The Women's Municipal Lunch Club—Resolution Petitioning the Board of Aldermen to Extend the Vacation Period of Such Women in the City Employ as Are Willing to Volunteer for Farm Work.

The Women's Municipal Lunch Club begs to present the following resolution for the consideration of your Board.

Whereas, because of the great national necessity for abundant crops this year, and because of the shortage of farm labor, women are being urged to work on the farms during the summer; and

Whereas, the Women's Land Army is organized for the purpose of placing women on farms, where their services are needed, and is calling for volunteers to do this work; therefore, be it

Resolved, that we, the members of the Women's Municipal Lunch Club, desire to attest our readiness to enlist in this patriotic service to our country. We, therefore, petition the Board of Aldermen to extend the regular vacation of such women in the City service as are willing and able to volunteer for this work for a period of one additional week with pay. COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.
The President laid before the Board the following communication from the Sheriff, Bronx County:

No. 529.

Sheriff, Bronx County—Withdrawing Request for Issuance of Special Revenue Bonds, \$1,150, for the Purchase of Auto Van.

Sheriff's Office, Bronx County, Bergen Building, Tremont and Arthur Avenues, New York, May 18th, 1918.

Hon. ALFRED E. SMITH, President, Board of Aldermen, New York City:

Sir—I desire to withdraw request for issuance of special revenue bonds in the sum of \$1,150 for the purchase of auto jail van, submitted to you under date of April 30th, 1918. Very truly yours,

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Commissioner of Plant and Structures:

No. 530.

Commissioner of Plant and Structures—Request for Authority to Purchase Lumber (\$5,000) Without Public Letting.

Department of Plant and Structures, City of New York, Municipal Building, Manhattan, N. Y., May 20, 1918.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—Funds have been authorized by the Board of Estimate and Apportionment for repaving and reconstructing the roadways of the Brooklyn bridge between the anchorages. In this work it is contemplated that the present spruce plank wearing surface will be replaced by a wood block pavement, supported on yellow pine timbers. The present 4-inch tee rail will be replaced by a 7-inch girder rail, supported by ties, which, in turn, are supported by steel stringers.

Owing to the difficulty in obtaining the material for this new construction, it will be necessary to maintain the present plank wearing surface. If this planking is to be obtained by contract, I am of the opinion that it will be almost impossible to have it delivered in time to keep these roadways in proper condition, and, perhaps, the lack of material may be the means of closing the roadways to vehicular traffic.

I, therefore, request your Honorable Board to grant me permission, pursuant to the provisions of section 419 of the Greater New York Charter, to purchase in open market, without public letting, lumber to the amount of \$5,000, with funds from schedule of the budget of 1918, entitled "2770TB, Materials."

Your early attention is respectfully requested. Yours truly,

JOHN H. DELANEY, Commissioner.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from the President, Borough of Manhattan:

No. 531.

President, Borough of Manhattan—Request for Special Revenue Bonds, \$80,000, to Purchase Coal.

The City of New York, Office of the President of the Borough of Manhattan, Municipal Building, May 16, 1918.

Hon. ALFRED E. SMITH, President, Board of Aldermen, City Hall, New York:

Dear Sir—Request is hereby made for an issue of Special Revenue Bonds in the amount of \$80,000, to purchase the necessary coal for the operation of the buildings under the care and jurisdiction of this department for the balance of the year.

No. 532.
Commissioner of Public Charities—Request for Permission to Enter Into Contract for Hire of Steamboats Without Public Letting.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, May 14, 1918.
Re Request for Permission to Enter Into Contract Without Public Letting for Hire of Steamboats.

To the Honorable the Board of Aldermen, City Hall, New York:
Gentlemen—I respectfully request permission of your Honorable Board to enter into a contract without public letting for the hire of steamboats at a cost of about \$4,500.

During the past winter several of the steamboats operated by the department were damaged by ice in the East and Harlem Rivers. This damage was to such an extent that we have been obliged to charter one steamboat continuously since early in January, and at times during that same period it was necessary for us to charter two steamboats. The boats which were damaged have not as yet been repaired due to the insufficiency of funds in our appropriation for repairs. Additional funds have been transferred to the department by the Board of Estimate and Apportionment in resolution dated May 10, 1918, and the department is now in a position to proceed with having the steamboats repaired.

On February 26, your Honorable Board adopted a resolution authorizing the department to enter into contracts without public letting for the hiring of steamboats to the extent of \$5,000. This authorization has been entirely exhausted and it is now necessary to secure this additional authorization so that the department will not suffer because of the lack of steamboat service until our own boats can be repaired. It is expected that all repairs can be completed in about sixty days.

I would appreciate your early action in this matter. Very truly yours,
BIRD S. COLER, Commissioner.

Commissioner of Public Charities—Request for Authority to Do Additional Work at Sea View Hospital Without Public Letting.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, May 14, 1918.
Re Additional Work, Group Building, Sea View Hospital, Staten Island.

To the Honorable the Board of Aldermen, City Hall, New York City:
Gentlemen—We request permission of your Honorable Board to enter into a contract with A. L. Guidone & Son, Inc., in the amount of \$3,395.94 for certain additional work performed in the Group Building at Sea View Hospital, for which work Guidone is the contractor.

Shortly after the awarding of this contract, the location of this building was shifted to such an extent as to require about 175 cubic yards of additional concrete and about 640 yards of cinder fill. As it was impossible to get any other contractor to enter upon this work, it was necessary that Guidone perform the same.

The price above mentioned is the estimate of the department for the work in question, and which amount has been agreed to by the contractor. Very truly yours,
BIRD S. COLER, Commissioner.

No. 534.
Commissioner of Correction—Request for Authority to Repair the Steamer "Thomas M. Mulry" Without Public Letting.

Department of Correction of The City of New York, Commissioner's Office, Municipal Building, Centre and Chambers Streets, New York, May 16, 1918.
ALFRED E. SMITH, President, Board of Aldermen, City of New York:

Dear Sir—The approval of your Honorable Board is hereby requested to the expenditure without public letting of \$27,108.3 for emergent repairs to the steamer "Thomas M. Mulry," of the Department of Public Charities.

These repairs were necessitated by a collision on January 14, 1918, when the steamer "Correction" of this department accidentally struck the smaller vessel while attempting to land at the City Hospital Dock. This collision was not caused by any negligence on the part of the employees of either vessel, but was due entirely to the ice jam which infested the harbor of this City at that time, and which was responsible for the slipping transportation in New York City being demoralized during the past winter worse than ever before in its history.

Immediately after the accident, it was deemed advisable by the engineers of both departments to make immediate repairs to the "Mulry," as she was in a sinking condition. Accordingly, the firm of James Tregarthen & Son Company was prevailed upon to make room upon their drydock so that the repairs could be made.

They agreed to do this at a sacrifice to themselves, because they had performed many previous repair jobs for both departments and felt that undertaking a repair job under such conditions would prove that they were ready and willing to accommodate The City of New York in any emergency.

The bill for the above work amounted to \$2,622.42, and in addition there was a smaller invoice for new piping, etc., amounting to \$88.41, which comprises the total amount before mentioned.

I trust that your Honorable Board will take immediate and favorable action upon this request. Yours respectfully,

JAMES A. HAMILTON, Commissioner.

No. 535.
President, Borough of Richmond—Request for Authority to Purchase Bituminous Road Surfacing Without Public Letting.

The City of New York, Office of the President of the Borough of Richmond, Bureau of Highways, Borough Hall, Staten Island, May 21, 1918.
Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—In accordance with the provisions of section 419 of the Greater New York Charter, we hereby request permission of the Board of Aldermen to purchase bituminous road surfacing material without public letting.

We have been informed that on account of the demand by the United States Government for various ingredients in the composition of said surfacing material no company would enter into any contract during the balance of the current year.

It is therefore incumbent upon this department to obtain this class of surfacing material at the earliest possible moment, and it is earnestly requested that the necessary permission be granted to purchase 20,000 gallons at the estimated cost of 13 cents per gallon. Very truly yours,

JOHN E. BOWE, Acting President, Borough of Richmond.

To the Board of Estimate and Apportionment:
Gentlemen—The Committee on Salaries and Grades recommends approval of the request made by the Corporation Counsel for modification of a salary schedule and establishment of two positions, as follows:

Modification of Schedule.		
Meeting of:	Cal. No.	Proposed Action.
May 17, 1918	111-E 120	Eliminate positions of Title Examiner: 1 at \$1,500, 1 at \$1,680 and 1 at \$1,800. Transitman and Computer: 1 at \$1,740. Process Server: 2 at \$1,200; and 1 Assistant at \$3,000, and substitute positions of Junior Assistant, 1 at \$1,500, 1 at \$1,680 and 1 at \$1,800; Assistant Engineer, 1 at \$1,740; Examiner, 2 at \$1,200, and Junior Assistant, 1 at \$2,850, scheduling \$150 in balance unassigned.

Establishment of Position.		
Meeting of:	Cal. No.	Proposed Action.
May 17, 1918	111-E	Recommending to the Board of Aldermen the establishment, pursuant to section 56 of the Greater New York Charter, of grade of position of Junior Assistant, 1 at \$1,680 and Assistant Engineer, 1 at \$1,740.

The Committee on Salaries and Grades finds that these changes are desired in order that the titles of Leo Lehrfeld, John W. A. Kelley, Charles J. Niville, Bruno J. Feldman, Herbert Levinger and Leonard Simmermann, respectively, may conform to the work they perform and in order that a Deputy Assistant at \$2,850, now being paid against a line of Assistant at \$3,000, may be provided for under the proper title.

No increase in appropriation or salary is involved.
The Committee recommends the adoption of the attached resolutions approving the request. Respectfully,

ALFRED E. SMITH, President, Board of Aldermen; FRANK L. DOWLING, President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

No. 538.
Board of Estimate and Apportionment—Statement Relative to Minimum Compensation for City Employees.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, May 14, 1918.
Hon. JAMES R. FERGUSON, Chairman, Committee on Salaries and Offices, Board of Aldermen, City Hall, New York City:

Dear Sir—In reply to your letter of April 17, 1918, wherein you request information as to the approximate additional appropriation necessary to comply with the provisions of the resolution No. 355, concerning a minimum compensation for City employees, I send you herewith a statement showing results of an examination made by this office. Very truly yours,
JOSEPH HAAG, Secretary.

Statement Showing Additional Funds Necessary to Provide for the Payment of a Minimum Annual Compensation of \$1,200 to City Employees Over 21 Years of Age.

In preparing this statement the following points have been considered:

1. All regular employees over 21 years of age whose daily, weekly, monthly or other rate of compensation amounts to less than \$1,200 as a yearly aggregate.
2. Employees paid from temporary salary or wage accounts for purely administrative reasons, but whose employment is regular in fact.

In order to eliminate the office boy class, or those under 21 years of age excluded by the resolution, the minimum rate considered in a few instances is \$600 per annum, as the number of employees receiving less than \$600 who are over 21 years of age is probably offset by the number under 21 years who are paid over \$600.

For the information of the Committee a separate computation is made of incumbents of positions with maintenance in institutional departments where the annual compensation (adding \$350 for average annual maintenance cost) does not reach \$1,200.

The cost of such a procedure (and which is not included in the subsequent departmental computations) would be as follows:

Department.	No. of Employees	Annual Cost.
Health	603	\$250,195 00
Correction	88	31,400 00
Board of Inebriety	8	2,633 00
Bellevue and Allied Hospitals	964	457,205 00
Public Charities	266	1,562,072 00
Total		\$2,303,505 00

In the event that increase in rate to \$1,200 for employees without maintenance was granted, it is probable that institutional help, with maintenance, would demand similar concessions.

In the Police Department the present graduating scale of rates paid to Patrolmen is as follows:

\$1,050, first 3 years; \$1,200, first half of fourth year; \$1,300, second half of fourth year; \$1,400, fifth year; \$1,500 after 5 years.

It may be readily seen that to establish a minimum of \$1,200 would bring the probationer to the same rate enjoyed by a fourth year Patrolman. The figures expressed in the statistical statement below include 1,150 Patrolmen.

A similar condition would be found in the Fire Department as in the Police Department. The graduating scale of salary rates for Firemen is as follows:

\$1,050, first two years; \$1,250, third year; \$1,500, fourth year.

The figures shown in the statistical statement include 587 Firemen.

In the yearly budgets for libraries, museums and quasi-public institutions there are appropriated certain bulk sums for salaries and expenses for services rendered. No control is exercised by the Municipal authorities over these appropriations once they are allotted. For this reason it is difficult to analyze these items, but it may be stated that a great majority of employees of these institutions are receiving compensation of less than \$1,200 per annum.

The statement shows the total number of incumbents involved to be 26,746. The approximate annual cost for the increase to \$1,200 per annum is \$7,288,496.09. Including those unaccounted for in libraries, museums, etc., the number of incumbents in round figures would be about 28,000 and the amount \$7,500,000.

The President laid before the Board the following communication from the Commissioner of Docks:

No. 539.

Commissioner of Docks—Request for Authority to Contract, Without Public Letting, for Insuring Ferryboats Belonging to the City.

The City of New York, Department of Docks and Ferries, Office of the Commissioner, Pier A, North River, May 20, 1918.

Hon. ALFRED E. SMITH, President of the Board of Aldermen, City Hall, New York City:

Sir—I transmit herewith memorandum in relation to the policy of carrying for the benefit of the City of New York, Fire, Accident and Collision insurance on the ferryboats operated by the City.

Pursuant to the provisions of Section 419 of the Greater New York Charter, I respectfully request that the Board of Aldermen adopt a resolution authorizing and empowering me as Commissioner of Docks, to enter into a contract without public letting for insuring ferryboats belonging to the City of New York at a cost not to exceed \$64,500, pursuant to Proposition "B" contained in the said memorandum. Respectfully yours, MURRAY HULBERT, Commissioner of Docks.

May 18, 1918.

Memorandum in relation to insurance of ferryboats.

At a meeting of the Commissioners of the Sinking Fund held July 8, 1907, a resolution was adopted authorizing the Commissioner of Docks to secure and carry for the benefit of the City of New York fire, accident and collision insurance on the ferryboats which are now or may hereafter be operated by the City.

Insurance was accordingly secured and carried on ferryboats operating on the Municipal Ferries between the foot of Whitehall Street, Manhattan, and the 39th Street, Brooklyn, and St. George, Staten Island, until July 16, 1914, when it was discontinued by the previous City Administration.

In my opinion it is absolutely necessary that the ferryboats should be insured. They are, owing to the nature of their construction and operation, subject to unforeseen damage which must be repaired immediately if the successful operation of the ferries is to be continued.

The preparation of contracts, the approval of forms by the Corporation Counsel, advertising, awarding, attaching certificates and approval of sureties by the Comptroller consumes about two months, even if these preliminaries are pushed vigorously, and in the meantime the damaged boats are lying idle, which means a serious derangement of the ferry service.

The dry docks in this port are now working to their full capacity night and day and extraordinary wages are paid to workers. Besides the natural increase in the number of commercial craft in this harbor, there is an ever increasing number of United States Army and Navy vessels requiring repairs and overhauling, which will make the dry dock repair situation daily more acute. I am informed that in the near future it will be impossible to secure bids on a contract calling for a lump sum for repairs to vessels, including ferryboats, so that no damage can be made good by contract after advertised bids except on a cost and percentage basis, which means that all such work must be done practically without public letting. In my opinion, the best way to overcome these difficulties is to insure the ferryboats. In the past when insurance was carried, the companies upon notice of damage immediately ordered the boats to a dry dock and the work was expeditiously completed.

A tentative proposition for fire, marine and collision insurance on the ferryboats belonging to the City has been received as follows:

	Proposition A.		Proposition B.	
"Manhattan"	\$300,000	\$7,500	\$400,000	\$8,000
"Brooklyn"	300,000	7,500	400,000	8,000
"Bronx"	300,000	7,500	400,000	8,000
"Queens"	300,000	7,500	400,000	8,000
"Richmond"	300,000	7,500	400,000	8,000
"Mayor Gaynor"	300,000	7,500	400,000	8,000
"Bay Ridge"	200,000	5,000	275,000	5,500
"Nassau"	200,000	5,000	275,000	5,500
"Gowanus"	200,000	5,000	275,000	5,500
	\$2,400,000	\$60,000	\$3,225,000	\$64,500

It will be noted that the quotations above involve a lower rate under Proposition "B", which is based upon insuring each of the boats for a larger amount than they have heretofore been insured for. Owing to the increased cost of labor and material, the boats cannot be replaced or rebuilt in case of total loss for the amounts set forth in Proposition "A."

It will also be noted that Proposition "B" provides for \$825,000 more insurance than is provided for in Proposition "A" for a premium only \$4,500 in excess of that quoted in Proposition "A." \$100,000 additional insurance is provided for the six large boats and \$75,000 additional insurance is provided for the three small boats. These amounts of insurance can be collected in case of total loss by fire or marine disaster.

Boat insurance rates are governed largely by the amount of insurance carried in proportion to the reproducible value, hence the lower rates for the larger amounts of insurance.

The City has heretofore insured these boats at rates varying from \$1.53 to \$2.11. In view of the fact that the losses sustained by the City heretofore have consisted entirely of damage to the boat by collision, etc., and that if these boats were to be damaged during the ensuing year to the same extent physically, it would cost the insurance companies twice as much to make the repairs at the present time as it cost them while the former insurance existed, it is apparent that the rates quoted above are much lower than the City has heretofore paid.

The policies which it is proposed to furnish will cover all the hazards included in the former policy with additional features of coverage, as follows:

"Loss or damage to hull or machinery through negligence, bursting of boilers, breakage of shafts or any latent defect in the machinery or hull or from other causes."

The policies formerly used restricted coverage of this nature unless caused by stranding.

In brief, the advantages which will be gained by insuring the ferryboats are as follows:

- (1) The City will not be liable for damages resulting from collision or accident.

(2) It enables this Department to make immediate repairs to damages in excess of \$1,000, and avoids the delays under the present system caused by the preparation and advertising for contracts, and in addition the obtaining of appropriations by the action of the Commissioners of the Sinking Fund and the Board of Estimate and Apportionment.

(3) It affords the public the quickest relief in the matter of bringing transportation service back to normal.

(4) The adjustment of claims against the Municipal ferries are more readily made and greatly facilitated through the medium of the insurance adjusters.

For your information I submit herewith a statement of the most recent collision and accidents to the ferries:

		Estimated Damage to Ferryboats	Estimated Damage to Other Boats
Aug. 18 1917	Ferryboat "Mayor Gaynor" in collision with the Murray		\$5,265 00
Nov. 25 1917	Ferryboat "Manhattan," lost propeller	\$6,000 00	
Nov. 27 1917	Ferryboat "Gowanus" in collision with schooner, "Priscilla"	200 00	3,240 00
Dec. 13 1917	Ferryboat "Richmond" in collision with S. S. "Boston"	5,250 00	13,000 00
Feb. 3, 1918	Ferryboat "Brooklyn" in collision with tug "Leader"		2,500 00
Feb. 3, 1918	Ferryboat "Gowanus" in collision with tug "H. McCord"		4,780 00
		\$11,450 00	\$28,785 00

The amount of damage liable to occur in any one year is problematical, but it is reasonable to assume that the cost of insurance will be in excess of the claims paid, but there is always the risk of a disaster or complete loss.

The inconvenience and delay caused by public letting is exemplified in the case of the ferryboat "Manhattan" which was out of use from November 25, 1917, to March 4, 1918, due to loss of propeller wheel and consequent damage to the tail shaft. In this case, after all the preliminaries had been gone through, extending over a period of some months, the contract was advertised and no bids received, which made it necessary to obtain permission from the Board of Aldermen to award this work without public letting. Meanwhile the loss of the services of the boat made it impossible to maintain the schedule.

The loss of the services of the ferryboat "Manhattan" made it necessary to place the ferryboat "Mayor Gaynor" on the Staten Island Division. As this boat is comparatively small-built for the 39th Street service—it has not the speed of the larger boats and the result was the disruption of the running schedule.

A resolution was adopted by the Commissioners of the Sinking Fund, May 9, 1918, approving of the policy of authorizing this Department to secure and carry for the benefit of the City, fire, accident and collision insurance on its ferries.

Which was referred to the Committee on Public Letting.

SMITH, President, Board of Aldermen, City of New York: Dear Sir—I send you herewith, for the consideration of the Board of Aldermen, communication dated May 7th, from the Fire Commissioner, approved by the Mayor, requesting an authorization of \$142,770.00 special revenue bonds, for the purchase of 94,950 feet of fire hose of various sizes. Hon. JOHN F. HYLAN, Mayor of the City of New York:

Sir—It is requested that the Board of Aldermen authorize a special revenue bond issued to the amount of \$142,770, for the purchase of 94,950 feet of fire hose of various sizes as shown in the subjoined table, which also gives the estimated cost per foot, estimated cost for each size and total estimated cost:

11,200 ft. of 3½-inch Rubber at \$3.00 per ft.				\$33,600 00
				\$142,770 00

The hose situation in the Fire Department for some time back has been in somewhat perilous condition. During the past winter there were times when grave danger existed and serious fire loss was narrowly averted. Unless adequate provision is made to procure hose, and at once, a situation will develop that may be a source of very great danger. At the present time there is a shortage of 94,950 feet, taking into account that hose more than eight years old is unsafe for further use.

Long experience of the Fire Department has shown that after hose has been in use for eight years it is no longer safe or reliable. There are, of course, many instances where hose has been serviceable for more than eight years. This long service, however, is more than offset by the fact that many lengths, of hose on which the guarantee has expired, do not last eight years.

Up to about seven years ago hose manufacturers guaranteed their product against defective material and workmanship for a period of four years. Thereafter the department found it necessary to reduce the guarantee period to three years as contractors would not bid if a longer guarantee were exacted.

When it is remembered that the Fire Commissioner is willing to assume that hose is serviceable for a period of five years beyond the time which contractors consider it safe to guarantee hose, it will be admitted that fixing the service limit at eight years is about as far as it is wise or safe to go.

Getting fire hose is becoming more difficult every day. Manufacturers are confronted with many difficulties in procuring material, and skilled labor is at a premium. No matter how willing manufacturers may be, procuring fire hose will become more of a problem daily for Fire Departments.

The United States Government is a very large user of fire hose and its orders are commands and must be cared for by manufacturers to the exclusion of all other business; hence the importance of trying to procure deliveries, or at least make a contract at the earliest moment so as to reduce to a minimum the probabilities of being set back because of Federal Government orders or prior orders from other sources.

Assuming that favorable action on this request be taken at the next meeting of your board, it would be at least a month before bids could be opened for furnishing hose. The very earliest delivery that could be hoped for would be sixty days thereafter, and then only in limited quantities; thus it would be three months before any hose would be delivered and three months hence the shortage will be greater than it now is.

The general opinion among hose manufacturers is that the price of hose will continue to rise and that the procuring of yarn for making the hose jackets will become increasingly difficult. Some manufacturers are of the opinion that it will be necessary, within a short time, to procure a United States Government certificate before any yarn can be obtained from the mills.

That there will be much difficulty in procuring hose sufficient to meet the needs of this department, even under the most favorable conditions that may exist, cannot be questioned. It is therefore urged that prompt and favorable action be taken on this request to assure having a supply sufficient to meet any contingency that may arise and be protected against the possibility, in fact the probability, that six months hence hose manufacturers may be declining orders no matter how attractive a price the City may be willing to pay.

My experience during the past four months has convinced me that the procuring of any high grade manufactured product is one of the most serious problems that this department will have to contend with at least during the period of the war.

While this request is only for funds to take care of the current yearly requirements, I am strongly of the opinion that it would be a very wise precaution for your board to authorize an issue of \$100,000 in addition to the amount requested, which would insure the department's being well equipped in this important respect for the next three years.

This department is beset with so many problems and difficulties which require constant and, in many cases, immediate attention that it would greatly relieve the situation if the hose problem were properly covered for a long period and other pressing matters could receive the attention that their importance demands.

Not only would this very important requirement be properly cared for as stated, but a great saving would also be effected. From the information I have been able to gather, it is possible to assure your honorable board that \$100,000 available now will permit contracting for a quantity of hose that would cost at least \$125,000 if making a contract were delayed a year. Respectfully,

THOMAS J. DRENNAN, Fire Commissioner.

Which, on motion of Alderman Kenney, was made a Special Order for the day.

The President put the question whether the Board would agree with said resolution.

Which was decided in the negative by the following vote: three-fourths of all the members of the Board having failed to vote in favor thereof:

Affirmative—Aldermen Atwell, Bassett, Beckerman, Bell, Braumstein, Buckley, Burden, Burke, Calman, Cassidy, Collins, Colne, Cox, Diemer, Dunn, Farley, Ferguson, Ferrand, Fowler, Friedman, Fullum, Gaynor, Gilmore, Hanbert, Held, Hillemeier, Hogan, Kenney, Lee, McCourt, McGarry, McManus, McNulty, Martin, Molen, Moore, O'Brien, O'Rourke, Quinn, Roberts, Ryan, Stapleton, Vladeck, Walsh, Williams, Wirth, Wolff, Zettler; President Van Name, by John E. Bowe, Assistant Commissioner of Public Works; President Connolly, by W. Augustus Shipley, Assistant Commissioner of Public Works; President Riegelmann, by Joseph Femelly, Assistant Commissioner of Public Works; President Dowling; the Vice-Chairman; the President—54.

The Vice-Chairman moved that the vote by which the foregoing report and resolution was lost be reconsidered.

Which was adopted.

The proposition was then, on motion of the Vice-Chairman, restored to the Calendar of Special Order.

The President announced that Alderman Squiers was excused from further attendance at the meeting.

REPORTS:

That Doctors Brannan and O'Hanlon of Bellevue and Allied Hospitals appeared before the Committee and stated this request is due to inadequate allowance in the Budget for 1918, increased cost of supplies and increased census in hospital. Your Committee, believing the request to be reasonable, recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of two hundred thirty-eight thousand five hundred and fifty dollars (\$238,550), the proceeds whereof to be used by the Trustees of Bellevue and Allied Hospitals for the purpose of meeting anticipated deficits. All obligations contracted for hereunder to be incurred on or before December 31, 1918.

Report of the Committee on Finance in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, \$2,310, for the Purpose of Dredging the Municipal Ferry Coal Pockets at St. George, Staten Island.

The Committee on Finance, to which was referred on May 14, 1918 (Minutes, page 199), the annexed request of the Commissioner of Docks for special revenue bonds, \$2,310, for the purpose of dredging the Municipal Ferry coal pockets at St. George, Staten Island, respectfully

REPORTS:

That Deputy Commissioner Meyer appeared before the Committee and stated that there are no available funds for this work and the work is necessary.

Your Committee therefore recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand three hundred and ten dollars (\$2,310), the proceeds whereof to be used by Commissioner of Docks for the purpose of dredging the Municipal Ferry coal pockets at St. George, Staten Island. All obligations contracted for hereunder to be incurred on or before December 31, 1918.

The City of New York, Department of Docks and Ferries, Office of the Commissioner, Pier A, North River, May 13, 1918.

Hon. ALFRED E. SMITH, President, Board of Aldermen, City Hall, New York:

Dear Sir—In order that there may be a sufficient depth of water in front of this Department's hoister to permit the work of unloading coal barges to be carried on at any and all times, it will be necessary to dredge out the slip alongside the coal pocket at St. George, Staten Island.

The lack of water has made it difficult to shift barges, and, as a consequence, the work of the Bureau of Ferries has been hindered and handicapped.

The cost of the dredging necessary to produce the required depth of fifteen (15) feet at mean low water will amount to \$2,310, and, as this Department has no funds available for the work, I respectfully request that the Board of Aldermen adopt a resolution recommending that the Board of Estimate and Apportionment authorize the Comptroller to issue special revenue bonds to the amount of \$2,310, the proceeds thereof to be used by the Commissioner of Docks for the purpose of dredging at the Municipal Ferry coal pockets at St. George, Staten Island.

Yours very truly, MURRAY HULBERT, Commissioner of Docks.

No. 105.

Report of the Committee on General Welfare in Favor of Referring to the Board of Education an Ordinance Establishing a Bureau of School Lunches in the Department of Education.

The Committee on General Welfare, to which was referred on Jan. 17, 1918 (Minutes, page 132), the annexed resolution and ordinance in favor of establishing a Bureau of School Lunches in the Department of Education, respectfully

REPORTS:

Your Committee has given careful consideration to ordinance Int. No. 105, entitled "An Ordinance Establishing a Bureau of School Lunches in the Department of Education," and has held several public hearings thereon. The Corporation Counsel has advised the Committee, in a written opinion which is transmitted herewith, that the Board of Aldermen is without power to pass this ordinance, and that the subject matter thereof is one which, under the State Education Law, as amended by chapter 786 of the Laws of 1917, is within the sole jurisdiction of the Board of Education of this city.

While the Board of Aldermen has no power to pass this ordinance, we are in sympathy with the general purpose that it seeks to accomplish. We recommend to the Board of Education that it make provision for furnishing school lunches upon such terms and under such conditions as it deems proper and suitable. The necessity of a separate bureau to carry on this work, the extent and duration of the lunch service to be furnished and the charge to be made therefore, all these are matters that should be determined by the Board of Education.

AN ORDINANCE establishing a bureau of school lunches in the Department of Education.

Be it Ordained by the Board of Aldermen of the City of New York as follows:

Section 1. There shall be a Bureau of School Lunches attached to the Department of Education, with the principal office in the Borough of Manhattan, and branch offices in such other boroughs as may be deemed necessary and designated by the Board of Education, for the purpose of furnishing lunches, and such other meals as may from time to time be deemed necessary or desirable by the said Board of Education, to those enrolled as pupils in the public schools under its jurisdiction, *provided*, the food supplied in this manner shall be furnished free of charge or, in the discretion of the said Board, at a nominal charge not to exceed two cents per portion.

Section 2. The employees of the said Bureau shall consist of a director, and such superintendents, assistants, clerks and other employees as may be found necessary by the said Board of Education for properly carrying on the work of the said Bureau, the same to be appointed and removed by the said Board in accordance with the provisions of section 868 of chapter 786 of the Laws of 1917, known as the State Education Law, and the salaries of the same to be fixed and established in accordance with section 56 of the City Charter.

Section 3. The Board of Education may take over and operate in behalf of the City all school lunch rooms and central kitchens connected therewith now existing in the City of New York, and extend the service as rapidly as circumstances permit to all other schools in which there is need for the same.

Section 4. The attention of the Comptroller of the City of New York is hereby respectfully called to the provisions of this ordinance, and he is urged to issue special revenue bonds, pursuant to the power granted him in section 188, subdivision 7, of the City Charter, to meet any expenses incurred under this ordinance which cannot be met by budget appropriations or other available funds.

Section 5. This ordinance shall take effect immediately.

Law Department, Office of the Corporation Counsel, New York, May 13, 1918.

Hon. WILLIAM T. COLLINS, Chairman, Committee on General Welfare, Board of Aldermen:

Dear Sir—I have received your letter of April 20, 1918, in which you enclose a copy of an ordinance which has been introduced in the Board of Aldermen and referred to your Committee. You ask my opinion concerning the power of the Board of Aldermen to pass the ordinance.

The proposed ordinance would establish in the Department of Education a Bureau of School Lunches. It reads as follows:

"AN ORDINANCE establishing a bureau of school lunches in the Department of Education.

"Be it Ordained by the Board of Aldermen of The City of New York as follows:

"Section 1. There shall be a Bureau of School Lunches attached to the Department of Education, with the principal office in the Borough of Manhattan, and branch offices in such other Boroughs as may be deemed necessary and designated by the Board of Education, for the purpose of furnishing lunches, and such other meals as may from time to time be deemed necessary or desirable by

the said Board of Education, to those enrolled as pupils in the public schools under its jurisdiction, *provided*, the food supplied in this manner shall be furnished free of charge or, in the discretion of the said Board, at a nominal charge not to exceed two cents per portion.

"Section 2. The employees of the said Bureau shall consist of a director, and such superintendents, assistants, clerks and other employees as may be found necessary by the said Board of Education for properly carrying on the work of the said Bureau, the same to be appointed and removed by the said Board in accordance with the provisions of section 868 of chapter 786 of the Laws of 1917, known as the State Education Law, and the salaries of the same to be fixed and established in accordance with section 56 of the City Charter.

"Section 3. The Board of Education may take over and operate in behalf of the City all school lunch rooms and central kitchens connected therewith now existing in the City of New York, and extend the service as rapidly as circumstances permit to all other schools in which there is need for the same.

"Section 4. The attention of the Comptroller of The City of New York is hereby respectfully called to the provisions of this ordinance, and he is urged to issue special revenue bonds, pursuant to the power granted him in section 188, subdivision 7, of the City Charter, to meet any expenses incurred under this ordinance which cannot be met by budget appropriations or other available funds.

"Section 5. This ordinance shall take effect immediately."

In my judgment the Board of Aldermen lacks the authority to establish in the Department of Education the Bureau which is contemplated by this ordinance. It appears to me that such a Bureau would be an incident to the general management of the schools and beyond doubt the administration of the schools has been confided by law to the educational officials.

The Department of Education is regulated to a large extent by the Education Law, as amended by the recent act known as Chapter 786 of the Laws of 1917. Section 868 of the latter statute prescribes in the minutest detail the powers of the Board of Education and it seems to me that its comprehensive provisions leave the Board of Aldermen no power whatsoever in the administration of the schools. Subdivision 2 explicitly vests in the Board of Education the authority to create "such positions, divisions, board or *bureaus* as, in its judgment, may be necessary for the proper and efficient administration of its work." In fact, I believe that a careful study of the entire statute of 1917 justifies the conclusion that the Board of Education and the other educational officials possess the sole power to manage the school system.

In answering your letter, I take occasion to reply to a communication which, under date of April 16, 1918, I received from the Hon. B. Charney Vladeck, one of your colleagues on the Committee on General Welfare. Mr. Vladeck submitted to me the same question which you have laid before me, but, in addition, requested me to consult with Mr. George Gordon Battle, who at a public hearing appeared in favor of the proposed ordinance. Mr. Battle has sent to this office a brief in support, first, of the authority of the Board of Aldermen to institute a Bureau of Lunches in the Department of Education and, second, of the constitutionality of the project.

The views which I have already expressed render it unnecessary for me to discuss the constitutional question. Suffice it to say that on September 8, 1917, Acting Corporation Counsel Hahlo advised President Willcox of the Board of Education that the Board had the right to furnish luncheons to the school children. This office has been informed by Associate Superintendent Edson of the Department of Education that the Board of Superintendents has recommended to the Board of Education that luncheons be furnished to school children at cost price and that the Board of Education now has the matter under advisement.

Taking up, then, that portion of Mr. Battle's brief which treats of the power of the Board of Aldermen to establish in the Department of Education a Bureau of Lunches, I find that the Matter of Dobrovolsky, 219 N. Y., 280, is cited in support of the contention that the Board of Aldermen has the power to create such a bureau. I fail to see that this case upholds that point of view.

The Dobrovolsky case was an application for a writ of mandamus to compel the Comptroller to honor a payroll in the petitioner's favor for arrears of salary as a typist in the Department of Education. It appeared that, when the Board of Estimate and Apportionment and the Board of Aldermen had adopted the budget for the year 1915, salaries for certain positions, among them the position of typist, had been fixed subject to certain conditions. One of the conditions was that promotions from one fixed salary to another fixed salary should be made only with the approval of twelve votes of the Board of Estimate and Apportionment. The arrears set forth in the payroll represented back salary, the claim to which was founded upon a promotion made by the Board of Education in violation of the budgetary restrictions. Thus there was presented the question whether or not the Board of Education could promote the petitioner from a lower to a higher salary in defiance of the aforementioned restrictions. The Court held that the petitioner was of that class of employees of the Board of Education whose compensation was fixable by the concurrent action of the Board of Estimate and Apportionment and of the Board of Aldermen under section 56 of the Revised Charter; that such control in the hands of these bodies implied the power to prescribe reasonable rules and regulations and that when the same two bodies adopted the budget under section 226 of the Revised Charter, which authorized them to make appropriations subject to the "terms and conditions * * * under which the same may (might) be expended," they acted reasonably in prohibiting such a promotion without the consent of the Board of Estimate and Apportionment.

Obviously, therefore, the Dobrovolsky case is inapplicable to the question of the right of the Board of Aldermen to establish in the Department of Education a Bureau of Lunches. For, in the Dobrovolsky case the gravamen of the decision was the absolute control which the Board of Aldermen and the Board of Estimate and Apportionment had over the petitioner's compensation, and, in reference to the Bureau of Lunches, I have demonstrated that the Board of Aldermen has by virtue of the statute of 1917, no authority whatsoever in relation to the establishment of it.

The next case which Mr. Battle cites is that of Clarke Co. vs. Board of Education, 156 App. Div., 842, aff'd 215 N. Y., 646. In that case the plaintiff sued to recover prospective profits on the theory that the defendant had made a contract with it for the construction of a public school. It appeared that the Board of Estimate and Apportionment and the Board of Aldermen had authorized the Comptroller to issue bonds, otherwise known as corporate stock for the erection of a school. Later the Board of Education accepted the plaintiff's bid, which was in excess of the authorized bond issue, subject to financial ability. The Court held that there was no binding contract between the plaintiff and the defendant, first, because the acceptance of the plaintiff's bid was contingent; and, second, because the defendant, not having absolute control of the proceeds of corporate stock, had no power to accept a bid which exceeded the amount of available funds.

Again, the basis of the Court's decision was the fundamental fact that, in reference to the erection of schools, the Board of Education did not have absolute freedom of action inasmuch as the Board of Aldermen and the Board of Estimate and Apportionment had the right to limit the use of the moneys derived from the sale of corporate stock. That enunciation of the respective functions of the Board of Education on the one hand and the fiscal authorities on the other is not, in my opinion, at all pertinent to the question of the power of the Board of Aldermen to establish a Bureau of Lunches in the Department of Education. In other words, if in the Clarke case it had been held not only that the Board of Aldermen and the Board of Estimate and Apportionment had the authority to authorize the raising of funds but also that the Board of Education could be compelled to erect a school a plausible analogy between that case and the present issue might have been drawn. But, in the present controversy, conceding for the sake of discussion that the fiscal authorities are not bound to supply the Board of Education with the money with which a Bureau of Lunches could be financed, it does not follow that the Board of Education can be compelled to institute such a Bureau.

Mr. Battle finally cites the General City Law, as amended by the Home Rule Act (Laws of 1913, chapter 247), which added Article 2-A. Mr. Battle argues that section 19, subdivision 16, authorizes the organization of a Bureau of Lunches, but section 23 provides that the powers conferred by the statute are to be exercised by those local officials who have jurisdiction of the subject matter. Hence, the statute, even if it mean what Mr. Battle contends, does not touch upon the question as to whether the Board of Aldermen or the Board of Education has power to establish the proposed Bureau of Lunches. Respectfully yours,

WILLIAM P. BURR, Corporation Counsel.

Alderman Collins moved the adoption of the report of the Committee.

Thereupon, Alderman Lee moved to disagree with the report of the Committee and to adopt the ordinance.

After discussion by Aldermen Collins, Lee, Hatch and the Vice-Chairman, Alderman Gaynor moved the previous question.

The President put the question, "Shall the main question be now put?"

Which was adopted.

The President put the question whether the Board would agree with said motion of Alderman Lee.

Which was decided in the negative by the following vote:

Affirmative—Aldermen Beckerman, Braunstein, Calman, Held, Lee, Vladeck, Wolff—7.

Negative—Aldermen Atwell, Bell, Bostwick, Buckley, Burden, Burke, Cassidy, Collins, Colne, Cox, Diemer, Dunn, Falconer, Farley, Ferguson, Ferrand, Fowler, Friedman, Fullum, Gaynor, Hatch, Haubert, Hilkemeier, Hogan, Kenneally, Kenney, McCourt, McGarry, McManus, McNulty, Martin, Molen, Moore, O'Brien, O'Rourke, Quinn, Roberts, Ryan, Schmitz, Stapleton, Walsh, Williams, Wirth, Zettler; President Van Name, by John E. Bowe, Assistant Commissioner of Public Works; President Connolly, by W. Augustus Shipley, Assistant Commissioner of Public Works; President Riegelmann, by Joseph Fennelly, Assistant Commissioner of Public Works; President Dowling; the Vice-Chairman, the President—50.

The President then put the question whether the Board would agree to accept said report.

Which was adopted by viva voce vote.

Report of the Committee on General Welfare in Favor of Adopting an Ordinance to Amend the Code of Ordinances, Relating to "Stands Within Stoop Lines and Under Elevated Railroad Stations."

The Committee on General Welfare, to which was referred on April 2, 1918 (Minutes, page 16), the annexed ordinance to amend section 149, article 13, chapter 23 of the Code of Ordinances, relating to "stands within stoop lines and under elevated railroad stations," respectfully

REPORTS:

Your Committee believes that this ordinance exempting veterans of any war in which the United States was or is engaged from an annual license fee for the stands under the stairs of elevated railway stations is a small recognition of the patriotic service performed by that class of citizens, and therefore recommends the adoption of the ordinance.

AN ORDINANCE to amend section 149 of article 13 of chapter 23 of the Code of Ordinances, relating to "stands within stoop lines and under elevated railroad stations."

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. Subdivision 4 of section 149 of article 13 of chapter 23 of the Code of Ordinances, relating to "stands within stoop lines and under elevated railroad stations" is hereby amended to read as follows:

4. License fees; term. The annual license fee for a stand under the stairs of an elevated railway station shall be \$10. All stands within the stoop line shall be classified and the annual license fee therefor shall be fixed and collected as specified in the schedule following:

- (a) Stands for the sale of newspapers, periodicals, or both, \$5;
- (b) Stands for the sale of fruits or soda water, or both, \$10;
- (c) Stands for the sale of cigars, or cigarettes, or tobacco, or the three, \$5;
- (d) Stands for the sale of candies or confectionery articles, or both, \$5;
- (e) Boot black stands, each chair, \$5.

A license may be issued, in accordance with the foregoing provisions of this section, and in the discretion of the commissioner, covering the sale of any combination of the classes of goods mentioned above, to be sold, however, from only one stand not exceeding the legal size hereinafter prescribed in this section; except that where boot black chairs are included in the combination the space hereinafter prescribed for boot black chairs may be allowed in addition to the stand for the sale of other articles. The fees to be paid for such combination licenses shall be calculated in accordance with the above schedule for each kind of article permitted to be sold, or for each boot black chair to be operated.

No license shall be required for stands within stoop lines for the sale of newspapers, periodicals, or both, in cases where such stands are conducted by dealers who are the owners or occupants of the premises or stores in front of which the same are situated. Licenses for stands within stoop lines or under the stairs of any elevated railway station shall be issued as of December 1 and shall expire on the 30th day of November next succeeding the date of issuance thereof.

No fee, however, shall be charged on applicant for a license hereunder who is a veteran of any war in which the United States was or is engaged (having served under the American colors), satisfactory evidence thereof having been presented to the Commissioner.

Sec. 2. This ordinance shall take effect immediately.

Report of the Committee on General Welfare Presenting to the Board, Without Recommendation, Resolution Requesting the Court House Board to Improve the Court House Site on Lafayette Street.

The Committee on General Welfare, to which was referred on May 7, 1918 (Minutes, page 177), the annexed resolution requesting the Court House Board to improve the Court House site on Lafayette street, respectfully

REPORTS:

Your Committee is of the opinion that inasmuch as the Corporation Counsel has heretofore expressed the opinion that the Court House site on Lafayette Street is entirely within the jurisdiction of the Court House Board, that it is unwilling to make any suggestion in regard to this proposed request, and reports the same for the consideration of the Board without recommendation.

Whereas, The City of New York is the owner of certain premises located on Lafayette, Leonard, Baxter, Park, Duane and Pearl Streets and City Hall Place, in the Borough of Manhattan, City of New York, which were purchased for the purpose of having erected thereon a new County Court House for New York County; and

Whereas, The City has been the owner of a portion of said premises since March 1st, 1913, and the remaining portion since May 6th, 1915, and since acquisition thereof nothing has been done to improve said premises, same being vacant and unemployed, bringing no income to the City, but on the contrary, have been the source of tremendous expense, and incidentally by reason of the present condition of the premises are an eyesore in a locality where land is extremely desirable and valuable; and

Whereas, The City paid for said premises the sum of \$12,031,562.36, for which amount up to December 31st, 1917, corporate stock was allotted; and

Whereas, The estimated annual interest at four per cent. on said sum amounts to \$481,262.49, and the estimated taxes lost through City ownership of the premises amounts to \$600,000; and

Whereas, That inasmuch as the proposed new court house will not be erected for many years to come, owing to the City's impoverished financial condition, considering the enormity of the interest bearing charges and taxes lost per annum, which, together amount to about half a million of dollars, by reason of the City ownership of said site, both of which have to be paid and stood for by the taxpayers of The City of New York, and further considering the high tax rate for the ensuing year; therefore be it

Resolved, By the Board of Aldermen of The City of New York:

1. That the Court House Board of The City of New York be and it hereby is respectfully requested to take any and all necessary and proper measures, as it may deem proper and advantageous to the people of the city, not in conflict or inconsistent with any legislative, judicial or other act relating to the use of said site, either to improve said site for the purpose of temporarily housing some of the City Departments, Boards, Commissions or other municipal bodies, to house which large sums of rent are being now paid by the City to private owners, or to lease said site of parts thereof to private parties for adequate rent, upon proper terms and for periods which will not interfere with the original purpose for obtaining said site, or to take such other steps or measures in the matter which will produce revenue to the City, and thereby assist in reducing the enormous carrying charges of the premises in question.

2. That the said Court House Board be and it hereby is respectfully requested to proceed with all convenient speed in the aforesaid matter, for the purpose of alleviating to some extent, if possible, the financial burden of the taxpayers of The City of New York, and also, to advise the Board of Aldermen of its contemplated action in the matter.

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Docks to Purchase an Automobile Without Public Letting.

The Committee on Public Letting, to which was referred on April 23, 1918 (Minutes, page 109), the annexed request of the Commissioner of Docks for authority to purchase an automobile without public letting, respectfully

REPORTS:

That Commissioner of Docks, Mr. Murray Hulbert, stated to the Committee he proposed purchasing a special make of auto and there would be no advantage in advertising for bids. He further stated that the amount, \$2,860, is insufficient and should be increased to \$3,800. Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Docks be and he is hereby authorized and empowered to purchase an automobile, in the open market without public letting, the cost thereof not to exceed three thousand eight hundred dollars (\$3,800).

The Brooklyn Museum, the Brooklyn Institute of Arts and Sciences, Eastern Parkway and Washington Avenue, Brooklyn, N. Y., February 21, 1918.

To the Honorable the Board of Aldermen of the City of New York:

Gentlemen—As provided by subdivision 8 of section 188 of the Greater New York Charter, we take the liberty of laying before you a request for an appropriation of special revenue bonds to the amount of \$3,600, to provide for the correction of a clerical error which caused the reduction of that amount in the Budget allowance made to the Central Museum of the Brooklyn Institute by the Board of Estimate at its meeting on the 19th of October, 1917.

At the executive meeting of the Board on that occasion a request was presented on behalf of the Central Museum, the Children's Museum and the Brooklyn Botanic Garden to increase certain salaries. After full discussion the Budget Committee ordered an increase of \$60 a year in salaries below \$1,200, making a total increase for the Central Museum of \$3,600. A memorandum to that effect was prepared and handed to the Clerk who had charge of making the changes in the Budget. Through carelessness or come inadvertence not explained he failed to make the change in the items relating to the Central Museum. The consequence was that the Budget, as delivered to the Secretary of the Board on the night of the 20th of October, 1917, did not contain this change.

The Museum increase was allowed to a class of employees who are especially suffering under the high expense of living and who had been compensated much below the standard adopted by the City and less than is paid the same class in similar institutions. It was not, therefore, through want of merit in their appeal, nor was it through the action of the responsible City authorities, but it was on account of an unfortunate accident that they were deprived of the increase.

We respectfully ask that you grant us a hearing that we may substantiate this statement and place the matter more clearly before you. Very truly yours,

A. AUGUSTUS HEALY, President, for the Trustees of the Brooklyn Institute.

Department of Finance, City of New York, May 4, 1918.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:

Dear Sir—Replying to your letter of the 11th ult., relative to the method of providing the sum of \$3,600 for increasing the salaries of employees of the Brooklyn Institute of Arts and Sciences. In my opinion the Board of Estimate and Apportionment would not sanction the transfer of these funds from salary and wage accruals. It would, therefore, be necessary, if the increases are authorized, to provide therefor by special revenue bonds under subdivision 8 of section 188 of the Charter. Yours very truly,

CHARLES L. CRAIG, Comptroller.

The President put the question whether the Board would agree with said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members of the Board having failed to vote in favor thereof:

Affirmative—Aldermen Atwell, Bassett, Beckerman, Bell, Braunstein, Buckley, Burden, Burke, Calman, Cassidy, Collins, Colne, Cox, Diemer, Dunn, Farley, Ferguson, Ferrand, Fowler, Friedman, Fullum, Gaynor, Gilmore, Hatch, Haubert, Held, Hilkemeier, Hogan, Kenney, Lee, McCourt, McGarry, McManus, McNulty, Martin, Molen, Moore, O'Brien, O'Rourke, Quinn, Roberts, Ryan, Stapleton, Vladeck, Walsh, Williams, Wirth, Wolff, Zettler; President Van Name, by John E. The Vice-Chairman moved that the vote by which the foregoing report and resolution was lost be reconsidered.

Which was adopted.

The proposition was then, on motion of the Vice-Chairman, restored to the Calendar of Special Orders.

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Parks, Brooklyn, to Purchase Asphalt Oils and Refined Liquid Tar Without Public Letting.

The Committee on Public Letting, to which was referred on April 9, 1918 (Minutes, page 49), the annexed request of the Commissioner of Parks, Borough of Brooklyn, for authority to purchase asphalt oils and refined liquid tar without public letting, respectfully

REPORTS:

Supt. Colgan of the Brooklyn Park Department appeared before the Committee and stated that this request was made necessary because of the inability to obtain bids for asphalt oils or refined liquid tar. He stated that the department could obtain the former for 12 cents a gallon and the latter for about 13 cents a gallon at private purchase, and, in view of these facts, your Committee recommends that the request be granted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Parks, Borough of Brooklyn, is hereby authorized and empowered to purchase without public letting 40,000 gallons of asphalt oils or 40,000 gallons of heavy refined liquid tar for road repair work during the year 1918.

City of New York, Department of Parks, Borough of Brooklyn, Litchfield Mansion, Fifth Street and Prospect Park West, April 6, 1918.

To the Honorable Board of Aldermen, City Hall, Manhattan:

Gentlemen—Your Honorable Board is hereby requested to approve of this Department purchasing without public letting a quantity, not exceeding 40,000 gallons, of asphalt oils, or 40,000 gallons of heavy refined liquid tar, for road repair work during the year 1918.

Our contract for asphalt oils was duly advertised and bids were to be opened last Thursday, but none was received. We are informed that the same occurrence happened in other City departments and that requests of a similar nature are now pending before your Board.

This material is urgently needed for repairs to most of our roadways which are of a temporary nature. We have also been informed that the asphalt companies supplying this material have not been able to get the same in sufficiently large quantities, on account of war conditions, to be able to bid on contracts for future deliveries, and that it might be possible for this Department to get small quantities at different periods, as required, under open market order, or, in case it was impossible to secure asphalt, that we would be in a position to use heavy liquid tar as a substitute for same, which material, we have been informed, can be secured now in small quantities. Very truly yours,

JOHN N. HARMAN, Commissioner.

The President put the question whether the Board would agree with said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members of the Board having failed to vote in favor thereof:

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Parks, Brooklyn, to Purchase Broken Stone Without Public Letting.

The Committee on Public Letting, to which was referred on April 23, 1918 (Minutes, page 107), the annexed request of the Commissioner of Parks, Borough of Brooklyn, for authority to purchase broken stone without public letting, respectfully

REPORTS:

Supt. Colgan of the Brooklyn Park Department appeared before the Committee in relation to this matter and stated that the lowest estimate received by the department for 1,000 cubic yards of broken stone was at the rate of \$3.10 per yard. He stated further that, after diligent inquiry, he was able to obtain this stone at the rate of \$2.75 per yard, an approximate saving of about 20 per cent.

Your Committee, therefore, recommends favorable action upon this request for the purchase of 1,000 yards of stone by the Commissioner of Parks for Brooklyn Borough, without public letting.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Parks, Borough of Brooklyn, is hereby authorized and empowered to purchase, without public letting, broken stone, not exceeding in total 1,000 cubic yards, at \$2.75 per yard.

JOHN McCANN, THOMAS M. FARLEY, GEORGE HILKEMEIER, JOHN J. RYAN, WILLIAM K. WALSH, STEPHEN F. ROBERTS, CHARLES J. MOORE, AUGUST FERRAND, Committee on Public Letting.

City of New York, Department of Parks, Borough of Brooklyn, Litchfield Mansion, Fifth Street and Prospect Park West, April 16, 1918.

To the Honorable Board of Aldermen, City Hall, Manhattan:

Gentlemen—In accordance with the provisions of section 419 of the Greater New York Charter, I hereby request that the Board of Aldermen authorize the purchase by this department, without public letting, of 3/4-inch, 1 1/2-inch and 2 1/2-inch broken stone, not exceeding in total 1,000 cubic yards. The reason for this request is that this Department has already advertised for broken stone in the above quantity and the lowest bid received was in the amount of \$3.10 per cubic yard.

This material will be required in small quantities during the year for patching purposes only; and on account of the exceedingly high prices of other highway materials which we have been compelled to purchase so far, it was impossible to award this contract.

If the above permission is granted, this Department has been informed that it will be possible for us to make purchases of stone in small amounts, as required, not exceeding above total quantity, at prices much lower than lowest bid received under advertised contract, which will be rejected on April 18th.

Very truly yours,

JOHN N. HARMAN, Commissioner.

The President put the question whether the Board would agree with said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members of the Board having failed to vote in favor thereof:

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Parks, Brooklyn, to Contract for Bathing Suits and Towels for Use at the Betsy Head Bath House Without Public Letting.

The Committee on Public Letting, to which was referred on April 23, 1918 (Minutes, page 109), the annexed request of the Commissioner of Parks, Borough of Brooklyn, for authority to contract for bathing suits and towels, for use at the Betsy Head bath house, without public letting, respectfully

REPORTS:

Supt. Colgan of the Brooklyn Park Department appeared before the Committee in relation to this matter and stated that estimates had been received from various laundries in regard to this proposition, and that the department was able to obtain this service, by private contract, for the sum of about \$5,000, which sum is within the appropriation, and is a saving of about \$300 in the expenditure for this service during the year 1917.

The Committee was informed that this service would be performed by a laundry in the immediate vicinity of the Betsy Head bath house, so as to insure promptness in delivery. The Committee, therefore, recommends the adoption of a resolution granting the request.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Parks, Borough of Brooklyn, is hereby authorized and empowered to enter into contract, without public letting, for bathing suits and towels, to be used at Betsy Head bath house for the season 1918.

Hon. Board of Aldermen, City Hall, New York City:

Gentlemen—You are respectfully requested to grant the Department of Parks, Borough of Brooklyn, permission to enter into contract without public letting for bathing suits and towels to be used at Betsy Head Bath House, situated in Betsy Head Playground, Hopkinson, Blake and Dumont Avenues, Brooklyn, for the season 1918.

Very truly yours,

JOHN N. HARMAN, Commissioner.

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Health to Make Repairs to the Steamboat "Franklin Edson" Without Public Letting.

The Committee on Public Letting, to which was referred on May 7, 1918 (Minutes, page 170), the annexed request of the Commissioner of Health for authority to make repairs to the steamboat "Franklin Edson," without public letting, respectfully

REPORTS:

Dr. Monaghan and Mr. Schikling appeared before the Committee and stated that the U. S. Steamboat Inspection Service ordered the steamboat "Franklin Edson" be placed in drydock for examination and that the repairs were proceeded with upon an estimate of cost between \$400 and \$500, but that subsequently repairs were ordered made to the hull of the steamboat which increased the total cost to the sum of \$1,220.18.

The communication from the Health Department under date of April 30, 1918, printed at page 170 in the minutes of May 7, 1918, sets forth in detail the necessary repairs to place the boat in a seaworthy condition, and your Committee therefore recommends the adoption of a resolution granting the same.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Health is hereby authorized and empowered to contract for necessary repairs to the steamboat "Franklin Edson," without public letting, at a cost not to exceed \$1,220.18.

JOHN McCANN, THOMAS M. FARLEY, GEORGE HILKEMEIER, STEPHEN F. ROBERTS, WILLIAM K. WALSH, ADOLPH HELD, CHARLES J. MOORE, AUGUST FERRAND, JOHN J. RYAN, JOHN F. MCCOURT, Committee on Public Letting.

City of New York, Department of Health, Office of the Secretary, April 30, 1918.

Hon. P. J. SCULLY, City Clerk, Municipal Building, New York City:

Dear Sir—Under date of February 1st, 1918, the U. S. Steamboat Inspection Service ordered that the Department steamboat "Franklin Edson" be placed in dry dock for examination prior to issuing of license. After considerable difficulties, owing to rush of government work, a dock was finally secured in Hoboken, N. J. After docking of boat and further inspection by the U. S. Inspector, the following items of repair were ordered done before certificate of inspection could be issued by the U. S. Steamboat Inspection Service:

"Three approved fire extinguishers.

"Lock nut to be placed on drip pipe between guards on starboard side as explained.

"Office to be notified when this vessel is on dry dock in order that further examination of hull may be made.

"Lower corner in back of port furnace (as marked) to be reinforced by approved welding.

"Star port furnace in lower corner in back end to be reinforced by same process.

"Joint on bottom blow to boiler to be renewed, outside shell to be painted, also scale removed inside of boiler.

"Engineer's report on fusible plugs to be sent to this office."

It was not anticipated that the work involved would exceed \$1,000, and furthermore, no definite estimate was obtainable, either from the Tietjen and Lang Company, at whose plant the boat was docked, or from other shipyards, as they all had more work than they could possibly handle. The boat was urgently needed at that time for transporting sailors suffering from contagious diseases from the Navy Yard and other cantonments to the various hospitals of the Department of Health, and as the time for the use of the dry dock was limited to six days, the firm was requested to proceed with the work under the direction of the U. S. Inspector. The cost of this work when completed amounted to \$1,220.18.

As this is in violation of section 419 of the Greater New York Charter, which provides that no work shall be done in excess of \$1,000 without public letting, and as this was entirely unforeseen, the Honorable Board of Aldermen is hereby respectfully requested to authorize the expenditure of \$2,500 for necessary repairs to the Department steamboat "Franklin Edson" without public letting, this sum to include additional repairs that will be ordered by the U. S. Inspectors at the next inspection in June. Yours very truly, FRANK J. MONAGHAN, Secretary.

The President put the question whether the Board would agree with said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members of the Board having failed to vote in favor thereof:

Affirmative—Aldermen Atwell, Bassett, Beckerman, Bell, Braunstein, Buckley, Burden, Burke, Calman, Cassidy, Collins, Colne, Cox, Diemer, Dunn, Farley, Ferguson, Ferrand, Fowler, Friedman, Fullum, Gaynor, Gilmore, Hatch, Haubert, Held, Hilkemeier, Hogan, Kenney, Lee, McCourt, McGarry, McManus, McNulty, Martin, Molen, Moore, O'Brien, O'Rourke, Palitz, Quinn, Roberts, Ryan, Stapleton, Vladeck, Walsh, Williams, Wise, Wolff, Zettler—50.

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Public Charities to Purchase X-Ray Equipment Without Public Letting.

The Committee on Public Letting, to which was referred on May 7, 1918 (Minutes, page 173), the annexed request of the Commissioner of Public Charities for authority to purchase X-Ray equipment, without public letting, respectfully

REPORTS:

Deputy Commissioner Nugent of the Department of Charities appeared before the Committee in relation to this matter and stated that the Coney Island Hospital has long been in need of an adequate X-Ray equipment, and that the entire cost of the same from Wappler Electric Co., Inc., would be \$2,311. He also stated that an allowance of \$811 would be made on the old equipment now in use, and it is recommended that a resolution be adopted for an expenditure of \$1,500, without public letting, by the Department of Charities, for the purpose of installing the proper X-Ray equipment.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Public Charities is hereby authorized and empowered to purchase in the open market, without public letting, X-Ray equipment for the Coney Island Hospital, at a cost of \$1,500.

Department of Public Charities of the City of New York, Municipal Building, Tenth Floor, May 4, 1918.

Re Permission to Purchase X-ray Equipment in the Open Market Without Public Letting.

To the Honorable the Board of Aldermen, City Hall, New York:

Gentlemen—I respectfully request permission of your Honorable Board to purchase X-ray equipment for the Coney Island Hospital in the open market, without public letting, at a cost of \$1,500.

It is proposed to purchase this X-ray equipment from the Wappler Electric Company, Inc. The entire cost of the equipment is \$2,311. They propose to allow us \$811 for our old equipment, which will be given them in part payment. We have requested permission from the Comptroller to make this exchange.

The Coney Island Hospital has long been in need of adequate X-ray equipment and the Department has an excellent opportunity to provide the institution with the equipment needed at a very small cost.

May I ask that this matter be given prompt attention by your Honorable Board?

Very truly yours,

BIRD S. COLER, Commissioner.

Y. This variation to take effect immediately and to continue until July 1, 1918, with the understanding that further certificate will be furnished at the expiration of said time should the emergency still exist.

Whereas, Thompson & Binger, Inc., of Gurney Building, Syracuse, N. Y., on behalf of the Hires Condensed Milk Co., Morristown, N. Y., filed a petition dated Jan. 25, 1918, which said petition was amended March 27, 1918, for a variation from the provisions of Section 79-a

and 6 of the Labor Law, re construction of stairways and elevator in the proposed building of the Hires Condensed Milk Co., at Morristown, N. Y.; and

Whereas, a public hearing was held on the 27th day of March, 1918, at Syracuse, N. Y., at which opportunity for all interested persons to be heard thereon was given; and

Whereas, an examination of the plans of the said proposed building was made and a report of such examination is on file in the offices of the Commission, from which examination it appears that the said proposed building will be three stories in height, of fireproof construction, approximately 240 feet by 60 feet on ground floor, 180 feet by 60 feet on second floor, and 80 feet by 60 feet on third floor, occupied by owners for the manufacture of condensed milk, with an occupancy of not more than 15 persons above the ground floor; exits will consist of one interior fireproof enclosed stairway from ground floor to roof, with clear glass ventilated window in pent house, skylight omitted; a second interior fireproof enclosed stairway extending to the roof of second story with a door leading from third floor to pent house, which has a clear glass ventilated window, also a door leading to roof; exit at ground floor is through a fireproof enclosed passageway to outer air; a third interior stairway terminating at second floor level, enclosed on first floor; there will be an elevator 5 feet 6 inches by 6 feet 3 inches with fireproof enclosed hoistway terminating at third floor level, no opening on second floor; elevator will be arranged with chain belt for hoisting barrels from ground and automatically discharging them on third floor. And there appearing from such examination and public hearing that there are practical difficulties and unnecessary hardship in carrying out the strict provisions of the law or the rules and regulations of the Industrial Code on the said proposed building and that in the granting of a variation on said proposed building the spirit of the law and rules and regulations will be observed and public safety secured.

Be it resolved by the State Industrial Commission that a variation be and it hereby is granted to the Hires Condensed Milk Co., on its proposed building at Morristown, N. Y., upon the following terms:

That exits and elevator constructed as described above be permitted.

Be it further resolved, That the said variation is granted only during the period that the conditions above set forth as to exits, number of occupants, nature of industry, etc., are maintained.

Dated, May 14, 1918.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant, free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Water Supply, Gas and Electricity with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building. Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
