FRANCHISE MATTERS.

DRY DOCK, EAST BROADWAY & BATTERY RAILROAD COMPANY.

The public hearing was opened on the form of contract for the grant of a franchise to the Dry Dock, East Broadway & Battery Railroad Company to construct, maintain and operate a single track extension to its existing street surface railway commencing at the existing tracks of the Company in Canal Street near the easterly side of Broadway thence across Broadway and upon and along Canal Street to Church Street to Lispenard Street there connecting with the existing tracks of the Company.

The hearing was fixed for this day by resolution adopted March 28, 1912.

Affidavits of publication were received from the New York "Press," the "Times" and the CITY RECORD.

No one appeared in opposition to the proposed grant. Henry A. Robinson, counsel for the company, appeared in favor. No one else desiring to be heard, the Chair declared the hearing closed.

The following was offered:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Dry Dock, East Broadway & Battery Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

Proposed Form of Contract.

This contract made this.....day of....., 1912, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Dry Dock, East Broadway & Battery Railroad Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section I. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a single track extension to its present street surface railway, with the necessary wires and equipment, for the purpose of conveying passengers only in the Borough of Manhattan, in The City of New York, upon the following route, to wit:

Beginning at and connecting with the existing tracks of the Company in Canal Street at or near the easterly side of Broadway; thence westerly and crossing Broadway and in, upon and along Canal Street to Church Street; thence southerly in, upon and along Church Street to Lispenard Street, and there connecting with the existing tracks of the Company in said street.

And to cross such other streets and avenues, named and unnamed, as may be encountered in said route. Provided, however, that nothing in this contract shall be construed as permitting more than a double track street surface railway in any portion of Canal Street.

The said route with turnouts, switches and crossovers hereby authorized is shown upon a map entitled:

"Map showing proposed extension of the Dry Dock, East Broadway and Battery Railroad Co., in the Borough of Manhattan, City of New York, to accompany petition dated Dec. 12th, 1911, to the Board of Estimate and Apportionment," —and signed by F. W. Whitridge, Receiver; Edward A. Maher, General Manager; T. F. Mullaney, Chief Engineer—a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within said three (3) months or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company for the term of twenty-five (25) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers, and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company each paying one-half thereof.

Third—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of One hundred dollars ($100) in cash within three (3) months after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum which shall in no case be less than One hundred and twenty-five dollars ($125), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of One hundred and twenty-five dollars ($125).

During the second term of five (5) years an annual sum which shall in no case be less than Two hundred and twenty-five dollars ($225) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of Two hundred and twenty-five dollars ($225).

During the third term of five (5) years an annual sum which shall in no case be less than Two hundred and forty dollars ($240) and which shall be equal to five (5) per cent of its gross annual receipts, if such percentage shall exceed the sum of Two hundred and forty dollars ($240).

During the fourth term of five (5) years an annual sum which shall in no case be less than Two hundred and sixty-five dollars ($265) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of Two hundred and sixty-five dollars ($265).

During the remaining term of five (5) years an annual sum which shall in no case be less than Three hundred dollars ($300) and which shall be equal to five (5) per cent. of its gross annual receipts if such percentage shall exceed the sum of Three hundred dollars ($300).

The gross annual receipts mentioned above shall be that portion of the gross receipts of the Company from all sources within the limits of the City as shall bear the same proportion to such gross receipts as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law as amended.

Any and all payments to be made by the terms of this contract to the City by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract, (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions over the route hereinbefore described.

The use of the railway constructed by the Company under this contract, including the tracks, wires and other equipment or any structures used in connection therewith, in streets and avenues hereinbefore described, shall be permitted by the Company to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets and avenues for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall equal the legal interest on such proportion of the actual cost of the construction of such railway and structures, and additions and betterments thereto, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same; and also such proportion of the cost of keeping the tracks and electrical equipment in repair, and the cost of additions and betterments thereto, such proportion of laying and repairing of pavement and removal of snow and ice and all other duties imposed upon the Company by the terms of this contract in connection with the maintenance or the operation of said railway so used, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation. Provided, however, that if, in the opinion of the Company, the legal rate of interest upon the cost of such railway shall be an insufficient sum to be paid for the use of such tracks, it may appeal to the Board and the Board may fix a percentage upon the cost to be paid to the Company, at a sum in excess of the legal rate of interest, if, in its opinion, such action is justified.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company pursuant to this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway herein authorized within three (3) months from the date upon which the consents of the property

When such conduits are constructed the Company shall provide two (2) conduits not less than three (3) inches in diameter each for the exclusive use of the City. The Company hereby agrees that such conduits shall be used only by the Company and the City, as above.

Thirteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on its road, or on any road, line or branch operated by it or under its control, to any other point thereof, or any connecting branch thereof, within the limits of the City.

Twenty-third—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

ADDITIONAL TRANSPORTATION FACILITIES—PELHAM BAY PARK.

In the matter of the amendment of Section 191 of the Railroad Law, so as to authorize the construction and operation of a railway in Pelham Bay Park, Borough of The Bronx.

At the meeting of March 14, 1912, a report was received from the Bureau of Franchises stating the proposed bill would in the opinion of the Assistant Corporation Counsel at Albany, meet with serious objections which would cause delay in its passage and suggesting that the bill approved by the Board January 19, 1911, which had again been introduced and advanced to Third Reading in the Assembly, be pressed for passage.

The Corporation Counsel was thereupon instructed to press the pending bill for passage and defer action on the bill approved by this Board February 29, 1912.

The Secretary presented the following:

Law Department, City of New York, Office of the Corporation Counsel, Legislative Session, Albany, April 19, 1912.

Pelham Bay Park Bill (Chapter 482).

JOSEPH HAAG, Esq., *Secretary, Board of Estimate and Apportionment, New York City:*

Dear Sir—This bill which was approved by the Board of Estimate and Apportionment and introduced in and passed by the Legislature through this Department has just been approved by the Governor and is now Chapter 482 of the Laws of 1912.

Yours very truly, EDWARD J. McGOLDRICK, Assistant Corporation Counsel.

Bureau of Franchises, May 3, 1912.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman, Board of Estimate and Apportionment:*

Sir—By resolution adopted by this Board January 19, 1911, the Board approved a proposed bill amending Section 191 of the Railroad Law so as to authorize the construction and operation of a railway in Pelham Bay Park, Borough of The Bronx, to afford additional transportation facilities and requested the Corporation Counsel to secure the introduction of such bill in the Legislature.

This bill failed of passage.

At the meeting of February 29, 1912, the bill with certain amendments was again approved by the Board and the Corporation Counsel requested to use his best efforts to secure its introduction and passage in that session of the Legislature.

On March 14, 1912, I presented a report to the Board stating that after a conference with the Assistant Corporation Counsel having charge of Franchise Matters and also with the City's representative in Albany, it was their opinion that the Bill approved by the Board February 29, 1912, would meet with serious objections.

Attention was called to the fact at that time, that the bill approved by this Board January 19, 1911, had again been introduced in the Legislature and had been advanced to Third Reading in the Assembly.

A copy of this report was forwarded to the Corporation Counsel with instructions to press the pending bill and defer action on the bill approved February 29, 1912.

I am now in receipt of a communication dated April 19, 1912, from Edward J. McGoldrick, Assistant Corporation Counsel at Albany, stating the bill has been passed by the Legislature, has been approved by the Governor and is now Chapter 482 of the Laws of 1912.

In the matter of the petition of the United Electric Service Company for a franchise to construct, maintain and operate suitable wires or other electrical conductors within the Boroughs of Brooklyn and The Bronx for the purpose of operating an electrical signal system for the calling of messengers, an electrical burglary alarm system and a fire alarm system.

This petition was presented to the Board at the meeting of March 28, 1912, and was referred to the Bureau of Franchises.

The Secretary presented the following:

United Electric Service Company, Executive Office, 206 Broadway, New York, April 26, 1912.

To the Honorable, Board of Estimate and Apportionment, 277 Broadway, New York City:

Gentlemen—The United Electric Service Company heretofore submitted to you on March 11, 1912, for your consideration a petition dated on that day, and asking for an extension of its franchise so as to include the Boroughs of Brooklyn and The Bronx.

Another petition is submitted herewith asking for an extension of rights so as to include the portion of the Borough of The Bronx, west of the Bronx River and the first mentioned petition is hereby respectfully withdrawn. Very respectfully,

UNITED ELECTRIC SERVICE COMPANY,

By M. W. RAYENS.

Which was ordered filed.

A petition was received from the United Electric Service Company for a franchise to construct, maintain and operate suitable wires or other electrical conductors within that portion of the Borough of The Bronx west of the Bronx River for the purpose of operating an electrical signal system for the calling of messengers, an electrical burglary alarm system and a fire alarm system.

By contract dated December 16, 1909, this Company was granted a franchise to operate within the Borough of Manhattan and the petition presented is for the purpose of extending this service to that portion of the Borough of The Bronx west of the Bronx River.

The petition was referred to the Bureau of Franchises.

POLE LINES.

The Secretary presented the following:

Brooklyn, N. Y., April 23, 1912.

Board of Estimate and Apportionment:

Gentlemen—I have three apartment houses between St. James Place and Ryerson Street on Lafayette Avenue and opposite Adelphi Academy. There are two telegraph poles in front of that property used by the Fire Department of the City, the telephone wires having been placed underground several years ago, which are a nuisance and a detriment to the property. I submit, that as the City has increased my assessment to the limit of their value and rigidly enforces all the tenement house laws, that it should not violate the law itself and respectfully ask that the Board will provide means to have those poles removed and the wires placed underground. Yours respectfully,

CHAS. G. STRANG, 301 Lafayette Avenue.

Bureau of Franchises, April 26, 1912.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman, Board of Estimate and Apportionment:*

Sir—By a communication dated April 23, 1912, Mr. Charles G. Strang, of 301 Lafayette Avenue, Borough of Brooklyn, who states that he is the owner of three apartment houses on Lafayette Avenue, between St. James Place and Ryerson Street, complains of two telegraph poles in front of his property which are used by the Fire Department of the City; the telephone wires being stated to have been placed underground several years ago. He asks that the Board take steps to have these poles removed and the wires placed underground.

In a report of this Bureau presented to the Board at its meeting held April 25 upon another petition of this nature relating to a different street, attention was called to the fact that the Fire Department is not in the position to generally remove its overhead wires in the Borough of Brooklyn, but that it is conducting some work to this end. It is therefore recommended that the present application be referred to the Fire Commissioner for advice as to whether Lafayette Avenue between St. James Place and Ryerson Street is included in the territory in which it is proposed to remove the overhead wires of the Fire Department or for such information relating to those wires as may enable the Board to reach a conclusion as to whether it is practical to have the same removed. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

The report was adopted and the matter referred to the Fire Commissioner.

NEW YORK QUOTATION COMPANY.

In the matter of the use and occupation of the streets by the New York Quotation Company without authority.

At the meeting of March 14, 1912, a communication was received from this Company submitting certain papers and a map showing the location of its wires in the streets.

A communication was also received from the Postal Telegraph-Cable Company relative to its relations with this Company and both communications were referred to the Bureau of Franchises.

The Secretary presented the following:

City of New York, Law Department, Office of the Corporation Counsel, New York, April 24, 1912.

Board of Estimate and Apportionment, The City of New York:

Sirs—I have received from you a communication dated March 20, 1912, signed by Harry P. Nichols, Engineer, Chief of Bureau of Franchises, in which I am asked to

> "advise the Board of Estimate and Apportionment if the New York Quotation Company has proper authorization to use the streets of the City without the consent of the Board."

The Company furnished your Board, under date of March 14, 1912, with a statement of its claim of title to operate under the streets of the City. It appears from such statement that the Company did not commence business until several years after the enactment of the Subway Laws (Chap. 538 of the Laws of 1884, Chap. 499 of the Laws of 1885, and Chap. 716 of the Laws of 1887).

It was incorporated December 26, 1889, under the Telegraph Act of 1848 and admittedly has never received the consent of the City for underground construction and operation despite the fact that it is today operating in the subways of the Empire City Subway Company.

As I have already advised you, the provisions of Chapter 397 of the Laws of 1879, as amended by Chapter 483 of the Laws of 1881, were then in force and required the consent of the City for all such underground operation on the part of companies not in existence and operating prior to the enactment of said Subway Laws. The franchise of the Company is, therefore, in my opinion, incomplete, unless it appears the Company is in possession by assignment or otherwise of the perfected franchise of some other Company having the necessary consent for such underground operation. Such apparently, is not the case, and the Company itself states that

> "No merger or consolidation, leases or other documents affecting our organization have been made, nor have any company or companies been acquired by our company."

The communication from your Board also refers at some length to the operation and rights of the Commercial Telegraph Company, but a careful examination of the facts therein recited leads me to believe no rights to use the streets for underground construction and operation were ever transferred by that Company to the New York Quotation Company. I am therefore convinced this latter Company is today operating illegally in the streets and must secure the consent of your Board if it is to continue its underground operation therein. Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

Bureau of Franchises, April 26, 1912.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman, Board of Estimate and Apportionment:*

Sir—By a communication dated November 21, 1911, and presented to the Board at its meeting held December 7, 1911, the Commissioner of Water Supply, Gas and Electricity called attention to the fact that a company known as the New York Quotation Company was operating in the streets of the Borough of Manhattan without apparent franchise authority to do so, and recommended that it be required to apply for a franchise.

The communication was referred to this Bureau, and after an investigation of its organization and operations, a preliminary report was submitted to the Board at its meeting held February 15, 1912, and a resolution was thereupon adopted calling upon the Company to furnish proof of its rights to use the streets of the City. The information so called for was furnished and a report thereon was prepared and submitted to the Corporation Counsel for his opinion, under date of March 20, 1912.

The Corporation Counsel has now, by an opinion dated April 24, advised that the New York Quotation Company

> "is today operating illegally in the streets and must secure the consent of your Board if it is to continue its underground operation therein."

It is therefore recommended that, as in the cases of other companies of a similar nature which have been investigated by the Board, this Company be called upon to apply for a proper franchise to legalize its use of the streets. For this purpose there is submitted herewith a form of resolution calling upon it to submit an application on or before Saturday, May 25, and to advise the Board on or before Wednesday, May 15, whether it intends to comply with the same.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

The following was offered:

Whereas, The Corporation Counsel has, by an opinion presented to the Board this day, advised that the New York Quotation Company is operating illegally in the streets and must secure the consent of this Board if it desires to continue its underground operations therein; now, therefore, be it

Resolved, That the said New York Quotation Company be and it is hereby directed to submit to this Board on or before Saturday, May 25, 1912, a verified petition for permission to use the streets of the City; and be it further

Resolved, That the said Company be and it is hereby directed to notify this Board on or before Wednesday, May 15, whether it will comply with the foregoing resolution; and be it further

Resolved, That the Secretary of the Board be directed to serve a copy of this resolution upon the above-named Company.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, and the Acting Presidents of the Boroughs of Queens and Richmond—16.

The Secretary presented the following:

Bureau of Franchises, May 3, 1912.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman, Board of Estimate and Apportionment:*

Pursuant to said provisions the Company, under date of April 26, 1912, informed the Board that work would be commenced on April 27 and completed the same day.

I caused an examination to be made on May 1, which disclosed that the pipe nad been installed as authorized. This street is not paved, and, therefore, the question of the restoration of pavement does not enter. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

EMPIRE CITY GERARD COMPANY.

In the matter of the communication from the Department of Water Supply, Gas and Electricity stating the Empire City Gerard Company was maintaining several wires across Greenpoint Avenue connecting its premises 257 to 263 Greenpoint Avenue with premises 258 to 264 Greenpoint Avenue, Borough of Brooklyn, without authority.

This communication was presented to the Board at the meeting of February 15, 1912, and was referred to the Bureau of Franchises.

The Secretary presented the following:

Bureau of Franchises, May 3, 1912.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman, Board of Estimate and Apportionment:*

Sir—The Department of Water Supply, Gas and Electricity heretofore called the attention of the Board of Estimate and Apportionment to the fact that the Empire City-Gerard Company was maintaining, apparently without authority, several wires overhead across Greenpoint Avenue connecting its premises known as No. 257 to No. 263 Greenpoint Avenue, with No. 258 to No. 264 Greenpoint Avenue.

At the meeting of the Board held February 15, 1912, the matter was referred to this Bureau for investigation and report.

I caused an examination to be made which revealed that the Company was maintaining five wires across Greenpoint Avenue, as reported, the said wires being used for private telephone, watchman's signal and electric light. The Company is engaged in the manufacture of window frames, sash, doors and interior house trim, and the wires connect its plant on the southerly side of Greenpoint Avenue with office and storage buildings on the northerly side.

An examination of the records failed to reveal any authorization for the wires, and under date of March 1, 1912, a communication was addressed to the Company requesting to be advised if any authority had been obtained for the wires, and if not, suggesting that a petition be presented to the Board for permission to continue to maintain and use the same. In reply the Company requested that the matter be held in abeyance until the return of its President about April 15 or 20. In accordance with such request no action was taken until April 23, when its attention was again called to the matter, and in a communication dated April 25 I was advised that the wires had been removed.

I caused an examination to be made on May 1, 1912, and the wires were found removed as stated. As such removal closes the matter, I would suggest that the Secretary be directed to forward a copy of this report to the Commissioner of Water Supply, Gas and Electricity and to the Company and that the papers be ordered filed.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

The papers were ordered filed and the Secretary directed to forward a copy of the report to the Commissioner Water Supply, Gas and Electricity.

Which was referred to the Bureau of Franchises.

Which was referred to the Bureau of Franchises.

In the matter of the consent granted the Otto Huber Brewery authorizing the installation of certain wires, for lighting, power and signal purposes; also speaking tube and compressed air pipe in the fifteen-inch pipe under and across Bushwick Place, Borough of Brooklyn, authorized by resolution adopted by this Board May 10, 1907, approved by the Mayor May 14, 1907.

This consent was granted by resolution adopted by this Board April 11, 1912, approved by the Mayor April 12, 1912.

The Secretary presented the following:

Bureau of Franchises, May 3, 1912.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman, Board of Estimate and Apportionment:*

Sir—By resolution adopted by the Board of Estimate and Apportionment April 11, 1912, approved by the Mayor April 12, 1912, the consent granted the Otto Huber Brewery to install, maintain and use a pipe under and across Bushwick Place, Borough of Brooklyn, was amended, so as to authorize the installation therein of certain wires for lighting, power and signal purposes; also speaking tube and compressed air pipe.

The amended consent provides as follows:

"Resolved, That this resolution shall become null and void unless the said Otto Huber Brewery shall duly execute an instrument in writing, to the satisfaction of the Board of Estimate and Apportionment, and file the same in the office of the said Board within thirty (30) days after the approval of this resolution by the Mayor, wherein the said grantee shall accept this consent, and promise, covenant and agree that the consent of the Board of Estimate and Apportionment so given to the amendment of said consent shall in no wise change, alter or amend any of the terms, conditions or requirements in the original consent fixed and contained, and which said consent shall remain in full force and effect as herein and hereby expressly amended."

ICE MANUFACTURING COMPANY.

In the matter of the application of the Ice Manufacturing Company for permission to construct, maintain and use a tunnel under and across Junius Street, north of Dumont Avenue, Borough of Brooklyn, connecting the artificial ice plant of the petitioner with the yard of the Long Island Railroad Company opposite the plant.

This application was presented to the Board at the meeting of March 14, 1912, and was referred to the Bureau of Franchises.

The Secretary presented the following:

New York, March 7th, 1912.

To the Honorable Board of Estimate and Apportionment, City of New York:

Gentlemen—The Ice Manufacturing Company, incorporated May 4th, 1911, under the Laws of the State of New York, owners of property located on the west side of Junius Street, between Dumont and Blake Avenues, Borough of Brooklyn, New York, having received the consent of the Long Island Railroad Company (a certified letter of acknowledgment of same being attached hereto), respectfully ask to be granted a franchise for the construction of an underground tunnel, which is to be located on Junius Street, 186 feet north of north building line on Dumont Avenue.

The tunnel is to be 7 feet wide by 5 feet 3 inches high, by 60 feet long; the roof is to be 5 feet 9 inches below the street surface. The tunnel is to be used as a direct means of conveying coal from the Long Island Railroad Company's cars to our property, thus avoiding carting through the streets, as is done at present.

Respectfully submitted, ICE MANUFACTURING COMPANY,
THOS. PETTIGREW, President.

Bureau of Franchises, May 3, 1912.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman, Board of Estimate and Apportionment:*

Sir—The Ice Manufacturing Company presented a petition dated March 7, 1912, to the Board of Estimate and Apportionment for permission to construct, maintain and use a tunnel seven feet in width and five feet three inches in height, outside dimensions, under and across Junius Street, at a point 186 feet north of the northerly line of Dumont Avenue, in the Borough of Brooklyn, connecting the artificial ice plant of the petitioner on the westerly side of Junius Street with the Long Island Railroad Company's yard opposite the ice plant.

The tunnel was stated to be desired for the purpose of conveying coal by a mechanical conveyor directly from the railroad yard to the petitioner's premises. Accompanying the petition was submitted the consent of the Long Island Railroad Company to the proposed tunnel.

At the meeting of the Board held March 14, 1912, the matter was referred to this Bureau for investigation and report. Copies of the petition with accompanying plan were forwarded to the President of the Borough of Brooklyn, and to the Commissioner of Water Supply, Gas and Electricity, with a request that examinations be made by the various bureaus of their departments having jurisdiction, with a view to ascertaining if there were any objections to the tunnel or any particular conditions necessary to be incorporated in the form of consent heretofore used by the Board for similar privileges.

In replies dated respectively April 10 and March 19, 1912, I was advised that there were no objections to the tunnel. The reply from the office of the Borough President requested that it be provided that the twelve inch sewer pipe in Junius Street should be entirely encased in concrete on all sides to a depth of about one foot under the tunnel to the satisfaction of the Bureau of Sewers, and such provision was inserted in the usual form of consent.

An examination by this office revealed no objections to the project, and there appeared to be no good reason why the requested permission should not be given in the customary form should the Board see fit to do so.

At the rate heretofore fixed by the Board in similar cases, the charge for the proposed tunnel would be the minimum of One hundred dollars per annum.

A draft of the customary form of consent was prepared and submitted to the Company. This draft provided for the payment of the minimum sum of One hundred dollars per annum, and for the usual security deposit of One thousand dollars.

In replies dated April 18 and April 24, 1912, from the President of the Company and its engineers, I was informed that it had been decided not to ask for further action on the matter at this point, as there was no economy in handling the coal through the tunnel as proposed in the petition.

Before the presentation of the petition the Company's representatives were fully advised as to the form of consent and annual charge for the tunnel, and the determination not to construct should have been made at that time before the City had undergone the expense of the necessary examinations and reports. I would, therefore, suggest that as the Company does not desire the privilege the papers be ordered filed, and that the Comptroller be requested to make demand upon the Ice Manufacturing Company for the sum of Fifty Dollars to cover the costs of examination, printing, etc., and advise the Board within thirty days whether or not the said amount has been paid. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

The following was offered:

Resolved, That the Comptroller be and he hereby is requested to make formal demand upon the Ice Manufacturing Company for the payment of the sum of fifty dollars ($50) to cover the costs of examination and printing in the matter of the petition dated March 7, 1912, of the said Ice Manufacturing Company to the Board of Estimate and Apportionment for permission to construct, maintain and use a tunnel under and across Junius Street in the Borough of Brooklyn, and advise the Board within thirty (30) days after such demand whether or not the said amount has been paid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and the Acting Presidents of the Boroughs of Queens and Richmond—16.

ASTORIA LIGHT, HEAT & POWER COMPANY.

In the matter of the consent granted the Astoria Light, Heat & Power Company to construct, maintain and use a temporary wooden bridge across East 132d Street, East of Locust Avenue, Borough of The Bronx.

This consent was granted by resolution adopted by this Board April 25, 1912, approved by the Mayor on the same day.

The Secretary presented the following:

Bureau of Franchises, May 6, 1912.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman, Board of Estimate and Apportionment:*

Sir—By resolution adopted by the Board of Estimate and Apportionment April 25, 1912, approved by the Mayor on the same day, the Astoria Light, Heat & Power Company was granted permission to erect, maintain and use a temporary wooden bridge across East 132d Street, East of Locust Avenue, Borough of The Bronx, for the conveyance of material between properties of the grantee.

Section 15 of the consent provides as follows:

"This consent shall be null and void unless said grantee shall duly execute an instrument in writing, wherein said grantee shall accept this consent and shall promise, covenant and agree to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained and file said instrument with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor; provided, however, that such time may be extended by the Board of Estimate and Apportionment.

"And said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, use, maintenance or operation of the structure hereby authorized."

Under and pursuant to the above quoted section, the grantee presented an agreement dated May 1, 1912.

This agreement has been approved as to form by the Corporation Counsel and returned to this office with a communication dated May 3, 1912.

The Departments interested likewise the grantee have been furnished with certified copies of the approved resolution and the grant is now in full force and effect.

It is recommended that the papers be filed. Respectfully

HARRY P. NICHOLS, Engineer, Chief of Bureau.

Which was ordered filed.

MERCANTILE BURGLAR ALARM COMPANY.

In the matter of the communication from the Department of Water Supply, Gas and Electricity stating the Mercantile Burglar Alarm Company is using and occupying the streets and furnishing service without authority.

Communications were received from Goldman, Sachs & Company and the American Exchange National Bank stating the services performed by the Company are necessary and desirable.

The Secretary presented the following:

Bureau of Franchises, May 6, 1912.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman, Board of Estimate and Apportionment:*

Sir—At the meeting of the Board held April 25 there was referred to this Bureau a communication of the Department of Water Supply, Gas and Electricity, dated April 15, relating to the apparently illegal use of the streets by the Mercantile Burglar Alarm Company of 20 Nassau Street.

The organization and franchises of this Company are now being investigated by the Bureau, and there have been addressed to the Board two communications, one from Goldman, Sachs & Company of 60 Wall Street, and the other from the American Exchange National Bank of 128 Broadway, both of which assert that the services rendered by the said Mercantile Burglar Alarm Company are satisfactory and that it serves a useful and needed purpose in the financial district; its continuance in business being stated to be both necessary and desirable.

It is recommended that these communications be referred to the Bureau in connection with its investigation of the Company. Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

The report was ordered filed and the communications referred to the Bureau of Franchises.

EBLING BREWING COMPANY.

In the matter of the tunnel and overhead structures maintained across Eagle Avenue, between 156th and 158th Streets, Borough of The Bronx.

By resolution adopted November 9, 1911, this Company was granted permission to continue to maintain a certain tunnel at this point and was directed to remove certain overhead structures. The consent has not been accepted on account of the charge for past use and occupation.

At the meeting of March 21, 1912, by motion duly adopted, the Corporation Counsel was requested to advise the Board if it had authority under the law to permit this Company to occupy the streets by the overhead structures by granting a revocable license therefor.

A communication was received from the Attorneys for the Company requesting that the matter of the charge for past use and occupation of the street by the tunnel be considered.

The Secretary presented the following:

City of New York, Law Department, Office of the Corporation Counsel, New York, April 24, 1912.

Board of Estimate and Apportionment, City of New York:

Sirs—I received from you the following communication dated March 21, 1912, signed by Joseph Haag, Secretary:

"The Ebling Brewing Company is maintaining and using a certain tunnel underneath and certain pipes over the surface of Eagle Avenue, between 156th and 158th Streets, Borough of The Bronx. The tunnel and the pipes were installed and have been maintained for a number of years without any authority from the Board of Aldermen or the Board of Estimate and Apportionment.

"At the meeting of this Board held this day the President of the Borough of The Bronx stated this Board was without authority to permit the continued maintenance of the overhead structures.

"Upon motion duly adopted the matter was referred to you to advise the Board if it had authority under the law to permit the Company to occupy the street by such overhead pipes under the terms of a revocable license or permit, and report to the Board your opinion in time for the meeting of April 4, 1912.

"Should you desire your opinion placed on the calendar for that day I would request that it be in this office not later than Saturday, March 30, 1912."

A diligent search fails to reveal any New York cases authoritatively passing upon the legality of such overhead structures. There is, however, a recent Ohio case, Kellogg v. Cincinnati Traction Company, 88 N. E., 882, in which it is held that the owner of lots abutting on opposite sides of the street may, under a license or permit from the city council revocable at its pleasure, construct an overhead bridge for the purpose of transporting freight over the street, thereby relieving the street of a serious obstruction to or interference with traffic along the street; the bridge being so constructed that its support will not be in the street and so that it will not interfere with the light and air of adjoining abutting owners.

Your Board will readily see that the overhead structures heretofore authorized by you satisfy the requirements indicated by the Ohio Court as essential. Your consent has never been granted except where the ownership in the properties to be connected is in the same person or corporation, and I believe care has always been taken that the structure itself will not inconvenience either the public in the free use of the street or the adjoining property owners in the enjoyment of their property.

In the absence of any decision of our courts to the contrary, I am of the opinion your Board, in the exercise of its discretion, will be justified in continuing to authorize such structures in cases where you are convinced their maintenance will not interfere with the use of the street, but will in some way promote the public convenience in the use thereof. Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

Hon. David Leventritt appeared on behalf of the Company. The matter of the unauthorized structures was then referred to a committee consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of The Bronx.

BRONX TRACTION COMPANY.

A communication was received from the President of the Borough of The Bronx

Which was ordered filed and the Secretary directed to communicate with the Bronx Traction Company.

This petition was presented to the Board at the meeting of May 2, 1912, and was referred to the Franchise Committee.

A communication was received from W. D. H. C. Salsbury appeared and requested that the petition be denied.

The petition was referred to the Bureau of Franchises.

Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, City of New York, December 18, 1911.

Mr. JOSEPH HAAG, *Secretary, Board of Estimate and Apportionment:*

Dear Sir—While considering the departmental estimate for appropriations for this Department for the year 1912, the Budget Committee of the Board of Estimate and Apportionment struck out the amounts I had requested for remodelling and repairing the old Croton Aqueduct, and the President of the Broough of Manhattan suggested that corporate stock, issued for a ten-year period, should be applied for to do this work.

The estimated cost is as follows:

For rebuilding about 5,700 feet of the Aqueduct by contract.....		$145,000 00
For repairing approximately 27,000 feet:		
For material	$20,000 00	
For labor	35,000 00	
		55,000 00
		$200,000 00

This work can best be done in the early spring, as at that season the consumption is usually at a minimum and there would be less interference with the supply. At present, the condition of the old Aqueduct is such that not more than one-half its normal capacity is available, and it would be decidly unsafe to attempt, in its present condition, to increase the quantity of water it now carries.

I therefore respectfully request that the Board of Estimate and Apportionment autorize, under section 178 of the Charter, $200,000 corporate stock for remodeling and repairing the old Croton Aqueduct. Yours truly,

HENRY S. THOMPSON, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 20, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On December 18, 1911, the Commissioner of Water Supply, Gas and Electricity requested an authorization of corporate stock in the sum of $200,000, pursuant to the provisions of section 178 of the Greater New York Charter, to provide for remodelling and repairing the old Croton Aqueduct. In connection therewith we report as follows:

An appropriation for repairs to the old Croton Aqueduct was requested in the Departmental Estimate for 1912, but was not approved by the Budget Committee for the reason that the proposed work was considered to be a permanent betterment and properly chargeable to corporate stock. The Committee therefore suggested an application for short term bonds.

The Commissioner states the following:

> This work can best be done in the early spring, as at that season the consumption is usually at a minimum and there would be less interference with the supply. At present the condition of the old Aqueduct is such that not more than one-half its normal capacity is available, and it would be decidedly unsafe to attempt, in its present condition, to increase the quantity of water it now carries.

The request is based on the following estimate:

For rebuilding about 5,700 feet of the Aqueduct by contract.....		$145,000 00
For repairing approximately 27,000 feet:		
For material	$20,000 00	
For labor	35,000 00	
		55,000 00
Total.....		$200,000 00

The Departmental Engineers have submitted detailed estimates covering the proposed improvement. They have also submitted the following memorandum:

> The old Croton Aqueduct is mainly of cut-and-cover type; that is to say, excavation is made through the ground at approximately the elevation of the water level in the aqueduct and the aqueduct constructed with normally 4 feet of earth cover for protection. Where the line of the aqueduct crosses a valley, the usual type of construction adopted is dry rubble walls for the support of the sides of the aqueduct with loose rock fill between. During the 70 years that have elapsed since the aqueduct was constructed several of the embankment sections have settled and weakened the aqueduct to such an extent that it cannot now carry more than about 40 million gallons daily, whereas the normal capacity is over 80 million gallons daily.
>
> It is proposed to reconstruct these sections by taking off the crown of the Aqueduct, rebuilding and reinforcing. In other sections where there are only a few cracks in the invert or bottom of the Aqueduct it is proposed to point up or plaster the same.

The detailed estimate for the part of the work to be done by contract shows a total of $143,839.50. An allowance of $144,000 for this item would therefore appear to be ample. The estimate for plant, tools, materials and supplies calls for $19,400. The schedule for wages, as now revised, shows a total of $34,237. The three amounts which are stated to be ample would give a total of $197,637. The employees requested should be added to the present schedule for Personal Srvice. Water Supply, Collection and Storage, Wages, Temporary Employees, Corporate Stock Force, making the total of the schedule $34,267.

In view of the foregoing, compliance with the Commissioner's request would appear to be proper.

We therefore recommend the adoption of the attached resolutions approving the request to the extent of $197,637, and making the necessary schedule modification.

Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

(On May 2, 1912, the above report was laid over for one week.)

The City of New York, Department of Finance, Comptroller's Office, April 30, 1912.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—On July 17, 1911, a resolution was adopted by your Board approving of the issue of corporate stock amounting to $250,000 to provide means for the construction of new public baths in the Borough of Manhattan, under the jurisdiction of the President of the Borough of Manhattan, which resolution was concurred in by the Board of Aldermen on July 25, 1911.

The resolution was amended at a meeting of the Board of Estimate and Apportionment held February 29, 1912, to make provision for the acquisition of a site, which resolution was concurred in by the Board of Aldermen on March 12, 1912, and was received from the Mayor without his approval or disapproval on April 2, 1912.

The President of the Borough of Manhattan has decided that the most available location for the purposes aforesaid consists of a plot of ground on the northerly side of West 28th street, between 9th and 10th avenues, having a frontage of 75 feet on 28th street, with a depth on each side of 98 feet 9 inches, and being known as Nos. 407, 409, 411 and 413 W. 28th street, Borough of Manhattan.

The premises are in three ownerships. The original price demanded by the owners of Nos. 411 and 413 West 28th street was $32,500, but after negotiation by the Comptroller, it may be secured for the sum of $27,000.

The asking price by the owners of No. 407 West 28th street was $18,000, but after negotiation by the Comptroller it may be secured for the sum of $14,750.

The owners of the building known as No. 409 West 28th street refuse to sell the premises, and I suggest that this parcel be acquired through condemnation proceedings.

I therefore respectfully recommend, the price being reasonable and just, that your Board approve of the selection of the following described premises for a public bath, under the jurisdiction of the President of the Borough of Manhattan:

Parcel 1.

—and authorize the Comptroller to enter into contract for the acquisition of the above described premises at private sale, at a price not exceeding $14,750, said contract to be submitted to the Corporation Counsel for his approval as to form; also

A true copy.

EUGENE W. SCHEFFER, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 27, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On April 2, 1912, the Board of Health requested the modification of two schedules of salaries in the Department of Health for the year 1912, involving a transfer of $21,000. In connection therewith I report as follows:

It is proposed to drop 20 Sanitary Patrolmen at $1,400 per annum each and substitute therefor four Sanitary Inspectors at $1,500 and 18 at $1,200 per annum.

The Sanitary Inspectors and Sanitary Patrolmen provided for in Budget appropriations for the last three years were as follows:

	Sanitary Inspectors.	Sanitary Patrolmen.
1910	63	72
1911	63	70
1912	62	70

On February 27, 1912, the Board of Health reduced the number of Sanitary Patrolmen from 70 to 60, and on March 26 from 60 to 50, the minimum required by section 312 of the Greater New York Charter. On March 12, 1912, the Board transferred jurisdiction over the Sanitary Police from the Department of Health to the Board of Health.

The Board was of opinion that 20 of the men assigned from the Police Department should be returned for patrol duty, and that the 50 Patrolmen remaining were sufficient to exercise the police powers required in making arrests for violations of the Sanitary Code, etc. The larger force of police did much of the ordinary sanitary work. This is to be covered by the civilian Inspectors to be substituted.

The number of sanitary inspections in the five Boroughs for the last three years was as follows:

	1909.	1910.	1911.
By Sanitary Inspectors	251,358	261,441	230,481
By Sanitary Patrolmen	514,830	462,655	284,546
Total	766,188	724,096	515,027

In 1911 there was a falling off in the number of inspections reported of over 200,000 in the City. In Manhattan alone inspections reported by Patrolmen fell off 168,248 in 1911, while inspections by Sanitary Inspectors increased 17,239.

It is stated in explanation that for several years Patrolmen, especially in Manhattan, gradually increased the number of reported inspections to an unreasonable extent. For instance, a Patrolman in inspecting a lodging house to ascertain whether or not the mattresses were supplied with waterproof covers, examined every bed, and if 100 were inspected reported 100 inspections. In June, 1910, the commanding officer of the Health Squad was directed to discontinue this practice of padding reports.

In 1911 Patrolmen were instructed not to report as an inspection an arrest for violation of the Sanitary Code in street cars or buildings. The number of reported inspections were further reduced by turning over to the Police for enforcement notices not complied with after the first inspection. It is stated that as a result, while the

number of reported inspections has decreased 30 per cent., the activities of Patrolmen and Inspectors have increased.

A recapitulation of the work of the Health Squad for 1911 shows the following:

Details for contagious work	1,304
Details for dog work	477
Details for glanders work	69
Details for miscellaneous work	122
Inspections of manure dumps	14,845
Inspections of vehicles to cart ashes, garbage, manure, etc., before permit is issued	2,425
Fines obtained by Health Squad	$24,116

	Number of Arrests.	Pro Rata.
Police Department (10,207 men)	153,786	15
Health Squad (73 men)	6,531	89

The Department of Health requested in the 1912 estimate 15 additional Sanitary Inspectors at $1,200 per annum for the Division of General Sanitary Inspection. The Budget Committee was in favor of allowing six additional Inspectors, but for reasons of economy, they were not included in the Budget.

Lack of supervision has been charged as a cause of inefficiency in the inspection force of this division. The five Inspectors now employed at $1,500 each do not seem sufficient to supervise the work of 80 Inspectors. Four additional Inspectors at $1,500 per annum are requested. This would involve increases in rate for four incumbents from $1,200 per annum.

It is stated that after funds for the purpose have been secured, the records of Sanitary Inspectors at $1,200 per annum in the different boroughs will be examined by the Board of Health and promotions made to Supervising Inspector at $1,500, according to merit, as per the instructions of the Civil Service Commission.

The following table shows the line item changes in detail:

Account No.	Schedule Line.	Schedule Transfer. Decrease.	Schedule Transfer. Increase.	Cash Transfer. Decrease.	Cash Transfer. Increase.
307	Sanitary Inspector, 5 at $1,500	.....	$6,000 00	.....	$4,000 00
	Sanitary Inspector, 56 at $1,200	.....	21,600 00	.....	14,400 00
	Unassigned balance	.....	400 00	.....	266 65
311	Patrolman, 70 at $1,400	$28,000 00	.....	$18,666 65	.....
		$28,000 00	$28,000 00	$18,666 65	$18,666 65

I recommend that the request be approved by the adoption of the attached resolutions, the changes to be effective as of May 1. Respectfully,

WM. A. PRENDERGAST, Comptroller.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 29, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On April 8, 1912, the President of the Borough of The Bronx requested a modification of the schedule for the Budget appropriation account, Bureau of Buildings, 1877, Inspection, Salaries, Regular Employees. In connection therewith I report as follows:

It is proposed by the President to change the schedule whereby existing provision for six Inspectors of Plastering in the schedule may be reduced to two, for the reason that the Board of Aldermen reduced the number of incumbents from six to two in acting upon a resolution of the Board of Estimate and Apportionment requesting the establishment of the grade.

Four Inspectors at the same rate are added as an offset to the reduction in number of Inspectors of Plastering. It is proposed to increase the salary of one Inspector by $150, the funds to be taken from a line balance unassigned. The Superintendent of Buildings of the Borough of The Bronx has stated that the increase is for Patrick J. Connelly, now receiving $1,350. He has served in the capacity of Inspector of Carpentry and Masonry since February 1, 1907, and is regarded as an efficient and intelligent Inspector. It is further stated that it was intended to provide for the increase in the Budget for 1912.

In a modification approved by your Board in January changes in the schedule were made whereby the $150 placed in the schedule as unassigned was arrived at by decreasing the rate in provision for Inspectors.

Budget lines are affected by the proposed modification as follows:

Account No.	Schedule Line.	Schedule Transfer. Increase.	Schedule Transfer. Decrease.	Cash Transfer. Increase.	Cash Transfer. Decrease.
1877	Inspector, 31 at $1,500	$1,500 00	.....	$1,125 00	.....
	Inspector, 1 at $1,350	.....	$1,350 00	.....	$1,012 50
	Inspector, 7 at $1,200	4,800 00	.....	3,600 00	.....
	Inspector (Plastering), 6 at $1,200	.....	4,800 00	.....	3,600 00
	Balance unassigned	.....	150 00	.....	112 50
		$6,300 00	$6,300 00	$4,725 00	$4,725 00

I recommend the approval of the request, to take effect as of April 1, 1912, and transmit herewith resolution providing therefor. Respectfully,
WM. A. PRENDERGAST, Comptroller.

To the Board of Estimate and Apportionment:

Gentlemen—On April 16, the Police Commissioner requested modification of a schedule of salaries in his Department for the year 1912. In connection therewith I report as follows:

The request is in No. 694, Police Fund, Uniformed Force, Surgeons, etc. It is proposed to reduce the lump sum line item for Captains from $344,500 to $337,500, a reduction of $7,000, and to increase the lump sum for Sergeants from $1,037,750 to $1,044,750, an increase of $7,000. The change will give an increase of 4 Sergeants.

The Commissioner states that the appropriation for Captains is in excess of the amount required, and that an increase in the number of Sergeants will be in the interest of greater efficiency in the uniformed force.

I recommend the adoption of the attached resolution granting the request.
Respectfully, WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following communication from the Department of Water Supply, Gas and Electricity requesting, and report of the Comptroller recommending, the modification of salary schedules Nos. 499, 508 and 511, for said Department, for the year 1912, to be effective as of May 1, 1912, for vehicular transportation, involving the transfer of $3,600 to provide for the replacement of horse vehicles by automobiles, permitting the Inspection Force to cover a wider territory each day, increasing the efficiency without increasing the annual cost:

Department of Water Supply, Gas and Electricity, Commissioner's Office, 13 to 21 Park Row, City of New York, March 9, 1912.

JOSEPH HAAG, Esq., *Secretary, Board of Estimate and Apportionment,* 277 Broadway, New York:

Dear Sir—In investigating the matter of transportation of employees I have given much consideration to the substitution of the hire of automobiles for horse-drawn vehicles, and I am convinced, as to the Borough of The Bronx, that such a substitution would be of advantage. I can dispense with the hire of 7 horses and carriages, the monthly expense of which is $460, using in their place 6 automobiles, which I can hire at the rate of $75 per month each, a total monthly cost of $450. The automobiles cost less and will cover much more territory in the same time. I therefore request that the Board of Estimate and Apportionment make it possible for me to effect this substitution by transferring the sum of $4,500 between appropriations for the year 1912, as indicated below, modifying at the same time the enclosed schedules to make the transfers effective:

FROM

508—1912	Vehicular transportation, Water Supply, Water Revenue Collection, The Bronx, Horses and Vehicles without Drivers...	$1,500 00
511—1912	Vehicular Transportation, Illumination, Power and Heat Control, Horses and Vehicles without Drivers.....	3,000 00
		$4,500 00

TO

499—1912	Vehicular Transportation, Water Supply, Hire of Automobiles.	$4,500 00

Yours truly, HENRY S. THOMPSON, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 27, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On March 9, 1912, the Commissioner of Water Supply, Gas and Electricity requested modification of three 1912 schedules for vehicular transportation in his Department, involving transfers aggregating $4,500. In connection therewith I report as follows:

The changes were requested to be effective as of March 1, 1912. For the reason that requisitions for March and April have already been issued amended schedules have been submitted to be effective as of May 1, 1912, reducing the necessary transfer to $3,600.

In Vehicular Transportation, Water Supply, No. 499, Hire of Automobiles, Administration, provisions is to be made for automobiles (Manhattan and The Bronx), at $75 per month for 48 months. The schedule total is increased by $3,600, the amount to be provided by transfer of $1,200 from No. 508 and $2,400 from No. 511.

In Vehicular Transportation, Water Revenue Collection (The Bronx), No. 508, Horses and Vehicles Without Drivers, the allowance for horse and vehicle without driver at $60 per month is to be reduced from 36 to 16 months. The schedule total thereby is decreased from $2,160 to $960, and the $1,200 balance transferred to No. 499.

In Vehicular Transportation, Illumination, Power and Heat Control, No. 511, Horses and Vehicles Without Drivers, Inspection, Manhattan and The Bronx, the number of horses and vehicles at $60 per month is to be reduced from eight to three, and an allowance made for horse and vehicle at $60 per month for 20 months, in addition to the $2,400 transfer to No. 499.

The replacement of horse vehicles by automobiles will permit the inspection force to cover a wider territory each day, therefore increasing efficiency without increasing the annual cost to the City.

I recommend the adoption of the attached resolutions granting the amended request. Respectfully, WM. A. PRENDERGAST, Comptroller.

Department of Parks, Borough of The Bronx, Office of Chief Engineer, Zbrowski Mansion, Claremont Park, February 20, 1912.

JOSEPH HAAG, Esq., *Secretary, Board of Estimate and Apportionment,* 277 Broadway, New York:

Dear Sir—Pursuant to the resolution adopted by the Board of Estimate and Apportionment July 17, 1911, amended August 31, 1911, I submit herewith, by order of the Commissioner of Parks for the Borough of The Bronx, plans and specifications for the following contract, the estimated cost of which is four thousand six hundred dollars ($4,600):

"For furnishing all the labor and materials for the erection and completion of a winter house for pelicans, in the Zoological Park, in the Borough of The Bronx, in The City of New York." Yours very truly,

MARTIN SCHENCK, Chief Engineer.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 27, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On February 20, 1912, the Commissioner of Parks, Borough of The Bronx, requested approval of the form of contract, plans, specifications and estimate of cost in the sum of $4,600 for the erection and completion of a winter house for pelicans in the Zoological Park, in the Borough of The Bronx.

The contract included the installation of electric wiring and equipment in the building. Upon examining the plans and specifications it was found that they had not been approved by the Board of Water Supply, Gas and Electricity, as provided in a resolution adopted by the Board of Estimate and Apportionment on February 2, 1911.

The Department of Parks, Borough of The Bronx, was notified of the omission, and the contract, plans and specifications were taken by a representative of the Department on March 11, 1911, to obtain the necessary certification.

They were returned to the Department of Finance on April 22, 1912, with the approval of the Board of Water Supply, Gas and Electricity attached.

The cost of the building is to be paid from a corporate stock fund of $5,000, authorized by the Board of Estimate and Apportionment on July 17, 1911, and by the Board of Aldermen on July 31, 1911, entitled "C. D. P.—332J, New York Zoological Park, Erection of Extension to Winter House for Pelicans." On April 24, 1911, there was an unencumbered balance of $4,954.11 in the fund.

The specifications have been amended and are now satisfactory. The form of contract and plans are satisfactory, and the estimate of cost is reasonable.

I recommend the adoption of the attached resolution approving the specifications, as amended, the form of contract and the estimate of cost. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

H. T. Dakin	1,024 40
Cavanagh Bros. & Co.	902 55
The Manhattan Supply Company	1,010 06

Class 15, for hardware, was authorized at estimate of $2,164.59. At the opening of the proposals on April 1, 1912, the following bids were received:

Frank Richards & Gardner Co.	$2,344 62
George T. Montgomery	2,422 00
H. T. Dakin	2,366 54

The Manhattan Supply Company	2,286 45

Class 18, for cast iron and malleable iron steam fittings and wrought iron and cast iron pipe, was authorized at estimate of $1,537.20. At the opening of the proposals on April 1, 1912, the only bid received was from the Manhattan Supply Company, $1,550.30.

Class 19, for valves and brass steam fittings, was authorized at estimate of $770.02. At the opening of the proposals on April 1, 1912, the following bids were received:

I request your authorization on the following contracts at the figure noted on each class in order that the said classes can be awarded to the lowest bidders, as above:

Class 14, for miscellaneous articles	$902 55
Class 15, for hardware	2,265 21
Class 18, for cast iron and malleable iron steam fittings and wrought iron and cast iron pipe	1,550 30
Class 19, for valves and brass steam fittings	863 10

Yours respectfully, CALVIN TOMKINS, Commissioner of Docks.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 27, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On March 14, 1912, the Board of Estimate and Apportionment approved the form of contract (No. 1309), specifications and estimates of cost in the aggregate sum of $56,088.68, for furnishing general supplies under the jurisdiction of the Department of Docks and Ferries.

The contract was divided into 22 classes, the award to be made to the lowest bidder in aggregate for all items in each class.

On April 9, 1912, the Commissioner of Docks requested that new estimates of cost be approved for the following classes, for the reason that at the opening of the proposals on April 1, 1912, the low bids received were in excess of the estimates approved.

Class 14, for miscellaneous supplies. The estimate of cost was approved at $778.80. At the opening of proposals on April 1, 1912, four bids were received, the lowest being $902.55, the highest $1,024.40.

Class 15, for hardware, was approved at an estimated cost of $2,164.59. At the opening of proposals on April 1, 1912, five bids were received, the lowest being $2,265.21, and the highest $2,422.

Class 18, for cast iron and malleable iron steam fittings, and wrought iron and cast iron pipes, was approved at an estimated cost of $1,537.20. At the opening of proposals on April 1, 1912, the Manhattan Supply Company was the only bidder at $1,550.30.

Class 19, for valves and brass steam fittings, was approved at an estimated cost of $770.02. At the opening of proposals on April 1, 1912, two bids were received—$894.04 and $863.10.

The Commissioner of Docks requests that new estimates of cost be approved so that contracts may be awarded to the lowest respective bidders for the several classes, as follows:

Class 14 For miscellaneous articles	$902 55
Class 15 For hardware	2,265 21
Class 18 For cast iron and malleable iron steam fittings and wrought iron and cast iron pipe	1,550 30
Class 19 For valves and brass steam fittings	863 10

It is evident that there was competition in the bidding. In only a single instance was there but one bidder, and this bid was $13.10 in excess of the estimate originally approved. In view of the bids received and the range of prices, I am of the opinion that it will be to the best interest of the City to award the contracts.

I recommend the adoption of the attached resolution approving the new estimates of cost as requested. Respectfully,

WM. A. PRENDERGAST, Comptroller.

Mr. JOSEPH HAAG, *Secretary, Board of Estimate and Apportionment,* No. 277 Broadway, New York City:

Dear Sir—Pursuant to a resolution of the Board of Estimate and Apportionment of July 17, 1911 (as amended August 31, 1911), there is transmitted herewith for approval final contract for services of Messrs. Charles G. Armstrong & Son, for the preparation of plans, specifications, etc., for the installation of a swimming pool in the Public Bath Building situated at Nos. 342-348 East 54th street, Borough of Manhattan.

The estimated cost of the work is $54,000, and will be charged to C. P. M.—25A, Construction and Installation of Swimming Pool in Public Bath at Nos. 342-348 East 54th Street, Borough of Manhattan. Very truly yours,

W. R. PATTERSON, Assistant Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 27, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On April 18, 1912, the President of the Borough of Manhattan requested approval of a form of final contract for the services of Charles G. Armstrong and Son, of No. 149 Broadway, Manhattan, Architects, for the preparation of complete plans, specifications, etc., and the supervision of the construction of a swimming pool in the public bath building at 342 to 348 East 54th street, Borough of Manhattan. The estimated cost of the work is $2,031.42.

The cost is to be paid from an unencumbered balance of $53,460 (as of April 26, 1912) in the corporate stock fund entitled "C. P. M.—25A, Public Bath in East 54th Street, Borough of Manhattan, Construction and Installation of Swimming Pool." The authorization in the sum of $54,000 was approved by the Board of Estimate and Apportionment on June 3, 1910, and by the Board of Aldermen on June 28, 1910.

The compensation—five per cent. on the cost of the construction work, less the amount paid for preliminary work—is reasonable. The form of contract is similar to the form for final Architects' contracts prepared by the Corporation Counsel.

I recommend the adoption of the attached resolution approving the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

The form of contract and plans are satisfactory and the estimate of cost is reasonable.

I recommend the adoption of the attached resolution approving the specifications, as amended, the form of contract and plans and the estimate of cost.

The Secretary presented the following report of the Comptroller relative to the authorization of special revenue bonds, submitting summary showing the amount of bonds authorized and the issued and unissued portions thereof, and recommending the adoption of a resolution rescinding the balances of said authorizations remaining unissued, to the end that the amount authorized shall be of the same amount as the total of the special revenue bonds issued under each authorization, as specifically set forth in the schedule attached to and made part of the resolution submitted for adoption:

(On March 14, 1912, a resolution of the Board of Aldermen, requesting certain detailed information in regard to the annual issuance of special revenue bonds under subdivision 8, section 188 of the Charter, was referred to the Comptroller.)

(Previous to the adoption of said resolution by the Board of Aldermen, a report had been made by the Comptroller and presented to the Board at the meeting of March 14, 1912, relative to the progress made by the Department of Finance in regard to the condition of the special revenue bond accounts, and the Board adopted a resolution amending resolutions relative to the authorization of special revenue bonds, by rescinding the unissued balances thereof to the extent of $1,480,502.28.)

The City of New York, Department of Finance, Comptroller's Office, April 30, 1912.

To the Honorable Board of Estimate and Apportionment, City of New York:

Gentlemen—On December 31, 1911, the books of the Department of Finance showed the condition of the special revenue bond accounts to be as follows:

Authorized	$9,069,370 83
Issued	5,953,790 10
Unissued	$3,115,580 73

These figures included authorizations under subdivisions 8, section 188 of the City Charter, as follows:

Authorizations	$4,435,443 45
Issued	1,997,115 59
Unissued	$2,438,327 86

On March 5, 1912, the following resolutions were passed by the Board of Aldermen, and referred by the Board of Estimate and Apportionment to the Comptroller for such action as might be necessary:

Whereas, subdivision 8 of section 188 of the Charter limits the annual issuance of special revenue bonds under that subdivision to the amount of $2,000,000 a year, but places no limitation upon the yearly amount that may be authorized as therein expressed; and

Whereas, It appears to be possible under the law for appropriations vastly in

excess of the amount of the limitation upon issuance to be authorized from year to year; and

Whereas, On January 1, 1912, there was in existence such authorizations to the amount of over $2,400,000 against which such special revenue bonds had not up to that time been issued; and

Whereas, It appears to be possible for future expenditures to be made under said authorizations of prior date to January 1, 1912, for which expenditures the special revenue bonds must be issued in the year 1912 or thereafter, whereby the authorizing bodies in the City Government are confronted with an unbusinesslike lack of corordination between the appropriations authorized and the bonds issued under this section and subdivisions, resulting in constant uncertainty as to how much may be wisely authorized in any one year; now, therefore, be it

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to furnish to the Board of Aldermen a complete detailed statement of every unencumbered authorization and balance of authorization concurred in by said Board of Estimate and Apportionment prior to January 1, 1912, under this section and subdivision, to the end that exact knowledge may be had of the status of the City's account under this section and subdivision as of January 1, 1912; and be it further

Resolved, That the Board of Estimate and Apportionment is further requested to rescind by resolution, as soon as possible, all such unencumbered authorizations and balances of authorizations of prior date to January 1, 1911, and also all those of date in the year 1911 against which it does not appear to be imperative in the public interest that expenditures be made and audited in the year 1912; and be it further

Resolved, That when such recission shall have been made, if made, the Board of Estimate and Apportionment is further requested to communicate to the Board of Aldermen a detailed statement of such unencumbered authorizations and balances of authorizations of prior date to January 1, 1912, which still remain outstanding on the said first day of January, 1912; and be it further

Resolved, That the Board of Estimate and Apportionment is fuorther requested to take the steps hereinabove requested, so far as practicable, with respect also to each other subdivision of said section 188 of the Charter, but, if possible, in such a way as not to prevent the utmost expedition as to the matters under subdivision 8 aforesaid.

Work along the same lines had progressed so far in the Department of Finance prior to the passage of the above resolution, that under date of March 8, 1912, I was able to recommend to your Board the amendment of special revenue bond authorizations prior to 1911 by the deduction of the amount of bonds unissued, $1,480,505.28, and this reduction was effected by your resolution of March 14, 1912.

On March 23 there were delivered to Hon. Henry H. Curran, Chairman of the Finance Committee of the Board of Aldermen, schedules of the remaining special revenue bonds authorized prior to January 1, 1912, under subdivision 8, section 188, of the Charter, made up as follows:

	Authorized.	Issued.	Unissued.
1. Authorizations made for obligations incurred or to be incurred for indeterminate periods	$1,906,308 74	$1,245,286 93	$661,021 81
2. Authorization made to provide for expenses incurred or to be incurred during specific periods	2,026,906 94	1,687,701 82	339,205 12
	$3,933,215 68	$2,932,988 75	$1,000,226 93

Relative to the amount of special revenue bonds authorized prior to January 1, 1912, and still outstanding at that date, the Committee on Finance of the Board of Aldermen reported on April 18, 1912, as follows:

"If it were a large amount and the needs imperative, it is conceivable that the Comptroller might have been compelled to issue the whole 1912 allowance of $2,000,000 early in the year to take care simply of authorizations of years gone by. Such a step would have deprived the Comptroller of the power to issue another penny's worth during the rest of the year 1912, and this impotence would at once extend to this Board, for, with all the 1912 bonds already issued for old matters no new authorizations could be honored until 1913. The Board might authorize at will, but the Departments could not get the money; the authorization would be only a promissory note payable in 1913."

According to the same report, the "Action upon applications for issuance of special revenue bonds under subdivision 8 of section 188 of the Charter, January 1 to April 3, 1912," was as follows:

"Applications to the Board of Aldermen		$2,288,293 96
"Rejected by the Finance Committee	$1,088,410 22	
"Approved by the Finance Committee	672,024 93	
"Pending in the Finance Committee	526,358 81	
		2,286,793 96
"Approved by the Board of Aldermen without reference to the Finance Committee		1,500 00
"Recommended to Board of Aldermen by Finance Committee		672,024 93
"Submitted to the Board of Aldermen		$673,524 93
"Rejected by the Board of Aldermen	$10,000 00	
"Pending in the Board of Aldermen	67,842 50	
		77,842 50
"Recommended by Board of Aldermen to Board of Estimate		$595,682 43
"Rejected by the Board of Estimate	$11,556 00	
"Approved by the Board of Estimate	331,810 00	
		343,366 00
"Pending in the Board of Estimate		$252,316 43"

The issues recommended by the Board of Aldermen aggregate approximately $670,000, which together with the amounts authorized, but unissued prior to 1912, amount roughly to $1,470,000.

It will thus be seen how necessary it is to rescind as much as possible of the older authorizations.

With this purpose in view, I recommend that the Board of Estimate and Apportionment adopt the resolution attached hereto. Respectfully submitted,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Whereas, The Board of Estimate and Apportionment has authorized the issuance of special revenue bonds on the dates, for the purposes and in the amounts as specifically set forth in the schedule hereto annexed, and made a part hereof; and

Whereas, The purposes for which the said authorizations were originally made have now been fully accomplished, and there remain special revenue bonds authorized but unissued as set forth in the aforementioned schedule, and the balance of the authorizations for which the special revenue bonds have not been issued are no longer necessary for the purposes originally intended, as more fully appears in a report submitted by the Comptroller to this Board, under date of April 30, 1912; now therefore be it

Resolved, That each and every resolution specified in the following schedule be, and the same is hereby amended to the effect that the authorization contained therein for the issuance of special revenue bonds shall be of the same amount as the total of the special revenue bonds issued under each of the aforesaid authorizations, as specifically set forth in the said schedule.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, and the Acting Presidents of the Boroughs of Queens and Richmond—16.

The Secretary was directed to transmit a copy of the report of the Comptroller and the resolution to the Chairman of the Finance Committee of the Board of Aldermen.

The Secretary presented a report of the Committee on Salaries and Grades, returning for filing, communication from the Commissioner of Parks, Borough of Brooklyn, transmitting application of William Maxwell, a Laborer in said Department, for retirement pursuant to the provisions of chapter 669 of the Laws of 1911, for the reason that said applicant has since died.

Which was ordered filed.

(On November 29, 1911, the above matter was referred to the Committee on Salaries and Grades.)

The Secretary presented a report of the Committee on Salaries and Grades, referring to three resolutions of the Board of Aldermen, requesting increases in the salaries of employees in the office of the City Clerk, viz.: William J. Haubert, Index Clerk, from $1,200 to $1,800 per annum; Thaddeus C. Wasserman, Clerk, from $1,800 to $2,250 per annum, and the fixing of the salary of Charles A. Glaser, Clerk, at $2,500 per annum; and stating that these grades of positions have already been established in accordance with the provisions of section 56 of the Charter; that the Board of Aldermen should, therefore, authorize the issue of special revenue bonds to pay the proposed increases, and also request the necessary modification of the salary schedule.

Which was ordered filed and the Secretary directed to transmit a copy thereof to the Board of Aldermen.

(On February 21 and 29, 1912, the above resolutions were referred to said Committee.)

The Secretary presented a report of the Committee on Salaries and Grades, recommending the establishment of the following grades of positions in the Fire Department:

	Per Annum.	Incumbents.
Assistant Electrical Engineer	$2,400 00	1
Draftsman	1,500 00	2
Inspector	1,500 00	6

Which was laid over one week, May 16, 1912.

(On March 7, 1912, a communication from the Fire Commissioner, relative to the establishment of the above grades of positions, was referred to said Committee.)

The Secretary presented the following report of the Budget Committee, recommending that all departments, etc., be called upon to submit Departmental Estimates for the Budget for the year 1913 on or before July 15, 1912, and to accompany each estimate with a statement setting forth all reasons for any changes suggested in the estimates for 1913, as compared with the allowances made to the Department, etc., for the year 1912:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 8, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—The Budget Committee of the Board of Estimate and Apportionment was seriously handicapped last year by the fact that the Departments did not submit their Departmental Estimates in the time required by law. Section 226 of the Greater New York Charter provides as follows:

> "In order to enable said board (Board of Estimate and Apportionment) to make such budget, the presidents of the several boroughs and heads of departments, bureaus, offices, boards and commissions shall, not later than September tenth, send to the board of estimate and apportionment an estimate in writing, herein called a departmental estimate, of the amount of expenditure, specifying in detail the objects thereof, required in their respective departments, bureaus, offices, boards and commissions, including a statement of each of the salaries of their officers, clerks, employees and subordinates."

Many of the Departments disregarded this law in 1912. Some of them did not submit their estimates until some time in October. A very large percentage did not submit their estimates until long after the time required by law.

The section from which the above is quoted was enacted as chapter 410 of the Laws of 1882. It was continued in the Greater New York Charter. The section was made a law at a time when budget making was a very simple task. The City was small and there was no difficulty in completing the Budget between September 10 and November 1, before which latter date the Budget must be adopted by the Board of Estimate and Apportionment.

Within the last four years the work of making the Budget has become a very serious task. It requires very thorough and laborious investigation by the Examiners working in behalf of this Board. Every item of the many thousands in the Budget must be investigated. It would be impossible to do this work well between September 10 and November 1, even if the Departmental Estimates were received in time.

The only way in which the work can be done is to have the Examiners investigate in advance of the receipt of the Departmental Estimates. This is an unsatisfactory way of investigating, as the Examiners have only a very imperfect idea of what the requests of the Departments will be. The Examiners in the Department of Finance have already been at work for some time studying the needs of the Departments with reference to the Budget for 1913.

If the estimates for the 1913 Budget are to be given the careful consideration they should receive, the work should be commenced at the earliest possible moment. The Budget Committee cannot do this work well without the co-operation of the heads of the various Departments. The heads of Departments can give great assistance and can insure a fuller and more intelligent consideration of their estimates by submitting the estimates at an early date and at the same time submitting statements showing every proposed change and the requests for such proposed changes.

Representatives of the Budget Committee have been engaged for several months in devising forms for the departmental estimates for 1913. These new forms are designed to show at a glance every proposed change in the 1912 Budget. Heretofore the forms for the departmental estimates have not indicated the old and the new, and it was only by laborious examination that the proposed new items could be separated from the existing condition.

The form which has been devised requires that all existing force for which no change is proposed shall be shown by title in one column and all additional force or proposed changes in existing force shall be shown in the same way in a parallel column.

The forms also require that all changes in force shall be fully stated. The requested increases in salaries of the existing force must be shown in one column, requested decreases in salaries of the existing force in another column, requested additions to force in a third column and requested reduction in force in a fourth column. The estimates must show also the number of vacancies in the existing schedules. Heretofore the Budget Committee has had great difficulty in analyzing departmental estimates. It has found that certain schedules were reduced and others increased, but it was almost impossible to tell whether the reduction in one was caused by the dropping of incumbents, or by transferring to other Bureaus or Divisions of the same Department, and it was just as difficult to determine whether or not increases in force in another schedule were accounted for by transfer from another Bureau or Division or by taking on entirely new men from the outside. The forms for 1913 are designed to obviate this difficulty. If a position is entirely eliminated that fact must be shown; if it is merely transferred to another Bureau that fact must be shown, and the 1912 code number of the account to which the transfer is made must be shown. All entirely new positions—that is, positions not transferred from other schedules in the same Department—must be shown as entirely new. All increases in a schedule due to transfers from another schedule in the same Department must be shown as transfers and the 1912 code number of the account from which transfer is proposed must be shown.

The Budget as it now exists does not deal with individuals but treats employees simply as line items. However, nearly every request for an increase of salary is based on the claim of individual merit for a certain employee. In view of the fact that salary increases are in nearly all cases requested as a reward for individual merit, the forms for 1913 call for the names of the individuals for whom salary increases are requested. They call also for the date of the last increase and the amount of the last increase and for a statement showing fully why the increase should be made. The forms are designed to have every fact stand out alone in its own classification, thereby making it unnecessary to wade through a mass of other matter in order to pick out the information that is sought. These forms can be made ready for delivery to the Departments within a short time after June 1. They will be delivered as soon as received from the printer. The heads of the Departments should be able to fill out these forms within a month. We recommend that the heads of Departments be requested to submit their departmental estimates on or before July 15, 1912, and that each estimate be accompanied by a complete statement setting forth all requests for changes proposed in the estimate for 1913 as compared with the allowances made to the Departments for the year 1912.

We recommend the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan. Budget Committee.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby request the Presidents of the several Boroughs and heads of departments, bureaus, offices, boards and commissions in The City of New York and the counties therein contained, to submit to the Board of Estimate and Apportionment their departmental estimates for 1913 on or before July 15, 1912, said departmental estimates to be accompanied by a complete statement setting forth all requests for proposed changes in the 1913 Budget as compared with allowances made to departments in the Budget of 1912.

Resolved, That the Secretary of the Board of Estimate and Apportionment is hereby directed to send copies of this resolution to the head of every department, bureau, office, board and commission as soon as possible.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, and the Acting Presidents of the Boroughs of Queens and Richmond—16.

The Secretary presented the following communication from the New York Public Library requesting, and report of the Comptroller recommending, the transfer of $8,600 within the appropriation made to said Library for the year 1912:

The Trustees of the New York Public Library, Astor, Lenox and Tilden Foundations, April 9, 1912.

Board of Estimate and Apportionment of The City of New York, City Hall, New York:

Gentlemen—Upon the recommendation of the Committee on Circulation and by direction of the Executive Committee of the New York Public Library, I hereby apply to the Board of Estimate and Apportionment for approval of the following transfers in the Library appropriations for the year 1912:

$3,600, from Repairs to Buildings, Sanitary (Code No. 1461), to Repairs to Buildings, Ordinary (Code No. 1460).

$1,000, from Binding, Materials for Repairs and Replacements by Departmental Labor (Code No. 1454), to Binding (Code No. 1463).

$2,000, from Periodicals (Code No. 1453), to Binding (Code No. 1463).

$2,000, from Light (Code No. 1468), to Binding (Code No. 1463).

Very respectfully, G. L. RIVES, Chairman, Executive Committee.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 2, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On April 9, 1912, the Chairman of the Executive Committee of the Trustees of the New York Public Library requested the transfer of $8,600 within appropriations to the Library for the year 1912. In connection therewith I report as follows:

The debit transfers requested are $3,600 from No. 1461, Repairs to Buildings, Sanitary; $1,000 from No. 1454, Binding Materials for Repairs and Replacements by Departmental Labor; $2,000 from No. 1453, Periodicals, and $2,000 from No. 1468, Lighting. The credit transfers are $3,600 to No. 1460, Repairs to Buildings, Ordinary, and $5,000 to No. 1463, Repairs and Replacements by Contract or Open Order, Binding.

Regarding the $3,600 transfer in the building repair accounts it is stated by the Library officials that repairs to branch libraries are general in character and that the Budget segregation of the two accounts causes confusion because of difficulty in separating the charges.

It is stated that the other debit transfers are of amounts no longer necessary for the purposes for which they were appropriated, and that the money is needed in the binding account. The Chief of the Circulation Department states that 70,625 volumes were rebound in 1910, at a cost of $36,134.59, and that 71,865 volumes were rebound in 1911, at a cost of $36,616.34, making an average expenditure of about $3,000 a month. He states further that on April 1, 1912, there were 7,800 volumes held in the branch libraries for rebinding. The present available balance in No. 1463, Binding, is $21,795.67, and the credit transfer would give $26,795.67 for eight months, or an amount which approximates the average expenditures for 1910 and 1911.

I recommend the adoption of the attached resolution granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Yours respectfully,

MAURICE E. CONNOLLY, President of the Borough of Queens.

The City of New York, Office of the President of the Borough of Queens, Long Island City, April 2, 1912.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman, Board of Estimate and Apportionment. City of New York:*

Sir—Pursuant to resolution of your honorable Board, adopted September 13, 1910, authority is hereby requested to employ 3 Mechanical Draftsmen, at $1,800 per annum; 12 Topographical Draftsmen, at $1,500 per annum, salaries of which are to be charged against Assessment or Street Improvement Funds on work preliminarily authorized by the Board of Estimate and Apportionment for the construction of sewers in this Borough.

At the present time we have in abeyance $1,100,000 worth of such authorizations, which we are unable to progress in consequence of lack of necessary help.

As all of this work has been duly petitioned for and authorized by the Local Boards of Improvements and the Board of Estimate and Apportionment, the petitioners and property owners demand prompt action; hence this application.

These employees are to be considered temporarily employed, and their work ceases when the contract work on which they are to be employed is complete.

Yours respectfully,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 6, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On April 2, 1912, the President of the Borough of Queens requested modification of the budgetary part schedule for the Bureau of Sewers, Engineering, No. 2005, Salaries, Regular Employees, Tax Levy and Trust Fund Force, and that a schedule be established for a force of Engineers to be employed in the preparation of plans and specifications on contract work chargeable to the Street Improvement and Assessment Bond Fund Accounts. In connection therewith I report as follows:

It is proposed in No. 2005 to provide for increased compensation to the extent of $450 for two Draftsmen and to add a Clerk at $1,500. One increase from $1,200 to $1,500 per annum is for Charles M. Leahy, a Draftsman, who for many years has been employed in the Borough, and who has been offered a position in another Department of the City at the advanced rate. The other increase from $1,350 to $1,500 per annum is for Henry P. Labelle, a Draftsman appointed in 1907, and who also has been offered a position at a higher rate by another Department.

Both incumbents are stated by the President to be efficient and deserving of the increases proposed. The Clerk at $1,500 is to be added in lieu of a Draftsman at $1,800, who formerly kept the records of the Bureau, but who resigned owing to physical disability. Upon investigation it was found that it was the intention to have this work done by a Clerk now in the administration of the Sewer Bureau, who was to be transferred. As this incumbent is paid at the rate of $1,050 per annum, the inclusion of a line for Clerk at this amount is recommended. The revised schedule provides for the elimination of this position and for the decrease of another vacant position of Draftsman at $1,800 to $1,200. The balance of $900 resulting from these changes is to be scheduled as unassigned.

The following table shows the schedule changes in No. 2005 in detail:

Account No.	Schedule Line.	Schedule Transfer. Increase.	Decrease.
2005	Draftsman, 3 at $1,800	.....	$3,600 00
	Draftsman, 4 at $1,500	$3,000 00	.....
	Draftsman, 2 at $1,350	.....	1,350 00
	Clerk, at $1,050	1,050 00	.....
	Balance unassigned	900 00	.....
		$4,950 00	$4,950 00

The President states that there is an unusual amount of preliminary authorizations approved by your Board for sewer work in the Borough, and that over $1,000,000 worth of such work is now held in abeyance owing to a lack of force.

These improvements have been petitioned for and authorized, and the cost of additional employees is to be paid entirely from the Street Improvement Fund. The additional force estimated to be necessary comprises three Draftsmen at $1,800, and twelve at $1,500 per annum each.

I recommend the approval of the request, with the exception noted, by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller.

	Add Line Items:

This letter, which supersedes and withdraws my requests of February 14 relative to schedules Nos. 101 and 102 and February 26, 1912, relative to schedules Nos. 98, 101 and 102, is made for the purpose of providing for the payment of the salary of a "Secretary to Commissioner," at $3,000 per annum. Respectfully,

ARTHUR J. O'KEEFFE, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 4, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On February 28, 1912, the Commissioner of Bridges requested modification of three salary schedules in his Department for 1912 involving schedule transfers of $3,000. In connection therewith, I report as follows:

In Personal Service, Administration, Executive, No. 98, Salaries, Regular Employees, it was proposed to add a Secretary to Commissioner, at $3,000, increasing the schedule total by the same amount. The grade of Secretary to Commissioner, at $3,000, has not been established for the Department, pursuant to the provisions of section 56 of the Greater New York Charter. The grade of Secretary at the rate is established, and the modification can be granted under this title, which has the approval of the Commissioner.

In Personal Service, Operation and Maintenance, Supervision, No. 101, Salaries, Regular Employees, the $2,050 balance unassigned is stricken out for transfer to No. 98.

In Personal Service, Operation and Maintenance, General, No. 102, Salaries, Regular Employees, a Foreman Laborer, at $1,200, is to be eliminated; $250 to be scheduled as unassigned, and the balance transferred to No. 98 to make up the $3,000 for the Secretary.

The changes are to provide for the promotion of Frank J. Lynch, a Transitman and Computer, at $1,800, to the position of Secretary.

The $1,200 increase for Mr. Lynch is covered by corresponding decreases made in a modification of No. 101; on January 25, the unassigned balance of $2,050 then having been obtained, as follows:

Assistant Engineer, decreased from $5,000 to $4,000		$1,000 00
Assistant Engineer, decreased from $2,700 to $2,100		600 00
Steel Inspector eliminated		1,650 00
		$3,250 00
Assistant Engineer, increased from $2,700 to $3,000	$300 00	
Stenographer and Typewriter added	900 00	
		$1,200 00
		$2,050 00

The table shows salary decreases of $1,600 and an increase of $300, leaving net salary decreases of $1,300.

Mr. Lynch, prior to his entrance into the service of the City, was employed as an engineer by private contractors and by the Rapid Transit Subway Construction Company. In January, 1903, he was appointed Rodman, at $1,050, in the office of the President of the Borough of Richmond, and employed in highway and sewer construction work.

In April, 1904, he was transferred to the Department of Bridges as Leveler, at $1,350, and subsequently promoted to Transitman and Computer at $1,500 and placed in charge of the construction of the Union street and Ninth street bridges, Brooklyn. In March, 1906, his compensation was fixed at $1,800, his present rate.

Since January, 1910, he has been detailed on the personal staff of the Chief Engineer, and acting as Engineering Secretary to the Commissioner. He is now paid from corporate stock funds.

The line item changes as of May 1, 1912, in detail, are as follows:

Account No.	Line Item.	Schedule Transfer. Decrease.	Schedule Transfer. Increase.	Cash Transfer. Decrease.	Cash Transfer. Increase.
98	Secretary, at $3,000	.....	$3,000 00	.....	$2,000 00
101	Balance Unassigned	$2,050 00	.....	$1,366 67	.....
102	Foreman Laborer, 2 at $1,200	1,200 00	.....	800 00	.....
	Balance Unassigned	.....	250 00	.....	166 67
		$3,250 00	$3,250 00	$2,166 67	$2,166 67

The attached resolutions, if adopted by your Board, will grant the request, with the change of title previously noted. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

To the Board of Estimate and Apportionment:

Gentlemen—On April 9, 1912, the Board of Health requested modification of a schedule of salaries in that Department for the year 1912. On April 19 the request was orally amended. In connection therewith I report as follows:

The request is for nine line item changes in No. 330, Hospitals, Tuberculosis Sanatorium, Otisville, Salaries, Temporary Employees. It is proposed to substitute a Nurse at $240, for a Nurse at $480, and to give 133, instead of 145 months, in the line item for Domestics, at $240. One Orderly, at $300, is to be dropped. The salary of a Domestic in charge of a pavilion is to be increased from $480 to $600 per annum. One Domestic is to be increased from $192 to $216, and one from $192 to $240 per annum. These increases in salary are provided for by the reduction in the rate of the Nurse.

In addition to these changes, a Helper, at $300 per annum, is to be dropped, and six additional Helpers (patients), at $120 per annum each, are to be assigned to a new pavilion.

It is stated that the various changes are required to meet new conditions at the Sanatorium, and on account of the shifting character of the help employed.

The following table shows the line item changes in detail:

Account No.	Schedule Line.	Schedule Transfer. Decrease.	Schedule Transfer. Increase.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and the Acting Presidents of the Boroughs of Queens and Richmond—16.

The Secretary presented the following resolution of the Board of Aldermen requesting, and report of the Comptroller recommending, the issue of $150 special revenue bonds (subdivision 8, section 188 of the Charter), to provide for the difference in salary of a Stenographer and Typewriter legally entitled to $1,800 per annum, whose compensation was provided for in the 1912 Budget at $1,650 per annum, in the office of the Board of Assessors, and further recommending the modification of Salary Schedule No. 1342 to provide for said rate, to take effect January 1, 1912:

(On April 11, 1912, the resolution of the Board of Aldermen requesting the above issue was referred to the Comptroller.)

In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one hundred and fifty dollars ($150), the proceeds whereof to be used by the Board of Assessors for the purpose of paying the difference in the salary of a Stenographer legally entitled to $1,800 per annum, whose compensation was, by mistake, set down in the 1912 Budget at $1,650 per annum.

Adopted by the Board of Aldermen March 19, 1912, three-fourths of all the members elected voting in favor thereof.

Received from his Honor the Mayor April 22, 1912, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it. P. J. SCULLY, Clerk.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 2, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On March 19, 1912, the Board of Aldermen adopted a resolution requesting $150 in special revenue bonds for payment of a Stenographer and Typewriter in the Board of Assessors, at the rate of $1,800 instead of the rate of $1,650 per annum, included in the 1912 Budget. In connection therewith I report as follows:

On July 18, 1911, the grade of Stenographer and Typewriter, at the $1,800 rate, was established in the Board of Assessors. On August 1, 1911, a schedule modification was approved in accordance with the establishment and the $1,800 rate was paid to an incumbent to December 31, 1911. The old rate of $1,650 was inadvertently included in the 1912 Budget and the $150 is to make up the $1,800 for 1912.

I recommend the adoption of the attached resolutions granting the request and making the necessary schedule modification. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

The Secretary presented the following resolution of the Board of Aldermen requesting, and report of the Comptroller recommending, the issue of $2,792.50 special revenue bonds (subdivision 8, section 188 of the Charter), for the purpose of defraying expenses incurred by the Department of Health in moving the effects of said Department from its present quarters to its new quarters at the southwest corner of Centre and Walker streets, Borough of Manhattan:

To the Board of Estimate and Apportionment:

Gentlemen—On April 2, 1912, the Board of Aldermen adopted a resolution requesting $2,792.50 in special revenue bonds, for the purpose of defraying expenses of moving effects of the Department of Health from its old quarters to its new quarters at the southwest corner of Centre and Walker streets, Borough of Manhattan. In connection therewith I report as follows:

No appropriation was made for this purpose in the Budget for 1912, for the reason that when the Budget was made up there was uncertainty as to the time of the removal of the headquarters. The $2,792.50 is the amount of the lowest of a number of bids for the removal to be made from the old quarters at 55th street and 6th avenue, to the new building at the corner of Centre and Walker streets.

I recommend the adoption of the attached resolution granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

To the Board of Estimate and Apportionment:

Gentlemen—On April 2, 1912, the Board of Aldermen adopted a resolution requesting $2,500 in special revenue bonds, to be used by the Department of Health for an exhibition by the Department at the Fifteenth International Congress on Hygiene and Demography, to be held in Washington, D. C., in September, 1912. In connection therewith I report as follows:

The International Congress and exhibition are to be under the auspices of the Federal Government. They constitute an event of special sanitary significance, and are expected to contribute largely to the progress of sanitation in this country. The object of the Congress is to extend the knowledge and improve the practice of hygiene, public health and vital statistics in the countries which participate. An important feature of these Congresses has been exhibitions of the recent progress and the present condition of the public health movement. Several large European cities will be represented in the Washington exhibit. New York City should make on this

occasion a proper representation of the progress which has been made in its public health administration.

The Board of Health has planned to use the exhibit material from Washington at the 1912 Budget Exhibit, and afterward to install it in the new headquarters of the Department as a permanent museum of public health. The funds requested are to be used for the preparation of models, tables and charts, illustrating the different activities of the Department, for installation and packing, for the printing of circulars, and for the expenses during the Congress of the necessary demonstrators and supervisors.

I recommend the adoption of the attached resolution granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

To the Board of Estimate and Apportionment:

Gentlemen—On January 19, 1912, the Department of Health requested approval of the form of contract, specifications and estimate of cost in the sum of $1,750, for kitchen equipment for the women's dining hall at the Municipal Sanatorium, Otisville, N. Y.

The specifications were received by the Board of Estimate and Apportionment on April 22, 1912.

The form of contract and specifications have been amended by the Department of Health at the request of the Department of Finance, and are satisfactory; the estimate of cost is reasonable.

The cost of the equipment is to be charged to the unencumbered balance of $4,446.54 (as of May 1, 1912), in the corporate stock fund entitled "C.D.H.—7D. Department of Health, Sanatorium at Otisville, N. Y., Dining Hall, etc., for Women's Unit." The appropriation in the sum of $25,000 was approved by the Board of Estimate and Apportionment on June 11, 1909, as amended on June 25 and July 2, 1909, and by the Board of Aldermen July 13, 1909.

I recommend the adoption of the attached resolution granting the request, with the amendment noted.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution adopted on July 17, 1911, as amended on August 31, 1911, hereby approves the amended form of contract and specifications and the estimate of cost, one thousand seven hundred and fifty dollars ($1,750), for kitchen equipment for the women's dining hall at the Municipal Sanatorium at Otisville, N. Y., under the jurisdiction of the Department of Health, the cost of the equipment to be charged to the corporate stock fund entitled "C. D. H.—7D, Department of Health, Sanatorium at Otisville, N. Y., Dining Hall, etc., for Women's Unit."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, and the Acting Presidents of the Boroughs of Queens and Richmond—16.

The Secretary presented the following communication from the Department of Docks and Ferries requesting, and report of the Comptroller recommending, approval, pursuant to resolution adopted July 17, as amended August 31, 1911, of the form of contract (as amended), plans, specifications and estimate of cost ($19,200), for building a pier at East 103d street and Harlem River, Borough of Manhattan, under the jurisdiction of said Department:

The contract is to be charged against C. D. D.—4C, "Construction of new pier at the foot of East 103d Street."

I request approval of the plans, specifications, form of contract and estimate in order that the contract may be advertised and awarded. Yours respectfully,

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 2, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On April 10, 1912, the Commissioner of Docks requested approval of the form of contract, plans, specifications and estimate of cost in the sum of $19,200 for building a pier at East 103d street, Harlem River, Borough of Manhattan.

The cost is to be paid from a corporate stock fund of $26,000 authorized by the Board of Estimate and Apportionment on July 17, 1911, and by the Board of Aldermen on July 25, 1911, and entitled "C. D. D.—4C, Department of Docks and Ferries, Construction of New Pier at Foot of East 103d Street." On May 1, 1912, there was an unencumbered balance of $25,602.24 in the fund.

The form of contract has been amended in accordance with suggestions of the Department of Finance, and is now satisfactory. The plans and specifications are satisfactory and the estimate of cost is reasonable.

I recommend the adoption of the attached resolution approving the form of contract as amended, the plans and specifications and the estimate of cost.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 17, 1911, as amended on August 31, 1911, hereby approves the form of contract as amended, the plans and specifications and the estimate of cost in the sum of nineteen thousand two hundred dollars ($19,200), for building a pier at East 103d street and Harlem River, Borough of Manhattan, under the jurisdiction of the Department of Docks and Ferries, the cost to be paid from the corporate stock fund entitled, "C. D. D.—4C, Department of Docks and Ferries, Construction of New Pier at Foot of East 103d Street."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, and the Acting Presidents of the Boroughs of Queens and Richmond—16.

The Secretary presented a report of the Comptroller referring to the request of the Commissioner of Parks, Borough of Brooklyn, for approval of a form of preliminary contract with Ludlow and Peabody, for services as architects in furnishing and preparing preliminary studies and specifications for Children's Branch Museum of the Brooklyn Institute of Arts and Sciences, recommending that said form of contract be returned to the Commissioner as it provides for the construction of the completed building at an estimated cost of $175,000, whereas the authorization of corporate stock for the construction and equipment of the Children's Museum, including architect's and engineering fees, adopted by the Board on July 17, 1911, amounted to $92,500 only, and stating that as no subsequent authorization had been adopted, the approval of the contract calling for more than the appropriation would not appear to be proper.

Which was ordered filed and the Secretary directed to return to the Commissioner of Parks, Borough of Brooklyn, the form of contract referred to therein, together with a copy of the report of the Comptroller.

The Secretary presented a report of the Comptroller referring to a communication from the Ridgewood Heights Improvement Association, requesting that an appropriation be made for the purpose of converting Public School 75, Ridgewood, Borough of Queens, into a Police Station and Courtroom, and recommending that this communication be placed on file, for the reason that the project is not feasible at the present time, in view of the urgent need of additional school accommodations in the Ridgewood Heights section in the Borough of Queens.

Which was ordered filed and the Secretary directed to transmit a copy thereof to the Corresponding Secretary of the Ridgewood Heights Improvement Association.

(On April 27, 1912, the above communication was referred to the Comptroller.)

The Secretary presented the following communication from the Commissioner of Docks requesting the appointment of a committee to consider the South Brooklyn Dock Front and Terminal question:

Department of Docks and Ferries, Pier "A," North River, New York, May 7, 1912.

Hon. WILLIAM J. GAYNOR, *Mayor, and Chairman of the Board of Estimate and Apportionment:*

Sir—I write to suggest the advisability for the appointment, at the next meeting of the Board of Estimate, of a Special Committee to consider and report upon South Brooklyn water-front terminal organization and administration.

The summer season is approaching and in my judgment it is very important that this matter should receive attention now. Yours respectfully,

CALVIN TOMKINS, Commissioner of Docks.

Which was referred to the Committee consisting of the President of the Board of Aldermen, the Comptroller, the President of the Borough of Manhattan and the Chief Engineer of the Board (appointed November 2, 1911), and the President of the Borough of Brooklyn, who was added to said Committee for the consideration of matters relating to Brooklyn.

The following matters not on the calendar for this day were considered by unanimous consent:

The Comptroller presented the following communications from the Municipal Civil Service Commission requesting, and report recommending, modification of salary schedule No. 1349, for said Commission, to be effective May 1, 1912, to provide for the addition of an Examiner at $2,400 per annum:

Municipal Civil Service Commission of The City of New York, 299 Broadway, Eleventh Floor, New York, May 3, 1912.

Hon. WILLIAM A. PRENDERGAST, *Comptroller:*

Sir—The Board of Aldermen having granted the moneys asked for by this Commission to carry on its ordinary work and dispose of the heavy burdens imposed by the increase in business and the new Departments created by the Legislature, I trust that the Board of Estimate and Apportionment will dispose of the matter at its next meeting. It would be a serious public disaster if this request of the Commission for these funds should fail to be granted promptly.

I also particularly desire to call your attention to a request which the Commission is making to-day for an alteration in its Budget line. This request will enable us to appoint another Examiner to conduct medical and physical tests. Some of the largest examinations ever ordered in the history of the Commission are now pending. The Medical Examiner of the Commission is overwhelmed and cannot meet the situation. It is necessary that we should have another Examiner at the earliest hour possible.

The great Fire Prevention Bureau examination, which includes 5,231 candidates, is at this moment held up for the reason that our regular Medical Examiner is engaged in conducting the medical and physical tests of candidates for Police Patrolman, and cannot possibly deal with other work at the same time.

I hope that you will see that the request for the alteration of our Budget line is taken up at the next meeting of the Board of Estimate and Apportionment. I will greatly appreciate anything you may do. Faithfully yours,

JAMES CREELMAN, President.

Municipal Civil Service Commission of The City of New York, 299 Broadway, 11th Floor, New York, May 4, 1912.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 8, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On May 4, 1912, the Municipal Civil Service Commission requested modification of the 1912 salary schedule for the Commission entitled Personal Service, No. 1349, Salaries, Regular Employees. In connection therewith I report, in part, as follows:

It is proposed to add an Examiner at $2,400 per annum. The President of the Commission states that the incumbent is to conduct medical and physical tests. Several of the largest examinations ever arranged by the Commission are now pending, and the President states that the one Medical Examiner employed at present is unable to do all the work. An examination of 5,231 candidates for positions in the Fire Prevention Bureau is being delayed for the reason that the Medical Examiner is conducting the medical and physical tests of candidates for Patrolman and cannot possibly deal with other work at the same time. The present Medical Examiner is at the $2,400 rate.

To provide for the additional Examiner, it is proposed to eliminate a position of Clerk at $2,100 per annum and a Clerk at $600 per annum, the $300 difference to be scheduled as an unassigned balance.

The following table shows the line item changes in detail:

Code No.	Schedule Line.	Schedule Transfer. Decrease.	Schedule Transfer. Increase.	Cash Transfer. Decrease.	Cash Transfer. Increase.
1349	Clerk, 5 at $2,100	$2,100 00	.....	$1,400 00	.....
	Clerk, 3 at $600	600 00	.....	400 00	.....
	Examiner, 3 at $2,400	.....	$2,400 00	.....	$1,500 00
	Balance unassigned	.....	300 00	.....	200 00
		$2,700 00	$2,700 00	$1,800 00	$1,800 00

Other items in the request will be made the subject of future report.

I recommend the adoption of the attached resolution providing for the additional examiner. Respectfully, WM. A. PRENDERGAST, Comptroller.

BELLEVUE AND ALLIED HOSPITALS.

Synopsis of Proceedings.

A meeting of the Board of Trustees of Bellevue and Allied Hospitals was held on March 5, 1912, at 3.30 p. m.

Present—Dr. Brannan, the President, in the chair; and Messrs. Farley, O'Keeffe, Paulding, Robbins and Sachs, Trustees. Excused—Messrs. Drummond and Stern.

Bills, amounting to $79,661.45, were approved.

Dr. George O'Hanlon, the General Medical Superintendent, reported as follows:

In reference to the request of Miss Noyes, General Superintendent of Training Schools, for fifteen additional graduate nurses and for revenue bonds for nurses for vacation relief, this matter has been gone over very carefully with Miss Noyes, and it is felt that ten additional graduate nurses at the present time, as authorized by the Board on February 20, will enable us to cover the nursing situation satisfactorily. These can be assigned to duty at once and paid from the regular nursing appropriation. For the vacation relief, it will be necessary to ask for revenue bonds to the extent of $5,000 to provide twenty graduates, at $50 per month for five months, from June 1 to October 31.

In reference to the rules and regulations governing students working in the wards, it is recommended that the rules for clinical clerks, promulgated by the College of Physicians and Surgeons for the use of their students, with certain modifications to meet the local conditions of the hospitals in the Department, be adopted.

In reference to the communication received from the Riverdale Health League as to the need of a hospital at Kingsbridge, it is reported, after communication with Mr. Delafield and others in this vicinity, that there would seem to be a need for the establishment of a small emergency hospital in that locality. It is hoped that some definite information as to the approximate cost and the possibility of securing a suitable building for this purpose will be obtained, in order that this matter may be reported upon at the next meeting.

It is reported that it is not an uncommon practice for the visiting physicians and surgeons to send to the laboratory specimens of various kinds for examination, the person from whom the specimen is taken in many cases not being at the time a patient in the hospital. It is recommended that the Director of Laboratories be directed to make examinations and reports only upon specimens obtained from patients actually in the hospital, except in special cases authorized by the General Medical Superintendent.

The recommendation in regard to the requests of the Superintendent of Training Schools was approved, and it was resolved to deny the request for funds for fifteen additional graduate nurses, and to authorize a request to the Board of Aldermen for revenue bonds to an amount not exceeding $5,000 to provide twenty graduate nurses for vacation relief.

The recommendation in regard to the teaching of students was approved, and the General Medical Superintendent was directed to prepare definite rules for each hospital and submit them for adoption. It was resolved to comply with the request of the Medical Board of Harlem Hospital, to authorize the teaching of students in that hospital in accordance with the rules now in force at Bellevue Hospital, subject to such amendments as may be necessary to meet the local needs, pending the adoption of definite regulations for Harlem Hospital.

The suggestion that hospital facilities be provided in the Riverdale-Kingsbridge district was endorsed, and the General Medical Superintendent was directed to make an investigation of the extent of the service required, the probable cost, a suitable site, etc. It was resolved that the Director of Laboratories be directed to make examinations and reports only upon specimens obtained from patients actually in the hospital, except in special cases authorized by the General Medical Superintendent, and that the request be drawn to the attention of each member of the visiting staff.

Mr. Sachs was appointed a committee of one to confer with Dr. Goldwater in regard to his resignation as Expert in Hospital Construction.

Reports of Committees.

The Harlem Hospital Conference Committee recommended that all the applications received for the place of Assistant Visiting Physician be returned to the Medical Board with the request that they be passed upon in accordance with the rules governing medical appointments. This recommendation was approved.

The Harlem Hospital Conference Committee further reported upon the nominations of Doctors Cunningham, Levene and Crofult, and in accordance with the recommendation of that committee, appointments were approved as follows: Dr. William P. Cunningham, Assistant Physician to Out Patients (dermatology); Dr. Samuel A. Levene, Assistant Surgeon to Out Patients; and Dr. Edward F. Crofult, Assistant Surgeon to Out Patients (ear, nose and throat).

The minutes of the meeting of the Medical Board of Harlem Hospital held on February 27 were presented. Diplomas were authorized to be awarded to Dr. J. S. McCallum and Dr. P. G. Cole.

A communication dated March 4 was received from Dr. A. C. The Honorable Board of Estimate and Apportionment of The City of New York:

The petition of the One Hundred and Forty-fifth Street Crosstown Railroad Company respectfully shows:

First—Your petitioner is a street surface railroad corporation duly organized and existing under the laws of the State of New York, and has filed its certificate of incorporation pursuant to the provisions of the Railroad Law.

Second—For the purpose of constructing and operating its road, your petitioner desires to obtain, and hereby respectfully applies for the consent of the Board of Estimate and Apportionment of The City of New York to a grant of the right, privilege and franchise for the construction, maintenance and operation of a double-track street surface railroad (including the necessary connections, switches, sidings, turnouts, turntables, crossovers and suitable stands and other structures necessary for the accommodation and operation of said railroad by the underground system of electricity or other motive power which may be lawfully employed upon the same) for public use in the conveyance of persons and property for compensation in, through, along, upon and over the surface of certain streets, avenues, highways and public places in the Borough of Manhattan, City of New York, of which the following is a description:

Beginning at the intersection of 145th street and Lenox avenue, running thence westerly with a double track on 145th street to the intersection of 145th street and Broadway, all in the Borough of Manhattan, in the City, County and State of New York.

The above-described route crosses the following streets, avenues and public places:

Seventh avenue, 8th avenue, Bradhurst avenue, Edgecombe avenue, St. Nicholas avenue, Convent avenue and Amsterdam avenue.

Third—Your petitioner proposes to operate said railroad by the underground system of electric traction substantially similar to that in operation in other parts of The City of New York, or by any power other than locomotive steam power which may be approved by the Public Service Commission for the First District and consented to by the owners of property bounded on the said streets, as provided by law.

Fifth—Your petitioner shows that it is intended by such agreement to make its proposed line an integral part of the street railroad system operated by the New York Railways Company, and that it is willing to consent that any grant of the franchise, right or permission herein asked for be conditioned upon the continued maintenance of the transfer privileges provided for in said agreement.

Your petitioner therefore prays that public notice of the time and place when this application will first be heard be given as required by the Railroad Law, and that your Honorable Board will set a date or dates for public hearing thereon, as provided in the Greater New York Charter, and that the desired consent or grant be embodied in the form of a contract, with all the necessary terms and conditions therein as to compensation and otherwise, in accordance with the provisions of the Greater New York Charter.

COMMISSIONERS OF SINKING FUND.

NOTICE IS HEREBY GIVEN THAT THE public hearing given by the Commissioners of the Sinking Fund at 11 o'clock in the forenoon, on Wednesday, May 8, 1912, in Room 16, City Hall, Borough of Manhattan, in the matter of the modified plan for the improvement of the waterfront in the vicinity of West Washington Market, between Jane street and West 13th street, North River, in the Borough of Manhattan, made and adopted by the Commissioner of Docks in accordance with law February 20, 1912, and submitted to the Commissioners of the Sinking Fund for approval, will be continued at the same place at 11 o'clock in the forenoon, on Wednesday, May 22, 1912. This modified plan differs from the plan heretofore submitted in that it provides a basin for pier length of 900 feet instead of 1,000 feet; and the marginal street, wharf, or place is made narrower, thus eliminating the necessity for the acquisition of any privately owned upland property. The modified plan also renders unnecessary the removal or alteration of the City's pumping station. The plan as modified is open to the inspection of any citizen at the office of the Comptroller of The City of New York at all times during business hours until the day of the hearing.

Technical Description of Proposed Amendments to the Amended New Plan in the Vicinity of the New West Washington Market, Between Gansevoort Street and Little West 12th Street, North River, Borough of Manhattan.

The proposed amendments to the amended New Plan consists in the establishment of two piers, each 80 feet in width, one adjacent to the southerly side of Pier 53, North River (Little West 12th street), 900 feet long on the southerly side, the other adjacent to the northerly side of Pier 52, North River (Gansevoort street), and 860 feet long on its northerly side.

The establishment of a bulkhead line beginning at the intersection of the present established bulkhead line north of the New West Washington Market, adopted by the Commissioners of the Sinking Fund April 29, 1904, with the southerly side of Pier 53, North River; thence easterly in a continuation of the southerly side of Pier 53 to a point 900 feet easterly from the established pierhead line; thence southerly and parallel with the established pierhead line to a point distant 60 feet north of the northerly side of the proposed pier adjacent to the northerly side of Pier 52, measured along the southerly prolongation of the proposed bulkhead line, from a point in the northerly line of the proposed pier distant 900 feet easterly from the established pierhead line measured along the northerly line of said proposed pier; thence southwesterly to a point in the northerly line of the proposed pier distant 860 feet easterly from the established pierhead line measured along the northerly side of said pier; thence westerly along the northerly line of the proposed pier to an intersection with the northerly prolongation of the established bulkhead line adopted by the Commissioners of the Sinking Fund June 14, 1897; thence southerly along the northerly prolongation of said bulkhead line to its intersection with the northerly side of Pier 52.

Also the establishment of a marginal street, wharf or place, bounded and described as follows: Beginnning at the intersection of the southerly side of Pier 53 with the bulkhead line northerly of the New West Washington Market adopted by the Commissioners of the Sinking Fund April 29, 1904; thence northeasterly to the intersection of the northerly line of Little West 12th street with the easterly line of the marginal street, wharf or place, northerly of the New West Washington Market adopted by the Commissioners of the Sinking Fund April 29, 1904; thence southerly and in the southerly prolongation of the above-described marginal street, wharf or place to an intersection with the easterly prolongation of the northerly side of the high pressure pumping station; thence westerly and along the easterly prolongation of the northerly side and the northerly side of the high pressure pumping station to the westerly side of said station; thence southerly and along its westerly side and its southerly prolongation to the southerly line of Gansevoort street; thence westerly along the southerly line of Gansevoort street to the easterly line of West street; thence southerly along the easterly line of West street to the easterly prolongation of the northerly side of Pier 52; thence westerly along the easterly prolongation of the northerly side of Pier 52 to a point in the easterly prolongation of the northerly side of Pier 52 distant 860 feet easterly from the established pierhead line measured along the northerly side of Pier 52; thence northerly and parallel with the established pierhead line to its intersection with the proposed bulkhead line at a point 860 feet easterly of the established pierhead line measured along the northerly line of the proposed pier adjacent to the northerly side of Pier 52; thence northeasterly, northerly and westerly along the proposed bulkhead line to the point or place of beginning.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to such purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
