BOROUGH OF MANHATTAN.

At a meeting of the Board of Local Improvements of the Washington Heights District, held September 22, 1903, the following members were present: Alderman Florence and President Cantor.

The President presented for the Board's consideration a communication from the Board of Estimate and Apportionment in reference to the laying out of West One Hundred and Sixty-sixth street and West One Hundred and Sixty-seventh street from Broadway to Fort Washington avenue, which was laid over until September 23, at 11 a. m.

The President presented for the Board's consideration a petition of the New York Institution for the Blind, requesting a change in the lines of West One Hundred and Sixty-fifth street, which was ordered laid over until September 23.

Adjourned.

GEORGE W. BLAKE, Secretary.

BOROUGH OF MANHATTAN.

At a meeting of the Board of Local Improvements of the Washington Heights District, held September 23, 1903, the following members were present: Aldermen Meyers, Florence, Klett and President Cantor.

The President presented for the Board's consideration a map or plan of the Twelfth Ward, from West One Hundred and Eighty-first street to Dyckman street, and from the Boulevard Lafayette to Broadway, showing the existing streets, new streets, etc., etc.

On motion, suitable resolution was adopted making provision that this map be made a part of the map or plan of the City.

Alderman Klett offered the following resolution:

Resolved, That the Commissioner of Water Supply, Gas and Electricity be requested to place water mains in West One Hundred and Seventy-first street, Audubon and Eleventh avenues, which was adopted.

The President presented for the Board's consideration matter of opening of West One Hundred and Sixty-sixth street and West One Hundred and Sixty-seventh street from Broadway to Fort Washington avenue.

On motion, the subject was laid over until October 6.

The President presented for the Board's consideration the matter of repairing sidewalks on east side of Broadway, from West One Hundred and Twenty-first street to West One Hundred and Twenty-fourth street.

Alderman Florence, to whom this subject was referred, reported that the owners were willing to make these repairs when the rapid transit work in that vicinity was finished.

On motion, matter was ordered on file.

Adjourned.

GEORGE W. BLAKE, Secretary.

BOROUGH OF MANHATTAN.

At a meeting of the Board of Local Improvements of the Washington Heights District, held September 29, 1903, the following members were present: Aldermen Meyers, Florence, Goodman and President Cantor.

The minutes of the previous meeting were approved.

The President submitted for the Board's consideration a petition to lay out and acquire title to necessary land to connect Riverside, Morningside and Claremont Parks. A representative of Messrs. Anderson, Pendleton & Anderson appeared before the Board in opposition to such a project.

On motion, the matter was laid over until October 6.

The President presented for the Board's consideration matter of repair of sidewalks in front of lot adjoining the easterly side of Police Station on the south side of West One Hundred and Twenty-fifth street, between Columbus and Amsterdam avenues.

On motion, the matter was laid over for one week.

The President presented for the Board's consideration a petition of the New York Institute for the Instruction of the Deaf and Dumb, requesting a change in the map of the City by altering the lines of West One Hundred and Sixty-fifth street from the Boulevard Lafayette west.

Mr. Peter A. Hendrick, representing this institution, appeared before the Board and urged that such a change be made.

On motion, the following resolution was adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the

said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the "City Record" that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, By the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, that the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

That the map or plan of The City of New York be altered and changed by closing and discontinuing so much of (Little) West One Hundred and Sixty-fifth street, west of Fort Washington avenue, as is shown in gray on the annexed map, and laying out on the map or plan of The City of New York a new street, commencing at West One Hundred and Sixty-fifth street and Boulevard Lafayette, as is shown in red on the annexed map; and it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adjourned.

GEORGE W. BLAKE, Secretary.

BOROUGH OF MANHATTAN.

At a meeting of the Board of Local Improvements of the Washington Heights District, held October 13, 1903, the following members were present: Aldermen Meyers, Klett, Florence and President Cantor.

The minutes of the previous meeting were approved.

The President submitted for the Board's consideration resolution offered by Alderman Klett, as follows:

Resolved, That the Commissioner of Water Supply, Gas and Electricity be requested to place water mains in Naegle avenue, between Broadway and Dyckman street, which was adopted.

The President presented for the Board's consideration a petition signed by John W. Haaren and others, requesting that the roadway of West One Hundred and Forty-ninth street, between Eighth avenue and Bradhurst avenue, be paved with sheet asphalt. On motion suitable resolution providing for this improvement was adopted. Estimated cost, three thousand and one dollars (\$3,001); assessed value of the property affected, one hundred and fifty-seven thousand dollars (\$157,000).

The President presented for the Board's consideration communication from the Commissioner of Public Works to the effect that sewers could be constructed in the following streets: Cooper street, from Academy to Isham street; Academy and Hawthorne streets, between Broadway and Seaman avenue; Emerson street, from Cooper street to Seaman avenue, and announced that directions had been given to the Chief Engineer of Sewers to make necessary surveys and prepare suitable plans for this work.

The President presented for the Board's consideration communication from Mr. David Welch, which had been referred to the Board of Local Improvements of this District by the Board of Estimate and Apportionment and laid over from time to time.

The Clerk read a communication from Messrs. Bowers & Sands requesting, in view of Mr. Bowers' absence abroad, that the hearing be adjourned until October 27.

Alderman Klett offered the following resolution:

Resolved, That the hearing on this subject be adjourned over until October 27 at the same hour.

Mr. David Welch appeared before the Board and set forth his objections to this motion.

A representative of the firm of Messrs. Bowers & Sands appeared and urged that the adjournment requested be given them.

Mr. Abraham Elkus, representing the Greater New York Baseball Association, assented to the motion.

Motion being put, was adopted unanimously that this subject be laid over until October 27 at 11 a. m.

On motion, meeting adjourned.

GEORGE W. BLAKE, Secretary.

BOROUGH OF MANHATTAN.

On motion the following resolution was adopted:

Resolved, That the Commissioner of Water Supply, Gas and Electricity be requested to place gas mains, gas lamps and water mains in West One Hundred and Eighty-fourth street, between Amsterdam avenue and Broadway.

The President presented for the Board's consideration communication from the Board of Rapid Transit Railroad Commissioners requesting change in the lines of the intersection of Hillside avenue and Eleventh avenue.

On motion the matter was laid over until October 27.

Adjourned.

GEORGE W. BLAKE, Secretary.

BOROUGH OF MANHATTAN.

At a meeting of the Board of Local Improvements of the Washington Heights District, held October 27, 1903, the following members were present: Aldermen Florence, Klett, Goodman, Meyers and President Cantor.

The minutes of the previous meeting were approved.

The President presented for the Board's consideration communication from the Commissioner of Public Works, transmitting map and profile showing a change in the grades of West One Hundred and Sixty-seventh street, from Amsterdam avenue to Edgcombe road, and of Jumel place, from West One Hundred and Sixty-seventh street to Edgcombe road.

On motion, suitable resolution providing for a change in the grade between the above mentioned points, as shown on diagram forwarded to the Board of Estimate and Apportionment, was adopted.

The President presented for the Board's consideration a petition signed by Mr. George F. Gantz, requesting the laying out of an addition to High Bridge Park "so as to include therein all private property from West One Hundred and Fifty-ninth street to Amsterdam avenue, and bounded on the east by Croton Aqueduct, High Bridge Park and High Bridge terrace, and on the west by Edgcombe avenue and Amsterdam avenue."

The following gentlemen were heard in support of such a project: Mr. Joseph Flannery, Mr. George F. Gantz, Mr. R. Clarence Dorset, Mr. S. G. Bayne.

On motion, the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the "City Record" that said petition has been presented to

him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Local Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, By the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, that the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To lay out on the map or plan of The City of New York for use as a public park an addition to the present High Bridge Park, so as to include therein all the land bounded and described as follows:

Beginning at a point in the easterly line of Edgecombe road, where it intersects the land of the Croton Aqueduct, near the southerly line of West One Hundred and Fifty-ninth street, produced easterly, thence northerly and along the easterly line of Edgecombe road to a point opposite the northerly line of West One Hundred and Seventy-second street, thence easterly to the westerly line of the land of the High Bridge Park, thence southerly along said line until it meets the land of the Croton Aqueduct at the centre line of old West One Hundred and Seventieth street, thence southerly along the westerly line of the land of the Croton Aqueduct to the point or place of beginning, the easterly line of Edgecombe road, near West One Hundred and Fifty-ninth street; and it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

The President presented for the Board's consideration a petition signed by Mr. Joseph Sinsheimer and others, requesting the laying out of a new street, extending from Kingsbridge avenue to Broadway.

Mr. J. C. Butterly and Mr. Richard Alexander appeared before the Board and urged the laying out of such street.

On motion, the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the "City Record" that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, By the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, that the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

That the map or plan of The City of New York be altered and changed by laying out on same a new street connecting Kingsbridge avenue and Broadway, Marble Hill, Twelfth Ward, Borough of Manhattan, as more fully shown and marked in red on the accompanying diagram; and it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

On motion, the matter of changing the lines of Hillside avenue and Eleventh avenue was laid over until November 10.

The President presented for the Board's consideration matter of opening West One Hundred and Sixty-sixth and West One Hundred and Sixty-seventh streets, from Broadway to Fort Washington avenue, which has been referred to this Board by the Board of Estimate and Apportionment.

Mr. David Welch represented the following as being in support of the application for the opening of these streets: Mrs. J. Hood Wright, Mr. John A. Picken, Mr. A. H. Barney, representing Charles P. Barney; Mr. John R. Haigh, Mr. H. H. Dryer, Mr. E. L. Hatch, Mr. John Holler, Mr. John Romaine Brown, Mr. Geo. Slawson, Mr. Chas. C. Moses and Mr. H. A. Young.

The following gentlemen appeared in support of this application: Mr. John A. Picken, Mr. Geo. Slawson, Mr. Chas. G. Moses, Mr. Andrew Connick and Mr. R. Clarence Dorset.

The following gentlemen appeared in opposition to this application: Mr. John M. Bowers, representing the New York Institution for the Blind, and Mr. Abram I. Elkus, representing the Greater New York Baseball Association.

The President announced that the hearing was closed, and on motion the Board went into executive session and adopted the following resolution:

Whereas, This Board has heretofore by a majority vote and after a full hearing denied a petition for the laying out and opening of West One Hundred and Sixty-sixth and West One Hundred and Sixty-seventh streets, from Broadway to Fort Washington avenue; therefore be it

Resolved, That this matter be referred back to the Board of Estimate and Apportionment without recommendation from this Board.

The President presented for the Board's consideration communication from the Commissioner of Public Works looking to the regulating and grading, curbing and flagging of Kingsbridge avenue, from Terrace View avenue to War Department line.

As the petition to be signed by the residents of this locality had not been presented to the Local Board, the matter was laid over.

On motion, the Board adjourned.

BOROUGH OF MANHATTAN.

At a meeting of the Board of Local Improvements of the Harlem District, held

October 6, the following members were present: Alderman Owens and President Cantor.

The President presented for the Board's consideration a communication from the Commissioner of Public Works requesting that a resolution be adopted providing for the erection of a fence in front of Lots Nos. 2227 and 2229 Fifth avenue, and also lots on the southeast corner of One Hundred and Thirty-sixth street and Fifth avenue.

On motion, the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the "City Record" that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, By the Local Board of the Harlem District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, that the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To fence vacant lots commencing at the southeast corner of One Hundred and Thirty-sixth street and Fifth avenue and running southerly for a distance of 100 feet and running easterly for a distance of 100 feet.

Estimated cost, one hundred and fifty dollars (\$150); assessed value of the property affected, thirty-five thousand dollars (\$35,000).

BOROUGH OF MANHATTAN.

At a meeting of the Board of Local Improvements of the Riverside District, held September 29, 1903, the following members were present: Aldermen Jones, Matthews and President Cantor.

The minutes of the previous meeting were approved.

The President presented for the Board's consideration communication from the Commissioner of Public Works, calling attention to the necessity of erecting a fence around vacant lots located at the southwest corner of Ninety-second street and West End avenue, with a frontage on the avenue of 136 feet, and extending for a distance of 175 feet on Ninety-second street.

A resolution providing for this work at an estimated cost of one hundred and eighty-nine dollars and ten cents (\$189.10)—assessed value of property within the probable area of assessment, one hundred and twenty-four thousand dollars (\$124,000)—was adopted.

The President presented for the Board's consideration communication from the Commissioner of Public Works, requesting that action be taken looking to the repair of sidewalks on the south side of West Ninety-second street, from West End avenue to a point 175 feet westerly, and from the southwest corner of West Ninety-second street to West End avenue for a distance of 136 feet southerly.

Resolution providing for this work was adopted. Estimated cost, four hundred and sixty-one dollars and ten cents (\$461.10); assessed value of property affected, one hundred and twenty-four thousand dollars (\$124,000).

The President presented for the Board's consideration communication from the Department of Health, calling attention to the necessity of fencing vacant lots "located 80 feet from the northwest corner of West End avenue and West Ninety-first street, and extending for a distance of 25 feet west." The Commissioner of Public Works reports that there are no vacant lots at this location, and that the land in question is covered by buildings.

On motion, the matter was ordered on file.

The President presented for the Board's consideration communication from the Department of Health to the effect that the previous communication that a fence be erected about the premises "at a point commencing 80 feet from the northwest corner of West End avenue and West Ninety-first street and extending for a distance of 25 feet west," should have read, "from a point commencing 80 feet from the northwest corner of West End avenue and West Ninety-first street and extending north."

The Commissioner of Public Works reports that these lands are now inclosed with a fence 10 feet high, which is in good condition.

On motion, the matter was ordered on file.

The President presented communication from the Commissioner of Public Works founded on the complaint of Mr. Alven Beveridge, of No. 10 Wall street, calling attention to the necessity of repairing sidewalks opposite Nos. 312 and 314 West Ninety-fourth street.

On motion, suitable resolution was adopted for this work. Estimated cost, one hundred and twenty dollars (\$120); assessed value of property affected, thirteen thousand four hundred dollars (\$13,400).

Adjourned.

At a meeting of the Board of Local Improvements of the Greenwich District, held October 6, 1903, the following members were present: Alderman Howland and President Cantor.

The President submitted for the Board's consideration a communication from the Commissioner of Public Works, recommending the regulating and grading, curbing and flagging of Sullivan street extension, from West Third street to Washington square South.

On motion, the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the "City Record" that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, By the Local Board of the Greenwich District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, that the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To regulate and grade, curb and flag Sullivan street, from West Third street to Washington square South (West Fourth street and place necessary bridge stones thereon; and it is hereby further

MUNICIPAL EXPLOSIVES COMMISSION.

Proceedings of the Municipal Explosives Commission at meeting held Tuesday, September 22, 1903, at 9.45 a. m.

Present—Commissioners Charlton, Eaton and McKenna, Commissioner Eaton acting as Chairman.

Upon motion, the reading of minutes of meeting held September 21 was dispensed with.

The Commission discussed the matter of a public hearing to be given on the proposed regulations governing the storage, sale, use, etc., of volatile and inflammable oils, as embodied in Part VII. of the regulations of this Commission, and it was decided that the date for said public hearing be not determined until after the Commission has had further opportunity of inquiring into the legal status of certain features that have been suggested.

The Acting Chairman reported that he had given further careful consideration to certain suggestions relative to inflammable and combustible substances, as to the section or chapter in which they should be embodied, and it was his opinion they should be included under Part VII., and not in the miscellaneous section, in which opinion the Commission concurred.

The subject of proposed regulations governing acetylene and compressed gases was considered and discussed at considerable length.

Commissioner McKenna reported with respect to tentative form of regulations which he had prepared, treating of chemical manufactories and technical establishments.

Upon motion, the Commission adjourned until Wednesday, September 23.
EUGENE STEPHENS, Acting Secretary.

MUNICIPAL EXPLOSIVES COMMISSION.

Proceedings of the Municipal Explosives Commission at meeting held Wednesday, September 23, 1903, at 9.45 a. m.

Present—Commissioners Charlton, Eaton and McKenna, Commissioner Eaton acting as Chairman.

Minutes of meetings held September 21 and 22 were read and approved.

Commissioner McKenna brought to the attention of the Commission the manner in which a certain brand of matches for household use is placed on the market without compliance with the match regulations. After discussion, the following resolution was passed:

Resolved, That the Fire Commissioner be informed that a certain licensed match is found on the market in this City, which is distributed in boxes containing more than 500 matches, and the box is weak, flimsy, easily bent, easily broken, the matches easily spilled therefrom without opening, and the whole is not in accord with regulations of Part IX., paragraph 2, section (b); and that the sample thus found be forwarded to the Fire Commissioner.

The Commission took up for consideration the tentative report submitted by Commissioner McKenna, embodying regulations for chemical manufactories and technical establishments, and, after discussion, several new paragraphs were added.

Upon motion, the Commission adjourned until Wednesday, the 30th instant.

EUGENE STEPHENS, Acting Secretary.

MUNICIPAL EXPLOSIVES COMMISSION.

Proceedings of the Municipal Explosives Commission at meeting held on Wednesday, September 30, 1903, at 4 p. m.

Present—Fire Commissioner Thomas Sturgis and Commissioners Charlton, Eaton and McKenna, the Fire Commissioner presiding.

Upon motion the reading of the minutes of meeting held September 23 was dispensed with.

Communication was read from the Board of Estimate and Apportionment relative to hearings on departmental estimates for the year 1904 before that body. The Chairman stated that proper action would be taken in the matter, and the communication was ordered on file.

The matter of non-compliance with regulations governing the sale of matches by certain manufacturers and the matter of the application or request of Messrs. Dodge and Olcott for a supplementary permit to carry large stocks of certain drugs in excess of the maximum amounts prescribed in the drug regulations were considered, and the Inspector of Combustibles appeared before the Commission in regard to both matters. He stated that he had notified the manufacturer of the particular brand of matches under consideration that if the boxes containing the matches were not in conformity with the regulations on and after October 1, 1903, steps would be taken to revoke their license. He added that this concession had been extended to certain manufacturers in order to allow them to dispose of certain stocks of matches which they had on hand at the time the match regulations went into effect. After discussion of the subject the Inspector of Combustibles was requested to make an investigation and to advise the Fire Commissioner, for his action, of such manufacturers who were not complying with the match regulations.

With regard to the request of Messrs. Dodge and Olcott for a supplementary permit, the Inspector of Combustibles stated they had not made any application, but since his attention had been called to the matter he had sent them the necessary blanks, but up to the present they had not been returned. The Inspector was requested to have one of his force call upon the firm named and ascertain their wishes in the matter.

Communication was received from the City Solicitor of the City of Cleveland, Ohio, acknowledging receipt of copies of regulations recently forwarded. Filed.

Report was read from Commissioner Haskell concerning the methods of handling, storage and sale of gasoline and similar products in France, and was ordered on file.

Commissioner Eaton brought up the question as to the mode of procedure to be followed in the public hearings to be given the different interests affected by the proposed regulations as embodied in Part VII. After discussion Commissioner Eaton was appointed a committee of one to hold preliminary conference with the representative of the Board of Fire Underwriters.

The Commission resumed further consideration of the tentative regulations dealing with chemical manufactories and technical establishments, as prepared by Commissioner McKenna. The method of establishing minimum and maximum amounts, and provisions for supplementary permits for amounts in excess of the standard maximum, were discussed, and the matter referred back to Commissioner McKenna for further report.

Upon motion the Commission adjourned till October 6, 1903.

AQUEDUCT COMMISSION.

On Thursday, September 17, 1903, the meeting stood adjourned.

HARRY W. WALKER, Secretary.

Minutes of Stated Meeting of the Aqueduct Commissioners, held at their office, No. 280 Broadway, New York City, on Tuesday, September 22, 1903, at 2 o'clock p. m.

Present—Commissioners Ten Eyck (President), Ryan, Windolph and Curtis.

Minutes of meetings of September 8, 10 and 15, 1903, were read and approved.

The Construction or Executive Committee referred to the Commissioners Report No. 715 of the Acting Chief Engineer, dated August 31, 1903, together with a letter of Professor William H. Burr thereon, dated September 3, 1903, relating to a change in the character of the masonry to be used in the construction of the New Croton Dam at the southerly end thereof, and recommended that it was advisable that said change be authorized.

Which was received and ordered filed.

The following resolution was offered:

Resolved, That the form of letter reported by the Construction or Executive Committee for transmission to the Corporation Counsel asking his opinion as to what would be the status of the operations for the work of building the Muscott Dam if the Commissioners allow the contractors to proceed after the first of November without granting to them any formal extension of time, be approved and ordered transmitted by the President.

Which was adopted.

The President verbally reported that on September 18, 1903, he had transmitted to the Mayor the following report in regard to the work on the New Croton Dam and Jerome Park Reservoir for the week ending September 10, 1903.

New York, September 15, 1903.

Hon. WILLIAM H. TEN EYCK, President, Aqueduct Commission:

DEAR SIR—In regard to the work done on the New Croton Dam and Jerome Park Reservoir Divisions for the week ending Thursday, September 10, 1903, I would report as follows:

NEW CROTON DAM DIVISION.

Coleman, Breuchaud & Coleman, Contractors.

The river flow has been moderate during the week.

Dam—Rock excavation for the extension foundation has continued with a small force on the bottom work between Station 2-|-75 and Station 3-|-50, which work is nearly completed from the core wall line to the downstream toe. From Station 2-|-75± toward Gate House No. 1, rock excavation is in progress over most of the area, and particularly south of Station 1-|-75±.

Some earth excavation on the berms located for supply tracks has been done. Sheet piling work in connection with the deep excavation on the upstream side at Station 3-|-50± continues, with better progress than was reported last week.

Masonry work has continued with three gangs on the main dam and spillway or overflow.

1 gang on main dam extending top above Elevation 206.

1 gang on Gate House No. 2.

One gang on overflow.

Number of men is approximately as follows:

Excavation, earth and rock, steam shovel	34
Excavation, earth and rock, hand gangs	205
Excavation, earth and rock, spillway
Excavation, earth and rock, masonry	95
Excavation, earth and rock, quarry	170
Excavation, earth and rock, miscellaneous	15

Total

—showing a decrease on the dam proper of 16 men since previous week.

The amount of work done is approximately as follows:

Excavation, earth and rock, steam shovel, cubic yards	650
Excavation, earth and rock, hand gangs, cubic yards	1,750
Masonry, cubic yards	490

The steam shovel has stopped work, as the sinking now in progress in the main cut does not afford it good working room, and additional derricks have been placed to move the excavated rock material. This rock at the south end of the cut shows some improvement in quality as compared with that which lay at a higher elevation, but the granular seams continue to show in the bottom.

The coring machine has started on the second hole, and has reached a depth of about 18 feet in the rock. This hole is at Station 8-|-40±.

On Friday, September 4, pursuant to an engagement previously made, I met Professor Kemp, Geologist, and Professor Burr, Consulting Engineer, at the New Croton Dam excavation for the extension, for the purpose of deciding the question as to whether the bottom was in proper condition to begin the construction of the masonry. We found after consultation that over an area of about 20 per cent., with a slight cleaning up of the sand and some loose portions of rock on the westerly edge near the Main Dam, together with inferior rock beneath the south end of the core wall, the excavation is properly in condition to proceed with the construction. Orders were given to take out rock that was in the opinion of the Geologist and ourselves necessary to be taken out, just south of the section referred to above, and the work of construction will be proceeded with at once.

Reconstruction of Old Aqueduct—Concrete work is in progress at Purdy's brook and McCord's loop; refilling at Spring brook loop; excavation at New Croton Gate House inlets, at Bailey's brook and McCord's loop, and over the arch at stations 0-|-1-|-75; 2-|-3-|-25; 51-|-55; 118-|-122; 147-|-150-|-25; 153-|-155; riprap, Stations 52-|-55 and 66-|-70; embankment work for riprap, Stations 33-|-34-|-75; 52-|-55; 61-|-75-|-63-|-25; 64-|-64-|-75; average number of men employed, 385; additional track has been laid during the week.

Road Line No. 12 and Bridge B—The work is practically completed.

Road Lines 16 and 18, Bridge C—Fencing work on fill Road Line No. 16; concrete work on Abutment No. 2, Bridge C; average number of men employed, 36.

The following is a schedule of the contractors' force on the New Croton Dam proper since the beginning of work under the amended contract

On the entire contract for the New Croton Dam Division the total average force was 940 men, showing a decrease of five men since last report.

JEROME PARK RESERVOIR DIVISION.

McDonald & Onderdonk, Contractors.

West Side—Excavation for reservoir, Sections "B," "J" and "K"; excavation

for Gate House No. 7, earth; excavation for aqueduct division wall, 35 20—36 80, rock; excavation for face wall, trench 55 50—56 25.

Masonry—In aqueduct division wall, 10 80—11 70 and 33 80—34 20, brick and rubble; in face wall, 48 50—48 75 and 54 75—55 25, rubble; in shaft No. 21 connection, rubble and granite in piers; in wall along purchase line, east Gate House No. 2, no work; in wall along purchase line at Sedgwick avenue, no work; pointing back of face wall, south of Gate House No. 3, in places, for 250 feet.

Puddled fill behind face wall near Gate House No. 3. Embankment on plateau, Station 14 00 to 16 00.

East Side—Excavation for reservoir, Section "G," two steam shovels in earth and rock. Section "H," site Gate House No. 4, earth. Section "L," derricks in earth and rock. Stone crusher worked on 4th, 8th and 9th.

Reservoir—The force for the week was as follows:

Friday, September 4, 816 men.

Saturday, September 5, 835 men.

Sunday, September 6, 145 men.

Monday, September 7, Labor Day, 35 men.

Tuesday, September 8, 803 men.

Wednesday, September 9, 798 men.

Thursday, September 10, 802 men.

The progress in excavation has not improved from last week. Masonry has progressed, and on Sunday and Monday, September 6 and 7, masons were at work building foundation of face wall at Station 55, where the contractors had water and sliding bank to contend with.

No masonry was built in the wall along purchase line east and west of Gate House No. 2. On Wednesday, September 9, at Face Wall Station 41 the contractors commenced to clean out the foundation trench to continue the construction south.

Aqueduct North, Station 7 00—Two derricks daily in excavation at Stations 18 and 21, and scrapers between Stations 40 and 42.

Making forms for concrete and extending track. No masonry.

The force for the week was as follows:

Friday, September 4, 73 men, 6 teams, 2 derricks.

Saturday, September 5, 67 men, 6 teams, 2 derricks.

Sunday, September 6, 7 men.

Monday, September 7, 7 men.

Tuesday, September 8, 60 men, 6 teams, 2 derricks.

Wednesday, September 9, 65 men, 6 teams, 2 derricks.

Thursday, September 10, 67 men, 6 teams, 2 derricks.

General—A daily average of 811 men worked five days on the reservoir and 66 men on Aqueduct North Station 7 00, making the total daily average for five days 877. This is a decrease of 36 men over last week.

The following is the average force account since the beginning of the work under the amended contract:

Respectfully yours,

F. S. COOK, Acting Chief Engineer.

The action of the President was approved.

The Acting Chief Engineer submitted Report No. 744, dated September 17, 1903, relative to reports No. 699, dated August 10, 1903; No. 717, dated August 31, 1903; No. 732, dated September 10, 1903, concerning report of Special Committee of Engineers, being an additional report in relation to an approximate estimate of cost to finish the entire bottom of the Jerome Park reservoir.

Which was referred to the Construction or Executive Committee.

The Commissioners then adjourned to Thursday, September 24, 1903, at 2 o'clock p. m.

HARRY W. WALKER, Secretary.

Minutes of Adjourned Meeting of the Aqueduct Commissioners, Held at Their Office, No. 280 Broadway, New York City, on Thursday, September 24, 1903, at 2 o'clock p. m.

Present—The Mayor, the Comptroller, Commissioners Ten Eyck (President), Ryan, Windolph and Curtis.

The Mayor stated that the committee appointed July 14, 1903, to select and recommend a candidate for Chief Engineer to succeed Mr. Hill was ready to report, and Commissioner Curtis, secretary to said committee, thereupon read its report, recommending the appointment of Mr. Jonas Waldo Smith, temporarily residing at Paterson, New Jersey, as Chief Engineer to succeed Mr. William R. Hill, at a salary of \$12,000 per annum, said appointment to take effect on the 15th of October, 1903.

Whereupon the report of the committee was approved by the following vote:

Affirmative—The Mayor, the Comptroller, Commissioners Ten Eyck, Ryan, Windolph and Curtis—6.

On motion the resignation of Mr. William R. Hill as Chief Engineer, dated July 6, 1903, was taken from the table and considered.

Whereupon the following resolution was offered:

Resolved, That the resignation of Mr. William R. Hill as Chief Engineer of the Aqueduct Commissioners be and it hereby is accepted, to take effect on the 14th day of October, 1903, and that the committee appointed July 14, 1903, to select and recommend a candidate for Chief Engineer be requested to prepare a suitable minute in recognition of the efficient services rendered by Mr. Hill.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, Commissioners Ten Eyck, Ryan, Windolph and Curtis—6.

Whereupon the following resolution was offered:

Resolved, That Mr. Jonas Waldo Smith be and he hereby is appointed Chief Engineer of the Aqueduct Commissioners, in the place of Mr. William R. Hill, resigned, at a salary of \$12,000 per annum, this appointment to take effect on the 15th day of October, 1903.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, Commissioners Ten Eyck, Ryan, Windolph and Curtis—6.

The Commissioners thereupon took a recess.

AFTER RECESS.

Present—Commissioners Ten Eyck (President), Ryan, Windolph and Curtis.

The committee appointed July 14, 1903, to select and recommend a candidate for Chief Engineer reported the following minute to be entered upon the records, according to the terms of the resolution accepting the resignation of Mr. William R. Hill as Chief Engineer of the Commissioners.

William R. Hill was appointed Chief Engineer of the Aqueduct Commissioners December 26, 1899, to succeed Alphonse Fteley, who had resigned on account of ill health, and the appointment took effect January 1, 1900. He resigned the position of Chief Engineer and Superintendent of the Syracuse Water Works in order to accept this place.

Mr. Hill from the first day worked with great application and energy. Although frequently warned that the hard work was undermining his health, he continued to give the strictest attention to his duties until April 15, 1902, when he was taken ill and for a time his life hung in the balance. He resumed his work much sooner than advised to do by his physician. Although about this time he was subjected to severe criticism, which added greatly to his burdens, he courageously continued his work.

In June, 1903, his health again failed, and he was granted a leave of absence for two weeks. His rest proved of no benefit to him, and therefore at the insistence of his family and physician he presented his resignation.

Shortly after the beginning of Mr. Hill's term he recommended certain changes in the plan of the new Croton Dam, which necessitated the taking down of a large part of the core wall and embankment at the south end of that portion of the dam already constructed and replacing it by a masonry structure similar to the main stone dam. His grounds for this recommendation were the alleged general insecurity of this structure for the purposes intended, and evidenced, among other things, by certain small cracks which he had observed in this core wall. The work was stopped on that portion of the dam, and a commission of expert engineers appointed by the Aqueduct Commissioners approved this recommendation after several months of investigation. This approval was also concurred in by Prof. W. H. Burr and Mr. Nelson P. Lewis, Chief Engineer of the Board of Estimate and Apportionment, who had been asked by the Mayor subsequently to examine the suggestion and report thereon. The removal of this core wall was partially completed in March of this year, and revealed the fact that it was erected upon an insecure foundation, thus confirming the necessity of such removal. It was fortunate that Mr. Hill discovered this condition, otherwise a great catastrophe might have been precipitated upon the community hereafter.

The records of the Aqueduct Commissioners will show the other recommendations of modifications which have been made by Mr. Hill in the plans as originally prepared for the construction of the new Croton Dam and the Jerome Park Reservoir, which required both courage and engineering skill.

The Commissioners, in spreading this statement upon the minutes, desire to express their high appreciation of the services rendered by Mr. Hill to The City of New York and to the Aqueduct Commissioners.

The Committee on Finance and Audit reported the examination and audit of estimate contained in voucher No. 15,437, amounting to \$6,688.36 which was approved and ordered certified to the Comptroller for payment by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

Progress report for the week ending September 17, 1903, was submitted by the Acting Chief Engineer, and referred to the Construction or Executive Committee.

The Acting Chief Engineer submitted the following weekly report in regard to the work done on the new Croton Dam and Jerome Park Reservoir for the week ending September 17, 1903:

September 23, 1903.

Hon. WILLIAM H. TEN EYCK, President, Aqueduct Commission:

DEAR SIR—In regard to the work done on the New Croton Dam and Jerome Park Reservoir Divisions for the week ending Thursday, September 17, 1903, I would report as follows:

NEW CROTON DAM DIVISION.

Coleman, Breuchaud & Coleman, Contractors.

A considerable increase in the river flow occurred, owing to heavy showers on the 16th and 17th of September.

Dam—On rock excavation work a small force continued cleaning up the bottom immediately south of the main dam until flooded out by the rains above noted. A considerable amount of rock has been excavated in sinking to a well-defined bed seam between Stations 2 and 2+75±, and south of Station 2+00 sinking in the rock bottom has continued, developing some indications of improvement in the character of the rock in places. Further work has been done also in trimming the rock slope below Gate House No. 1. This work has been done with the aid of cables and derricks.

Earth excavation has continued on the track berms and in the pit on the upstream side near the junction of the main dam and core wall. The sheeting work has continued in preparation for the necessary deep excavation at this point.

Masonry work has continued with three gangs on the main dam, Gate House No. 2, and the adjoining spillway or overflow.

Parts of two days have been lost owing to rain.

Reconstruction of Old Aqueduct—This work has continued with a somewhat increased number of men over last week's report, and concrete work is in progress at Purdys brook, McCords and Baileys brook loops, and the work of stripping the aqueduct continues at numerous places between Station 25± and the New Croton Dam and on the section adjoining the Old Croton Dam. Riprap and embankment work also continue.

Road Lines, Etc.—On Road Line No. 6 a start has been made on excavating for the foundations of the 50-foot arch culvert. On Road Line No. 16 fencing work has continued, and on Road Line No. 18 concrete work on the foundations of Abutment No. 2 progressed.

The following is a schedule of the contractors' force on the New Croton Dam proper since the beginning of September:

Week Ending.	Average Men.	Week Ending.	Average Men.
Sept. 3, 1903.....	535	Sept. 17, 1903.....	519
Sept. 10, 1903.....	519		

On the entire contract for the New Croton Dam Division the total average force was about 950 men.

JEROME PARK RESERVOIR DIVISION.

McDonald & Onderdonk, Contractors.

West Side—Excavation for reservoir, sections "B," "J" and "K": for Gate House No. 7, earth; for Aqueduct division wall trench, Stations 35 20—36 80; for face wall, Stations 40 75—41 50, 47 50—48 25 and 55 50—56 00, rock. Masonry in Aqueduct division wall, Station 11 00—11 70, 33 70—34 20, rubble and brick; in face wall, Station 55 00—55 50 and 48 25—48 75, rubble; in shaft No. 21 connection, rubble in piers for arches; in wall along purchase line, east gate house No. 2, rubble and facing; pointing back of face wall, south Gate House No. 3, Station 31 70. Puddled fill back of face wall near Gate House No. 3. Embankment on plateau Station 14 00 to 16 00.

East Side—Excavation for reservoir, section "C," steam shovel in earth; section "G," steam shovel in earth; section "H," site Gate House No. 4, earth; section "L," derricks in earth and rock. Stone crusher worked each day.

Reservoir—The force for the week was as follows:

Friday, September 11, 818 men.

Saturday, September 12, 820 men.

Sunday, September 13, 139 men.

Monday, September 14, 829 men.

Tuesday, September 15, 832 men.

Wednesday, September 16, 825 men (stopped 10.30 a. m., rain).

Thursday, September 17, 834 men (stopped 1 p. m., rain).

The progress in excavation was interfered with on Wednesday and Thursday, September 16 and 17, by rain and water in the cuts. Grading for finished bottom is being done in section "B."

Masonry has progressed better, as work is now being done at Gate House No. 2, and both the derricks on Aqueduct division wall south of Gate House No. 7 have

moved another space; also the weather interfered with masonry on Wednesday and Thursday, September 16 and 17.

Aqueduct North Station 7 co.—Excavation, two derricks at work, except afternoons of 16th and 17th no work on account of rain, and on 15th quit at 11 a. m. on account of strike of hoisting engineers.

Masonry—Brick work began 11 a. m. on 14th and has continued.

The force for the week was as follows:

Friday, September 11, 66 men.

Saturday, September 12, 61 men.

Sunday, September 13, 3 men.

Monday, September 14, 56 men.

Tuesday, September 15, 49 men.

Wednesday, September 16, 56 men (stopped 10.30 a. m., rain).

Thursday, September 17, 69 men (stopped 1 p. m., rain).

General—The daily average of 825 men worked four days on the reservoir and 58 men on Aqueduct north of Station 7 co, making a total daily average for four days of 883 men. This is an increase of six men over last report.

The following is the average force account since the beginning of September:

Week Ending.	Average Men.	Week Ending.	Average Men.
Sept. 3, 1903.....	913	Sept. 17, 1903.....	883
Sept. 10, 1903.....	877		

Respectfully yours,

F. S. COOK, Acting Chief Engineer.

The President was requested to transmit same to the Mayor.

The Acting Chief Engineer also submitted Report No. 745, dated September 19, 1903, relating to the communication of the Corporation Counsel, dated September 12, 1903, as to actions to recover \$22,500 damages claimed to have been sustained by various persons on account of the deflection of the flow of the Croton river by the dump at the new Croton Dam.

Which was ordered filed.

The Acting Chief Engineer also submitted Report No. 746, dated September 19, 1903, returning a communication of the Corporation Counsel, dated September 1, 1903, and reporting that after an investigation of the work in the Croton Valley and on the other divisions there was no proof of work having been done in violation of the labor law during the month of August, and transmitting copy of Division Engineer Wegmann's report, dated September 17, 1903.

Which was ordered filed.

The Acting Chief Engineer also submitted Report No. 747, dated September 19, 1903, returning letter of the Corporation Counsel, dated August 3, 1903, relating to changes of roads in the Croton Valley which are referred to in Report No. 663 C. C. and stating that the amendments to the highway maps had been filed and that he had been informed that Mr. Dykman was proceeding to advertise according to law, and in the meanwhile he had directed the contractor to carry on his work accordingly.

Which was ordered filed.

The Acting Chief Engineer also submitted Report No. 748, dated September 21, 1903, recommending the appointment of Walter Seely, of No. 122 Woodycrest avenue, New York City, as Superintendent of Dam Construction at a compensation of \$4.50 per day.

Which was ordered filed, and in connection therewith the following resolution was offered:

Resolved, That, upon the recommendation of the Acting Chief Engineer, Walter Seely, of No. 122 Woodycrest avenue, City, be and hereby is appointed as Superintendent of Dam Construction, at a compensation of four dollars and fifty cents per day, his salary to commence when he is assigned to duty by the Acting Chief Engineer.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The Acting Chief Engineer also submitted Report No. 749, dated September 19, 1903, transmitting for the information of the Commissioners a poster announcing the sale on October 6, 1903, of City property in the town of Yorktown for the non-payment of taxes.

Which was ordered filed, and the Secretary directed to transmit a copy to the Corporation Counsel for his information.

The Acting Chief Engineer also submitted Report No. 750, dated September 19, 1903, relating to letter of Carl W. Schmidtke, Superintendent of Dam Construction, dated September 18, 1903.

Which was ordered filed.

The Acting Chief Engineer also submitted the following report:

REPORT No. 751.

September 21, 1903.

To the Aqueduct Commissioners:

GENTLEMEN—It will be necessary to test the new sample 2-foot by 8-foot sluice gate now furnished at Gate House No. 5, Jerome Park Reservoir. In doing this we will be required to pump more or less water, handle stop planks, etc., also to pay the cost of moving the new stop cock gates and fittings (48-inch, 36-inch and 20-inch) from the railroad to the reservoir, just delivered.

I therefore ask authority to expend not more than \$500 to cover the cost of same.

Respectfully yours,

F. S. COOK, Acting Chief Engineer.

Authority to make this expenditure was granted and the report was ordered by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The Acting Chief Engineer also submitted the following report:

REPORT No. 752.

September 21, 1903.

To the Aqueduct Commissioners:

GENTLEMEN—I have found that it will be necessary to pump out about fourteen (14) feet (deep) of water now standing in the unused chambers of the new gate house at Old Croton Dam before the 26 3 by 6 sluice gates being built by John Fox & Co. can be placed. We had intended to discharge this water through the subdrains into the New Aqueduct, but, owing to the fact that this water is more or less impure, it should not be so disposed of. Therefore I have ordered the Division Engineer to have it pumped out.

This work does not come within said gate contract, and I therefore ask for your approval and your authority to expend not more than two hundred and fifty dollars (\$250) to cover the cost of doing the same, also to cover the cost of making a number of test cubes of concrete and the necessary boxes.

Respectfully yours,

F. S. COOK, Acting Chief Engineer.

Authority to make this expenditure was granted and the report was ordered by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The Acting Chief Engineer also submitted Report No. 753, dated September 21, 1903, recommending the appointment of the following named persons as Laborers:

Abraham Tuttle, Allen J. Banker, Peter Mortisen, Martin Lundy, John J. Murphy, Anderson G. Clements, Frank Wardell.

Whereupon the report was ordered filed and the following resolution was offered:

Resolved, That, upon the recommendation of the Acting Chief Engineer, the following named persons be and hereby are appointed as Laborers, at a compensation of two dollars per day, their salary to commence when they are assigned to duty by the Acting Chief Engineer, viz:

Abraham Tuttle (veteran), Ossining, N. Y.; Peter Mortisen, Kitchawan, N. Y.; John J. Murphy, No. 47 State street, Ossining, N. Y.; Allen J. Banker, Croton Lake, N. Y.; Martin Lundy, Purdy's Station, N. Y.; Anderson G. Clements, Yorktown Heights, N. Y.; Frank Wardell, West Somers, N. Y.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The Acting Chief Engineer also submitted the following report:

REPORT No. 754.

September 22, 1903.

To the Aqueduct Commissioners:

GENTLEMEN—In relation to Report No. 733, dated September 10, 1903, regarding promotions to fill vacancies, I hereby report that inasmuch as there are vacancies in the grade of Rodman on the various divisions, I recommend for promotion to that grade, at a compensation of \$75 per month, the following Axemen now serving on the Engineer Corps, they having performed their duties satisfactorily:

Frank D. McSpedon, appointed Axeman May 14, 1901; Francis X. Fish, appointed Axeman September 26, 1902; Elias W. Purdy, promoted to Axeman February 1, 1901; Harry S. Bunner, appointed Axeman November 19, 1902.

Respectfully yours,

F. S. COOK, Acting Chief Engineer.

Whereupon the report was ordered filed and the following resolution was offered: Resolved, That, upon the recommendation of the Acting Chief Engineer, the following named persons be and hereby are promoted from the grade of Axeman at \$60 per month to that of Rodman at \$75 per month, said promotions to take effect October 1, 1903, viz:

Frank D. McSpedon, Francis X. Fish, Elias W. Purdy, Harry S. Bunner.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

Communications were received from the Mayor, dated September 18 and 19, 1903, the Commissioner of Parks, Borough of The Bronx, dated September 19, 1903, and McDonald & Onderdonk, contractors for the Jerome Park Reservoir, dated September 21, 1903, in relation to permission granted by the Department of Parks of the Borough of The Bronx to the contractors for the Jerome Park Reservoir to dump material excavated in the construction of said reservoir upon certain park lands.

Which were ordered filed.

Two communications were received from the Mayor, dated September 15 and 22, 1903, acknowledging receipt of reports of work done on the new Croton Dam and Jerome Park Reservoir for the weeks ending September 3 and 10, 1903.

Which were ordered filed.

A communication was received from H. T. Dykman, dated White Plains, N. Y., September 22, 1903, in relation to the dispossession proceedings against the occupant of parcel of land known as No. 185, and transmitting copy of a letter transmitted by the Mayor to the Sheriff of Westchester County, dated September 21, 1903.

Which was referred to the Corporation Counsel for his information.

The Acting Chief Engineer also submitted a communication addressed to the President, dated September 17, 1903, relating to the steps taken by him to obtain possession of parcels of land known as Nos. 112 and 185, occupied by Nelson Brothers.

Which was referred to the Construction or Executive Committee.

A communication was received from the Comptroller, dated September 8, 1903, stating that the Comptroller's certificate had been indorsed upon the contract executed by the Aqueduct Commissioners with John Fox & Co., on August 19, 1903, for sluice gates at the new Gate House at the old Croton Dam.

Which was ordered filed with the contract.

The following letter was received from Coleman, Breuchaud & Coleman:

CROTON-ON-HUDSON, N. Y., September 17, 1903.

To the Honorable Aqueduct Commissioners:

DEAR SIR—Your Mr. Cook, Acting Chief Engineer, has, on behalf of your Board, suggested that in the construction of the extension to the New Croton Dam, concrete 1-2-4, such as referred to in Clause O, item (ii), and dry rubble masonry, as referred to in same clause, item (i), using 50 per cent. of the first and 50 per cent. of the second, should be used instead of rubble masonry, as provided for by item (kkk). He represents that we will be able to work night and day, which could not be done properly using rubble masonry as heretofore.

The work will be expedited, he believes, and a more monolithic, impervious dam and stronger structure secured.

According to the suggestion made, we are willing to do this work as suggested, and if allowed to do it, agree to accept payment therefor at the prices named in our amended contract of 1902, Clause O, items (ii) and (i), and to make no further claim because of the change from the rubble stone masonry, item (kkk).

Yours very truly,

COLEMAN, BREUCHAUD & COLEMAN.

Which was ordered on file.

A communication was received from Professor William H. Burr, Expert Engineer, dated September 18, 1903, referring to his former communication of September 3, 1903, in relation to rubble and concrete construction at the new Croton Dam.

Whereupon, after discussion, both communications were ordered filed, and the following resolution was offered:

Resolved, That, in view of the recommendation of the Construction Committee, based upon the approval of the Expert Engineer on the construction of the new Croton Dam, and on the written consent of the contractors, the change in the character of the masonry at the southerly end of the new Croton Dam, advised by the Acting Chief Engineer in his report No. 715, dated August 31, 1903, be and it hereby is approved and the report ordered filed, and the Acting Chief Engineer authorized to proceed with the work accordingly.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

A communication was received from Professor William H. Burr, dated September 21, 1903, relating to the price of the waterproof course recommended for use in the concrete bottom of the Jerome Park Reservoir in the report of the Special Committee of Engineers, under date of July 27, 1903.

Which was referred to the Construction Committee.

A communication was received from N. S. Hill, Jr., Chief Engineer of the Department of Water Supply, Gas and Electricity, dated September 17, 1903, in relation to the loan to said Department of a 48-inch sleeve at the Jerome Park Pumping Station, and stating that he would deliver a similar casting in repayment if the Commissioners would state where they desired such delivery to be made.

Which was referred to the Acting Chief Engineer for his information.

The following communication was received from the Commissioner of Water Supply, Gas and Electricity:

CITY OF NEW YORK, September 23, 1903.

The Aqueduct Commissioners, No. 280 Broadway, New York City:

GENTLEMEN—I forward to you herewith seven maps entitled "Property Map No. 5 of Additional Lands Required for the Construction of the New Croton Reservoir in the Town of Bedford, Westchester County, N. Y., Exhibit No. 8 of 1903." Each of these maps is stated to be one of six similar maps required to be prepared by section 4, chapter 490, Laws of 1883. Of the eight maps which you forwarded to this Department for signature and mentioned in your letters of September 2 and 3, 1903, one has been returned here for the files of this Department, and those returned to you herewith are signed by me and by the Chief Engineer of this Department.

Respectfully,

ROBERT GRIER MONROE,

Commissioner of Water Supply, Gas and Electricity.

Which was ordered filed.

Whereupon the following preamble and resolutions were presented:

Whereas, The Commissioner of Water Supply, Gas and Electricity, in a communication dated September 23, 1903, submitted final plan sheets and six similar maps for filing, as prescribed by chapter 490 of the Laws of 1883, consisting of final plan sheet, marked Exhibit No. 7 of 1903, and six similar maps, marked Exhibit No. 8 of 1903, and intended to show the necessary right of way to be acquired for Road 26½, in the Town of Bedford, Westchester County, New York, the condemnation of which land is made necessary by an order of the Supreme Court, dated December 29, 1899, and amended January 6, 1900, new highways in the environs of the new Croton Reservoir; therefore be it

Resolved, That, for the more efficient carrying out of the provisions of chapter 490 of the Laws of 1883, of the State of New York, and the acts amendatory thereof, we, the Aqueduct Commissioners, appointed to carry out the provisions of chapter 490 of the Laws of 1883, and as amended by chapter 196 of the Laws of 1887, do hereby certify that the adoption of these maps is made necessary in pursuance of an order of the Supreme Court, dated December 29, 1899, and amended January 6, 1900, showing the real estate owned or to be acquired by The City of New York, which it is proposed to substitute in place of other real estate now used for highway purposes, prepared in accordance with the requirements of said acts, and do hereby certify that the same has been adopted by us in the manner prescribed in said acts, and direct that the same be duly certified and filed and designated as Final Plan Sheet, Exhibit No. 7 of 1903, and that a copy thereof be certified and transmitted to the Commissioner of Water Supply, Gas and Electricity for filing in his office, as required by section 25 of the aforesaid act.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The following was also offered:

Whereas, The Commissioner of Water Supply, Gas and Electricity, in a communication dated September 23, 1903, has submitted six similar maps, described as Exhibit No. 8 of 1903, showing the necessary right of way to be acquired for Road 26½, in the Town of Bedford, Westchester County, New York, the condemnation of which land is made necessary by an order of the Supreme Court, dated December 29, 1899, and amended January 6, 1900, new highways in the environs of the new Croton Reservoir; therefore be it

Resolved, That the six similar maps received from the Commissioner of Water Supply, Gas and Electricity, described as Exhibit No. 8 of 1903, showing the necessary right of way to be acquired for Road No. 26½, in the Town of Bedford, Westchester County, New York, the condemnation of which land is made necessary by an order of the Supreme Court, dated December 29, 1899, and amended January 6, 1900, be and the same are hereby approved and adopted and directed to be certified to the Corporation Counsel for filing and delivery to the Commissioners of Appraisal in accordance with the provisions of chapter 490 of the Laws of 1883 of the State of New York, and the acts amendatory thereof, and the Corporation Counsel is hereby requested to take the steps necessary to acquire for the City, under chapter 490 of the Laws of 1883 of the State of New York, the fee in perpetuity in the lands described on said maps and designated thereon, and the Secretary is hereby directed to furnish to the Corporation Counsel all maps, plans, etc., which he may require in the premises.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

A communication was received from the Corporation Counsel dated September 18, 1903, acknowledging receipt of letter of the 17th inst., relating to the examination of the title to certain land in connection with the new road in the town of North Salem.

Which was ordered filed.

A communication was received from the Corporation Counsel dated September 22, 1903, acknowledging receipt of two communications of the 18th inst., transmitting for his approval the following blank forms of contract, etc.:

For furnishing, delivering, erecting and placing stop cock valves, special castings and ladders for the Jerome Park Reservoir.

For furnishing, delivering, erecting and placing sluice gates and drain valves, with the necessary lifting machinery, ladders, etc., required at the Jerome Park Reservoir, and stating that said contracts had been approved as to form.

Which was laid over pending examination by Acting Chief Engineer.

A communication was also received from the Corporation Counsel dated September 18, 1903, transmitting a list of the tombstones included in the final report of the Commissioners in the Seventh Cornell Dam Supplementary Proceeding, for which awards have been made, and which stones are now owned by The City of New York.

Which was referred to the Acting Chief Engineer.

A letter was received from Williams & Gerstle dated September 21, 1903, calling attention to the fact that they had not yet received payment or copy of their estimate for August, 1903, for constructing the Muscoot Dam.

Which was ordered filed and the Secretary was directed to reply thereto, explaining the reason therefor.

A communication was received from the Trustees of District No. 1, Town of Somers, dated Croton Falls, N. Y., September 21, 1903, stating that they would agree to bid \$100 for the Ettlinger residence at Croton Falls when it is sold at auction, etc.

Which was referred to the Acting Chief Engineer.

The President was directed to acknowledge receipt of the letter of Coleman, Breuchaud & Coleman, dated September 17, 1903, and to transmit to them a copy of the resolution adopted at the meeting to-day in relation to the change in the character of the masonry at the southerly end of the new Croton Dam advised by the Acting Chief Engineer in Report No. 715.

A communication was received from E. C. Michell, adjuster New York Telephone Company, dated September 23, 1903, relating to bills for telephone service for the quarters ending March 31 and June 30, 1903.

Which was referred to the Secretary.

The Acting Chief Engineer also submitted Report No. 755, dated September 23, 1903, relating to the letter of the New York Central and Hudson River Railroad Company, dated September 10, 1903, stating that he had ordered the culvert therein referred to staked out in order to enable the railroad company to construct the same.

Which was ordered filed.

The Commissioners then adjourned.

HARRY W. WALKER, Secretary.

POLICE DEPARTMENT.

Report for Quarter Ending June 30, 1903.

New York, October 14, 1903.

Hon. SETH LOW, Mayor:

Dear Sir—The Police Commissioner this day ordered that the report of the Police Department for the quarter ending June 30, 1903, signed by the Commissioner and Chief Clerk, be forwarded to his Honor the Mayor.

Very respectfully,

WM. H. KIPP, Chief Clerk.

Hon. SETH LOW, Mayor, New York City:

Sir—Pursuant to section 1544, chapter 466, Laws of 1901, the Police Commissioner of the Police Department of The City of New York hereby submits the following report of the operations and transactions of the Police Department and Force for the three months ending June 30, 1903:

REPORT.

On the 30th day of June, 1903, the number of the Force of all grades (including those on probation) was 7,816.

Sick Time.

The time lost by members of the Force by reason of sickness, disability and injuries received for the quarter, and the details thereof, will be found in schedule annexed, marked "A," from which it will be seen that the sick time lost was 20,100 days, the sick time paid was 10,050 days, and the sick time unpaid was 10,050 days. Total days' time of the Force was 708,609. Per cent. of sick to full time 2.84, and for preceding quarter 3.92.

Arrests.

The total number of arrests by the Police Force during the quarter was: Males, 40,061; females, 8,905; total, 48,966. Number arrested for principal felonies, 3,785; number discharged without trial, 1,620; number acquitted, 462; number convicted, 551; number sent to other authorities, 47; number died, 12; number pending, 1,093.

Lost Children.

Males, 781; females, 359; total, 1,140. Restored to parents or guardians, 1,110; other dispositions, 30. Of this number there were disposed of from Central Office, 589.

Schedule "B" contains a valuable collection of miscellaneous statistics, to which attention is respectfully called.

Note—The discrepancy existing between the number of arrests for particular offenses in Felony Report and General Report (in Schedule "B") is accounted for by the fact that the General Report is made from the daily returns from the station houses, and the Felony Report is made from the quarterly returns. An offense charged in the station house, at the time of arrest, is liable to be and often is changed to a greater or less offense on evidence elicited before the Magistrate.

House of Detention.

The number of persons committed to and detained in the House of Detention 101 witnesses during the quarter was:

Remaining in House April 1, 1903.....	4
Committed during April	34
Discharged during April	38
Remaining May 1, 1903.....	12
Committed during May	26
Discharged during May	15
Remaining June 1, 1903.....	41
Committed during June	30
Discharged during June	11
Remaining in House July 1, 1903.....	15
Committed during July	26
Discharged during July	16

The aggregate number of days' detention was 1,011. Number of meals, 3,033, costing 25 cents each, amounting to \$758.25. For the names of persons detained and other particulars, see schedule annexed marked "C."

Sanitary Company.

The transactions of the Sanitary Company for the quarter, setting forth the number of steam boilers examined and their condition, and the number of applicants for examination as Engineers, will be found in the schedule annexed marked "D."

Property Clerk's Office.

The value of lost and stolen property recovered and returned to owners, and other transactions of the Property Clerk's Office, will be found in schedule annexed marked "E."

Discipline of the Force.

The number of Officers dismissed from the Force was 22.

The number of charges made against members of the Force and filed in the office of the Chief Clerk during the quarter was:

April, 392; May, 436; June, 612; total, 1,440.

The following is the number of charges disposed of during the quarter:

Charges on which Officers were dismissed, 31; fines, 1,029; reprimands, 152; complaints dismissed, disapproved and withdrawn, 182; dismissed, died and retired (charges pending), 25; decisions pending, 20; reduced to Patrolman, 1; total, 1,440.

Licenses.

The number and character of licenses issued during the quarter, the fees received, and the number of applications for licenses denied will be found in schedule annexed marked "F."

Deaths During the Quarter.

Patrolman James J. Mahoney, 7th Precinct, April 9.
Sergeant John McKenna, 49th Precinct, April 12.
Patrolman John Mannix, 49th Precinct, April 9.
Patrolman Thomas P. Burke, 8th Precinct, April 12.

The net result of the changes in the payrolls of this Department for three months ending September 30, 1903, computed on a yearly basis, is as follows:

	Increase.	Decrease.	Total.
Appointments.....	\$66,390 00		
Reinstatement.....	1,067 50		
Promotions.....	1,035 00		\$74,079 65
Resignations.....		\$8,465 00	
Deaths.....		7,782 00	
Discharges.....			\$6,839 50
Total.....			\$23,086 50

Summary.

Increase.....	\$74,079 65
Decrease.....	23,086 50
Net increase per year.....	\$50,993 15

This large net increase is apparent only and due chiefly to the temporary appointment of Painters for work on the Williamsburg Bridge.

In the death, on Saturday, July 11, 1903, of Mr. Charles Cyril Martin, Consulting Engineer of the Department of Bridges, The City of New York has sustained the loss of an eminent engineer, an able public officer, a wise counselor, an honored citizen and a man of unimpeachable integrity.

Identified with the public works of the City of Brooklyn for over forty years, he was intimately connected with the New York and Brooklyn Bridge from its conception. Entering its service on January 2, 1870, as First Assistant Engineer under Colonel W. A. Roebling, he held that office until the Bridge was completed in 1883, when he was appointed Chief Engineer and Superintendent of the New York and Brooklyn Bridge; this office he held until January, 1902, when he was appointed Consulting Engineer to the Department of Bridges.

He served in each position with such faithfulness and success as to confer honor upon himself and dignity and distinction upon his profession.

Bridges Over East River—No. 1—Brooklyn Bridge.	
Bridge Railway and Surface Car Service—During the quarter the local and elevated railway train service over the Bridge has been maintained with regularity and safety. Delays were nearly all of short duration, and occurred generally during the slack hours of travel. Most of the delays were caused by the through elevated trains stalling on the steep grades of the Bridge structure. The volume of passenger traffic passing daily over the Bridge railway is very large, yet it is carried with a marked absence of friction or overcrowding.	
The surface car service was interrupted frequently during the quarter in order to proceed with the building operations in connection with the installation of four additional loop tracks for surface cars at the Manhattan terminal of the Bridge; almost every night it was necessary to suspend the surface car service for several hours. Though the holiday and ordinary passenger travel on the surface cars has been unusually heavy, it was handled without accident or serious delays.	
Satisfactory progress has been made on the alterations and additions required at the Manhattan terminal of the Bridge to permit additional loop tracks to be laid for the purpose of extending the terminal for surface cars. To avoid, so far as possible, serious interference with the passenger and vehicular traffic over the Bridge, a considerable portion of the work had to be done during nights and Sundays, when the surface cars service could be suspended with the minimum amount of inconvenience to the public. The work has been difficult and tedious, because it had to be accomplished subject to the necessity of constantly providing for the heavy traffic over the Bridge.	

The steel structure of the carriageways has been extended in width to the north-erly and southerly boundary lines, respectively, of Bridge property, for a distance of about 300 feet each side; new tracks laid and the carriageways repaved; new interior galleries for the use of passengers to and from the bridge railway constructed and opened for service; the old side galleries removed, and the side walls of station building altered to permit the entrance of surface cars.

It is expected that the new loops will be ready for service at an early date.

The number of trolley car round trips during the quarter was 319,312, as follows:

August	108,690
September	96,580

Repairs and Betterments.

The routine maintenance, inspection and repair of the bridge structure, its approaches and terminal stations have been maintained daily during the quarter, and in addition, progress has been made in the work of reinforcing the lower chords in the cantilever portion of the outer and intermediate stiffening trusses on the river span. The roadways on the bridge have been replanked with 2½-inch by 10-inch spruce plank, and about 900 linear feet of extra fender guards or wearing plates have been laid on wheel guards of north and south roadways, Manhattan terminal. A new engine and generator have been erected in the bridge power house for the purpose of improving the lighting system on the bridge. The Brooklyn Heights Railroad Company have kept a force of trackmen at work on the repairs and renewals needed on the bridge railway tracks and surface car tracks.

A regular daily inspection of the structure, tracks and car equipment has been carefully maintained.

No. 2—Williamsburg Bridge.

Cables—Although the cables were practically completed at the end of the preceding quarter, there remained a little work to be done in connection with the repair of Cables A and B at the Manhattan tower. This work was completed early in July, and the contractor's plant and everything cleared away before the 25th of that month.

Brooklyn Approach—The work on the Brooklyn approach is completed, except putting in place bronze railings and a few small items awaiting completion of work on other contracts.

Manhattan Approach—The work on this approach is nearing completion. There still remains a small portion of riveting on the buckle plate flooring of the steel approach, and the application of a portion of the field coats of paint. The steel anchorage flooring is already in place and partly riveted. The riveting of this work is rapidly approaching completion, and will be followed by the painting and laying of brick arches, etc., to complete the flooring.

Suspended Structure—The riveting on the suspended structure is nearing completion; there still remain some bottom and top chord splices of the north truss and some of the diagonal web members to rivet, and a few top chord splices and some diagonal web members of the south truss. The painting of first and second field coats has followed very closely the completion of the riveting and is now at least 50 per cent completed.

The work on the suspended structure has been very much delayed on account of the large amount of reaming that was necessary to do in the bottom chord splices. In view of the difficult riveting on portions of this work, I think that the progress has been very satisfactory.

Brooklyn Anchorage—The contract for the Brooklyn anchorage is completed.

Manhattan Anchorage—The work on the Manhattan anchorage is completed and contractor's plant entirely removed, except the boiler house, the contents of which have been removed and the building is being torn down.

Main Towers and End Spans—The members of the end spans left out for cable building have been put in place and the riveting and painting of same nearly completed.

The repainting of the main towers and end spans, the work of which was begun by the Department Painters early in August, has progressed satisfactorily, considering the number of men employed and the amount of scraping to be done in order to put the work in proper condition to receive the first coat of paint.

The Brooklyn tower has received the priming coat and two final coats of paint from the top to the roadway level.

The roadways of both end spans and the footwalks of the Manhattan end span have been scraped and given the first coat of red lead.

Brooklyn Plaza—The removal of buildings on the Brooklyn Plaza property, contracts for which were let in July and August, has been completed, except three buildings partly removed, and one building the removal of which has not been commenced.

A number of the cellars have been filled with good material by responsible parties, who have been granted the privilege, and this work continues.

Steel Under-floorings and Creo-Resinate Wood Block Pavement for Roadways—The contracts for this work were let on June 8, and the contractor for the steel under-flooring notified to begin work July 15, and the contractor for the wood block pavement was notified July 30 to begin work.

The first material for the steel under-flooring was shipped from the mills to the enameling works on August 20, and the first finished material was delivered at the bridge on September 10. The contractor in the meanwhile had assembled his plant at the bridge site and had cut loose the seven-inch roadway channels ready for shimming up to required slope. Since the 10th of September about 600 tons of finished material have been delivered and assembled in place on the bridge, extending from the Brooklyn anchorage on the south roadway to a point near the Manhattan tower. The shims have been placed under the seven-inch channels over a large portion of the roadways.

The contractor furnishing the creo-resinate wood blocks has a large quantity treated and expects to ship very soon.

Kosmoconcrete Sidewalks and Asphalt Paving Under the Manhattan Approach—This contract was awarded July 22 and the contractor notified to begin work July 30. Work was begun on August 5 and good progress has been made since. The Kosmoconcrete sidewalks and curbs have been completed to within about three blocks of the anchorage, and the concrete base for the asphalt roadway south of the bridge is laid between Ridge and Columbia streets. The concrete base for the interior paving in the Pitt-Willett street block is completed. Sewer catch basins have been built, and fire hydrants, lamp posts, etc., have been shifted. No asphalt paving has been laid as yet, and probably will not be until the concrete base is completed, so that this work can be carried uninterruptedly to completion.

Roadway Pavement, etc., on the Approaches and Anchorages—The contract for this work was awarded on the 14th of August. The contract was not approved until the 8th of September, but work was begun in August and good progress has been made since.

The concrete base for the roadway paving has been completed on the Brooklyn approach from Bedford avenue to the anchorage. The excavation to subgrade has been completed for the roadways over the masonry approach, but the rolling has not been done and the concrete base has not been laid. A considerable quantity of Medina sandstone blocks has been delivered, but none of the blocks have been laid.

On the Manhattan approach the excavation to subgrade and rolling have been completed over the masonry approach, the concrete base for roadway paving laid on the

north roadway, and a little paving has been done. The concreting on both roadways of the steel approach has been completed from Ridge street to Sheriff street, but no paving has been laid. Two shipments of Medina sandstone paving blocks have been received.

Concreting in Anchor Chain Tunnels, etc.—The contract for this work was awarded in September, and the contractor notified to begin work on September 28.

No work has been done as yet on this contract, but a plant at the Brooklyn anchorage is partly completed, and some material for the permanent work has been delivered.

At the Manhattan anchorage the contractor has made arrangements to use derricks of the Pennsylvania Steel Company already in place on the elevated structure, but no other plant or material for the permanent work has been delivered.

The following table shows the percentage of contracts completed to date and work done during the quarter, as measured by the value of the work at schedule prices:

No. 3—Manhattan Bridge.

Plans—During the quarter the stress sheets have been completed and are being checked. The plans for the anchorages have been also worked up, and additional plans made for the foundations and concrete cores, with a view to letting this part of the work separately.

Caisson—The work of construction has progressed favorably. The caisson for the Manhattan tower foundation has been completed, and the work of sinking same at foot of Pike slip, begun in August, 1903. The caisson is resting level upon the bed of the river, at a depth of —41, and the discrepancy of location in any direction is about an inch. The work of excavating under air pressure has commenced, and will progress rapidly as soon as the rip-rap from the old docks occupying the site has been removed.

Pedestal—The pedestal on the Brooklyn tower foundation has been completed, and the top is being dressed to the proper elevation and surface required. The completion of this contract will enable the contractor to remove the cofferdam and temporary dock used in the construction of the foundation, and to dredge the bed of the river to its original depth at that point.

Contracts—For lack of funds the contracts for the anchorages and steel superstructure have been delayed, but the plans and specifications are in such shape that but little time will be required when the money becomes available before inviting bids on those portions of the work.

Real Estate—The property of the Brooklyn Brass and Copper Company, occupying the site of the Brooklyn anchorage, has been purchased for \$680,000, but title has not yet been closed.

The property at No. 191 Cherry street, Manhattan, has been purchased for \$23,000, and title closed August 10, 1903.

The property at No. 74 Monroe street was purchased for \$32,750, and title closed September 10, 1903.

On September 2 the Board of Estimate and Apportionment authorized the purchase of the property of Dodge & Alcott, on Adams street, Brooklyn, for \$180,000, and the property of the Hecker-Jones-Jewell Milling Company, on Pike slip, Manhattan, for \$625,000, titles to both parcels to close December 1, 1903.

The Board also authorized on September 9 the purchase of No. 196 Cherry street, Manhattan, for \$13,000.

On August 1, 1903, Mr. F. M. Sylvester, Assistant Engineer in charge of foundations, resigned, and Mr. J. A. Knighton was assigned to succeed him. Mr. A. I. Perry, Assistant Engineer, was assigned to assist Mr. Knighton.

No. 4—Blackwell's Island Bridge.

Plans—The plans for the steel superstructure were completed July 18 and proposals invited August 10. On September 24 one bid was received, that of the Pennsylvania Steel Company, which was rejected as unfavorable. Some modifications are being made in the contract and specifications, and the work will be readvertised in the near future.

Arbitration—On account of changes in the plans for the substructure, the contractors, Messrs. Ryan & Parker, presented a claim for extras amounting to about \$138,000; and as no agreement could be reached the matter was submitted on June 5, 1903, to a board of arbitrators, comprising Messrs. S. Whinery and John F. O'Rourke. The findings of the Board were embodied in a supplemental agreement (No. 5), by which the contractors will obtain an extra allowance of \$92,601, and the time of completion extended to March 1, 1904.

Construction—The work of construction has progressed steadily on the four main piers, and Piers 2 and 4 have been completed. Piers 1 and 3 are progressing favorably. The work on the two anchor piers was stopped during the arbitration of the contractors' claim, but was resumed promptly on the acceptance of the award by the two parties, and is progressing favorably.

Borings—Wash borings have been made along the line of the Queens approach at a cost of \$3,106.40, and the results have been plotted for reference.

Bridges over the Harlem River and in the Borough of Manhattan.

No. 1—Willis Avenue.

Construction—An appropriation of \$100,000 for the construction of the Southern Boulevard approach was approved by the Mayor September 14, 1903. The land necessary for this approach is now being acquired. Plans have been prepared, and work may be begun as soon as the City is in possession of the property.

No. 4—Madison Avenue.

An appropriation of \$150,000 for beginning work on a bridge to replace Madison Avenue Bridge (No. 4) was approved by the Mayor September 14, 1903. A general plan, including a temporary bridge to accommodate travel while the new bridge is building, has been prepared and submitted informally to the War Department for approval. Permission to erect a low level temporary bridge has been refused, and the possibility of a structure with 24 feet clear head room is now under consideration.

No. 5—One Hundred and Forty-fifth Street Bridge.

This bridge is in practically the same condition as during the previous quarter, except that material for the draw span has been delivered and erection begun.

No. 9—Fordham Heights.

An appropriation of \$250,000 for beginning the construction of a bridge at Fordham Heights was approved by the Mayor August 26, 1903. Plans and specifications for a pivot-pier and the necessary dredging and fender are practically completed, and

bids for the work will be invited during October. One of the conditions on which a permit to erect Bridge No. 9 was granted by the Secretary of War is that a considerable amount of dredging—probably in excess of 30,000 cubic yards—shall be done by the City, to make the channel on the west side of the pivot-pier navigable. This work has been included in the plans and specifications mentioned above.

Maintenance.

The usual annual contract for supplying the bridges with coal was not let, on account of the disturbance in the market, until June 8 of this year, since which time all coal has been bought at the contract price of \$5.70 per ton. The coal is inspected and weighed at the yard Wednesday morning of each week, from 6 to 8 o'clock, and delivered at the bridges before 10 o'clock, the hour of opening for navigation.

A contract for repairs to asphalt roadways was entered into with the Barber Asphalt Paving Company July 6, 1903. Under it, repairs have been made as follows:

No. 1—Willis avenue, 186.84 square yards at \$2.27.....	\$424 13
No. 3—Third avenue, 607.26 square yards, at \$2.27.....	1,378 48
No. 6—Macomb's Dam, 565.31 square yards, at \$2.27.....	1,283 25
No. 8—Washington, 10.77 square yards, at \$2.49.....	26 82
Total.....	\$3,112 68

Total number of square yards, 1,370.18.

Further repairs will be necessary, notably to Third Avenue Bridge (No. 3) before the close of the year.

The railings of No. 6, Macomb's Dam Bridge, and the balustrades of No. 8, Washington Bridge, have been painted, and considerable painting has been done in the Bronx by the Harlem river men.

The painting force has recently been increased to fifteen men, and if this number can be employed next year a considerable amount of necessary work can be done.

The average number of draw openings per day have been as follows:

No. 1. Willis avenue.....	17 65-100	No. 6. Macomb's Dam.....	4 89-100
No. 3. Third avenue.....	11 72-100	No. 10. Ship canal.....	8 92-100
No. 4. Madison avenue.....	7 45-100		

BOROUGH OF THE BRONX.

No. 2—Westchester Bridge.

Bridges Projected or Under Construction—This work has been delayed by its practical abandonment by the contractor. The unfinished sections have been taken in hand by one of the bondsmen on the contract and the job will shortly be completed. During the quarter the bridge has been painted, the machinery and electric equipment installed, the counterweight put in place and grouted, the double deck of creosoted timber covered with plank was laid, and the embankment approach at the east end was brought to grade. The amount of work yet to be done is small.

No. 4—New Pelham Bridge.

The plans of the foundations, piers, abutments and arches were prepared and a form of contract and specifications was drawn. Proposals were asked for this work on September 24 last, but only two bids were received, both of which were rejected because excessive.

No. 1—One Hundred and Thirty-fifth Street Bridge.

Maintenance and Repairs—No repairs were required during the quarter. The bridge is working smoothly, and the traffic across it has been somewhat reduced during the last few weeks on account of the opening of One Hundred and Thirty-eighth street to travel.

No. 2—T—Westchester Avenue (Temporary) Bridge.

The roadways of the approaches were repaired, but on the east approach the pavement is poor. The difficulty of obtaining broken stone and the high price of this material have held back work of resurfacing. The upper deck or wearing surface on the draw span and the trestle approaches was renewed.

No. 3—Unionport Bridge.

The trusses of both draw span and fixed spans were strengthened by the introduction of vertical struts in the web system and by the addition of sway bracing. The bridge has received one coat of paint.

No. 4—T—Pelham Bridge.

The repairs to the draw span were finished early in the quarter. On the causeway approaches the sidewalk was replanked and the east retaining wall was repaired.

No. 5—City Island Bridge.

The end lifts were adjusted and a few small repairs were made. Arrangements were made with the Department of Parks for resurfacing the roadway of the west approach, but the work has not yet been started on account of continued activity of the Park Department in building roads in Pelham Bay Park. A gang of painters from the Harlem river division is at work on the railing of the west approach.

No. 6—Eastchester Bridge.

No repairs were necessary, but the deck will be renewed during the coming quarter.

No. 11—Farmers' Bridge.

Travel over this structure was resumed in August, after over a year's interruption due to the building of the Broadway trunk sewer. Repairs will be made at once to the retaining walls of the causeway approach. The road leading to the bridge from the Manhattan side is in bad order, and on this account vehicular travel is in a great measure deflected to the Broadway Bridge.

No. 13—Kingsbridge.

This old structure was maintained in good order, but as traffic was light it required small attention.

Bridges Over Newtown Creek and in the Borough of Queens.

No. 1—Vernon Avenue Bridge.

Construction—The foundation walls of the south approach have been concreted and are ready for limestone. The south abutment piling and the grillage at its connections with the east and west walls have been completed and excavation has been begun for the column foundations. Pier 10 West has been completed, and Pier 10 East founded and thirteen courses of limestone set. The pile and timber fenders of these piers are nearly completed. The caisson for Pier 11 West and the grillage for Pier 9 are nearly ready for launching. The column foundations for the viaduct on the north approach are partly completed, and about 1,500 tons of steel for the bridge have been delivered near the site. More progress has been made during the past quarter than at any period since construction began. The time limit on this contract will expire in fifteen working days after the 30th of September. Judging from the present condition of the work it will require at least eight months, and perhaps longer, in which to complete the bridge.

No. 6—Borden Avenue Bridge.

The Board of Estimate and Apportionment has returned the plans for a new bridge, which were submitted by this Department, and requested that the local authorities change the line of Creek street in order that the bridge designed for this point may be legally constructed.

No. 7—Flushing Bridge.

The War Department has approved the plan for the proposed new bridge which has been authorized by the Board of Estimate and Apportionment and the Board of Aldermen, and the contract, specifications and drawings are being prepared.

No. 1—T—Vernon Avenue (Temporary) Bridge.

Maintenance and Repairs—Much trouble has been experienced in keeping the temporary bridge in repair, on account of the crowded traffic in the stream and the apparent carelessness of captains, who allow their vessels to collide with the bridge.

No. 2—Greenpoint Avenue Bridge.

The bridge is in good repair and working satisfactorily.

No. 3—Meeker Avenue Bridge.

The draw span of this bridge has been equipped with electricity, and the bridge is now receiving a new flooring and complete overhauling.

No. 4—Grand Street Bridge.

The bridge has worked satisfactorily, and no repairs of any kind have been required during the quarter.

No. 5—Metropolitan Avenue Bridge.

Since the 1st of January, 1902, no attention has been given to this wooden, low level bridge over Newtown creek, situated at an unnavigable part of the stream.

No. 8—Strong's Causeway Bridge.

In fair condition.

No. 9—Little Neck Bridge.

In fair condition. The draw span opened four times during the present quarter for the passage of one scow with a tug, up the creek and out again, the first opening since January, 1902.

BOROUGH OF BROOKLYN.

No. 1—Hamilton Avenue Bridge.

The motor bracing was overhauled and repairs made to a railing post and floor beam damaged by a vessel. The east approach pavement was repaired by the Bureau of Highways, and the railroad company also did some work on the pavements. The bridge seats have been adjusted, and later will be replaced by the adjustable bridge seats removed from the Metropolitan Avenue Bridge when the end lifts were installed. These bridge seats have been overhauled in the machine shop.

No. 2—Ninth Street Bridge.

That part of the bridge above the floor line was painted in July. The bare spots were "touched up" with red lead, and one coat of white lead and linseed oil (standard color) was applied. The railings were painted with Dixon's graphite. Repairs have been made to the bridge seat shoes, motor band, and floor beam connections. The end beams have been chipped to give clearance at the abutments. The railroad company made repairs to the planking.

No. 3—Third Street Bridge.

The Bureau of Highways repaved both approaches and brought them to grade.

No. 4—Carroll Street Bridge.

The corner railing, damaged by a vessel, was repaired.

No. 5—Union Street Bridge.

The railings have been repaired, new turning pole made, and the Bureau of Highways repaired the pavements on the approaches.

No. 6—Washington Avenue Bridge.

The towing capstan was used from June 9 to July 27 to operate the bridge while a new rope sheave foundation was put in. In consequence no towing could be done, and the average time for openings in July was nine minutes, while for August and September, when the towing of boats was resumed, the average per opening was less than three minutes. The time-saving features of the capstan are thus clearly shown. The engine house roof has been repaired and painted, and the pavement between the rails on the north approach has been repaired by the railroad company. The grassed areas have been kept in good shape by the Bridge Tenders and look very well. The three-inch wood block pavement laid last December on this bridge has stood the heavy traffic without signs of wear.

No. 7—Metropolitan Avenue Bridge.

The electrically operated end lifts were completed on August 4, and work smoothly and quickly, but fifteen seconds being required to raise or lower the rams. The current is supplied by the railroad company, as is also the current for the turning of the bridge. The new latch is in successful operation, the west latch base having been completed the last week of September. At one corner of the bridge repairs have been made to the channels supporting the toggle girders, which were damaged by a boat striking the girders. The under body was painted in August, and the railroad company repaired the approach pavements. A new roller has been put in the turntable, and the railings have been repaired. The three-inch wood block pavement on this bridge, laid last spring, is wearing well.

No. 8—Harway Avenue Bridge.

No repairs have been required at this bridge.

Opening Hours on Gowanus Canal.

The closed noon hour periods, which were done away with after the coal strike, to give greater freedom to the movement of vessels on the canal, were restored at Hamilton avenue and Ninth street bridges on August 12, and at Union Street Bridge on September 11.

BOROUGH OF RICHMOND.

No. 1—Lemon Creek Bridge.

No repairs have been made to this bridge.

No. 2—Fresh Kills Bridge.

This bridge was painted in September; the bare spots were "touched up" with red lead, and one coat of graphite paint put on. Some of the roadway plank will be replaced in October.

Daily Average of Bridge Openings.

1. Lemon Creek Bridge.....	1	2. Fresh Kills Bridge.....	1/2
----------------------------	---	----------------------------	-----

The discipline of the Department has been good, and the inspection, repair and operation of all the completed bridges have been attended to with care, and have proceeded as usual.

Respectfully submitted,

G. LINDENTHAL, Commissioner of Bridges.

CONDITIONS OF SALE.

As provided for by The Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for stock shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon one of the State or National Banks of The City of New York, two per cent. of the par value of the stock bid for in said proposal.

4. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the stock awarded to him or them, at its par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.

5. Upon the payment into the City Treasury of the amounts due by the persons whose bids are accepted, respectively, certificates thereof shall be issued to them as authorized by law, and in such denominations as they may desire.

6. It is required by the Charter of the City that "every bidder may be required to accept a portion of the whole amount of stock bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected." Under this provision, the condition that the bidder will accept only the whole amount of stock bid for by him, and not any part thereof, cannot be inserted in any bid.

7. It is also provided by the Charter that these bonds, being registered, may be issued in denominations of ten dollars or any multiple thereof; and that "preference shall, so far as practicable, and without pecuniary disadvantage to the City, be given to applicants for the smallest amounts and smallest denominations of said bonds in issuing the same."

8. The proposals, together with the security deposits, should be inclosed in a sealed envelope, indorsed "Proposals for Bonds of The City of New York," and said envelope inclosed in another sealed envelope, addressed to the Comptroller of The City of New York.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTION 12.
GUN HILL ROAD (OLIN AVENUE)—REGULATING, GRADING, SETTING CURB-STONES, FLAGGING, LAYING CROSSWALKS, BUILDING FENCES, PLANTING TREES AND PAVING WITH MACADAM PAVEMENT, from Jerome avenue to the Bronx river. Area of assessment: Both sides of Gun Hill road, from Jerome avenue to the Bronx river, and to the extent of half the block at the intersecting and terminating streets and avenues—that the same was confirmed by the Board of Revision of Assessments on October 30, 1903, and entered on October 30, 1903, in the Record of Titles and Assessments, kept in the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments, and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record." * * *

The above assessments are payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before December 29, 1903, will be exempt from interest as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments became liens to the date of payment.

Machinery contained in Lot No. 1: 1 small power elevator and attachments; 1 gas engine; 1 Jack shaft with pulleys and hangers; 1 cast-iron boiler for heating apparatus; radiators, piping, etc., for heating apparatus.

Machinery contained in Lot No. 2: 2 hand power elevators.

Machinery contained in Lot No. 3: 1 boiler; 1 small hand power elevator.

Machinery contained in Lot No. 4: 1 power elevator and attachments; 1 line of shafting with pulleys and hangers; 1 gas engine; 1 horizontal boiler.

TERMS AND CONDITIONS OF SALE.

The sale will commence at 10 o'clock a. m. Each of the above lots will be sold separately and for a sum in gross.

The estimated dimensions given for the several lots are believed to be correct; but the Commissioner will not make any allowance from the purchase money for variations in any lot, and bidders must judge for themselves as to the correctness of the estimate when making their bids.

Twenty-five per cent. of the purchase money must be paid to the auctioneer in cash at the time and place of sale; the balance of the purchase money to be paid to Charles A. Berrian, at his office, No. 141 Broadway, before 12 o'clock m., on the 16th day of November, 1903.

All the buildings and their foundations of every class and description within the hereinbefore described area are to be torn down to the level of the existing curb, and removed from the premises. All tin from roofs, and galvanized or black iron from roofs, cornices, sides of buildings or partitions, brick laid in lime mortar or in mortar which may be readily broken from the bricks, floor beams, joists, studding, flooring, ceiling, roofing boards and woodwork of every description, and all gas water, steam and soil piping shall be removed from the premises. Also, all combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., shall be gathered together by the purchaser and removed from the premises. The final non-combustible rubbish, such as lime mortar, brickwork in cement mortar or in mortar which cannot be readily broken from the brick, plaster, roofing gravel, etc., may be left on the premises within the building lines, but otherwise, all planking, rubbish, or other material within the heretofore described area, whether particularly described or not, must be removed from the premises. The removal of all buildings, parts of buildings, sheds, planking and all other material must be made by the purchaser, who must commence the said removal within three days from the date of the receipt of a notification from the Engineer-in-Chief that the work is ready to be begun, and continue the same diligently until completed.

The structures must be torn down to the level of the first story within fifteen days from the date of the receipt of the above notice, and all of the materials comprised in the buildings, as hereinbefore provided, must be entirely removed from said premises within thirty days from the date of the receipt of the notice above mentioned; and if the purchaser or purchasers fail to commence the said removal as specified, and to diligently prosecute the same, as above set forth, then the Commissioner of Docks may, at his option, complete the said removal and charge the expense of the same to the said purchaser, who shall sign the present terms of sale and agree to be bound thereby.

All machinery, except the machinery enumerated in Lot No. 7, and other personal property is to be removed from the buildings on or before November 13, 1903, and in case of failure so to do, such machinery and personal property will be removed by this Department and stored at the expense and risk of the owner. No ma-

chinery, except that described as Lot No. 7, or personal property of any description contained in said buildings will be sold.

And for the further securing of the removal of the said buildings, etc., hereinbefore mentioned, the purchaser will be required at the time of sale and the award of said property to him, to execute a bond in such form and with such sureties as may be approved by the Commissioner of Docks of The City of New York, and in a penalty of one thousand dollars (\$1,000), that he will in all things carry out the terms of sale and comply with the conditions thereof, and remove all of said property within the time required by the said terms of sale.

The form of bond to be executed by the purchaser may be seen at the office of the said Department at Pier "A," Battery place, New York.

Dated THE CITY OF NEW YORK, June 8, 1903.
 McDOUGALL HAWKES, Commissioner of Docks. 031,113

OFFICE OF THE DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SALE OF SHED.

CHARLES A. BERRIAN, AUCTIONEER, will sell on behalf of the Department of Docks and Ferries of The City of New York, on Thursday, November 12, 1903, commencing at 10 o'clock a. m., on the premises, the shed on the pier at the foot of West Fifteenth street, North river, Borough of Manhattan.

No bid will be received which shall be less than the upset price, namely, \$5,000.

The purchaser shall take down, remove and dispose of said shed in accordance with the law, and all of the material in the said structure to be removed, under the direction and supervision of the Engineer-in-Chief of the Department of Docks and Ferries within thirty days from date of sale. If the purchaser fails to effect the removal of said shed within thirty days from date of sale he shall forfeit his purchase money and the ownership of the shed, and for the further securing of the removal of said shed hereinbefore mentioned the purchaser will be required, at the time of sale and the award of said shed to him, to execute a bond in such form and with surety to be approved by the Commissioner of Docks of The City of New York, in the sum of \$2,500, that he will in all things carry out the terms of sale and comply with the conditions thereof and remove said shed within the time specified.

Twenty-five per cent. of the purchase money must be paid to the auctioneer in cash at the time and place of sale; the balance of the purchase money to be paid to Charles A. Berrian at his office, No. 141 Broadway, before 12 o'clock m., on the 13th day of November, 1903.

The form of the bond to be executed by the purchaser may be seen at the office of said Department, Pier "A," Battery place, New York.

FIRST JUDICIAL DISTRICT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of the wharfage rights, terms, easements, emoluments and privileges appurtenant to Pier, old No. 18, East river, in the Borough of Manhattan, City of New York, not now owned by The City of New York, and all right, title and interest in and to said pier, or any portion thereof, not now owned by The City of New York, for the improvement of the water front of The City of New York on the East river, pursuant to the plan heretofore adopted by the Board of Docks and approved by the Commissioners of the Sinking Fund.

PURSUANT TO THE STATUTES IN SUCH case made and provided, notice is hereby given that an application will be made to a Special Term of the Supreme Court of the State of New York, in and for the First Judicial District, to be held in Part III thereof, at the County Courthouse, in The City of New York, Borough of Manhattan, on the 19th day of November, 1903, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate and Assessment in the above-entitled matter.

The nature and extent of the improvement hereby intended is the acquisition, in the name of and for the benefit of The City of New York, for the execution of a certain plan for the improvement of the water front of The City of New York, pursuant to the statutes in such case made and provided, and determined upon by the Board of Docks on the 13th day of April, 1871, and approved by the Commissioners of the Sinking Fund on the 27th day of April, 1871, as altered and amended by the Board of Docks on the 26th day of October, 1900, which alteration and amendment was approved by the Commissioners of the Sinking Fund on the 14th day of November, 1900, and which said plan and alteration and amendment thereof are on file in the office of the Department of Docks and Ferries, of all the wharfage rights, terms, easements, emoluments and privileges not now owned by The City of New York and appurtenant to the premises described as follows, to wit:

All the interest in the pier known as Pier, old No. 18, East river, near the foot of Maiden lane, in the Borough of Manhattan, City of New York, not now owned by The City of New York, said interest being an undivided half interest; said pier is situated about 7 feet westerly of Maiden lane, and is bounded and described as follows, to wit:

Beginning at a point in the old bulkhead at the foot of Maiden lane between Piers, old No. 18 and old No. 19, East river, distant 12.5 feet westerly from that point in said bulkhead where the southerly extension of the westerly line of Maiden lane intersects the same, and running thence southerly along the easterly side of Pier, old No. 18, a distance of about 139.5 feet.

Thence deflecting to the west and running still southerly along the easterly side of said pier a distance of 75 feet;

Thence deflecting to the west and running still southerly along the easterly side of said pier a distance of 125 feet;

Thence deflecting to the east and running still southerly along the easterly side of said pier a distance of 50 feet;

Thence deflecting to the east and running still southerly along the easterly side of said pier a distance of 59 feet to the outer end of said pier;

Thence westerly along the outer end of said pier 35 feet to the westerly side of Pier, old No. 18;

Thence northerly along the westerly side of said pier a distance of 60 feet;

Thence deflecting to the east and running still northerly along the westerly side of said pier a distance of 175 feet;

Thence deflecting to the west and running still northerly along the westerly side of said pier a distance of about 211 feet to the present bulkhead between Piers, old No. 17 and old No. 18;

Thence easterly along the present bulkhead or northerly end of said pier 33.75 feet to the point or place of beginning.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
