DEPARTMENT OF HEALTH.

REPORT FOR WEEK ENDING AUGUST 8, 1914.

THE ACCURACY OF THE DEPARTMENT'S SPUTUM EXAMINATIONS.

The question has now and then been raised as to how accurate are the results of sputum examinations made by the Department of Health's Diagnosis Laboratory.

Two years ago sputa examined by the Diagnosis Laboratory were, for a time, regularly sent to the Research Laboratory, where they were re-examined by refined laboratory methods too time-consuming to be employed in the routine examination at the Diagnosis Laboratory. Only about five per cent. more positive results were obtained by the use of the more elaborate technique.

A similar comparative test was carried on this year. Up to date, a total of 151 specimens of sputum have been re-examined by the Research Laboratory, and only an additional 2 per cent. of positive results have been obtained.

In this connection the following gratifying letter, which speaks for itself, may be of interest:

"DR. HAVEN EMERSON,

"Deputy Commissioner of Health:

"My dear Dr. Emerson—In response to Dr. Goldwater's request transmitted to me by you, I have investigated the method of dealing with the specimens of sputum sent to the Board of Health Laboratory for examination for tubercle bacilli.

"As the result of Dr. Ewing Taylor's very courteous and complete demonstration to me of the methods used in recording, staining and examining the specimens and reporting the results, I have come to the conclusion that the technique employed is excellent throughout and that the entire work is systematized in such a way as to insure the greatest possible accuracy.

"Very truly yours,

"KARL M. VOGEL, M. D.,

"Assistant Professor of Clinical Pathology, College of Physicians and Surgeons, Columbia University; Clinical Pathologist, St. Luke's Hospital."

DR. OBSERVER'S OBSERVATIONS.

Following the receipt of a postal card signed DR. OBSERVER, suggesting that the increase in the number of reported cases of diphtheria in this city in 1914 was "probably in a great measure due to the change of policy, adopted during the last commissioner's regime, when the Health Department abolished the custom of taking cultures and giving antitoxin, and not to the trial cultures as noted in the Bulletin of June 20th," an investigation was begun to discover the influence of the factors mentioned by our critic.

Analyzing all the cases of diphtheria reported during the past seven years, and remembering that the injection of antitoxin by Department inspectors in persons ill with diphtheria was discontinued in February, 1913, we find that the year 1913, while

showing somewhat higher figures for diphtheria than 1912, was still distinctly below the average for the past seven years. Moreover, a careful study of the figures reveals that the second quarter of 1913, i. e., directly after the change in procedure mentioned by our critic, had a smaller number of cases than the first quarter. In 1912 the reverse was true. Altogether it will be seen that the figures contradict Dr. Observer's opinion as to the influence of the discontinuance of antitoxin administration by Health Department inspectors.

The discontinuance, by Department of Health inspectors, of antitoxin administration to patients ill with diphtheria in no way affected the free distribution of antitoxin for administration by private physicians. Moreover, with this change in procedure, the Department at once established antitoxin stations in several all-night drug stores in the city, so that the remedy could be obtained at all hours of the night. That the present procedure is meeting with the approval of the physicians of this city is indicated by the fact that Dr. Observer's criticism is practically the only one received since it was inaugurated.

It may not be amiss to point out that the statement criticized by Dr. Observer appeared in a number of the Weekly Bulletin which asked all correspondents please to sign their names and not to make anonymous complaints.

A LESSON IN "COMPULSORY" PHYSICAL EXAMINATIONS.

A carefully matured plan for the periodic examination of employees of the Department of Health, adopted in the belief that such examinations would prevent the development of disease, promote health, add to the sense of well-being of those examined and, perhaps, ultimately reduce the total period of absences from the department on sick leave, was put into operation in May, as announced in a previous number of the Bulletin.

Among the first three hundred employees of the department to be examined, there were found:

Six errors of nutrition, based on decided variations from normal weight in proportion to height.

Seven decided defects of hearing, and one instance of suppurating otitis.

Six instances of uncorrected defects of vision.

Ten instances of marked disorders of digestion, chiefly such as affect sedentary workers.

Thirteen instances of defective teeth needing dental care.

Fifteen minor defects of the tonsils, throat and upper respiratory tract.

Twenty instances of appreciable defects of heart action, among which appeared five needing particular precautions in regard to their manner of living.

Fourteen instances of pulmonary defect of which three were healed lesions resulting from previous tuberculosis, two were instances of early processes put under medical care, and the remainder were minor and temporary affections.

Two instances of anemia needing medical care.

Two cases of high blood pressure needing medical treatment or alteration in manner of living or personal habits, and associated therewith errors in kidney functions.

The following minor variations from normal were found, which did not appear to affect the health of the individual, namely:

Palpable spleen, three cases; palpable kidney, one case; enlarged thyroid, one case; subacute skin affection, one instance.

Alimentary glycosuria was found in one case, but on re-examination had disappeared.

A moderate albuminuria was found in a number of cases but not to an extent to indicate pathological condition except in the two cases above referred to, which were associated with arterial hypertension.

One severe disorder of the nervous system was found, which should respond to appropriate medical treatment and be permanently relieved.

At the outset, employees were assured that these physical examinations were intended, primarily, for their benefit, and the Commissioner gave his pledge that the health records of employees would be treated with strict professional reserve, would not be made accessible to Directors of Bureaus, and would not be used in any way to affect injuriously the efficiency ratings of employees.

While these examinations were officially instituted, and while the Commissioner set an example to the employees of the department by promptly applying for examination in the regular way, the examinations were declared to be entirely voluntary, and employees have been permitted to follow their own preferences in deciding whether to submit to examination or not.

It is hoped that the summary here presented of the items of interest which appeared on reviewing the records of the first three hundred physical examinations made, will convince those who have been doubtful of the feasibility of carrying out a plan of this kind, or fearful of its depressing mental effect on the subjects, that science and art of medicine find in this work a proper and a fruitful field. The experience of the department, if typical, shows that, among any group of active workers in average health, there is likely to be found a considerable proportion who, without being cognizant of the fact, are in need of, and can be materially benefited by, medical advice and aid. To present this advice and to offer this aid, in a manner befitting the need and the occasion, is a task which may well be entrusted to physicians of proper professional training, a keen personal sympathies and enlightened social understanding.

It is believed by the department that examinations of this kind represent an instrument for good and should be generally used. Those who have looked upon this experimental work with suspicion, dreading the day when physical examinations would be forced upon unwilling subjects, may quiet their fears. The department urges no compulsion in this matter, save the compulsion of common sense, but the time will surely come when every intelligent member of society, having been made aware of the value of periodic physical examination, will seek the protection of this beneficent procedure for his own benefit.

THE ADVISORY COUNCIL AT WORK.

As previously announced in the Weekly Bulletin, the Commissioner of Health soon after taking office organized an Advisory Council in order to effect closer contact with citizens of diverse views and interests, and secure well-informed criticism and stimulating suggestions from experts in public health matters. Invitations to serve on the Advisory Council were extended to representative men and women prominent in various phases of public health activity, and were in practically every instance accepted. One or two declined with regret, owing to press of important work elsewhere.

At the first general meeting of the Advisory Council request was made for suggestions as to new lines of work by the Department of Health, and free discussion and criticism were invited. Subsequently, seven committees were organized, as follows: Committee on Records, Committee on Laboratories, Committee on Child Hygiene, Committee on Infectious Diseases, Committee on Foods and Drugs, Committee on Sanitation and Committee on Public Health Education.

The first committee to organize was that on Foods and Drugs, under the chairmanship of Mr. Bailey B. Burritt, of the Association for Improving the Condition of the Poor. Several meetings have already been held and in a number of instances action of the Department of Health has been based on conclusions reached in the committee's discussions. Among these are: Regulations for the manufacture of ice cream and for the production, distribution and sale of milk; control of saccharin in food and drink; amendment of section 182 of the sanitary code with reference to the sale of habit-forming drugs; amendment of section 66a to strengthen the control over the sale of wood alcohol; amendment of section 66 regarding the sale of poisonous drugs when in medicinal compounds; amendment of section 59 regarding permits for the sale of soda water; amendment of section 45 to render the text complete; amendment of section 69a to make it conform with the state pharmacy law; regulations defining the scope of section 46 regarding the protection of food from dirt and flies. A subcommittee is at present studying the problem of disposal of milk bottles recovered from the public dump, and the question of publishing, by name of dealer, the bacterial count of milk supplies.

The Committee on Infectious Diseases under the chairmanship of Dr. John H. Huddleston has given valuable support to various measures and procedures which bring the Department into contact with the practicing physician. Among these has been the removal of tuberculosis cases from the active file; the attitude of the Department of Health toward glanders and rabies; the inclusion of epidemic cerebrospinal meningitis and poliomyelitis among diseases needing burial within twenty-four hours after death; the administration of Pasteur treatment for patients under the care of private physicians, etc.

The Committee on Records organized under the chairmanship of Dr. Louis I. Dublin and appointed a subcommittee to study and report on increasing the efficiency and scope of the work of the Bureau of Records. This report is now in the hands of the Commissioner, and in due course will reach the Mayor and the Board of Estimate and Apportionment.

The Committee on Public Health Education organized with Dr. Lee K. Frankel as chairman and Miss F. Elisabeth Crowell as Secretary. Valuable suggestions were made for increasing the value of the publicity and educational work of the Department. An editorial subcommittee is cooperating with the Director of the Bureau of Public Health Education in the preparation of leaflets, bulletins, etc.

The Committee on Sanitation under the chairmanship of Professor C. E. A. Winslow, held a number of conferences on river bathing, "Mikveh" pools, and bathing beaches. Other matters discussed were questions relating to smoke prosecutions; to the issuance of permits for keeping chickens; the control of dumps; the advisability of disinfecting rags and second-hand clothing, etc.

The Committee on Child Hygiene, under the chairmanship of Dr. Philip Van Ingen, is to meet on August 11th to consider and assign to subcommittees for report a number of matters of considerable importance.

A Committee on Office Administration is now being formed to study problems connected with office routine. It is believed that the assistance thus afforded will do much to increase the efficiency of the office work of the department.

The members of the Advisory Council to date are as follows:

CRUELTY TO ANIMALS.

Apropos of those, fortunately few, who criticize the muzzling law for dogs in this city on the ground that muzzling tortures the animals, our readers will appreciate the following lines by one whose deep human sympathy is unquestioned:

Antivivisectionist Mercy.

That counterpane that covers motherhood
 Too often still becomes a shroud entwined:
 "Let not this sacred act demand our blood,
 But spare the dog and all his sacred kind."

Our little children fall a hideous prey
 To childhood's scourge, and broken, bent, they lie:
 "Blot out this epidemic from the day,
 But spare the monkey and the stable-fly."

The White Plague stalks abroad with poisoned breath
 And leaves men prostrate like a broken twig:
 "Oh, spare us from this poignant, living death,
 But do not touch the precious guinea-pig."

From overseas the pest comes like a ghost,
 And settles grinning on our household mats:
 "O, save us from this devastating host,
 But spare the poor mosquitos and the rats."

A growth malign, with tentacles a score,
 The fairest and most useful friends will claim:
 "Oh! let us suffer from this scourge no more,
 But spare the mouse, we ask, in Mercy's name."

VOUCHERS RECEIVED IN DEPARTMENT OF FINANCE, FRIDAY, AUGUST 14, 1914.

A statement is herewith submitted of all vouchers filed in the Department of Finance on this date, in which is shown the Department of Finance voucher number, the date of the invoices or the registered number of the contract, the name of the payee and the amount of the claim. Where two or more bills are embraced in one voucher the date of the earliest is given, excepting that when such vouchers are submitted under a contract the registered number of the contract is shown instead.

If the vouchers are found to be correct and properly payable to the respective claimants it will be my endeavor to have the warrants therefor made ready for payment within the next seven days.

If any claimant within the time stated does not receive his warrant or a written notice in relation thereto then written or verbal inquiry may be made at this office, using the Department of Finance voucher number as a ready means of reference.

WILLIAM A. PRENDERGAST, Comptroller.

Fourth Avenue and Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within the City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 3. Beginning at a point under Montague Street in the Borough of Brooklyn about seventy-five (75) feet west of the westerly line of Clinton Street, and extending thence eastwardly under Montague Street and continuing southeastwardly under Fulton Street and eastwardly under private property, Willoughby Street and again under private property to a connection with the Fourth Avenue Rapid Transit Railroad in Flatbush Avenue Extension at Prince Street; with a station in Montague Street between Clinton Street and Court Street.

Also beginning at a point under Fulton Street in the Borough of Brooklyn about one hundred and forty-eight (148) feet south of the southerly line of Clark Street, and extending thence southeastwardly under Fulton Street to a connection with the Brooklyn-Manhattan Rapid Transit Railroad subway under Fulton Street at Willoughby Street; with a station at Borough Hall.

The general plan of construction calls for a subsurface railroad in two parts, each part having two tracks.

The Contractor will not be required to provide or place permanent track, ventilating apparatus or station finish.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction will be generally by tunneling and partly by excavation from the surface.

Bidders must examine the form of contract and the specifications and the contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

The attention of bidders is especially directed to the contract requirements as to the method of tunneling, the Contractor's responsibility for damage to property, and the damages for non-completion within the time prescribed.

A full description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the form of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commissioner, No. 154 Nassau Street, Borough of Manhattan, New York City. The form of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this invitation.

Partial payments to the Contractor will be made as the work proceeds.

The Contractor must complete the work within thirty-six (36) months from the delivery of the contract.

At the time of delivery of the contract, the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of three hundred thousand (\$300,000) dollars. As further security ten (10) per centum of the amounts certified from time to time to be due the Contractor will be deducted.

Sealed bids or proposals will be received at the office of the Commissioner at No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 21st day of August, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commissioner, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commissioner.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City for damages or anticipated profit or loss of profit on account of any excess or deficiency, absolute or relative, in the same.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 33, Section No. 3," and must be delivered to the Commissioner or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for the sum of fifty thousand dollars (\$50,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn.

The award of the contract will be made as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with. The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC. WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, purchase or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he create any tenancy or other estate in the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall result in the forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall be itself a breach of the above conditions of sale.

The sale will be as of the condition of the property on the date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss, which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several materials stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be enclosed in the envelope containing the bid or estimate, but should be either enclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
