By Alderman Duffy—

Whereas, The recent enforcement, by the constituted authorities, of laws which, by reason of more enlightened, reasonable and considerate ideas of humanity, had become to be viewed as subversive of the liberty to individual citizens in a government, Democratic in form, and coercive to sectarian and so-called religious exactments, has excited the community of this the most cosmopolitan city of the known world, subjecting the poorest of citizens to the most inconvenience by loss of the means for their subsistence;

Therefore this Common Council of the City of New York, by resolution, herewith express their earnest and severe deprecation at the folly of the State Legislature in the re-enactment by codification of laws which custom and human progress had caused to view as most puritanical and obsolete. And we therefore ask the Legislature to assemble (which fortunately will be Democratic) to repeal at the earliest possible opportunity the odious Sabbatarian clauses in the "Penal Code," that the citizens of this the "Excelsior State" may enjoy the privileges guaranteed by "Magna Charta" unfettered by laws originating in religious fanaticism.

The President laid before the Board the following communication from the Commissioner of Public Works:

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET,
NEW YORK, December 4, 1882.

To the Honorable Board of Aldermen:

GENTLEMEN—I have received from your Board the preamble and resolution adopted November 21, 1882, calling attention to the laying of steam-pipes in the lower portions of this city, and the complaints occasioned thereby, and requesting the Commissioner of Public Works to investigate and report to the Board at his earliest convenience if, in his opinion, it is not practicable to lay the pipes of the Steam-Hearing Companies in the streets, in the lower part of the city, during the night time, and by covering the excavations during the day time, prevent the serious interruption to vehicle travel now caused by the present method of pipe-laying by these companies; and also, if he finds this impracticable, to suggest or adopt some other means of remedying the evil complained of.

In reply, I desire to call the attention of your Honorable Board to the fact that you have conferred upon three steam companies the right to occupy such space as may be necessary to lay their pipes under the pavements within the lines of every public street or avenue in the city, and that two separate companies are now engaged in trenching the streets in accordance with the franchises granted by your Board.

Notwithstanding the numerous efforts made on the part of the Department of Public Works, it has been found impossible, with the extensive privileges they enjoy, to compel the companies to co-operate in this work, or to restrict each company permanently within respective sections of the city.

In viewing this entire subject your attention is directed to the difficulties to be contended with in laying two systems of large and heavy pipes in crowded and narrow streets, through networks of sewers, water pipes, gas pipes, and other underground structures, the location of which it is frequently impossible to ascertain until excavation is made; in fact in many instances sufficient space cannot be found for both companies, each of which generally requires trenches 10 feet deep and 6 feet wide. Additional annoyance has resulted from the efforts made by the companies to secure the best position.

Interruption to public travel and other inconveniences are inseparable from such work. Ever since the franchises have been granted to the companies by the Common Council, and since they have begun to place their pipes (five miles of trench have been excavated and one hundred connections with houses made within the last year) this Department has most vigilantly and energetically used, and will continue to use, all its authority to keep such inconveniences within the smallest possible limit, and in every way to protect the public interests in the prosecution of these works.

Stringent rules have been adopted, a copy of which is herewith transmitted; * competent and faithful Inspectors are employed and the services of an able engineer has been devoted exclusively to the superintendence of the work in protection of the interests of the public.

If these companies had been granted experimental permits in separate and limited portions of the city instead of franchises by which the Department of Public Works is expected to grant permits to both companies for any portion thereof, the evils referred to in the resolution would have been of a much less serious nature.

Both companies have been notified that work must cease on or before the 15th of this month and therefore after that date no further interruption to public travel is to be expected before next spring, except in cases of necessary repairs.

No provision can be found in the franchises of the New York Steam Company or the United States Heating and Power Company (the two companies at present in operation) that would authorize the Department to compel them to work exclusively at night; they claim that such a method is impracticable, and it would seem that such is the case. In conclusion I would state that I am unaware that any work of a similar character and magnitude has ever been carried on in this city continuously day and night; yet this manner of procedure would materially expedite the final completion.

If therefore the Common Council, from whom the companies derive their privileges, will so authorize, the Department will endeavor by the enforcement of such a provision to relieve the public as far as possible from the present distressing state of affairs.

Very respectfully,

FRED. H. HAMLIN,
Deputy and Acting Commissioner of Public Works.

Which was ordered on file.

MOTIONS AND RESOLUTIONS RESUMED.

By Alderman McAvoy—

Whereas, The growth of the city on the west side requires that additional railroad facilities should be furnished to accommodate the increasing population of that part of the city contiguous to or bordering on the line of the Ninth Avenue Railroad; and

Whereas, The resolutions adopted by the Common Council on or about the 28th day of December, 1853, granting unto James Murphy, William Radford and Miner C. Story, their assigns and associates, the right and privilege to construct and operate the said railroad, contained a provision that said railroad should be continued from Fifty-first street along the Ninth avenue to the Bloomingdale road; thence along the Bloomingdale road to the Tenth avenue; thence along the Tenth avenue to the Harlem river, whenever required by the Common Council, and as soon as and as fast as said avenues are graded; and

Whereas, The Ninth Avenue Railroad Company has only constructed the railroad which it is authorized to build and operate as far northerly as the junction of Ninth avenue and Sixty-fourth street, or thereabouts; and

Whereas, The proper accommodation of the public demands that said railroad be continued and extended upon the route mentioned in the said original resolution, adopted as aforesaid on or about the said 28th day of December, 1853; therefore be it

Resolved, That the Ninth Avenue Railroad Company be and it is hereby required as soon as practicable to continue and extend its railroad from its present terminus in Ninth avenue at or near Sixty-fourth street to the Grand Boulevard (formerly called the Bloomingdale road); thence along the said Boulevard to the Tenth avenue; and thence along the Tenth avenue to One Hundred and Twenty-fifth street, and that when Tenth avenue shall be properly regulated and graded for the convenient operation of a horse railroad, that said railroad as soon thereafter as public convenience may require shall be further extended and continued from time to time along Tenth avenue to the Harlem river.

The President put the question whether the Board would agree with said resolution.

Which was decided in the affirmative by the following vote, viz.:

Affirmative—The President, Aldermen Brady, Duffy, Finck, Fitzpatrick, Fleishbom, Hall, Hawes, Keenan, Kenney, Levy, Martin, McAvoy, McClave, McLean, O'Neil, Seaman, Strack, and Wells—19.

* COPY OF RULES AND REGULATIONS GOVERNING THE OPERATIONS OF STEAM COMPANIES.

The work to be done by said company to be such as to strictly conform to all the ordinances of the City of New York. The trenches for the main pipes and branches shall be properly protected and laid so as not to interrupt the business traffic of the street more than is absolutely necessary: The pipes and appurtenances to be laid so as not to interfere with the water-mains or service connections therewith, or with the main sewer or sewer connections, and so as not to interfere with the connections in said streets yet to be made with the sewers or water-mains. The trench, after the pipes and appurtenances are laid, to be filled with clean earth, well and thoroughly rammed while being put in, and the pavement immediately replaced and kept in order for the period of one year after said pipes and appurtenances are laid. All to be done at the expense of said companies.

The steam companies shall place sufficient and proper guards for the prevention of accidents, and put up and keep at night suitable and sufficient lights; and they shall indemnify and save harmless the City of New York, their officers, agents and servants, against and from all damages, costs and expenses which they may suffer, or to which they may be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performing of the work. And shall immediately remove any obstructions when ordered so to do by the Commissioner of Public Works. If in the excavation for the pipes and appurtenances a Croton main or sewer or other impediment is uncovered or interfered with, no further work shall be allowed at such point until the plan for the protection of the water main or sewer or for the change necessary to clear the impediment is prepared, submitted to and approved by the Commissioner of Public Works. All of the work, from the time the excavation is commenced to the time the pavement is relaid, is to be under the supervision of Inspectors, who shall be appointed by and receive their instructions from the Commissioner of Public Works, and whose salaries shall be paid by the said steam companies. The work shall be carried on at such places and for such distances in each of the streets as the Commissioner of Public Works shall from time to time designate; but no street shall be opened without a special permit in writing from the Commissioner of Public Works.

The sand from trenches must not be placed outside of the street piling, but removed immediately and replaced in the trenches over the pipes, etc. where laid.

1. Pipes shall not be laid by any steam company at points where the pipes of one company intersect and cross those of another until three days after a written notice shall have been served at the office of the latter company, which three days is to be used for the making and agreeing upon a joint plan for such intersection by the engineers of the two companies, and in case the party so notified fails to respond to the notice by endeavoring to agree upon a plan, the company so giving notice is to be at liberty to proceed and lay its pipes at the said point of intersection in the same manner as they could and might do if these directions had not been given. In case the engineers meet and cannot, within three days, agree upon a joint plan for such intersection, then the points of difference shall be referred to the Engineer of the Department of Public Works, whose decision shall be final and conclusive upon both companies.

This is to apply to openings already made at such intersecting points, and in future no company shall open the street at any such intersecting point without first notifying the others in writing at least forty-eight hours before the opening shall be made.

2. The following general rules are to be observed at such intersecting points:

(a). If practicable, at reasonable expense, one company will run its pipes over those of the other, each using its special instruction.

(b). If there is not sufficient head room for the above-named form of construction, the pipes of the two companies shall be laid in a joint box conduit or vault, one set of pipes passing under the other.

(c). In order to reduce head room in a joint box containing cross pipes belonging to the two companies, when it is necessary, one pipe shall be curved over the other, except that if the engineer of either company insists upon it, the curving shall be made in the pipes of both companies, one-half the curvature in each; and in cases where the space is very contracted, the pipes of both companies are to be flattened to reduce the vertical height.

3. In reference to the positions of the crossing pipes, if the engineers of the two companies both want the same position and cannot agree, one company shall alternately take the upper and lower position.

4. Conduits, boxes, or vaults jointly occupied by the two companies shall not be opened or disturbed by either company without notice in writing to the other, unless in case of leaks, breakage, or other serious accident, in which case also written notice is to be immediately given.

6. In making provision to permit the passage of the main steam and return water-pipes of the said companies sufficient room is to be left when practicable for each of the said companies, to run an additional pipe at the side of the others of a diameter not exceeding the largest pipe already laid.

7. In case of shifting water-pipes or other obstructions to accommodate both parties at intersecting points, the expense thereof shall be equally borne by two companies, except that:

8. In Wall street, from Broadway to New street, the expense of shifting water-pipes, if it becomes necessary, as well as any damage that may result therefrom, shall be borne by the New York Steam Company.

9. Direct connections to the outlets now in position of the main steam-pipe of the New York Steam Company on Broadway are to be preserved, provided the American Heating and Power Company, acting under the franchise granted to the United States Heating and Power Company, meets with no serious obstructions to running its mains above said connections; and the small service return and connecting pipes of one company are not to be put in positions to embarrass the other company.

10. A conveying main of large capacity of either company shall have reasonable preference in location over a smaller distributing main and over the return water and small steam and service pipe of the other company. In general, the steam main shall have preference in determining the distribution of the vertical height, the return water and smaller steam and service pipes to be diverted when practicable to a different grade, or to the sides of the main steam pipes, to enable the latter to cross without curves, bends, or flattened sections.

11. In the construction of any special arrangement at any crossing the excess of expense over the cost of the ordinary construction at such crossing shall be equally divided between the two companies, except that the cost of any change of the pipes of either company already in place shall be paid by the company requesting such change.

12. No cut shall be opened for a distance greater than one hundred feet beyond the point to which the pipe is laid.

13. In case of violation of any of these rules, or the conditions of any permit, or in case of any unforeseen or unexpected contingency, the General Inspector is authorized to stop the work, whereupon the company will immediately desist therefrom.

14. Such additional precautions shall be taken as may at any time be required by the General Inspector, so as to secure easy access for fire engines at any point where access is obstructed in consequence of any work being done.

15. The work shall be so prosecuted that at no time in any one street shall the distance of the trench opened be greater than one block and one intersection, but the distance opened at any time shall not be greater than two hundred and sixty feet.

16. Wherever required the earth excavated from any trench shall be immediately removed from the line of the work, the same to be replaced when the refilling shall be done.

17. Whenever, in the opinion of the General Inspector it shall be necessary, the force employed shall be increased, and work done day and night in order to secure the proper fulfillment of any of the rules and regulations of this Department.

18. Approaches shall be constructed in such manner and of such material, and at such points as may be required to relieve and facilitate public travel and business along the line of work.

19. The refilling shall be compacted by thoroughly ramming in layers not more than six inches in thickness, and all trenches shall be thoroughly flushed at such times and in such manner as may be directed.

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION,
NEW YORK, November 24, 1882.

To the Honorable the Board of Estimate and Apportionment :

GENTLEMEN—We enclose herewith a copy of a letter received by us from the Supervisor of the CITY RECORD, and respectfully request that you will have the kindness to transfer from unexpended balances of appropriations heretofore made, if any such exists, the sum of six thousand dollars to the appropriation for Printing, Stationery, and Blank Books, and the further sum of nine thousand dollars, to the appropriation for Printing the CITY RECORD during the year 1882.

The causes which lead to such deficiencies are known to you, and would seem to have been almost beyond the power of the Board or Supervisor of the CITY RECORD, with the appropriations made for this year, to have prevented such deficiencies from arising ; and we presume it is unnecessary to add anything to the statements of the Supervisor in regard to the necessity or propriety of such transfers.

We are, gentlemen, yours respectfully

W. R. GRACE, Mayor.

FRED. H. HAMLIN, Deputy and Acting Commissioner of Public Works.

GEORGE P. ANDREWS, Counsel to the Corporation.

OFFICE OF THE CITY RECORD, NO. 2 CITY HALL,
NEW YORK, November 21, 1882.

Hon. WILLIAM R. GRACE, Hon. GEORGE P. ANDREWS, Hon. HUBERT O. THOMPSON :

GENTLEMEN—I beg to call your attention to the fact that the appropriation for "Printing, Stationery and Blank Books, 1882," and for "Publication of the CITY RECORD, 1882," will be insufficient for their respective purposes ; and I therefore respectfully suggest that you make application to the Board of Estimate and Apportionment for such transfers as will supply the deficiencies.

Several Departments and Bureaus of the City Government are now suffering great inconvenience for want of stationery, and some of the Courts will shortly come to a stand-still for lack of necessary blanks, etc.

I believe a transfer of \$6,000 to the appropriation for "Printing, Stationery and Blank Books" will bridge over the interval before the appropriation of 1883 becomes available.

Bids were recently invited for printing the CITY RECORD, and the contract awarded to the lowest bidder. At the prices thus fixed, and carefully estimating the quantity of composition, I consider a transfer of \$9,000 will be needed to cover the amount called for by the contract during the current year.

Very respectfully,

THOMAS COSTIGAN, Supervisor CITY RECORD.

Which was referred to the Comptroller.

The Chairman presented the following :

NO. 44 EAST 126TH STREET, NEW YORK,
December 3, 1882.

Hon. W. R. GRACE, Chairman of the Board of Estimate and Apportionment :

The committee have met to consider the subject, and have directed me to communicate with you to request that we may have a hearing before the Board of Estimate and Apportionment.

I therefore request that we may have such a hearing, and further, that I may be notified when the audience may be had.

Very respectfully,

A. N. BROCKWAY, M. D., Chairman.

Which was laid over.

On motion, the Board adjourned.

THOS. B. ASTEN, Secretary.

No proposal will be considered unless accompanied by this consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that, if the contract be awarded under that proposal, they will, on its being so awarded, become bound as sureties in the estimated amount of fifteen hundred dollars for its faithful performance, which consent must be verified by the justification of each of the persons signing the same for double the amount of surety required. The sufficiency of such security to be approved by the Comptroller.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the national banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Groceries, Dry Goods, and Sundries," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the head of said Department and read.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates if deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.
Delivery will be required to be made from time to time, at such times and in such quantities as may be directed by the said Department.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the estimated amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested,

it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the national banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same respectively, at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the prices for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate, in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, issued on the completion of the contract, or from time to time, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.
