MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 984.

City of New York, Office of the Mayor, October 1, 1908.

To the Honorable, the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, with my disapproval, a resolution adopted by your Honorable Board on September 22, 1908, entitled:

"Resolution authorizing the Commissioner of Docks to make repairs to certain parcels of water-front property without public letting."

I am of the opinion that section 419 of the Charter, in regard to the public letting of contracts should be complied with, except in extraordinary cases. There are no facts before me to show that the items mentioned in the proposed resolution come within such a rule.

Respectfully,

GEO. B. McCLELLAN, Mayor.

The Committee on Public Letting, to which was referred on June 30, 1908 (Minutes, page 860), the annexed communication from the Commissioner of Docks, asking authority to make repairs to ten parcels of water-front property without public letting, respectively

REPORTS:

That having examined the subject, the Committee accepts the explanation of Commissioner Spooner as to the necessity of this work, and the statement that it can be more economically done in this manner, and, therefore, recommends that the attached resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Docks be and he is hereby authorized and empowered to do the following enumerated work by the force of the Department of Docks and Ferries, without advertising for bids or contracting for the same at public letting, at the respective estimated costs noted:

No. 1088.

City of New York, Office of the Mayor, October 1, 1908.

To the Honorable, the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, with my disapproval, a resolution adopted by your Honorable Board on the 22d of September, 1908, entitled:

"Resolution permitting L. Zuckerman to erect two lamp-posts."

I am of the opinion that Delancey street should be kept as free and clear as possible.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Resolved, That permission be and the same is hereby given to L. Zuckerman to place and keep two posts, surmounted by lamps, within the stoop line in front of his premises, No. 168½ Delancey street, in the Borough of Manhattan, provided the said posts and lamps shall be erected so as to conform in all respects with the ordinance in such case made and provided, not to be used for advertising purposes; the work to be done and illuminants supplied at his own expense, under the direction of the President of the Borough; such permission to continue only during the pleasure of the Board of Aldermen.

No. 1090.

City of New York,
Office of the Mayor,

To the Honorable, the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, with my disapproval, a resolution adopted by your Honorable Board on the 22d of September, 1908, entitled:

"Resolution permitting Val. Schmitt to erect an awning."

This proposed ordinance is not to erect a temporary rain awning, but appears to be an iron and glass awning or marquise in front of No. 592 Fulton street, Brooklyn. I am of the opinion that Fulton street should not be encumbered in this manner.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Resolved, That permission be and the same is hereby given to Valentine Schmitt to place and keep an awning or marquise of iron and glass in front of his premises, No. 592 Fulton street, in the Borough of Brooklyn, provided the said awning or marquise shall be erected so as to conform in all respects with the ordinance in such case made and provided, not to be used for advertising purposes; the work to be done at his own expense, under the direction of the President of the Borough. No. 1101.

To the Honorable, the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, with my disapproval, a resolution adopted by your Honorable Board on the 22d of September, 1908, entitled:

"Resolution permitting auto tests on Fort George Hill on October 17, 1908."

In view of the late decision in the Court of Appeals in Johnson vs. City, 186 N.Y. 139, I am of the opinion that the speed regulations should not be dispensed with except under the proper supervision of the Police Commissioner, at the request of responsible clubs or associations.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Resolved, That the speed regulations be dispensed with on October 17, 1908, between the hours of 12 m. and 6 p. m., on Fort George Hill, in order to facilitate certain automobile tests.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

No. 1104.

To the Honorable, the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, with my disapproval, a resolution adopted by your Honorable Board on the 22d of September, 1908, entitled:

"Resolution permitting the Slutzer Y. M. C. A. to drive an advertising wagon."

The proposed resolution contains not only a permission to drive an advertising wagon, but to have music in the same. I am of the opinion that the latter part of the proposed ordinance should not be allowed.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Resolved, That permission be and the same is hereby given to the Slutzer Young Men's Benevolent Association to drive an advertising wagon, with music, through the streets and thoroughfares of the Borough of Manhattan, under the supervision of the Police Department. Such permission to continue only for the period of thirty days from the receipt hereof from his Honor the Mayor.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

No. 1113.

City of New York—Office of the Mayor,
October 1, 1908.]

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, with my disapproval, a resolution adopted by your Honorable Board on the 22d of September, 1908, entitled:

"Resolution permitting the American News Company to keep platforms Nos. 8, 10 and 12 Murray street, Manhattan."

I am of the opinion that platforms on this important street, so near Broadway, would be inadvisable.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Resolved, That permission be and the same is hereby given to the American News Company to place and keep two platforms, not exceeding eight feet in length, each within the stoop line in front of their premises Nos. 8, 10 and 12 Murray street, in the Borough of Manhattan, the said platforms to be used in facilitating the receipt and delivery of merchandise, and to be constructed so as to leave a free passageway for pedestrians at all times; the work to be done at said American News Company's expense, under the direction of the President of the Borough, such permission to continue only during the pleasure of the Board of Aldermen.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

MOTIONS, ORDINANCES AND RESOLUTIONS.

Alderman Mulligan asked and obtained unanimous consent to introduce the following:

No. 1158.

Whereas, The receiver of the Union Railway Company has posted cards within the cars of said company containing printed matter notifying the public in effect, that "on and after October 7, 1908," an extra fare will be exacted of the people who go beyond a certain limit within the city limits known as Wakefield, in the Borough of The Bronx; and

Whereas, This said company or companies have received valuable privileges from the authorities governing said localities previous to annexation with the explicit understanding that in return for such valuable privileges the people of said section would be benefited by cheap and comfortable transit; and

Whereas, Said company has never lived up to the promises made, but, on the contrary, has violated all of them, and the service rendered has been a crying shame; therefore be it

Resolved, That we, the Honorable Board of Aldermen here assembled, do protest against a further hardship being inflicted on the people of this section by the imposing of an extra fare; and be it further

Resolved, That a copy of this resolution be forwarded forthwith to Receiver Whitridge and General Manager Maher and the Public Service Commission.

Which was adopted.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communications from the Board of Estimate and Apportionment transmitting ordinances.

No. 1164.

Board of Estimate and Apportionment,
Office of the Secretary, No. 277 Broadway,
October 3, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment October 2, 1908, recommending the issue of \$32,200 Corporate Stock for the use of the Topographical Bureau, and for expenses connected with the preparation of drainage and sewerage district plans, Borough of The Bronx.

I also inclose herewith copy of communication from the President, Borough of The Bronx, and copy of report of the Comptroller relative thereto; together with form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

September 3, 1908.

Board of Estimate and Apportionment:

Gentlemen—I respectfully ask the Board of Estimate and Apportionment to issue Corporate Stock in the sum of \$21,600 to meet the expenses of the Topographical Bureau of this office, for use in 1908 in the sum of \$10,000 and to meet the expenses for the month of January, 1909, in the sum of \$11,600, aggregating said total of \$21,600.

The monthly payroll, including the monthly bills charged to the Fund for the Topographical Bureau, amount to

\$10,183.70 per month, which makes for five months..... \$50,918.50

Contracts pending against this fund..... 3,785.00

Weekly payroll for the Laborers for the remaining five (5) months..... 3,355.00

Total..... \$58,058.50

The balance on hand of the Fund for the Topographical Bureau August 1, 1908..... \$44,441.24

Premium on bonds..... 3,972.44

Total..... 48,413.68

Total deficit for the remainder of the year 1908..... \$9,644.82

In 1908 the authorization of the issue of Corporate Stock for the needs of the Topographical Bureau for that year was not adopted by the Board of Estimate and Apportionment until January 17, 1908; but at that time there was a balance to the credit of the Fund for Topographical Bureau sufficient to pay the salaries of the employees of said Bureau chargeable to said fund for the month of January, 1908, if the authorization of the stock issue of January 17 had been delayed. The \$21,600 asked for is therefore absolutely necessary, not only the \$10,000 required during the year 1908, but also the \$11,600 for January, 1909; for if there are no funds available for the purpose on January 1, 1909, the services of the employees chargeable to said fund cannot be engaged and must wait until the funds are authorized. The estimated total amount required for 1909 of Corporate Stock issue, for Fund for Topographical Bureau for this office, is \$13,870, in addition to the above.

I would also respectfully ask the Board of Estimate and Apportionment to authorize the issue of Corporate Stock in the sum of \$10,600 for Drainage and Sewerage District Plans.

This additional amount required by the Bureau of Sewers for the remainder of the year 1908 is rendered necessary because the work of preparing contract plans has been materially lessened and will soon be completed, and because it now seems probable that no additional construction work will be authorized for several months to come; under these circumstances the force which has been heretofore engaged on this

class of work can be employed to advantage by assigning it to assist in the work of preparing Drainage and Sewerage District Plans for this Borough.

It will, therefore, be necessary to have the additional appropriation requested granted for this purpose, and it is therefore respectfully recommended that the Board of Estimate and Apportionment authorize the issue of Corporate Stock in the amount of \$10,600 in addition to that heretofore authorized, for Drainage and Sewerage District plans for this Borough.

The Engineer in Charge of Sewers has prepared in detail the cost of the additional force to be chargeable to this work, as follows:

Office Force.	\$1,800.00
2 Assistant Engineers, at \$2,700, four months.....	550.00
1 Assistant Engineer, at \$1,650, four months.....	1,200.00
2 Computers, at \$1,800, four months.....	600.00
1 Topographical Draughtsman, at \$1,800, four months.....	600.00
1 Mechanical Draughtsman, at \$1,800, four months.....	550.00
1 Topographical Draughtsman, at \$1,650, four months.....	550.00
1 Mechanical Draughtsman, at \$1,500, four months.....	500.00
6 Topographical Draughtsmen, at \$1,500, four months.....	3,000.00

Field Force.	\$10,600.00
1 Transitman, at \$1,800, four months.....	600.00
1 Rodman, at \$1,350, four months.....	450.00
2 Axemen, at \$900, four months.....	600.00
Supplies.....	150.00

I would respectfully request that these requests be placed on the first Financial Calendar of the Board of Estimate and Apportionment, so that the Board may act upon the same without delay.

Yours truly,
LOUIS F. HAFFEN,
President, Borough of The Bronx.

September 24, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—In a letter dated September 3, 1908, the Hon. Louis F. Haffen, President of the Borough of The Bronx, asks the Board of Estimate and Apportionment for an issue of Corporate Stock to the amount of \$21,600 for the expenses of the Topographical Bureau of the Borough of The Bronx; and also for an appropriation of \$10,600 in Corporate Stock for drainage and sewerage plans in the Borough of The Bronx.

I have looked into the matter in detail and I find that the balance available from former appropriations made by the Board for this work is as quoted in the letter of President Haffen, and that the present payroll is as indicated, and there will be a deficit on January 1, 1909, unless further funds are provided.

In a report dated January 13, 1908, the Chief Engineer of this Department recommended an appropriation of \$80,000 for this purpose, which with a balance then on hand made available for the work of the Topographical Bureau for the year 1908, \$124,000.

Since this is work which should be continued until completion and the dispersion of the force now engaged thereon would be a calamity and loss to the Borough of The Bronx, I believe that the appropriation should be made as requested.

I therefore recommend that the Board of Estimate and Apportionment authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock to the amount of \$44,600 for the use of the Topographical Bureau, Borough of The Bronx.

As to the request for \$10,600 for the preparation of drainage and sewerage district plans for the balance of 1908, I find that in a report dated December 9, 1907, the Chief Engineer of this Department recommended an appropriation of Corporate Stock to the amount of \$10,000 for this work.

A corps of Engineers are now and have been engaged upon this work during the past year and it is desired with the appropriation requested to assign additional men to the work that it may proceed faster.

This work also like that of the Topographical Bureau should be pushed to completion and for the reasons mentioned above I believe that the appropriation should be made.

I therefore recommend that the Board of Estimate and Apportionment authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock to the amount of \$10,600 for the expenses connected with the drainage and sewerage plans for the Borough of The Bronx.

Respectfully,
(Signed) W. H. ROBERTS,
Assistant Engineer in Charge of Bureau.

Approved:

Hon. HERMAN A. METZ, Comptroller:

Sir—Under date of April 29, 1908, the Hon. John V. Coggey, Commissioner, Department of Correction, asks the Board of Estimate and Apportionment for an issue of Corporate Stock to the amount of \$4,000,000, to provide funds for the erection of the proposed new Penitentiary on Rikers Island, New York City.

It will be recalled that plans were adopted for this Penitentiary and considerable work done in the preparation of detailed drawings and specifications for the group of buildings.

These buildings comprise the administration building, men's cell building, chapel, mess hall, boiler house and engine rooms, bakery, shops, stable, bathhouse, men's hospital, isolating ward (men's), women's cell building, women's hospital, isolating ward (women's), workshops and laundry; and in addition thereto provisions must be made for prison walls, water supply and sewerage disposal, a central heating plant, roads, sidewalks, etc.

The time necessary to erect all these buildings will be several years at least, and it would seem that a certain group might be selected, the erection of which to be proceeded with first, that they may be fitted for service as soon as possible and the congestion on Blackwells Island thereby relieved.

I have gone over the matter in detail, and I believe that an appropriation at the present time of \$2,250,000 to provide for the erection of an administration building, men's and women's cell buildings, mess hall, central heating plant, shops and a bath building will be quite sufficient. This group of buildings will provide for a large number of prisoners of both sexes, both as to administration, housing and all necessary requirements.

If the financial condition of the City will permit I therefore recommend that the Board of Estimate and Apportionment authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock to the amount of \$2,250,000, to provide funds for the erection of the above list of buildings to form part of the Rikers Island Penitentiary.

Respectfully,

CHANDLER WITTINGTON, Chief Engineer.

Approved.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment October 2, 1908, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

The President laid before the Board the following communication from the Corporation Counsel:

No. 1166.

City of New York—Law Department,
Office of the Corporation Counsel, Hall of Records,

September 25, 1908.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I have the honor to transmit for your approval a resolution to amend a resolution of January 24, 1905, approved by the Mayor February 1, 1905, by which the Comptroller was permitted to advance a sum not exceeding \$1,000 to the order of the Corporation Counsel, from the Supplies and Contingencies of the Law Department for the purpose of defraying contingent expenses and supplies for the Law Department.

The proposed amended resolution is to increase the amount so advanced to the sum of \$1,500, which becomes necessary owing to the great increase of business in the Law Department, especially in the amounts due for witness and court fees and other large items which must be paid on the spot.

Trusting that you will take this matter into your favorable action, I am,

Respectfully yours,

G. L. STERLING,
Acting Corporation Counsel.

Whereas, The following resolution was passed by the Board of Aldermen January 24, 1905, and approved by the Mayor February 1, 1905, viz.:

That for the purpose of defraying any minor or incidental expenses contingent to the Law Department, office of the Corporation Counsel, the Corporation Counsel may, by requisition, draw upon the Comptroller for a sum not exceeding one thousand dollars. The Corporation Counsel may, in like manner, renew the draft as often as may be deemed necessary, to the extent of the appropriation set apart for the supplies and contingencies of the Law Department, office of the Corporation Counsel, but no such renewal shall be made until the money paid upon the preceding draft shall be accounted for to the Comptroller by the transmittal of a voucher or vouchers, certified by the Corporation Counsel, covering the expenditure of money paid thereon.

Provided, however, that upon the receipt of vouchers showing the payment of moneys upon the said draft, to the extent of five hundred dollars, the Comptroller may draw his warrant to the order of the Corporation Counsel for the sum of five hundred dollars in part disbursement of the advance of one thousand dollars; and

Whereas, It has been found that between the time the paid vouchers and requisition for a further draft are sent to the Finance Department a week or more elapses before a further draft is received, and in consequence the Chief Clerk of the Law Department is required to advance large sums from his own personal resources; therefore

Resolved, That the aforesaid resolution be amended as follows:

"That for the purpose of defraying any minor or incidental expenses contingent to the Law Department, office of the Corporation Counsel, the Corporation Counsel may, by requisition, draw upon the Comptroller for a sum not exceeding fifteen hundred dollars. The Corporation Counsel may, in like manner, renew the draft as often as may be deemed necessary, to the extent of the appropriation set apart for the supplies and contingencies of the Law Department, office of the Corporation Counsel, but no such renewal shall be made until the money paid upon the preceding draft shall be accounted for to the Comptroller by the transmittal of a voucher or vouchers, certified by the Corporation Counsel, covering the expenditure of money paid thereon.

"Provided, however, that upon the receipt of vouchers showing the payment of moneys upon the said draft to the extent of five hundred dollars, the Comptroller may draw his warrant to the order of the Corporation Counsel for the sum of five hundred dollars in part disbursement of the advance of fifteen hundred dollars."

The City of New York,
Office of the President of the Borough of Brooklyn,

Brooklyn, October 5, 1908.

To the Honorable the Board of Aldermen:

Gentlemen—A fire in the Kings County Court House made necessary an expenditure of fifteen thousand dollars for repairs. The business of the courts required that these repairs be made at once, and, in order to expedite the matter at the request of the Justices, the contract was charged to "Maintenance of Buildings and Offices, Repairs"; appropriation, President of the Borough of Brooklyn, 1908. Request is hereby made for an issue of Special Revenue Bonds to the extent of fifteen thousand dollars to reimburse the appropriation to the President of the Borough of Brooklyn for the year 1908, "Maintenance of Buildings and Offices, Repairs, Bureau of Public Buildings and Offices."

The President laid before the Board the following communications from the Trustees of Bellevue and Allied Hospitals:

No. 1169.

Bellevue and Allied Hospitals,
First Avenue and Twenty-sixth Street,
New York, September 29, 1908.

HON. PATRICK F. McGOWAN, President of the Board of Aldermen:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize the issue of Special Revenue Bonds to the amount of \$65,600, to meet deficits on the several appropriations of this Department for 1908, as follows:

Supplies—

Provisions..... \$20,000.00
Kitchen, dining rooms, laundry and housekeeping..... 12,000.00
Mechanical, building and grounds..... 20,000.00
Office supplies..... 1,000.00
Stable and ambulance..... 8,000.00
Building alterations, maintenance and repairs..... 4,600.00

\$65,600.00

The actual deficit on the several appropriations for the year is \$90,500, but as there is a surplus of \$25,000 on salaries available for transfer the amount for which an additional appropriation is necessary is \$65,600.

This deficit is caused by the fact that when the estimate for 1908 was prepared the new Fordham and Harlem Hospitals had only been in operation about three months and it was then impossible to accurately estimate the requirements for the year 1908. In addition, the census and corresponding requirements of the other hospitals has been greater than was expected.

When these new institutions were opened it was necessary to engage Graduate Nurses at a salary of \$600 each, because of the impossibility of securing Pupil Nurses. Since that time the Training School has instituted a course in Post Graduate nursing and has succeeded in obtaining a number of Graduate Nurses to take the course at a salary of \$300 each. The employment of a number of Pupil Nurses through affiliation with certain other training schools, has also reduced the cost of nursing in these institutions. The total saving in the cost of nursing in these two hospitals is about \$25,000. This explains how there is such a large surplus available for transfer to the funds on which there are deficits.

Respectfully,

J. K. PAULDING, Secretary, Board of Trustees.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of sixty-five thousand six hundred dollars (\$65,600), the proceeds whereof to be used by the Trustees of Bellevue and Allied Hospitals for the purpose of meeting deficits in several appropriations for the year 1908, as follows:

HON. PATRICK F. McGOWAN, President, Board of Aldermen, City Hall, New York:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize the issue of Special Revenue Bonds to the amount of \$10,000 in order to meet the expense of converting one of the wards of Bellevue Hospital into isolating rooms and two other wards into rooms for the additional members of the house staff whom it is necessary to accommodate consequent upon the opening of the new Pavilions A and B.

Plans for the construction of new isolating rooms have been prepared in accordance with the suggestion of the Board of Health, who have pronounced the present facilities for isolating patients suffering from infectious diseases entirely inadequate.

The Trustees have been compelled to rent rooms outside the hospital to accommodate a number of internes for whom no provision could be found in the hospital. As this arrangement is detrimental to the interests of the Department it is proposed to change two of the wards of the old hospital into house rooms as soon as practicable.

Respectfully,

J. K. PAULDING, Secretary, Board of Trustees.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be used by the Trustees of Bellevue and Allied Hospitals for the purpose of meeting the expense of converting one of the wards of Bellevue Hospital into isolating rooms and two other wards into rooms for the additional members of the house staff, whom it is necessary to accommodate consequent upon the opening of the new Pavilions A and B.

To the Honorable Board of Aldermen:

Gentlemen—I transmit herewith an extract from the minutes of the meeting of the Commissioners of the Sinking Fund, held September 23, 1908, containing a resolution assigning to the President of the Borough of Brooklyn, subject to concurrence by the Board of Aldermen, the bed of Carroll street, between Rogers and Nostrand avenues, in the Borough of Brooklyn.

Very truly yours,

N. TAYLOR PHILLIPS,
Secretary, Commissioners of the Sinking Fund.

The Comptroller presented the following report and offered the following resolution relative to the turning over of the bed of Carroll street, between Rogers and Nostrand avenues, in the Borough of Brooklyn, to the President of the Borough of Brooklyn:

August 12, 1908.

HON. HERMAN A. METZ, Comptroller:

Sir—The City, by an act of the Legislature, disposed of its property known as the Kings County Penitentiary by sale at public auction to the highest bidder, but reserved to itself title to the bed of Carroll street, between Rogers and Nostrand avenues.

Inasmuch as proceedings have been started for the opening of Carroll street, I would respectfully recommend that the Commissioners of the Sinking Fund turn over to the President of the Borough of Brooklyn the property so reserved, lying within the lines of Carroll street, between Rogers and Nostrand avenues.

Respectfully submitted for approval.

HON. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment October 2, 1908, recommending the establishment of the grade of position of Foreman of Stables in the Police Department, in addition to those already existing therein, with salary at \$2,000 per annum, for one incumbent, as of date November 1, 1908.

I also inclose copy of report of the Select Committee, consisting of the Comptroller and the President, Board of Aldermen, relative thereto, together with form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

June 15, 1908.

HON. HERMAN A. METZ, Comptroller:

Sir—In the matter of the communication of Hon. Theo. A. Bingham to the Board of Estimate and Apportionment, requesting an increase in the salary of the Foreman of Stables, Police Department, from \$1,200 to \$2,000 per annum, referred to the Comptroller and the President, Board of Aldermen, and referred by you to the Bureau of Municipal Investigation and Statistics, I beg to report as follows:

The salary of Foreman of Stables has remained at \$1,200 per annum for a number of years, although the duties and responsibilities of the position have been greatly increased through large additions to the number of stables owned and leased, and in the number of horses owned by the Department. The Foreman of Stables has direct supervision and is held responsible for the care and condition of eighty-four stables and 703 horses. He is also required to certify to the quality of forage delivered under

contract and to render frequent reports regarding the condition of wagons and harness. He is, in fact, in charge of all the Department stables, horses, wagons and their equipments in the five Boroughs.

T. H. Shanton, the present occupant of the position, was appointed from the Civil Service list February 7, 1908, to fill a vacancy caused by death. He has had many years' experience in the management of stables and care of horses, and accepted the position with the expectation that his salary would be increased.

It would seem that a salary of \$1,200 per annum is inadequate compensation for Foreman of Stables of such an important Department as the Department of Police, especially when it is taken into consideration that within a few years the number of stables and horses have been increased threefold. Stable Foremen employed by proprietors of our large department stores receive salaries ranging from \$2,500 to \$4,000 per annum, and their duties are far less exacting.

Your Examiner recommends that the request of the Police Commissioner to fix the salary of the position of Foreman of Stables at \$2,000 per annum be granted.

Yours respectfully,

(Signed) CHAS. S. HERVEY,
Supervising Statistician and Examiner.

The President laid before the Board the following communication from the Department of Water Supply, Gas and Electricity:

No. 1173.
Department of Water Supply, Gas and Electricity, }
Commissioner's Office, Nos. 13 to 21 Park Row, }
New York, October 2, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—In connecting the small or lateral mains with the distributing pipes, the Department, in several years past, has used a patented device for boring the trunk main and connecting the small pipe without shutting down or in any manner interfering with the flow of water. By the use of this connection the water consumer is not inconvenienced by the temporary stoppage of the supply of water, nor is it necessary to shut down hydrants, in which case the Fire Department might be greatly hampered or embarrassed in case it was found necessary to get a supply of water from said hydrants.

In past years the Board of Aldermen have granted permission for the purchase of this patented device. It is not possible to draw up specifications or contract for the purchase of this article, as provided by section 419 of the Charter, and I therefore ask the Honorable Board of Aldermen to grant permission for the expenditure of ten thousand dollars (\$10,000) for the purchase of these patented connections.

I attach hereto a form of resolution which I respectfully request be presented to the Board.

Respectfully,
JOHN H. O'BRIEN, Commissioner.

Resolved, That, in accordance with the provisions of section 419 of the amended Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized to purchase, without public letting, certain patented devices for connecting water mains, at an expense not to exceed ten thousand dollars (\$10,000).

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from the Fire Commissioner:

No. 1174.
Fire Department—City of New York, }
Nos. 157 and 159 East Sixty-seventh Street, }
Borough of Manhattan, September 30, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Sir—The presentation of medals to those members of the Uniformed Force of this Department who conspicuously distinguished themselves during the year 1907 in the saving of human life at fires, is to take place on a day during the month of October, 1908, and at a point on Riverside Drive hereafter to be determined upon, attended by an exhibition of part of said force. I have the honor to request that the Board of Aldermen, pursuant to the provisions of section 39 of the Greater New York Charter, authorize the expenditure of a sum not exceeding two thousand dollars (\$2,000) for the erection of stands, the appropriate decoration thereof, the providing of music, the hiring of chairs, and for all other incidental purposes in connection with the occasion, and, further, that your Honorable Board, pursuant to the provisions of section 419 of said Charter, authorize the expenditure of an amount not to exceed two thousand dollars (\$2,000) for the objects above specified, otherwise than by contract at public letting.

I inclose draft of resolution designed to effect the object in view, and earnestly request the prompt and favorable action of the Board of Aldermen in this matter.

Respectfully,
NICHOLAS J. HAYES, Fire Commissioner.

Resolved, That, pursuant to the provisions of section 39 of the Greater New York Charter, the Fire Commissioner be and is hereby authorized to incur an expenditure not exceeding the sum of two thousand dollars (\$2,000) for the erection of stands, the appropriate decoration thereof, the providing of music, the hiring of chairs, and for all other incidental purposes in connection with the presentation of medals for 1907 to members of the Uniformed Force of the Fire Department; and further, that, pursuant to the provisions of section 419 of the Greater New York Charter, the Board of Aldermen, deeming it in the public interest so to do, hereby authorizes the expenditure by the Fire Commissioner of an amount not exceeding said two thousand dollars (\$2,000) for the purposes herein specified, otherwise than by contract at public letting.

Which was referred to the Committee on Public Letting.

You will observe that before the Building Code Revision Commission can make a definite recommendation in regard to this provision the Board of Aldermen will have to hold a public hearing, and it will have to be approved by the Board of Estimate and Apportionment.

NEW YORK AND QUEENS COUNTY RAILWAY COMPANY.

In the matter of the application of the New York and Queens County Railway Company for a franchise to construct, maintain and operate two extensions or branches to its existing railway in the Borough of Queens, one from the former Village of Flushing to the Village of Whitestone, and one from Ingleside to Bayside.

At the meeting of June 26, 1908, an opinion was received from the Corporation Counsel suggesting that the form of contract as proposed by the Select Committee be amended in certain particulars, and the counsel for the company declined to accept the amendment suggested by the Corporation Counsel with regard to paving and notice required to be given through the City Record, when the matter was referred back to the Select Committee.

The Secretary presented the following:

NEW YORK, September 16, 1908.

HON. GEORGE B. McCLELLAN, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—On June 14, 1907, the New York and Queens County Railway Company applied to the Board of Estimate and Apportionment for a franchise to construct, maintain and operate two street surface railway extensions to its existing system:

1. From Flushing to Whitestone;
2. From Flushing to Bayside.

This application was the subject of a report by the Chief Engineer of the Board, with which was submitted a form of agreement for such franchise, which report was, at the conclusion of a public hearing held by the Board of Estimate and Apportionment July 8, 1907, referred to a Select Committee consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Queens.

Your Committee has considered the urgent requests for the granting of this franchise made at its hearings by representatives of the owners of property in the neighborhood of the proposed extensions, and also the vigorous objections to many of the provisions of the proposed franchise made by the company, which has refused to accept the franchise under conditions other than those prescribed by the Railroad Law on the ground that present conditions and future prospects for traffic in this section are not sufficient to justify the construction and operation of the extensions under less favorable terms.

Your Committee has decided that it is to the best interests of the sections benefited by the proposed extensions to recommend the grant to this railroad company of a franchise based solely upon the provisions of the Railroad Law as to the terms and conditions, stipulating, however, that a cash payment of \$500 is to be made for the franchise for each extension, that the roads are to be finished and in operation by the 31st day of December, 1908, and in the event of the failure of the company to construct and operate these extensions by that date the franchise is to become null and void; and, furthermore, that there shall be inserted in the franchise the usual clauses with regard to paving and notice required to be given through the City Record.

Many delegations of citizens and many property owners have urged the Committee to make the construction of these extensions possible on almost any conditions, and we believe that by the grant of the franchise proposed as set forth in the contract hereto annexed the rights of the City will be fully protected, and we respectfully recommend that the franchise be granted on the terms proposed in the contract hereto annexed, which should be approved as to form by the Corporation Counsel.

Respectfully,

H. A. METZ,
Comptroller:

P. F. McGOWAN,
President, Board of Aldermen;
LAWRENCE GRESSER,
President, Borough of Queens.

Proposed Form of Contract.

This contract, made this day of , 1908, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the New York and Queens County Railway Company, a street surface railway corporation formed under and pursuant to the Laws of the State of New York (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1.—The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth the right and privilege to construct, maintain and operate a double track extension to its present street surface railroad by the overhead electric system similar to that now used by the Company in the Borough of Queens, with the necessary switches, crossovers, wires and equipment, for the purpose of conveying persons and property in the Borough of Queens, in The City of New York, upon the following routes:

Beginning at and connecting with the existing track of the Company at the intersection of Broadway and Main street in the former Village of Flushing, Borough of Queens, running thence easterly upon and along Broadway to Whitestone avenue; thence northerly upon and along Whitestone avenue to Chestnut street or avenue; thence easterly upon and along Chestnut street or avenue to and across Flushing avenue; thence still easterly through private property along the line of the continuation of Chestnut street or avenue to Murray lane; thence northerly upon and along Murray lane to Higgins lane; thence easterly upon and along Higgins lane to a point where Ninth avenue, if extended, would intersect said Higgins lane; thence northerly through private property along the line of Ninth avenue to Fourth street; thence westerly upon and along Fourth street to Eighth avenue; thence northerly upon and along Eighth avenue to Twenty-first street; thence easterly upon and along Twenty-first street to Eleventh avenue; thence northerly upon and along Eleventh avenue to a point about 300 feet north of the north side line of the Boulevard, in the former Village of Whitestone, Borough of Queens; also,

Beginning at and connecting with the existing tracks of the Company at the intersection of Franconia avenue and Twenty-second street, in the former Village of Flushing, Borough of Queens; thence easterly upon and along Franconia avenue to and across Twenty-fourth street; thence still easterly through private property along the line of the continuation of Franconia avenue to Thirty-first street; thence northerly upon and along Thirty-first street to Broadway, said continuation of Franconia avenue and Thirty-first street being shown on a map of the City entitled:

"Map or Plan of Ingleside and Vicinity, Third Ward (formerly Town of Flushing), Borough of Queens, City of New York, showing the street system and grades, dated New York March 2, 1903, approved by the Board of Estimate and Apportionment May 1, 1903, and approved by the Mayor, October 6, 1903."

—thence northerly through said private property upon the line of the property known and described upon the map of said private property as Thirty-first street to Broadway; thence easterly on and along Broadway to Bell avenue.

The said routes, the tracks of said routes, turnouts and crossovers hereby authorized, are more particularly shown upon two maps, each entitled:

"Map showing the proposed street surface railway to accompany the application for a franchise of the New York and Queens County Railway Company to the Board of Estimate and Apportionment, dated June 20, 1907."

—and signed by F. L. Fuller, president, and A. E. Kalbach, consulting engineer, which maps are attached herewith, and made a part of this contract.

Sec. 2—The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property, bounded on said streets and avenues, to the construction and operation of said railroad shall be obtained by the Company within six months of the signing of this contract by the Mayor and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained, the Company shall, within two months thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise, this grant shall cease and determine.

Second—The said right to construct, maintain and operate a double-track street surface railroad, as herein described, shall be held and enjoyed by the Company, its successors or assigns, for the term of twenty-five (25) years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one year before expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation and such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive and upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company, its successors or assigns, shall pay to the City for this privilege the following sums of money:

For the extension first described herein:

The sum of five hundred dollars (\$500) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

During the first five years after the commencement of operation of the extension herein provided for, annually on November 1, three per cent (3%) of its gross receipts for and during the year ending September 30 next preceding, and after the expiration of such five years make a like annual payment into the treasury of the City of five per cent. (5%) of its gross receipts. The Company shall pay such percentages only upon such portion of its gross receipts as shall bear the same proportion to its whole gross receipts as the length of such extension shall bear to the entire length of its line.

For the extension last described herein:

The sum of five hundred dollars (\$500) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

During the first five years after the commencement of operation of the extension herein provided for, annually on November 1, three per cent (3%) of its gross receipts for and during the year ending September 30 next preceding, and after the expiration of such five years make a like annual payment into the treasury of the City of five per cent. (5%) of its gross receipts. The Company shall pay such percentages only upon such portion of its gross receipts as shall bear the same proportion to its whole gross receipts as the length of such extension shall bear to the entire length of its line.

Fourth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract within the streets and highways of the City shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this grant as above, the City (by the Board) shall so order by resolution, the Company shall, upon thirty (30) days' notice in writing from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the same streets and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The annual charges or payment shall continue throughout the whole term of the contract hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewed, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statutes or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—The railway to be constructed under this contract may be operated by overhead electric power substantially similar to the overhead electric traction now in use by street surface railways in the Borough of Queens, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by owners of property, in accordance with the provisions of law, and by the Public Service Commission of the First District of the State of New York.

Eighth—The Company shall begin construction of the extension herein authorized within the time prescribed by the railroad law of the State of New York, and such extension shall be completed and shall be in operation on or before December 31, 1909; otherwise this grant shall cease and determine.

Ninth—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City; and the Company agrees to make application to the Commissioner of Water Supply, Gas and Electricity for permission to string and maintain its electrical conductors in the streets covered by this grant.

Tenth—The said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of the Company shall be maintained in good condition throughout the term of this contract.

Eleventh—Cars on the said railway shall run at intervals of not more than thirty minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Provided, however, that the Company during the first five years of its franchise shall not be required to operate its cars between the hours of 12 o'clock midnight and 5 o'clock a. m., each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Twelfth—The Company shall attach to each car run over the said railway proper fenders and wheel guards in conformity with such laws and ordinances as are now in force, or may hereafter, during the terms of this contract, be enacted or adopted by the State or City authorities.

Thirteenth—All cars which are operated on said railway shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Fourteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which the railway shall be constructed under this contract, shall cause to be watered the entire roadway of such streets and avenues at least three times in every twenty-four hours, when the temperature is above thirty-five (35) degrees Fahrenheit, and shall provide for such purpose at least one tank car, to be propelled by electric power, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Fifteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Sixteenth—The Company, so long as it shall continue to use any of its tracks in any street or highway covered by this grant, shall have and keep in permanent repair, that portion of such street or highway between its tracks and the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. In case of neglect by the Company to make pavements or repairs after the expiration of thirty days' notice to do so, the local authorities may make the same at the expense of such corporation, and such authorities may make such reasonable regulations and ordinances as to the rate of speed, mode of use of tracks and removal of ice and snow as the interest or convenience of the public may require.

Seventeenth—Any alteration which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, conduits, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Eighteenth—Should the grades or lines of the streets in which franchises herein granted be changed at any time during the term of this contract, the Company shall, at its own expense, change its tracks to conform with such new grades and lines, and during the construction of any public improvement upon said street, the Company shall take care of and protect the track at its own expense, all to be done subject to the direction of the President of the Borough of Queens.

Nineteenth—The Company shall at all times keep accurate books of account of the gross earnings from the privileges granted under this contract. The Company shall, on or before November 1 of each year, make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain a statement of the gross receipts from operation of the railway, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twentieth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to pay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company, giving the Company notice and the right to intervene in any action or proceeding wherein such damage may be sought.

Twenty-first—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall file with the Comptroller of The City of New York the sum of ten thousand dollars (\$10,000), either in money or in securities to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual percentages for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railroad; and in case of default in the performance by the Company of such terms and conditions, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the headway, heating and lighting of cars, fenders, wheel-guards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel-guards, in case of the violation of the provisions relating to those matters. In case of any drafts made upon the security fund, the Company shall, within thirty (30) days after written notice from the Comptroller so to do, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars (\$10,000).

Twenty-second—No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City. The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Twenty-third—The words "notice" or "direction" wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided, shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

The Company agrees that notice printed in the CITY RECORD shall constitute sufficient notice within the meaning of this contract.

Twenty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers shall have all the powers, right and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-fifth—This contract is also upon the further and express conditions that the provisions of Article IV. of the Railroad Law applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the streets and highways and the surface railroads operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

FINANCIAL MATTERS

The Secretary presented a report of the Chief Engineer of the Board, to whom, on March 20, 1908, was referred a report of the Consulting Engineer relative to certain modifications in the original plans for the extension and improvement of Riverside Drive submitted by the President of Manhattan on June 21, 1907 (as suggested in a previous report of the Chief Engineer of the Board), and submitting two plans as substitutes for drawings Nos. 6 and 10 of the original plans for this improvement, stating that the new drawings, Nos. 6 and 10, carry out the changes previously recommended in regard to the Dyckman street viaduct, viz., the substitution of concrete with brick facing for the intrados of the arches instead of the granite with small panels of brick, decreasing the cost of the structure by about \$170,000. The other change submitted was the omission of the proposed restaurant building at about West One Hundred and Eightieth street. After a conference between the Consulting Engineer, the Chief Engineer of the Department of Finance and the Chief Engineer of the Board, it has been decided that such a building might be much needed. The Board has not yet formally approved of the plans for the extension of the drive, it being thought improper to do so unless the map of the City were so changed as to include in the drive the land which would be occupied by the improvement if carried out in

accordance with the final plans, which have been approved by the Municipal Art Commission.

Which was laid over until November 20, 1908.

The following matters not upon the Calendar for this day were considered by unanimous consent:

The Secretary presented the following communication from the Acting Corporation Counsel, requesting an issue of \$5,000 Corporate Stock to provide for the payment of the fees of expert witnesses employed by the Corporation Counsel to testify in proceedings before the Change of Grade Damage Commission, together with a report of the Comptroller, to whom this matter was referred on June 26, recommending the issue as requested.

CITY OF NEW YORK—LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, JUNE 24, 1908.

To the Board of Estimate and Apportionment:

Sirs—On September 28, 1906, your honorable Board passed a resolution authorizing the issue of \$10,000 of Corporate Stock, to provide for the payment of the fees of expert witnesses employed by the Corporation Counsel to testify in the proceedings before the Change of Grade Damage Commission, authorized by chapter 567 of the Laws of 1894 and acts amendatory thereof.

I beg to advise you that this appropriation has been expended, and in order to pay bills already contracted and to carry on the work before the Commission for the ensuing year will require a further appropriation of five thousand dollars, and I therefore request your honorable Board to pass the necessary resolution authorizing the issue of Corporate Stock for the above amount.

Very truly yours,

G. L. STERLING,
Acting Corporation Counsel.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,
September 23, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—in the matter of the request of the Corporation Counsel, dated June 24, 1908, to the Board of Estimate and Apportionment for an issue of Corporate Stock in the sum of \$5,000, pursuant to chapter 537 Laws of 1893, as amended, to provide for the payment of fees of expert witnesses employed to testify in proceedings before the Change of Grade Damage Commission, I beg to report as follows:

The proceedings referred to are taken in defense of claims against the City for damage alleged to have been sustained by reason of changes of grade "made pursuant to chapter 721 of the Laws of 1887, providing for the depression of railroad tracks in the Twenty-third and Twenty-fourth Wards of The City of New York or otherwise." The Corporation Counsel states that in properly opposing these claims he is obliged to use as witnesses an architect and builder and a real estate expert to examine and testify as to dimensions, improvements, etc., of the property affected, and also as to depreciation in market values due to said change of grade.

The last issue of Corporate Stock to provide funds for the payment of such witnesses was authorized by the Board of Estimate and Apportionment at a meeting held September 28, 1906. The amount authorized at that time was \$10,000, and bills aggregating \$6,000 were then due, thus leaving \$4,000, of which it was estimated \$2,000 would be required to pay the remaining bills of that year. The Assistant Corporation Counsel in charge of these trials advises your Examiner, however, that owing to economies which he has been able to institute, the funds then placed at his disposal have not been exhausted as rapidly as was anticipated.

The unpaid bills now due and approved by the Corporation Counsel amount to some \$3,500, and it is expected that the remaining \$1,500 of the \$5,000 now requested will be ample to defray the expense incurred during the remainder of this year. The trials before the Commission, which will be resumed early in October, are disposed of at the rate of about twenty in each month, and there are over seven hundred cases yet to be tried.

The expenses of the Corporation Counsel in defending these claims are not provided for in the Budget, and have heretofore been met by the issue of Corporate Stock as now proposed. It is, therefore, respectfully recommended that the request of the Corporation Counsel for an issue of Corporate Stock in the sum of \$5,000 for the purpose herein specified be granted.

Yours respectfully,

CHARLES S. HERVEY,
Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

P. J. SCULLY, Clerk.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
BUREAU OF MUNICIPAL INVESTIGATIONS AND STATISTICS, }
September 21, 1908. }

Hon. HERMAN A. METZ, Comptroller:

Sir—In regard to the resolution of the Board of Aldermen adopted June 30, 1908, requesting that the Comptroller be authorized to issue Special Revenue Bonds to the amount of \$42,000 to supplement the appropriation made to the Department of Correction for the year 1908, entitled Administration—Supplies and Contingencies, I beg to report as follows:

The 1908 appropriation for supplies and contingencies is only about 20 per cent. in excess of the actual expenditure for 1907. The average census of inmates cared for by the Department during the first eight months of 1908, has been upwards of 28 per cent. greater than for the corresponding months in 1907, and seems likely to be more than 30 per cent. greater for the entire year. This would seem to indicate more or less of a deficit in the appropriation.

The Commissioner whose calculation was made in May, has estimated the deficit at \$2,000, and asks for the issue of Special Revenue Bonds to that amount. That he has not over-estimated the deficit would seem to appear from the fact that the quantity of meat consumed during the past eight months of this year has been 17 per cent. greater than during the corresponding period for last year. It is reasonable to assume that there has been approximately the same increase in the consumption of all kinds of food, to say nothing of other supplies. The 1907 expenditure for food, supplies, drugs and medicines and ice, was over \$250,000. An increase of 17 per cent. in the quantity of such supplies alone would involve more than \$42,000 increase of cost, not including advances in price.

It is, therefore recommended that the request be granted, and that the bonds be issued as soon as practicable in order that the Commissioner may proceed to advertise for the furnishing of needed supplies.

Yours respectfully,

CHARLES S. HERVEY,
Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:
