" B." - Final Maps.

Studies and examination for the street systems of Sections 1, 2, 3, 4 and 5 have been made, which comprise the territory bounded by Third avenue, Westchester avenue, Southern Boulevard, Hunt's Point road and the New York, New Haven and Hartford Railroad. All the calculations for the side lines, angles, grades, etc., of avenues and streets of Section 1, also duplicate copies of

maps or plans and profiles were completed during the quarter. The changes of streets on Section 1, from previously filed maps, and the necessity of producing a plan which conforms and completes the maps filed by the Commissioners of Morrisania under chapter 841 of the Laws of 1868, rendered it necessary to bestow more labor on the work than was expected on account of discrepancies in former maps. The calculations and surveys of Section 2 are well under way, and will be completed before the end of the year; also, the necessary maps and plans and profiles will be ready for presentation to the Board of Street Opening and Improvement. Sections 3, 4 and 5 are in preparation in the draughting-room, but the calculations cannot be commenced until the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards and the Board of Street

Opening and Improvement approve the street system.	d of Street
