Relative to granting permission to the Department of Health to conduct a clinic for children suffering from infectious eye diseases in the rooms set aside for that purpose in Public School 144, Manhattan.

A report submitted by the Committee in Sites, showing the condition of all matters or proceedings relating to sites selected by the Board of Education which are still pending and not completed, was ordered to be printed in the Minutes.

The Special Committee on the Board of Examiners presented a report to the effect that, "as the result of the inquiry thus far made, it is the opinion of the Special Committee that the methods employed in determining the question of superior merit in the case of Teachers in high schools of the so-called Equal Pay Law have and training schools under the provisions proved ineffective and unsatisfactory. The Committee believes that a change is necessary, and to that end has under consideration a substitute plan which it be-

lieves will meet the situation and insure a satisfactory standard in the teaching force. This conclusion has been reached without any reflection upon the members of the Board of Examiners, who, in the execution of a difficult task, have been hampered by conditions over which they have no control."

The following report was also approved and the resolution attached thereto adopted by a unanimous vote:

To the Board of Education:

The Committee on Elementary Schools, to which was referred on June 12, 1912, the following communication from the Joint Committee on Schools, National German-American Alliance, New York and Brooklyn, dated May 21, 1912:

"This Committee, representing more than 150 organizations in Greater New York desirous of maintaining the study of modern languages in public schools and protesting against its impairment, respectfully represents that the rules and regulations be so amended that the introduction and elimination of modern languages in our public schools shall be only within your province as heretofore and not as it is now, a power vested in the Board of Superintendents.

"Further, that a supervisor of modern languages be appointed and that he shall hold his office on the same basis as the other supervisors of special branches. The present incumbent, Mr. John L. Hulshof, has the same duties and same responsibilities as all the other supervisors and directors, and it is only an act of justice that his remuneration be on a like basis. As it is at present, his position is a humiliating one, and his effectiveness is thereby greatly impaired."

respectfully reports that at a meeting held on June 25, 1912, it considered the same.

As the Committee on Studies and Text-Books has under consideration the revision of the course of study, it would appear that nothing should be done regarding the "impairment" of the study of modern languages until the report of said Committee is presented.

In reference to the recommendation that the "rules and regulations" be amended so that the introduction and elimination of modern languages be within the province of the Board of Education, and not vested in the Board of Superintendents, your Committee recommends that the above-mentioned Alliance be informed that the Board of Education has jurisdiction in the matter of courses of study, as under the Revised Charter (section 1084) the Board is given power, upon the written recommendation of the Board of Superintendents, to adopt and modify courses of study for all schools under its supervision.

Relative to fixing the salary of the teacher at large assigned to the supervision of the work of teachers of languages at the same rate as that of directors of special branches, your Committee would state that on February 21, 1911, it considered this matter, and decided that the teacher so assigned should not receive additional compensation for the work of supervision. Your Committee believes that nothing should be done regarding this matter for the present.

Resolved, That a copy of the foregoing report be transmitted to the Joint Committee on Schools, National German-American Alliance, New York and Brooklyn.

The following named members of the Board of Education were duly elected members of the Executive Committee for the ensuing year: Nicholas J. Barrett, Thomas M. DeLaney, John Greene, Robert L. Harrison, Louis Haupt, M. D., John Martin, Patrick F. McGowan, Herman A. Metz, Arthur S. Somers, Abraham Stern, Cornelius J. Sullivan, Rupert B. Thomas, John R. Thompson, Frank D. Wilsey, George W. Wingate.

The Secretary announced that there had been served upon the Acting President this day a copy of a petition for a stay of proceedings and order in the matter of the appeal of William H. Maxwell, City Superintendent of Schools of The City of New York, to the Commissioner of Education from the following resolution of the Board of Education adopted June 12, 1912:

Resolved, That the City Superintendent and the Board of Examiners be directed to conform to the opinion of the Corporation Counsel in response to the resolution of the Board of Education dated March 13, 1912, and that those eligible under Licenses 1 and 2 as held in said opinion be placed on the appropriate eligible list.

On motion, it was ordered that the papers be submitted to the Corporation Counsel, with a request that he represent the Board of Education in the proceeding before the Commissioner of Education of the State of New York.

On motion, the Board adjourned at 6.10 o'clock p. m.

(Action taken at this meeting in reference to Civil Service appointments, promotions, etc., has already been printed in the City Record.)

A. EMERSON PALMER, Secretary.

**BOARD OF ESTIMATE AND APPOINTMENT.****Franchise Matters.**

**PUBLIC NOTICE IS HEREBY GIVEN THAT** at a meeting of the Board of Estimate and Apportionment held October 10, 1912, the following petition was received:

**To the Board of Estimate and Apportionment:** The petition of New York, Westchester and Boston Railway Company respectfully shows as follows:

Your petitioner has constructed and is engaged in operating its railroad in The City of New York, in accordance with a certain ordinance adopted by the Board of Aldermen of said City on the 26th day of July, 1904, approved by the Mayor on August 2, 1904, as amended by resolution of the Board of Estimate and Apportionment, adopted July 14, 1905, approved by the Mayor July 21, 1905, and by several subsequent contracts between New York, Westchester and Boston Railway Company and The City of New York, none of which amendments, however, alter or amend that portion of said ordinance to which this petition is addressed.

That in and by said ordinance it is provided, in section 2, paragraph 12, as follows:

"Twelfth—The roadbed within the limits of The City of New York shall be watered daily whenever the thermometer is above 35 degrees Fahrenheit. For any failure to comply here-with the railway company shall be liable for a penalty of fifty dollars (\$50) per day."

That the railroad of your petitioner is wholly upon private right of way, except where it crosses over or under streets, avenues and other public places. That the construction of petitioner's roadbed is of such quality and nature that the requirements of said provision of said ordinance are wholly unnecessary, and do not serve any useful public purpose, or offer any advantage to the traveling public or to the City.

The roadbed throughout is ballasted with stone, and your petitioner verily believes that it is wholly unnecessary to water the same, and that no dust will arise in the absence of watering.

That it will be a serious hardship and inconvenience to your petitioner if it is obliged to comply with said section 2, paragraph 12 of said ordinance without any corresponding benefit to the public or to the City.

Wherefore your petitioner prays that subdivision 12 of section 2 of the ordinance of The City of New York, adopted July 26, 1904, as amended by the Mayor August 2, 1904, as amended by resolution of the Board of Estimate and Apportionment, adopted July 14, 1905, and approved by the Mayor July 21, 1905, and further amended by subsequent contracts between New York, Westchester and Boston Railway Company and The City of New York, be further amended by striking therefrom the whole of said subdivision 12 of section 2.

Dated September 30, 1912.

State of New York, County of New York, ss.:  
Leverett S. Miller, being duly sworn, deposes and says that he is President of New York, Westchester and Boston Railway Company, the petitioner named in the foregoing petition; that he has read the said petition and knows the contents thereof, and that the same is true to his own knowledge, except as to the matters therein stated to be alleged on information and belief, and that as to those matters he believes it to be true.

Sworn to before me this 30th day of September, 1912.

## NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in

the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery implemented or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All turrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.
