly one thousand (1,000) patients, the only person having more than \$600 is the Second Assistant Superintendent. There is no Night Supervising Nurse and we are obliged to get along at night with \$600 positions. For this reason we are unable to retain our best Nurses in responsible positions at \$600, with the result that we have very frequent changes and many trying situations which could be avoided if the salaries paid were commensurate with responsibilities. Much of the time of our Superintendent of the Training School and Assistant Superintendents, which ought to go into bigger things, is spent going over the old routine with the constantly changing Nurses. Respectfully yours, MICHAEL J. DRUMMOND, Commissioner.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Brush, Carberry, Cole, Coleman, Cummskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixon, Dotzler, Dowling, Downing, Drescher, Dujat, Dunn, Eagan, Eichhorn, Esterbrook, Folks, Gaynor, Gelbke, Gilmore, Hannon, Herbst, Igstaedter, Kenneally, Kenney, Levine, Lieberman, Loos, McCann, McCourt, McGrath, Martyn, Molen, Moore, Morrison, Muhlbauer, Nicoll, O'Neil, O'Rourke, Pendry, Post, Reardon, Schmidt, Shipley, Smith, Stapleton, Stevenson, Walsh, Weil, Wendel, White, Wilmot; President Cromwell, by L. REPORTS:

That, having examined the subject, it believes that funds should be provided for this purpose, but it cannot see how any accurate estimate of the sums needed can be made. It recommends that one-half the amount applied for be granted, and that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of sixty thousand seven hundred and fifty-nine 50-100 dollars (\$60,759.50), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of providing funds to operate the new Municipal Building, as follows:

Labor	\$44,359 50

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City:

My Dear Mr. President—I am enclosing herewith a letter from the President, requesting from the Board of Aldermen special revenue bonds to cover the services of employees in the new Municipal Building. The President will be obliged if you

will have this brought up at the Board's meeting to-morrow for reference to the Finance Committee. Yours very truly,

LOUIS GRAVES, Secretary to the President.

City of New York, Office of the President of the Borough of Manhattan, City Hall, April 21, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Sir—In order to operate the new Municipal Building during the year 1913, application is hereby made for revenue bonds in the following amounts:

Labor	\$88,719 00
Supplies	32,800 00

Total

In support of the above request for labor, attached hereto find schedule showing number of employees, rate of pay and the estimated length of time each class of employees will be required during the year 1913, as also an itemized estimate of the supplies needed.

In the preparation of the above estimates we have collaborated with the Commissioner of Bridges, who approves the above request, and will be glad to appear before you in explanation and support of the same if you so desire. The Commissioner requests that as rapidly as the work upon any floor is completed, this Department assume its maintenance and operation, subject to such regulation as the Corporation Counsel may deem necessary or advisable due to pending contracts and other legal requirements or obligations. The labor schedule has been prepared after a careful study of the forces employed in the buildings and offices now under my jurisdiction and those utilized in several of the large office buildings of the city. The aim has been to provide a force adequate to maintain and operate this building as becomes its dignity and importance and yet at a cost that will compare favorably with privately operated buildings in the city.

The estimate for supplies is based upon the actual consumption of materials for maintenance and cleaning, as shown by the stores record of this Department, each amount having been arrived at by making an actual estimate of the several items that would be required for use in the building.

In presenting this request, I desire to urge as early action as is consistent with proper consideration. The building has now reached a stage where those of the engineering and electrical forces who will have charge of the work should be assigned, if they are to understand the layout of the various mechanical systems necessary to its operation. This knowledge on their part, I believe to be essential for the efficient and economical upkeep and operation of the building. Respectfully yours,

GEORGE MCANENY, President, Borough of Manhattan.

Itemized Estimate of Supplies Required for the Operation of the New Municipal Building During the Year 1913.

Cleaning and toilet supplies.....	\$4,000 00
Engine room supplies.....	1,000 00
Fuel	9,300 00
Window cleaning.....	2,000 00
Wearing apparel (uniforms).....	2,000 00
Boiler room, engine room, elevator, electrical, plumbing and steamfitters' supplies	12,000 00
Sundries	2,500 00
Total	\$32,800 00

The President put the question whether the board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

REPORTS:

That the details of this application are set forth in the letter of request and communication from Judge Kempner. After careful consideration of the application, the Committee believes that eight men from July 1 will fill all requirements.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City: Dear Sir—I enclose herewith a copy of a communication dated April 2, 1913, from Otto Kempner, Chief City Magistrate, in regard to the matter of providing attendants for the detention pens attached to the courts.

In order to provide for the needs of the situation, I would respectfully ask that your Honorable Board, pursuant to the provisions of section 188 of the Charter, request the Board of Estimate and Apportionment to authorize the issue of special revenue bonds to the amount of four thousand six hundred and sixty-six dollars and sixty-seven cents (\$4,666.67), to pay the salaries of ten (10) additional Keepers at a salary of \$800 per annum from June 1, 1913.

Trusting that the foregoing will receive the approval of your Honorable Board, I remain, very respectfully yours,

PATRICK A. WHITNEY, Commissioner.

Office of Chief City Magistrate, Board of City Magistrates, Second Division, City of New York, No. 44 Court St., Brooklyn, New York, April 2, 1913.

Hon. PATRICK A. WHITNEY, Commissioner of Correction, No. 148 E. 20th St., N. Y.:

My Dear Commissioner—Our Magistrates have frequently discussed the question of the respective responsibility of your Department and of our courts for the care and custody of prisoners brought from jail to the courts and sent to jail by our courts. After a careful study of the law, we have reached the conclusion that you are vested with the full responsibility of such care and custody, and that we have no rights or obligations in the matter whatsoever. We are of the opinion that the detention pens attached to our courts are identical with the "district prisons" that are referred to in the "Inferior Criminal Courts Law" (see section 112), and which prisons are made subject to your control.

I now write, pursuant to a resolution of our Board, to inquire as to whether you can hold out an early prospect of providing each of our district prisons with the necessary number of attendants to take charge of the prisoners, so as to relieve us of the unlawful work that our force is now obliged to perform in that respect. We are not disposed to hurry you in the matter, but we do wish to have you keep the subject in mind with a view to a definite determination of the question involved.

Yours very truly, (Signed) OTTO KEMPNER, Chief City Magistrate.

The Committee on Public Letting, to which was referred on February 11, 1913 (Minutes, page 534), the annexed communication from the Commissioner of Street Cleaning, asking authority to purchase tractor and trucks in the open market at a cost not to exceed \$15,000, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be advisable. The details of the application are fully set forth in the letter of request.

It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Street Cleaning be and he is hereby authorized and empowered to purchase in the open market without public letting one gasoline truck, one electric truck, and one tractor, at a cost not to exceed, for the three, fifteen thousand dollars (\$15,000).

Office of Commissioner of Street Cleaning, 12-21 Park Row, New York, February 3, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Dear Sir—In the current Budget for this department there is an appropriation of \$15,000 for the purchase of motor trucks. This sum is a considerable reduction from the amount asked for by me, and in the discussion with the Budget Committee of the Board of Estimate and Apportionment, the result of which was the substitution of this amount for the amount asked, the prevailing sentiment was that there was not sufficient data as to the availability of motor trucks for the service of this department upon which to predicate the larger amount. It was therefore decided that an appropriation of \$15,000 for the purchase of three different types of motors and the use of these in the Borough of Brooklyn would be for the best interests of the City. I desire to make this purchase at this time in the open market, without competition, so that I may at once commence accumulating the necessary data upon which to found a request for the Budget of 1914. I feel that for the purpose for which this money was appropriated the purchase of a standard gasoline truck, a standard electric truck and a standard tractor, all of five ton capacity, would give us the basis upon which to predicate a specification for future use. I believe that by purchasing in the open market of the best type known at present, with a specification only showing the exact requirement of the department service, and without entering too much in detail as to the mechanical construction and equipment, but leaving the matter so that the motor truck manufacturers must of necessity present the highest type as a sample, will bring out the best results. I find that but few manufacturers to-day are putting out a truck which can meet our requirements, but from these few I can choose the one which now meets the necessary details of construction to suit the necessities of our work. As to the tractor, I ask that I be permitted to have this one in order to find if there is virtue in the claim that it may be substituted on various vehicles used

in the department work for horse traction, so as to make it available for more than one vehicle and more than one service. I would therefore request your Honorable body to grant me the power to purchase one gasoline truck, one electric truck, and one tractor in the open market for the purpose here stated, at a cost not to exceed, for the three, \$15,000. Respectfully,
WM. H. EDWARDS, Commissioner.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

The City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Arsenal, Central Park, March 3, 1913.

To the Honorable Board of Aldermen, The City of New York:

Gentlemen—I respectfully request that your honorable Board, pursuant to the provisions of section 419 of the Greater New York Charter, give authority to enter into a contract, without public letting, for the purchase of material and the necessary labor for enlarging the storage battery used in the Metropolitan Museum of Art in Central Park.

The present battery boxes are located in the wing now completed, and were built large enough to accommodate the additional wings that were anticipated. These buildings are now completed, and the request is made necessary so that the wiring may be connected with the battery.

The additional power is needed for Addition "H," the boiler house and the old buildings, and the estimated cost is \$2,460.

This matter has been gone into in detail, and it is found that it will be impossible to get competitive bidding for the reason that the material needed can only be furnished by the manufacturer of the batteries, namely, the Electric Storage Battery Company, with offices at 100 Broadway.

If further information is required when this matter comes before the Committee on Finance I will be pleased to furnish same.

Your immediate action on this matter is requested for the reason that the contractors are now at work, and we desire to have the wiring finished before they leave. Respectfully yours,

CHAS. B. STOVER, Commissioner of Parks, Manhattan and Richmond.

352B.

A motion picture theatre shall be deemed any public hall or room in The City of New York in which motion pictures are exhibited, in which the seating capacity does not exceed 600, and in which there is no stage or scenery.

An open air motion picture theatre shall be deemed any public place or space in the open air in The City of New York in which motion pictures are exhibited, and in which there is no stage or scenery.

The Mayor shall appoint such inspectors as shall be necessary to carry out the provisions of this ordinance. They shall be known as "Motion Picture Theatre Inspectors" and shall be paid such compensation as shall be fixed by the Board of Aldermen on recommendations of the Board of Estimate and Apportionment.

352C.

The Bureau of Licenses shall issue all motion picture licenses granted by the Mayor, and, by the authority of the Mayor, shall regulate and control all motion picture theatres provided.

1. Applicants for motion picture theatre licenses shall file plans and specifications of the motion picture theatre with the Bureau of Buildings of the borough in which the motion picture theatre is to be situated, and must file a copy of such plans and specifications, duly approved by the Superintendent of Buildings, with the application for the license, which application shall be made to the Bureau of Licenses on blanks furnished by it for that purpose.

4. Until the provisions of this ordinance shall have been complied with, no license shall be issued.

352D.

1. Plans—Before the erection, construction or alteration of a building, or part thereof, to be used as a motion picture theatre, there must be filed with the Superintendent of Buildings complete plans and detailed statement as set forth in section 4 of the Building Code. The plans must show clearly and fully the location and width of all exits, passageways, stairs, fire escapes, aisles, etc.; arrangement of seats, size of floor beams, walls, supports, etc.; the location and construction of the inclosure for the motion picture light and machinery, and for other similar apparatus; a diagram of the lot or plot, showing outlets from all exits, and also such other statements, plans or details as may be required by the Superintendent of Buildings.

2. Prohibition—Motion picture theatres shall not be constructed in frame buildings within the fire limits, nor in hotels, tenement houses or lodging houses, nor in factories or workshops, except where the theatre is separated from the rest of the building by unpierced fireproof walls and floors, and in no case shall they be constructed or operated above or below the ground floor of any building.

3. Exits and Courts—All such buildings must be provided on the main floor of the theatre with at least two separate exits, one of which shall be in the front and the other in the rear, both leading to unobstructed outlets on the street. Where the main floor of the theatre accommodates more than 300 people there shall be at least three such exits, the aggregate width in feet of such exits shall not be less than one-twentieth of the number of persons to be accommodated thereby. No exits shall be less than 5 feet in width, and there shall be a main exit not less than 10 feet in total width.

In all such buildings to be erected or to be altered so as to be used for a motion picture theatre, if unobstructed exit to a street cannot be provided at the rear of such buildings, as herein specified, either an open court or a fireproof passage or corridor must be provided from rear exit to the street front of at least the following width: 4 feet in the clear for theatres accommodating 100 persons or less; for every additional 100 persons the width to be increased 8 inches. Such passage must be constructed of fireproof material and must be at least 10 feet high in the clear. The walls forming such passage must be at least 8 inches thick, of brick or other approved fireproof material, and if there be a basement the wall on the auditorium side should either run 1 foot below the cellar bottom or may be carried in the cellar on iron columns and girders properly fireproofed according to sections 106 and 107 of the Building Code.

The ceiling of said passage, and if there be a basement, the flooring must be constructed according to section 106 of the Building Code.

If unobstructed rear exit or exits to a street are provided, the said exit or exits must be of the same total width required for the court or passage above mentioned.

Said passages and exits to the street, as above, must be used for no other purposes except for exit and entrance and must be kept free and clear.

The level of the open court or passage at the front of building shall not be greater than one step above the level of the sidewalk, and the grade shall not be more than 1 foot in 10, with no perpendicular rises.

All exit doors must be unlocked when building is open to the public. They must be fireproof and made to open outwardly and so arranged as not to obstruct the required width of exit or court when opened. All doors leading to fire escapes must be not less than 40 inches wide in the clear, and shall be located at the opposite side or end of the gallery from other exit doors.

4. Galleries and Stairs—A gallery may be permitted, but it shall not include more than 25 per cent. of the total seating capacity of the theatre. Entrance to and exit from said gallery shall in no case lead to the main floor of the theatre, and the gallery shall be provided with a stair or stairs equipped with handrails on both sides. Stairs over 7 feet wide shall be provided with centre handrail. The risers of the stairs shall not exceed 7 3/4 inches, and the treads, excluding nosings, shall not be less than 9 1/2 inches. There shall be no circular or winding staircases.

The total width of the stairs shall not be less than 8 feet in the clear where the gallery accommodates 150 people; for every 50 people less than 150 which the gallery accommodates said width may be reduced 1 foot.

Stairs shall be constructed of fireproof material, and such material and the bearing capacity of such stairs shall be approved by the Bureau of Buildings.

Galleries must also be provided with at least one line of fire escapes leading to an open court, fireproof passage or street without re-entering the same or any other building.

If the fire escape leads to a point in the court nearer the street than any exit, there must be a width of not less than 4 feet in the clear between the outer edge of the fire escape and the outer wall of the court.

5. Fire Escapes—All fire escapes must have balconies not less than 3 feet 4 inches in width in the clear and not less than 4 feet 6 inches long, and from said balconies there shall be staircases extending to the ground level with a rise of not over 7 3/4 inches and a step of not less than 9 1/2 inches, and the width of the stairs must not be less than 3 feet 4 inches.

The joints shall be properly filled with mortar.

The ceilings of all such rooms shall be plastered with three coats of first class plaster on wire mesh or metal lath, or covered with one-half inch plaster boards, and plastered or covered with metal.

If there be a basement or cellar, the ceiling under the auditorium floor must be plastered with three coats of first class plaster on wire mesh or expanded metal lath or may be covered with metal on one-half inch plaster boards.

The basement or cellar under the auditorium shall be kept free and clear, except the space used for the heating apparatus, for machinery connected with the theatre and for coal.

7. Construction of Booths—Apparatus for projecting motion pictures shall be enclosed in a booth or enclosure constructed so as to be fireproof, in accordance with the specifications of chapter 756 of the Laws of 1911. The booth shall be equipped with a vent flue as prescribed in section 352C, paragraph 2, of this ordinance. Booths shall contain an approved fireproof box for the storage of films not on the projecting machine. Films shall not be stored in any other place on the premises; they shall be rewound and repaired either in the booth or in some other approved fireproof enclosure.

Where miniature motion picture machines are employed in connection with private exhibitions the requirements of the above paragraph may be so modified as to permit, instead of the regulation booth, an approved fireproof box, unventilated, and of a size only sufficient to properly enclose the machine.

8. Gradients—To overcome any difference of level in and between corridors, lobbies and aisles, gradients of not over 1 foot in 10 feet, or steps having a rise not over 8 inches and a width of not less than 10 inches must be used.

9. Aisles—All aisles in the auditorium and gallery must not be less than 3 feet

wide in the clear. No aisle, passageway or space in the rear of the auditorium shall be obstructed by any camp stool, chair, sofa or settee, nor shall any person be permitted to stand or sit therein.

10. Chairs—All chairs in the auditorium except those contained in the boxes, must not be less than 32 inches from back to back and must be firmly secured to the floor. No seat in the auditorium shall have more than seven seats intervening between it and an aisle. The space occupied by each person shall be separated from the adjoining space by means of an arm or other suitable device.

11. Signs Over Exits—Over every exit there must be painted on the inside in letters not less than 6 inches high, the word "Exit" in legible type, and one red light or illuminated sign must be placed inside over each exit, and illuminated while the audience is present.

12. Floor Loads—The flooring of that portion of the building devoted to the uses or accommodation of the public must be of sufficient strength to bear safely a live load of 90 pounds per square foot.

13. Toilets—Toilets separate for sexes must be provided.

14. Fire Apparatus—Portable fire apparatus shall be provided of the following kind and number: Ten-quart capacity buckets, painted red with the word "Fire" in black, the letters 4 inches high, to the number of 6 for places seating less than 300 without a gallery, and two additional if there be a gallery; to the number of ten in places seating over 300 persons, and four additional if there be a gallery. There shall be two buckets containing dry sand kept in the operating booth; approved fire extinguishers of 2 1/2-gallon capacity of the regulation Fire Department pattern, of which 2 shall be on the main floor and 2 in the gallery, if there be one, and 1 in the operating booth; 4 pound flat head axes, 2 of which shall be on the main floor and 2 in the gallery, if there be one.

352E.

1. Lighting—Every portion of a moving picture theatre, including exits, courts and corridors devoted to the uses or accommodation of the public, shall be so lighted by electric light during all exhibitions and until the entire audience has left the premises that a person with normal eyesight should be able to read the Snellen standard test type 40 at a distance of 20 feet and type 30 at a distance of 10 feet; normal eyesight meaning ability to read type 20 at a distance of 20 feet in daylight. Cards showing types 20, 30 and 40 shall be displayed on the side walls, together with a copy of this paragraph of the ordinance.

2. Heating—When the temperature of the outdoor air is below 60 degrees F. the air in the theatre, while an audience is present, shall be maintained at a temperature not lower than 62 degrees F. nor higher than 70 degrees F.

If gas stoves, oil stoves or other apparatus throwing off products of combustion are used to heat motion picture theatres, said products of combustion must be carried to the outside air by means of a fireproof flue or flues.

No radiator shall be placed in the aisles so as to lessen the width below the minimum requirement.

3. Ventilation—Motion picture theatres having less than 200 cubic feet of air space for each person, or motion picture theatres in which the outside window and door area is less than one-eighth of the floor area, shall be provided with artificial means of ventilation which shall supply during the time the audience is present at least 500 cubic feet of fresh air per hour for each person.

Motion picture theatres having more than 200 cubic feet of air space for each person, or which have outside windows and doors, the area of which is equal to at least one-eighth of the floor area, shall be provided with artificial means of ventilation, which shall be in operation when the outside temperature requires the windows to be kept closed, and which shall supply, during the time the audience is present, at least 500 cubic feet of fresh air per hour for each person. When the artificial ventilation is not in operation, ventilation by means of open doors and windows shall be sufficient to provide each person with 500 cubic feet of fresh air per hour.

Motion picture theatres having more than 1,000 cubic feet of air space for each person and having outside windows and doors, the area of which is equal to at least one-eighth of the total floor area, shall not be required to have artificial means of ventilation, provided the air is thoroughly changed by freely opening doors and windows immediately before the admission of the audience, and at least every 4 hours thereafter.

No part of the fresh air supply required by any of the above paragraphs of this section shall be taken from any source containing vitiated air.

The area of outside doors and windows shall mean the area capable of being freely opened to the outside air for ventilation purposes.

When fresh air is supplied by means of ventilating openings, at least one inlet shall be situated at one end of the room, and at least one outlet at the other end of the room. Where exhaust or inlet fans are necessary, at least one of such fan shall be placed in an outlet opening. The inlet opening or openings shall be placed in the floor or within 2 feet from the floor, and the outlet opening or openings in the ceiling or within 2 feet of the ceiling. The inlet openings and their surroundings shall be kept free from dust so that the incoming air shall not convey dust nor stir up dust as it enters.

During the time the audience is present, the air in the theatre shall be kept continuously in motion by means of fans to the number of at least 1 to every 150 persons. Such fans shall be placed in positions remote from the inlet and outlet openings. No person shall be exposed to any direct draft from any air inlet.

The booth in which the picture machine is operated shall be provided with an opening in its roof or upper part of its side walls, leading to the outdoor air. The vent flue shall have a minimum cross sectional area of 50 square inches and shall be fireproof. When the booth is in use, there shall be a constant current of air passing outward through said opening or vent flue, at the rate of not less than 30 cubic feet per minute.

352H.

All the provisions contained in this ordinance shall apply to existing places of entertainment, where motion pictures are exhibited under a common show license, in case the seating capacity be increased; and in case the seating capacity be not increased, all the provisions of this ordinance shall apply, except those provisions of subsection 352d, designated as numbers 1, 2, 3, 4, 5 and 6, but the Bureau of Licenses shall have power in its discretion to enforce the provisions of said paragraph 3 of Section 352d as to exits and courts.

352I.

When the artificial ventilation is not in operation, ventilation by means of open doors and windows shall be sufficient to provide each person with 500 cubic feet of fresh air per hour.

Motion picture theatres having more than 1,000 cubic feet of air space for each person and having outside windows and doors, the area of which is equal to at least one-eighth of the total floor area, shall not be required to have artificial means of ventilation, provided the air is thoroughly changed by freely opening doors and windows immediately before the admission of the audience and at least every four hours thereafter.

No part of the fresh air supply required by any of the above paragraphs of this section shall be taken from any source containing vitiated air.

The area of outside doors and windows shall mean the area capable of being freely opened to the outside for ventilation purposes.

When fresh air is supplied by means of ventilating openings, at least one inlet shall be situated at one end of the room and at least one outlet at the other end of the room. Where exhaust or inlet fans are necessary at least one of such fans shall be placed in an outlet opening. The inlet opening or openings shall be placed in the floor or within two feet from the floor, and the outlet openings or openings in the ceiling or within two feet of the ceiling. The inlet openings and their surroundings shall be kept free from dust so that the incoming air shall not convey dust nor store up dust as it enters.

During the time the audience is present the air in the theatre shall be kept continuously in motion by means of fans to the number of at least 1 to every 150 persons. Such fans shall be placed in position remote from the inlet and outlet openings. No person shall be exposed to any direct draft from any air inlet.

The booth in which the picture machine is operated shall be provided with an opening in its roof or upper part of its side walls, leading to the outdoor air. The vent flue shall have a minimum cross-sectional area of 50 square inches and shall be fireproof. When the booth is in use there shall be a constant current of air passing outward through said opening or vent flue at the rate of not less than 30 cubic feet per minute. Beginning at a point on the westerly side of Tompkins ave., said point of beginning being the northeasterly corner of land occupied by the Clifton Refuse Destructor, which was conveyed to The City of New York October 4, 1907.

1. Thence in a northwesterly direction 101.92 feet along the westerly side of Tompkins ave. to the right of way of the Staten Island Railway.

2. Thence deflecting to the left 92 degrees 53 minutes 40 seconds in a southwesterly direction along said railroad right of way 12 feet.

3. Thence deflecting to the left 24 degrees 43 minutes in a southwesterly direction along said railroad right of way 231.27 feet.

4. Thence deflecting to the left 153 degrees 56 minutes 30 seconds in a northeasterly direction along the northerly line of land above mentioned, conveyed to The City of New York October 4, 1907, 217 feet to the point of beginning.

The said ordinance was duly approved by a resolution of the Board of Estimate and Apportionment adopted February 6, 1913, and by which I was authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

On March 7, 1913, two copies of the surveys, maps and plans of said property directed to be made in and by the said ordinance were transmitted to this office by the Clerk of your Board with a communication stating that a similar survey, map or plan had been filed in the office of the Clerk of the County of Richmond on March 7, 1913.

The surveys so transmitted show that a portion of the property selected, as above set forth, lies within the bed of Rosebank ave. as laid out.

A proceeding to acquire so much of said property as lies within the proposed lines of said street is now pending in the Second Judicial District, which is entitled as follows:

"New York Supreme Court, Second Judicial Department. In the matter of the application of The City of New York relative to acquiring

title wherever the same has not heretofore been acquired for the same purpose in fee to the lands, tenements and hereditaments required for the opening and extending of Rosebank ave. from Southside boulevard to Broad st., in the Second and Fourth Wards of the Borough of Richmond, City of New York.

The oaths of the Commissioners in the above proceeding were filed on December 26, 1912, and I am informed by my assistant in charge of said proceeding that the title to the property to be acquired will vest in The City of New York six months after the date of the filing of said oaths.

The damage may in said street opening proceeding shows that the following described portion of the property selected by your Board for street cleaning purposes, as above set forth, constitutes Damage Parcel No. 9 in said proceedings.

Beginning at a point on the westerly side of Tompkins ave. adjoining the right of way of the Staten Island Rapid Transit Railway Company, running thence southwesterly at an angle of 92 degrees 53 minutes 40 seconds, a distance of 12 feet, to the westerly side of Rosebank ave. as laid out, running thence southerly along the westerly side of Rosebank ave. 101.81 feet, running thence easterly at right angles to the westerly side of Tompkins ave. 1972 feet to the westerly side of Tompkins ave., running thence northerly along the westerly side of Tompkins ave. 101.92 feet to the point or place of beginning.

As such portion of the property selected by your Board as is comprised in Damage Parcel No. 9 in said street opening proceeding has been designated for street purposes, it should not be selected for another and inconsistent public use.

It will therefore be necessary to amend the ordinance which was adopted by your Board so as to exclude such portion of the property described therein as lies within the lines of Rosebank avenue and to have an amended survey, map or plan made and filed accordingly.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, April 15, 1913.

Mr. P. J. SCULLY, Clerk, Board of Aldermen, City Hall, New York City:

Dear Sir—At the meeting of the Board of Estimate held April 3, 1913, a communication was presented from Corporation Counsel, referring to the resolution of that Board adopted February 6, 1913, approving of, and concurring in, an ordinance of the Board of Aldermen adopted January 6, 1913, and approved by the Mayor on January 31, 1913, said ordinance being the selection of certain property in the 2d Ward, Borough of Richmond, for the use of the Bureau of Street Cleaning, President of the Borough of Richmond.

Due to proceedings having been inaugurated for the acquisition of Tompkins avenue, to be known hereafter as Rosebank avenue, which acquisition would take by condemnation a portion of the property proposed to be acquired for the use of the Bureau of Street Cleaning, Corporation Counsel desires to have the ordinance amended; consequently, we at once asked the Board of Aldermen to take such action as might be necessary in the case, and take pleasure in furnishing herewith five copies of the revised map, with attached technical descriptions.

We would also call attention to the fact that in the technical description furnished in Corporation Counsel's letter, which may, perhaps, have been filed with the Board of Aldermen, occurs a serious error in description. The description which we are supplying is the one to be included in the amended ordinance.

We would ask for the earliest possible action in this matter, as we desire to take possession of the property at an early date for improvement in connection with our refuse destructor plant. Very truly yours,

GEORGE CROMWELL, President of the Borough.

The Chairman pro tem. put the question whether the Board would agree to accept said report and adopt said ordinance.

City of New York, Department of Bridges, Municipal Building, Borough of Manhattan, April 17, 1913.

Hon. HENRY H. CURRAN, Chairman of Committee on Finance, Board of Aldermen, City of New York:

Dear Sir—The Board of Estimate and Apportionment at its meeting to-day adopted four resolutions relating to issues of corporate stock for the uses of this Department. Three of the resolutions rescind from funds known as C-DB-1A, C-DB-7C and C-DB-56 a total of \$35,000, and the fourth resolution authorizes an increase of this amount in the fund known as C-DB-42A. This additional money is needed in the fund C-DB-42A for the purpose of completing the strengthening of the Williamsburg Bridge to permit of the running of subway trains thereon in connection with rapid transit improvements. A contract was let for the strengthening of the end spans of the bridge on June 16, 1911, and this contract is approximately 90 per cent completed.

The work of strengthening the main span of the bridge is now under way, the Department using its own labor on this portion of the work. The balance in the fund for this work on this date is only \$807, which amount will carry the force only to April 23. It would be unwise at this time to stop work, but this will have to be done unless the amount requested, \$35,000, is authorized. All of the material for this work has been purchased under contract and is practically all delivered at the site. The cessation of the work at this time would mean the postponement of the operation of subway trains across this bridge into the Center street loop. Such operation has already been authorized by the Public Service Commission, and those concerned in this operation state that they will be ready within two months to run cars through this subway, and it is important that the work of strengthening the main span be not interfered with.

When this matter of authorizing the \$35,000 additional comes before your Committee for action, I beg to request that you do everything in your power to hasten early favorable action on the four resolutions mentioned above. Yours truly,

ARTHUR J. O'KEEFE, Commissioner.

The Chairman pro tem. put the question whether the Board would agree to accept said report and adopt said resolution.

At a meeting of the Board of Estimate and Apportionment held April 10, 1913, the following petition was received:

To the Board of Estimate and Apportionment of The City of New York:

Union Railway Company of New York City, a New York Corporation (herein called "the petitioner"), respectfully states:

First—That this Board, by resolution adopted on May 11, 1911, and approved by the Mayor on May 12, 1911, approved a form of franchise contract, to be executed by The City of New York, granting to the petitioner the right and privilege to construct, maintain and operate a double track extension to its present street surface railway with the necessary wires and equipment for the purpose of conveying passengers only in the Borough of Manhattan, City of New York, upon the following route, to wit:

Beginning at and connecting with the existing tracks of the petitioner on the 155th Street Viaduct, at or near 8th avenue, thence westerly upon and over said Viaduct to its intersection with 155th street and westerly upon and along said 155th street to the easterly side of Broadway.

Second—That the petitioner executed the said contract on March 27, 1913, but finds that public convenience and the demand for transportation on said street will be adequately answered by the construction, maintenance and operation of such extension from 8th avenue to Amsterdam avenue only.

Third—That the petitioner therefore desires that the said contract be modified as follows:

(a) By substituting the words "Amsterdam avenue" for the words "the easterly side of Broadway," in Section 1 thereof;

(b) By reducing the amounts of the several payments required under Section 2-Third thereof in proportion to such reduction in length of the said extension; and

(c) By substituting the words "Amsterdam avenue" for the word "Broadway" in Section 2-Twenty-fifth thereof.

Wherefore the petitioner asks this Board to approve such modifications and to authorize the execution of a proper supplemental contract by the City of New York.

Dated, New York, March 27, 1913.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either of any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, or rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made nearly together with the circumstance of vacating the structures of their tenants will permit.

None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beams, holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
