WARRANTS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE SATURDAY, JULY 18, 1914.

Below is a statement of warrants made ready for payment on the above date, showing therein the Department of Finance voucher number, the dates of the invoices or the registered number of the contract, the date the voucher was filed in the Department of Finance, the name of the payee and the amount of the warrant.

Where two or more bills are embraced in the warrant, the dates of the earliest and latest are given, excepting that when such payments are made under a contract, the registered number of the contract is shown in the place of the second invoice date.

Where the word "final" is shown after the name of the payee, payment will not be made until thirty days after the completion and acceptance of the work, but all of the other warrants mentioned will be forwarded through the mail unless some reason exists why payment is to be made in person, in which event written notice will be promptly given to the claimant.

A statement is herewith submitted of all vouchers filed in the Department of Finance on this date, in which is shown the Department of Finance voucher number, the date of the invoices or the registered number of the contract, the name of the payee and the amount of the claim. DEPARTMENT OF HEALTH.

REPORT FOR THE WEEK ENDING JULY 11, 1914.

DOES NEW JERSEY WELCOME ITS NEW INDUSTRY?

Since the enactment of the Boylan anti-narcotic law, New York has ceased to be a center for the sale of narcotic drugs. What New York has lost has apparently been gained by neighboring States.

The Health Department is in receipt of a communication from the Health Officer

of Savannah, Georgia, enclosing a letter from a New York physician to a Savannah correspondent, which in part reads as follows:

"July 3rd, 1914.

"Dear Sir—Your order received and will state that under the new law that went into effect July first it will be impossible to fill your prescriptions in New York State. I have, therefore, arranged to have your prescription filled at Red Bank, N. J.

"Kindly send all future orders to Dr. ———, Red Bank, N. J., who will give you the same treatment you have been receiving in the past. I will be in Red Bank myself and will see that your orders are properly compounded.

"—————, M. D."

The writer of this communication is a graduate of New York University, licensed to practice medicine in this State. He is not a member of the County Medical Society. This letter indicates that he is engaged in the reprehensible practice of distributing "dope" to unfortunates in distant States, and that he is seeking to avoid any nearer acquaintance with the New York police force. What does New Jersey think of him, and of his Red Bank associate?

STIMULATING OTHERS TO EMULATE.

In order to extend the influence of the Greater New York Baby Week, the New York Milk Committee is sending a post card to Health officers all over the country, telling how this City recently advertised for Better Babies.

"Are You Satisfied With the Infant Death Rate in Your City?"

"New York wasn't, although within seven years she has cut her infant death rate down over thirty per cent., and is actually a safer city for babies to be born in than any other of the ten largest cities of the country. Last year her rate per thousand births was 101.9. But New York realized that no city with an infant death rate around the hundred mark can afford to be satisfied. She realized that although she had learned how to save babies, she wasn't saving all the babies that it was possible to save, nor reaching all the mothers who needed to be taught. She realized that unless immediate steps were taken she would lose 3,500 baby lives within the next three months, and suffer an economic loss before the year was over of \$40,000,000. Two mighty allies needed to be enlisted: the business men who could give enough financial support to extend the work, and the mothers of the City, who in the last analysis must do the work. Traditional methods of appeal were becoming outworn, they weren't big enough for the really big business in hand. Wholesale methods were needed on a wholesale scale. New York determined to advertise for her babies!

"And so came the GREATER NEW YORK BABY WEEK, which applied all the approved and up-to-date methods of advertising to the business of spreading abroad throughout the City what was being done and what was needed to be done to save babies. The slogan adopted was 'Better Babies, Better Mothers, Better City.' And it 'took.' Newspapers, billboards, car ads., window posters, movies, a baby parade, a 'Better Mothers' contest, exercises in all public schools and parks, the distribution of 2,000,000 pieces of educational literature, department store ads., tags on milk bottles, all made sure that it 'took.' Thousands of business men fell in line who had never helped before, thousands of mothers got the message for the first time, and new support was gained in hitherto neglected parts of town. Indeed so great was the response and so big was the impetus given the movement that it seems likely that every week hereafter in New York will be a Better Baby Week.

"What Is Your City Doing to Advertise 'Better Babies?'"

THE HOUSEWIFE'S ORGANOLEPTIC TEST FOR CHOPPED MEAT INADEQUATE.

In an interesting study published in the American Journal of Public Health, Weinzierl and Newton, of the University of Washington, describe the results of an investigation to determine the sanitary quality of chopped meat as ordinarily sold in butcher stores. These investigators find that the organoleptic test, applied daily by almost every housewife throughout the land, and consisting in testing by the senses of sight, smell, feeling and perhaps taste, is too liberal, for the meat is actually putrid and teeming with millions of bacteria per gram before this test recognizes the condition. All the samples taken in summer showed upward of 100,000,000 bacteria per gram, while all those taken in winter were below this figure. The authors suggest that 10,000,000 bacteria per gram might be fixed as a proper limit, and express their belief that chopped meat made from wholesome meat in the first place, prepared with clean utensils and kept properly iced, can readily be held within that limit.

While agreeing with the authors in their conclusions we cannot help wondering

why anyone should buy meat already chopped when a pure product is so easily prepared at home.

SYPHILITIC INFECTION THROUGH EATING AND DRINKING UTENSILS, AND THROUGH COMMON TOWELS.

Important, because of its relation to syphilitic infection of the innocent, is the recent study by Zinsser and Hopkins of the viability of the syphilis organism, *spirochaeta pallida*, in diffuse light at room temperature. The results obtained bear directly on the question of danger from common drinking and eating utensils and from common roller towels, and afford abundant scientific support for the ban put upon these articles by health authorities.

Bits of towel, moistened with a culture of syphilis organisms and kept exposed to daylight at room temperature, were examined from hour to hour, and found to be still infective at the end of eleven and a half hours; even when allowed to evaporate on glass slides, infectivity could still be demonstrated at the end of an hour, provided the film still appeared slightly moist. The conditions here provided are probably often enough present in nature; in fact there is reason to believe that natural conditions are often much less severe; certainly it would seem that organisms deposited fresh from a patient might often be more thoroughly protected because of the slow drying of the mucous discharges in which they are contained.

A CAMPAIGN FOR LODGING HOUSE SANITATION.

On March 19, 1914, the following note was sent by the Commissioner of Health to the Sanitary Bureau:

"The Department has not been active enough in enforcing the sanitation of lodging houses. If possible, detail a second Inspector to this work and cover the whole city systematically before the end of the Spring. Issue peremptory orders to lodging house keepers who are not conforming to the rules and regulations of the Department and follow these up with reinspections, and then, if necessary, prosecute. Upon completion of this campaign, prepare a statement showing what has been done and what results have been obtained."

The work has been vigorously prosecuted, and the following report is now presented in order to show the sanitary improvement effected.

Manhattan.

There are in the Borough of Manhattan 104 lodging houses operating under permits which allow a total of 16,462 lodgers. During this campaign 2,034 inspections were made, 1,023 at various hours of the day by Sanitary Inspectors, and 1,011 after half past ten at night by Patrolmen of the Health Squad. The result of their inspections is shown in the following table:

Inspections	2,034
Reported no cause for action	1,026
Nuisance abated by personal effort	224
For notice to be issued	144
Special inspections on applications for permits	26
Reinspections on notices	614

As indicated in the summary, 144 notices had to be issued. These referred to nuisances caused by unclean urinals, water closets, cuspidors, bedding, walls, ceilings and floors, and defective wash-basins and baths. In only five of these 144 cases was it found necessary to issue summonses to court, and in these the nuisances were abated before the cases were called in court.

The Patrolmen of the Health Squad issued 12 summonses; 3 for violation of the law regarding common drinking cups and 9 for violation of the law regarding common towels; in ten cases fines were imposed and in two cases sentence was suspended.

The following table itemizes the various violations found:

Rules or permit not posted	32
Common towel in use	27
Common cup in use	12
Cuspidors unclean	117
Waterclosets and urinals unclean	76
Inadequate water supply	55
Overcrowding	17
Smoke (chimney)	2
Unclean bedding	62
Defective wash basins and baths	81
General defects	42
Unclean walls	17
Unclean floors	6

Total

As a result of this campaign, the proprietors of lodging houses are now complying with the rules and regulations of the Department of Health in a more satisfactory manner and on recent inspections only a very few violations (and these of a minor character) could be found.

In the early part of April an investigation of the Manhattan lodging houses was begun to ascertain:

- (1) How often the baths were used by the lodgers.
- (2) What proportion of the lodgers were cleanly.
- (3) About how many had the itch, head lice or bedbug bites.

The Department has in its possession a chart giving the answers to these questions for each lodging house, but a summary only can be here presented:

Number of permits	100
Number of lodgers allowed	16,283
Daily average number of lodgers, January, February, March, 1914	14,223
Average number of baths used daily, January, February, March, 1914	2,097
Daily average number of lodgers found dirty	1,035
Daily average number of lodgers found with itch	114
Daily average number of lodgers found with head lice	211
Daily average number of lodgers found with bedbug bites	132
Number of bathtubs	50
Number of shower baths	354

Brooklyn.

In the Borough of Brooklyn, there are 30 lodging houses operating under permits from this department, which allow a total of 3,800 lodgers.

Five hundred and sixty-three inspections were made, 203 at various hours of the day by Sanitary Inspectors, and 360 inspections after half past ten at night, by Patrolmen of the Health Squad.

The following chart shows the nature of reports forwarded on these inspections:

Inspections	563
Reported no cause for action	519
Nuisance abated by personal effort	25
For notice to be issued	3
Premises undergoing renovation	6
Reinspections on notices	10

The various violations found are noted in the following summary:

Rules not posted	4
Common towel in use	1
Cuspidors unclean	1
Insufficient number of cuspidors	1
Water closets and urinals unclean	4
Inadequate supply of hot water	1
Unclean bedding	3
Unclean stairways	1
Water closet floors broken	1
Water closet apartments not ventilated	2
Rooms and beds not aired	2
Defective plumbing	5

Total

The frequent inspections of the lodging houses in the Borough of Brooklyn at all hours of the day and night revealed comparatively few nuisances and violations, and many of these were abated by personal effort. In only 3 of the 30 lodging houses were conditions found that required the service of a Board notice, and these 3 notices were subsequently complied with without resort to the courts.

Bronx.

There is only one lodging house in the Borough of The Bronx and the Department of Health permit allows 159 lodgers. The owner of this house was visited and the

requirements of the department relative to the rules and regulations for maintaining a lodging house were explained in detail, with the result that a general and thorough cleaning up of the premises was commenced within forty-eight hours. Alterations having been completed, a thorough inspection of premises was made on April 11, as a new owner had made application for a lodging house permit. The premises were found in a clean and sanitary condition and all rules and regulations of this department relating to lodging houses were being complied with.

PROTECTING NEW YORK'S YOUNGEST BOARDERS.

Through its Bureau of Child Hygiene the Department of Health exercises supervision over infants and children boarded out for home care. It is a violation of the law to keep children in board without a permit from the Department of Health. Such permits are good for one year, and may at any time be revoked for cause. They are granted with the understanding that the holder will comply with the following conditions:

- "1. This permit is issued to you with the understanding that you will give your personal attention to the proper feeding, care and hygiene of the child or children entrusted to you.
- "2. This child must never be left without an attendant.
- "3. All rooms must be kept orderly, clean, neat, well-ventilated and thoroughly aired daily.
- "4. The child or children should be fed regularly and properly, as prescribed by a private physician, hospital, dispensary, or the nearest infants' milk station.
- "5. If the child is taken ill, immediate word should be sent to the parent or the institution from which the child was obtained. It should be treated by a private physician, hospital, dispensary, or notice may be sent to the Department of Health.
- "6. You must not have in board any more children than this permit allows.
- "7. In the event of removal to another address, or to another apartment at the same address, notify the Department of Health at once.
- "8. If at any time the child's eyes become sore, notify a private physician, or take the child to a hospital or dispensary, or notify the Department of Health.
- "9. At the time of the regular visit of the inspector or nurse, you will be advised in all matters relating to the care and health of the child.
- "10. Permits issued for wet-nursing will be revoked when the applicant has an insufficient amount or an improper quality of milk."

A WELCOME DONATION.

The Department of Health has received a check for one hundred dollars from a lady who does not wish to have her name made public. The money is to be used by the nurses of the Bureau of Child Hygiene in supplying urgent needs of the children during the summer months.

The need of such a contingent fund has long been felt, as the nurses continually encounter cases where vacations could be obtained for the children if there were a little money to buy clothes, or where simple outings could be arranged if a small amount were available for carfare. It has not been uncommon for the Health Department nurses to use their own money for these purposes.

The gift is highly appreciated and will mean added health and happiness to a large number of the less fortunate children of the city.

DELAY IN USING DIPHTHERIA ANTITOXIN.

Comparison of the antitoxin receipts with the records of the Department, show that in a number of instances physicians have failed to use the serum for the patient designated, retaining it in their possession and using it at a later date on another patient. In one instance recently coming to the attention of the Department, a physician secured antitoxin on February 21, and did not use it until late in March. Inasmuch as diphtheria antitoxin deteriorates rapidly when not kept on ice, such delays may lead to disastrous results.

Physicians are therefore requested, when they secure free antitoxin for the treatment of a poor patient, to use it for that patient only; if not so used they should return it to the druggist and receive proper credit therefor.

Notice of Public Hearing.

FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN PURSUANT to law that at a meeting of the Board of Estimate and Apportionment held July 2, 1914, the following petition was received:

Kings County Refrigerating Co. (Wallabout Stores), 22-38 Hall Street at Wallabout Market, Brooklyn, N. Y., June 25, 1914.
Board of Estimate and Apportionment, New York City:

Gentlemen—On August 13, 1907, we entered into a contract under a franchise granted by your Honorable Board for laying certain pipes and supplying refrigeration to the Wallabout Market District. This franchise was for a period of 15 years with certain privileges of renewal for ten years on the following basis:

\$500 cash payment.
An annual payment for the first five years, 5% of gross earnings with a minimum of \$750.
An annual payment for the second five years, 6% of gross earnings with a minimum of \$1,000.
An annual payment for the third five years, 7% of gross earnings with a minimum of \$1,300.
25 cts. per running foot of conduit laid.
\$2 for each manhole.

At the time this contract was made our Company had no way of ascertaining as to whether this contract would be favorable one or not other than the fact that it was the best that could be obtained from your Honorable Board on the recommendations of the Bureau of Franchises.

The Bureau of Franchises undoubtedly at that time were not fully conversant with the value to the grantee of such a franchise and especially as applied to a scattered district.

Our Company installed machinery and equipment at the expense of about \$100,000 and have given to the district in the territory covered by our franchise good service to all that have asked for it.

This operation has resulted in a loss to the Company in direct operation during the six years of over \$110,000, as shown by an audit made by Certified Public Accountants employed at the direction of a committee, independent of the officers, which was appointed by the stockholders to investigate the causes of the Company's depressed financial condition. There is over and above this amount a considerable additional loss on depreciation of machinery and equipment.

Early this spring the stockholders and directors of the Company found themselves in

financial difficulties, their quick liabilities being several times more than their quick assets, and the fixed assets being fully covered by mortgage and their first mortgage bonds being sold as low as 50 cts. on the dollar.

The Company at that time was indebted to the City in Taxes on its real estate, and on this franchise to the extent of about \$13,000. While it was argued by a great many that the Company should be liquidated, it was finally decided by men who were active in the welfare of Brooklyn and Wallabout Market to get together and pay off the indebtedness of the Company and endeavor to put the business on a paying basis; such a Committee has been actively at work for the last three months, and on June 11, 1914, the committee turned over to the Honorable W. H. Prendergast, Controller, the last payment of the taxes on this franchise amounting to about \$3,600, covering 25 cts. per running foot for four years, from 1910 to 1914.

In consideration of the foregoing and in view of the terms under which other franchises are now being granted in more densely built up sections of New York City, we hereby request that your Honorable Board grant us a franchise for a term of fifteen (15) years, with the privilege of renewal on re-valuation of ten years, based on the following principal points:

Annual payment 1st 5 years: 2% of gross earnings with a minimum of \$500.
Annual payment 2nd 5 years: 3% of gross earnings with a minimum of \$600.
Annual payment 3rd 5 years: 3% of gross earnings with a minimum of \$700.
Payment for conduit per linear foot: 10c.
Payment for each manhole: \$2.

Maximum rates to be charged for refrigeration to be furnished under properly insulated conditions: 32 degrees Fahrenheit, freezing: 500 cu. ft. or less, 4c. per month.
500 to 1,500 cu. ft., 2c. per month.
1,500 to 2,500 cu. ft., 1½c. per month.
2,500 cu. ft. and over, 1c. per month.

The basis of percentage on gross earnings noted above is in line with the franchises that are at present being given by the City in the densely populated section of lower Manhattan, and the minimum payments specified are greater than are provided for in those franchises.

The rate of 10c. per linear foot is asked for as equitable on account of the long distances of pipe which are required in this district as compared with the densely built up section of lower Manhattan; for instance, on one section of our line 1,300 feet long, there are only four customers, and on another section 700 feet long, there is only one customer. Many of these boxes are very small and the franchise tax per running foot of piping is entirely out of proportion to the returns.

It will be necessary in the near future to replace the present pipe line system with a new brine pipe line of larger diameter, to overcome the friction consequent upon the long distances the pipe is carried; and a large amount will have to be expended for new machinery.

It is generally admitted that the pipe line refrigeration which we have supplied to Wallabout Market is a public necessity, and it has been the most important single factor in the success of this Market, and if the service can be continued, it will still further aid in the growth of a very important public institution.

As before stated the men connected with this reorganization are paying to the City the full amount agreed upon, and are making an endeavor to keep the Company a going concern in the belief that your Honorable Board will give relief from the burden of the onerous terms of the franchise which has resulted in such great losses to the Company.

Very truly yours,
KINGS COUNTY REFRIGERATING CO.
P. MAXWELL SAYFORD, Treasurer.

INVITATION TO CONTRACTORS

Part of the Broadway-Fourth Avenue Rapid Transit Railroad

The Public Service Commission for the First District (hereinafter called the "Commission"), acting for and on behalf of The City of New York (hereinafter called the "City"), invites proposals to construct Section No. 5 of Routes Nos. 4 & 36, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

SECTION No. 5. Beginning at a point under Central Park, in the Borough of Manhattan, about seventy-nine (79) feet east of the easterly building line of Seventh Avenue extended and about one hundred and thirty-seven (137) feet north of the south building line of West 59th Street, thence extending easterly under Central Park and West 59th Street to a point in West 59th Street about half way between Fifth Avenue and Sixth Avenue where the route separates into two branches, one branch extending easterly under West and East 59th Street to a point near Second Avenue, thence curving northerly under East 59th Street and Second Avenue to a point approximately on the easterly curb line of Second Avenue; the other branch extending northeasterly under West 59th Street, Central Park and Fifth Avenue and easterly under East 60th Street to a

point near Second Avenue, thence curving southerly under East 60th Street and Second Avenue to a point approximately on the easterly curb line of Second Avenue.

The general plan of construction calls for a subsurface railroad having one and two tracks. The Contractor will not be required to provide or lay tracks, ties or ballast nor to do station finish work, or to construct that part of the route underneath the rapid transit subway now being built under Lexington Avenue.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the removal and restoring of the Sherman statue at the Plaza, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction will be partly by tunneling and partly by trench excavation under cover, unless otherwise permitted by the Commission.

The Contractor will be required to prosecute the work of construction from working shafts located at the points specified in the contract.

Bidders must examine the form of contract, the specifications and the contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this invitation.

Partial payments to the Contractor will be made monthly as the work proceeds.

The Contractor must complete the work within twenty-nine (29) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities, in the sum of three hundred thousand dollars (\$300,000). As further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the total estimated amount to be paid to the Contractor under the contract. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 24th day of July, 1914, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 4 & 36, Section No. 5," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for thirty thousand dollars (\$30,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. July 23, 24

INVITATION TO CONTRACTORS

FOR THE STATION FINISH WORK FOR PART OF THE BROADWAY-FOURTH AVENUE RAPID TRANSIT RAILROAD

The Public Service Commission for the First District (hereinafter called the "Commission") acting for and on behalf of The City of New York (hereinafter called the "City") invites proposals to construct station finish for the six stations on Sections Nos. 1 and 2 of Route No. 11-B, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The location within the City at which the said work is to be performed is on Fourth Avenue in the Borough of Brooklyn, between Fortieth and Ninetieth Streets.

The Railroad for which the station finish is to be provided is now under construction. The Contractor shall begin actual work within thirty (30) days after the delivery of the contract on such stations and other parts of said Railroad as the Chief Engineer of the Commission may direct and shall begin actual work on any of the remaining stations or other parts of the Railroad within ten (10) days after notice and shall complete the entire work covered by the contract within six (6) months from the delivery of the contract, provided that an extension of time will be granted for completing the work at any station or other part of the Railroad upon which the Contractor shall not have been directed, within four (4) months after the delivery of the contract, to begin work, as provided in the contract. The City has also entered into a contract for the installation of tracks in the Railroad and the work of installation will be in progress at the time that the

station finish work is in progress. It will also be necessary for the New York Municipal Railway Corporation, its contractors or employees, to do work in the Railroad in connection with the equipment of the Railroad at the time that the station finish work is in progress. The Contractor must conduct his work so as not to impede or interfere with such other work, as provided in the contract.

The Railroad or a portion thereof may also be opened and operated for passenger traffic before the completion of the station finish work. In such event the Contractor must conduct his work so as to avoid interference with the operation of the Railroad and injury to passengers, as provided in the contract; and payment for all additional expense, loss, risk and damage due to such opening and operating for traffic will be made by increasing by the percentage stipulated in Item X in the Schedule contained in the Contractor's Proposal, the prices stipulated in said Schedule for the station finish work performed after the date of such opening and operating for passenger traffic at each station so opened and used for passenger traffic and at each portion of the Railroad between stations so opened and operated for passenger traffic, except as provided in the contract. Each bidder shall state in said Item X in the Schedule contained in the form of Contractor's Proposal the percentage required on such prices in payment for the additional expense, loss, risk and damage in the event of such opening and operating for traffic. For the purpose of comparing the bids only, and not for any other purpose, it will be assumed that the percentage so bid will be required to be paid on one-quarter (1/4) of the estimated amount of the station finish work. If any bidder shall not desire any such increase in said prices on account of such opening and operating for traffic, he shall strike out said Item X in said Schedule contained in his Proposal.

Bidders must examine the form of contract and the specifications and the contract drawings and must visit the location of the work and inform themselves of the conditions and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract and the contract drawings and the form of bond and contractor's proposal are to be deemed a part of this invitation.

Partial payments to the Contractor will be made as the work proceeds, as provided in the form of contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of fifty thousand dollars (\$50,000). As further security ten (10) per centum of the amounts certified from time to time to be due to the Contractor will be deducted.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City, until the 23d day of July, 1914, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement based upon the estimate of the Chief Engineer of the Commission of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Station Finish for Part of Rapid Transit Railroad—Route No. 11-B, Section Nos. 1 and 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for ten thousand dollars (\$10,000) payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beams, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
