COMMISSIONERS OF THE SINKING FUND OF THE CITY OF NEW YORK.

Proceedings of the Commissioners of the Sinking Fund, at a Meeting Held in Room 16, City Hall, at 11 O'Clock a. m., on Wednesday, January 22, 1908.

Present at roll call—George B. McClellan, Mayor; N. Taylor Phillips, Deputy Comptroller; James J. Martin, Chamberlain, and Patrick F. McGowan, President, Board of Aldermen.

The Comptroller and the Chairman Finance Committee, Board of Aldermen, arrived later (see notes).

The minutes of the meetings held January 8 and 10, 1908, were approved as printed.

The Deputy Comptroller presented the following report and offered the following resolution relative to an amendment to resolution, authorizing a renewal of the lease to the City, of premises at Stone and East New York avenues, Borough of Brooklyn, for the use of the Board of Education (see Minutes 1907, page 1328):

Hon. HERMAN A. METZ, Comptroller:

January 14, 1908.

SIR—The Commissioners of the Sinking Fund at a meeting held December 18, 1907, upon the request of the Board of Education, adopted a resolution granting the renewal of a lease to the City of premises at Stone and East New York avenues, Borough of Brooklyn, as an annex to Public School 84, on a month to month basis, for a period not to exceed twelve months from December 9, 1907, at a rental of \$30 per month, the name of the lessor being given as Antonio Scocca.

The Board of Education at a meeting held January 8, 1908, requested the Commissioners of the Sinking Fund to amend their resolution adopted December 18, 1907, by striking out the lessor's name in said resolution, and inserting in lieu thereof the words "Lessors, Estate of Antonio Scocca, D. Rubbo, Administrator."

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. Metz, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held December 18, 1907, approving of and consenting to the execution, by the Board of Education, of a renewal of the lease to the City from Antonio Scocca, of premises at Stone and East New York avenues, Borough of Brooklyn, be and the same is hereby amended by substituting as the name of the lessors, "Estate of Antonio Scocca, D. Rubbo, Administrator," in place of "Antonio Scocca."

The report was accepted and the resolution unanimously adopted.

The Deputy Comptroller presented the following report and offered the following resolution, relative to an amendment to resolution, authorizing a lease of premises at No. 360 West One Hundred and Twenty-fifth street, Borough of Manhattan, for use of the Police Department (see Minutes 1907, page 1281):

Hon. HERMAN A. METZ, Comptroller:

January 15, 1908.

SIR—The Commissioners of the Sinking Fund at a meeting held December 4, 1907, acting on the request of the Commissioner of the Police Department, adopted a resolution authorizing a lease of Room 8 on the second floor of the Picken Building, No. 360 West One Hundred and Twenty-fifth street, Borough of Manhattan, for the use of the Police Department, for a period of one year from December 1, 1907, at an annual rental of \$600, with the privilege of renewal for another year upon the same terms and conditions. The name of the lessor as recited in the resolution was William H. Picken.

This office has been informed that the building has been sold and that it will be necessary to amend the resolution adopted December 4, 1907, in so far as to substitute the names of J. Allen Townsend and Edward S. Townsend, in place of William H. Picken.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund amend the resolution adopted December 4, 1907, by inserting the words J. Allen Townsend and Edward S. Townsend, in place of William H. Picken, as lessor.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. Metz, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held December 4, 1907, authorizing a lease to the City, from William H. Picken, of premises at No. 360 West One Hundred and Twenty-fifth street, Borough of Manhattan, for use of the Police Department, be and the same is hereby amended by substituting J. Allen Townsend and Edward S. Townsend as the names of the lessors, in place of William H. Picken.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Commissioner of Licenses, relative to a renewal of the lease of premises at No. 277 Broadway, Borough of Manhattan:

NEW YORK, January 7, 1908.

Commissioners of the Sinking Fund, No. 280 Broadway, Manhattan:

GENTLEMEN—Application is hereby made for the renewal of the lease of the rooms occupied by this Department, for the year May 1, 1908, to May 1, 1909.

Respectfully,

JOHN N. BOGART, Commissioner of Licenses.

In connection therewith the Comptroller presented the following report and offered the following resolution:

January 14, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund approve of the request of the Commissioner of Licenses and authorize a renewal of the lease for a term of one year from May 1, 1908, to May 1, 1909, and on the same terms and conditions as contained in the existing lease.

Respectfully submitted for approval,

M. J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. Metz, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of Rooms Nos. 807, 808, 809 and 810, on the eighth floor of the Broadway-Chambers Building, No. 277 Broadway, Borough of Manhattan, for use of the Commissioner of Licenses, for a period of one year, from May 1, 1908, at an annual rental of three thousand two hundred and eighteen dollars (\$3,218), payable quarterly, and upon the same terms and conditions as contained in the existing lease; lessor, Edward R. Andrews as trustee of the estate of Sarah Hannah Andrews, deceased; rent payable to Frederick Southack and Alwyn Ball, Jr., agents; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the President of the Borough of The Bronx relative to the renewal of the leases of the following premises:

1. Westerly side of White Plains avenue, opposite Logan street.
2. Westerly side of White Plains avenue, opposite Logan street.
3. Corner of Westchester and Green avenues.
4. No. 1161 East One Hundred and Sixty-ninth street.

December 17, 1907.

Commissioners of the Sinking Fund of the City of New York, Room 12, Stewart Building:

GENTLEMEN—The leases of the following described premises in this Borough will expire on December 31, 1907:

1. Westerly side of White Plains avenue, opposite Logan street, occupied by the Bureau of Sewers at a rental per annum..... \$420 00
2. Westerly side of White Plains avenue, opposite Logan street, occupied by the Bureau of Highways at a rental per annum..... 420 00

4. No. 1161 East One Hundred and Sixty-ninth street, occupied by the Bureau of Sewers at a rental per annum..... 420 00

I respectfully request that the Commissioners of the Sinking Fund authorize the renewal of the above named leases under the same terms and conditions as in the existing leases.

Yours truly,

LOUIS F. HAFFEN,
President of the Borough of The Bronx.

In connection therewith the Comptroller presented the following report and offered the following resolutions:

January 9, 1908.

The rents charged being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund authorize renewals of the following leases upon the same terms and conditions as contained in the existing leases:

1. The store floor, basement and part of cellar of the building on the westerly side of White Plains avenue, opposite Logan street, Borough of The Bronx, for a period of one year, from January 1, 1908, at an annual rental of \$420. Lessor, Marcella M. Oakes.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of the store floor, basement and part of the cellar of the building on the westerly side of White Plains avenue, opposite Logan street, Borough of The Bronx, for the use of the President of the Borough of The Bronx, for a period of one year from January 1, 1908, at an annual rental of four hundred and twenty dollars (\$420), and upon the same terms and conditions as contained in the existing lease; lessor, Marcella M. Oakes; the Commissioners of

the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of the store and rear tenement on the westerly side of White Plains avenue, opposite Logan street, Borough of The Bronx, for use of the President of the Borough of The Bronx, for a period of one year from January 1, 1908, at an annual rental of four hundred and twenty dollars (\$420), and upon the same terms and conditions as contained in the existing lease; lessor, Marcella M. Oakes; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolutions severally unanimously adopted.

The following communication was received from the Board of Assessors, relative to a renewal of the lease of premises at No. 320 Broadway, Borough of Manhattan:

December 24, 1907.

N. TAYLOR PHILLIPS, Esq., *Secretary, Sinking Fund Commission:*

DEAR SIR—The Board of Assessors hereby respectfully recommends and requests a renewal of the lease on the offices now occupied by it at No. 320 Broadway, Borough of Manhattan, for two years from May 1, 1908, when the present term expires.

We are in receipt of a letter from Messrs. D. Birdsall & Co., of No. 317 Broadway, requesting to be informed as to our intention concerning the renewal of the lease, and we have replied that this request for renewal has been made to you.

These quarters are very well adapted for the business of the office, and are fitted up for that purpose. We are informed and believe that the rental paid is low as compared with that paid for similar space in this part of the City.

Respectfully,

ANTONIO ZUCCA, President.

In connection therewith the Comptroller presented the following report and offered the following resolution:

January 3, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund authorize a renewal of the lease of rooms 1401-1406, 1419 and 1420 in the building No. 320 Broadway, Borough of Manhattan, for a period of two years from May 1, 1908, at an annual rental of \$4,000, and upon the same terms and conditions as contained in the existing lease. Lessors, D. Birdsall & Co.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of rooms 1401, 1402, 1403, 1404, 1405, 1406, 1419 and 1420, in the building No. 320 Broadway, Borough of Manhattan, for use of the Board of Assessors, for a period of two years from May 1, 1908, at an annual rental of four thousand dollars (\$4,000), and on the same terms and conditions as contained in the existing lease; lessors, D. Birdsall & Co.; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable, and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

At this point the Chairman of the Finance Committee, Board of Aldermen, arrived and thereafter participated in the meeting.

The Deputy Comptroller presented the following report and offered the following resolution, relative to the lease of premises No. 317 Furman street, Borough of Brooklyn, for the use of the Public Service Commission:

January 8, 1908.

Hon. HERMAN A. METZ, *Comptroller:*

SIR—The Public Service Commission in a communication, dated January 4, 1908, transmits a lease for premises 317 Furman street, Brooklyn, which has been executed by the officers of the Commission in accordance with action taken by it on January 3.

The lease, which is attached to the communication, executed by William A. White as owner, and the Public Service Commission as lessee, states that the Public Service Commission hires from Mr. White, premises front and rear in the property, known as 317 Furman street, for use as office, bath and dressing rooms, for a period of one year from the first day of January, 1908, ending December 31, 1908, at a monthly rental of \$13, payable in advance in each month. It also contains a clause that the lease may be terminated by either party on giving sixty days' notice in writing in advance of the intention so to terminate. It also gives the privilege to the Public Service Commission to remove and retain for its own use the fixtures mentioned in the statement annexed to the former lease of the same premises, which was dated December 22, 1904, provided, however, that such removal shall be effected without unnecessary damages to the premises hereby leased. All the other terms and conditions of the lease are in accordance with the general form of leases which are entered into between landlord and tenant. I presume that the use of the premises is for the purpose of the engineers in charge of the tunnel under the East River.

I would respectfully recommend that the Commissioners of the Sinking Fund approve of the lease and authorize the payment of the rent out of the money heretofore appropriated by the Board of Estimate and Apportionment for the expenses of the Public Service Commission of the District of the State of New York.

Respectfully submitted for approval.

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of the lease entered into between the Public Service Commission for the First District, and William A. White, owner, of the premises front and rear in the property known as No. 317 Furman street in the Borough of Brooklyn, for a period of one year, from January 1, 1908, at a monthly rental of thirteen dollars (\$13), payable monthly in advance, and that the Comptroller be and is hereby authorized to pay the said rental out of the appropriation made to the Public Service Commission for the First District.

The report was accepted and the resolution unanimously adopted.

The Deputy Comptroller presented the following report and offered the following resolution, relative to the hiring by the Engineer in charge of triangulation, of property at the northwest corner of Hoffman boulevard and old Newtown road, Borough of Queens, for a triangulation tower:

January 8, 1908.

Hon. HERMAN A. METZ, *Comptroller:*

SIR—There has been presented to the Department of Finance, a voucher in favor of Arthur Jesser and Harry Hampton Tillinghast in the sum of \$100, for the privi-

lege of erecting and maintaining a triangulation tower at the northwest corner of Hoffman boulevard and old Newtown road, Borough of Queens, for a period of one year from December 1, 1907. Attached to the papers is a communication, dated December 26, from Nelson P. Lewis, Chief Engineer of the Board of Estimate and Apportionment, in which he states that it is necessary to have these towers in order that the triangulation of the Borough of Queens may be completed; that five of these towers were recently erected under a contract made by the Mayor, the expense being met from the annual allowance of \$15,000 made for this work under the provisions of section 439 of the Charter. He states that the work of triangulation for the entire City has been completed with the exception of the Borough of Queens; that while the work is well advanced, it cannot be carried further until these towers and signals shall have been completed, and that this is urgently needed in the Borough.

Mr. Robert R. Crowell, Chief Engineer of the Topographical Bureau of Queens, states that there will be thirteen of these towers in the Borough of Queens, in addition to the one erected several years ago on property acquired by the City for that purpose at Hollis Heights, and attached hereto and made part of this record is a list of the towers, their location, the names of the owners, and statements made whether permits have been granted and whether rents have been definitely determined. Mr. Endermann, Engineer in charge of the topographical work, states that ten of these towers have already been erected, having been paid for out of the appropriation of \$15,000 a year allowed for this work. Three of them are to be constructed under the contract between yourself and Mr. Bermel, mentioned in the letter of Mr. Lewis.

As to the fairness of the charge made for the rent of the premises during the year, it is almost impossible to figure out this matter upon a rental basis. It is presumed that the towers will remain standing from two to four years, and will of necessity interfere more or less with the sale of the property during that period, besides being unsightly.

Mr. A. T. Mosman of No. 186 Remsen street, Brooklyn, who acts for the United States Government, under an arrangement made between the United States Government authorities and the Board of Estimate and Apportionment, states that the field work will probably be completed in six months, and that it will require at least another six months for the completion of the calculations in Washington. A copy of these calculations will be furnished to the Board of Estimate and Apportionment and will be of service to the Topographical Bureau in Queens, which Bureau will continue to use the towers for another year or two in completing and correcting their surveys.

An examination of the list of the towers shows that an effort has been made so far as possible to locate them on City property, where no rent need be made. In one or two of the other cases the owners granted a permit without compensation, and in several cases, so far as has been arranged, the compensation will be from \$50 to \$100 a year.

The tower at Hoffman boulevard and Old road was erected last summer and has already been in use four or five months, but, as will be seen by the bill, the rent did not begin until December 1.

I have been informed that the understanding is that in each case, after the Topographical Bureau has finished its work, the towers are to be the property of the land owners, as it would hardly pay the City to tear them down and dispose of them for old lumber, and I assume that such understanding became part of the rental paid.

Under the circumstances, the rent charged is reasonable and just, and I would therefore respectfully recommend that the Commissioners of the Sinking Fund approve of the hiring for a period of one year from December 1, 1907, from Arthur Jesser and Harry Hampton Tillinghast, of the property at the northwest corner of Hoffman boulevard and old Newtown road, Borough of Queens, at an annual rental of one hundred dollars (\$100).

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized to pay to Arthur Jesser and Harry Hampton Tillinghast, the sum of one hundred dollars (\$100), for the privilege of erecting and maintaining upon property at the northwest corner of Hoffman boulevard and old Newtown road, in the Borough of Queens, a triangulation tower, said payment to be in full for a period of one year from December 1, 1907.

The report was accepted and the resolution unanimously adopted.

The Deputy Comptroller brought up the matter of the proposed insuring of the steam yacht "Lavrock," used by the Department of Water Supply, Gas and Electricity, which was laid over at the last meeting.

On motion, the matter was referred to a Select Committee consisting of the President of the Board of Aldermen, the Comptroller and the Chamberlain.

The following was received from the Armory Board relative to bill of Pilcher & Tachau, for services in connection with the erection of an armory building for Squadron "C," in the Borough of Brooklyn:

OFFICE OF THE SECRETARY—THE ARMORY BOARD,
BASEMENT SUITE 6, HALL OF RECORDS,
NEW YORK, December 11, 1907.

To the Honorable the Commissioners of the Sinking Fund:

GENTLEMEN—At a meeting of the Armory Board held December 9, 1907, the following was adopted:

"Resolved, That the Armory Board does hereby approve the following bills and expenses:

* * * * *	
Pilcher & Tachau, Architects, Professional Services—	
Balance due, extra work, Squadron "C" armory, Borough of Brooklyn	\$83 90
* * * * *	

—that the Commissioners of the Sinking Fund be requested to concur in the same, and the Comptroller authorized to pay."

The vouchers are herewith transmitted.

Yours respectfully,

HARRIE DAVIS, Secretary.

In connection therewith the Comptroller presented the following report and offered the following resolution:

January 15, 1908.

Approved, in so far as the bill of Pilcher & Tachau for \$83.90, for balance due, extra work, Squadron "C" armory, Borough of Brooklyn.

CHANDLER WITHINGTON,
Chief Engineer, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby concur in so much of the resolution adopted by the Armory Board at meeting held December 9, 1907, as relates to the bill of Pilcher & Tachau, for eighty-three dollars and ninety cents (\$83.90), for balance due, extra work, Squadron "C" armory, Borough of Brooklyn, and that the Comptroller be and is hereby authorized to pay the same.

The report was accepted and the resolution unanimously adopted.

The Deputy Comptroller presented the following report and offered the following resolution, relative to a resolution adopted by the Armory Board, accepting bid of William Horne Company, for Item No. 1, repairs to roof, lantern, gutters, etc., Thirteenth Regiment armory, Brooklyn:

January 14, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—At a meeting of the Armory Board, held January 10, 1908, the following was adopted:

"Resolved, That the bid of William Horne Company, for Item No. 1, repairs to roof, lantern, gutters, etc., Thirteenth Regiment armory, Borough of Brooklyn, in the sum of seven thousand one hundred and seventy dollars (\$7,170), be accepted as being the lowest formal bid for said work; that the same be submitted to the Commissioners of the Sinking Fund for their concurrence, and to the Comptroller for his approval of the sureties thereon and when so approved the Chairman of this Board be authorized to execute the contract on behalf of the Board; that all the other bids be rejected and the Comptroller requested to return the deposits received from the unsuccessful bidders."

I would report: On January 10, 1908, the Armory Board received and opened the following bids for repairs to roof, lantern, gutters, etc., Thirteenth Regiment armory, Borough of Brooklyn:

Guidone & Galardi	\$9,400 00
John J. Kuhne	9,330 00
Griffin Roofing Company	8,482 00
Neptune B. Smyth	8,362 00
William Horne Company	7,170 00

The bid, \$7,170, of William Horne Company for this work being the lowest, I think the Commissioners of the Sinking Fund may properly concur in the action of the Armory Board.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby concur in the following resolution adopted by the Armory Board at meeting, held January 10, 1908:

"Resolved, That the bid of William Horne Company, for Item No. 1, repairs to roof, lantern, gutters, etc., Thirteenth Regiment armory, Borough of Brooklyn, in the sum of seven thousand one hundred and seventy dollars (\$7,170), be accepted as being the lowest formal bid for said work; that the same be submitted to the Commissioners of the Sinking Fund for their concurrence, and to the Comptroller for his approval of the sureties thereon, and when so approved the Chairman of this Board be authorized to execute the contract on behalf of the Board; that all the other bids be rejected and the Comptroller requested to return the deposits received from the unsuccessful bidders."

The report was accepted and the resolution unanimously adopted.

The Deputy Comptroller presented the following report and offered the following resolution, relative to resolution adopted by the Armory Board, accepting the bid of Neptune B. Smyth, for Item No. 2, repairs to roof of Eighth Regiment armory, Borough of Manhattan:

January 14, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—At a meeting of the Armory Board, held January 10, 1908, the following was adopted:

"Resolved, That the bid of Neptune B. Smyth for Item No. 2, repairs to roof of Eighth Regiment armory, Borough of Manhattan, in the sum of one thousand four hundred and forty dollars (\$1,440) be accepted as being the lowest formal bid for said work; that the same be submitted to the Commissioners of the Sinking Fund for their concurrence and to the Comptroller for his approval of the sureties thereon, and when so approved the Chairman of this Board be authorized to execute the contract on behalf of the Board; that all the other bids be rejected, and the Comptroller requested to return the deposits received from the unsuccessful bidders."

I would report: On January 10, 1908, the Armory Board received and opened the following bids for repairs to roof of the Eighth Regiment armory, Borough of Manhattan:

John J. Kuhne	\$1,689 00
Wm. Horne Company	1,460 00
Hahn & O'Reilly	1,686 00
Griffin Roofing Company	1,488 00
Neptune B. Smyth	1,440 00

The bid, \$1,440, of Neptune B. Smyth for this work being the lowest, I think the Commissioners of the Sinking Fund may properly concur in the action of the Armory Board.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

The following communication was received from the Corporation Counsel, relative to the resolution adopted by the Commissioners, requesting him not to institute any condemnation proceedings to acquire title to lands on behalf of The City of New York without first obtaining their approval:

January 15, 1908.

The Honorable the Commissioners of the Sinking Fund:

GENTLEMEN—At a meeting of your Honorable Commission held on January 8, 1908, a resolution was adopted requesting the Corporation Counsel not to institute any proceedings in condemnation to acquire title to lands on behalf of The City of New York, without first obtaining your approval.

This resolution, in my opinion, requires me to withhold compliance with the resolution adopted by the Public Service Commission, First District, on December 17, 1907, requesting the institution of proceedings on behalf of The City of New York to acquire for rapid transit purposes title in fee to eight lots situated at the southeast corner of Centre and Walker streets, Manhattan, and also a permanent and a temporary easement in a portion of another lot fronting on the southerly side of Walker street adjoining the lots first described.

My attention has been called by a communication from George S. Coleman, Esq., Counsel to the Public Service Commission, under date of January 13, 1908, to the

necessity for the immediate acquisition of title to these lands. Mr. Coleman, in his communication, states that:

This property is to be acquired for the City for the purposes of the Brooklyn and Manhattan loop lines, the contract for the construction of which was made by The City of New York with the Degnon Contracting Company on May 9, 1907. This contract contains the covenant on the part of the City that it will acquire the necessary real estate, and begin and conduct proceedings therefor with due diligence, and put the contractor in possession of such real estate within three months from the delivery of the notice by the contractor that such real estate is necessary.

The contractor has given notice in this case, and under the contract became entitled to possession of this property about August 1, 1907. Negotiations for the purchase of the property, undertaken with the property owners, proved unsuccessful, and a proceeding to condemn an easement was instituted, but later withdrawn, when it was found to be necessary to condemn the fee. The contractor, I am informed, claims to have carried the excavation along other portions of the route to such an extent that he is now delayed because of failure to be put in possession of this property.

If, under these circumstances, it should seem to you to be proper that the proceeding in question be instituted, I beg to suggest that the resolution of January 8, 1908, be amended so as to except the same therefrom.

Respectfully yours,

F. K. PENDLETON, Corporation Counsel.

The following was received from the Board of Estimate and Apportionment, relative to the use and occupation by the New York Central and Hudson River Railroad Company without compensation therefor, of certain lands and lands under water between Sixtieth and Seventy-seventh streets, on the North River:

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE SECRETARY, No. 277 BROADWAY,
December 23, 1907.

To the Commissioners of the Sinking Fund:

GENTLEMEN—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment December 20, 1907, relative to the use and occupation of certain lands and lands under water by the New York Central and Hudson River Railroad Company, together with a copy of a report submitted to the Board by the Chief Engineer, and map referred to therein.

Respectfully,

JOSEPH HAAG, Secretary.

Whereas, The New York Central and Hudson River Railroad Company has been using and occupying, for a period of years, certain lands and lands under water, the fee of which is vested in The City of New York, and for such use and occupation the company has paid no compensation; and

Whereas, The lands and lands under water used and occupied by the company are more particularly described and set forth in a report this day submitted to this Board by its Chief Engineer; and

Whereas, Pursuant to the provisions of the Greater New York Charter the Commissioners of the Sinking Fund are possessed of the right and power to lease and have the jurisdiction over the leasing of property, the fee of which is in The City of New York, other than land under water, the leasing of which latter property is vested in the Commissioner of Docks and Ferries after approval by the Commissioners of the Sinking Fund; and

Whereas, The Acting Corporation Counsel in an opinion dated December 10, 1907, after an examination of this subject and of the rights of the railroad company in the premises, has advised this Board accordingly, and pursuant to such opinion, it is

Resolved, That the New York Central and Hudson River Railroad Company be and it hereby is directed to make application to the Commissioners of the Sinking Fund within thirty (30) days after the date of the adoption of this resolution, for permission to use and occupy the discontinued and closed portions of the several streets and to the Commissioner of Docks and Ferries, within the same period, for permission to use and occupy the lands under water; and be it further

Resolved, That the Comptroller be and he hereby is requested to appraise the value of the use and occupation by the railroad company of such lands and lands under water for the period of six (6) years from January 1, 1902, to January 1, 1908, and immediately upon the determination and approval by him of such valuation, submit same to the Corporation Counsel, together with any data he may possess upon which such appraisal and valuation was based; and be it further

Resolved, That the Corporation Counsel be and he hereby is requested to make formal demand forthwith upon the New York Central and Hudson River Railroad Company for the payments due for the past use and occupation of such lands and lands under water as may be justly and fairly due The City of New York for the six years prior to the date of such formal demand, and for such sum as may be determined to be due the City, after the lands in question have been appraised and such appraisal approved by the Comptroller of The City of New York, and the result of such appraisal submitted to the Corporation Counsel; and be it further

Resolved, That should the railroad company fail or neglect to make the payment deemed to be fairly and justly due as a result of the appraisal hereinabove mentioned, within thirty (30) days after the date of the formal demand for such payment, the Corporation Counsel be and he hereby is requested to institute proceedings for the recovery of such moneys and to take whatever steps he may deem wise and expedient; and be it further

Resolved, That the Secretary of this Board be and he hereby is directed to transmit copies of these resolutions and the report of the Chief Engineer, hereinbefore mentioned, to the Commissioners of the Sinking Fund and the Commissioner of Docks and Ferries for their information and guidance.

A true copy of resolution adopted by the Board of Estimate and Apportionment December 20, 1907.

JOSEPH HAAG, Secretary.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,
December 19, 1907.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—At a meeting of the Board of Estimate and Apportionment held January 18, 1907, a communication from the Eleventh Avenue Track Removal Committee of the West Side Tax Payers' Association, dated January 2, 1907, and signed by H. G. Schneider, Secretary, requesting the Board to investigate the use and occupation of portions of Twelfth avenue and Sixtieth to Seventy-first street, inclusive, by the New York Central and Hudson River Railroad Company, was presented and referred to the Bureau of Franchises for investigation.

At the meeting of April 12, 1907, you transmitted to the Board a report of this Division setting forth that the streets, above referred to, had been closed and discontinued, and a wall constructed by the railroad company along the easterly line of its right-of-way from a point between Sixtieth and Sixty-first streets to the northerly side of Seventy-second street, pursuant to authority conferred by chapter 714 of the Laws of 1887; that the several streets thus closed were all legally opened streets; that the portions of these streets lying westerly of the said wall are occupied by the railroad company without any compensation or taxes being paid therefor, except where portions of such streets are included within the boundaries of two parcels of land under water leased to the company by two certain leases dated respectively, June 22, 1874, and May 1, 1880; and that the wall had been constructed across Seventy-second street without apparent legal authority. It was suggested in the said report that before any action be taken by the Board, the matter should be referred to the Corporation Counsel for an opinion on certain questions of law. Such reference of the matter was made, and at the meeting of December 13, 1907, an opinion dated December 10, 1907, was received from G. L. Sterling, Acting Corporation Counsel, and referred to the Chief Engineer. The questions of law referred to the Corporation Counsel, and the opinion thereon are as follows:

1. "As to the right of the Board to require the railroad company to make application for permission to occupy the discontinued and closed portions of the several streets in order that a proper compensation may be fixed for such occupancy."

In relation to this, the Corporation Counsel says:

"I am of the opinion that it is not within the power of your Board to pass upon any application which may be filed for such permission to occupy this property; but that the custody and occupation of the premises are committed by the Charter (section 205) to the Commissioners of the Sinking Fund."

Said section 205 of the Charter provides for the sale or lease by the Commissioners of the Sinking Fund of any City property, except parks, wharves and piers and land under water, and also confers authority upon said Commissioners to sell and convey the right, title and interest of the City in and to lands lying within any street, avenue, etc., that has been discontinued and closed, in whole or in part, by lawful authority, to the owner of lands fronting on such street, etc., provided, however, that such portions of the streets are not needed for public use.

Inasmuch as preparation has been made by the Public Service Commission for the First District for the institution of proceedings to extinguish the franchise rights of the New York Central and Hudson River Railroad Company in Eleventh avenue, and other streets of the City not closed or discontinued, and not included within the railroad yard in question, which upon their consummation will undoubtedly affect this portion of the railroad, it would seem to be inadvisable to sell or convey to the railroad company, as the owners of the abutting property, the property within the lines of the streets so discontinued and closed. In the future these closed and discontinued streets may be needed for public use, and it may then be desirable to reopen them, which can be done at a nominal expense if the City retains the fee.

I would, therefore, suggest that the City, by the Commissioners of the Sinking Fund, lease such portions of Twelfth avenue, from the southerly line of Sixtieth

street to the southerly line of Seventy-second street, and of Sixtieth to Seventy-first street, inclusive, as are included between the above mentioned wall on the easterly line of the company's right of way, and the easterly line of the parcels of land under water, occupied by the railroad company under the two leases above referred to from the Dock Department.

I find that the area of such property, after correcting the figures in my previous report from the information furnished by the Corporation Counsel, amounts to about 500,000 square feet, or 200 City lots of an area of 2,500 square feet each, all of which is shown by red color on the map attached, dated December 19, 1907.

2. "As to the right of the City to make a claim for past use and occupation of the discontinued and closed portions of the several streets, and the effect of the Statute of Limitations upon such a claim."

Regarding this, the Corporation Counsel holds:

"I am of the opinion that the City is not precluded from asserting its claim for such past use and occupation of those discontinued and closed portions of the several public streets in this railroad yard (so far as not comprised within the leases which your report mentions), but that the extent of such claim is limited by the Statute of Limitations to a recovery of the reasonable value of such occupation during a period not exceeding six years immediately preceding the beginning of the action."

I would, therefore, suggest that the Corporation Counsel be requested to serve immediate notice of claim on the railroad company for the use and occupation of the property within the streets hereinbefore described for a period of six years prior to date of such claim, and in case of failure to obtain a settlement to institute appropriate action for the recovery of such sums as may be appraised by the Comptroller.

Further, that the Comptroller be requested to cause an appraisal of the value of the property of The City of New York included within the lines of the several streets aforementioned, and lying between the said railroad wall and the easterly line of the above mentioned leases of land under water, of June 22, 1874, and May 1, 1880, and that he forward such appraisal to the Corporation Counsel as soon as possible. The approximate area of the property thus occupied for which a claim should be made is 500,000 square feet, equivalent to 200 City lots.

3. "As to the proper procedure of the Board of Estimate and Apportionment in relation to that portion of Seventy-second street included between the wall on the easterly line of the railroad company's right of way and the Hudson River, apparently illegally closed and occupied by said company."

In relation to this the Corporation Counsel says:

"I am of opinion that such action, as may be requisite for the restoration to public use as a street of that portion of Seventy-second street included within the railroad yard, must be taken by the President of the Borough of Manhattan, upon whom by the Charter (section 383) is devolved the removal of incumbrances in the public streets of such Borough. * * * There could be no objection, however, to the adoption by your Board of a resolution expressing its views in the premises and officially directing the attention of the Borough President to the matter."

As Seventy-second street, although legally opened, for a distance of about 700 feet west of the easterly line of the railroad's right of way, is yet unimproved, and at present such improvement does not appear to be necessary, and as the removal of the wall constructed across the same would serve no purpose in the interest of the City, the only object of the present report on this phase of the case being to obtain a recognition of the City's fee of the land and a fair rental for use and occupation, I would recommend no action by the Borough President under section 383 of the Charter.

Two courses of action in this matter would, therefore, appear to be open to the City, namely: First, to close that portion of Seventy-second street lying westerly of the said wall, and convey the fee of the closed portion to the railroad company for a suitable compensation, as was done in the case of several streets in the Borough of The Bronx, which were discontinued and closed and the fee thereof conveyed to the Harlem River and Port Chester, and the New York, New Haven and Hartford railroad companies, and in the case of Thirty-second street, Borough of Manhattan, the fee of portions of which was conveyed to the Pennsylvania, New York and Long Island Railroad Company. It does not seem that such action is either necessary or desirable, as the City would thus lose its rights to a portion of this street, which in the future and under changed conditions may and probably will be needed for the use of the public. Second, the alternative course of action, and the one which I would suggest, is that the railroad company be directed to apply for a lease of the property lying within the lines of Seventy-second street, between the easterly line of the railroad's right of way and the pier line established and approved by the Legislature of the State of New York, by chapter 283 of the Laws of 1868, which lease should be subject to cancellation by the City at will. In case the railroad should fail to apply for the lease, and to accept the same, the Borough President could then be requested to act and remove the wall, and the railroad company, under the original consent contained in the ordinance approved by the Mayor May 6, 1847, can be required to build a bridge over its railroad. As the land is partly upland and partly land under water, the lease for the latter would come under the jurisdiction of the Dock Department.

Area upland, square feet.....	55,000
Area land under water, square feet.....	14,600
Total, square feet.....	69,600

—all of which is outlined by red color on the map attached.

I submit herewith resolutions for adoption in accordance with the foregoing suggestions.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

Resolved, That a warrant payable from the Sinking Fund, City of Brooklyn, be drawn in favor of the Chamberlain, for the sum of fifteen dollars and fourteen cents (\$15.14), to be deposited in the City Treasury, to the credit of Refunding Assessments Paid in Error, Borough of Brooklyn, to refund Adolph Rehbein and Maurice Daly, through this account, this amount of assessment and interest for Prospect Park Improvement, overpaid in error.

Which resolution was unanimously adopted.

At this point the Comptroller arrived and thereafter participated in the proceedings.

The Comptroller brought up the matter of a proposed lease of a building to be built in Jamaica, Borough of Queens, for the use of the Department of Taxes and Assessments, Department of Finance, which was laid over at the last meeting.

On motion, the matter was referred to a Select Committee consisting of the Comptroller, President of the Board of Aldermen and the Chamberlain.

The Committee to whom was referred the matter of the proposed lease of the old Tompkins Market on Third avenue, between Sixth and Seventh streets, Borough of Manhattan, to the Cooper Union for the Advancement of Science and Art, presented the following report:

January 20, 1908.

To the Commissioners of the Sinking Fund:

GENTLEMEN—Your Committee, to whom was referred at meeting, held September 20, 1907, the matter of the proposed lease to the Cooper Union for the Advancement of Science and Art, the block of ground bounded by Third avenue, East Sixth, East Seventh streets and Hall place, with the building thereon, pursuant to the provisions of chapter 740 of the Laws of 1907, respectfully report that after having given the matter due consideration, they recommend that a lease of the property be authorized to the Cooper Union for the Advancement of Science and Art, for a period of ninety-nine years from February 1, 1908, with the privilege of renewal for an additional period of ninety-nine years, at a rental of \$100 per annum.

The Cooper Union for the Advancement of Science and Art to have the privilege of making any changes, alterations or repairs to the present structure which they may deem proper, or to take down the present structure and erect a new one in its place at its own expense; the City to pay for any taxes, assessments or water rents that may be imposed against the property. The lease to contain a clause that the property shall revert back to the City if at any time during the term of the lease the property shall be used by Cooper Union for other than educational or philanthropic purposes.

Respectfully,
H. A. METZ, Comptroller,
JAMES J. MARTIN, Chamberlain,
P. F. McGOWAN, President, Board of Aldermen.

New York, November 22, 1907.

The Honorable the Commissioners of the Sinking Fund of The City of New York:

DEAR SIRS—The Cooper Union for the Advancement of Science and Art hereby, pursuant to chapter 740 of the Laws of 1907, applies for a lease of the old Sixty-ninth Regiment armory in the act described as the block of ground bounded by Third avenue, East Sixth street, East Seventh street and Hall place, with the building thereon.

The act provides that you may enter into an agreement in the interest and for the benefit of The City of New York for the use of the said block of ground, the building thereon, and such other building or buildings as may be put thereon as a part of the endowment of the Cooper Union for its educational or library purposes. It is for such purpose that this application is made, and the Trustees of Cooper Union submit that it is in the interest of the City and that it is most suitable in itself that any rent to be paid by Cooper Union should be, as nearly as may be, nominal. The last report of the Institution showed that during the preceding term there had been admitted to the Institution as students 3,384; that as workers and visitors there had been during the year 6,903 visitors to the Museum for the Arts of Decoration; and that there had been 556,073 visitors to the library and reading room during the year.

The same report states that the number of students in attendance in the several departments during the year was 2,721; that the highest number in attendance at any period was 2,503; and that at that time there were over 2,600 on the waiting list. It is to provide so far as is possible for those for whom the present space is inadequate that the institution needs enlarged accommodation. If the City itself should provide for them it would mean not only the very large amount with which to put up the requisite buildings, but a heavy annual expense for instruction and other incidentals. If the Institution may have the armory property its purpose is immediately to make a large outlay upon the building in order that some of the work of the Institute may be at once transferred, and from time to time thereafter to make further expenditures, as it shall be in possession of the requisite funds. The building at the present time is very much out of repair, unsuitable for any use to which it could be profitably put, and, as it is understood, producing little, if any, income.

The hope of the Trustees is that within a short period the Institution will be able to put the whole of the Armory Building in a situation for use for its direct purposes. If from any part meantime some small income can come, every penny will be applied to the work of instruction. The work will require a large annual expenditure from the funds of the Institution. The wish of the Trustees is that the lease shall continue while the armory shall be used for Cooper Union purpose. Upon the subject of rental the Trustees ask that at a time which may suit your convenience they may wait upon your Honorable Body, to the end that they may have the benefit of your views and may make such further suggestions as may be pertinent.

Yours respectfully,
JNO. E. PARSONS, President.

New York, December 3, 1907.

The Honorable the Commissioners of the Sinking Fund of The City of New York:

DEAR SIRS—The Cooper Union for the Advancement of Science and Art desires to make this supplement to its application to you of November 22, i. e., that the term for which the Sixty-ninth armory property shall be leased shall be ninety-nine (99) years, with a renewal of ninety-nine (99) years, and that the rent shall be nominal—either \$1 a year or \$100 a year, as you shall think suitable. For a justification for such an arrangement the Cooper Union refers to its original application.

Yours very truly,
JNO. E. PARSONS, President.

CHAPTER 740.

An Act to permit the city of New York to sell or lease to the Cooper Union for the advancement of science and art the block of ground in said city bounded by Third avenue, East Sixth street, East Seventh street and Hall place, with the building thereon.

Became a law July 25, 1907, with the approval of the Governor. Passed, three-fifths being present.

Accepted by the city.

The people of the state of New York, represented in senate and assembly, do enact as follows:

Section 1. The commissioners of the sinking fund of the city of New York shall have power and are authorized to sell or to lease to the Cooper Union for the advancement of science and art the block of ground bounded by Third avenue, East Sixth street, East Seventh street and Hall place, with the building thereon, at such price, if sold, and upon such terms and conditions, for such period of time, and for such rent, if leased, as the commissioners of the sinking fund in their discretion shall deem suitable. In making such sale or lease the commissioners of the sinking fund may, in their discretion, enter into an agreement with the Cooper Union for the advancement of science and art, in the interest and for the benefit of the city of New York, for the use of the said block of ground, the building thereon, and such other building or buildings as may be put thereon as a part of its endowment for its educational or library purposes.

Sec. 2. Any proceeds of such sale or leasing shall, on receipt thereof, after paying necessary charges, be immediately paid to the credit of the sinking fund of the city of New York for the redemption of the city debt.

Sec. 3. All acts heretofore passed inconsistent with the provisions hereof are, so far as they relate to the said block of ground, hereby repealed.

Sec. 4. This act shall take effect immediately.

State of New York, Office of the Secretary of State, ss.:
I have compared the preceding with the original law on file in this office, and do hereby certify that the same is a correct transcript therefrom and of the whole of said original law.

(Signed) JOHN S. WHALEN, Secretary of State.

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, December 21, 1907.

To the Commissioners of the Sinking Fund:

GENTLEMEN—I am in receipt of the communication of your Secretary, dated November 13, 1907, which reads:

"At a meeting of the Commissioners of the Sinking Fund held on the 13th inst., the following resolution was adopted:

"Resolved, That the Corporation Counsel be and is hereby requested to advise the Commissioners of the Sinking Fund whether or not chapter 740 of the Laws of 1907, being an Act to authorize The City of New York to sell or lease to the Cooper Union, for the advancement of science and art, the block of ground in said City bounded by Third avenue, East Sixth street, East Seventh street and Hall place, with the building thereon, requires the Commissioners of the Sinking Fund to sell or lease the said property without public auction, as provided by section 205 of the amended Greater New York Charter.

"Will you kindly advise the Commissioners as requested in said resolution."

Chapter 740 of the Laws of 1907, is entitled "An Act to permit The City of New York to sell or lease to the Cooper Union for the advancement of science and art the block of ground in said City bounded by Third avenue, East Sixth street, East Seventh street and Hall place with the building thereon."

Section 3 provides:

"All acts heretofore passed inconsistent with the provisions hereof are, so far as they relate to the said block of ground, hereby repealed."

In my opinion, the law contemplates that the property in question shall be sold or leased without public auction, provided the Commissioners of the Sinking Fund act under chapter 740 of the Laws of 1907, referred to in the communication.

Respectfully yours,

(Signed) G. L. STERLING,
Acting Corporation Counsel.

In connection therewith the Comptroller offered the following resolution:

Resolved, That, pursuant to the provisions of chapter 740 of the Laws of 1907, the Commissioners of the Sinking Fund hereby authorize a lease to the Cooper Union for the Advancement of Science and Art, the block of ground bounded by Third avenue, East Sixth street, East Seventh street and Hall place, Borough of Manhattan, City of New York, with the building thereon, for a period of 99 years from February 1, 1908, with the privilege of renewal for an additional period of 99 years at a rental of one hundred dollars (\$100) per annum. The Cooper Union for the Advancement of Science and Art to have the privilege of making any changes, alterations or repairs to the present structure which they may deem proper, or to take down the present structure and erect a new one in its place at its own expense; the City to pay for all taxes, assessments or water rents that may be imposed against the property. The lease to contain a clause that the property shall revert back to the City if at any time during the term of the lease the property shall be used by the Cooper Union for other than educational or philanthropic purposes; and be it further

Resolved, That when such lease has been prepared and approved as to form by the Corporation Counsel, it shall be the duty of the Mayor to execute the same on behalf of The City of New York, and the City Clerk cause the seal of The City of New York to be affixed thereto and duly attested.

The report was accepted, the Committee discharged, and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution, relative to an issue of Corporate Stock to the amount of \$8,000 for furnishing and installing alterations, fittings, etc., for a Second Brigade headquarters in the Twenty-third Regiment armory, Borough of Brooklyn:

January 21, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—At a meeting of the Armory Board held January 10, 1908, the following was adopted:

"Resolved, That the sum of eight thousand dollars (\$8,000) be and is hereby appropriated for furnishing and installing alterations, fittings, etc., for a Second Brigade headquarters, in the Twenty-third Regiment armory, in the Borough of Brooklyn (including architects' fees); that the same be submitted to the Commissioners of the Sinking Fund for their concurrence, and the Comptroller authorized to issue bonds to provide payment therefor."

I would report that the proposed work consists of dividing up the present second story, northeast room in the Twenty-third Regiment Armory, into five rooms for the headquarters of the Second Brigade, and providing them with furniture, carpets, window curtains, metal lockers, etc.

The alterations, furnishings and decorations can be provided in a handsome and substantial manner for \$8,000.

The work being a valuable and necessary improvement, I think the Commissioners of the Sinking Fund may properly concur in the resolution as requested by the Armory Board, and authorize the Comptroller to issue bonds to the amount of \$8,000 for furnishing and installing alterations, fittings, etc., for a Second Brigade headquarters in the Twenty-third Regiment armory (including architects' fees).

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. METZ, Comptroller.

Whereas, The Armory Board at meeting held January 10, 1908, adopted the following resolution:

"Resolved, That the sum of eight thousand dollars (\$8,000) be and is hereby appropriated for furnishing and installing alterations, fittings, etc., for a Second Brigade headquarters, in the Twenty-third Regiment Armory, in the Borough of Brooklyn (including architects' fees) that the same be submitted to the Commissioners of

the Sinking Fund for their concurrence, and the Comptroller authorized to issue bonds to provide payment therefor."

Resolved, That the Commissioners of the Sinking Fund hereby concur in said resolution, and that for the purpose of providing means for the payment therefor, the Comptroller be and is hereby authorized and directed, pursuant to the provisions of Chapter 212 of the Laws of 1898, to issue Corporate Stock of The City of New York in the manner provided by section 169 of the amended Greater New York Charter, to the amount of eight thousand dollars (\$8,000), the proceeds whereof to be applied to the payment of the expenses aforesaid.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution, relative to an amendment to resolution authorizing a lease of premises at Nos. 106 to 110 Court street, Borough of Brooklyn, for the use of the First District Municipal Court (see page):

January 15, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioners of the Sinking Fund at a meeting held January 8, 1908, adopted a resolution authorizing a lease for court purposes of rooms on the first floor, and rooms on the second floor of the premises Nos. 106, 108 and 110 Court street, Borough of Brooklyn, for the use of the First District Municipal Court. Among the terms and conditions was one providing for the lessor to furnish stoves for heating purposes in the store floor of the new court room. This the owner stated he did not agree to do, for the reason that the City was supplying its own heating apparatus in the court room on the second floor.

I would respectfully recommend that the Commissioners of the Sinking Fund amend the resolution adopted January 8, 1908, by striking out the words on the fifteenth and sixteenth lines of said resolution, "to furnish stoves for heating purposes."

Respectfully submitted for approval.

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held January 8, 1908, authorizing a lease to the City from Joseph D. Willis, of the second floor, and five rooms on the third floor of the building Nos. 106, 108 and 110 Court street, Borough of Brooklyn, for the use of the First District Municipal Court, for a period of five years from the date of occupation of the new court room with the old one, at an annual rental of four thousand nine hundred dollars (\$4,900), payable quarterly, the owner to make all alterations and repairs necessary to fit the building for court room purposes, and to build a stairway connecting the store floor with the first floor above now occupied as a court room, to furnish stoves for heating purposes, and to furnish all fixtures and wiring for the introduction of electric light or gas, and to keep the building in repair, etc., be and the same is hereby amended by striking out the words "to furnish stoves for heating purposes."

The report was accepted and the resolution unanimously adopted.

The following was received from the Department of Water Supply, Gas and Electricity, relative to a renewal of the lease of premises corner of Madison and Boerum streets, Murray Hill, Borough of Queens:

January 8, 1908.

Hon. N. TAYLOR PHILLIPS, Secretary, Commissioners of the Sinking Fund, New York City:

SIR—Application is herewith made for the execution of a renewal of the lease to the City of a portion of the building situated on the southwesterly corner of Madison and Boerum streets, Murray Hill, Borough of Queens, for use of the Department of Water Supply, Gas and Electricity, for a period of one year from December 1, 1907, at an annual rental of three hundred dollars (\$300), payable monthly.

Otherwise upon the same terms and conditions as contained in the existing lease; lessor, Catherine M. Bremer.

Respectfully,

JOHN H. O'BRIEN, Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

January 15, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the lease of the premises on the southwesterly corner of Madison and Boerum streets, Murray Hill, Borough of Queens, be renewed for a period of one year from December 1, 1907, at an annual rental of \$300, payable monthly, and upon the same terms and conditions as contained in the existing lease.

Respectfully submitted for approval.

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of the premises on the southwesterly corner of Madison and Boerum streets, Murray Hill, Borough of Queens, occupied by the Department of Water Supply, Gas and Electricity, for a period of one year from December 1, 1907, at an annual rental of three hundred dollars (\$300), payable monthly, and upon the same terms and conditions as contained in the existing lease; lessor, Catherine M. Bremer; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable, and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Department of Street Cleaning, relative to an amendment to resolution authorizing a lease of premises at No. 230 East One Hundred and Fourth street, Manhattan (see Minutes, 1907, p. 316):

December 11, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman, Commissioners of the Sinking Fund, City Hall, N. Y.:

SIR—Under date of March 20, 1907, your Board adopted a resolution, pursuant to section 541 of the Charter, giving consent and approval to a lease from S. Rosenblatt to the City, of a store on the ground floor and basement at No. 230 East One Hundred and Fourth street, Borough of Manhattan, for a period of three (3) years from May 1, 1907, at an annual rental of five hundred and forty dollars (\$540), payable quarterly, otherwise upon the same terms and conditions as contained in the then existing lease.

In the meantime, Mr. Rosenblatt, without executing the above authorized lease, has sold the premises and they have come into the possession of Mr. Jacob Marx (of No. 55 Liberty street, Manhattan), who has the right to collect the rent of the same, which has not yet been paid by the City, from May 1, 1907, and who is willing to execute the lease which Mr. Rosenblatt failed to execute.

I therefore request that your Board amend its said resolution of March 20, 1907, so as to substitute the name of Jacob Marx for that of S. Rosenblatt, as lessor.

Respectfully,

FOSTER CROWELL, Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

January 16, 1908.

I would respectfully recommend that the Commissioners of the Sinking Fund amend their resolution adopted March 20, 1907, authorizing a lease of the store on the ground floor and the basement at No. 230 East One Hundred and Fourth street, Borough of Manhattan, by inserting the words "Jacob Marx" as the name of the lessor, instead of S. Rosenblatt.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held March 20, 1907, approving of and consenting to the execution, by the Commissioner of Street Cleaning, of a renewal of the lease to the City of the store on the ground floor and basement at No. 230 East One Hundred and Fourth street, Borough of Manhattan; lessor, S. Rosenblatt, be and the same is hereby amended by substituting "Jacob Marx" as the name of the lessor, in place of "S. Rosenblatt."

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution, relative to an amendment to resolution, authorizing a lease of premises at Rockaway avenue and Sumpter street, Borough of Brooklyn, for the use of the Board of Education (see Minutes, 1907, p. 888):

January 15, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioners of the Sinking Fund at a meeting held September 20, 1907, acting under a request of the Board of Education, authorized a lease of the premises at Rockaway avenue and Sumpter street, Borough of Brooklyn, for educational purposes, for a period from October 3, 1907, to July 1, 1909, at an annual rental of \$450, with the privilege of renewal for an additional year, the lessors being named therein as A. and S. Rakowitz. The lease, duly executed, which is transmitted by the Board of Education to the Finance Department, is signed by A. Rakovchick and S. Rakowitz.

An examination of the minutes of the Sinking Fund for September 13, 1906, shows that these were the parties who executed the lease authorized at that time. I would therefore respectfully recommend that the Commissioners of the Sinking Fund amend their resolution of September 20, 1907, by inserting the words, lessors, A. Rakovchick and S. Rakowitz, instead of "A. and S. Rakowitz."

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held September 20, 1907, approving of and consenting to the execution by the Board of Education of a renewal of the lease to the City, of premises at Rockaway avenue and Sumpter street, Borough of Brooklyn; lessors A. and S. Rakowitz, be and the same is hereby amended by substituting as the names of the lessors, "A. Rakovchick and S. Rakowitz," in place of "A. and S. Rakowitz."

The report was accepted and the resolution unanimously adopted.

The following was received from the Department of Bridges, relative to a renewal of the lease of Parcel "A," at Borden avenue and Dutch Kills Creek, in the Borough of Queens:

January 14, 1908.

Hon. N. TAYLOR PHILLIPS, Secretary, Commissioners of the Sinking Fund:

SIR—The lease between The City of New York and Helen McDonough, dated February 8, 1906, and the last renewal thereof under resolution of your Commission, under which this Department has occupied certain land on Dutch Kills, Long Island City, Borough of Queens, will expire February 1, 1908.

It is necessary to have this land, which is used for the purposes of a temporary bridge until the permanent bridge across Dutch Kills at Borden avenue, Long Island City, has been completed, and as the last renewal of this lease contains a clause permitting further renewals of the lease, I request the Commissioners of the Sinking Fund to authorize the renewal of said lease with Helen C. McDonough for a further period of three months from February 1, 1908, at a monthly rental of one hundred and twenty-five dollars (\$125).

Respectfully,

JOHN H. LITTLE, Commissioner of Bridges.

In connection therewith the Comptroller presented the following report and offered the following resolution:

January 18, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund approve of the request of the Commissioner of the Department of Bridges and authorize a renewal of the lease for a period of three months from February 1, 1908, upon the same terms and conditions as are contained in the present existing lease.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, from Helen C. McDonough, of a certain strip of land at Borden avenue and Dutch Kills Creek, in the Borough of Queens, known as Parcel "A," for the use of the Department of Bridges, for a period of three months from February 1, 1908, at a rental of one hundred and twenty-five dollars (\$125) per month, and on the same terms and conditions as contained in the existing lease; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The following was received from the Department of Bridges relative to a renewal of the lease of Parcel "B," at Borden avenue and Dutch Kills Creek, in the Borough of Queens:

January 14, 1908.

Hon. N. TAYLOR PHILLIPS, Secretary, Commissioners of the Sinking Fund:

SIR—The lease between The City of New York and William P. Collins, dated February 8, 1906, and the last renewal thereof under resolution of your Commission, under which this Department has occupied certain land on Dutch Kills, Long Island City, Borough of Queens, will expire February 1, 1908.

It is necessary to have this land, which is used for the purposes of a temporary bridge until the permanent bridge across Dutch Kills, at Borden avenue, Long Island City, has been completed, and as the last renewal of this lease contains a clause per-

mitting further renewals, I request the Commissioners of the Sinking Fund to authorize the renewal of said lease with William P. Collins for a further period of three months from February 1, 1908, at a monthly rental of two hundred and fifty dollars (\$250).

Respectfully,

JOHN H. LITTLE,

Deputy and Acting Commissioner of Bridges.

In connection therewith the Comptroller presented the following report and offered the following resolution:

January 18, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund approve of the request of the Commissioner of the Department of Bridges and authorize a renewal of the lease for a period of three months from February 1, 1908, upon the same terms and conditions as are contained in the present existing lease.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, from William P. Collins, of a certain strip of vacant land at Borden avenue and Dutch Kills Creek, in the Borough of Queens, known as Parcel "B," for the use of the Department of Bridges, for a period of three months from February 1, 1908, at a monthly rental of two hundred and fifty dollars (\$250), and on the same terms and conditions as contained in the existing lease; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The following was received from the Department of Bridges relative to a renewal of the lease of Parcel "C," at Borden avenue and Dutch Kills Creek, in the Borough of Queens:

January 14, 1908.

Hon. N. TAYLOR PHILLIPS, Secretary, Commissioners of the Sinking Fund:

SIR—The lease between The City of New York and Anson R. Flower, John P. Taylor and Sarah N. Flower, as executors under the will of Roswell P. Flower, deceased, dated February 14, 1906, and renewal thereof authorized by the Commissioners of the Sinking Fund, will expire on February 1, 1908.

It is necessary to have this land for the purposes of a temporary bridge until the permanent bridge across Dutch Kills, at Borden avenue, Long Island City, has been completed, and I therefore request the Commissioners of the Sinking Fund to authorize a further renewal of said lease with Anson R. Flower, John P. Taylor and Sarah N. Flower, executors, for a period of three months from February 1, 1908, at a monthly rental of two hundred and fifty dollars (\$250).

Respectfully,

JOHN H. LITTLE,

Deputy and Acting Commissioner of Bridges.

In connection therewith the Comptroller presented the following report and offered the following resolution:

January 18, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund approve of the request of the Commissioner of the Department of Bridges and authorize a renewal of the lease for a period of three months from February 1, 1908, upon the same terms and conditions as are contained in the present existing lease.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City from Anson R. Flower, John P. Taylor and Sarah N. Flower, as executors under the will of Roswell P. Flower, deceased, of a certain strip of vacant land at Borden avenue and Dutch Kills Creek, in the Borough of Queens, known as Parcel "C," for the use of the Department of Bridges, for a period of three months from February 1, 1908, at a monthly rental of two hundred and fifty dollars (\$250), and on the same terms and conditions as contained in the existing lease; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following statement and offered the following resolution relative to a refund to Catherine Reilly, of amount of fine paid in error:

January 21, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—On December 21, 1907, one Catherine Reilly paid to the Deputy Warden of the New York County Penitentiary, Blackwell's Island, the sum of \$300, amount of fine imposed on Thomas F. Reilly by Court of General Sessions February 18, 1907.

From records of the Court and affidavits submitted, it appears that on application of the said Thomas F. Reilly the said Court had, two days prior to the said payment, to wit, December 19, 1907, remitted the fine imposed, but unknown to the said Catherine Reilly or the said Deputy Warden. The fine was therefore paid in error, and Catherine Reilly is entitled to the refund thereof.

The amount of fine was deposited by the Clerk of the Court of General Sessions in the Sinking Fund for the Payment of the Interest on the City Debt.

Respectfully,

F. W. SMITH, Chief Accountant and Bookkeeper.

Approved:

H. A. METZ, Comptroller.

Resolved, That a warrant payable from the Sinking Fund for the Payment of the Interest on the City Debt be drawn in favor of Catherine Reilly, for the sum of \$300, amount of fine paid in error to the Deputy Warden of the New York County Penitentiary, as per statement submitted.

Which resolution was unanimously adopted.

The Comptroller presented the following, dealing with the history of old roads which was ordered printed in the minutes:

January 20, 1908.

To the Commissioners of the Sinking Fund, The City of New York:

SIRS—I transmit herewith additional reports dealing with the history of old roads that they may be printed in the minutes for the information of the Board in passing upon applications for releases of the City's interest in such old roads.

Respectfully submitted,

H. A. METZ, Comptroller.

Hon. HERMAN A. METZ, Comptroller:

SIR—A few weeks ago I submitted to you a general report dealing with the history of the Brooklyn, Flatbush and Jamaica turnpike. In that report special attention was called to conditions prevailing between New York avenue and the boundary line of the old Twenty-sixth Ward, and it was therein suggested that a further study of this section be made. I now have the honor to present the results of a later examination.

I have consulted with the experts of the Commissioner of Records office in Kings County, who have specially examined and studied old maps, deeds and other records relating to the matter. The conclusions are that from New York avenue to Sumner avenue, the road was in existence prior to 1664, these boundaries being stated generally. At Sumner avenue a complication arises. The original road continued up to about Reid avenue, where an angular deviation occurred, the road veering in a southerly direction (along Reid avenue) and joining the Hunterfly road a few blocks below. When the turnpike days arrived, it was found that a considerable distance could be saved by a direct road, eliminating the angular change, and such a road was made accordingly. This portion was therefore of comparatively recent date.

Between Reid and Patchen avenues still another complication arises. Some old maps show a slight curve in this section; others a straight line; and the question is whether this indicates a deviation from the original lines or not. By careful measurements the facts indicate that if a new road was laid out at this point it doubtless included a portion of the original Dutch road, and so here is presented rather a novel situation.

From Patchen avenue to a point just below Hopkinson avenue the turnpike followed the old Dutch road, but at that point there was another cut-off not unlike the one before described. The old road followed a winding course, turning south again and crossing the Eastern Parkway Extension. The later road was the string to this bow. At intersecting points, conditions similar to those already referred to may be found, but no specific instance has yet appeared in this section.

Respectfully submitted for approval.

Hon. HERMAN A. METZ, Comptroller:

SIR—I have the honor to present herewith a report dealing with the history of the old Bushwick road.

In general it may be stated that this road extended from the old settlement at Bushwick to the Jamaica road at a point which corresponds substantially with what is now known as the Cemetery of the Evergreens. For a considerable portion of the distance it followed a line that corresponds closely with Bushwick boulevard. Indeed, much of the old road lies within the lines of this boulevard and some strips of the road which were left when the present street was laid were made the subject of Legislative enactments. The particulars are discussed below.

This is an old Dutch road, according to data obtained from the office of the Commissioner of Records of Kings County. It was known, as early as 1640, as "Highway running from the Kills," and in 1661 as "het Kevis padt," meaning "The Cross Road," because of the fact that it crossed some of the other roads of old Bushwick. It was a convenient avenue of travel from Bushwick to the main highway.

The Legislature, by various acts, closed portions of the old Bushwick road and specifically authorized adjoining owners to fence in and use such lands as were not required for Bushwick boulevard and other streets. Following is a list of such acts, but this list may be incomplete. The Law Department doubtless has more detailed information on the point:

Laws of 1868, chapter 801. Provisions: Closes Bushwick road, between Grand street and Marshal (now Seigel) street and authorizes adjoining owners to fence in, use, etc., such lands as are not required for Bushwick road and other streets.

Laws of 1869, chapter 439. Provisions: Closes Bushwick road, between Remsen (now Maujer) and Meserole streets and between Boerum and McKibben streets. Adjoining owners authorized to fence in, etc.

Laws of 1873, chapter 354. Provisions: Closes all that part of Bushwick road southeast of Ivy (now Madison) street and northwest of Virgilus, late John street (now Jefferson avenue), except that part laid out as Evergreen avenue.

Laws of 1890, chapter 272. Provisions: Common Council authorized to discontinue and close all that portion of Bushwick road as laid down by commissioners on the map of Bushwick, southeast of Virgilus, late John street (now Jefferson avenue) to Evergreen Cemetery, adjoining owners authorized to occupy.

The sum of these acts leaves certain sections of the road uncovered, so it seems that there are either additional acts, or that some owners enjoyed privileges denied others. The point is important and in order that the apparent difference in the legal status of various portions of the road, I would respectfully recommend that all applications for releases along this line be referred to the Corporation Counsel.

Respectfully submitted for approval.

Hon. HERMAN A. METZ, Comptroller:

SIR—I have the honor to present report covering the history of Church lane, or avenue, sometimes called East Broadway.

Church lane branched east and west from Midwout (Flatbush), and was one of the main arteries of travel in the very early times.

That portion lying east of the present Flatbush avenue was the road through which the cattle and hay wagons of the Midwout settlers were driven to the salt marshes bordering Jamaica Bay. From this circumstance the lane was known at one time as Koe (Cow) street. A portion of the salt meadows lying just above what was known as Fresh Creek was patented by Governor Stuyvesant to Midwout in 1656 and was used in common by the inhabitants of the settlement. Salt hay was a product of great importance, for it furnished a natural fodder for cattle that the untamed uplands would not yield without the expenditure of considerable time and labor in cultivating the ground. It was very largely for this reason that marsh lands were eagerly sought by all the pioneers in the section.

Church lane furnished an almost direct road from Midwout to the head of Fresh Creek and continued along the road that skirted the marshes.

By data obtained from reliable sources it appears that Church lane was referred to as "The Road" January 29, 1658, and as "The Highway" on November 3, 1659, in official documents.

Both of the dates mentioned were included in the period of the Dutch sovereignty here, so there does not appear to be any doubt about the fact that Church lane or avenue, sometimes known as East Broadway, was a Dutch road and under the law of Holland was owned absolutely by the government of which the present City of New York is successor.

That portion of the road lying west of the present Flatbush avenue was also Dutch and what has been said of the other portion may be applied to this with such alterations as the geographical features of the country suggest.

On March 15, 1899, the Board of Public Improvements authorized the opening of Church avenue, from Flatbush avenue to Brooklyn avenue.

On December 19, 1902, there was a reduction of assessments, the City assuming 55 per cent. of the cost of the proceeding. On April 28, 1903, the report of the Commissioners was confirmed.

In this proceeding the lines of Church avenue were straightened and portions of the old road, which followed an irregular course, were left between the land of private owners and the lines of the new street. Several applications for releases of the City's interest in such strips are now pending.

Numerous other references showing the road to be very ancient might be cited, but those already adverted seem to render unnecessary any further discussion of the point.

Respectfully submitted,

SIR—I have the honor to present herewith a report dealing with the history of Lotts lane, or Little lane.

This road connected the main road with what was known as the road from Flatbush to New Utrecht in the days of the Dutch sovereignty. A part of the lane is still open and in use as a public highway.

In Dutch days this lane provided something of a short cut from Flatbush to New Utrecht and the shores of Gravesend Bay. The Bay was then a place of much activity because of the valuable shore and water industries.

The Court minutes of Flatbush, under date of December 15, 1662, contain the following entry:

"Lubbert Lubberts asks for a house lot in this town Midwout, on the west side of said town, on the south side of the road and on the west side of the cross road, wide 6 rods, long 16.

"The request of Lubbert Lubberts was granted by sheriff and judges."

From the foregoing description and others in the locality, the property has been located by the searchers of the office of the Commissioner of Records in Kings County and "the road" mentioned was what is now known as Lotts lane.

In the year following—on March 30, 1663—Jan Cornelessen Van Tassel offered security for the payment of a horse that he had purchased some time previous from Jan Eevers Bout. In the acknowledgment Van Tassel declared that he was "clearly indebted to the worthy Jan Eevers Bout to the extent of 50 bu. good marketable rye arising from purchase of a horse that I acknowledge to have received, which I promise to pay at Christmas next, anno 1663, exactly and to satisfy the same I pledge my person and property, especially my farm situated at Midwout, on the north side of the road, and on the south side of Alber Krenick which I place under obligation not to diminish or alienate the same before or until that I have satisfied the above mentioned Jan Eevers Bout." All of which was done before Wellem Jacobs van Borm and Hendrick Koress, judges of the town of Midwout.

Thus, Van Tassel's farm is definitely located as lying between Lotts lane and the Kuenick farm. The Polhemus farm was just across the road to the south, so Lotts lane formed the boundary between them.

In view of the foregoing, there does not seem to be room for any reasonable doubt that Lotts lane is a Dutch road.

From the records of Topographical Bureau it appears that on November 9, 1891, Lotts lane, from Ocean parkway to Coney Island avenue, was closed. On December 31, 1903, Lotts lane, from Ocean parkway to East Second street, was closed.

That portion of the old road from Flatbush avenue to Coney Island avenue lies wholly within the lines of the present Avenue C, so no question in connection with releases is likely to arise in this section. That portion from East Second street westward is still in use.

The Comptroller presented the following relative to the lease of premises at Broadway and Ninety-sixth street for the use of the Fifth District Municipal Court:

January 15, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—At a meeting of the Commissioners of the Sinking Fund held the 4th day of December, 1907, a resolution was adopted which authorized the leasing of additional court room space in the premises on the southwest corner of Broadway and Ninety-sixth street, which resolution contained a clause that upon the cancelling and surrendering the old lease between the City and the owner of the property, a new lease was to be entered into for a period of five years with additional privileges, for not only the space heretofore occupied, but also the new space to be occupied for court room purposes.

Mr. Samuel Jackson in a communication dated December 24, 1907, transmits the old lease and surrenders the same to the City for cancellation.

I would respectfully recommend that the Commissioners of the Sinking Fund authorize the Comptroller to receive said old lease properly cancelled by an endorsement thereon.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

On motion, the Comptroller was authorized to receive the old lease.

The following was received from the President of the Borough of Brooklyn, relative to a lease of premises at No. 209 Montague street, Borough of Brooklyn.

BROOKLYN, December 17, 1907.

The Honorable, the Board of Sinking Fund Commissioners:

GENTLEMEN—I hereby request your Honorable Board to lease for a period of five years, for the use of the Topographical Bureau, office of the President of the Borough of Brooklyn, thirty-five hundred (3,500) square feet floor space on the second floor of premises at No. 209 Montague street, Borough of Brooklyn.

Yours truly,

BIRD S. COLER, President, Borough of Brooklyn.

BROOKLYN, December 13, 1907.

Hon. HERMAN A. METZ, Comptroller, No. 280 Broadway, New York:

DEAR SIR—I beg to forward to you herewith report addressed to the Commissioner of Public Works by the Assistant Engineer in charge of the Topographical Bureau again referring to the question of securing proper office room for that Bureau. I am sure you will agree with me that it is a matter of the utmost importance to secure safe quarters for the very valuable records with which this office has to deal. I understand that there is a building available now in Montague street next to the Mechanics Bank Building, and I would respectfully request that you, through the Sinking Fund Commission, lease the premises therein for the use of the Topographical Bureau.

Yours very truly,

BIRD S. COLER, President of the Borough.

December 7, 1907.

Hon. DESMOND DUNNE, Commissioner of Public Works:

DEAR SIR—Directing your attention to the many letters I have written you, making application for additional office room, and giving reasons why I consider unsuitable our present quarters in the Thomas Jefferson Building, I desire again to call your attention to this fact:

The recent fire in the Franklin Building, on Remsen street, Brooklyn, destroyed one of the City offices, namely, the Triangulation Bureau, which is closely identified with the Topographical Bureau, and I am informed that many valuable records belonging to the Triangulation Bureau were destroyed, and I feel it is my duty to again call your attention to the fact that the quarters we now occupy are not fireproof, and if the valuable records belonging to this office are ever destroyed by fire, the blame for

not securing proper quarters for the Topographical Bureau can be placed where it properly belongs.

The work of this Bureau is directly for the use of the Local Boards, the Board of Estimate and Apportionment, for the Corporation Counsel's office, in the matter of condemnation proceedings for street openings, and for the various other City departments. Hence it affects the map of the City, which is the basis of all City improvements, and, therefore, not only the local improvements such as highways, sewers, etc., but in a greater or less degree, the work of all other departments of the Borough depend upon the work of the Topographical Bureau.

There are in this office maps, history and status of streets, and other information which have been prepared partly through data obtained by searching and rumaging not only the different City offices, but the offices of some of the City Surveyors. These maps and data, if lost or destroyed, could not be replaced, and are, therefore, invaluable to the City.

That a fireproof building is absolutely essential to preserve the valuable records of the Topographical Bureau, is too obvious to dwell upon.

The rate at which new records are accumulating, and the necessity of keeping them available for instant reference, requires the use of a system which has outgrown the space at our disposal.

The public convenience makes it imperative that additional room be provided in a fireproof building, and I hope that readjustments can be made to accomplish this result.

Very respectfully,

CHAS. P. WARD, Assistant Engineer in Charge.

In connection therewith the Comptroller presented the following report and offered the following resolution:

January 22, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Topographical Bureau of the office of the President of the Borough of Brooklyn has been occupying quarters for a number of years past in the Thomas Jefferson Building, Nos. 4 and 5 Court square, Borough of Brooklyn. The business of the office requires the hiring of additional space, and the safety of the papers and records of this office requires that quarters shall be obtained in a fireproof or as near a fireproof building as can be leased by the City.

The only premises found suitable for the use of the President of the Borough is the entire second floor, with the exception of one room, in the building known by the No. 209 Montague street. This room, which has been eliminated from the proposed lease, is rented to the Dean-Alvord Company, to May 1, 1909, and the owners of the property have agreed that if the City makes a lease of the remaining portion of the second floor, that at the expiration of the Alvord lease they will turn that over to the City, thus giving the entire second floor for the use of the Topographical Bureau.

The number of square feet on this second floor, exclusive of the office already rented, and of hall space and toilet rooms, is 3,082, and the owners agree to rent this to the City at the rate of \$1.50 per square foot, and agree to furnish light, heat and janitor service. There is no elevator in the building, the rooms being but one flight up, are easy of access at all times.

The owners will not put up new or remove any of the present partitions dividing the second floor into offices, but no objection will be made to the City making such alterations.

The City is now paying at the rate of \$1.50 per square foot for rooms in the Temple Bar Building and \$1.25 per square foot for rooms in the Mechanics' Bank Building, and in neither of these buildings has there been found sufficient room with the proper light and ventilation to accommodate this Topographical Bureau.

Under the circumstances I consider the rent fair and reasonable, and I would therefore respectfully recommend that the Commissioners of the Sinking Fund approve of a lease of the entire second floor (with the exception of office No. 2) in the building No. 209 Montague street, Borough of Brooklyn, for a period of five years from February 1, 1908, at an annual rental of \$4,623, payable quarterly; the lessor to furnish light, heat and janitor service; the City to make such alterations and repairs as the Borough President may deem necessary for the benefit of the work of the Topographical Bureau, but not without the consent of the owners of the building. The lease to contain a privilege of renewal for an additional period of five years, upon the same terms and conditions. Mechanics' Bank, owner; the Chauncey Real Estate Company, Limited, landlord's agent.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City, from the Mechanics' Bank, of the entire second floor, with the exception of office No. 2, in the building No. 209 Montague street, Borough of Brooklyn, for the use of the President of the Borough of Brooklyn, for a period of five years from February 1, 1908, with the privilege of renewal for an additional period of five years upon the same terms and conditions, at an annual rental of four thousand six hundred and twenty-three dollars (\$4,623), payable quarterly; the lessor to furnish light, heat and janitor service; the City to make such alterations and repairs as the President of the Borough may deem necessary for the benefit of the work of the Topographical Bureau, but not without the consent of the owners of the building; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable, and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

The report was accepted and the resolution unanimously adopted.

Adjourned.

N. TAYLOR PHILLIPS, Secretary.

EXECUTIVE DEPARTMENT.

REPORT OF THE BUREAU OF WEIGHTS AND MEASURES FOR THE YEAR ENDING DECEMBER 31, 1907.

Hon. GEORGE B. McCLELLAN, Mayor:

Sir—Herewith I respectfully submit the annual report of the work performed or entered upon by the Bureau of Weights and Measures attached to your office during the year ending December 31, 1907, being the third annual report made by this Bureau.

In the compilation below is given the summary of the investigations made and complaints filed, also a statement of the amount of penalties involved in the violations found.

Without sufficient power and adequate available funds much work has been accomplished. The necessity for many needed reforms in the weights and measures system and law has been found, and action has been taken thereon which it is hoped will help solve the short weight problem. In an additional statement is set forth some of the problems and difficulties which have been met with, also the requirements and necessities of the Bureau as the same have presented themselves to me, together with a partial outline of the methods used by tradespeople in selling commodities and necessities of life.

The total number of places visited by the field staff of eighteen Inspectors during the year, where investigations were made, was 44,276.

The number of complaints found in violation of the ordinance was 2,963.

The aggregate amount of penalties involved in the complaints found is \$53,960.

The miscellaneous instruments inspected include cheese cutters, oil tanks, etc.

Of the 2,651 violators found two were for third offenses in 1907, thirteen for second offenses in 1907 and thirty-seven for the second offense within two years.

There are now 6,000 dealers using correct scales, etc., who formerly used fraudulent ones. Once a report is made to this Bureau of the use of incorrect instruments constant visits are made by different Inspectors to see that the law is observed. The figures above show that the use of crooked scales, etc., by any storekeeper is not of long duration, as the reinspection of those found violating the law in 1905 and 1906 show that most all are now using correct instruments.

One of the problems which confronted the Bureau during the early part of the year was the question of the power of the Bureau to condemn a certain computing scale on the ground that the computing device was fraudulent. The matter was made the subject of a suit by the computing scale company in the United States Court, in which it is set forth that the action of this Bureau has caused the loss of at least \$3,000 in profits, together with a charge of conspiracy to ruin their business. The case is now in court awaiting a hearing.

Sale of Agricultural Products.

During the summer months an investigation was made of the wholesale produce business. Produce merchants to the number of 435 were visited by the Deputy Chief, to ascertain what system of weights and measures prevailed in that kind of business, and to collect the data required to frame an amendment to the ordinance to cover this point. The present ordinance is not specific enough, and does not at all touch upon the produce business. In one of these investigations Mr. Fritz Reichmann, the State Superintendent of Weights and Measures, accompanied Mr. McCoy, who pointed out the conditions existing in the largest produce markets.

There is a Domestic Commerce Law governing weights and measures in this State under which the Superintendent of Weights and Measures is working, and which partly deals with the produce business, inasmuch as the standard weight of a bushel and the size of a barrel for certain agricultural products is defined, while a majority of such products is not mentioned in said law as to how such shall be sold. In order to have uniformity in the laws of the State and City on this subject certain amendments to the ordinances were formulated and presented to the Board of Aldermen and accepted by the Committee on Code Revision, but have not as yet been legally adopted. A copy of the proposed amendments has been forwarded to the State Superintendent of Weights and Measures at Albany, for the purpose of having him offer the same as an amendment to the Domestic Commerce Law, and if such amendments are made there will be a uniformity in weight and size of packages, boxes, crates, barrels, etc., used as containers for farm produce in this City and State, which at present is packed and shipped from different parts of the State to this City, where the contents are sold by the local merchants in the original packages. Many articles shipped by growers and farmers to this city are put up in crates or packages upon which a deposit is exacted from the receiver, such deposit being refunded when the crate is returned. Several dealers who have been interrogated upon that point of the Domestic Commerce Law which prohibits "any receiver of farm products from opening any crate, etc.," unless the name of the grower be first eliminated have stated plainly that the enforcement of this part of the law would entail a great hardship, for the reason that growers or farmers would not receive in return for a deposit any such crate not bearing their name; therefore the deposit paid would be lost. When it is considered that every receiver in this city must pay such deposit on crates, this enforcement would indeed be a hardship. Barrels of apples, pears and potatoes were found which did not conform to the size specified in the State Act. Many different sizes of barrels were found being used by merchants for the sale of the above-mentioned products—flour barrels which hold more than the standard, cement barrels which do not come within one-half a bushel of the required size, new barrels that were even smaller, and a lot of other barrels that were of such a variety of sizes and shapes that measurements were confused. The Domestic Commerce Act provides that barrels used for the above-mentioned products shall measure $17\frac{1}{2}$ inches across the head, 28 inches length of stave and 64 inches in circumference around the bilge. There is another section of the same law which prescribes that a barrel not conforming to the standard shall be marked with the word "short," and they then become a legal standard barrel in this State. Potatoes are sold also in bags of weights ranging from 140 to 180 pounds.

Many sizes of baskets called half-barrels, or what were offered as such, were found in use, they being very narrow at the bottom and broad at the top to make them look big. Some of these alleged half-barrels contain about a bushel, and there are short-halves in use that look larger than the full halves. None of such were marked in any manner to indicate their shortness. The Domestic Commerce Act does not mention the size of half-barrels as standards. They were introduced to suit the needs of the trade by the trade itself. The old method of selling farm products by the bushel basket has been almost entirely discarded, and the only use of this standard at present is by the farmers, who find it a convenient article to pack in their wagons, likewise to carry with. There has been found alleged bushel baskets of many sizes, but offered to an Inspector as a basket only.

It was found that many local dealers buy their wares from the farmers by the bushel, and the bushel is emptied into some other receptacle and returned to the farmer; then the commodity is offered for sale in bags, of no known size, for a bushel. One of such instances came under notice in the offering of a bag of beans. When the capacity of the bag was asked, the merchant replied "a bushel." "What kind of a bushel?" was again asked, and the reply made was "a farmer's bushel." It was a stingy farmer who sold this three pecks for a bushel; so conditions as above described in the sale of the several mentioned articles are those prevailing in this trade.

An interview had with one of the largest and longest established commission merchants in the old produce district brought out the fact that there should be some standard package established for the shipment and sale of produce, that all such packages should be plainly marked with the word "standard," and no other should be allowed in use. He pointed out the difficulties that merchants met with in this particular respect in the sale of potatoes, apples, etc. A merchant buying a cargo of apples may examine several barrels at the pier, which are of the standard size, and he agrees to buy; but when delivery is made he finds several different sized barrels in the lot. All such commodities are sold by the package, and there is not the slightest pretense made of selling a standard-sized barrel; in fact, the packers and shippers find fault when they are sent full-sized barrels to pack. Occasionally the barrel factories are too busy up the State to meet the demand, and the merchants send up barrels made here, which are of the standard size. The conditions found are easily traceable to the original shippers or farmers; and as the different States have different laws on weights and measures, which are seldom enforced, many States ship their products to this City. Therefore a great variety of measures results here. I do believe that most of the farmers do not know of any weight or measure law, and until some uniformity of the laws of this and other States sending produce here is brought about the enforcing of any law of this State alone upon the subject would work a very severe hardship upon all concerned. I firmly believe that the great majority of merchants and farmers are ignorant of any intent to evade or break the law, and are using packages of a size that suit and meet the demands of the purchasers. In order to establish some intelligent

method of measurements that will bring about a uniform standard of weights and measures suitable recommendations to amend the Domestic Commerce Act have been made by the State Superintendent of Weights and Measures at Albany, that officer having jurisdiction of the weights and measures law of the State which must be enforced up the State among the growers and farmers, first, in order to bring this problem to an issue, as there is where the root of the evil lies. The City ordinance will be amended so as to conform with the State act when passed; then some sort of uniformity of standards will be had in containers used in the produce business.

The Sale of Sundry Articles.

It has been found that the sale of proprietary or put-up food articles constitute the bulk of the grocery trade at present. So many varieties of food stuffs are sold by grocery, delicatessen and other stores which are put up or packed in cans, cartons, boxes, glasses and bottles by growers, manufacturers, packers and others, that it would seem to me that in a short time every commodity will be so sold. Most all such commodities are sold by the package, box, jar or whatever the container may be without any statement relating to the weight or measure of the contents of such container. With only a few exceptions is such a statement offered the buyer, who must buy the container as it is without knowing what the particular package contains as to capacity. There was a time, not so very long ago, when most all of the put-up cereals were advertised and sold full weight, either of one or more pounds. Now I believe that there are very few cereals sold and marked full weight, and even the manufacturers of these have begun to leave off the statement of weight that was formerly displayed upon the label. One manufacturer of a certain cereal that was advertised extensively as two pounds full weight has ceased putting two pounds in the cartons, and now puts in twenty-four ounces, the statement of which is printed on the side of some of the cartons in letters so small that good eyesight is essential to read it.

The following notice issued by one of the large grocery houses to its salesmen will show how the investigation of this Bureau has been met, and how the grocery trade has taken advantage of the absence of a net-weight-package law in this City:

NOTICE.

"In view of the campaign which the City Weight Inspectors contemplate making, we are going to sell all package goods per package and all bulk goods per box. Changing in the listing of these prices will be made in your books as soon as possible; in the meantime, make your own changes from the change book as they are entered from time to time; your co-operation in this matter is earnestly urged, as we desire to avoid all trouble."

Olive oil as sold in bottles is about the worst bottle fraud found. The different firms putting up this article endeavor to follow a particular style and shape of bottle. The small size is made so thin that the oil in the bottle when looked at as it stands upon the grocer's shelf is hardly perceptible. One of those imaginary bottles exhibited by a grocer, who could not tell how many fluid ounces it contained, and offered the information that it was supposed to contain a quarter of a pint, but thought it fell short several ounces of that quantity; his quart bottles he said held about 20 fluid ounces. This size he called a French quart; it weighed 31 ounces gross. Many such articles sold in bottles are put up without any regard to the capacity whatever.

Different brands of lard are put up by the large packers and sold in tin cans called pails, which are known by the trade as number 3, 5 and 10 pails. It was found that these pails contained nearly 3, 5 and 10 pound gross weight. Now this is very significant, inasmuch as one concern not identified as a large packer puts up and sells lard in 3, 5 and 10 pound pails net weight. One firm of packers puts up lard in numbered tins of gross weight, and under their own label also put up for one retail grocery house in this City cans containing net weight.

Dressed Chickens and Pork Tenderloins.

The above mentioned articles are put up in cases and barrels and shipped from western points by packers of such commodities. The cases being weighed at the time of packing, then kept in storage (for how long nobody knows), they lose weight by evaporation, at least so an expert chemist testified in behalf of one of the large packers which the Bureau prosecuted for short weight. It was testified to at the trial by experts for the defendant that a case of chickens weighing 200 pounds had lost two pounds in two weeks by evaporation. The particular case of chickens in question was purchased by an Inspector of this Bureau and was found to be $4\frac{1}{2}$ pounds short of the weight marked upon the case, which weight was charged and paid for. This violation was prosecuted under section 581 of the Penal Code, which resulted in having the defendant convicted and fined \$200. The salesman selling this particular case of chickens admitted that it was his orders to sell case goods by marked weights. In order to successfully prosecute under the above section it was necessary to prove that the goods were knowingly sold short of weight. This was and is a hard matter to prove. The complaint was lodged against the salesman, as the law distinctly states that the person selling the goods is responsible. This to my mind is an injustice, and I believe that the code should be amended so that the head of the concern would be prosecuted instead of its salesmen. Cases of pork loins weighed since this conviction was had show that the weight is now correct; still the butchers are obliged to pay for $2\frac{1}{2}$ pounds of paper on every hundred of pork loins, as this amount is usually found wrapped around loins in a case of 100 pounds.

Milk and Oil Sold in Bulk.

Milk and oil in bulk is delivered by some dealers to restaurants, stores, and others, in quantities of gallons. It was found that cheating at measure prevailed in the following manner. For instance: Instead of 20 quarts ordered, 16 quarts were delivered by the dealer or his driver, who would use a four instead of a five-gallon measure, making two trips from the wagon. He would then transfer it into a can or tank provided for that purpose by the purchaser, who, not suspecting that fraud was ever intended, much less actually perpetrated, seldom remeasured the article, taking it for granted that full measure was delivered. At first trading the full measure was delivered for a while, or until vigilance was relaxed by the purchaser, when the four was substituted for the five-gallon measure by the driver who delivered that for five gallons, thereby cheating the purchaser out of one gallon in every five. This is quite a new idea of using sealed standard measures for delivering short quantities, and but recently found out by the Bureau in the delivery of oil to a groceryman, who, working in conjunction with the Bureau, complied with its suggestions and found that he was himself a victim of the four for five-gallon plan of delivery. When he asked the driver to remeasure his oil the driver suddenly found out his error in measures and explained the same by stating that the four and five-gallon measures looked so much alike that he picked out the wrong one by mistake.

Oil in Gallon Cans.

Astral oil was found to be largely sold in one-gallon cans, fitted with a patent stopper, which cannot be refilled readily.

Many of these cans were tested and found to have sufficient capacity. Several complaints have been made that when cans of oil are delivered they fall short of the full gallon, but as these cans are so constructed that pressure is required in filling and if properly filled there is on the whole no serious fault to be found with these as measures; but there should be some assurance that such cans are properly filled and contain full measure.

Butter Sold in Prints.

The first conviction obtained by the Bureau for the selling of print butter in a store, one ounce light to the pound, was recorded in December under section 388 of the ordinance. The penalty for offences against this section is but ten dollars. The majority of print butter is delivered at homes by route wagons, the ordinance does not at present permit of the reweighing of goods in transit; consequently the Inspectors find much difficulty in weighing print butter while in wagons. The general test of prints made at the large dairies show an effort to put full weight in each print, as many of them were found a fraction overweight.

Ice, Wholesale.

A far better condition was found in the ice trade during the past summer than existed during the summer of 1906, the large companies having provided each wagon with a specially constructed beam scale, all of which were tested and certified by this Bureau. Several violations were found among peddlers for using defective scales who were prosecuted accordingly.

Ice, Retail.

The sale of ice in small quantities is quite enormous in the poorer localities during the hot summer months, when the usual five-cent piece is raised to ten cents. The sale of this article should be so regulated that it should be sold by weight only. There are about 3,000 small dealers selling ice in summer; they are generally located in cellars or basement stores in the thickly populated neighborhoods. Some few have wagons and sell therefrom, but none have scales wherewith to weigh. I believe that these dealers should be compelled to take a license or register with this Bureau so that complete supervision could be had over those engaged in this trade.

Coal.

During the months of November and December the Bureau's attention was given throughout the entire City in reweighing loads of coal with results as follows:

Table of Coal Reweighing.

Loads weighed and reweighed.....	729
Number of loads found even weight.....	314
Number of loads found under weight (average 19 pounds to ton).....	164
Number of loads found over weight (average 37 pounds to ton).....	184
Number of loads found short where violations were reported.....	67
Total number of tons reweighed.....	1,193
Number of tons being delivered in 67 loads found under weight.....	117
Total shortage in pounds.....	15,035
Average shortage in pounds per ton.....	127 3/4
Complaints made for failure to show delivery ticket.....	57
Complaints made for failure to reweigh loads.....	17
Total number of complaints made against dealers.....	141

About the worst kind of cheating at weight was found in this trade, it being found that a regular practice existed among small dealers or middle-men, of buying seventeen, eighteen or nineteen hundred pounds of coal from a reputable dealer and then delivering the same to their customers for a ton. These middle-men would buy a full ton early in the day and keep the ticket accompanying that to present to a purchaser questioning the weight of a light load bought later on. Many were found that did not have the ticket or certificate of weight, as required, attempting to deliver loads. During the early part of the year all the large dealers in Brooklyn were consulted about the practice of selling less than ton weights to this class of tradesmen, some of whom were willing to sell only in full ton lots to protect themselves, while others were reluctant to stop the sale by the hundred weight as above described, for the very good reason that they would lose that kind of trade which is considerable, and as the law permits such sales they were undecided as to initiating any new method of selling coal which might not be followed by other dealers who would take advantage and sell to this class of trade. There has since been partly arranged by all the dealers in Brooklyn, except one, doing business of this kind, a system of selling even tons; so this method of giving short weight it is hoped has seen its best day.

One load of coal held up just as it was about to be delivered for 8,000 pounds proved to be 2,320 pounds short, another was 1,230 pounds short on four tons, and a load of one ton was 450 pounds short. It seems a pity that the penalty under the ordinance is but ten dollars, as such violations as above described should be prosecuted criminally.

There is a State law relating to the delivery of coal which places the penalty at \$50, and is recoverable by a civil action. The Bureau cannot operate under this law, for the reason that it provides that none but the purchaser shall have the right to have coal reweighed, and then only on scales designated as official scales, which scales must not be more than one-half mile distant from either the loading or unloading points. This being the case, the Bureau operated entirely under the ordinance which permits Inspectors to use any scale available.

The State Coal Law allows thirty pounds to the ton for variation in scales and wastage. This allowance has been observed by the Bureau in all its tests. I believe that it is not a just allowance, for the reason that many dealers hide behind this in sending out coal. The Corporation Counsel in charge of the Bureau for the Recovery of Penalties has returned to this office complaints wherein this thirty pounds was not allowed by an Inspector on a test where no wastage could occur and where no variation in scales existed, as the same scale was used in reweighing. That section of the State Coal Law limiting the distance to one-half mile that loads may be taken for reweighing by purchasers is inoperative in many parts of this city, as no official scales are located in certain localities. There are many large buildings down town that are more than one-half mile distant from such scales. Not one official scale is located in the Borough of Richmond, so that the purchasers of coal in that Borough cannot avail themselves of the coal law. But one official scale is located in the Borough of Queens, and that at Flushing. If a purchaser desired coal reweighed in that Borough he could not legally have it weighed to determine whether or not he was getting full weight unless he resided within a half-mile of that official scale at Flushing. The same applies to the upper sections of the Boroughs of Manhattan and The Bronx. Recommendations have been made to amend this law so that all persons in this city will be given equal protection under it.

Varied are the excuses offered by dealers when confronted with complaints of short weight. One up-to-date excuse offered by a dealer was that the dog ran on the scale and was weighed in; the load was found 80 pounds short. Water is used ostensibly for the purpose of keeping down dust when coal is dumped. However true that may be, I am not prepared to say. The users of coal may know of this habit or they may not, and I presume that they have to pay for the dust killer so thoughtfully furnished at coal prices.

Retail Coal Dealers and Peddlers.

There are about 2,500 persons engaged in selling coal in small quantities in this city. Complaints to the number of 1,200 were lodged against these men for selling coal in unsealed measures, and selling by weight without weighing. All these cases were dismissed in court by the several Judges for the reason that the dealers (who are 95 per cent. foreigners) claimed that they did not know the law. This has been made the subject of a recommendation to the Code Revision Committee of the Board of Aldermen that all coal should be sold by weight. The method in vogue of selling coal by the pail, basket or bag is practiced generally in localities inhabited by the poorest of the poor, who need all the protection they can get as regards full measure. Some of these dealers are now using scales for the sale of coal in amounts of 100 pounds or less.

To properly handle this traffic all such dealers should be compelled either to take out a license or to register at this Bureau. Then a constant supervision could be kept over this trade by the field men in their districts and the office itself through the issuance and renewal of certificates, etc.

Charcoal.

This commodity is most commonly sold in heavy paper bags without any reference to its weight, measure or capacity, by grocers and retail coal dealers. Such bags should be standardized; likewise the article. A purchaser should be assured that a bag contains charcoal and not half dust, as most of them do, which, when put into a house stove resembles miniature pyrotechnics, but does not give forth heat as charcoal usually does. At the advance in price of this commodity from 8 to 12 cents per bag in recent years, and the reduction in weight of about two pounds the bag, it will be seen what the dust in a bag costs. This article should be sold under regulations that will define the capacity, also the smallest sized pieces that should be allowed in a bag, the biggest pieces will take care of themselves as there are not many at any time.

Sold by the Barrel From Wagons.

There is no standard size barrel for the sale of this article; the barrel most commonly used is generally of the cement size, but smaller if obtainable. There is a standard box used in Massachusetts for the sale of charcoal which should be adopted here.

Kindling Wood.

This article is commonly sold by retail coal dealers and grocers and needs standardizing. This wood is sold for 2 1/2 cents per bundle. As the price of this article has advanced 1 1/2 cents the bundle, the size has diminished until the name of kindling wood was lost and bundled wood substituted. Formerly the wood in bundles sold for a penny was of hard pine and well packed together. It is now sold for 2 1/2 cents the

bundle, contains a poor grade of soft or light wood, and is put up in bundles reduced in height three-quarters of an inch and several inches in circumference. There are many open spaces in the bundle that should contain wood. The reason for such skimpy bundles lies in the fact that the blocks are not cut to any uniformity of size, several bundles lies in the fact that the blocks are not cut to any uniformity of size, as several pieces are cut long and are so placed that they hold the centre and edges together but leave many gaps to show in the rest of the bundle. In the 2 1/2-cent bundle sold to-day there is about three-fourths the value of the bundle of a few years ago.

There is an old ordinance that regulates the sale of firewood by the load. It prohibits crooked logs to be placed with straight ones so that the space will not be lost. I would recommend that the same be amended and applied to cover the sale of firewood by bundle, bag or other container.

In order to more fully set forth the conditions prevailing in the sale of food commodities I present herewith a synopsis of the report of the investigation thereof as presented to me by the Deputy Chief of the Bureau, Francis M. McCoy.

REPORT.

Hon. PATRICK DERRY, Chief, Bureau of Weights and Measures, New York City:

Sir—In the matter of the investigation of the sale of proprietary or put-up food articles, and the necessities of life, as commonly sold by the box, bag, package, can, tin, bottle, carton or other container in this City, I have to report that I visited the largest department stores in the city selling put-up food articles. I examined and weighed a number of such articles; the examination consisted of scrutinizing the container to find if a stated weight or measure appeared thereon, and the test for capacity consisted of weighing several of each containers full, and empty, when possible, in order to ascertain the true weight of the contents of such package.

There being vast numbers and varieties of containers, I determined that for all practical purposes the testing of several of such would suffice, and if those packages so tested were found net weight, that article would be credited as being full weight. With this great advantage in favor of finding net weight, I have to report that packages sold without any statement of weight were found of various weights. Some such articles found contained a statement of the weight of the contents, but were short in weight from one ounce on small to fifteen ounces on the large packages, according to size. Many ways of stating the weight upon cartons are appearing, all of which are misleading or used for the purpose of deception. For instance, statements like the following have been found: A package with the words "one pound" printed across the face in letters about one-fourth inch high or more, very plain and easily read, and right above this, and hardly perceptible, the word "approximately." Another carton plainly marked "two pounds" near the top and the word "gross" near the bottom in small letters.

A cereal package stamped with a blurred rubber stamp, which could not be easily read, set forth that the package contained twenty-three to twenty-five ounces. Sacks of flour were offered by one store in this city as twenty-four and one-half pounds gross; actual gross weight was twenty-four pounds. After weighing this sack the assistant buyer claimed that each such sack was sold as a bag. Many articles put up in jars, tumblers, bottles and glasses are sold by sizes, such as large, medium and small while some identical articles are sold at a stated weight or measure in identical containers. I was unable to find the tare of bottles, jars and cans that were sealed, or to find the true quantity that they contained, from the fact that in order to test the quantity the goods must be bought. The bottle system is used to a great extent in defrauding the public. Many articles are sold in bottles which are advertised as large, medium and small bottles. It was found that a great difference in sizes existed between a large, medium and small bottle of one commodity and that of another. For instance, grape juice and olive oil. The medium bottle of grape juice was found to be of as great a size and weight as the large bottle of olive oil.

Oil is also sold in tin cans and in quantities of a pint, a quart and one gallon, which contain the standard measure. In some bottles holding a supposed quart the standard weight or measure is lost entirely. Bottles of different sizes and shapes are put up by the various packers, and if customers ask for a quart bottle of olive oil the so-called large bottle is invariably handed out, which contains thirty-one ounces gross, whereas the weight of a full quart is 32 fluid ounces net. There is one retail house in this city selling 32-ounce net quarts of olive oil in bottles.

About one hundred different brands of cereals put up in pasteboard cartons were weighed in the different department stores. In only a few instances was the weight stated on the cartons. Most all are put up without such a statement, and were found to resemble a one or two pound package, their gross weight being about fifteen ounces on small sizes and thirty ounces on large sizes, leading me to believe that the boxes are packed to represent a stated weight. A breakfast food put up in two different sizes of cartons, the packers of which have but lately stopped advertising full weight, was weighed, and the size formerly sold as containing two pounds was found to contain on an average of twenty-two ounces gross, while the former five-pound size tipped the scales exactly at four pounds twelve ounces gross. Since this investigation began it was found that this concern has adopted a new style package, which bears the statement on the side of same, and in exceedingly small letters, the information that the package contains twenty-four ounces net.

Flour.

Bags of flour of several well-known brands were weighed, all the bags being marked either seven, twelve or twenty-four and one-half pounds. One department store selling flour under their own name had the word "gross" added to the weight. The tare of the twenty-four and one-half pound sack is usually two and one-half to three ounces. The seven-pound bags weighed from five pounds and twelve ounces up to seven pounds gross.

Eleven twenty-four and one-half pound bags of a well-known brand were weighed, and not one was found twenty-four and one-half pounds gross. Ten sacks of another brand totaled a shortage in weight of seventy-nine and one-half ounces, an average shortage of one-half pound to each. But one sack in this lot showed full weight. The third brand weighed, which is put up in similar sacks, totaled a shortage in weight of fifty and one-half ounces, or an average shortage of four and one-half ounces on each sack. Not one sack of this brand was found to weigh twenty-four and one-half pounds, as represented. Eleven sacks of another popular brand totaled forty ounces short, or an average of three and seven-tenths ounces. Smaller sized packages were found not marked which weighed from one pound ten ounces to two pounds gross. A few brands are put up in three-pound bags and were found to be light weight. I found them to be about three pounds gross weight.

The twenty-four and one-half pound sacks are called one-eighth of a barrel; the seven-pound bags are called twenty-eights. The percentage of net weight flour is so small that I have to report all sacks short measure.

Baking Powder.

This commodity is one of the few put up in tin cans marked and sold at net weight. Peculiar it is to find this article having the weight marked not only on the label but stamped in the cover of the can as well. All brands of this article were found net weight.

Cocoa, Chocolate, Tea and Coffee.

All such found put up in cans were marked with the net weight, and upon examination were found to be as stated. Tea put up in ten-cent lead wrappers was found to contain two ounces net. This size is generally sold in the cheaper grade of stores in poor localities, and results in costing the purchaser eighty cents per pound.

Soap Powder.

The manufacturers are putting up this powder in cartons of different sizes, some with weight marked, others not. On the top row of a newly opened case of one brand were found five packages with the words "four pounds" marked on same; the balance of the packages on this row were minus this statement. The marked packages were weighed and found to contain three pounds fourteen ounces gross. The weight of the carton I could not determine, as there were none empty at hand, but a similar carton weighed three ounces, which, deducted from the gross weight, left the so-called four-pound package five ounces short each.

Another solvent powder put up and marked as one pound weighed upon examination fourteen ounces gross; tare of box, one ounce; net weight, thirteen ounces.

Soap in Bars and Cakes.

No statement of weight found on same; different weights and sizes offered for sale.

Spices and Extracts in Bottles and Boxes.

Some brands are marked with weight and capacity; others are not marked. Some bottles of extracts are sold as bottles, and no capacity mentioned. The smaller sizes are mostly all bottle. I did not measure any to find the capacity, but a look told plainly that the contents of this size were little and the bottle itself very much; in other words, all bottle.

Catsups, Sauces, etc.

Are put up in all sizes and shapes of bottles, neither weight nor measure being stated. The names large, medium and small bottles are here applied.

Jams.

Sold in jars, tumblers and glasses of various sizes and shapes. A few brands are sold in containers of a standard size; all others being sold as jars, glasses, etc., without any stated capacity.

Canned Goods.

Cans containing food stuffs are sold by numbers or inches, such as No. 2, No. 3 and so on, up to No. 10; also as five and one-half inch cans. This was found to indicate a can five and one-half inches high, but of no specified diameter. No statement of weight or measure was found on these cans. It is stated by dealers that a No. 3 can contains two and one-half pounds. The cans weigh from two pounds six ounces to two pounds thirteen ounces gross. A No. 10 can of spinach weighed seven pounds gross. Molasses and syrup are fluid articles put up and sold in tin cans, by both weight and measure, and were found to be of correct weight, but sold in bottles without any stated measure other than a bottle.

There is at present in the Domestic Commerce Law a provision concerning the sale of oysters in kegs, wherein 25 per cent. of liquid is permitted. If such is good law for the packing of oysters, I believe it should be made to apply to all articles put up in cans where liquid is used in packing.

Canned Soups.

No statement of the capacity was found on any canned soups. The cans of six different packers were examined for a statement of weight or measure. There were many different varieties of such food articles examined, ranging from Irish stew to canned tripe, but no weight or measure was found on any can examined, they being sold by numbers, cans or tins.

Plum Pudding.

Some brands were found of stated weight, others not stated. Those which had statements on were found full net weight.

Salt.

Sold in bags by numbers. One bag marked No. 10 weighed ten pounds gross. Another brand marked No. 4 weighed on an average, three pounds twelve ounces gross.

Lard and Cottole Sold in Pails.

There was but one brand of lard found put up at full net weight, but no statement of the fact appeared upon the can. All other brands are put up by packers in pails and are sold by numbers, such as No. 3, 5, 10. It was found that the gross weight pails of the concern putting up full net weight was as follows:

Three pound pail, gross weight three pounds ten and one-half ounces.

Five pound pail, gross weight five pounds twelve and one-half ounces.

Ten pound pail, gross weight, eleven pounds two ounces.

The tare on the pails was found to be as follows: Nine and one-half ounces, twelve and one-half ounces, and eighteen ounces, respectively.

Pails put up by other packers and sold by numbers were weighed. Of forty-three such pails tested results were as follows:

Sixteen pails of No. 3, total weight, fifty-one and three-quarter pounds.

Thirteen pails of No. 5, total weight, sixty-four and seven-eighth pounds.

Fourteen pails of No. 10, total weight, one hundred and forty-nine and eleven-sixteenth pounds.

Sixteen three-pound pails of the full-weight concern weighed fifty-seven and one-half pounds gross, a difference of five and three-quarter pounds compared with the weight of sixteen No. 3 pails.

Thirteen No. 5 pails totaled sixty-four and seven-eighth pounds. Compared with the net-weight pails there was a difference of ten pounds, or an average difference of three-quarters of a pound between a five-pound pail and a No. 5 pail.

Fourteen No. 10 pails totaled a weight of one hundred and forty-one pounds, this compared with the pails sold as ten pounds net, will show a difference of ten pounds or on an average of eleven and three-seventh ounces less on each No. 10 pail. In a large retail grocery were found pails of net weight, packed by one of the packers who put out numbered pails.

Hams, Bacons and Other Cured Provisions.

Provisions as put up by Western packers for sale in this City, are now offered in sanitary covers or wrappers. It is claimed by the packers that this new style of packing is preferred by purchasers on account of this sanitary effect. Various sized pieces of bacon, also hams, tongues, etc., all neatly wrapped in heavy oiled paper, thick canvas covering or both are now sold principally in the department stores handling such articles. A small sized piece of the highest priced bacon tipped the scale at two pounds eight ounces. Paper and twine being removed which were found to weigh four ounces, leaving the piece of bacon weighing two pounds four ounces net. This was found to be general.

Hams.

One ham weighed ten pounds ten ounces, paper and all. The paper on this weighed six ounces, the canvas cover another six ounces, making twelve ounces the weight of the wrapper. Another brand of wide repute weighed eleven pounds thirteen ounces gross; tare of paper six ounces, burlap bag seven ounces; making net weight of ham eleven pounds. On these two hams there was one pound nine ounces of sanitary covering sold at ham prices.

Hams Sold at Marked Weights.

Here again the wrapper is sold together with a large amount of evaporation at ham prices. One ham marked nine pounds weighed exactly seven pounds gross. I did not find the net weight as I was not allowed to remove the canvas wrapper. On the whole I find that this so-called sanitation and evaporation are commonly sold at provision prices. The dealers tell me that they were charged for such wrappings by the packers. They sell at their advance in price to the public, thus making enormous illegitimate profits that consumers have to pay when buying sanitary provisions.

Macaroni.

A half-dozen domestic brands were weighed averaging fifteen ounces gross per package. All such were offered for sale without any stated weight. The imported article is marked plainly net weight, and was so found.

Currants and Raisins in Cartons.

Some concerns state weight; others do not. Cartons weighed about fifteen ounces gross. These cartons when empty weigh one ounce or more. Cartons with a stated weight of one pound weighed fifteen ounces gross, about fourteen ounces to the pound net. Ninety-five per cent. of these articles is now sold in cartons.

Wines and Liquors.

Are put up in various sized bottles; some are full quarts, others are five bottles or more to the gallon. The undersized bottles are sold as bottles without any reference to the capacity. The weight of a full quart bottle was found to be fifty-one and one-half ounces, and the short quart forty-five and one-half ounces gross. Different shaped bottles showed different weights. Liquors bottled in bond are put up thirty-two ounces to the quart.

Candy.

Candy is sold by the box, and by weight. Here again is the term package made use of. The stated weight boxes all conform to the standard. Those boxes, sold as boxes, were also weighed and averaged very well.

On the whole I find that the practice of selling by package has extended so that the use of scales and measures will be soon discarded, as very few articles are now offered for sale in loose measure. This system of selling by packages is one whereby the purchasing public is compelled to take the "goods as is."

I could not readily find the extent of the sale of any particular food article in this City. I procured from the editor of the Merchants' Review Publishing Company the following statement and statistical figures of New York City's food consumption, as furnished to the Department of Statistics at Washington by that paper, which figures do not include the articles commonly sold by packages, except possibly raisins, currants and flour.

Quantities Used in New York Per Annum.

Butter, pounds	82,000,000
Lard, pounds	35,000,000
Coffee, pounds	35,000,000
Cheese, pounds	12,000,000
Tea, pounds	9,000,000
Sugar, pounds	215,000,000
Flour meal, pounds	475,000,000
Rice, pounds	16,000,000
Fresh beef, pounds	268,000,000
Salt beef, pounds	55,000,000
Poultry, pounds	51,000,000
Fish, pounds	75,000,000
Prunes, pounds	6,000,000
Raisins, pounds	6,000,000
Currants, pounds	2,000,000
Dates, pounds	1,300,000
Figs, pounds	1,350,000
Molasses, gallons	250,000

These figures can be used without scruple, for I am ready to defend them against anybody.

GEORGE G. SMALL, Editor.

Flour being the article most commonly used and which is put up in bags to the extent of 60 per cent. of output (figures given by a prominent flour merchant), the balance or 40 per cent. being mainly disposed of in barrels, etc., therefore, as the weight of the usual one-eighth barrel has been found to be about eight ounces short, which multiplied by eight, shows four pounds shortage per barrel on said 60 per cent. of output. The approximate figure of 475,000,000 pounds is used here in preference to those furnished by the representatives of the milling concerns which are that the approximate number of barrels of flour used each day is 17,000, at 196 pounds to a barrel this would be about 1,190,630,000 pounds per year, this may be true, but the lower estimate is here used. If the average shortage in weight per barrel as found in the weight of sacks, which is approximated at four pounds and there being about 2,397,959 barrels contained in 475,000,000 pounds, therefore the approximate shortage at the lowest figure given approaches 12,000,000 pounds or about 2½ per cent.

Currants and raisins combined are put at 8,000,000 pounds. These articles, while not of much necessity, nevertheless serve to illustrate to what extent short weight is carried on in the sale of goods in packages. It is safe to assume that 75 per cent. of what is consumed is sold in packages of the average one-pound size. These figures were gleaned from 250 retail grocers, who bought and sold only in such packages last year. The general weight of the packages tested, whether marked with weight or not, was about fourteen ounces to the package; therefore, it is safe to say that of the 8,000,000 pounds sold, 6,000,000 pounds were in packages purported or stated to be one pound, each package being about two ounces short, making a total shortage of 12,000,000 ounces approximately.

I was unable to obtain the true quantity of lard sold in tin. But from the fact that 35,000,000 pounds are used, I believe half, or 17,500,000 pounds, of the total output is sold in tin pails. It has been shown that the tare of the pails for No. 3 size is about nine and one-half ounces; No. 5, twelve and one-half ounces, and the No. 10 is eighteen ounces; therefore, there is approximately 3,000,000 pounds of tin sold at lard prices; at least, the people pay lard prices for tin, which they cannot eat, but which the packers nevertheless say is worth the money. According to their prices a No. 3 pail that weighs ten ounces is worth in the neighborhood of 10 cents; as that is the price that lard is sold at in pails; in other words, about a penny an ounce for tin. Of the eighteen commodities given in the above table, the most of them are not sold in packages. It will be noticed that not one of the 350 different cereals or breakfast foods is mentioned, or any of the articles sold in bottles, etc. Therefore, there is much left to conjecture in determining the actual loss or shortage of all commodities sold in packages, wrappers, etc., in this city.

In conclusion, I will state that all packages are put up with some idea of a stated weight or measure, as the same must have been weighed or measured accurately from a dealer's standpoint, as not one such package whereon the capacity was omitted was found to be over either one or more pounds, as the size of the package would indicate. The excuse for this offered by the assistant buyer of one of the largest department stores in this city was that all packages are packed by machine, which might get out of order easily, hence the discrepancy in weight of packages. It is peculiar to note that all weighing or measuring machines used to fill packages go wrong in favor of the owner and against the buyer. I find that since this investigation commenced steps have been taken by the few dealers now marking weight on cartons to leave it off entirely and sell all goods by the package only.

Respectfully submitted,

FRANCIS M. MCCOY, Deputy Chief.

Markets.

The work of the Bureau as to the scale inspection in the public markets has been crowned with success in stamping out the practice of using false or doctored scales. This is shown to good advantage in the following comparison of the work done in Washington Market on the eve of Thanksgiving and Christmas, when many standkeepers, who sell vegetables or some such stuff every other business day that does not require the use of scales, sell poultry on the above mentioned days, which require the use of scales. In 1905 eleven complaints were made by this office, in 1906 four complaints, and in 1907 not one scale of the 150 in use was found out of balance. This, compared with the scales found as much as three and one-half pounds out of balance in 1905, and about two pounds in 1906, will show what systematic and constant inspection has done, not only in markets, but throughout the entire City as well.

Heavy Scales Inspected.

There were many requests received at this office during the past year to have large platform scales inspected and tested, all of which have been complied with. In this test is required a wagon to haul the test weights, the hire of which costs the Bureau about \$300 out of its \$500 contingent fund annually.

Recommendations.

That the ordinance be amended to specifically empower this Bureau to make rules and regulations as the same may be required to regulate the use of any and all instruments for weighing or measuring, and to prohibit the use of instruments that may be easily used to perpetrate fraud in weighing or measuring.

That a net weight or measure package law be enacted.

That the Penal Code be amended by providing for a penalty for the selling of goods in packages without the statement of weight or measure being upon same; by eliminating the words "With knowledge that the same is false" from the Penal Code as it applies to scales, etc., and making the possession of fraudulent instruments or lightweight packages prima facie evidence of intent to defraud.

That the fines collected from violators of the ordinance be credited to the Bureau. Funds will thereby be available to further its work and usefulness in establishing a Bureau of Standards for measuring instruments used in the sale of all commodities and necessities of life.

That full penalties be imposed upon offenders. In this regard the maximum penalty, if collected, would make the Bureau self-sustaining and in addition return as much to the City Treasury each year.

Importance of the Bureau.

The magnitude of the work of this Bureau can be fully comprehended when it is considered that the entire population of this City is depending upon the weights and measures inspection for the protection of their property, as represented in their purchase of the food commodities and necessities of life, and which amounts to an enormous sum of money each year. The slightest fraction of weight or measure unlawfully withheld by dealers increases the cost of living considerably.

This should be the most important Bureau in the City, as its functions are primarily to protect property; which property means to the people of this City the amount of millions of dollars expended in buying by weight, measure or package.

Needs of the Bureau.

Increased power and funds. The contingent fund allowed this Bureau is but \$500, which is expended principally in cart hire and postage. To meet the actual requirements, funds should be provided for the establishment of a larger office, which should contain all the necessary equipment of a Bureau of Standards, with branch offices in the larger Boroughs.

Many of the standards in use at present have been in use for ten years and are in poor condition, so poor that all the yard measures sent for verification have been condemned by the State Superintendent of Weights and Measures.

Several horses and wagons should be engaged continually.

There should be provided in each of the Boroughs a suitable place where the four tons weight of standards could be safely kept. Funds should be furnished for the purpose of buying packages of foodstuffs, such to be used as evidence. The packages purchased, after being so used, could be sent to the City's institutions.

The Force

Consists of twenty men, eighteen of whom are in the field, each having a district to cover. The Deputy Chief and Chief Inspector are kept busy in the office keeping records, compiling reports, receiving and answering correspondence, supervising the field force, attending to the public calling at the office, making tests, investigations and inspections of a special nature. The force should be increased by the addition of a stenographer. The amount of correspondence is increasing so rapidly that the services of a stenographer must shortly be obtained in order to permit the Deputy Chief and Chief Inspector the time to devote to the duties of their respective titles.

I take this opportunity of presenting to your Honor's notice the valuable services rendered by Acting Deputy Chief Francis M. McCoy, who since the inception of the Bureau so willingly assisted in relieving the Bureau of its many predicaments consequent upon its newness; all of which, I am happy to say, have been masterfully overcome by him by indefatigable application and industry, and for whose willing and valuable services I am indeed thankful. This means is taken to extend my thanks to all who have assisted the Bureau in its valuable work during the past year.

Respectfully submitted,

PATRICK DERRY, Chief of Bureau.

PROCEEDINGS OF THE PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

MONDAY, NOVEMBER 11, 1907.

AT TRIBUNE BUILDING, 154 NASSAU STREET,
BOROUGH OF MANHATTAN, CITY OF NEW YORK.

Present—Chairman William R. Willcox, Commissioners William McCarroll, Edward M. Bassett, Milo R. Maltbie, John E. Eustis.

The Secretary presented the following letter from the Counsel to the Commission, which, on motion, was ordered filed:

1373

November 9, 1907.

TRAVIS H. WHITNEY, Esq., Secretary, Public Service Commission for the First District:

DEAR SIR—I duly received your letter of September 17 requesting me to give you my opinion as to whether the commencement of operation of the Steinway Tunnel will in any way prejudice any rights that the Commission may have in any legal proceedings undertaken looking to the prevention of operation and ownership of this tunnel by the alleged company now in charge of the work.

The Courts have held that an injunction is not necessarily to be granted in every case, and that acquiescence or laches of a complainant is to be regarded on any application for such relief in equity; and although this principle does not apply in a case where a public body is complainant with the same force as where a private individual is, yet it deserves consideration.

I therefore think that the Commission should not acquiesce in any operation of the Steinway Tunnel; but upon being placed in possession of evidence that operation is about to begin, the Commission should consider carefully whether an application to the Courts to enjoin the operation should not be made.

Very truly yours,

(Signed) ABEL E. BLACKMAR,
Counsel to the Commission.

1003

The Secretary presented a letter from Frederick P. Bellamy, Counselor at Law, of No. 204 Montague street, Brooklyn, complaining of injury caused by construction of

subway tunnel to the property of his clients, Mrs. and Miss Packer, at Nos. 260 and 262 Hicks street, and Nos. 69, 71, 73 and 75 Joralemon street, and asking what action the Commission proposes to take in the matter. On motion, duly seconded, the letter was referred to the Counsel to the Commission for a report on the situation.

2132

The Secretary presented a letter from the Flatbush Board of Trade, dated September 26, 1907, containing an extract from the minutes of their executive committee, endorsing the route for a proposed subway to Flatbush, and urging the Commission to take some action toward fixing and establishing this route. On motion, the communication was ordered on file.

The Secretary presented the following communication from Mr. Henry C. Adams, in charge Statistics and Accounts, Interstate Commerce Commission, Washington, D. C., which, on motion, duly seconded, was referred to Commissioner Maltbie:

2525

INTERSTATE COMMERCE COMMISSION,
DIVISION OF STATISTICS AND ACCOUNTS,
WASHINGTON, November 7, 1907.

Mr. TRAVIS H. WHITNEY, Secretary, New York Public Service Commission, No. 320 Broadway, New York, N. Y.:

DEAR SIR—After a careful investigation, it is estimated that approximately twenty per cent. of the electric railways in the United States do an interstate business, and are, therefore, subject to the provisions of the "Act to regulate commerce."

In most cases, electric roads doing an interstate business are also engaged in what is commonly called street-car traffic, and any attempt to prescribe a uniform system of accounting for electric roads should meet all reasonable requirements of transportation companies engaged in either urban, interurban, or interstate electric traffic, or all three classes of business.

To that end, this office, with the aid of the best expert assistance obtainable, and the co-operation of a committee representing the American Street and Interurban Railway Accountants Association, has prepared a tentative classification of operating expenses, and of road and equipment expenditures for electric railways, which it is hoped and believed will meet the requirements already mentioned.

There are sent for the consideration of your Commission, copies of the proposed classifications for electric roads, and also copies of the corresponding classifications for steam roads, which latter were prescribed by the Interstate Commerce Commission, to take effect July 1, 1907. It will be observed that these classifications for the two kinds of roads, steam and electric, are very nearly identical, as they should be. It will also be observed that the classifications for electric roads are readily adapted to such roads as do a strictly urban or intrastate business.

You are doubtless aware that many of the State Railway Commissions already use a form for annual report for steam roads supplied by the Federal Commission, and, in the interest of uniformity, it is hoped that the same course may be adopted with respect to annual reports from electric roads.

The proposed classifications for electric roads are submitted for your suggestion and criticism before their adoption, and this office will appreciate a full expression of the views of your Commission on the subject, either individually or as a Commission.

The Public Service Commission of the Second District of New York has signified its approval of the classifications as submitted, and, if approved, by other State Commissions, will adopt and promulgate the same on January 1, 1908, together with such changes as may be adopted before that date as the result of further conference and the criticisms which may be made available through your co-operation.

Will you not, therefore, favor this office with your reply to this communication at the earliest possible date, stating therein any objection you may have to the proposed classifications, and, also, such changes as you think necessary to adapt them to the uses of your Commission in securing reports from all classes of electric roads?

Thanking you in advance for your co-operation in this matter, I remain,

Very truly yours,

(Signed) HENRY C. ADAMS,

In charge of Statistics and Accounts.

The Secretary presented the following communication from the City Comptroller, which, on motion, duly seconded, was ordered sent to the Chief Engineer:

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
November 7, 1907.

The Public Service Commission for the First District, New York, WILLIAM R. WILLCOX, Chairman, No. 154 Nassau Street, New York City:

DEAR SIR—The third year's operation of the Manhattan and The Bronx Division of the Rapid Transit Railroad (Contract No. 1) terminated October 31, 1907, and the second year's operation of that portion of the Brooklyn-Manhattan Division of the subway operated (Contract No. 2) has also been completed.

The annual one per cent. Sinking Fund payments provided in the lease to the Interborough Rapid Transit Company is now, therefore, due and payable to the City.

In order to determine the amount due the City, as near as it is possible to do so, I will thank you to furnish this Department with statements of the payments made on these two divisions of the subway to and including October 31, 1907, made up to show for what purposes these payments have been made, and in the same form and detail as the statements heretofore furnished by the Board of Rapid Transit Railroad Commissioners of The City of New York for the purpose of the collection of the Sinking Fund payments due the City.

I inclose for your information, statements showing the amount of bonds issued, premium received and payments made therefrom, as shown by the books of this Department at the close of business October 31, 1907.

Yours very truly,

(Signed) J. H. MCCOOEY, Deputy Comptroller.

Commissioner Eustis reported on the matter of granting leave of absence for six months to Charles D. Searle, Assistant Engineer, and moved that such leave of absence, without pay, to date from November 11, 1907, be granted.

Ayes—Commissioners Willcox, McCarroll, Bassett, Maltbie, Eustis.
Nays—None.
Carried.

A hearing was held in the matter of suggestions as to amendments to the Rapid Transit Act. The following persons spoke:

C. M. Sheehan, representing the Twenty-eighth Ward Board of Trade, Brooklyn;
Albert Firmin, representing the Allied Boards of Trade and Taxpayers' Association, Brooklyn;

George W. Brush, representing the Brooklyn League and Flatbush Taxpayers' Association;

J. J. Chambers.

The hearing was then adjourned.

TRAVIS H. WHITNEY, SECRETARY.

PROCEEDINGS OF THE PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,

TUESDAY, NOVEMBER 12, 1907,

AT TRIBUNE BUILDING, 154 NASSAU STREET,
BOROUGH OF MANHATTAN, CITY OF NEW YORK.

Present—Chairman William R. Willcox, Commissioners William McCarroll, Edward M. Bassett, Milo R. Maltbie, John E. Eustis.

On motion, duly seconded and carried, the Secretary was instructed to request from the State Commissioner of Education and the State Civil Service Commission the transfer of Peter Nelson, now employed as Library Assistant at \$900 in the New York State Library, to the office of this Commission at similar duties and the same salary.

The Secretary presented a communication from George S. Rice, Chief Engineer, which, on motion, was referred to Commissioner Eustis, and was as follows:

November 7, 1907.

Station Entrances, Brooklyn Loop Lines.

The Honorable WILLIAM R. WILLCOX, Chairman, Public Service Commission for the First District:

DEAR SIR—At a conference held about the middle of October, at which Commissioners McCarroll and Maltbie, Mr. Whitman, Assistant Counsel, and myself were present, relative to the feasibility of placing certain station entrances on Centre street within the limits of the cross streets instead of placing them on private property, I was requested to look into the matter of station entrances.

I find upon investigation that the two entrances at Leonard street, one at Franklin street and the one at the northwest corner of Howard and Centre streets can be placed in the streets without undue interference with the traffic on the sidewalk and without a contraction of the stairways as originally provided in the entrances on private property. This can be done by placing what we call "tandem stairways" next to the building lines and by placing the toilets, ticket booths, etc., under the street surface between the building lines.

Preliminary studies have been made for these street stations, and the Counsel have informed me of the probable cost if the entrances are placed on private property, and I am of the opinion that considerable saving can be made by adopting the plans for stations in the street.

As to the remaining station entrances, one at the northeast corner of Hester and Centre streets and two on either side of Centre street, south of Grand street, it is necessary that these locations should be adhered to, as to move them in the street would place them at practically the extreme ends of the stations, which would cause a very undesirable distribution of traffic.

In reference to acquiring the property itself, it appears to me from information I have obtained from the Counsel as to the cost of obtaining an easement that the fee should be taken of these properties. Of the property on the east side of Centre street, south of Grand street, we require practically the entire ground floor and

basement. In the case directly opposite on the west side of Centre street, the same conditions exist for a depth fully equal to one-half of the depth of the lot and includes nearly the entire building, the rear part of the lot being vacant. On the northeast corner of Hester and Centre streets we need almost two-thirds of the entire basement area and a portion of the first floor for the entrance on Hester street. In this case I am informed that the owner, Mr. Knabe, asks \$50,000 for this easement and places the value of the entire property at \$112,000.

Very truly yours,
(Signed) GEORGE S. RICE, Chief Engineer.

The Secretary presented a communication from Abel E. Blackmar, Counsel to the Commission, which, on motion, was referred to the Chief Engineer, and was as follows:

November 4, 1907.

TRAVIS H. WHITNEY, Esq., Secretary, Public Service Commission for the First District:

DEAR SIR—I duly received your letter of September 23, transmitting a communication from Mr. Rice, Chief Engineer, dated September 20, as to underpinning the new buildings at the northeast corner of Mott and Delancey streets. This is in the portion of the Brooklyn loop lines to be built in the Delancey street extension, known as contract 9-0-2, let to the Bradley Contracting Company.

The duty of the contractor to support abutting structures and the obligations which he has assumed to adjacent property owners have been referred to in my opinions of October 8 and October 17, in the matter of No. 174 Canal street.

The question now arising is whether the obligations referred to exist under the contract as to new structures in a new street, i. e., such as were not there when the contract was let and signed. In view of the following provisions of the contract I am of the opinion that the contract must apply to these new structures, and that the contractor is under obligation to support them in pursuance of the contract obligations.

The obligation of the contractor is to protect and support all buildings and other structures, including foundations (page 15), and including underpinning, wherever necessary, of all buildings affected or interfered with during construction of the railroad (page 17); as to excavation, contractor is to take special precaution where there is additional pressure due to the presence of buildings or other structures (page 56). Also when passing specially heavy buildings which, by their construction or position, might bring a great pressure upon the trenches, the right is reserved by the Board for the Engineer to direct that such buildings be underpinned (page 57). The contractor also covenants that his work, if done without fault or negligence on his part, does not involve any danger to foundations, walls or other parts of adjacent buildings or structures, and that he will make good any damages that shall in course of construction be done to foundations, walls or other parts of adjacent buildings or structures (page 155); and the contractor also undertakes to obey any order of the Engineer to support or secure adjacent property or any surface or structure thereon, but he is not relieved of responsibility either by compliance with an order of the Chief Engineer or an omission of the Chief Engineer to give it or give notice of danger (page 157). Contractor also assumes a very extensive responsibility for all physical injuries to the property of abutting owners occasioned by any act or omission of himself or of any sub-contractor or person employed on the work. The contract runs over a period before completion of at least twenty months.

It does not seem reasonable to assume that in a contract to extend over two years in a crowded city street that the obligations of a contractor to abutting property owners and to adjacent property and structures can be limited to those in position at the time the contract is entered into, and that the constant changes in condition of property in the ordinary course of business and improvement for so long a period while the work is in process are to be entirely ignored and the owners' rights completely passed over. I have advised you that in my opinion new water pipes put in by the City itself, after the letting of a loop contract and requiring to be supported by the contractor as a subsurface structure, should be deemed to be extra work, for which an additional allowance may be proper, but the City is a party to such contract and must be deemed to have expressed its intention as to its own rights and obligations.

In this case, however, as to abutting property owners, obligations are undertaken by the contractor for the benefit of third parties as a class who are not parties to the contract, and it would seem to me that the obligation which the contractor has assumed must include every person of that class, not as of the time the contract is signed, but of the time when his rights and property are touched in the prosecution of the contract.

I think, therefore, that the obligation of the contractor is to underpin and support any structures which may be found to need such support, new or old, at the time when such support becomes necessary by reason of the prosecution of his work.

If I am in error on this point the contractor has his remedy under the terms of the contract. In the new Fourth avenue contracts, I have inserted a clause removing this uncertainty.

Very truly yours,
(Signed) ABEL E. BLACKMAR, Counsel to the Commission.

APPROVED PAPERS.

FOR THE WEEK ENDING FEBRUARY 1, 1908.

No. 9.

Resolved, That it is recommended to the Commissioner of Water Supply, Gas and Electricity that two lamp-posts be erected, street lamps placed thereon and lighted in front of the Wyckoff Heights Presbyterian Church in Harmon street, between St. Nicholas and Wyckoff avenues, in the Borough of Brooklyn.

Adopted by the Board of Aldermen, January 14, 1908.
Received from his Honor the Mayor, January 28, 1908, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 10.

Resolved, That, pursuant to the provisions of section 419 of the Charter the Commissioner of Parks for the Boroughs of Manhattan and Richmond be and he hereby is authorized to arrange or contract, without public letting, for the shoeing of the horses used on the parks in said Boroughs during the year 1908, at an expense not exceeding the sum of five thousand dollars (\$5,000), payable from the appropriation available for that purpose.

Adopted by the Board of Aldermen, January 21, 1908.
Approved by the Mayor, January 28, 1908.

No. 11.

Resolved, That the Commissioner of Parks for the Boroughs of Manhattan and Richmond be and he hereby is authorized to contract, without public letting, for renovating and putting in complete repair the horse and hand lawn mowing machines used on the parks in the Borough of Manhattan, and maintaining the same during the year 1908, at an expense not to exceed \$1,500, payable from the appropriation available for that purpose.

Adopted by the Board of Aldermen, January 21, 1908.
Approved by the Mayor, January 28, 1908.

No. 12.

Resolved, That the Commissioner of Correction be and he is hereby authorized and empowered, in pursuance of the provisions of section 419 of the Greater New York Charter, to enter into a contract without public letting for necessary and additional repairs to the steamer "Massasoit," at a cost not to exceed the sum of eighteen hundred dollars (\$1,800).

Adopted by the Board of Aldermen, January 21, 1908.
Approved by the Mayor, January 28, 1908.

No. 13.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized to expend the sum of fourteen hundred and fifty dollars (\$1,450), to pay for the removal and building of partitions, doors, carpentry work, painting and varnishing of Rooms Nos. 915 to 931, inclusive, of the Park Row Building, Nos. 13 to 21 Park row, without obtaining competitive bids or proposals.

Adopted by the Board of Aldermen, January 21, 1908.
Approved by the Mayor, January 28, 1908.

No. 14.

Resolved, That the Commissioner of Public Charities be and he is hereby authorized and empowered in pursuance of the provisions of section 419 of the Greater New York Charter, to enter into contract without public letting for the purchase of two automobile ambulances, to be used in caring for the work of his Department in the Boroughs of Brooklyn and Queens, at a total cost not to exceed eight thousand dollars (\$8,000); and likewise to contract in same manner for the purchase of two automobiles, one for the use of the Commissioner mainly in the Boroughs of Manhattan, The Bronx and Richmond, and the other for the use of the Second Deputy Commissioner in the Boroughs of Brooklyn and Queens, at a cost not to exceed three thousand dollars (\$3,000) each.

Adopted by the Board of Aldermen, January 21, 1908.
Approved by the Mayor, January 28, 1908.

No. 15.

Resolved, That, in accordance with the provisions of section 419 of the Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity is hereby authorized and empowered to enter into an agreement without advertising for competitive bids or proposals with Columbia University for the testing of electrical meters on the premises of private consumers when complaint is received that the amount charged for electric current is excessive, at an expense not to exceed the sum of fifteen hundred dollars (\$1,500) for the year 1908.

Adopted by the Board of Aldermen, January 21, 1908.
Approved by the Mayor, January 28, 1908.

No. 16.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to an amount not to exceed fifty thousand dollars (\$50,000), the proceeds whereof to be applied to the purchase of fire hose for use of the Fire Department.

Adopted by the Board of Aldermen, January 21, 1908.
Approved by the Mayor, January 28, 1908.

No. 17.

Whereas, The Board of Estimate and Apportionment at a meeting held January 10, 1908, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen, the establishment of the grade of position of Engineman, with compensation at the rate of four dollars and fifty cents (\$4.50) per diem, in each and every department or office, now having the position of Engineman on its pay-rolls, in the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond."

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the compensation of said position as set forth therein.

Adopted by the Board of Aldermen, January 21, 1908.
Approved by the Mayor, January 28, 1908.

No. 18.

Resolved, That James O'Neill be and he is hereby empowered to furnish, for the use of the offices of the City Clerk and the Board of Aldermen, both in the Boroughs of Manhattan and Brooklyn, copies of all bills, documents and printed matter introduced into the Legislature of this State particularly affecting interests in The City of New York, at a compensation of fifty dollars (\$50) for the session of the Legislature of 1908.

Adopted by the Board of Aldermen, January 21, 1908.
Approved by the Mayor, January 28, 1908.

DEPARTMENT OF HEALTH, CORNER OF FIFTY-FIFTH STREET AND SIXTH AVENUE, BOROUGH OF MANHATTAN, NEW YORK, January 28, 1908.

AT A MEETING OF THE BOARD OF Health of the Department of Health of The City of New York, held January 22, 1908, the following preamble and resolutions were adopted:

Whereas, The Board of Health of the Department of Health of The City of New York having taken and filed among its records what it regards as sufficient proof to authorize its declaration that the same to the extent herein specified is a nuisance dangerous to life and detrimental to health, under the general authority of said Board to preserve the public health and abate nuisances, does hereby

Resolve, That the being or running loose and at large of stray dogs in the streets or other public places in The City of New York is a public nuisance dangerous to life and detrimental to health, and the said Board hereby enters in its records the same as a nuisance and hereby orders the abatement thereof; and all persons are hereby forbidden to allow stray dogs, owned, harbored, possessed or controlled by them, to be or run loose and at large in the streets or other public places in The City of New York. Stray dogs as herein specified shall be taken to mean and include any dog without a collar about its neck bearing the name and address of the owner thereon; or without an adequate muzzle to protect persons against being bitten; or not held by a leash or chain not more than four feet in length; or a dog that is ferocious or vicious; further be it

Resolved, That all such dogs be and the same are hereby ordered removed to the shelter maintained by the Society for the Prevention of Cruelty to Animals, or other shelter or place

selected or designated by the said Board of Health or its Sanitary Superintendent, in the borough where any such dog may be found by the officers and agents employed for such purpose, and destroyed, unless redeemed within forty-eight hours after public notice to redeem said animals, printed in the CITY RECORD, and upon payment of the sum of three dollars for each dog so redeemed; further be it

Resolved, That public notice of the requirements hereof and of this order be printed in the CITY RECORD and posted and kept posted in each of the borough offices of the Department of Health for five days in succession beginning January 29, 1908, the said order to be then and thereafter enforced.

BOARD OF ESTIMATE AND APPORTIONMENT.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment, held on January 17, 1908, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Sterling place, from Utica avenue to East New York avenue, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the line midway between Sterling place and Park place distant 100 feet westerly from the westerly line of Utica avenue, and running thence eastwardly along the said line midway between Sterling place and Park

place to the intersection with the prolongation of a line midway between Amboy street and Hopkinson avenue, as laid out south of East New York avenue; thence southwardly along the said line midway between Amboy street and Hopkinson avenue and the prolongation of the said line to a point distant 100 feet southerly from the southerly line of East New York avenue, the said distance being measured at right angles to the line of East New York avenue; thence westwardly and parallel with East New York avenue to the intersection with a line midway between Amboy street and Ames street; thence northwardly along the said line midway between Amboy street and Ames street and the prolongation thereof to the intersection with the prolongation of a line midway between Sterling place and Douglass street; thence westwardly along the said line midway between Sterling place and Douglass street and the prolongation of the said line to a point distant 100 feet westerly from the westerly line of Utica avenue; thence northwardly and parallel with Utica avenue to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of February, 1908, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD and the corporation newspapers for ten days prior to the 14th day of February, 1908.

Dated January 31, 1908.

CONDITIONS OF SALE.

As provided for by the Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for bonds or stock shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon a solvent banking corporation, two per cent. of the par value of the bonds or stock bid for in said proposal.

No proposal will be received or considered which is not accompanied by such deposit.

All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.

4. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the bonds or stock awarded to him or them at its or their par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.

5. Upon the payment into the City Treasury by the persons whose bids are accepted, of the amounts due for the bonds or stock awarded to them respectively, including accrued interest from the date of sale, certificates thereof shall be issued to them in such denominations provided for by the Charter as they may desire.

6. It is required by the Charter of the City that "every bidder may be required to accept a portion of the whole amount of bonds or stock bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected, provided, however, that any bidder offering to purchase all or any part of the bonds offered for sale at a price at par or higher may also offer to purchase all or none of said bonds at a different price, and if the Comptroller deems it to be in the interests of the City so to do, he may award the bonds to the bidder offering the highest price for all or none of said bonds; provided, however, that if the Comptroller deems it to be in the interests of the City so to do, he may reject all bids." Under this provision, the condition that the bidder will accept only the whole amount of bonds or stock bid for by him, and not any part thereof, cannot be inserted in any bids, except those for "all or none" offered by bidders who have also bid for "all or any part" of the bonds or stock offered for sale.

7. Bonds or stock issued in Coupon form can be converted at any time into Registered Bonds or Stock, and bonds or stock issued in Registered form can be converted at any time into Coupon Bonds or Stock in denominations of \$1,000.

8. The proposals, together with the security deposits, should be enclosed in a sealed envelope, indorsed "Proposals for Bonds of The City of New York," and said envelope inclosed in another sealed envelope, addressed to the Comptroller of The City of New York. (No special form of proposal is required, therefore no blanks are furnished.)

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE PRESIDENT of the Board of Trustees of Bellevue and Aided Hospitals public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the building and contents thereof standing within the line of property acquired by The City of New York for hospital purposes in the

Borough of Manhattan.

Being the building known as the plant of the United Electric Light and Power Company and all the machinery contained therein, viz.:

Three 600 horse-power Corliss engines;
Direct connected exciter outfit;
Three Westinghouse 400-kilowatt generators;
One 2,000 horse-power heater;
Boiler feed pumps;
Sixteen hundred horse-power boilers;
Steam exhaust pipe;
Three steel stacks;
Breachings, dampers;
Steam and exhaust pipe covering;
Eight 1,200 horse-power engines;
Nine thousand six hundred horse-power kilowatt condenser;
Eight 750-kilowatt generators;
Three 225-kilowatt exciter outfits;
Force draught outfit;

Twenty-five-ton traveling crane;
Seven 200 horse-power Climax boilers;
Coal and ash conveying apparatus;
Steam and exhaust piping;
Two feed-water heaters, 2,000 horse-power;
Three boiler feed pumps;
Steam and exhaust pipe covering;
Four steel stacks;
Breachings, damper and damper regulators;

said building being situated between Twenty-eighth and Twenty-ninth streets and between First avenue and the East River, Borough of Manhattan, and which is more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund the sale of the above described building and contents thereof will be held on

THURSDAY, FEBRUARY 6, 1908

at 10 a. m. on the premises, upon the following

TERMS AND CONDITIONS.

It being understood that the purchasers at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for each and every day the removal of the buildings, etc., remains incomplete after the expiration of sixty days from the day of sale. A copy of the contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale and contract. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars the sum of fifty dollars shall be the amount of the security deposited. This security must be deposited within forty-eight hours after the sale, and may, at any time after the expiration of the contract period, be applied by the City to the cost of completing any work required under the contract but unfinished at the expiration of the contract period.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, existing

within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two (2) feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale, shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening in main sewer in street shall be properly closed, in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that said work has been properly performed.

The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings or appurtenances, or any portion thereof, within sixty days from the day of sale will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expenses thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them, be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be promptly flashed and painted and made water tight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids.

Eight electric fans, 1-12 horse power each.

Nine electric fans, 1-6 horse power each.

Pursuant to the resolutions of the Commissioners of the Sinking Fund, adopted at a meeting held March 13, 1907, the above-described buildings, appurtenances thereto, and machinery will be held by direction of the Comptroller on

MONDAY, FEBRUARY 3, 1908,

at 10 a. m., on the premises, upon the following

TERMS AND CONDITIONS.

It being understood that the purchasers at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for each and every day the removal of the buildings, etc., remains incomplete after the expiration of sixty days from the day of sale. A copy of the contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale and contract. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security deposited. This security must be deposited within forty-eight hours after the sale, and may at any time after the expiration of the contract period be applied by the City to the cost of completing any work required under the contract but unfinished at the expiration of the contract period.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, existing within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left but not higher at any point than two (2) feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening in main sewer in street shall be properly closed, in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that said work has been properly performed.

The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings or appurtenances, or any portion thereof, within sixty days from the day of sale will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expenses thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they, or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids.

NOTICE OF SALE OF LANDS AND TENEMENTS WITHIN THAT PART OF THE CITY OF NEW YORK NOW KNOWN AS THE BOROUGH OF RICHMOND, FOR UNPAID TAXES AND ASSESSMENTS.

THE CITY OF NEW YORK, DEPARTMENT OF FINANCE, BUREAU FOR THE COLLECTION OF ASSESSMENTS AND ARREARS OF TAXES, ASSESSMENTS AND WATER RENTS, STEWART BUILDING, No. 280 BROADWAY, BOROUGH OF MANHATTAN, NEW YORK CITY, August 10, 1907.

UNDER THE DIRECTION OF HERMAN A. METZ, Comptroller of The City of New York, the undersigned hereby gives public notice pursuant to the provisions of section 1027 of the Greater New York Charter:

That the respective owners of the lands and tenements within that part of The City of New York now known as the Borough of Richmond, on which taxes have been laid and confirmed according to law by The City of New York for the years 1899, 1900, 1901, 1902 and 1903, including taxes on the real estate of corporations for the said years and taxes on the special franchises of corporations for the years 1900, 1901, 1902 and 1903, and which now remain due and unpaid:

And also the respective owners of all lands and tenements in The City of New York, situated in the borough aforesaid, on which the assessments have been laid according to law by the said City of New York for the years 1899, 1900, 1901, 1902, 1903 and 1904, and which now remain due and unpaid, are required to pay the amount of the said taxes and assessments so remaining due and unpaid, with the interest thereon at the rate of seven (7) per centum per annum, from the time when the same became due to the time of payment, together with the charges of this notice and advertisement, to the Collector of Assessments and Arrears, at his office in the Borough Hall, New Brighton, in the Borough of Richmond, in The City of New York.

And that, if default shall be made in such payment, such lands and tenements will be sold at public auction, in Room 129, Borough Hall, New Brighton, in the Borough of Richmond, in The City of New York, on

WEDNESDAY, NOVEMBER 20, 1907,

at 10 o'clock in the forenoon of that day, for the lowest term of years at which any person shall offer to take the same, in consideration of ad-

vancing the said taxes or assessments, as the case may be, and the interest thereon as aforesaid, to the time of sale, together with the charges of this notice and advertisement, and all other costs and charges accrued thereon; and that such sale will be continued from time to time until all the lands and tenements so advertised for sale shall be sold.

Notice is hereby further given that a detailed statement of such taxes and assessments and the ownership of the property taxed and on which such taxes and assessments remain unpaid, is published in a pamphlet and that copies of the said pamphlet are deposited in the offices of the Collector of Assessments and Arrears in the Boroughs of Manhattan and Richmond, and will be delivered to any person applying for the same.

DANIEL MOYNAHAN,
Collector of Assessments and Arrears
of The City of New York.

The foregoing sale will continue on

WEDNESDAY, FEBRUARY 5, 1908.

at 10 o'clock a. m., in Room 129, Borough Hall, Borough of Richmond.

DANIEL MOYNAHAN,
Collector of Assessments and Arrears.

SUPREME COURT—FIRST DEPARTMENT.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SIXTY-THIRD STREET (although not yet named by proper authority), from Fort Washington avenue to Riverside drive, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate of assessment for benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 24th day of February, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 25th day of February, 1908, at 2 o'clock p. m.

Second—That the abstract of our said estimate of assessment for benefit, together with our benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 3d day of March, 1908.

Third—That, pursuant to the notice heretofore given, when we filed our estimate of assessment, the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of a line parallel to and distant 100 feet easterly from the easterly line of Edgecombe road and the easterly prolongation of a line parallel to and distant 100 feet southerly of the southerly line of West One Hundred and Sixty-third street; running thence westerly along said easterly prolongation and parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Fort Washington avenue; thence southerly along said parallel line to Fort Washington avenue to its intersection with a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-second street; thence westerly along said parallel line and its westerly prolongation to its intersection with a line midway between the easterly property line of the New York Central and Hudson River Railroad and Riverside drive; thence northerly along said line midway between the easterly property line of the railroad and Riverside drive to its intersection with the westerly prolongation of a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Sixty-fourth street; thence easterly along said prolongation and parallel line to its intersection with a line parallel to and distant 100 feet easterly of the easterly line of Fort Washington avenue; thence southerly along said parallel line to its intersection with a line parallel to and distant 100 feet northerly of the northerly line of West One Hundred and Sixty-third street; thence easterly along said parallel line to its intersection with a line parallel to and distant 100 feet easterly of the easterly line of Edgecombe road; thence southerly along said parallel line to Edgecombe road to the point of place of beginning.

Fourth—That, provided there be no objections filed to our said abstract, our final last partial and separate report herein will be presented for

confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 28th day of March, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to our said abstract of estimate of assessment for benefit, the notice of motion to confirm our final last partial and separate report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, January 31, 1908.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose, in fee, to the lands, tenements and hereditaments required for the opening and extending of MOHEGAN AVENUE, between East One Hundred and Twenty-fifth street and East One Hundred and Seventy-sixth street, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN THAT BY an order of the Supreme Court, bearing date the 7th day of November, 1907, and duly entered in the office of the Clerk of the County of New York, at his office, in the Borough of Manhattan, in The City of New York, on the 16th day of December, 1907, a copy of which order was duly filed in the office of the Register of the County of New York, and indexed in the Index of Conveyances, Book No. 2958, we, Frederick W. Hottenroth, Albert Elterich and John B. Reynolds, were appointed Commissioners of Estimate, for the purpose of making a just and equitable estimate and assessment of the loss and damage, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening and extending the above-mentioned street or avenue, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and the said Frederick W. Hottenroth was appointed Commissioner of Assessment, for the purpose of making a just and equitable estimate and assessment of the value of the benefit and advantage of the said street or avenue so to be opened and extended, to the respective owners, lessees, parties and persons respectively entitled to or interested in the respective lands, tenements, hereditaments and premises situated within the area of assessment adopted by the Board of Estimate and Apportionment and not required for the purpose of opening and extending the same but benefited thereby, the said area of assessment being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached and filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4, of the Greater New York Charter as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening and extending the said street or avenue and affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate, at our office, ninth floor, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, with such affidavit or other proof as the owners or claimants may desire, within ten days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 17th day of February, 1908, at 12 o'clock noon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner or on behalf of The City of New York.

Dated Borough of Manhattan, City of New York, February 1, 1908.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
