## DEPARTMENT OF PARKS.

### EIGHTH ANNUAL REPORT OF THE DEPARTMENT OF PARKS FOR THE BOROUGH OF BROOKLYN AND QUEENS, INCLUDING FORTY-FIFTH ANNUAL REPORT OF THE OLD CITY (NOW BOROUGH) OF BROOKLYN, FOR THE YEAR 1905.

The Commissioner's Report of the Work of the Department of Parks for the Boroughs of Brooklyn and Queens for the Year 1905.

Office of the Department of Parks,  
Boroughs of Brooklyn and Queens,  
Litchfield Mansion, Prospect Park,  
Brooklyn, December 31st, 1905.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Dear Sir—In compliance with the provisions of the Charter, I send you herewith the report of work undertaken and accomplished in this Department for the year closing, together with an outline of plans and recommendations for the year 1906.

I have the honor to remain,

Very truly yours,

M. J. KENNEDY, Commissioner.

In my report for the year 1904, I respectfully indicated that it had been the policy of the Department of Parks in the Boroughs of Brooklyn and Queens, to improve the older parks and parkways, rather than to extend the system. During 1905 that same policy has been followed, and with good results. New parks, however, have been acquired, but their establishment has not interfered with the betterment of the old ones.

Under our jurisdiction there are forty-three parks and thirteen gores, containing in all, seventeen hundred and twenty (1720) acres, of which eleven hundred and forty-three (1143) are in Brooklyn and five hundred and seventy-seven (577) in Queens. The figures represent, approximately, one acre to every eleven hundred and eighty-nine (1189) of the inhabitants in the Borough of Brooklyn, and one acre to every three hundred and forty-two (342) inhabitants in Queens. There are also forty-five miles of parkways under the control of this Department.

During the year four new parks were added, three in Brooklyn and one in Queens, as follows: McLaughlin Park, Fulton Park, Amersfort Park in Brooklyn, and Rainey Park in the Long Island City section of Queens Borough.

McLaughlin Park is bounded by Jay street, Bridge street and Tillary street, and is in one of the oldest and most congested districts of Brooklyn. It is to be used principally as a playground.

Fulton Park is bounded by Fulton and Chauncey streets and Stuyvesant avenue. This is in a rapidly growing residential section in the upper part of the Borough. Its establishment has been received with much satisfaction by the residents of the section which will be directly benefited by it.

Amersfort Park is bounded by Avenues I and J and East Thirty-eighth and Thirty-ninth streets in the Flatbush district.

Rainey Park is bounded by Vernon avenue, Pierce avenue, Sandford street and East River.

Two of the four—McLaughlin and Fulton Parks—have been improved, and the remaining two, Amersfort and Rainey Parks, will be laid out and turned over to the purposes for which they are intended, early in the spring. The latter part of April saw on the sites of McLaughlin and Fulton Parks, a number of unsightly buildings.

In May the work of razing them was begun, and in a brief time a complete transformation had been effected. McLaughlin Park is already available as a playground, and Fulton Park has been planted and seeded, and in the spring should be in fine condition with a display of early flowers and foliage.

An addition to Williamsburg Park was turned over to the Department, and the property adjoining Institute Park, to be used as a plaza and fronting the Willink Entrance to Prospect Park, was also placed under our control.

Other new park sites have been purchased or authorized, but have not been transferred to this Department for improvement and maintenance. Notably among the latter is Owl's Head, the beautiful summer residence of the late E. W. Bliss, at Bay Ridge. This site affords a fine view of New York Bay, the lower harbor, Staten Island and the Orange Mountains in the distance. It has been placed on the map and its purchase was authorized by the Board of Estimate and Apportionment in November. It is virtually a park now and very little work will be required to complete it. It is an ideal location for a great pleasure resort, consisting of a beautiful rolling country, facing on New York Bay, the Bay Ridge Parkway and the Shore Road. A large pier, extending seven hundred feet into New York Bay, adjoins the property, where boats of ordinary draught can land. This makes it of almost as much interest to the residents of Manhattan as to those living in Brooklyn. Its possibilities are great. On the property there is a large mansion, several other buildings, including a very fine stable, all of which can be used for park purposes. Its transfer to this Department may be looked for in a short time.

### New Buildings and Other Construction Work.

Much construction work was started and completed in several parks. A contract was let for a magnificent shelter house on the Parade Ground, for the benefit of patrons of that fine athletic field. The house is of colonial design, with great porches and porticoes, and is of red brick, timber cornices and columns and copper roof. It is two hundred feet long, thirty-five feet wide and will contain lockers, shower baths and rooms for baseball, football, cricket and polo players. The cost of the building, which will be ready for occupancy early in the spring, is sixty-eight thousand eight hundred dollars (\$68,800.00). This building will also house the police of the Seventy-third Precinct, now quartered in the Litchfield Mansion.

A new boathouse, located in one of the most picturesque parts of Prospect Park, being on the easterly side of the lake near the present boathouse, is being erected. It is of classic design, of enamelled white terra cotta, and is to contain modern and up-to-date facilities and appurtenances. It will afford a fine view of the beautiful surroundings, and the removal of the old building will open up a long concealed and beautiful vista of striking beauty. The cost of the new building will be fifty-two thousand five hundred dollars (\$52,500.00). It will be ready early in the spring.

Plans were prepared early in the year for a shelter and clubhouse for the golf players at Forest Park. Owing to the delay in approving of the plans submitted to the Municipal Art Commission, work on the same was not started until late in the fall. It will be of wood with brick foundation, and contain locker rooms, clubrooms, lavatory accommodations and large parlors. It is to be neatly fitted up and complete in its appliances. Fair progress has been made in the construction of the building, and it is promised it will be ready for opening on Decoration Day. The cost of this building is thirty thousand dollars (\$30,000.00).

Contracts were also awarded for much-needed shelter and comfort houses in Fort Greene, Carroll, Bushwick, Bedford, Irving Square and Cooper Parks. They are of artistic design, and some of them are already in use, the others being roofed in and rapidly nearing completion.

Some of the other permanent improvements include a granolithic walk along Prospect Park West from the main entrance of Prospect Park to Fifth street, ten feet wide. The remainder of the sidewalk has been graded, planted, covered with top soil and the borders seeded and sodded.

A contract was let for the construction of an Ohio sandstone wall on Prospect Park West from Fifth to Fifteenth streets, a much-needed improvement and a continuation of the wall from the main entrance. Its construction has done away with the unsightly old pipe and rail fence and privet hedge, and now a fine open view of one of the most picturesque parts of the park is afforded. The cost of the wall, which will be completed by February 1st, 1906, is thirty-seven thousand five hundred and fifty dollars (\$37,550.00).

Many other improvements of a permanent character were effected in Prospect Park. Among them was the substitution of a modern bronze plated railing at the lower terrace of the Flower Garden. The stone work around the same was also reconstructed and repointed wherever necessary. The cost of the work was five thousand one hundred and twenty-five dollars (\$5,125.00).

### Prospect Park.

Prospect Park, the most prominent park in our system, containing five hundred and sixteen acres, was completed some thirty years ago, and very little seems to have been done since that time in the way of renewing plantations and other landscape features. The old forest trees, forming one of the chief attractions, are gradually disappearing, caused by severe storms, vitiated soil, and the pollution of the atmosphere by gases. To meet this condition it has been our aim during the past year, to replace the soil and to renew the depleted ranks of forest trees, by the planting of young and vigorous native specimens. Considerable work of this character has already been done, but much more remains to be accomplished. The banks of the lake system have gradually been undermined and destroyed from various causes, and the waters much polluted. The work of rebuilding the banks was carried on without interruption, and the water purified by a chemical process without destroying or injuring a single tree or shrub.

Nearly one and one-half miles of antiquated gutters bordering the drives were replaced with modern and durable brick laid on concrete foundation. The Flower Garden was remodeled and the old sheds in the rear of the shelter demolished and an attractive driveway constructed instead. The drives, walks and bridle paths were repaired, resurfaced and reconstructed wherever necessary, and are now in good condition. A new bird house of pleasing design was erected. It adjoins the new bear cage, and affords comfortable quarters for the feathered tribe. The territory surrounding the menagerie was regraded and paved with asphalt tiles.

The greenhouses received an addition of three commodious new hothouses, made necessary by the increase in the number of tropical and native plants. The heating apparatus in the older greenhouses was practically renewed. Floral displays both in the greenhouses and in the Flower Garden were an attractive feature of the park during the year. The principal displays were at Easter, when the lilies were exhibited, and in the fall, when the Crysanthemum Show was had. Both attracted many thousands to the greenhouses. There was also a fine display of tulips and hyacinths in the Flower Garden, and an admirable exhibit at the Rose Garden during the season. The Department was especially fortunate in securing the large private collection of the late William Brown of Flatbush. By this purchase a valuable addition was made to the park conservatories. The propagating branch of the horticultural department was busily employed during the various seasons, and secured excellent results.

The mechanical department, comprising painters, carpenters, plumbers, masons, blacksmiths, wheelwrights, etc., was kept at work throughout the year making repairs to the buildings and other property, and also installing drainage and irrigation systems in the various parks.

An unusual amount of maintenance work was done, such as cleaning and watering the drives, sweeping the walks, cutting grass, sodding, seeding, pruning and caring for trees and shrubbery, besides caring for the various buildings. During the severe weather in January, February and March the snow was removed from the walks, and the roads were kept in good condition for sleighing. The ice on the lakes was also carefully looked after during the long spell of skating.

Several acquisitions were made to the menagerie, mostly by donation. The animal family is being gradually enlarged, and I am glad to report that the health of the various specimens has been excellent throughout the year.

Necessary repairs to fences, buildings, etc., have been made. The Flower Garden shelter and the open pavilion facing the same have been put in thorough repair and painted. A new roof was put on the picnic shelter, and the interior of the building remodelled. Toilet arrangements for men have been installed in the Croquet Shelter, and the stable for the park police horses practically rebuilt. A garage for the Department automobiles has been constructed and fully equipped. The iron fence surrounding the park on four sides has been scraped and painted.

#### Parade Ground.

The Parade Ground, located to the south of Prospect Park, is the principal playground in the Borough of Brooklyn, and its greensward of forty acres is never without a large number of devotees of various sports. The grounds were kept in excellent condition, being re-sodded wherever required. As noted above, the shelter house is nearing completion, thus insuring its use by the people during the coming season. In the meantime the old houses that have done service for so many years were moved forward and are temporarily affording necessary quarters.

#### Forest Park.

Forest Park, the largest in acreage in this system, and located in Queens Borough, received a great deal of attention during the year. The paving of the roads in the easterly portion as far as Union Turnpike was completed; the sidewalks were graded and covered with limestone screenings on both sides of Woodhaven avenue, and the remaining roads and paths put in first-class condition. The new golf links, started early in the spring, were completed and turned over to the public. A large amount of underbrush, superfluous and decayed trees, were cut down and removed. The greenhouses were completed during the summer, and the grounds around the same, as well as the nursery adjoining, were carefully graded. Several hundred shrubs and young trees were set out, and about one hundred and twenty-five thousand flowering plants were propagated in the greenhouses. From the latter will be taken, to a large extent, the plants for the summer display in the various parks.

The new shelter house for the golf players, already referred to, is well under way. It is now enclosed, and work on the interior is progressing rapidly. It will be ready for occupancy when the season opens. The grounds surrounding this structure have been graded, and a new roadway, leading to the front of the building, laid out. The building is situated on the brow of the hill at the junction of four roads, and commands a magnificent view of the surrounding country.

#### Fort Greene Park.

Fort Greene, one of the oldest and most historic of Brooklyn's parks, received careful attention during the year. It is here that the remains of the Prison Ship Martyrs are deposited in the Martyrs' Tomb; and here, too, it is proposed to erect a suitable monument to the memory of those, our nation's heroes. A site has been designated for the same, and the preliminary work started.

This park, located in a densely populated section, affords a place of recreation for a large number of visitors, and is consequently hard to keep in the best possible condition. Many improvements were initiated to enhance its usefulness. The great stone boundary wall surrounding it showed signs of deterioration early in the year. The joints throughout the entire length and height were repointed and the wall cleaned. A contract was let for the same for two thousand six hundred and seven dollars (\$2,607.00). It presents now an almost new appearance, and is in condition to give service for many years. A large amount of top soil was spread and several hundred young trees and shrubs planted. Bare and worn places in the lawns were sodded and otherwise improved. The general appearance of the park now is most satisfactory. The new granite shelter house, to cost twenty-nine thousand nine hundred dollars (\$29,900.00), is rapidly nearing completion. Its necessity was long felt. It is of magnificent design, and adds materially to the beauty of that part of the park where it is located.

#### Highland Park.

Highland Park, one of the recent and destined to be one of the most beautiful parks in our system, has had many permanent improvements. The main entrance leading from Bushwick avenue and twenty-one of its forty-six acres are in the Borough of Brooklyn, and the remaining twenty-five acres are in the Borough of Queens. In fine weather great crowds take advantage of the magnificent view it affords and the limited accommodations provided. Many needed improvements are contemplated. Early in the year the swamp land along the northerly boundary was entirely drained. It was thoroughly plowed, levelled off, and covered with a thick layer of rich top soil. Walks were cut around this plot, which has been turned into an old fashioned flower garden. From seven to eight thousand flowers and flowering plants were set out during the spring. As a result during the summer and early fall magnificent floral displays were afforded the people. It was the general consensus of opinion that this flower garden was one of the most unique and superb seen in any of the parks hereabouts. The grounds adjoining and surrounding the new garden were re-graded, soiled and seeded; a new and complete system of walks was built and several thousands of trees and shrubs planted. The roads and gutters were carefully looked after, and the road leading in front of the Ridgewood Reservoir to Jamaica avenue was entirely rebuilt. The banks on the westerly side of the park were graded, soiled, sodded and seeded.

#### Seaside Park.

Seaside Park, located at the foot of the Ocean Parkway, fronting on the Atlantic Ocean, maintained its popularity during the season. A large number of new trees and shrubs were planted, and that portion of the park nearest the Ocean was re-soiled and brought to a higher grade. Its edge was planted with a high privet hedge, and it is hoped that by this means the beach sand and the spray from the Ocean, which has been a troublesome feature in the past, can be excluded from the park. A number of new tents were secured for the beach; the shelters were repaired and lighted with electricity, and a number of electric arc lights were erected on the beach by the Department of Water Supply, Gas and Electricity.

In the latter part of the year 1904 a contract was awarded to erect an eight hundred (800) foot timber jetty on the beach at Coney Island, but the work of construction was not started until early in 1905, when it was completed. The severe storms last August caused a change in the shoal formation, which resulted in the destruction of nearly two hundred (200) feet of the jetty.

A contract amounting to thirty-six hundred dollars (\$3,600.00) was awarded to ballast with stone the bulkhead at the foot of the Ocean Parkway. Owing to the severity of the storms at this point, it is necessary every year and will be for several years to come, to refill the apron with stone in order to make up the loss caused by the settlement.

#### Sunset Park.

Sunset Park is one of comparatively recent purchase, and destined to be one of the most attractive. The work of completing this park has progressed in a satisfactory manner. New walks were laid out and graded. The slopes on the southerly and easterly sides were graded and seeded, the shore lines around the lake regulated and improved, and about three acres of the lawns covered with rich top soil and seeded. Trees and shrubs were planted, and the older ones pruned and otherwise cared for. A new concrete sidewalk was constructed on Fifth avenue, between Forty-third and Forty-fourth streets. As soon as an appropriation for the remainder of the retaining wall is secured, this beautifully located park will be completed and turned over to the public for use.

Last year the acquisition of the two additional city blocks increased the size by eight acres. The boundaries now are Fifth and Seventh avenues and Forty-first and Forty-fourth streets.

#### Tompkins Park.

Tompkins Park, one of the older parks of the system, and lying in a thickly populated residential section of the Borough, received much hard usage. In the middle of it is located a branch of the Brooklyn Public Library. The building was turned over temporarily for that purpose by the Department, and the library adds to the number of daily visitors to the park. A quantity of new soil was supplied, new shrubs set out, the older plantations carefully gone over, the poorer specimens removed, and the remainder pruned, scraped and well cared for.

#### Winthrop Park.

Winthrop Park was also greatly in need of new soil. When the park was constructed the soil was of poor quality and not the proper depth. As a consequence the trees and shrubs planted have not made satisfactory progress, and a large number have died. A sufficient quantity of soil has lately been purchased, and will be spread as soon as delivered. New trees and shrubs will then be planted, and the park next year improved in other ways.

#### Bushwick Park.

Bushwick Park was originally a sand hill. When constructed, a thin layer of soil was spread, and as a result the trees and shrubs planted did not thrive, and many died. During the year most of the lawn was supplied with a new layer of top soil, and arrangements have been completed to treat the remaining parts in a like manner early in the spring. Trees and shrubs have been planted, new paths have been made, and next year this park should present a very much better appearance.

A contract was let for a shelter house of ample proportions, of stone and brick, at a cost of fourteen thousand one hundred and ninety-six dollars (\$14,196.00). It will be completed by February 15, and will, I am confident, prove to be one of the finest and most decorative of its kind in the City. Its equipment will be up to date in every particular.

#### Carroll Park.

Carroll Park, one of the oldest in the system, and situated in a congested district, comprises one city block, and is much frequented. The lawns and plantations were re-soiled, trees and shrubs pruned, and a number of new ones planted. The new shelter house, which cost ten thousand five hundred dollars (\$10,500.00), and is of red brick with white stone trimmings, was opened to the public during the past week. The two antiquated buildings which served for over thirty years as shelter and comfort houses are in process of being torn down, and the space occupied by them will be planted and sodded. Immediately in front of the new shelter concrete walks with an asphalt surface have been laid, thus bringing the total cost of permanent improvements in this park up to eleven thousand dollars (\$11,000.00).

#### Irving Square Park.

Irving Square Park received considerable attention during the year. The trees and shrubs were pruned and a number that died, replaced. The grass was cut at regular intervals; the walks, whenever and wherever required, were repaired, and altogether the park was kept in good condition. A contract was let for the erection of a modern shelter house at a cost of eight thousand nine hundred and ninety dollars (\$8,990.00). Heretofore no accommodation of this character existed, and the need for such a house has long been felt. The structure is of red brick, with bluestone trimmings, and is divided into two compartments, with a pavilion section between. It has much artistic merit and will add to the beauty of the park. The house would have been finished in October had it not been for the death of the contractor. It will, however, be finished by February 1, 1906.

#### Institute Park.

Institute Park, located east of Prospect Park and separated from the latter by Flatbush avenue, is one of the most recently constructed. Owing to the fact that a parcel of land acquired for its extension, known as the Willink Entrance, is to be shortly turned over to this Department, very little work, except of maintenance, was done. The banks at the northerly and adjoining the Mt. Prospect Reservoir and the Museum of Arts and Sciences Building were levelled and otherwise improved. The trees, shrubs and other vegetation received careful attention, and are in excellent condition. As soon as conditions admit, a force of men will clean up the new land and prepare for the construction of the Willink Entrance plaza.

#### City Park.

City Park, the oldest in the system has, since its construction, deteriorated in several respects. Trees and shrubs have died or were destroyed, and the park presented an uninviting appearance. During the year it was entirely remodelled. Dead and decayed trees were taken out and replaced, and a large number of shrubs planted. Portions of the lawns were re-coated with good soil, sodded and seeded. The old and dangerous dirt walk surrounding the park was removed, a new cement walk laid in its place, and the interior walks were resurfaced. The shelter and comfort houses were put in thorough repair, sanitary plumbing being installed. At present it is in better condition than it has been for many years.

#### Bedford Park.

Bedford Park, located in a fine residential section of the Borough, contains one square block, and has many visitors. A good-sized building, located in this park, has been turned over to the Trustees of the Brooklyn Institute of Arts and Sciences, and is used as a Children's Museum. The entire park was given a general overhauling, paths were regraded and defined, and new irrigation and drainage systems introduced. Shrubs and trees were planted.

A new shelter house, ornate in character as to exterior and interior, to cost twelve thousand two hundred and ninety-six dollars (\$12,296.00), is about completed, and will be thrown open to the public in a few weeks. The grounds surrounding the new shelter house have also been regraded and sodded.

#### Red Hook Park.

A large portion of the lawns in this park have been affected by lack of nourishing soil. This deficiency was remedied during the year by spreading some fifteen hundred cubic yards of good top soil. A cement sidewalk was laid around the entire outside of the park, which had suffered for lack of pavement. The building and the fences were repaired and painted. The drainage system was put in thorough order, and a number of other necessary improvements made.

#### Cooper Park.

Cooper Park having been originally well soiled and planted, required little attention other than the usual maintenance. A number of trees and shrubs were planted, and the old ones pruned and otherwise treated.

In response to an urgent demand a contract was awarded for the erection of a shelter, which will cost eleven thousand three hundred and ninety-five dollars (\$11,395.00). It is of brick and stone of appropriate design, and will fill a long-felt want. March 1, 1906, has been fixed as the day upon which it will be ready for service.

#### Linton Park.

Linton Park, in the East New York section of the Borough, has been thoroughly overhauled, new trees planted where required, and the shrubbery pruned. It is in excellent condition.

#### Lincoln Terrace.

Lincoln Terrace, located on high ground adjoining the Eastern Parkway, likewise received careful attention. New trees and shrubs were substituted for some that had decayed and died, and a number of new specimens planted. This park is one of the most beautiful of the smaller parks, being well situated, and promises to make a valuable addition to the park system in the near future.

#### Saratoga Square.

Saratoga Square was well cared for during the year. It is in a rapidly growing section and embraces one city block. Trees and shrubs were planted where necessary, walks were repaired and some needed work done on the shelter house.

#### McKinley, Fort Hamilton and Dyker Beach Parks

are all located in the extreme southern part of the Borough and in a rather sparsely settled section, and do not have as many visitors as other parks. Consequently very little work has been required to keep them in proper condition. Trees were planted wherever required and other necessary improvements made. The roadway in Dyker Beach Park was resurfaced and rolled its entire length and is in fine condition.

#### Small Parks.

The smaller parks in Queens Borough, such as Kings Park and Ashmead Park in Jamaica, the park in Flushing, the one in Corona, and those in College Point and Long Island City, received careful attention throughout the year. Top soil was supplied wherever needed, and new trees and shrubs planted whenever and wherever required.

## New Parks.

McLaughlin Park. Late in the year 1904 the property acquired for this park site was turned over to the Department, and in the spring of 1905 the work of selling and removing the old buildings began. Plans and specifications were prepared for its construction, calling for a large playground for boys and a smaller playground for girls. The plans provide for a house to accommodate the athletes for dressing, etc., and also a bandstand and comfort house. A contract was awarded for a portion of the work, namely, the filling in and grading of the grounds, the introduction of new irrigation and sewer systems, the erection of a temporary fence, and the laying of a temporary sidewalk around the park. All of this work has been completed. The cost of the same was exceedingly small, owing to the desire on the part of contractors to use the site as a dump for excavated material. The contract price was only four thousand seven hundred and ninety-three dollars (\$4,793.00).

Fulton Park was established in response to a practically unanimous appeal of the people of that neighborhood. It has been laid out, planted, and in the early spring will show a fine collection of hyacinths, tulips, pansies and other early flowers. The work of transformation was rapid.

## Brooklyn Heights Parks.

There are five small parks, each fifty by one hundred and fifty feet, fronting on Columbia Heights and extending to Furman street. They are at the foot of Clarke, Pineapple, Orange, Cranberry and Middagh streets respectively. All have been well cared for during the year, everything necessary being done to add to their beauty.

## Playgrounds.

The playgrounds under the jurisdiction of the Department, and located under the Williamsburg Bridge, Canarsie Park, Williamsburg Park and New Lots Playground in the Brownsville section, have been kept open throughout the year, and have proved a great attraction. The equipment was largely added to, and competent attendants employed to instruct in the various games played. Some preliminary work was done at Canarsie Park with a view to its future enlarged development. It is the intention to transform this site, containing forty acres and fronting on Jamaica Bay, into an ideal playground. Running tracks are to be established, a gymnasium installed and other innovations introduced. This park is contiguous to a number of rapidly developing sections. The expense of the improvement will not be great.

## Parkways.

All the parkways under the jurisdiction of the Department received careful attention.

The Shore Road was especially looked after. The work of widening the roadway between Bay Ridge avenue and Eighty-ninth street, constructing sea walls and extending the slopes was completed. This unsurpassed driveway affording a superb view of the Narrows and Lower Bay is now considered in safe and presentable condition. The improvement was extensive in character and excellent in result, obviating the narrow and dangerous places previously existing. The roadway was rebuilt and resurfaced between the above-mentioned points.

Application was made to the Board of Estimate and Apportionment and Board of Aldermen in November, for an appropriation of one million eight hundred and seventy-five thousand dollars (\$1,875,000.00) to carry to completion the original design of Olmstead, Elliott & Olmstead, Landscape Architects. The full amount was allowed, and the money will be available during the coming year, when the work of carrying it to completion will be inaugurated and prosecuted without delay.

Bay Ridge Parkway, which is the inlying continuation of the Shore Road, was improved and received considerable care. Topsoil was spread wherever required, the banks and slopes shaped up and a number of trees and shrubs set out. The roadway was kept in fine condition throughout the year, being sprinkled and cleaned regularly.

Ocean Parkway, the main driveway leading from Prospect Park to the Atlantic Ocean at Coney Island, received careful attention at the hands of the Department. The westerly traffic road was resurfaced from Kings Highway south to Coney Island, and the remainder of the roadway repaired, cleaned and otherwise improved. The cycle paths were kept in their usual good condition, although not as much used as in former years, and the bridle paths were resurfaced with gravel. The main roadway was resurfaced for a distance of a mile and a half, the trees flanking the road were pruned, cleaned of insects and thoroughly sprayed. The grass borders were sodded, and the drainage system improved.

Bay Parkway, commonly known as Twenty-second avenue, was kept in thorough order, the borders were cut besides cleaned of weeds and the surface of the roadway repaired at several points wherever deemed necessary.

Fort Hamilton avenue was partly resurfaced, over one hundred fine shade trees were planted, and, altogether presented a good appearance. A cement sidewalk was constructed between Prospect and Greenwood avenues at an expense of seven hundred and forty-six dollars and sixty-five cents (\$746.65).

Parkside and Ocean avenue.—Those portions of these parkways under the jurisdiction of the Department were carefully looked after. The sidewalks were raised, graded, and considerable sodding done. The roadways at all times were kept in good condition.

Eastern Parkway, one of the principal parkways of the system, presents unusual difficulties in its management and maintenance. During the year a vast amount of building was done along its entire length, resulting in its transformation into one of the main traffic arteries of the Borough. When first constructed it was laid out with one main roadway sixty feet in width and two of lesser width at either side, separated from the main roadway by wide promenades. The sideroads were originally paved with cobblestones, and have not been changed for thirty or more years. This has resulted in diverting all traffic, both business and pleasure, to the main roadway, and the repairs required are incessant and continuous. The main road has been resurfaced with gravel between Washington and Brooklyn avenues, a distance of over a mile, and the remaining parts have been repaired from time to time. In order to maintain this famous drive as it should be, the antiquated cobblestones on the side road should be replaced with a modern asphalt or other smooth pavement for the purpose of caring for the business traffic. It is the intention to make this necessary improvement as soon as the funds are provided. Inasmuch as it is proposed to build a branch of the subway under the middle roadway in the near future, no steps are contemplated to permanently improve the same at the present time. The fine old trees along this boulevard were trimmed, pruned and cleaned, and present a healthy condition. New trees were set out wherever necessary, and the paths, gutters and grass borders were carefully attended to. A sufficient number of benches were provided for people to enjoy the beauties of the surroundings.

The Eastern Parkway extension was repaved in the center of the roadway between Ralph avenue and Bushwick avenue with macadam. New cement sidewalks were laid on both sides of the roadway, and the asphalt portions of the latter were repaired and partly resurfaced. The cost of this improvement was twenty-one thousand dollars (\$21,000.00).

Highland Boulevard, the main entrance to the park of this name, was repaired and new cement sidewalks laid.

Pitkin avenue, beginning at Eastern parkway and running in an easterly direction to Stone avenue, bisects one of the most thickly populated sections of the Borough. Building operations have been carried on in this neighborhood to an unprecedented extent. As a result the old macadam surface of the road was entirely destroyed and it was found necessary to replace the same. A contract was entered into for the repaving of this thoroughfare with asphalt on a concrete foundation, and the work started early in October. The sidewalk was likewise constructed on either side of the street. The contract price was thirty-four thousand four hundred dollars (\$34,400.00). The work was completed in the latter part of November, with the exception of one or two blocks of sidewalk, the weather preventing further work. The improvement is reported to be one of the finest pieces of asphaltum in the City, and is much appreciated by the residents of that neighborhood.

Glenmore avenue, Stone avenue and Pennsylvania avenue are all located in the East New York section of the Borough of Brooklyn, and are distinctively business thoroughfares. A bill was introduced in the last Legislature to have them turned over to the Bureau of Highways for maintenance, as they properly belong there. The measure failed of enactment, however, and they are still under the control of the Department. They are in no sense parkways, and the Department should be relieved of the cleaning and care of the same. During the year these thoroughfares received

considerable attention. Repairs to the roadway were made wherever required. The same is true of Miller avenue, but two city blocks in length, which is paved with granite blocks and connects Highland Boulevard with Jamaica avenue.

New Lots road, portions of Dumont street and Riverdale avenue are also nominally under the care of the Department, but are unpaved. Only the necessary attention has been given to them.

Fourth avenue.—This street, while not under the care of this Department, contains along the middle of its roadway seventy-three small parks, each one block in length and fifteen feet wide. These have been planted, seeded and sodded the last two years at the request of the President of the Borough. The greater number of these plots have been maintained in good condition, but the trees, shrubs and even the grass that bisect the tenement districts, have been destroyed and now present an unsightly appearance. As there is a probability of a branch of the subway being constructed under this street, it has been considered a waste of public funds to replace the trees and shrubs destroyed. The attention of the Department was concentrated on the plots which have not been destroyed. These have been well cared for, the missing trees and shrubs replaced, and considerable resodding done.

## Slocum Statue.

On Decoration Day the statue of Major General Henry W. Slocum was unveiled with impressive ceremonies. The plaza surrounding it was paved with gravel and all the details carefully looked after. The President of the United States and many distinguished officials, militia men and civilians were present. An address was made by the President. The statue was accepted in behalf of the City by his Honor, the Mayor. The invocation was made by the Right Reverend Bishop Frederick Burgess, of the diocese of Long Island, and the benediction pronounced by the Right Reverend Charles Edward McDonnell, of the diocese of Brooklyn. The unveiling was made a part of the usual Decoration Day exercises, in which the militia, many companies of United States soldiers, sailors and marines and a great number of civic bodies took part. Altogether it was a notable day for Brooklyn, and one long to be remembered. Exclusive of the statue proper, the cost of this work, including the work at the plaza, amounted to ten thousand dollars (\$10,000.00).

The Board of Estimate and Apportionment allowed two thousand dollars (\$2,000.00) to defray the expenses of the unveiling exercises. From this amount the cost of engraving and printing of invitations, the hire of carriages, music, etc., amounting to one thousand three hundred and sixty-three dollars and twenty-nine cents (\$1,363.29), was defrayed.

## Skene Monument.

Plans for a monument to the late Alexander Skene, M. D., have been approved by the Municipal Art Commission, and a site on the Plaza facing the Memorial Arch, at the main entrance to Prospect Park, has been selected. Work on the statue is well advanced, and it will be placed in position and be unveiled during the year.

## Music.

The concerts in Prospect and the smaller parks, after a most successful season, closed on September 24. Music was given every Sunday in Prospect Park during the summer, beginning June 11 and continuing during the months of July, August and September. Altogether thirty-one (31) concerts, attended by nearly a half million people, were given in Prospect Park, and fifty-two (52) in the smaller parks. A concert was given every Sunday during the same period at Highland Park, which takes in a large and populous section. To say that these concerts were greatly appreciated by the people of Brooklyn and other boroughs, is no exaggeration. It was notably so at the closing concert in Prospect Park, when the United German Singers of Brooklyn, numbering over four hundred voices, rendered a fine program in conjunction with the Twenty-third Regiment Band. It is estimated that between fifty thousand and sixty thousand people were present.

I desire to extend my thanks to the members of the various societies comprising the United German Singers, for their services at the two concerts given by them, which were so successful. Following is a list of the concerts in the different parks:

Thirty-one (31) in Prospect Park, fourteen (14) in Highland Park, eight (8) in Fort Greene Park, four (4) in City Park, two (2) in Bushwick Park, four (4) in Winthrop Park, four (4) in Saratoga Park, four (4) in Kings Park (Jamaica), two (2) in College Point Park, four (4) in Red Hook Park, two (2) in Flushing Park, and four (4) in Sunset Park.

There were also two deaths by suicide, both by shooting.

One foundling was found in the park and turned over to the city nurse.

#### Concerts.

The following concerts were given in Prospect Park during the summer months: Saturday concerts, fourteen; first concert, June 24th; last concert, September 16th. Sunday concerts, seventeen; first concert, June 11th; last concert, September 24th.

Respectfully submitted,

JOHN McCORMICK, Sergeant-in-Command, Seventy-third Precinct.

#### Statement of Museums of the Brooklyn Institute of Arts and Sciences.

The pavilion or second section of the Museum Building, Eastern Parkway and Washington avenue, was completed early in 1905, and turned over by the Department of Parks, Boroughs of Brooklyn and Queens, to the Brooklyn Institute of Arts and Sciences for its use as a Public Museum on February 11th. The power-house and power-plant in the rear of the Museum Building were completed and turned over to the Institute on March 21st. The new lecture hall in the basement of the second section, with a seating capacity of twelve hundred and fifty, was first opened to the public for lectures on March 4th.

During March, April and May, collections illustrating the Arts and Sciences were installed in the galleries of the second section of the Museum, and this section, together with the hall of American Ethnology, was formally opened to the public on the evening of June 1st, or exactly eight years after the opening of the first Museum section in 1897. The collections installed on the first floor are sculptures of the Greek, Roman and Modern periods, together with casts representing the Greek, Graeco-Roman and Roman periods. Collections on the second floor illustrate the Departments of Ethnology, Zoology and Geology. On the third floor are the Museum collection of bronzes, the Robert B. Woodward collection of ancient oriental glass, and collections of gold ornaments.

On the recommendation of the Trustees of the Institute, and at the request of the Park Commissioner of the Boroughs of Brooklyn and Queens, the Board of Estimate and Apportionment on March 15th, and the Board of Aldermen on April 18th, authorized the issue of corporate stock of the city to the amount of one hundred and thirty-one thousand dollars (\$131,000) to be used in providing thirty monolithic sculptures for the facades of the Museum Building, the cases for the third section of the Museum, and roadways, walks, sewers, grading and sodding in the rear of the Museum Building.

On June 23d the Board of Estimate and Apportionment authorized the purchase by the city, as an addition to Institute Park, the triangle of land directly east of the Museum site and bounded by the Eastern Parkway, Classon and Washington avenues; the purpose of this purchase being to prevent the erection near the Museum Building of objectionable structures and to create a larger open space about the Museum. The work of securing title to the land was in progress during the latter half of the year.

On June 15th the Department of Parks awarded a contract for the construction of roadways, walks, sewers and for grading and sodding in the rear of the Museum Building. Work under this contract was in progress during the latter half of the year. The entire cost of the work when completed, at contract prices, will be approximately ten thousand five hundred dollars (\$10,500.00).

The work of constructing the third or eastern section of the Museum Building, begun in 1904, was under way during the entire year, the walls of the building having been completed, and the roof having been constructed and made ready to receive the skylights. The architects of the Museum, Messrs. McKim, Mead and White, prepared drawings and specifications for the front steps and central approach to the Museum, including extensive storage room under the steps, and the contract for the building of the steps, central approach and storage room was awarded on June 22d, by the Department of Parks to the P. J. Carlin Construction Company at eighty-eight thousand nine hundred dollars (\$88,900.00). The work under this contract has been commenced.

On December 26th the Board of Aldermen authorized the Park Commissioner of the Boroughs of Brooklyn and Queens to let a contract for furnishing monolithic

sculptures, and for carving the pediment on the Museum Building, as required by the design of the building, without public letting, at a total cost not exceeding one hundred and twenty-two thousand dollars (\$122,000.00), and in order that the Department may secure the best possible execution of artistic work of the highest character.

The Board of Estimate and Apportionment and the Board of Aldermen have appropriated the sum of eighty thousand dollars (\$80,000.00), on the recommendation of the Department of Parks for the maintenance of the Museums for the year 1906.

Members and friends of the Institute subscribed the sum of fifteen thousand and seventy-two dollars and twenty-five cents (\$15,072.25), to be used by the Board of Trustees in the purchase of collections of works of art and scientific collections for the Museum. The Museum was in the receipt of a large number of valuable gifts during the year. Among the more important were: A marble sculpture entitled "Poetry," by Salvatore Albano, purchased with proceeds of the Ella C. Woodward Memorial Fund; a marble sculpture entitled "Polyxena," by William W. Story, presented by Mr. George Freifeld; a marble sculpture entitled "Christ and St. John," heroic size, by William Ordway Partridge, presented by Mrs. Charles R. Baker, in memory of the late Rev. Charles R. Baker, D. D., Rector of the Church of the Messiah, for many years, and a trustee of the Institute from 1890 until his decease in 1898; a marble sculpture entitled "Eve," by Hiram Powers, presented by Mrs. Mary S. Croxson; an antique Roman Torso of a caryatid of the first and second centuries, in Cippolino marble, recently found in Rome, presented by A. Augustus Healy; a bronze sculpture by Barye, entitled "The Lapith and the Centaur," presented by Mrs. Fannie Avery Welcher; a painting by Edwin L. Weeks entitled "Hour of Prayer at the Pearl Mosque, Agra," presented by Mr. George D. Pratt; a painting by Edwin L. Weeks entitled "A Scene in Morocco," purchased with Museum Collection Fund of 1904; a painting entitled "A Gray Morning," by Leonard Ochtman, purchased from the John B. Woodward Fund; a painting entitled "Autumn Oaks, Forest of Fontainebleau," by Paul Dougherty, presented by Mr. George Foster Peabody; a painting by George H. Bogert entitled "Dordrecht," presented by Mr. George A. Hearn; a painting called "The Captive," by R. A. Blakelock, presented by the Honorable Charles A. Schieren, a Sicilian Cart, from Palermo, presented by Mr. George C. Brackett; a collection of Chinese porcelain vases and Japanese pottery, presented by the Honorable Carl H. DeSilver; a collection of coins and two casts of Greek and Graeco-Roman relief, presented by Mr. Frank Sherman Benson; a collection of Japanese lacquers and one bronze ink horn, presented by Colonel Robert B. Woodward; a painting entitled "On the Bosphorus," by F. A. Bridgman, presented by Mr. Peter Geddes; a collection in Egyptology, purchased by Mr. Flinders Petrie, and paid for out of the Museum Collection Fund of 1904; a collection of Egyptian bronzes and a collection of Tenagra figures purchased with the Museum Collection Fund of 1905; a collection of gold ornaments (100 B. C. to 200 A. D.), purchased with the Ella C. Woodward Fund; a collection in Greek and Roman Archaeology, purchased from George N. Olcott, Ph. D., with the Museum Collection Fund of 1904. Ethnological collections from the Southwest were purchased by Mr. Stewart Culin with the aid of the Museum Collection Fund of 1904, at a cost of one thousand seven hundred dollars (\$1,700). To the natural history collections many additions were made with the aid of the Museum Collection Funds of 1904 and 1905, and through the generosity of friends. The Rev. J. L. Zabriskie presented a very complete collection of the Fungi of Long Island.

The foregoing additions were made in the earlier part of the year, and the following gifts were received near the close of the year: From Messrs. Charles H. Gening, Emil Carlson, Henry Howard and William L. Carrigan, one oil painting by Herbert Denman; Rev. Alfred Duane Pell, fifteen pieces of china and twenty-four European Ceramics and Japanese red lacquer box; Mr. Austin Corbin, one buffalo and calf and four wild boars; Mr. Julius Brunn, collection of shells, twenty-five hundred; Colonel Robert B. Woodward, five specimens of flying animals; Mr. George C. Brackett, one Italian majolica plate, and Mr. E. B. Sturges, a botanical collection containing some twelve thousand specimens.

The museum has also received many loans of valuable works of art for temporary exhibition. Lists of the gifts and also of the loans to the museum collections are printed in the serial publications of the institute.

Important groups of mammals have been placed on exhibition during the year, including the Rocky Mountain goat, the Alaskan seal and the musk-ox of Labrador.

Expeditions were made by Mr. George K. Cherrie, Curator of Ornithology, to the valley of the Orinoco, to make collections of birds and mammals; by Mr. Stewart Culin, Curator of Ethnology, to Arizona and California to make collection in Ethnology, and by Mr. Carl Schaeffer, Assistant Curator of Entomology, to Arizona and New Mexico to make collections of insects. All of these expeditions were successful, and an account of the results of the exhibitions will be published by the institute later.

Courses of lectures were given at the Central Museum by Professor John McKay, Ph. D., on "Physical Geography and Physical Science," in the spring, and by Mr. Frank E. Johnson, on "Birds," during the autumn.

Courses of lectures, open to the children in the public and private schools of the city, were given at the Children's Museum, Bedford Park, by the Curator, Miss Anna B. Gallup, and her assistants.

The attendance at the Central Museum for the year ending December 31, 1905, was one hundred and twenty-one thousand, and at the Children's museum, ninety-four thousand four hundred and eighty.

## BOROUGH OF BROOKLYN.

## LOCAL BOARD—FLATBUSH DISTRICT.

Meeting in Borough Hall Wednesday, December 6, 1905, at 3 p. m.

The roll was called and the following members answered to their names:

Hon. J. C. Brackenridge, Commissioner of Public Works (presiding); Alderman Hann, Sixty-third Aldermanic District.

The Secretary presented the following:

No. 355.

A resolution recommending to the Board of Estimate and Apportionment an alteration in the map or plan of The City of New York by changing the grade of Union street, between New York and Brooklyn avenues, was adopted by unanimous vote.

No. 356.

A petition, signed by the Ocean and Nassau Realty Companies, for an alteration in the map of The City of New York by laying out a new street 60 feet wide, between Beverley road and Avenue C, extending from Ocean parkway to Gravesend avenue, beginning at a point 400 feet south of Beverley road, and also a protest against the proposed change of map, signed by about fifty property owners likely to be affected by the proposed change.

Alderman Hann stated to the Board that he had investigated the Ocean Realty Company, one of the petitioners, and found that it is not an incorporated company, and upon his motion the petition was denied, all present voting in the negative.

No. 357.

The Rev. John T. Woods represented the petitioners for the laying out of a playground bounded by Erasmus street, Snyder avenue, Prospect street and Bedford avenue, and urged the necessity of such an improvement in the locality mentioned. The Secretary read the following report from the Chief Engineer of the Bureau of Highways:

"October 31, 1905.

"Hon. J. C. BRACKENRIDGE, Commissioner of Public Works:

"Dear Sir—I return herewith petition for public playground bounded by Erasmus street, Snyder avenue, Prospect street and Bedford avenue. I have examined this ground, and although it is situated in a convenient locality to nearby schools, it would seem that it is an expensive piece of property to be taken for this purpose. It will be seen by the accompanying blue print the assessed valuation of the land is \$34,610, and upon improvements, \$59,270; in order to make a playground of this land it would be necessary to destroy \$59,270 worth of improvements, according to the assessed valuation. This property has a frontage on Bedford avenue which is exceedingly valuable, and it seems to me that if a playground were to be purchased in this vicinity a suitable location could be found for much less price.

"Yours very truly,  
(Signed) "GEO. W. TILLSON, Chief Engineer."

Alderman Hann advocated the laying out of the proposed playground, and upon his motion a resolution recommending the proposed change of map to the Board of Estimate and Apportionment was adopted by unanimous vote.

No. 358.

A resolution recommending to the Board of Estimate and Apportionment an alteration in the map or plan of The City of New York by changing the grade on East Thirty-second street, between Farragut and Glenwood roads, was adopted by unanimous vote.

No. 359.

On motion of Alderman Hann, a petition to acquire title to Linden avenue, from Nostrand avenue to Remsen avenue, was laid over and referred to the Alderman of the district for investigation and report.

No. 316.

Resolutions requesting the Board of Estimate and Apportionment to rescind its action of July 7, 1905, authorizing the grading, curbing and sodding of New York avenue, between Avenues F and H, and initiating, instead, proceedings to regulate, grade and curb New York avenue, between Paerdegat and Flatbush avenues, were adopted by unanimous vote.

No. 343.

A petition to grade, curb, gutter, lay cement sidewalks and pave East Twenty-ninth street, between Foster avenue and Glenwood road, and a protest against said improvement, were presented, and upon the plea of the property owners that the improvement was premature, the petition was denied, all present voting in the negative.

No. 360.

A petition for an amendment of a resolution adopted by this Local Board on October 30, 1905, initiating proceedings to open Newkirk avenue, where not already opened, between Flatbush and Coney Island avenues, by having the limits of same read "between East Seventeenth street and Coney Island avenue," with the object of eliminating from the proposed condemnation proceedings that portion of Newkirk avenue which it was thought could be dedicated on account of its long usage, was granted; and, upon motion of Alderman Hann, a resolution effecting the desired result was adopted by unanimous vote; and

A resolution rescinding a resolution of March 30, 1905, initiating proceedings to regulate, grade, set concrete curb and lay cement sidewalks on Newkirk avenue, between Flatbush and Coney Island avenues, in order that proceedings might be initiated which would provide for the proposed improvement between Flatbush avenue and East Seventeenth street where the conditions would warrant, was adopted by unanimous vote; and

Resolutions initiating proceedings to regulate, grade, set concrete curb and lay cement sidewalks where not already laid; and

To pave with asphalt Newkirk avenue, between Flatbush avenue and East Seventeenth street, were adopted by unanimous vote.

No. 361.

A resolution recommending to the Board of Estimate and Apportionment an alteration in the map or plan of The City of New York by changing the grade at the intersection of Newkirk avenue and East Seventeenth street, was adopted by unanimous vote.

No. 332.

A resolution to pave with asphalt on concrete foundation East Thirty-first street, from Flatbush avenue to Glenwood road, was adopted by unanimous vote.

No. 340.

Resolutions to construct sewer basins on Beverley road, at the northeast corner of Flatbush avenue, and at the northwest and southwest corners of East Twenty-second street; and to pave with asphalt on concrete foundation Beverley road, between Flatbush and Bedford avenues, were adopted by unanimous vote.

No. 362.

A resolution to construct a sewer basin at the northeast corner of East Eighteenth street and Albemarle road was adopted by unanimous vote.

No. 363.

On motion of Alderman Hann, a petition to pave with asphalt and relay brick gutter on Rutland road, between Kingston and Albany avenues, was denied, all present voting in the negative.

No. 364.

A resolution to construct a sewer in East Ninth street, between Ditmas and Eighth avenues, was adopted by unanimous vote.

No. 365.

A resolution to pave with asphalt on concrete foundation Hopkinson avenue, between Eastern parkway and Atlantic avenue, was adopted by unanimous vote.

No. 366.

A resolution to amend a resolution of September 26, 1904, initiating proceedings to pave with asphalt on concrete foundation East Fifteenth street, between Beverley and Cortelyou roads, so as to read "between curb lines," was adopted by unanimous vote.

No. 367.

A resolution to regulate, grade, set or reset concrete curb and lay cement sidewalks on Barrett street, between Sutter and Livonia avenues, was adopted by unanimous vote.

No. 368.

A resolution to set or reset curb on concrete, pave with asphalt on concrete foundation and lay cement sidewalks on Radde place, from a point about 115 feet north of Atlantic avenue to Atlantic avenue, was adopted by unanimous vote.

No. 369.

Resolutions to construct a sewer in Kingston avenue, between Fenimore and Winthrop streets; and to pave with asphalt on concrete foundation Kingston avenue, between Rutland road and Winthrop street, were adopted by unanimous vote.

No. 370.

A resolution to regulate, grade, set or reset curb on Ralph avenue, between Eastern parkway and East Ninety-eighth street, was adopted by unanimous vote; and

Alex S. Drescher, secretary of the Brownsville Board of Trade, having stated, on behalf of the owners of property affected, that it was intended to dedicate to the City, and that deeds were at the present time in course of preparation, a resolution having for its object the initiation of proceedings to open Ralph avenue, between Eastern Parkway and East Ninety-eighth street, was denied, all present voting in the negative.

No. 371.

A resolution to set or reset cement curb, pave with asphalt on concrete foundation and lay cement sidewalks on East Twelfth street, between Cortelyou and Dorchester roads, was adopted by unanimous vote.

No. 372.

On motion of Alderman Hann, a petition to regulate, grade, set or reset curb and lay cement sidewalks on Rutland road, between Nostrand and Kingston avenues; and

A resolution having for its object the initiation of proceedings to open Rutland road, from Nostrand avenue to Canarsie avenue, was denied, the petitioners having called to the attention of the Board the fact that the petition was made only upon the condition that the assessment for the improvement might be paid in installments.

No. 373.

A resolution to regulate, grade, set or reset curb on concrete and lay cement sidewalks on Martense street, between Rogers and Nostrand avenues, was adopted by unanimous vote.

No. 374.

A resolution to regulate, grade, set or reset curb on concrete and lay cement sidewalks on Union street, between New York and Brooklyn avenues, was adopted by unanimous vote; and

On motion of Alderman Hann, a resolution having for its object the initiation of proceedings to open Union street, between New York and Brooklyn avenues, was denied, all present voting in the negative.

No. 375.

On motion of Alderman Hann, a resolution to regulate and grade Union street, between Rogers and Nostrand avenues, was denied, all present voting in the negative.

No. 376.

A resolution to regulate, grade, set or reset curb on concrete, set bluestone bridging and lay cement sidewalks on Avenue D, between East Thirty-fourth street and Utica avenue, was adopted by unanimous vote; and

A resolution having for its object the initiation of proceedings to open Avenue D, between East Thirty-fourth street and Utica avenue, was laid over and referred to Alderman Hann for investigation.

No. 377.

A resolution to amend a resolution of September 26, 1904, initiating proceedings to regulate, grade and curb East Fifteenth street, between Beverley and Cortelyou roads, by including in the provisions thereof the laying of cement sidewalks, where not already laid, and setting or resetting curb where not already done, was adopted by unanimous vote.

No. 378.

A resolution to construct sewer basins at the northeast and northwest corners of Dorchester road and Westminster road was adopted by unanimous vote.

No. 379.

A resolution to construct a sewer in Dean street, between Ralph and Howard avenues, was adopted by unanimous vote.

No. 380.

A resolution to regulate, grade, set curb on concrete and lay cement sidewalks on Fenimore street, between Nostrand and New York avenues, was adopted by unanimous vote.

No. 381.

A resolution to regulate, grade, set cement curb and lay cement sidewalks on East Thirty-first street, between Clarendon road and Newkirk avenue, was adopted by unanimous vote.

No. 382.

It appearing from the report of the Chief Engineer of the Bureau of Highways that the total estimated cost for grading, curbing, laying brick gutters and paving with macadam Flatbush avenue, between Avenues N and U, exceeded the assessed valuation of land affected by the proposed improvement, and, due to this and to the undeveloped condition of the street, the petition was denied, all present voting in the negative.

No. 383.

A petition to grade to the level of the curb the vacant lot lying on the south side of St. Mark's avenue, between Kingston and Brooklyn avenues, known as Lot No. 33, Block 1220, was laid over and referred to Alderman Hann for investigation. On reconsideration the above petition was granted, and a resolution directing that the work be done was adopted by unanimous vote.

No. 384.

A resolution directing that the sidewalks opposite lot lying on the west side of Rugby road, between Cortelyou and Dorchester road, known as Lot No. 70, Block 253, be paved with cement five feet wide, was adopted by unanimous vote.

On motion, the meeting adjourned.

JOHN A. HEFFERNAN, Secretary.

A meeting of the Civil Service Commission of the City of New York was held at the Commission's offices, No. 61 Elm street, on Wednesday, February 21, 1906, at 10 a. m.

All the Commissioners were present.

A public hearing was held upon the proposed amendment of the Civil Service classification, as fixed by the rules, by including in the Non-Competitive Class, under the heading "Positions in the Department of Public Charities, the Department of Correction, the Bellevue and Allied Hospitals, the New York and Brooklyn Truant Schools and the Brooklyn Disciplinary Training Schools," the following:

"Supervising Nurse, with compensation not exceeding one thousand dollars per annum, with maintenance."

Hon. Robert W. Heberd, Commissioner of Public Charities, addressed the Commission in favor of the amendment. Mr. Elliot H. Goodwin, Secretary of the Civil Service Reform Association, also addressed the Commission, and the hearing closed.

The Commission then went into regular session, and the minutes of the meeting held February 14 were approved.

On motion, it was

Resolved, That the classification of positions in the Non-Competitive Class, as fixed by the Civil Service rules, be and the same is hereby amended by including therein, under the heading "Positions in the Department of Public Charities, the Department of Correction, the Bellevue and Allied Hospitals, the New York and Brooklyn Truant Schools and the Brooklyn Disciplinary Training Schools," the following:

"Supervising Nurse, with compensation not exceeding one thousand dollars per annum, with maintenance."

On motion, it was

Resolved, That Edward James Murray, residing at No. 112 East One Hundred and Second street, Manhattan, be and he hereby is appointed to the position of Office Boy in the Civil Service Commission, with compensation at the rate of \$300 per annum, to take effect immediately.

The Committee on Transfers recommended that the following transfers be approved:

Patrick J. McEvily, from the position of Inspector of Weights and Measures in the Bureau of Weights and Measures, Office of the Mayor, to that of Sealer of Weights and Measures.

Edward Riordan, from the position of Assistant Engineer, office of the President of the Borough of Brooklyn, to a similar position in the Department of Finance.

James E. Scott, from the position of Cashier in the Bureau for the Collection of Taxes, Department of Finance, to that of Clerk in the same department, he having held that position prior to May 1, 1903.

Patrick J. Sherry, from the position of Clerk (second grade) in the Law Department to a similar position in the office of the City Chamberlain.

Norman B. Gardiner, from the position of Assistant Engineer in the Department of Docks and Ferries to a similar position in the office of the President of the Borough of Manhattan.

Thomas B. Reilly, from the position of Cashier in the Bureau for the Collection of Taxes, Department of Finance, to the position of Clerk, he having formerly held the latter position.

Edward W. O'Hara, from the position of Bookkeeper (sixth grade) in the Finance Department to a similar position in the office of the City Chamberlain.

Arthur Klein, from the position of Leveler in the Aqueduct Commission to a similar position in the Board of Water Supply.

Courtlandt C. Van Vechten, from the position of Axeman in the Aqueduct Commission to a similar position in the Board of Water Supply.

—and recommended that the following request be denied:

Joseph Hyland, from the position of Bath Attendant in the Bureau of Public Buildings and Offices to that of Stoker, for the reason that the candidate had not served a year in the position of Bath Attendant, and for the further reason that he had not signified his willingness to be transferred, as required by the Commission in such cases.

The recommendations of the Committee on Transfers were adopted.

The Committee on Reinstatements recommended that the following reinstatement be approved:

Frank M. Lyon, in the position of Bridge Keeper in the Department of Bridges, he having resigned from a similar position on January 9, 1906.

The recommendation of the Committee on Reinstatements was adopted.

The President presented the following report on transfers, reinstatements, etc., in the Labor Class, acted upon by him:

**Transfers Approved.**

John Doyle, from Laborer to Stoker, Department of Bridges.  
William H. Knoeppel, from Laborer to Mason's Helper, Department of Bridges.  
Michael A. McMahon, from Oiler, Department of Water Supply, Gas and Electricity, to Oiler, office of the President of the Borough of Brooklyn.  
Daniel J. Frank, from Laborer to Stoker, office of the President of the Borough of Queens.

Thomas J. McGurl, from Laborer to Assistant Foreman, Department of Parks, The Bronx.

Dennis Murphy, from Park Laborer to Assistant Foreman, Department of Parks, The Bronx.

Isaac King, from Park Laborer to Stoker, Department of Parks, The Bronx.

Thomas Rogerson, from Laborer to Stoker, Department of Water Supply, Gas and Electricity.

George C. Burnham, from Laborer to Stoker, Department of Water Supply, Gas and Electricity.

**Reinstatements Approved.**

Michael G. Keating, Laborer, Department of Docks and Ferries.

Albert Rohleder, Sweeper, Department of Street Cleaning.

**Reassignments Approved.**

James Vandergrift, Stoker, Department of Docks and Ferries.

Walter T. Wood, Dock Laborer, Department of Docks and Ferries.

**Applications Approved.**

Request of the President of the Borough of Brooklyn for approval of his action in rescinding the dismissal of Dennis Mullins, Laborer, on February 1, 1906.

**Emergency Appointments Approved.**

Patrick Chapman and seven others as Climbers and Pruners in the Department of Parks, The Bronx, for five days from February 14.

George A. Daly and William H. O'Connor as Climbers and Pruners in the Department of Parks, The Bronx, for five days from February 16.

Charles Speckman and two others as Climbers and Pruners in the Department of Parks, The Bronx, for five days from February 15.

William Nolan and eleven others as Climbers and Pruners in the Department of Parks, Manhattan and Richmond, for five days from February 13.

The report of the President was adopted.

A communication was presented from the Chief Examiner dated February 10, in regard to the appeal of Ralph H. Stearns from the rating received by him in the examination for Assistant Engineer, Board of Water Supply, reporting that no error was pointed out. The appeal was denied.

A communication was presented from the Chief Examiner, dated February 10, transmitting a report of Examiner Murray with reference to the application of Walter Signer for Prison Keeper. It appeared that the candidate had had the application filled out by his brother, who signed the candidate's name and swore to the same before a Notary Public. The application was rejected and the candidate's name was ordered stricken from eligible list for Prison Keeper.

A communication was presented from the Chief Examiner, dated February 15, transmitting a report of Examiners Murray and Smith in regard to the appeal of William F. Boekell, candidate for Junior Clerk, stating that, after a careful examination of the arithmetic paper, from which rating the candidate had appealed, they could see no reason for changing their original ratings, as no errors of marking or rating had been made. The appeal was denied.

A communication was presented from the Chief Examiner, dated February 15, with reference to the appeal of Thomas J. Fagan, No. 134 Ryerson street, Brooklyn, on behalf of his son, Joseph F. Fagan, candidate for Junior Clerk, that his examination papers be rated. The Chief Examiner stated that Mr. Fagan's statements were at variance with the facts, as the candidate left the examination room before completing his examination. The appeal was denied.

A communication was presented from the Chief Examiner, dated February 15, transmitting a communication from one J. P. O'Brien, criticising the mathematics papers set in certain examinations and stating that, in his opinion, the communication did not seem to call for any particular comment. The communication was ordered filed.

A communication was presented from the Chief Examiner, dated February 15, with reference to the appeal of William Goldsmith, candidate for Assistant Engineer, Board of Water Supply, stating that the only point in the said appeal which called for consideration was the candidate's objection to his rating on question 12, and as the marks of the two Examiners on that question were identical, in his opinion the appeal did not seem to call for further consideration. The same was denied.

Communications were presented from the Chief Examiner, dated February 17, stating that the appeals of the following-named candidates indicated no errors of marking or rating by the Examiners:

William J. Humphreys, Fireman, Richmond and Queens.

Thomas J. Elwood, Fireman, Richmond and Queens.

Paul J. Karl, Junior Clerk.

Jesse B. Snow, Assistant Engineer, Board of Water Supply.

The appeals were denied.

A communication was presented from the Chief Examiner, dated February 17, forwarding a report of Examiner Murray with reference to the following-named candidates for Fireman in the Borough of Richmond:

Louis Siegel, No. 104 Richmond turnpike, Tompkinsville.

John Dollard, No. 104 Richmond turnpike, Tompkinsville.

James Gildea, No. 104 Richmond turnpike, Tompkinsville.

Henry J. Emde, No. 6 Housman avenue, Port Richmond.

It appeared that the examination papers of the candidates had been referred to Examiner Murray for investigation on account of certain irregularities appearing in the same; that he had notified all of them to appear at the Commission's office, the date of the last notice being February 8, but that they all had failed to comply with such instruction, and stating that, in his opinion, in view of their circumstances, it would be well to cancel the certification of the names under date of February 3 for appointment in the Fire Department. On motion, it was

Resolved, That the Secretary be and he hereby is directed to communicate with the Fire Department and withdraw the certification of the following names under date of February 3, 1906, for appointment to the position of Fireman in the Borough of Richmond:

Louis Siegel, John Dollard, James Gildea, Henry J. Emde;

And be it further

Resolved, That the Secretary be and he hereby is directed to communicate with the aforesaid persons and inform them that they will be given an opportunity to show cause why their names should not be stricken from the eligible list for Fireman, Borough of Richmond, on Wednesday morning, February 28, 1906, at 10 o'clock.

A communication was presented from the Chief Examiner, referring to the Commission a report of Examiners Conway and Oppenheim in regard to the cases of Benjamin Goldfein and Joseph R. Walker, candidates for promotion from Office Boy to Junior Clerk in the Department of Health. It appeared that the first-named candidate had spelled the word "revise" instead of the word "revised," which was dictated, and that he therefore had been given no credit for same; that the second-named candidate had spelled the word "register" instead of the word "registrar," which was dictated, and that he therefore had received no credit for the same. After a consideration of the matter, it appearing that had the candidates been given credit for the said words they would have been entitled to a place upon the eligible list for promotion to Junior Clerk, the Secretary was instructed to direct the Chief Examiner to re-rate the candidates' spelling papers by giving them credit for the words which they had spelled correctly, but which, owing to a misunderstanding on their part, were not the words dictated.

A communication was presented from the Assistant Chief Examiner, dated February 16, recommending that the rating of Mrs. Mary A. D. Byrnes, candidate for promotion to Typewriting Copyist in the office of the Corporation Counsel, be corrected, in view of the fact that her "record" had been confused with that of another candidate in the same department, named Miss Mary A. Byrnes, and stating that the mistake made a material difference in Mrs. Byrnes' final rating. The Assistant Chief Examiner was instructed to make the necessary correction.

A communication was presented from the Chief Examiner, dated February 17, with reference to the age of candidate Charles B. Velzer for the position of Fireman. It appeared that the candidate stated in his application that he was born in 1884, and that in his "preliminary" sheet he stated that he was born in 1883; that, upon request, he had submitted an affidavit from his mother to the effect that he was born in 1883. In view of the fact that either date would bring the age of the candidate within the thirty years prescribed as the maximum age limit for Fireman, Examiner Murray recommended that the affidavit be accepted as sufficient proof of the correctness of the date given. The recommendation was adopted.

A report was presented from Mr. James A. Rafferty, Examiner, dated February 17, with reference to the appointment of Eugene J. McCormack as Hospital Helper in the non-competitive class in the Department of Correction on February 7, 1906. It appeared that Mr. McCormack had been employed "provisionally" as a Keeper in the Department of Correction, and that upon the establishment of such eligible list his services had been dispensed with, and thereupon the Commissioner had appointed him as a Hospital Helper. Mr. Rafferty stated that he had investigated the matter, and had been informed by Commissioner Lantry that McCormack was appointed a Hospital Helper in the place of one who had been transferred to Hart's Island, and that he had been assigned to work at the City Prison; that his duties would be solely those of a Hospital Helper, being of assistance to the doctor in cases of delirious or sick prisoners who need medical attention, and that he would in no wise serve as a Keeper or have anything to do with prisoners except when they required the services of a physician. The report was satisfactory, and the papers were ordered filed.

A communication was presented from the Secretary of the State Civil Service Commission, dated February 20, informing the Commission of the disposition of its resolutions, as follows:

Amending the classification of positions in the exempt class, in the Board of Water Supply of The City of New York, by adding thereto the following titles:

Four Division Engineers (additional). Disapproved.

Six Department Engineers. Approved.

Three General Engineering Inspectors. Disapproved.

Three Designing Engineers. Approved.

One Private Secretary to the Chief Engineer. Approved January 12, 1906.

Adding to the exempt class in the Court of Special Sessions, "Male Probation Officer in the First Division." Ordered continued upon the calendar for the next meeting.

Adding to the labor class, Part II., the title "Climber and Pruner." Ordered continued upon the calendar for the next meeting.

Adding to the labor class, Part I., the title "Stableman, Department of Street Cleaning." Approved.

Amending Rule XVII., paragraphs 3 and 4, relative to examinations for the Police and Fire Departments. Ordered continued upon the calendar for the next meeting.

Adding to the competitive class, Part I., group 11, the title "Process Server." Approved.

Adding to the exempt class the position of "Confidential Inspector" in the office of the President of the Borough of Brooklyn. Approved.

Amending the classification of position in the exempt class in the Municipal Court, by eliminating the lines, "Deputy Clerk for each District in the Boroughs of Manhattan, Brooklyn, The Bronx, and the First District of Queens," and "Assistant Court Clerk," and substituting therefor the following:

"Assistant Clerk for each District in the Boroughs of Manhattan, Brooklyn, The Bronx and Queens." Approved.

Amending the classification of positions in the competitive class, Part VII., by including therein, in grade 1, the title "Heliotroper." Approved.

Adding to the labor class, Part II., the following:

Coremaker, Fire Department; Moulder, Fire Department; Carriage Body Maker, Fire Department; Rubber-tire Repairer, Fire Department; Pattern Maker. Approved.

Adding to the non-competitive class the following:

"Four Admitting Physicians, Bellevue Hospital, with compensation at the rate of \$600 per annum, without maintenance." Approved.

Adding to the non-competitive class the position of Steam Roller Engineman, offices of the Borough Presidents and Department of Parks. Ordered continued upon the calendar for the next meeting.

The communication was ordered filed.

The President called the attention of the Commission to a communication from the Secretary of the Fire Department, dated February 9, transmitting a communication from Chief Croker to the effect that the names of the following-named first and second grade Firemen, who were candidates for examination for Engineer of Steamer, had been omitted, inadvertently, from the list transmitted to the Civil Service Commission for physical examination; and requesting, by order of the Commissioner, that the Civil Service Commission summon such persons for a physical examination and permit them to compete in the mental:

John Woods, Francis J. Gallagher, August Antz, Richard R. Siegert, Philip J. Bourke, William Dennison, George Breit.

The President stated that the said persons had been given a conditional notice for the mental examination, subject to their subsequently passing a physical; that such physical examination had been arranged for them, and that they had been successful in passing same. The granting of the conditional notices to the candidates was approved by the Commission, and the Secretary was instructed to place their names upon the eligible list, when promulgated, in the order determined by their respective percentages.

The communication from the Corporation Counsel, dated February 1, asking that a special examination for Process Server in the Law Department be called, which matter was laid over from the meeting of February 7, was again presented for consideration. The request was denied.

A communication was presented from the Secretary of the Department of Health, dated February 16, in answer to a request of the President for information regarding a letter addressed to him by the Civil Service Reform Association, calling his attention to the protest of Lawrence E. Spillane, whose name was certified from the "preferred" list for Disinfector on May 22, 1905, for appointment in the Department of Health, but who was not appointed, notwithstanding the fact that a vacancy existed in that Department which was subsequently filled by the appointment of Joseph M. Kennedy on May 31.

The Secretary (Mr. Scheffer) stated in his communication that a notice of appointment was sent to Spillane on May 22 and the same was returned to the Department marked "not found"; that on May 25 the same was forwarded to the Commission; that on May 26 he received a letter from Mr. Spillane, stating that he understood that his name had been certified, but that he had received no notice, owing to a change of address; upon which he (Mr. Scheffer) wrote to the candidate that his previous services had been unsatisfactory and he would not be considered for appointment, and on May 31, Joseph M. Kennedy was appointed to the position.

The President was requested to communicate further with Mr. Scheffer and state that his explanation was not entirely satisfactory to the Commission; that it would be necessary for the Board of Health either to "lay off" Mr. Kennedy or appoint Mr. Spillane; also to communicate the results of the investigation to the Civil Service Reform Association.

A communication was presented from the Secretary of the Board of Education, dated February 9, stating that the following-named employees of the Jamaica Training School for Teachers had been taken over into the employ of that department, under the provisions of chapter 524 of the Laws of 1905, they having formerly been under the jurisdiction of the State:

Samuel Bowne, Janitor-Engineer.

Joseph Semonia, Janitor.

Walter Hulce, Janitor's Assistant.

The Secretary was instructed to arrange a non-competitive examination for the candidates, in accordance with the provisions of the aforesaid act, to qualify them for transfer to the Civil Service of The City of New York.

The Secretary read the following communication from the Fire Commissioner:

"Borough of Manhattan, February 7, 1906.

"Hon. WILLIAM F. BAKER, President, Municipal Civil Service Commission, No. 61 Elm street, City:

"Sir—Until his health began to fail, about six months ago, Andrew Klug had been a faithful and reliable Elevator Attendant at these headquarters for a period of over fifteen years.

"Since August 1, 1905, he has been absent on sick leave without pay, and in your communication of the 1st inst., in reply to request of this Department of the 31st ult., for approval of the extension of such leave to include the month of January, 1906, you stated that this could not be done, as Klug had been off the roll for six months. As a matter of fact, however, the month of January completed the six months' term for which, pursuant to the provisions of subdivision 2 of Civil Service Rule XIII., leave of absence, without pay, by reason of illness, may ordinarily be granted.

"In view of the fact, however, that the rule to which reference has been made further provides:

"But the Commission, in exceptional cases, the circumstances of which shall be stated in its minutes and in its annual report, may extend such periods,"

"and of the further considerations that Klug, although serving in an humble capacity, had been an exceptionally worthy employee until illness interfered with his usefulness, that he is not now drawing salary, and that his dropping from the rolls, in the present critical condition of his health, might result disastrously, I have the honor to request that, if your Honorable Commission can see its way clear so to do, it grant a further extension, without pay, of the leave of absence, on account of illness, in the case of Klug, for a period of three months from February 1, 1906.

"In the case of James J. Carroll, until his death, a few months since, a Clerk in the Bureau of Combustibles of this Department, the Municipal Civil Service Commission very considerably extended the leave, under the authority of the provision of Rule XIII., above quoted, for a period of more than a year.

"Respectfully,

"JOHN H. O'BRIEN, Commissioner."

In view of the exceptional circumstances of the case, the extended leave of absence was approved:

A communication was presented from the Secretary of the Rapid Transit Railroad Commission, dated February 13, requesting authority to continue the provisional employment of Joseph O'Donnell and Walter W. Miller, Axemen, until the list for that position was established. The Secretary stated that the sixty-day period for which the said persons were appointed would expire on February 27, and that, according to the latest report of the Chief Examiner, the list would probably not be announced for two or three weeks. The request was granted, and the Secretary was instructed to attach a special certificate to the pay-rolls of the said persons when presented, setting forth the facts in the case.

A communication was presented from the Secretary of the Department of Health, dated February 10, requesting approval of a leave of absence, without pay, granted Haven B. Bayles, M. D., Medical Inspector, from February 1 to August 7, 1906, inclusive, on account of illness. The Secretary stated that Dr. Bayles had been on leave of absence since August, 1905, and the six months for which the Commission approved the same expired on February 1. The request was denied.

The following communication was presented from the Board of Water Supply:

"New York, February 14, 1906.

"Mr. F. A. SPENCER, Secretary, Civil Service Commission, No. 61 Elm Street, New York City:

"Dear Sir—In order to gain certain necessary information regarding rainfall and stream flow, the Board of Water Supply has established rain gauges at various points in the Catskill watersheds, to be appropriated for the use of The City of New York, and has also maintained certain stations for the gauging of the streams. It is essential that the records of these gauges be kept by some person who lives in the immediate vicinity. It requires but a small amount of time, and the price of keeping the records of each rain gauge or stream flow station is \$5 per month, which corresponds with the sum paid by the United States Government for similar work.

"The Board has selected the following persons to make these observations, who in all cases live in the immediate vicinity:

"Cooper, A. W., Lake Hill, N. Y.; compensation, \$5 per month.  
 "Atkins, John, Slide Mountain, N. Y.; compensation, \$5 per month.  
 "Connelly, A. J., Edgewood, N. Y.; compensation, \$5 per month.  
 "Gale, E. T., Highmount, N. Y.; compensation, \$5 per month.  
 "Boice, Jesse, Olive Bridge, N. Y.; compensation, \$10 per month.  
 "Leipold, J. G., Phoenicia, N. Y.; compensation, \$5 per month.  
 "Brought, David C., West Shokan, N. Y.; compensation, \$5 per month.  
 "Dean, M. I., Sundown, N. Y.; compensation, \$5 per month.  
 "Huben, Miss Anna, Rosendale, N. Y.; compensation, \$5 per month.  
 "Hasbrouck, Jacob H., Rosendale, N. Y.; compensation, \$5 per month.  
 "Terwilliger, Miss Olive F., Grahamsville, N. Y.; compensation, \$5 per month.  
 "In this case two gauges are kept by the same man, and compensation is paid for each.

"I respectfully request that the Civil Service Commission, in accordance with Rule XII., paragraph 7, exempt these persons from a competitive examination, and allow their appointment for this particular service.

"Respectfully submitted,

"BOARD OF WATER SUPPLY.

"THOS. HASSETT, Secretary."

On motion, it was

Resolved, That the following-named persons be and they hereby are excepted from competitive examination, under the provisions of Civil Service Rule XII., paragraph 7, for employment by the Board of Water Supply in a locality outside of The City of New York, it appearing that such persons are residents of the locality in which they are to be employed, and that appointment for such service from an eligible list is not practicable:

A. W. Cooper, Lake Hill, N. Y.; compensation, \$5 per month.  
 John Atkins, Slide Mountain, N. Y.; compensation, \$5 per month.  
 A. J. Connelly, Edgewood, N. Y.; compensation, \$5 per month.  
 E. T. Gale, Highmount, N. Y.; compensation, \$5 per month.  
 Jesse Boice, Olive Bridge, N. Y.; compensation, \$10 per month.  
 J. G. Leipold, Phoenicia, N. Y.; compensation, \$5 per month.  
 David C. Brought, West Shokan, N. Y.; compensation, \$5 per month.  
 M. I. Dean, Sundown, N. Y.; compensation, \$5 per month.  
 Miss Anna Huben, Rosendale, N. Y.; compensation, \$5 per month.  
 Jacob H. Hasbrouck, Rosendale, N. Y.; compensation, \$5 per month.  
 Miss Olive F. Terwilliger, Grahamsville, N. Y.; compensation, \$5 per month.

A communication was presented from the President of the Borough of the Bronx, dated February 10, requesting authority to appoint Francis X. Miller, of No. 1196 Fulton avenue, provisionally, to the position of Topographical Draughtsman, at a salary of \$1,200 per annum, pending the establishment of the eligible list for that position. The request was granted, and the Secretary was instructed to direct the Chief Examiner to conduct a non-competitive examination of the candidate in accordance with Civil Service Rule XII., paragraph 3.

A communication was presented from the President of the Borough of Queens, dated February 13, requesting that an examination for promotion from Oiler to Engineer in his department be held. The request was granted, it appearing that, under the provisions of the Charter, it was necessary for the vacant position to be filled by an engineer holding a license, and that the President of the Borough of Queens could not properly assign any other person to that position.

A communication was presented from the Commissioner of Docks and Ferries, dated February 13, requesting an amendment of the classification of positions in the non-competitive class by including therein, under the heading "Positions in the Department of Docks and Ferries," the following: Quartermaster.

The Secretary was instructed to arrange a public hearing on the matter for Wednesday morning, February 28, 1906, at 10 o'clock.

A communication was presented from the President of the Borough of Brooklyn, dated February 8, requesting the Commission to certify the pay-roll of John H. Vogt for services rendered as a Leveler in his department from June 15, 1905, until August 15, 1905. It appeared that Mr. Vogt was appointed from the eligible list for Leveler on June 15, 1905, but that the Commission refused to certify his pay-roll when presented on July 1 for the reason that there were several persons in the department eligible for promotion to Leveler; that in August, however, a waiver was signed by all of the Rodmen in the department who were eligible for promotion, and Mr. Vogt was then appointed with the approval of the Commission; and President

Coler requested, in view of the fact that the said persons had since been examined for promotion, and that no injury was done to any of them by Mr. Vogt's appointment, that his pay-roll for the services rendered by him in June and July be certified. The request was granted.

A communication was presented from the Librarian of the Queens Borough Library, dated February 9, requesting that Miss Edith Potts be restored to eligibility for appointment as Junior Assistant Librarian from the list for Librarian. The Certification Clerk stated that Miss Potts had declined appointment as Junior Assistant Librarian from the said list on March 13, 1905, but that she was now willing to accept the same. The request was granted, and the Secretary was instructed to certify Miss Potts' name for appointment as Junior Assistant Librarian in the Queens Borough Library.

The reports of the following Boards of Examiners for positions in the non-competitive class were approved upon the recommendation of the Chief Examiner:

Department of Docks and Ferries, February 13.

Department of Public Charities, February 2.

A communication was presented from James Willoughby, No. 1735 Madison avenue, dated February 7, stating that he never received an "experience" blank in connection with his application for Patrolman in June, 1905, and requesting that he be furnished with one at this time. The Record Clerk stated that the experience blanks were mailed to all candidates promptly after the filing of their applications, and as the candidate's was not returned to this office, the same must have been received by him. The request was denied for laches.

The request of Joseph H. Wassmer, No. 3269 Hull avenue, Williamsbridge, under date of February 11, that he be restored to eligibility for appointment as Janitor-Engineer in the Borough of Brooklyn, was granted, it appearing that when the candidate declined appointment in Brooklyn on February 1 he was so situated that it was impossible for him to move to that borough, but at the present time he would be willing to do so.

An affidavit was presented from Mary S. Watson, No. 178 Sixth avenue, Brooklyn, to the effect that she never received a notice to appear with reference to an appointment to the position of Telephone Operator in the Board of Education, and requesting that her name be restored to the list for Telephone Operator. The Secretary stated that Miss Watson's name was dropped from the list on the statement of the Board of Education that she had failed to report in answer to a notice sent her. The request was granted.

The Commission then considered the affidavit of Irving Elson, No. 174 Avenue B, Manhattan, dated February 14, to the effect that he was born on July 30, 1881, together with a birth certificate to that effect. It appeared that the candidate had stated in his application for Patrolman that he was born on July 30, 1882, which error he stated was committed through a misunderstanding of the matter. The proof submitted by the candidate being satisfactory to the Commission, the Secretary was instructed to notify him to call and correct the date of birth in his application.

A communication was presented from Edwin Churchill, Jr., No. 333 State street, Brooklyn, candidate for Mechanical Draughtsman, requesting that the Commission waive the requirement that his vouchers certify that they had been personally acquainted with him for one year, owing to the fact that he has been a resident of this State for six months only, and that the persons who had vouched for him on his application had known him only that length of time. The request was granted and the application was accepted.

The Secretary then presented the affidavit of Michael Hannafin of No. 212 West Ninety-fifth street, dated February 8, whose papers in the examination for Prison Keeper had been rejected by the Chief Examiner for the reason that he (the candidate) wrote a letter with reference to his examination, giving his name and number. The affidavit set forth that the candidate neither wrote nor authorized the writing of a letter to the Civil Service Commission, but that the said letter was written by another person, one Cornelius C. Hannafin, whose affidavit he inclosed, with the request that his papers be rated. The request was denied.

A communication was presented from John T. Ryan, No. 987 East One Hundred and Fifty-sixth street, dated February 15, duly sworn to, to the effect that he was born on the 15th day of December, 1878, but that in the application filed on February 2, 1906, for Patrolman he made an error in stating that he was born on December 7, 1879. It appearing from the birth certificate furnished that the candidate was born on December 15, 1878, his application was accepted.

A communication was presented from Alexander Dolphin, Cedar Manor, Jamaica, requesting that he be restored to eligibility for appointment to the position of Stationary Engineman in the Borough of Manhattan. The request was granted on the candidate's statement that when he declined appointment on Blackwell's Island, on January 25, he was not aware of the fact that it would disqualify him for appointment in the entire Borough of Manhattan.

A communication was presented from George S. Gaylord, No. 29 Madison street, dated February 15, stating that his reason for declining appointment as Superintendent of Baths in the Bronx and Manhattan was illness, and requesting that he be restored to eligibility for appointment in those boroughs. The Secretary stated that the records of the office showed that Mr. Gaylord declined appointment in those boroughs on the score of "location." The request was denied.

A communication was presented from John J. Flushing, No. 424 Fifty-seventh street, Brooklyn, candidate for Patrolman, transmitting a certificate from the Board of Health showing that he was born on January 17, 1877. It appeared that the candidate stated in his application that he was born on January 12, 1878. The proof submitted by the candidate being satisfactory to the Commission, the Secretary was instructed to communicate with him and direct him to call at the office and correct the date of birth set forth in his application.

A communication was presented from John Joseph Mooney, No. 63 Utica avenue, Brooklyn, dated February 5, requesting that the papers submitted by him in the examination for Prison Keeper be rated. It appeared that his papers were rejected by the Chief Examiner for the reason that he revealed his identity by signing "Jos. Mooney" to a report that he was required to write in the course of the examination. The request was denied.

A communication was presented from William H. Keyes, No. 203 West One Hundred and Eleventh street, dated February 19, to the effect that he is a veteran of the Civil War and, therefore, should not be laid off by the President of the Borough of The Bronx while other inspectors of regulating, grading and paving were retained. The Secretary stated that Mr. Keyes had called upon him and that he had explained the matter to him to his satisfaction. The communication was ordered filed.

A communication was presented from F. A. Acer, Esq., attorney for The People's Security Company, dated February 16, calling the attention of the Commission to an alleged violation of the Civil Service Law in the Bureau of Highways, Borough of The Bronx, in the "laying off for three days of each week" of George A. Van Horn, Steam Engineman, on the ground that a non-veteran was employed in his place at such times, while he, Mr. Van Horn, is a veteran volunteer fireman. The Secretary was instructed to communicate with Mr. Acer and state that there was no violation of the law, according to the latest decisions of the Courts in the matter.

The request of Hugh J. Canty, No. 103 North Seventh street, Brooklyn, dated February 14, that his name be restored to the eligible list for Stenographer and Typewriter, was denied, for the reason that he declined appointment in his own borough on July 8 last, on the score of "location."

The Commission next considered the affidavit of Morris Verstaendig, of No. 164 Delancey street, Manhattan, candidate for Driver in the Department of Street Cleaning, that he be permitted to correct the spelling of his name on his application to correspond with that on his citizenship papers. It appeared that the candidate is unable to write, and that he had his application filled out by another person, who mis-spelled his name. The request was granted upon the recommendation of the Labor Clerk.

The request of James P. Martin of No. 3132 Broadway, dated February 20, that his name be restored to the eligible list for Stenographer and Typewriter, was granted upon his statement that his "inability to accept an appointment on January 24, 1906, in the office of the President of the Borough of Brooklyn, was due to the fact that he was engaged upon the tabulation of the roster of the civil service in the Commission's office."

The Commission then adjourned to meet on Wednesday, February 28, 1906, at 10 o'clock.

F. A. SPENCER, Secretary.

4th. Reports and certificates on overcrowding in the following tenement houses.  
On motion, the following preamble and resolution were adopted:  
Whereas, The Sanitary Superintendent has certified to this Board that the following apartments in tenement houses in The City of New York are so overcrowded that less than four hundred cubic feet of air space is afforded to each occupant in the said houses:

It is ordered that the number of occupants in said apartments be and is hereby reduced as follows:

No. 6. North side of Gun Hill road, third house east of Perry avenue, first floor, Alfonso Scarraro, 5 adults, 1 child.

No. 7. North side of Gun Hill road, third house east of Perry avenue, second floor, Camilla Fortunall, 5 adults, 2 children.

5th. Certificates in respect to the vacation of premises at No. 704 Henry street, No. 283 Tillary street, Borough of Brooklyn.

On motion, the following preamble and resolution were adopted:

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 704 Henry street, in the Borough of Brooklyn, has become dangerous to life and is unfit for human habitation because of defects in the draining thereof, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants;

Ordered, That all persons in said building situated on lot No. 704 Henry street, in the Borough of Brooklyn, be required to vacate said building on or before January 6, 1906, for the reason that said building is dangerous to life, and is unfit for human

habitation because of defects in the drainage thereof, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 283 Tillary street, in the Borough of Brooklyn, has become dangerous to life and is unfit for human habitation because of defects in the draining thereof, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants;

Ordered, That all persons in said building situated on lot No. 283 Tillary street, in the Borough of Brooklyn, be required to vacate said building on or before January 6, 1906, for the reason that said building is dangerous to life, and is unfit for human habitation because of defects in the drainage thereof, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

6th. Report on compliance with certain orders to vacate premises, etc.

On motion, it was

Resolved, That the following orders be and are hereby rescinded for the reason that the causes for the same have been removed:

## Vacations.

## BOROUGH OF MANHATTAN.

4174. Rear of No. 8738 Bay Twenty-first street, or Nineteenth avenue (Lot No. 12, Block 804, Ward 30).

7th. Certificates declaring premises at Eighty-fifth street, between Thirteenth and Fourteenth avenues; northeast corner of Ovington and Sixth avenues; Ninetieth street and Gatling place; Pellington place, between Bushwick avenue and Highland Boulevard; northwest corner St. Edwards and Tillary streets, Borough of Brooklyn; corner of Woodward avenue and Stanhope street, Germania Heights; corner Covert avenue and Himrod street, Ridgewood Heights; Rockaway road, near Beaver street, Jamaica; No. 570 Jackson avenue, Long Island City; No. 570 Jackson avenue, Long Island City; No. 393 Willow street, Ridgewood; No. 307 Woodward avenue, Ridgewood; west side Cedar lane, south of pipe line, Woodhaven.

On motion, the following orders were entered:

Whereas, The premises, Eighty-fifth street, between Thirteenth and Fourteenth avenues, Borough of Brooklyn, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance, dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable be discontinued.

Whereas, The premises, northeast corner of Ovington and Sixth avenues, Borough of Brooklyn, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance, dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable be discontinued.

Whereas, The premises, Ninetieth street and Gatling place, Borough of Brooklyn, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance, dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable be discontinued.

Whereas, The premises, Pellington place, between Bushwick avenue and Highland Boulevard, Borough of Brooklyn, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance, dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the manure vault be cleaned and disinfected, and all manure removed therefrom, and its use discontinued; that hereafter all manure be kept inside the stable, and removed from the premises daily, unless pressed in bales, barrels or boxes, so as to reduce it to not more than one-third the original bulk; that the stable floor be made water tight and that the horse stalls be provided with a valley drain, properly trapped and connected with a sewer-connected drain.

Whereas, The premises, northwest corner St. Edwards and Tillary streets, Borough of Brooklyn, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance, dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that all manure be removed from the lot and the lot be thoroughly cleaned; that hereafter all manure be kept inside the stables and removed from the premises daily, unless pressed in bales, barrels or boxes, so as to reduce it to not more than one-third the original bulk. That the floors of stables be made water tight and that the horse stalls be provided with a valley drain, properly trapped and connected with a sewer-connected drain.

Whereas, The premises corner Woodward avenue and Stanhope street, Germania Heights, Borough of Queens, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said

premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the walls and ceiling of the stable be cleaned and whitewashed; that the defective wooden floors of the stalls and stables and the saturated earth beneath same be removed, the site cleaned and disinfected, and that the floor of the stalls be made water tight and so graded as to discharge all liquid matter into a water-tight, properly trapped sewer-connected valley drain; that the manure box thereat be provided with a tight-fitting cover; that a properly constructed milk house, having no connection with stable or dwelling, be provided thereat; said house to have a water-tight floor, and that no milk be cooled or handled except in the aforesaid house; that the number of cows in the small stable be reduced to two and in the large stable to eleven, or that 600 cubic feet of air space be provided for each cow; that the keeping of cows thereat without a permit from this Department be discontinued forthwith.

Whereas, The premises corner Covert avenue and Himrod street, Ridgewood Heights, Borough of Queens, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the walls and ceiling of the stable be cleaned and whitewashed; that the manure box thereat be provided with a tight-fitting cover; that a properly constructed milk house, having no connection with stable or dwelling, be provided thereat; said house to have a water-tight floor, and that no milk be cooled or handled except in the aforesaid house.

Whereas, The premises Rockaway road, near Beaver street, Jamaica, Borough of Queens, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the keeping of cows thereat without a permit from this Department be discontinued forthwith; that the walls and ceiling of the stable and milk house be cleaned and whitewashed; that the milk house thereat be sufficiently ventilated to the external air.

Whereas, The premises No. 570 Jackson avenue, Long Island City, Borough of Queens, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the keeping of cows without a permit from this Department be discontinued forthwith; that the walls and ceiling of the stable be cleaned and whitewashed; that the number of cows stabled thereat be reduced to seven (7), or that 600 cubic feet of air space be provided for each cow; that the stable floor be properly drained to the sewer by and through an earthen or iron pipe.

Whereas, The premises No. 570 Jackson avenue, Long Island City, Borough of Queens, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the boiling of swill thereat without a permit from this Department be discontinued forthwith; that the walls and ceiling of the stables be cleaned and whitewashed; that the defective wooden floors of the stalls and stables and the saturated earth beneath same be removed, the site cleaned and disinfected, and that the floors of the stalls be made water tight and so graded as to discharge all liquid matter into a water-tight, properly trapped, sewer-connected valley drain.

Whereas, The premises No. 393 Willow street, Ridgewood, Borough of Queens, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the keeping of cows thereat and the selling of milk without a permit from this Department be discontinued; that the walls and ceiling of the stable be cleaned and whitewashed; that the defective wooden floors of the cow stalls and stable and the saturated earth beneath same be removed, the site cleaned and disinfected, and that the floor of the stalls be made water-tight and so graded as to discharge all liquid matter into a water-tight, cesspool-connected valley drain; that the manure box thereat be made water-tight and provided with a tight-fitting cover; that a properly constructed milk house, having no connection with stable or dwelling, be provided thereat; said house to have a water-tight floor, and that no milk be handled or stored except in the aforesaid house.

Whereas, The premises No. 307 Woodward avenue, Ridgewood, Borough of Queens, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced

with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the keeping of cows without a permit from this Department be discontinued forthwith; that the defective wooden floors of the valley drains of the cow stable thereat and the saturated earth beneath same be removed, the site cleaned and disinfected, and that the floors of the cow stalls be drained into a water-tight, cesspool-connected valley drain by and through an earthen or iron pipe; that the ground about the horse stable thereat be cleaned of all manure, and that the manure boxes thereat be provided with tight-fitting covers; that a properly constructed milk house, having no connection with stable or dwelling, be provided thereat; said house to be dust-proof and to have a water-tight floor.

Whereas, The premises west side Cedar lane, south of pipe line, Woodhaven, Borough of Queens, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

## BOROUGH OF RICHMOND.

Dr. H. W. Patterson, December 3 to 19, 1905.

A copy of a resolution adopted by the Board of Aldermen December 19, 1905, and approved by his Honor the Mayor December 27, 1905, approving of and concurring in a resolution adopted by the Board of Estimate and Apportionment May 12, 1905, approving of the selection by the Commissioner of the Department of Health of a site for an office building, clinic and stable, in the Borough of Brooklyn, for the use of the Department of Health, and authorizing the Corporation Counsel to institute condemnation proceedings for the acquisition of the property, was received and ordered on file.

The trial balance and statement as per ledger of the Department of Health for the month ending December 31, 1905, was received, and the Secretary was directed to forward a copy of the same to the Commissioners of Accounts.

On recommendation of the President, the following preambles and resolutions were adopted:

Whereas, The Board of Estimate and Apportionment did, at its meeting held July 15, 1904, appropriate the sum of \$10,000 for the purpose of defraying the expenses of a Medical Commission to be appointed by the Board of Health for the purpose of investigating the causes of acute respiratory diseases, and to suggest to the said Board of Health the remedies to be applied for their prevention; and

Whereas, The Board of Health, in accordance with the terms of the resolution adopted by the Board of Estimate and Apportionment, did appoint a Commission of eminent physicians and bacteriologists from various parts of this country, whose in-

vestigations and experience especially fitted them to be of particular service for the work in question; and

Whereas, The work of this Medical Commission is not as yet completed, and the funds appropriated for the purpose have become exhausted; be it

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of chapter 535 of the Laws of 1893, and section 170 of the Charter of The City of New York, be and is hereby respectfully requested to appropriate the sum of ten thousand dollars (\$10,000) to enable the Medical Commission appointed by the Board of Health for the purpose of investigating the causes of acute respiratory diseases and suggesting remedies to the said Board of Health to be applied for their prevention, to continue the work of the investigations in this line carried on by said Commission during the years 1904 and 1905.

On recommendation of the President, the following preambles and resolution were adopted:

Whereas, The Board of Estimate and Apportionment did, at its meeting held March 16, 1905, appropriate the sum of five thousand dollars (\$5,000) for the purpose of defraying the necessary expenses of a Medical Commission, to be composed of eminent physicians and bacteriologists appointed by the Board of Health, to investigate the causes of the communicable disease known as epidemic cerebro-spinal meningitis, and to suggest remedies to be applied for the prevention thereof, and for the payment of Medical Inspectors and Bacteriologists to be employed in connection with the investigation in question; and

Whereas, The Board of Health, in accordance with the terms of the resolution adopted by the Board of Estimate and Apportionment, did appoint a Commission of eminent physicians and bacteriologists, whose investigations and experience especially fitted them to be of particular service for the work in question; and

Whereas, The work of this Medical Commission is not as yet completed, and the funds appropriated for the purpose have become exhausted; be it

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of chapter 535 of the Laws of 1893, and section 170 of the Charter of The City of New York, be and is hereby respectfully requested to authorize the Comptroller to issue Revenue Bonds of The City of New York to the amount of five thousand dollars (\$5,000), the proceeds whereof to be applied to continue the work of the Medical Commission appointed by the Board of Health to investigate the causes of the communicable disease known as epidemic cerebro-spinal meningitis, and to suggest to the said Board of Health remedies to be applied for the prevention thereof, and for the payment of the salaries of Medical Inspectors and Bacteriologists to be employed in connection with the investigation in question.

On recommendation of the President, the following preamble and resolution were adopted:

Whereas, It appears that in the appropriation of the Department of Health for the year 1906, the Board of Estimate and Apportionment made no provision for the maintenance of the clinic for the treatment of communicable pulmonary diseases, adjoining the building occupied by the Department of Health at the southwest corner of Fifty-fifth street and Sixth avenue, Borough of Manhattan, and by reason of the large increase in the number of persons affected with tuberculosis who daily visit said clinic, the money at the disposal of the Department for the support of this institution has become exhausted; be it

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of chapter 535 of the Laws of 1893, and of section 170 of the Charter of The City of New York, is respectfully requested to authorize the Comptroller to issue Revenue Bonds of The City of New York to the amount of fifteen thousand dollars (\$15,000) for defraying the necessary expenses required to be incurred by the Board of Health during the year 1906 for the preservation of the public health in conducting and maintaining a clinic for the treatment of communicable pulmonary diseases, including the purchase of all necessary supplies, apparatus, drugs, etc., and for the payment of salaries of Nurses, Orderlies and others employed in said clinic.

On recommendation of the President, the following preamble and resolution were adopted:

Whereas, The manufacture of diphtheria and other antitoxins for sale to parties, non-residents of The City of New York, and for free distribution to parties resident in The City of New York, who may be affected with diphtheria, having increased to such an extent that the Board of Health finds itself without sufficient funds to continue such manufacture and distribution in quantities large enough to supply the demands; it is

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of chapter 535 of the Laws of 1893, and of section 170 of the Charter of The City of New York, be and is hereby respectfully requested to authorize the Comptroller to issue Revenue Bonds of The City of New York to the amount of thirty-five thousand dollars (\$35,000), the proceeds whereof to be applied to defraying the necessary expenses required to be incurred by the Board of Health of the Department of Health of The City of New York for the preservation of the public health in providing means for the care and prevention of diphtheria and other contagious diseases in The City of New York and for the payment of salaries of Medical Inspectors and Nurses employed in treating persons ill with diphtheria.

By request of the Acting Chief Engineer, the Committee of Finance and Audit was directed to return to him Report No. 1389, dated December 22, 1905, in regard to bill of Baltimore Bridge Company, dated November 9, 1905, for \$275.55 for extra expense incurred on account of delay in constructing bridge over spillway of New Croton Dam, and Report No. 1384, dated December 11, 1905, in regard to bills of Edward O'Mealy, dated July 3 and 29, 1905, for \$998.20, for repairs to Janitor's headquarters, Jerome Park Reservoir.

The following resolution was offered:

Resolved, That Walter H. Sears, Acting Chief Engineer, be and hereby is appointed Chief Engineer, with salary at the rate of \$10,000 per annum, to take effect January 9, 1906.

Adopted by the following vote:

The Comptroller, Commissioners Cowan, Ten Eyck, Ryan and Windolph—5.

The Commissioners then adjourned.

HARRY W. WALKER, Secretary.

On January 16, 1906, the Commissioners stood adjourned.

#### DEPARTMENT OF FINANCE.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

**AT THE REQUEST OF THE DEPARTMENT** of Docks and Ferries, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for the new marginal street in the

#### Borough of Manhattan.

All the right, title and interest of The City of New York in and to the buildings thereunto belonging acquired for the Department of Docks and Ferries, in the Borough of Manhattan, and erected upon land described as follows:

The four-story brick building at the north-easterly corner of Eleventh avenue and West Twentieth street, having a frontage on Eleventh avenue of about 100 feet and on West Twentieth street of about 75 feet.

By direction of the Comptroller the sale of the above-described building will be made under the supervision of the Collector of City Revenue on

FRIDAY, APRIL 6, 1906,

at 11 a. m. on the premises, and will be sold for the highest marketable price at public auction on the following

#### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beam-holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

H. A. METZ,  
 Comptroller.

#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

AT THE REQUEST OF THE PRESIDENT of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for street purposes in the

##### Borough of Brooklyn.

All of the buildings, parts of buildings, etc., standing within the lines of property acquired for the widening of Roebling street, from the Bridge Plaza at South Fourth street to Union avenue, in the Borough of Brooklyn. A map showing the property to be sold is filed in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan, and bidders should acquaint themselves with the extent and portions of the buildings to be sold and owned by the City.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue. The sale will take place on

FRIDAY, APRIL 20, 1906,

at 11 a. m. on the premises, and will be sold for the highest marketable price at public auction on the following

##### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chins, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to

exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of the City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO, OF CITY REAL ESTATE.

AT THE REQUEST OF THE PRESIDENT of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for street purposes, in the BOROUGH OF BROOKLYN.

All of the buildings, parts of buildings, etc., standing within the lines of property acquired for the extension of Grand street, from the intersection of Havemeyer street and South Fourth street to Hooper street, in the Borough of Brooklyn.

A map showing the property to be sold is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan, and bidders should acquaint themselves with the extent and portions of the buildings to be sold and owned by the City.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue. The sale will take place on

TUESDAY, APRIL 17, 1906,

at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction on the following

#### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb; and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted, and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

#### COLLEGE OF THE CITY OF NEW YORK.

BOARD OF TRUSTEES OF THE COLLEGE OF THE CITY OF NEW YORK.

PROPOSALS FOR BIDS OR ESTIMATES FOR SUPPLIES.

SEALED BIDS OR ESTIMATES WILL BE received by the Chairman of the Board of Trustees of the College of The City of New York at the office of the Board, No. 17 Lenox

ington avenue, in The City of New York, until 12 o'clock noon on

THURSDAY, MARCH 29, 1906.

FOR FURNISHING AND DELIVERING CHEMICAL SUPPLIES, MATERIALS AND APPARATUS FOR THE DEPARTMENT OF PHYSICS OF THE COLLEGE OF THE CITY OF NEW YORK.

The time for the delivery of the articles, materials and supplies and the performance of the contract is between the 1st and 30th days of June, 1906, or thereafter from time to time as may be directed by the Professor of Physics not later than December 31, 1906.

The amount of security will be fifty per cent. (50%) of the amount of the bid or estimate.

For particulars as to the quantity and quality of the supplies or the nature and the extent of the work required or of the materials to be furnished, bidders are referred to the specifications and the blank proposals and lists of articles, materials, supplies and apparatus to be furnished and delivered to the places designated. Such work and materials must conform in every respect to the specifications and schedules. The quality of the articles, supplies, goods, wares and merchandise must conform to and must be the same or equal in quality, character, finish and design to the samples furnished, or to those described by the names of well-known dealers and manufacturers, and referred to by catalogue numbers. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates, and are cautioned against referring to any samples or specifications other than those furnished by the Board of Trustees. Such references are cause for rejecting bids whereon they are written, and will in no case govern the action of the Board of Trustees in passing upon tenders. Bidders must state the price of each item. Awards will be made to the lowest bidder on each item whose goods are the same or equal to the samples furnished for inspection or referred to by catalogue number.

Bidders shall describe the various items by reference to the particular maker's catalogue or circular, or by the submission of a sample. Only one bid will be received from a bidder for each item.

Samples will be on exhibition at the College of The City of New York, No. 17 Lexington avenue, Room 15, until the bids are opened.

All goods must be delivered as directed, in the original bottles or packages, at the Department of Physics, the College of The City of New York, One Hundred and Fortieth street and Convent avenue, Borough of Manhattan (unless otherwise stated in the specifications). The weight, measure, etc., will be allowed as received at the institution.

No charge will be allowed for freight expenses, boxes or cartage, but boxes may be taken away by the contractor.

Contractors who fail to make prompt deliveries will be considered as in default and debarred from bidding in the future.

Bidders are requested to make their bids or estimates upon the blank form prepared by the said Board of Trustees, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon written application therefor at the office of the College of The City of New York, and any further information can be obtained at the office of the said college, corner of Lexington avenue and Twenty-third street, Borough of Manhattan.

EDWARD M. SHEPARD.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to close and discontinue portions of Thames and Temple streets; to lay out a new street to be called Thames street, from Broadway to Trinity place, and to widen Cedar street, on the southerly side, from Broadway to Trinity place, in the Borough of Manhattan, and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on March 23, 1906, at 10.30 o'clock a. m., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on March 2, 1906, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by closing and discontinuing portions of Thames and Temple streets; to lay out a new street to be called Thames street, from Broadway to Trinity place, and to widen Cedar street, on the southerly side, from Broadway to Trinity place, in the Borough of Manhattan, and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on March 23, 1906, at 10.30 o'clock a. m., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on March 2, 1906, notice of the adoption of which is hereby given, viz.:

The laying out of a new street, to be called Thames street, from Broadway to Trinity place.

The widening of Cedar street on the southerly side, from Broadway to Trinity place, in the First Ward of the Borough of Manhattan, City of New York.

**Closing and Discontinuing of Parts of Thames and Temple Streets.**

Beginning at a point in the westerly line of Broadway distant 431.60 feet northerly from Rector street; thence westerly, distance 264.42 feet to the easterly line of Trinity place at a point distant 468.28 feet northerly from Rector street; thence northerly along said easterly line of Trinity place, distance 21.54 feet; thence easterly and parallel, or nearly so, to first course, distance 95.58 feet to the westerly line of Temple street; thence northerly along said westerly line, distance 97.36 feet to a point near the present Cedar street; thence easterly and across the present Temple street, distance 25.01 feet; thence southerly and parallel to last course but one, distance 97.35 feet to the northerly line of Thames street; thence easterly and along the old line of said street, distance 145.69 feet to the westerly line of Broadway; thence southerly along said westerly line, distance 21.51 feet to the point or place of beginning.

**The Laying Out of a New Street to Be Called Thames Street, from Broadway to Trinity Place.**

Beginning at a point in the westerly line of Broadway distant 459.10 feet northerly from Rector street; thence westerly 266.78 feet to the easterly line of Trinity place at a point distant 496 feet from Rector street; thence northerly along the easterly line of Trinity place, distance 30.31 feet; thence easterly and parallel to first course, distance 269.60 feet to the westerly line of Broadway; thence southerly along said line, distance 30.26 feet to the point or place of beginning.

**The Widening of Cedar Street on the Southerly Side, from Broadway to Trinity Place.**

Beginning at a point in the westerly line of Broadway distant 553.17 feet northerly from Rector street; thence westerly along the old line of Cedar street, distance 150.92 feet to the easterly line of Temple street; thence southerly along said line, distance 4.02 feet; thence easterly, distance 150.73 feet to the westerly line of Broadway; thence northerly along said westerly line, distance 2.76 feet to the point or place of beginning.

Also, beginning at a point in the easterly line of Trinity place distant 590.23 feet northerly from Rector street; thence easterly along the old line of Cedar street, distance 99.67 feet to the westerly line of Temple street; thence southerly along said line, distance 3.43 feet; thence westerly, distance 99.57 feet to the easterly line of

Trinity place; thence northerly along said line, distance 2.81 feet, to the point or place of beginning.

Said street to be found in Section 1, Blocks 49 and 50 of the Land Map of the Borough of Manhattan, City of New York.

The following is a more particular description of the said proposed changes of the map of The City of New York, and as to the new Thames street to be laid out and Cedar street to be widened, by reference to a certain mark or cut in the building at the northwesterly corner of Broadway and Cedar street hereinafter mentioned, namely:

**Closing Thames Street, Between Broadway and Trinity Place or Church Street.**

Beginning at the intersection of the southerly side of Thames street with the westerly side of Broadway, and running thence westerly, along the southerly side of Thames street, 264.42 feet, to the easterly side of Church street or Trinity place; thence northerly, along the easterly side of Church street or Trinity place, 21.54 feet, to the northerly side of Thames street; thence easterly, along the northerly side of Thames street, 266.28 feet, to the westerly side of Broadway, and thence southerly, along the westerly side of Broadway, 21.51 feet to the place of beginning.

**Closing Portions of Temple Street, Between Thames Street and Cedar Street.**

First Parcel—Parcel between Thames street and south line of a proposed new street.

Beginning at the northwesterly corner of Thames and Temple streets, which corner is distant 95.58 feet easterly from the easterly side of Trinity place or Church street, measured along the north side of Thames street, and running thence northerly, along the westerly side of Temple street, 6.09 feet, to the southerly side of a new street to be laid out between Broadway and Trinity place or Church street; running thence easterly, along the southerly side of said new street, 25.01 feet, to the easterly side of Temple street; running thence southerly, along the easterly side of Temple street, 6.08 feet, to the northerly side of Thames street, and running thence westerly, along the northerly side of Thames street, 25.01 feet, to the place of beginning.

Second Parcel—Parcel between north line of a proposed new street and new south line of Cedar street.

Beginning at the intersection of the northerly side of a new street to be laid out between Broadway and Trinity place or Church street with the easterly side of Temple street, and running thence northerly, along the easterly side of Temple street, 61.01 feet, to the southerly side of Cedar street, as proposed to be widened; thence westerly, along the said southerly side of Cedar street, 25.01 feet, to the westerly side of Temple street; thence southerly, along the westerly side of Temple street, 61.01 feet, to the northerly side of said new street, and thence easterly, along the northerly side of said new street, 25.01 feet, to the place of beginning.

**New Street to Be Laid Out Between Broadway and Trinity Place or Church Street.**

Beginning at the westerly side of Broadway, 61.05 feet south of the southerly side of Cedar street, as proposed to be widened, measured along the westerly side of Broadway, and running thence westerly, along a straight line forming an angle on its northerly side with the westerly side of Broadway of 91 degrees 39 minutes and 45 seconds, 269.00 feet, to the easterly side of Trinity place or Church street, at a point 61.11 feet south of the said southerly side of Cedar street, as proposed to be widened, measured along the easterly side of Trinity place; thence southerly, along the easterly side of Trinity place, 30.31 feet; thence easterly, along a line parallel with the first course, and at every point 30.25 feet southerly therefrom, measured at right angles to said first course, 266.78 feet, to the westerly side of Broadway, and thence northerly, along the westerly side of Broadway, 30.26 feet, to the point of beginning.

**Widening Cedar Street on the South Side, Between Broadway and Trinity Place or Church Street.**

Beginning at the intersection of the westerly side of Broadway and the southerly side of Cedar street, and running thence southerly along the westerly side of Broadway 2.76 feet; thence westerly along a straight line 275.31 feet to a point on the easterly side of Trinity place or Church street 2.81 feet south of the intersection of the southerly side of Cedar street and the easterly side of Trinity place or Church street; thence northerly along the easterly side of Trinity place or Church street 2.81 feet to the southerly side of Cedar street, and thence easterly along the southerly side of Cedar street as it runs 275.60 feet, more or less, to the place of beginning.

The southern boundary line of the parcel above described is for greater certainty monumented and located by reference to the buildings on the north side of Cedar street as follows: If said southerly line be prolonged both ways this line will be 37.11 feet southerly, measured on a line perpendicular to said line from the centre of a cut in the shape of a T on the upper easterly face of the stone base of the building at the northwesterly corner of Cedar street and Broadway, a few inches above the sidewalk level, and 30.08 feet southerly, measured on a line perpendicular to the said line from the corner of the stone base at the sidewalk level of the building at the northeast corner of Cedar street and Trinity place or Church street.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 23d day of March, 1906, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to the 23d day of March, 1906.

## SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening NINETY-SIXTH STREET, from Third avenue to the Shore road, in the Thirtieth Ward, in the Borough of Brooklyn, of The City of New York, as the same has been heretofore laid out.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our amended and supplemental estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office in the office of the Law Department, No. 166 Montague street, in the Borough of Brooklyn, in the City of New York, on or before the 24th day of March, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 26th day of March, 1906, at 2 o'clock p. m.

Second—That the abstract of our said amended and supplemental estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings of the Law Department of The City of New York in the Borough of Brooklyn, No. 166 Montague street, in the Borough of Brooklyn in the City of New York, there to remain until the 4th day of April, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in the City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at a point on the westerly side of Third avenue, where the same is intersected by a line drawn parallel with the southerly side of Ninety-sixth street and distant 100 feet southerly therefrom; running thence westerly and parallel with Ninety-sixth street to the easterly side of Marine avenue; running thence northerly and along the easterly side of Marine avenue to its intersection with a line drawn parallel with the northerly side of Ninety-sixth street and distant 100 feet northerly therefrom; running thence easterly along said parallel line to the westerly side of Third avenue; running thence southerly and along the westerly side of Third avenue to the point or place of beginning.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in the City of New York, on the 18th day of June, 1906, at the opening of the Court on that day.

Dated BOROUGH OF BROOKLYN, THE CITY OF NEW YORK, March 5, 1906.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICE TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
