PETITIONS AND COMMUNICATIONS.

No. 3729.

Executive Offices, The City Club of New York, 55 W. 44th St., May 24, 1913.

Board of Aldermen of The City of New York:

Gentlemen—We have requested the Mayor to veto the moving picture ordinance passed last Tuesday, because of the amendment entirely prohibiting galleries.

We are informed that the gallery permitted in the Folks' ordinance, with a wholly separate exit, will not add to the fire hazard of moving picture theatres. On the other hand, the prohibition of galleries will make the construction of new and better motion picture theatres with a capacity equal to that of the theatres now in operation, more expensive and will tend to protect present moving picture theatres in which the fire and other hazards are very great.

For these reasons we urge the passage of the Folks ordinance as reported by a majority of the Committee on Laws and Legislation, and we are confident that public opinion desires the passage of this ordinance in this form without the amendment objected to above. Respectfully yours,

THE CITY CLUB OF NEW YORK,
By ROBERT S. BINKERD, Secretary.

Which was ordered on file.

State of New York, Public Service Commission for the First District, Tribune Building, 154 Nassau St., New York, May 23, 1913.

Hon. P. J. SCULLY, Clerk to the Board of Aldermen, City Hall, New York City:

Dear Sir—For your information I transmit herewith copy of a letter filed by the New York Railways Co. as an answer to the resolution of the Board of Aldermen adopted April 15.

It is expected that the usual increase in business on 34th st. will begin with the operation of the summer excursion boats from the water-front in that neighborhood, and our investigation of conditions will be postponed until a little later when that traffic is in full swing. Very truly yours,

TRAVIS H. WHITNEY, Secretary.
New York Railways Co., May 5, 1913.

Public Service Commission:

Gentlemen—I desire to acknowledge the receipt of your letter of April 21, with reference to the resolution adopted by the Board of Aldermen on April 15, regarding the W. 34th st. pier service of this company, to the effect that a through service should be operated from the E. 34th st. ferry "to the foot of W. 34th st., at the North River, unbrokenly, and without transfer or change, at least from 7 o'clock a. m. to 8 o'clock p. m., for the benefit, convenience and health of the many thousand passengers who find occasion to use said crosstown line either for business or pleasure."

I have had a careful investigation of this matter made and find that between 6 a. m. and 12 o'clock midnight on the following dates, the persons traveling on our cars of the 34th st. pier line, that is, the line that runs from 10th ave. to the North River, was as indicated:

Date.	Number of Round Trips.	Revenue Passengers.	Transfer Passengers.	Total Passengers.
Thursday .....April 17	158	304	170	474
Friday .....April 18	159	318	158	476
Saturday .....April 19	151	438	317	755
Sunday .....April 20	150	50	20	70
Monday .....April 21	160	294	177	471
Tuesday .....April 22	159	383	205	588
Wednesday .....April 23	156	391	233	624
Week-day average	157	355	210	565

From the above figures you will see that the average number of persons carried per round trip was less than four. You will observe that Saturday, April 19, which was the heaviest day, there were carried altogether 755 persons or an average of five persons per round trip. This was a day when there was an incoming Italian steamer, and, on such days, the starter at 10th ave. has been instructed to send through to 12th ave. sufficient 34th st. crosstown cars to accommodate the incoming passengers.

The following is a statement of the total number of passengers carried on the 34th st. crosstown line, including the W. 34th st. pier line, on the dates indicated:

Date.	Revenue Passengers.	Transfer Passengers.	Total Passengers.
Thursday .....April 17	37,973	28,297	66,270
Friday .....April 18	37,165	29,640	66,805
Saturday .....April 19	44,686	31,242	75,928
Sunday .....April 20	22,134	11,261	33,395
Monday .....April 21	38,200	32,531	70,731
Tuesday .....April 22	36,498	30,634	67,132
Wednesday .....April 23	38,975	31,020	69,995

If we should attempt to run through to 34th st. and the North River the cars which are now switched at 34th st. and 10th ave. the regularity of the service along 34th st., from the East River to the North River, would be very seriously interfered with by the conditions existing on 34th st., between 10th ave. and the North River. There has been, in times past, considerable difficulty experienced in the operation of the Pier car because of the blocking by trains at 11th ave., and, at times, there has been congestion, caused by trucks and other vehicles on 34th st., between 10th ave. and the North River.

It would not appear that the convenience of the public as a whole would be served by the operation of the cars in such a manner as suggested in the resolution of the Board of Aldermen, nor is it evident that any good reason can be advanced to warrant the establishment of a service for the convenience of approximately one per cent. of the patrons of a line if such action would lead to the inconvenience and annoyance of 99 per cent. of the patrons of a line. Yours truly,

FRANK HEDLEY, Vice-President and General Manager.

Hon. P. J. SCULLY, Clerk of the Board of Aldermen, City Hall, New York City, N. Y.:

Dear Sir—An investigation of the traffic and physical conditions at the Freeman st. and 174th st. stations of the subway has not developed any facts which would warrant the construction of a new station at 172d st. and Southern Boulevard, as requested in the resolution of the Board of Aldermen adopted May 6.

The distance from the Freeman st. station to the 174th st. station is exactly 55-100 of a mile. A new station at 172d st. would be slightly over a quarter of a mile from either the Freeman st. or the 174th st. stations. This is about three train lengths and is too near, if the subway is to furnish real rapid transit. The two existing stations are not farther apart than a number of other stations on both the Broadway and West Farms divisions.

It is a fact that the ticket sales for the fiscal year ending June 30, 1912, showed an increase of about 20 per cent. at each station, but the facilities at neither one of the stations has reached its limit. Very truly yours,

TRAVIS H. WHITNEY, Secretary.

Tenants Union of New York, Inc., 1164 Broadway, New York, May 13, 1913.

To the Honorable Board of Aldermen of The City of New York:

Dear Sirs—At its regular meeting, this evening, the Executive Committee of The Tenants Union of New York, Inc., adopted the following preamble and resolution:

Whereas, Information given by our members in various sections of our city, where the poor reside, indicates a slow but sure recession of the wave of decency, which so recently bid fair to renovate the plague spots of the community, therefore be it

Resolved, That we demand the immediate enactment by the Board of Aldermen of the Father Curry Tin Plate Ordinance, to give the defensive publicity of the property owners, who prefer their own greed to public morals or decency. Respectfully but earnestly,

OTTO J. GERMAN, Chairman Executive Committee Tenants Union of New York, Inc.

West End Board of Trade, Brooklyn, N. Y., May 23, 1913.

Board of Aldermen, New York, N. Y.:

Gentlemen—The enclosed resolutions, reference to the proper disposal of the sewage of The City of New York, were acted upon by this organization at its last monthly meeting, and pursuant to my instructions, I am forwarding you copy herewith. Respectfully,

WEST END BOARD OF TRADE, Anthony Huber, Secretary.

Whereas, The discharge of sewage into the Hudson River and Harbor of New York is a constant growing evil and menace to public health and welfare; and

Whereas, The system is antiquated, unscientific and unsanitary, a libel upon the intelligence and enterprise of the governing powers and citizenship of this great City;

Resolved, That the West End Board of Trade, in meeting assembled, does hereby protest against any unnecessary continuance of the aforesaid disgraceful conditions and does herewith respectfully call attention of his Honor, the Mayor, of the President of the Board of Public Works, and the Honorable Board of Aldermen, to the pressing need of action in this state of affairs, that the health, well being and reputation of our fair City may be soon relieved from a deplorable condition; and be it further

Resolved, That these resolutions be spread upon the minutes of the West End Board of Trade, and copies thereof sent to his Honor, the Mayor, the President of the Board of Public Works and the Honorable Board of Aldermen and the several organizations comprising the Allied Boards of Trade, soliciting their actions and support in this movement to better conditions.

No. 3734.

Heidelberg Building, New York City, May 27, 1913.

To the Board of Aldermen of The City of New York:

Gentlemen—The Children's Motion Picture League of Greater New York realizing that your honorable Board is primarily the class of public officials in closest touch with the citizen, and that irrespective of the political party that elected you to this office.

You do not discriminate in favor of one citizen over another in matters of civic welfare, and therefore this League respectfully solicits your cooperation in its plans and purposes for the stimulation of purity of the home, civic pride and patriotism.

The motion picture problem is a factor of almost incomprehensible magnitude in our civic life. Whereas formerly a decade at least was supposed to elapse in order to truthfully portray history. Behold, the history of yesterday is with us to-day (a day of twenty-four hours) by means of these wonderful motion films; and no one questions the truthful portrayal of the process as we gasp and grasp.

There is an ordinance prohibiting children under sixteen years of age attending motion picture shows unless accompanied by parent or guardian (Dent Ordinance). We endorse this law, but we wish to be made the guardian ad libitum of the unaccompanied children during the hours specified in prospectus submitted to each of the members of this Board. The League's committee being supplemented by men and women of the immediate neighborhoods of the auditoriums selected for the children's program.

Some have kindly volunteered to remain in the City all summer in order to assist this uplifting institution.

The Children's Motion Picture League will be responsible for the moral and physical welfare of all children from the age of six to sixteen years, without regard to race, creed or color, unaccompanied by parent or guardian while in these selected auditoriums.

The program will be of interest to adults, and they will be welcome. Babes in arms will be urged to bring their mothers and their grandmothers—for it is said that "the education of a child begins with its grandparents," and it behooves us to assist in making Greater New York's million of young citizens into these trusty desirable grandparents.

Its value cannot be measured now; but you will have great satisfaction in the fact that you are doing all in your power to make possible better Americanism.

The League will secure at least thirty-three auditoriums, as follows:

Borough of Manhattan, 10, east and west side.
Borough of Brooklyn, 10, including 2 at Coney Island.
Borough of Queens, 5, including 2 at resorts.
Borough of Richmond, 5, including 2 at resorts.
Borough of The Bronx, 3, including 1 at park entrance.

This plan is endorsed by the clergy of all denominations, many of whom have consented to act upon the various committees; also Magistrates and Judges of the Children's Courts.

The motion film manufacturers welcome the League, and have signified their desire to further the work in every possible way, even to the making of special films.

Public officials and private citizens bid the work Godspeed, and offer to do their part for our children.

This is not a charity in any sense of the word—it is simply the exponent of kind thoughts, words and deeds for each other and "the stranger that is within our gates."

The honorary presidents will be: Hon. Woodrow Wilson, President of the United States; Hon. Wm. Sulzer, Governor of New York State; Hon. William J. Gaynor, Mayor of New York City.

The Honorary vice-presidents will be the Aldermen of The City of New York, the Borough Presidents and the City Clerk.

The conservative estimate of expense is $1,000 per week, or $52,000 per year.

The League is urged and convinced that it is quite proper to ask The City of New York through the Board of Estimate to contribute $1,000 per month, or $12,000 per year, towards the cost of maintenance of this work.

By so doing they will enable 100,000 children of the Greater New York public schools, parochial schools, private schools, institutional schools, orphan asylums, deaf and dumb asylums, blind asylums, cripple asylums per month to attend these entertainments in safe and sanitary places at the rate of one cent per capita.

Many clergymen have signified their intention to receive contributions for this purpose. Some labor organizations that desire to advance the dignity of labor wish recognition in the propagation of this good citizen movement.

We want you all—we need you all; and while we promise "no sensational" and "no representation of crime films," the movement will not be devoid of thrills.

Our flag will be much in evidence, and you will be proud that you are a citizen of Greater New York, U. S. A. Respectfully,

Mrs. LAURA COGSWELL, President and Founder of the Children's Motion Picture League of Greater New York.

Counsel: Hon. James L. Bennett, Ex-United States District Attorney, and Hon. John W. H. Crim, Ex-Assistant United States District Attorney, 30 Broad St.

The Children's Motion Picture League of Greater New York; Mrs. Laura Cogswell, President, Founder.

The purposes of this League are as follows:

First—To make possible in certain theatres, auditoriums and motion picture theatres in Greater New York a program specially adapted to children every Saturday from 9 a. m. to 1 p. m. and every week day during public school vacation from 9 a. m. to 1 p. m.

That the unaccompanied children be segregated from the adults and a matron salaried by the proprietor, and approved of by this League, be in constant attendance.

Second—That the League's Committee of Inspection and Selection of Films confer with proprietors or managers of these theatres in the making up of the program, having in mind the needs and the pleasure of the children relative to age and environment.

That these entertaining educational films shall illustrate history, geography, industry, commerce and science, plant and animal life, and thus reveal the virtues of patriotism, honesty, loyalty, humaneness, courage and the purity of the home. Some music and recitations, and, when necessary, descriptive lectures.

Third—That the League will, through the Benefactor's Fund, arrange for the free entertainment of groups of children from various schools and institutions.

Fourth—It is the intent of this League to maintain its headquarters in a very accessible part of Greater New York, and where its members will be welcome, and plans for best possible results discussed, and to hold public meetings from time to time to create and foster moral and physical safeguards for our children of to-day that are citizens of to-morrow.

Fifth—That this League will publish and distribute to its members and the public certain reports of the League's work and other interesting data of this wonderful educational factor of the age.

Sixth—The League will ever exert itself in favor of any legislation that will tend to improve existing conditions of motion pictures and motion picture theatres.

Membership, $2 per year; sustaining membership, $5 per year; patron, $10; benefactor, $100 or more; life membership, $500 or more; memorials, your pleasure.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The Vice-Chairman laid before the Board the following communication from the President of the Borough of Brooklyn:

No. 3736.

Aldermen Curran called attention to the reports of the Committee on Finance in regard to action on requests for special revenue bonds, and moved that all such applications be placed on file.

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, May 22, 1913.

Honorable Board of Aldermen, New York City:

Gentlemen—We have received in this office applications for the erection of 83 headstones over the graves of deceased soldiers and sailors, which under the law we have to erect every year. Our appropriation for this purpose has been exhausted. These headstones cost approximately about $15 apiece, and as we will receive additional requests during the year, I would respectfully ask that your Board appropriate special revenue bonds in the sum of $1,500 for the purpose of placing these headstones, as above mentioned. Yours very truly,

ALFRED E. STEERS, Borough President.

Which motion was adopted, and this paper was ordered on file.

The Vice-Chairman laid before the Board the following communication from the Commissioner of Public Charities:

No. 3737.

Department of Public Charities of The City of New York, foot of E. 26th st., May 24, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—We would respectfully request an issue of special revenue bonds to the amount of five thousand dollars ($5,000) in order to employ substitute Trained Nurses, at the rate of $600 per annum, during vacations of nursing staff of the entire department.

These Nurses are to replace the various Superintendents, Deputy Superintendents, Supervising Nurses and Trained Nurses during their vacations. The work in our hospitals has become so much more acute during the summer months that we are unable to spare the Nurses for vacation without providing substitutes; otherwise the patients would be neglected.

This amount was allowed last year, by the authorization of special revenue bonds, and proved a great boon to the nursing staff, and, we think, benefited the patients, in so much as the Nurses were in better condition to perform their duties after a rest from the irksome task of caring for sick people for a year.

We included this amount in our estimate for 1913, which was submitted to the Board of Estimate and Apportionment in September in two items, one under the Metropolitan Hospital, $2,750, and one under the Kings County Hospital, $2,250; neither of which items was allowed by the Board of Estimate and Apportionment.

Bellevue Hospital, however, included in their request an amount for Trained Nurses (Vacation Relief) at $600 per year, 100 months, $5,000, and that amount was allowed by the Board of Estimate and Apportionment, and is, therefore, available this year for the hiring of Trained Nurses for relief duty, in order that their nursing staff may receive their annual vacations.

Our nursing staff need their vacations as much as the Bellevue Hospital Nurses, and the amount should, therefore, be allowed to this department.

Trusting therefore that you will grant this request, I am, respectfully yours.

MICHAEL J. DRUMMOND, Commissioner.

Which was ordered on file.

The Vice-Chairman laid before the Board the following communication from the Commissioner of Bridges:

No. 3738.

Department of Bridges, City of New York, Municipal Building, Manhattan, N. Y., May 21, 1913.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—In pursuance of the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, I herewith request your honorable Board to recommend to the Board of Estimate and Apportionment that the Comptroller be authorized to issue special revenue bonds in the amount of three thousand six hundred dollars ($3,600), the proceeds thereof to be used for the purchase of about 600 gross tons of broken coal for use at the Brooklyn Bridge. The stock on hand, together with that provided for in contract, will fulfill our demands until August 1, 1913, and it will be necessary to shut down the shops and a great part of the outside work at this bridge unless the funds are provided. This coal furnishes steam to operate the machine shop and compressors supplying air for the riveting shops, and steam and compressed air for the use of riveting and painting gangs on both the Manhattan and Brooklyn Bridges. Yours truly,

ARTHUR J. O'KEEFFE, Commissioner.

Which was ordered on file.

The Vice-Chairman laid before the Board the following communication from the Corporation Counsel:

No. 3739.

City of New York, Law Department, Office of the Corporation Counsel, New York, May 26, 1913.

To the Board of Aldermen of The City of New York:

Sirs—I am in receipt of a communication from the City Clerk, under date of May 22, 1913, transmitting certified copy of the resolution of your Board, which reads as follows:

"On motion of Alderman Esterbrook the Clerk was directed to obtain an opinion from the Corporation Counsel with respect to the right of this Board to authorize special revenue bonds in any calendar year in excess of two million dollars, under the provisions of subdivision 8 of section 188 of the Charter, and further as to the right of the Board when making such authorizations to limit the period in which the money may be expended."

I am of opinion that the practical construction placed upon subdivision 8 of section 188 of the Charter for many years by the public officers who have acted under authority thereof, should control, which is, so I am informed by the Department of Finance, that in any calendar year the Board of Alderman may authorize, but the Comptroller may not issue, special revenue bonds pursuant thereto to an amount aggregatng more than $2,000,000.

I am also of opinion that your Board has the right, when acting pursuant to this subdivision, to limit the time within which the proceeds derived from the sale of such bonds shall be expended. Respectfully yours,

LOUIS H. HAHLO, Acting Corporation Counsel.

Which was ordered on file.

The Vice-Chairman laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 3740.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, May 27, 1913.

To the Honorable the Board of Aldermen:

To the Board of Estimate and Apportionment:

Gentlemen—On April 26, 1913, the Commissioner of Bridges requested the establishment in his Department, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Stenographer and Typewriter at $750 per annum for one incumbent.

The Commissioner states that there is need for a Stenographer and Typewriter for the Harlem River Division. The proposed grade is to be substituted for a Clerkship at $750.

We recommend the adoption of the attached resolution approving the request for unlimited incumbents. Respectfully,

Reports of Committee on Public Letting—

No. 2498—(S. O. No 264).

The Committee on Public Letting, to which was referred, on January 6, 1913 (Minutes, page 27), the annexed request from the President of the Borough of Richmond for authority to purchase coal in the open market to an amount not exceeding in cost $8,000, respectfully

REPORTS:

That the Committee has delayed action on this request for the reason that it believed that it could be obtained by the regular process of public letting. The Borough President has, however, supplemented his request with a further letter of explanation, which is hereto attached, and the Committee has concluded that in order to procure the necessary coal it must be purchased without public letting. It believes, however, that $5,000 will be sufficient to obtain this coal, and therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Richmond be and he is hereby authorized and empowered to purchase coal throughout the year 1913 in the open market without public letting at a total expense not to exceed five thousand dollars ($5,000).

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, December 27, 1912.

Board of Aldermen, City Hall, New York City:

Gentlemen—Permission is hereby requested to purchase in the open market during the year 1913 coal to the amount of $8,000.

Bids for the furnishing of coal to the Bureau of Public Buildings and Offices during the year 1913 were advertised for public letting for December 24, but as no bidders appeared it will be necessary for the present, at least, to purchase coal on open market orders. This condition is due to the uncertainty as to the coal situation and partly also to the present specifications for coal. Moreover, we have found in the past that there has been practically no advantage in purchasing coal by contract as we have been obliged to pay the regular market rate and, in fact, the coal purchased on open market order has in some cases been lower for the reason that it is purchased from local dealers whose yards are nearer the places of delivery. It is our intention to purchase the coal by contract after public letting when conditions change so that this will be advantageous, but we would request that permission be granted until that time to purchase in the open market. Yours respectfully,

GEORGE CROMWELL, President of the Borough.

May 21, 1913.

Hon. JOHN DIEMER, Chairman, Committee on Public Letting, Board of Aldermen, City Hall, New York:

Dear Sir—For many months there has been before your Committee our request to be permitted to purchase coal without public letting, a request which, for many years, has been granted in course—not granted simply because we asked for it or because we wished to buy coal from any particular parties, but because it was a matter of financial economy to the City to buy through open orders rather than through public letting.

As your Committee undoubtedly knows, the main coal operators control and fix the prices at which dealers shall sell; consequently, competition at the very outset is practically eliminated, except where the factor of long vs. short haul for delivery becomes important, in which event a dealer whose yard is near the point of delivery can give an advantage in price as against others who are not thus favored. In general the price is fixed for dealers covering a number of months in advance, but there is nothing to prevent a serious change in price (usually upwards) being ordered by the operators so that small dealers cannot safely enter into contracts to deliver coal through a given range of months without receiving a price which may be considerably above the market so as to make them safe against forced increases.

The conditions for buying and delivering coal and the places of using it in the Borough of Richmond have been so fully presented to your Committee that it seems unnecessary to repeat the information here. The Borough Hall is the only place where we can take in coal enough at a time to warrant large orders, namely, for 250 or 300 tons. This, for the sake of formality, we have usually purchased at public letting, but have had no reduction from the market price for coal thus delivered, which means that the gross cost to the City is more than the market price because of the cost of advertising and the time of City officials in preparation of contracts and attention to the various details of a public letting; consequently the method represents waste and not economy.

We advertised and received bids on March 18 for 100 tons of range coal, to be delivered throughout the year in quantities as ordered at various small public buildings. We received two bids, one at $6.75 per ton, the other at $6.99 per ton, only one of those bidders being really a coal dealer, the other naming the higher price being a contractor who hoped if he secured the contract to have employment for his teams and making a profit beyond the market price. On the same day we received bids for 300 tons of buckwheat coal, to be delivered at the bins in the Borough Hall. Here, again, the coal dealer proposed $4.15 per ton, practically the market price. The contractor bid $4.19, which would have given him a profit beyond the market price. Later we advertised for bids for our steam roller service, expecting to receive bids on April 15. We asked for delivery in three different districts. For one district calling for 80 tons of egg coal we received no bid. In another district calling for 85 tons egg coal we received no bid. In the third district, calling for 85 tons of egg coal, we received two bids, one for $6.23 per ton, the other $6.32 per ton, the general market price, as we were advised, being $6.25. In other words, based on the market price, we secured a saving of $1.70 at an expenditure of probably not less than $50 for advertising and other services.

In the year 1912 we purchased by contract from one company $3,353 worth of coal, paying practically market price, with costs of advertising and contract preparation in addition. We purchased on open order $3,400 worth of coal from ten different dealers, securing same at the market price without additional cost of advertising and contract preparation.

Our expectation, as heretofore presented, is to use much more coal this year than in other seasons, for our steam roller service has increased and our asphaltic oil work has greatly increased, requiring heater tanks, which use a considerable amount of fuel. If, therefore, coal purchasing by advertised contract is forced by your Committee through its inaction upon our request, it will only be the largest dealers, often at great distances from the place of delivery, who will bid; and the smaller dealers, often near the places of delivery, will be debarred from selling what we need and which they could often sell upon lower terms than the larger dealers at a distance, due to shorter haul, while the City will pay in addition all the incidental costs of a public letting.

We urgently renew our request, therefore, in the interest of economy, that you report in favor of a Board resolution authorizing the President of the Borough of Richmond to purchase coal without public letting. Very truly yours,

LOUIS L. TRIBUS, Acting President of the Borough.

The Committee on Public Letting, to which was referred on April 1, 1913 (Minutes, page 2), the annexed resolution in favor of authorizing the Department of Public Charities to purchase, without public letting, a motor vehicle at a cost not to exceed $1,500, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be necessary in order that the Department may obtain the kind of truck most adapted to use on Blackwells Island without delay.

It therefore recommends that the said resolution be adopted.

Resolved, That pursuant to section 419 of the Greater New York Charter, the Commissioner of the Department of Public Charities of the City of New York be and hereby is authorized to purchase, without public letting, for the use of said Department, one motor vehicle, the total expense of which is not to exceed the sum of One Thousand Five Hundred Dollars ($1,500).

To the Honorable the Board of Aldermen:

Gentlemen—We would respectfully request that authority be granted this Department to purchase, without public letting, one motor vehicle to be used on Blackwell's Island, at a price not exceeding the sum of $1,500. This amount was allowed by the Board of Estimate and Apportionment to this Department for the year 1913 with which to purchase "motor vehicles and equipment."

Trusting that a resolution in the enclosed form, or some other suitable form, will be adopted by the Board of Aldermen at an early date, I am,

Respectfully yours, MICHAEL J. DRUMMOND, Commissioner.

The Committee on Public Letting, to which was referred on April 29 and May 6, 1913 (Minutes, pages 371 and 380), the annexed resolution and request in favor of authorizing the President of the Borough of Richmond to purchase an automobile without public letting, at a cost not to exceed $2,000, respectfully

REPORTS:

That the reasons for this request are set forth in the letter of application. President Cromwell appeared before the Committee and assured them that this method of purchase was the most economical and satisfactory one.

The Committee recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Richmond be and he is hereby authorized and empowered to purchase, in the open market, without public letting, an automobile, the cost of which shall not exceed two thousand dollars ($2,000), an appropriation for the same having been made in the Budget for 1913.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, May 1, 1913.

Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—In the budget for 1913, $2,000 was appropriated for the purchase of equipment of a new automobile for the general administration of my office. This car is needed to take the place of a Locomobile touring car purchased in 1906, which is the only automobile of the touring car type available for general administration purposes. It has rendered excellent service, but has reached the stage where keeping it in operation requires constant attention and frequent supplying of new parts, and it would be more economical to replace it with a new car.

It is our intention as soon as a new car can be secured, to remove the tonneau from the Locomobile and replace it with a light box body, thus reducing the dead-load and putting it into commission as a general emergency repair-shop car, in which capacity it would probably render still considerable service.

I hereby make application to your Board, pursuant to the provisions of section 419 of the Greater New York Charter, for authority to purchase in the open market, from the before-mentioned budget appropriation, a five-passenger touring car for the use of my office.

I would ask that your honorable Board grant this request with as little delay as possible, as it is very urgent that this additional automobile be secured so that the locomobile may be put into the shop service, as the car being used for that purpose at present is needed for other work. Yours respectfully,

GEORGE CROMWELL, President of the Borough.

No. 3642—(S. O. No. 267).

The Committee on Public Letting, to which was referred on May 20, 1913 (Minutes, page 469), the annexed request from the President of the Borough of Queens for authority to purchase coal without public letting at a cost not to exceed $5.000, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be necessary. A representative of the Department informed the Committtee that coal bought in the open market could be obtained at $4.35 per ton, whereas the last bids were at the rate of $4.89. The Committee believes that $4,000 will be sufficient to cover the needs of the Department, and therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Queens be and he is hereby authorized and empowered to purchase coal, in the open market without public letting, for the operation of the sewage disposal plants throughout the Borough at a total expense not to exceed four thousand dollars ($4,000).

The City of New York, Offices, Commissioner of Public Works of the Borough of Queens, Long Island City, May 14, 1913.

To the Honorable Board of Aldermen, City of New York.

Gentlemen—I respectfully request that you grant this department permission to purchase in the open market without bidding, coal for the operation of the sewage disposal plants throughout the borough to the extent of $5,000.

In support of this request, I desire to state that bids were opened on March 24 for two items of coal, on which there were two bidders for each item. In both cases the prices bid by the lowest bidder were considerably in excess of prices at which coal can be purchased in the open market. Furthermore, our experience has demonstrated that coal furnished under contract is in no way superior to that purchased on open market order. Yours very truly,

JOSEPH FLANAGAN, Commissioner of Public Works.

The Committee on Public Letting, to which was referred on May 20, 1913 (Minutes, page 478), the annexed request from the Chief City Magistrate, First Division, for authority to expend $2,019.38 for furnishing Fourth District Magistrate's Court, without public letting, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be necessary in order that this work may be hastened as much as possible. A list of the proposed equipment which will be scaled down $800 is hereto attached.

The Committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Manhattan be and he is hereby authorized and empowered to purchase in the open market, without public letting, the necessary furniture and fixtures for the Fourth District Magistrate's Court, First Division, which has recently undergone extensive repairs, at a cost not to exceed two thousand and nineteen dollars and thirty-eight cents ($2,019.38).

Office of the Chief City Magistrate, First Division, City of New York, 300 Mulberry St., Manhattan, New York, May 6, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Sir—The Board of Estimate and Apportionment at its last meeting, held on May 1, allowed an appropriation of $2,019.38 for the purpose of furnishing the Fourth District Magistrates' Court, which has recently undergone extensive repairs. On account of the terrible congestion, principally in the Third and the Fifth District Courts, I am anxious to get the Fourth District Court open at as early a date as possible, especially as the very hot weather is now approaching. I would therefore most respectfully request that the amount appropriated by the Board of Estimate and Apportionment, if acted upon favorably by your Honorable Board, be exempt from the usual advertising, so that the furniture can be purchased by the Department of Public Works at the earliest possible date. It is our intention at the present time if this exemption is made to reopen the Fourth Court on or about the 1st of June. This will greatly relieve the congestion in the Second, Third and Fifth Districts, which are now overcrowded. Very respectfully, WILLIAM McADOO, Chief City Magistrate.

The Committee on Public Letting, to which was referred on May 20, 1913 (Minutes, page 478), the annexed request from the Commissioner of Docks and Ferries for authority to purchase an automobile at a cost not to exceed $3,500, without public letting, respectfully

REPORTS:

That it has been explained to the Committee that owning to the rough pavements over which this machine would have to travel to reach the various properties of the Department an especially strong car must be obtained which can be much better selected by direct purchase. The Committee coincides with this view but believes that $3,000 is a large enough price, and it recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioners of Docks be and he is hereby authorized and empowered to purchase in the open market, without public letting, one automobile for the use of the Department of Docks and Ferries at a total cost not to exceed three thousand dollars ($3,000).

The Committee on Salaries and Offices, to which was referred on May 20, 1913 (Minutes, page 528), the annexed petition from certain employees of the Department of Docks and Ferries, asking for semi-monthly payrolls, respectfully

REPORTS:

That the question of semi-monthly payrolls has been taken up by the present Board of Aldermen and their conclusions were placed in the form of a resolution calling for semi-monthly pay of all salaries. Upon further investigation it was found by a canvass of the various departments that the employees preferred a monthly payroll so the matter dropped.

There appears to be considerable force in the present request, but it is a matter for departmental regulation, and the Committee therefore recommends that a copy be forwarded to the Commissioner of Docks and the Comptroller.

NILES R. BECKER, HUGH CUMMUSKEY, MICHAEL CARBERRY, JACOB WEIL, D. M. BEDELL, F. H. STEVENSON, Committee on Salaries and Offices.

To the Honorable Board of Aldermen:

At a regular meeting of the Municipal Ferry Employees' Association, held on the 7th day of May, 1913, a quorum being present, the following resolution was adopted:

We, the employees of Department of Docks and Ferries of The City of New York, in the Department of Municipal Ferries, numbering in all about five hundred (500) under the following titles, namely: Quartermaster, *Mates, *Deckhands, *Doormen, *Ticket Choppers, Water Tenders, Oilers, *Stokers, all being members of the Municipal Ferries Employees' Association, do hereby submit a resolution which is herewith attached and made part of this request.

Resolution.

Whereas, We submit for the attention and consideration of your honorable body that we, the employees of the Department of Docks and Ferries, now receiving a monthly rate of wages, owing to the increased cost of living find that we are unable to meet the reasonable daily demands of said living under our present wage schedule, and respectfully petition your honorable Board to have passed for us a semi-monthly bill in order that we may be better able to cope with such daily demands.

Whereas, By reason of the fact that those employees amongst us marked with an asterisk (*) in the list above are paid less than $3 a day and find it quite hard to have to wait from 30 to 35 days before receiving their monthly salary.

Whereas, On the other hand the per diem men, who are also City employees, receive their salary weekly, and thus have every facility of seeing their way clear over all the items of expense from one week to another.

Whereas, Corporations having a number of employees are compelled by law to pay their help at least twice each month.

Whereas, The majority of the men under the aforesaid titles are married, have large families, which makes it quite impossible for them to lay out their money economically from the payday in one month to the payday in the following month without finding themselves short, and thereby forced to seek the aid of the loan sharks, whom, as your honorable body knows, are always ready and willing to take advantage of a City employee.

We, therefore, feel that the above request is a just and reasonable one, and that the facts submitted by us asking a change in our present pay system, are entirely worthy of investigation and action by your honorable Board of Aldermen of The City of New York.

Thanking you in advance for any action you may take in our behalf, we remain,

Committee: H. W. Meyer, President; J. H. Fitzgerald, Secretary; Wilbur Lewis, George Romer, Timothy J. Harrington.

Which report was accepted.

Report of Committee on Public Health—

No. 3616 (G. O. No. 533).

The Committee on Public Health, to which was referred on May 6, 1913 (Minutes, page 453), the annexed ordinance in favor of regulating the sale and use of wood alcohol in The City of New York, respectfully

REPORTS:

That it has given this question a thorough examination and has heard expert opionions on the subject voiced by Mr. Thomas Main, Secretary of the College of Pharmacy, Columbia University; C. A. Mayo, editor of the "American Druggist," and Miss Carolyn C. Van Blarcom, Secretary of the Committee on Prevention of Blindness of the New York Association for the Blind, all of whom unite in endorsing the proposed ordinance with a few minor changes. Mr. Main and Mr. Mayo joined in the suggestion that the new name for this substance be made wood "naphtha," instead of wood "poison," as originally suggested, in order to conform with the nomenclature preferred in several Western States, which have enacted laws regulating its sale, and Miss Van Blarcom offered several changes in the wording of the proposed label and the penalty prescribed. These suggestions were approved by the Committee, and have been incorporated in the substitute ordinance herewith submitted. Miss Van Blarcom made further suggestions as to the regulation of the use of this alcohol in varnishes, etc., but the Committee did not believe that such a restriction came within its province.

On the general subject the researches made by the Committee have afforded ample proof that a serious condition has resulted from the unrestricted use of wood alcohol in essences, tinctures, etc., where the purchasers of these various products were unadvised that they were in any way liable to suffer ravages to their health by the use of such substances. In other cases compositions prepared from wood alcohol have been widely advertised under trade names which effectually disguised their dangerous origin, but which sought to evade consequences of internal use by warnings in almost unnoticeable type placed at the foot of the labels.

A list of deaths resulting from wood alcohol poisoning is attached to this report.

Consistent efforts have been made by the American Medical Association, the New York Association for the Blind, and many other associations and scientific publications to educate the general public in regard to the poisonous character of this alcohol, and articles have been published in some of the leading journals along the same lines, but subjects of this nature unfortunately do not attract the attention of the public at large, and individuals who at any time may in some way have occasion to use preparations concocted from this substance are wholly unaware of the danger to which they may be subjected. It is believed that the ordinance submitted herewith will, to a large extent, act as a wholesome preventive against the indiscriminate use of this poison, and for that reason your Committee recommends its adoption.

SUBSTITUTE.

AN ORDINANCE in relation to the sale and use of "wood alcohol" in The City of New York.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

GENERAL ORDERS.

No. 510—(Int. Nos. 3152, 3240, 3304, 3322, 3324, 3325, 3331, 3332, 3335, 3444, 3446, 3506, 3508, 3509, 3510, 3511, 3512, 3513, 3514, 3516 and 3517).

The Committee on Finance, to which was referred on various dates, 1913 (Minutes, pages), a number of requests for special revenue bond issues known as Introductory Nos. 3152, 3240, 3304, 3322, 3324, 3325, 3331, 3332, 3335, 3444, 3446, 3506, 3508, 3509, 3510, 3511, 3512, 3513, 3514, 3516 and 3517, respectfully

REPORTS:

These departmental requests for special revenue bond appropriations amount to the large total of $724,074.50, and comprise everything in this nature now in the Finance Committee. The Committee is impelled to this drastic and sweeping action by the coincidence of a dangerous situation in the Board's special revenue bond account and the plentiful supply of moneys available for transfer from the 1913 Budget. If there were no other resource, these applications could not all in justice be turned away, but they have their remedy in the co-ordinate Board of the City government, unfettered by law or ordinance. The Committee wishes it understood that these applications are not in any sense rejected nor disposed of upon their individual merits, but are simply forwarded to the Board that has the money from the Board that has not the money. It is suggested to the Departments concerned that they apply immediately to the Board of Estimate for relief for their wants by transfer of available 1913 budgetary moneys.

The strained situation is, briefly, that while subdivision 8 of section 188 of the Charter places a limitation of $2,000,000 within any one year upon the issuance of these bonds, we find ourselves confronted by an issuance for the first four months of this year of $900,239.78 worth of revenue bonds already gone. In addition, $867,834.19 worth of bonds have been duly authorized by both Boards, and the greater part of these authorizations will be resolved into bonds issued before the end of the year. That leaves a possible emergency fund for all the rest of the year of only $200,000, and against this we have the figure of $645,374.43 of these bonds already recommended by the Board of Aldermen but not yet ratified by the Board of Estimate. A great portion of this latter figure must be ratified by the Board of Estimate because the expenditures are necessary; wherefore, it would seem that the chances are fairly good that the whole of the $2,000,000 limitation will be needed to take care of authorizations already made. With the cupboard prospectively bare, it seems to the Committee the part of not only prudence but of rigorous necessity that no further drains upon this fund be entertained as long as there are moneys which may be obtained elsewhere. That the money may be obtained from the Board of Estimate by transfer is evident from the fact that that Board, by resolution of May 1, transferred $4,023,298.06 of old unencumbered balances from various previous special revenue bond issues and from the 1912 Budget. Of this, the surprising amount of $3,227,425.47 was picked up from the 1912 Budget alone. This results, of course, from the excellent practice now in use of schedulizing the Budget, so that salary accruals and other moneys not needed may not be diverted to other and unintended

purposes during the year. All the Board of Estimate has to do to satisfy these applications, so far as they may be justified on their merits, is to begin picking up the 1913 budgetary surpluses in the middle of 1913, instead of waiting to gather them all in a lump and place them in the general fund for the reduction of taxation for 1914. This will result, furthermore, in 1913 departmental expenses being paid for out of the 1913 tax levy instead of being shifted to the tax burden of the succeeding year. It seems manifest that the best financing so far as possible is to pay 1913 bills with 1913 money, and your Committee is convinced that this is quite possible to do.

The present condition of the Board of Aldermen's special revenue bond account arises from two causes. The first is the annual failure of the Board of Estimate to include in the Budget items of great size that belong there and nowhere else. A sample of such work is the failure to include in either the 1912 or the 1913 Budget a singe dollar of appropriation for hose for the Fire Department, with the result that the special revenue bond account for the two years has been burdened in advance to the extent of almost $200,000, which amount could easily have been foreseen, computed and included in the Budget, where it belongs. This Board's special revenue bond account is not designed by the Charter as a postscript to the Budget. It is meant for emergent, unforeseen and extraordinary expenses arising since the adoption of the Budget, and should be used accordingly. Your Committee deplores the Board of Estimate's practice of postponing the evil day by rejecting every year a great flood of matters to be taken care of by special revenue bonds, which should be faced honestly and included in the Budget, whatever the effect upon the tax rate.

As an instance of your Committee's effort toward economy, even in the face of these unwarranted burdens, it may be noted that the applications to this present Board of Aldermen for the sixteen months ending May 1, 1913, have totaled $7,348,188.80, out of which the Committee, after careful study, has rejected a total of $2,962,576.07; in other words, despite the pressing character of most of the applications, the Committee has rejected about three out of the seven millions asked for, a running proportion of about 40 per cent.

The second cause of the forcing of this Board's revenue bond account into this corner is the great mass of ancient authorizations which have been made use of by the Departments only within the last year. It is to be remembered that the Charter limitation is upon the issuance, so that when, as in the case of last year, only approximately $1,700,000 of the bonds were used, the City saved permanently the other $300,000, because the issuance account begins anew at the beginning of every year. This $300,000 saved by the Board last year can never be spent; the books are closed and the money is saved. The authorizations, however, are subject to no such limitation of time and amount. A revenue bond issue may be authorized in 1906 and yet the money may not be spent by the Department until 1912. Thus the possible extravagance of previous administrations may be visited upon the third and fourth generations of Boards of Aldermen, and we have ever hanging over us this sword of Damocles of former authorizations, which, for unaccountable reasons, the Departments allow to lie idle for five or six years and then suddenly burst into expenditures, and add that ancient burden to a modern and current situation. When this present administration began, there were approximately $2,400,000 of such old authorizations on the books, and your Committee has put in a great deal of time and hard work in co-operation with the Comptroller in securing the cancellation by the Departments of such of these authorizations as might not now or in the future be needed. The result is that we began the year 1913 with only approximately $1,200,000 of these old matters, instead of the $2,400,000 of the year before; that is to say, we cut it in half. Most of the overhanging balances that we began this year with were created in 1912, and the Committee's practice of fastening a date upon the appropriation before which the money must be spent, has resulted in the authorizations turning quickly into bonds issued. That is to say, the accounts nowadays are active, not dormant. This is as it should be in the interest of honest City finance, but that is a contributory easement from former days to which our present day management of the account is unavoidably subjected.

No. 513—Int. No. 3457.

The Special Committee, appointed February, 1912, to investigate the hack and taxicab situation, pursuant to the following resolution:

"Resolved, That whereas complaints have been numerous and persistent to the effect that exorbitant charges have been exacted and are being exacted from those using taxicabs; and

"Whereas, There is a widespread and just demand for a proper solution of the question of taxicab rates based upon a thorough investigation of the subject and all matters germane thereto; and

"Whereas, Any ordinance prescribing rates not based upon a thorough and comprehensive investigation might be productive of grave injustice to those using taxicabs, or on the other hand confiscatory in so far as owners are concerned; now, therefore, be it

"Resolved, That the Committee on Rules be and is hereby authorized and empowered to appoint a committee of seven members of this Board for the purpose of investigating the subject of taxicab rates, and all questions germane thereto, with a view toward recommending to this Board a proper ordinance enacting rates which shall be charged by owners of taxicab vehicles."

—respectfully

REPORTS:

That on May 31, June 6, August 27, December 11, December 18 and December 21, 1912, your Committee held public hearings which were duly advertised, and at which all people interested in the subject matter of the investigation were given an opportunity to express their views and offer evidence on the various phases of the subject matter of the investigation. Evidence and argument was received from the representatives of various cab companies, hotel proprietors, the Drivers' Association, the Independent Taxicab Owners' Association, also from smaller concerns, civic organizations and private citizens, and from all of such sources a vast volume of evidence and argument was obtained which has been carefully analyzed by your Committee and its deliberations and conclusions thereon embodied in the proposed ordinance which is herewith submitted.

By way of explanation of the proposed ordinance herewith submitted, and for the sake of convenience the subject matter of the ordinance is discussed under the following heads which correspond to the various logical divisions of the proposed ordinance:

I. Public Hack Licenses.
II. Drivers' Licenses.
III. Hack Stands.
IV. Rates of Fare.
V. Miscellaneous Provisions.

Public Hack Licenses.

A practical unanimity of belief that more stringent safeguards should be placed about the licensing of public hacks to insure sanitary and proper vehicles for the use of the public is expressed in the evidence taken by the Committee.

The large taxicab companies have urged that they render a better service to the public by reason of the fact that they keep their taxicabs in perfect order, and in a clean and wholesome condition.

The Committee believes that any vehicle licensed to ply for hire on the public streets should approximate the general condition which is claimed by the taxicab companies for their care, and that a proper enforcement of the provisions of the proposed ordinance by the Mayor's Bureau of Licenses will secure that desired result.

The Committee has directed that each motor propelled public hack, except sightseeing cars, be equipped with a taximeter, believing that this is the only possible way in which the travelling public can be protected from overcharges.

Drivers' Licenses.

It appears from the evidence taken by the Committee and from common knowledge that under the present system of licensing chauffeurs a great many irresponsible, if not actually vicious, men secure licenses and an effort has been made by providing for a searching investigation of applicants for drivers' licenses to bar out undesirable ones and also to secure those who have knowledge of local geography and traffic conditions and police regulation thereof.

The Committee believes that the general public has the right to place absolute reliance upon the character of the men licensed by the City as public hackmen and that this licensing by the City should indicate that the person so licensed to do business by the City is a person of good reputation and mentally and physically well equipped for the position for which he is licensed.

Hack Stands.

The Committee believes that a condition has arisen through the operation in the City of what are popularly known as "private stands," which calls for immediate remedy. Under the present "private stand" system all of the most lucrative hack stand business is practically monopolized by those companies and business organizations which control the private stands, which companies pay the owners of the property abutting on the street where the private stand is located usually 10 per cent. of their gross income from the stand, which amounts to a sum variously estimated from $350,000 upwards yearly.

The Committee believes that this monopoly is responsible for the fact that there has not been a gradual increase in the number of cabs used in the taxicab service of this City, and is responsible to a large degree for the present high rates charged. This system of private stands which has been abused by keeping more taxicabs on the space than actually licensed is totally indefensible and amounts in your Committee's opinion to a letting out of public property for private gain as well as the creation of a virtual monopoly and a discrimination against the former so-called public hacks which have had no opportunity to participate in the rich field of hotel, club and restaurant patronage. Further, a custom has grown up in plain violation of the spirit of the present ordinance of licensing the stand instead of the hack. As a result the City loses an estimated revenue of $20,000 per annum through more hacks using the spaces licensed than there is number of spaces licensed.

The Committee has therefore provided for the direct abolition of these private hack stands, and in order to distribute public hacks so that they might be available to the general public, has given the Mayor power to create public hack stands where in his judgment in the conditions call for such stands.

Rates.

The legal maximum rate of fare for four seated coaches, including taxicabs, is established by section 319 of the Ordinances as follows: One dollar for one mile or any part thereof; 50 cents for each additional half mile or any part thereof. The maximum rate, however, has not been generally charged, and the larger taxicab companies are operating under a rate of 80 cents for the first mile and 50 cents for each additional mile, irrespective of the number of passengers carried.

Your Committee advises a reduction in the fare to a rate of 50 cents for the first mile and 40 cents for each additional mile for one or two passengers, and 70 cents for the first mile and 60 cents for each additional mile for three or more passengers.

This recommendation is based upon an analysis of a great mass of evidence offered by the companies and the testimony of the Independent Taxicab Owners' Association, and your Commitee believes that it is a fair rate and will enable all hack owners to make a fair return upon the amount of their actual investment.

The evidence given by the Independent Taxicab Owners' Association tends to show that these driver owners make a good return upon their investment at a lesser charge, but your Committee, in view of the stringent regulations enacted covering the licensing of chauffeurs and the licensing of hacks believe that the general public will be willing to pay these rates for satisfactory service.

Miscellaneous Provisions.

Your Committee has forbidden any person riding on the box with the driver, believing that such a provision will be helpful in presenting the presence of a confederate of a dishonest driver.

Your Committee has made other miscellaneous provisions in the proposed ordinance which are largely self-explanatory, and has endeavored to protect the taxicab owner from fraud and deception by passengers by providing a penalty of fine and imprisonment for any one who by fraud or deception evades payment of the legal fare.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

3. The Mayor shall have power to suspend or revoke any license or permit issued under the provisions of this ordinance.

Article III.

Public Hack Licenses.

1. No public hack shall ply for hire upon the streets of the City of New York without first obtaining a license from the Bureau of Licenses. Such license shall be issued as of February 1, and shall expire on the 31st day of January next succeeding of each and every year hereafter unless sooner suspended or revoked by the Mayor or the Chief of the Bureau of Licenses.

2. Applications for licenses for public hacks shall be made by the owner upon blank forms to be furnished by the Bureau of Licenses, and such applications shall contain the full name and address of the owner, the class of the vehicle for which the license is desired, the length of time the vehicle has been in use, the number of persons it is capable of carrying, and, if a motor-driven vehicle, the motor power thereof.

3. No vehicle shall be licensed until it has been thoroughly and carefully inspected and examined and found to be in thoroughly safe condition for the transportation of passengers, clean, fit, of good appearance, and well painted and varnished. It shall be the duty of the said Chief of the Bureau of Licenses to make, or to have made by his lawful deputies, such examination and inspection before issuing a license. It shall be the duty of such Chief of the Bureau of Licenses to refuse a license to,

or if already issued revoke or suspend the license of, any vehicle found by him to be unfit or unsuited for public patronage.

4. It shall be the duty of the said Chief of the Bureau of Licenses to examine any taximeter attached to any public hack and to see that the same is accurate before issuing a license to such public hack.

5. It shall be the duty of the Chief of the Bureau of Licenses, and he is hereby authorized and empowered to that end, to establish reasonable rules and regulations for the inspection of public hacks and their appurtenances, their construction, their condition of fitness, the time and places of their inspection, as may seem to him necessary or convenient for the proper conduct of his office or for the benefit of the public.

6. If, upon inspection, the vehicle is found to be of proper character and in proper condition in accordance with the provisions of this ordinance, and the rules and regulations so established, and upon payment of the license fees hereinafter set forth, the same shall be licensed by delivering to the owner a card of such size and form as may be approved by the Mayor, which card shall contain the official license number of the hack so licensed, together with the date of inspection of the same, and a statement to the effect that, in case of any complaint, the Chief of the Bureau of Licenses shall be notified, giving the license number of the cab; and such card shall be signed by the Chief of the Bureau of Licenses or by a duly authorized deputy. Such card, suitably framed to protect it from injury, shall be affixed by the owner to such conspicuous place in the interior of the public hack as shall be designated by the Chief of the Bureau of Licenses or his said deputy. Such cards shall contain blank spaces upon which an entry shall be made of the date of every inspection of such vehicle by the Inspector who makes such inspection.

Such cards shall be changed annually. They shall be of a distinctly different color each year, and in the case of public hacks driven by mechanical power the license number assigned hereunder shall in each case be the same as that assigned to the same vehicle by the Secretary of State of the State of New York for that year pursuant to law.

7. At the same time there shall also be affixed to a conspicuous and indispensable part of each public hack, by the Chief of the Bureau of Licenses or his deputy by him duly authorized, a small plate not exceeding six inches in diameter which shall bear the license number of the vehicle. The design of such plates shall be changed annually.

8. The following license fees shall be paid:

For each cab	$5 00
For each coach	10 00
For each sightseeing car	10 00

Such license fees shall be in lieu of and not in addition to any fees heretofore established, and except as above provided no charge shall be made.

In the case of licenses issued on or after August 1 in each year hereafter, one-half only of the above fees shall be paid.

9. The Bureau of Licenses shall keep a register of the name of each person owning or operating a vehicle licensed under this ordinance, together with the license number of the same, the description, make and necessary dimensions of such vehicle, with the date and complete record of inspections made of it, and such records shall be open to the inspection of the public at all reasonable times, and shall be public records, and extracts may be certified to by the Chief of the Bureau of Licenses, or his deputy duly authorized, for use as evidence.

10. Any owner or driver of a vehicle not licensed and equipped in accordance with the provisions of this ordinance, or of a vehicle the license of which has been suspended or revoked, and who engages in the business of a public hack as defined hereby, or attempts to engage in such business, or solicits for hire passengers upon the public streets or highways of The City of New York, shall upon conviction before any City Magistrate be punishable by fine of not over $50 or imprisonment not exceeding thirty days, or both.

11. Every public hack driven by mechanical power, seating four passengers or less, shall have affixed thereto a taximeter of a size and design approved by the Chief of the Bureau of Licenses for use upon public hacks. No license shall be issued to a public hack with a taximeter attached thereto until the same shall have been inspected and found to be accurate, and no person shall use or permit to be used upon any public hack a taximeter which shall be in such condition as to be over five per cent. incorrect to the prejudice of any passenger under a penalty of fifty dollars for each and every offense.

12. After sundown the face of every taximeter shall be illuminated by a suitable light so arranged as to throw a continuous steady light upon the face thereof. A violation of this provision shall render the offender liable, upon conviction before a City Magistrate, to a fine not exceeding ten dollars, or in default of payment thereof to imprisonment in the City Prison for a period not exceeding ten days.

13. No taximeter affixed to a public hack propelled by steam, gasolene, electricity, or other motor power, shall be operated from any wheel to which the power is applied, under penalty of revocation of the license of said vehicle, and a fine of $25.

14. Public hack licenses granted under this ordinance may be revoked or suspended at any time by the Chief of the Bureau of Licenses, if the public hack be not kept at all times in good condition and appearance, clean and safe; and in the case of horse-drawn vehicles, if the horse or horses are unfit for use. It shall be the duty of the Chief of the Bureau of Licenses, through his deputies and inspectors, to maintain constant vigilance over all public hacks licensed under this ordinance, to see that all such vehicles are kept in a condition of continued fitness for public use, and to this end it shall be the duty of the said Chief of the Bureau of Licenses, through his deputies and inspectors, to inspect all public hacks from time to time, or on the complaint of any citizen, or as often as may be necessary. A report in writing of all inspections shall promptly be made to the Chief of the Bureau of Licenses. Licenses when so suspended or revoked shall not be reissued until the public vehicle and all its appurtenances shall be put into fit condition for use by the public, to the satisfaction of the Chief of the Bureau of Licenses.

Article IV.
Drivers' Licenses.

1. Every person driving a public hack must be licensed as such driver.

2. No person shall be so licensed unless he fulfills the following qualifications:

(a) He must be of the age of 21 years or over.

(b) He must be of sound physique, with good eyesight and not subject to epilepsy, vertigo, heart trouble, or any other infirmity of body or mind which might render him unfit for the safe operation of a public hack.

(c) He must be able to read and write the English language, and be clean in dress and person.

(d) He must not be addicted to the use of intoxicating liquors.

(e) He must produce, on forms to be provided by the Chief of the Bureau of Licenses for that purpose, sworn testimonials of good character from two reputable citizens of the City of New York who have known him personally and observed his conduct during one year next preceding the date of his application, and a further testimonial on a form provided for that purpose from his last employer, unless in the estimation of the Chief of the Bureau of Licenses sufficient reason is given for its omission.

(f) He must fill out upon a blank form to be provided by the Bureau of Licenses for that purpose a statement giving his full name, residence, places of residence for five years previous to moving to his present address, age, color, height, color of eyes and hair, place of birth, length of time he has resided in the City, whether a citizen of the United States, places of previous employment, whether married or single, whether he has ever been convicted of a felony or a misdemeanor, whether he has been summoned to court, whether he has previously been licensed as a driver or chauffeur, and if so whether his license has ever been revoked, and for what cause, which statement shall be signed by the applicant in writing and sworn to and filed in the office of the Chief of the Bureau of Licenses as a permanent record of that office. Any false statement made by applicant for a license shall be punishable by a fine of $25, and a record of such false statement sent by the Chief of the Bureau of Licenses to the District Attorney of the county in which the application was made.

(g) Such applicant for a license must if required by the Bureau of Licenses, in order to demonstrate his skill and ability to safely handle his vehicle, drive the vehicle through a crowded section of the City accompanied by an Inspector of the Bureau of Licenses.

(h) Each applicant shall be examined by the Bureau of Licenses as to his knowledge of the provisions of this ordinance, the police traffic regulations, and of the geography of the City of New York, and if the result of the examination be unsatisfactory he shall be refused a license.

(i) Each such applicant for a driver's license must file with his application two recent photographs of himself of a size which may be easily attached to his license, one of which photographs shall be attached to such license when issued, the other photograph to be filed with the application in the Bureau of Licenses. The photograph of the licensee shall be attached to the license in such a way that it cannot be removed and another photograph substituted without detection. Each licensed driver shall upon demand of an inspector of licenses, a policeman, or passenger exhibit his license and photograph for inspection. In such instances where the application for a license is denied, the photograph shall be returned to the applicant by the Bureau of Licenses.

3. The Chief of the Bureau of Licenses is hereby authorized and empowered to provide forms for applicants for drivers' licenses hereunder, and he may establish reasonable rules and regulations governing the issue of drivers' licenses not inconsistent herewith.

4. Upon satisfactory fulfillment of the conditions herein established, the applicant shall be licensed by delivering to him a license which shall be in such form as to contain a photograph of the licensee, the licensee's signature, and shall contain blank spaces upon which a record may be made of any arrest of the driver or serious complaint against him. Any licensee who defaces, removes or obliterates any entry made in these blank spaces upon his license shall be punished by the revocation of his license. There shall also be delivered to each licensee a metal badge, of such form and style as the Mayor shall approve, with his license number thereon, which must, under penalty of revocation of the license, be constantly conspicuously displayed on the outside of the driver's coat when said driver is engaged in his employment. The Bureau of Licenses shall keep a complete record of each license issued to a driver, all renewals, suspensions and revocations thereof, which record shall be kept on file with the original application of the driver for a license.

5. Drivers' licenses shall be issued as of February 1 in each and every year, and shall be valid to and including the 31st day of January next succeeding. The Bureau of Licenses may renew same from year to year by noting the fact of such renewal on the licenses.

6. A driver in applying for a renewal of his license under this ordinance can make such application upon a form to be furnished by the Bureau of Licenses entitled "Application for Renewal of License," this blank to be filled out with the full name and address of the applicant for such renewal, together with a statement of the date upon which his original license was granted and the number thereof.

The following license fees shall be paid for drivers' licenses:

For each original license	$1 00
For each renewal thereof	50

Any person now holding a public driver's license under the provisions of any former ordinance or regulation shall be entitled to have the proportion of his fee for his unexpired license apply in payment of the original license issued under this ordinance.

7. Drivers' licenses may be suspended or revoked at any time by the Mayor, the Chief of the Bureau of Licenses or any City Magistrate. The fact of such suspension shall be noted on the license, together with a statement of the reasons therefor, and the driver shall be deprived of his badge by the official suspending or revoking such license. When the license is suspended or revoked by an official other than the Chief of the Bureau of Licenses, the driver's badge and a note of the revocation or suspension shall be forthwith forwarded to him; the badge to be returned at the expiration of the period for which the license was suspended. A second suspension for the same reason, or in any case a third suspension of a driver's license, shall revoke the license. No driver whose license has been revoked shall again be licensed as a public hack driver in The City of New York. Whenever a license is suspended or revoked by a City Magistrate notice of such revocation, with the cause thereof, shall be forwarded to the Chief of the Bureau of Licenses. It shall also be the duty of the Chief of the Bureau of Licenses to notify the Police Department whenever a license is revoked.

8. Any person not having been duly licensed as a public hack driver, or any person whose license as such driver has been revoked, or any person whose license has been suspended and who during the time of such suspension drives for hire a public hack upon the streets or highways of The City of New York, shall upon conviction before any City Magistrate be punished by a fine of not over $50 or imprisonment for a term not exceeding thirty days, or both.

Article V.
Hack Stands.

1. All public hack stands heretofore designated by this Board are hereby abolished.

2. All special hack stands are hereby abolished and licenses for the same shall not be issued hereafter.

3. The Mayor is hereby authorized to locate and designate as public hack stands the space alongside the curb adjacent to property used as public parks, public buildings, railroad stations, steamship and ferry landings, hotels, restaurants, theatres, and the centre of any street or avenue where the roadway, exclusive of the sidewalk, is 30 feet in width or more.

4. The Mayor may also designate the space beside the curb adjacent to subway entrances and elevated railway steps as stands for a limited number of public hacks. The Mayor shall further designate the number of such public hacks that shall be allowed to stand at any of the places designated by him, and the Bureau of Licenses shall prepare a metal sign, which shall be attached to a post or stanchion adjacent to the said stand, and on which sign shall be placed the number and kind of vehicles that will be allowed on that particular hack stand.

5. Owners of any property may apply to the Mayor for the establishment of a public hack stand adjacent to their premises, stating in said application the number of public hacks they desire to come on said stand, and also the kind of locomotion to be used, whether gasoline, electric motor or horses. Such application shall be granted solely in the discretion of the Mayor, and may be revoked by him at any time. There shall be delivered to the owner of the property making such application a metal sign to be affixed to a stanchion on the curb or other conspicuous place, setting forth the kinds of public hacks and the number thereof that will be allowed on said stand.

6. The Mayor may not establish a public hack stand in the centre of any street opposite to the premises where the owner has applied for and received the permit last above mentioned, during the time that said permit is in operation.

7. No public hack shall stand at any hack stand located and designated by the Mayor in accordance with section 3 of this article, adjacent to the curb of the sidewalk, within 15 feet of the entrance to any building erected on the property adjacent to the said hack stand. The said 15 feet shall be determined by measuring 15 feet on each side of a point on the curb opposite the middle of the entrance to the adjacent building. No hack shall stand within 5 feet of any cross-walk.

8. Only public hacks in such numbers and of such kinds as are set forth on the metal sign may remain at the stand while waiting for employment; and only in single file, pointed in accordance with the traffic regulations. No public hack standing at the head of any such line shall refuse to carry any orderly person applying for a hack, who agrees to pay the proper rate of fare; but this shall not prevent any person from selecting any hack he may desire on the stand whether it be at the head of the line or not. As the hacks leave the line with passengers, those behind shall move up, and any public hack seeking a space on the stand shall only approach the same from the rear end of the stand and move up as far as possible to the last cab already on the line.

9. The Mayor may suspend or revoke the license of any public hack driver who shall violate the above provisions by standing in front of the entrance of any building within the prohibited space after his passengers desiring to leave have alighted, or who shall attempt to stand in said prohibited space waiting for passengers, or who shall violate any of the other provisions of this section.

Article VI.
Rates of Fare.

1. Maximum rates of fare shall be as follows:

For each succeeding one-sixth mile, or any fraction thereof	10

2. Sight-seeing cars.

No rates are hereby established for sight-seeing cars, but a schedule of the rates charged for each trip shall before the trip be prominently displayed upon the car, and a charge greater, or attempt to charge any passenger a sum greater than that set forth in said schedule shall be deemed a violation of this ordinance.

3. Horse-drawn vehicles.

For cabs:

For the first mile, or any fraction thereof	$0 50
For each succeeding one-half mile, or any fraction thereof	20

For coaches:

For the first hour, or any part thereof	$1 50
For each additional one-half hour	50

In case of public hacks on which taximeters are not affixed, when driving on the numbered streets or numbered and lettered avenues in the Borough of Manhattan, twenty blocks north and south, and seven blocks between the numbered and lettered avenues constitute a mile for the purpose of this ordinance. The rate card, as provided for hereafter, shall state the number of blocks constituting a mile in the Borough of Manhattan.

4. Applying both to motor-driven and horse-drawn vehicles:

For waiting time at the rate of $1.50 per hour.

For each piece of luggage carried outside, twenty cents. No charge shall, however, be made for hand bags and suit cases.

Ferriage and tolls in all cases to be paid by the party using the vehicle.

5. A copy of the foregoing rates of fare shall be furnished by the Bureau of Licenses to each public hack, and shall at all times be pasted in a conspicuous place in the inside thereof.

6. The Bureau of Licenses shall provide each public hack with a printed receipt pad, and every public hackman shall keep on hand a supply of the same, and shall, whenever so requested by a passenger, give the passenger a receipt on such printed official form for the fare paid.

7. Any violation of the provisions of this article, or any charge or any attempt to charge any passenger a greater rate of fare than that to which the public hack is entitled under the provisions of this article, shall render the offender liable, upon conviction thereof before any City Magistrate, to a fine of not exceeding $10, or in default of payment thereof to imprisonment in the City Prison for a period not exceeding ten days.

Article VII.

Miscellaneous Provisions.

1. It shall be unlawful:

For any person to use or permit to be used, or drive for hire, a public hack equipped with a taximeter not having the case thereof sealed and the cover and gear thereof intact.

For any driver of a public hack equipped with a taximeter or other similar device, while carrying passengers or under employment, to display the signal affixed to such taximeter or other similar device in such position as to denote such vehicle is not employed, or in such position as to denote that he is employed at a rate of fare different from that to which he is entitled under the provisions of this ordinance.

For any person to drive a public hack on which has been affixed any taximeter other than one duly inspected and approved.

A violation of any of the provisions of this section shall render the offender or offenders liable upon conviction before any City Magistrate to a fine of not more than fifty dollars for each and every offense, and in default of payment of such fine he may be committed to prison by such Magistrate until the same shall be paid, but such imprisonment shall not exceed ten days.

2. Every driver of a public hack, immediately after the termination of any hiring or employment, must carefully search such hack for any property lost or left therein, and any such property, unless sooner claimed or delivered to the owner, must be taken to the nearest Police Station and deposited with the officer in charge within twenty-four hours after the finding thereof, and the Captain of the precinct to which such report shall be made shall forward a written notice to the Bureau of Licenses with brief particulars and description of the property.

3. Every driver of a public hack shall have the right to demand payment of the legal fare in advance, and may refuse employment unless so prepaid, but no driver of a public hack shall otherwise refuse or neglect to convey any orderly person or persons upon request anywhere in the City, unless previously engaged or unable to do so. No driver of a licensed hack shall carry any other person than the passenger first employing a hack without the consent of said passenger.

4. All disputes as to the lawful rate of fare shall be determined by the police officer in charge of the police station nearest to the place where such dispute is had; failure to comply with such determination shall subject the offending party to a charge of disorderly conduct, punishable by a fine of not exceeding ten dollars, or in default thereof, imprisonment for not more than ten days.

5. ORDINANCES AND RESOLUTIONS.

Alderman Dowling asked and obtained unanimous consent to introduce the following:

No. 3743.

Resolved, That, pursuant to the provisions of chapter 887 of the Laws of 1911, the Board of Aldermen hereby certifies to the Comptroller for payment as a charge against The City of New York, for services rendered to Mayor William J. Gaynor, including consultations, during August, 1910, while suffering from a bullet wound sustained at the hands of a person deeming himself aggrieved by and seeking revenge for an alleged official act on the part of the said Mayor, amounting to three hundred dollars ($300).

Law Office of Arthur Knox, 198 Broadway, New York City, April 18, 1913.

Hon. WILLIAM J. GAYNOR, City Hall, New York City:

Dear Sir—Dr. C. G. Coakley, who attended you professionally in 1910, and whose bill for services, including consultations, is $300, has asked me to call your attention to this bill and to request payment thereof.

At the suggestion of Dr. George D. Stewart, who brought Dr. Coakley into the case, Dr. Coakley sent this bill some time ago to the Corporation Counsel, who has paid no attention to the communication.

May I ask you to give this matter your attention? Respectfully,

ARTHUR KNOX.

Dr. George David Stewart, 61 West 50th Street, New York, May 5, 1913.

Mr. WM. B. CEDWELL, Assistant Corporation Counsel, Office of the Mayor, New York City:

Dear Mr. Cedwell—I will be absent from the City for two days and then I will explain to you about the Coakley bill. Dr. Coakley did render the services and the bill was not handed in. I may add further that Dr. Coakley's charges are very moderate, for I know that he went, at least, once and I think twice to St. James. In forty-eight hours I will give you the exact dates and amounts, etc. Please excuse my haste. Yours truly,

GEO. DAVID STEWART,
Per E. B. Cook, Secretary.

May 9, 1913.

WILLIAM B. CROWELL, Esq., Assistant Corporation Counsel, Office of the Mayor:

Dear Sir—The facts about Dr. Coakley's bill are as follows:

Dr. Coakley did render services to the Mayor, at my request, going to St. James at least once, and possibly twice, and his charges therefor are not excessive.

When bills were first discussed I mentioned the amount of Dr. Coakley's bill to the Corporation Counsel, along with the others, and I think that bill, with the others, was rendered at that time. As some time elapsed, however, and these bills were not paid, it became necessary to render duplicates, and at this time Dr. Coakley's bill, by an oversight, was not included. Very truly yours,

GEO. DAVID STEWART.

The Vice-Chairman put the question whether the Board would agree to adopt said resolution.

Which was unanimously decided in the affirmative by the following vote:

City of New York, Office of the Mayor, March 18, 1913.

To the Honorable The Board of Aldermen:

I herewith transmit to you for your consideration a revised ordinance concerning water rents, which I trust may be passed by your honorable body. With it I send a letter from the Water Commissioner showing the necessity for the revision. The present ordinance was passed in 1849. It provides a frontage rate of charges for buildings up to five stories high. At that time it was not anticipated that buildings would be erected of a greater height than that. This revised ordinance is to meet that case, and prescribe a rate for buildings over five stories in height. This is one of the things to be corrected. The Commissioner's letter will disclose to you the other things. Very truly yours, W. J. GAYNOR, Mayor.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, March 17, 1913.

Hon. WM. J. GAYNOR, Mayor, City of New York:

Sir—I am transmitting herewith proposed amendment to section 282 of the General Ordinances in relation to water rents and charges. Since 1849 there has been in force, without change, a scale of frontage rate charges for buildings having a frontage up to 50 feet and not exceeding five stories in height. When this scale was adopted it was probably thought that for many years no buildings would be erected over five stories in height and of a greater frontage than 50 feet. It is probably twenty years or more since buildings of greater dimensions than the schedule anticipated were constructed, and since that time there has never been any lawful rate for such buildings, although by custom the Department has arbitrarily fixed rates where a building was over five stories in height and exceeded 50 feet in frontage.

The proposed amendment to the existing ordinance permits of the establishment of a rate for any size building, regardless of the number of stories or its frontage. Of course, you understand that the frontage rate affects the business building the same as the premises used for domestic purposes, until such time as a meter is installed. From 1849 until 1910 the frontage rate for rear buildings was based upon a $5.00 annual charge for each 25 feet frontage. This rate was probably established by one of the former Commissioners who had discovered that in the schedule of charges there was no provision for rear buildings. In 1910 a question arose regarding the rates for rear buildings and the Corporation Counsel stated that, owing to the fact that the ordinance fixed a rate for buildings without making any distinction between front and rear, the Department would have to apply a charge for all rear buildings on the same basis as front buildings were classed.

I am of the opinion that under section 473 of the Charter it was the intent to establish a different rate for rear buildings and I have accordingly incorporated in this proposed ordinance a rate for rear buildings, which will be on the same basis as existed in the former City of New York for sixty years. All of the other extra and miscellaneous rates are, with but few exceptions, the same as exist to-day and which have been in force for many years. The only material change affects the charge for water supplied to shipping and for water furnished to boilers used for hoisting, excavating, etc. The present rate for water supplied to boats is unreasonably small.

This draft of ordinance has been prepared by the Corporation Counsel and I have discussed it with the different Borough Deputy Commissioners, and it is agreed that it covers every possible use of water. Practically all of the miscellaneous and extra rates included in this schedule have never heretofore been covered by an ordinance, and it has been claimed that the Department has always been without any lawful authority to impose these rates and collect charges.

If, in your opinion, this schedule properly establishes a reasonable and uniform rate for water supplied by this City, I would ask that you kindly forward this schedule to the Board of Aldermen for adoption, pursuant to section 473 of the Charter.

Respectfully, HENRY S. THOMPSON, Commissioner.

P. S. For further information regarding this subject, and particularly the change in the schedule of frontage rates, see my communication of October 28, 1912.

To the Honorable Board of Aldermen, City Hall:

Gentlemen—This department has conducted a test of the King meter, manufactured by the Union Meter Co., for the purpose of ascertaining whether it was a suitable and reliable meter to be used in measuring water in this City. The meter is of the disc pattern, almost similar in construction and material to the other disc meters which the City has adopted from time to time. It is made in sizes from ⅝-inch to 2-inch. The tests for accuracy on different flows and the tests for durability have shown that this meter could be safely adopted for use in this City.

I respectfully recommend, pursuant to section 475 of the Charter, that this meter be adopted, both as to pattern and price. On the attached schedule are given the different sizes in which the meter is made and the prices, including the connections.

Yours truly, HENRY S. THOMPSON, Commissioner.

Size.	Price.	Connections.
⅝-inch	$8 00	$0.40 per set.
¾-inch	12 00	.60 per set.
1-inch	16 00	.80 per set.

I would, therefore, recommend that, pursuant to section 475 of the Charter, this meter is adopted by the Board of Aldermen, both as to pattern and price.

On the enclosed schedule are given the different sizes of the meter and the prices at which same can be purchased. Yours truly,

SUBSTITUTE.

Resolved, That in pursuance of section 475 of the amended Greater New York Charter, and in accordance with the recommendation of the Commissioner of Water Supply, Gas and Electricity, the Nilo meter, sizes from 2 to 12 inches, be and the same is hereby approved as to pattern and prices, as water meters for use in The City of New York, to wit, as follows:

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park row, New York, January 20, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Dear Sir—The Union Water Meter Company of Worcester, Mass., is the manufacturer of the Nilo meter. It is constructed so as to insure a quick delivery of water, and is intended for use in manufacturing establishments and other places where a large quantity and an uninterrupted supply of water is necessary. It is of the current type, and at present there are only two or three others of this type of meter which have been adopted for use in the City.

Conditions existed which made it possible for the Department to subject this meter to a very severe and trying test in order to determine its accuracy and durability. While in position in one of the public baths it delivered over 900,000 cubic feet of water, and at stated periods during its service in the bath tests were applied to ascertain the accuracy of the delivery. All of these tests established the accuracy of the meter to a degree closer to the 100 per cent. point than other meters of the same design.

I would respectfully recommend to the Board of Aldermen the adoption of the Nilo meter in sizes and prices as follows:

2-inch	$40 00	6-inch	$350 00
3-inch	80 00	8-inch	600 00
4-inch	160 00	12-inch	800 00

Please submit this communication, together with attached draft of resolution, to the Board of Aldermen at its next meeting. Yours truly,

HENRY S. THOMPSON, Commissioner.

DEPARTMENT OF DOCKS AND FERRIES.

Proposals.

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

FILLING PRIVILEGE.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, North River, in The City of New York, until 12 o'clock noon on

WEDNESDAY, JUNE 11, 1913.

FOR THE RIGHT TO DUMP FILL BEHIND THE BULKHEAD WALL RECENTLY BUILT BETWEEN E. 123D ST. AND E. 124TH ST., HARLEM RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material as hereinafter described the area behind the new bulkhead wall extending from the southerly side of E. 124th st. southerly a distance of 120 feet, and extending inshore a distance of about 165 feet to the present stone wall along the easterly side of Pleasant ave.

The filling shall be brought to a grade level with the top of the coping of the bulkhead wall and shall extend inshore on a sloping grade to the level of Pleasant ave. Bidders will state in writing a lump sum price which they agree to pay for the privilege of filling the whole of the area above described.

It is estimated that the area outlining the above described limits will create a basin to be filled in under the agreement, the cubical contents of which in the net void space are equal to 11,800 cubic yards.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or peneration into the mud.

The Department is not bound in any way by the estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises or such other means as they may prefer; the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above estimated quantity and the actual amount of filling required.

The purchaser will be required to place the filling in accordance with the following specifications:

All of the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore.

All material must be dumped and filled in only in such manner, at such points, and in such order of procedure, and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

The purchaser shall provide all plank and other appliances and all necessary labor, and shall at all times keep the dump graded to the satisfaction of the Engineer.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Chief Engineer of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 100 cubic yards per day shall be placed, and the whole amount of the filling called for to bring the above described basin up to grade shall be completed within 118 days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed, unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satis-

faction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filing in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling, and at all times until the completion thereof, take all necessary precaution and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from the negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

The contractor agrees that he will comply with the provisions of the Labor Law. He further agrees that no laborer, workman or mechanic in the employ of the contractor, subcontractor or other person doing or contracting to do the whole or a part of the work contemplated by the contract, shall be permitted or required to work more than eight hours in any one calendar day, except as in cases of extraordinary emergency caused by fire, flood or danger to life or property. That the wages to be paid for a legal day's work to all classes of such laborers, workmen or mechanics upon public work or upon any material to be used thereon shall not be less than the prevailing rate for a day's work in the same trade or occupation in the locality where such public work is being constructed. Each such laborer, workman or mechanic shall receive the prevailing rate of wages. This contract shall be void and of no effect unless the person or corporation making or performing the same shall comply with the provisions of sections 3 and 14 of the Labor Law.

FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN THAT at the meeting of the Board of Estimate and Apportionment held this day the following resolutions were adopted:

Whereas, The New York Quotation Company has, under date of June 14, 1912, made application to this Board for the grant of the right, privilege and franchise to use the subway ducts in that portion of the Borough of Manhattan lying south of Chambers street, for the purpose of laying, maintaining and operating wires to be used in the operation of electrical printing instruments, commonly known as "stock tickers"; and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on September 19, 1912, fixing the date for the public hearing thereon as October 24, 1912, at which citizens were entitled to appear and be heard, and publication was had for at least two (2) days in "The Sun" and "New York Commercial," newspapers designated by the Mayor, and in the CITY RECORD for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such date; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the New York Quotation Company and the adequacy of the compensation to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the New York Quotation Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the New York Quotation Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This Contract, made this day of 1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the New York Quotation Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to lay, construct, maintain and operate suitable wires or other electrical conductors under the streets and avenues within that portion of the Borough of Manhattan lying south of a line beginning at a point on the Hudson River on a line with the northerly side of Chambers street; running thence easterly along the northerly side of Chambers street to the northerly side of New Chambers street on a line therewith; thence continuing easterly along the northerly side of New Chambers street to the easterly side of James slip; thence southerly along the easterly side of James slip to a point on the shore of the East River in line therewith, for the purpose of electrically connecting its places of business with each other and with other offices and places of business of persons, firms and corporations so as to allow of the distribution of stock and bond quotations and dividend and other notices over the said wires to printing telegraph instruments, commonly known as "stock tickers," and for no other purpose whatsoever.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits, for the purpose aforesaid, shall be held and enjoyed by the Company for the term of fifteen (15) years from January 1, 1913, with the privilege of renewal of said contract for a further period of ten (10) years, upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

1. The sum of ten thousand dollars ($10,000) in cash within thirty (30) days after the date upon which this contract is signed by the Mayor.

2. For past use and occupation of the streets of the City a sum at the rate of eight thousand dollars ($8,000) a year from April 24, 1912, to the date of the signing of this contract by the Mayor.

3. During the first term of five (5) years, an annual sum which shall in no case be less than eight thousand dollars ($8,000) and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of eight thousand dollars ($8,000).

4. During the second term of five (5) years, an annual sum which shall in no case be less than ten thousand dollars ($10,000) and which shall be equal to four (4) per cent. of its gross annual receipts, if such percentage shall exceed the sum of ten thousand dollars ($10,000).

5. During the remaining term, an annual sum which shall in no case be less than twelve thousand dollars ($12,000) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of twelve thousand dollars ($12,000).

The annual charges shall commence from the date on which this contract is signed by the Mayor.

All annual charges as above shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the moneys due when this contract is signed by the Mayor shall be paid into the Treasury of the City within thirty (30) days immediately following such date; and provided further that the first annual payment thereafter shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, shall be valid or effectual for any purpose, unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fourth — The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Upon the termination of this original contract, or, if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the wires and equipment of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its wires and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall construct, maintain and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City and in strict compliance with all laws or ordinances or departmental rules and regulations now in force, or which may be adopted, affecting companies operating electrical conductors in the City.

No construction or repair of said electric system shall be commenced until written permits have been obtained from the proper City officials. In any permit so issued, such officials may impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues and the proper restoration of the surface of such streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

Upon the completion of any work of construction the Company shall furnish to the President of the Borough a plan of such character as he may direct, showing accurately and distinctly the location, size and type of construction and complete dimensions of the structures erected, installed or constructed under this contract and the location and dimensions of all substructures encountered during the progress of the work. The depth below the street surface of the new structure and of the substructures encountered must be shown; also their location with reference to the nearest curb line and the nearest curb line intersection.

The electrical and other equipment to be installed by the Company, whether the same be under streets and avenues, in any Department of the City or in private property, shall be constructed and maintained subject to the approval and under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Seventh—The plant, conduits, wires, conductors, connections, instruments and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner and with the most modern and improved appliances, and it is hereby agreed that the Board may require the Company to improve or add to its plant, conduits, wires, conductors, connections, instruments and appurtenances, from time to time, as such additions or improvements are necessary in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine. Nothing herein contained shall be deemed to affect the patent rights of the Company or the patented devices used or in the future to be used by it in the operation of its system.

Eighth—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as subways). Such subways shall be leased from the company or companies having control thereof under the provisions of law, or from the City should it succeed to the rights of such company or companies. If the City shall construct or acquire subways for electrical conductors of the character or tension of those used by the Company or similar companies, in the Borough of Manhattan, the Company hereby agrees to lay its wires and conductors in such subways and the City agrees to lease to the Company such space as may be necessary and available for the operation of the system hereby authorized. No cables or wires shall in the future be strung above the surface of the streets and avenues by the Company and those at present in existence shall be removed and placed underground when and where required by the Board or the Commissioner of Water Supply, Gas and Electricity.

Ninth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant.

Tenth—The Company shall, upon request from any individual, firm or corporation occupying or owning premises in the territory in which the Company is authorized to operate by this contract, not personally in arrears to it for services already rendered, and who shall be designated by the sender of the stock and bond quotations and dividend or other notices requested by the applicant and transmitted by the Company, extend its wires to such premises and transmit such stock and bond quotations and dividend or other notices to such individual, firm or corporation so designated. The Company shall also, upon request of any financially responsible individual, firm or corporation, occupying or owning premises in the territory in which the Company is authorized to operate by this contract, not personally in arrears to it for services already rendered, undertake to, and transmit for such individual, firm or corporation, stock or bond quotations and dividend or other notices furnished it by such individual, firm or corporation for that purpose to such individuals, firms and corporations as may be designated by the sender thereof, provided that such service shall not be required to be furnished in any given case until after the expiration of a reasonable time for procuring and installing the necessary equipment and apparatus for rendering such service, and provided further, that when the undertaking of the transmission of such messages shall require the installation of additional plant and equipment the Company may require the individual, firm or corporation, hereinbefore referred to, to enter into such agreement with respect to the length of time for which the said service is contracted as may be fair and reasonable.

Eleventh—The Company shall file with the Board on the first day of November in each year a map or plan upon which shall be plainly and separately indicated the number of wires which were in use by the Company on September 30 preceding, and the streets in which the same are located, and also those which were put in use during the year preceding that date. It shall also file with the Department of Water Supply, Gas and Electricity, on or before the tenth day of each month, a map or plan of the locations in which wires have been placed by it during the preceding month.

Twelfth—The rates to be charged by the Company shall not be in excess of the following, and it is agreed that the same may be altered or changed by the Board, as hereinafter provided:

(a) For transmitting financial news, including stock and bond quotations received from the New York Stock Exchange and including the use of one printing telegraph or ticker during such period as financial news may be transmitted to a designated recipient, the sum of twenty dollars a month or two hundred and forty dollars ($240) a year.

(b) For any other service authorized by this contract furnished or to be furnished by the Company at the request of any person, copartnership, corporation or exchange the rates charged shall be reasonable and fair and before being put into effect shall be submitted to the Board for its approval. In the event that it shall be necessary for the Company in order to undertake to render such additional or other service, to install plant or equipment additional to that at present in use, the rates to be charged may be such as to enable the Company during the life of the contracts for the furnishing of such additional or other service, to receive a return of the moneys so invested by it in such additional plant and equipment and a fair and reasonable profit on such investment.

The Company agrees, upon request of the Board, to transmit messages addressed to any department or bureau of the City where no additional equipment need be installed by the Company, save the laying of wires and installation of tickers, free of charge.

Thirteenth—During the term of this contract, or any renewal thereof, the Board shall have the power, by resolution, to regulate and fix the maximum and minimum rates to be charged by the Company in the City, provided such rates shall be reasonable and fair.

Fourteenth—The Company shall not require nor receive from the individuals, firms or corporations to which it transmits stock or bond quotations or dividend or other notices, any deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate whenever such money is held for more than one month. Unpaid bills, unless due from its owner, shall never be charged against property, and no person not himself in arrears shall be denied service because any previous occupant of the same premises is in arrears to the Company for service.

Fifteenth—The wires of the Company shall be employed for no other purpose than those explicitly set forth herein and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

Sixteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Seventeenth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions in the territory covered by this contract, or any part thereof.

Eighteenth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars ($100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Nineteenth—If for a period of six consecutive months the system of the Company shall not be operated, or if the same shall not be operated for a period of nine months out of any consecutive twelve months, the Board may declare the right and franchise and this contract terminated without further proceedings at law or in equity.

Twentieth—The Company shall at all times keep accurate books of account and shall, on or before November 1 in each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding. Such report shall contain a statement of the gross receipts of the Company, together with such other information and in such form and detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Twenty-first—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.

18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-second—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of fifteen thousand dollars ($15,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privileges hereby granted, in default of which payment of the annual charges, the City shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company.

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, furnishing of service to applicants, as herein provided, or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of the contract, or under the authority of any laws, ordinances or departmental regulations now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars ($50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of fifteen thousand dollars ($15,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-third — In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board, by resolution of said Board, which said resolution may contain a provision to the effect that the system constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action

by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less then ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such cases such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-fifth—The words "notice" or "direction," wherever used in this contract shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-sixth—The words "streets and avenues" or "streets or avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, included within the limits of the territory in which the Company is hereby authorized to operate.

Twenty-seventh—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues of the territory in which the Company is authorized to operate by this contract.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

PUBLIC SERVICE COMMISSION.

Proposals.

FIRST DISTRICT.

INVITATION TO CONTRACTORS.

Part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The City of New York, acting by the Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct section No. 4 of Route 5, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 4. Beginning at a point under Broadway, in the Borough of Manhattan, about midway between Houston and Bleecker sts. and extending thence northerly under Broadway and Union square to a point about three hundred and ninety (390) feet north of the intersection of the southerly building line of 14th st. with the centre line of the subway.

The general plan of construction calls for a subsurface railroad having four tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

The contractor will be required to prosecute the work of construction from working shafts located at the points specified in the contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of this contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 24th day of June, 1913, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, additions or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 5, Section No. 4," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or State bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bider whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the contractor will be required to furnish security to the City by giving a bond for seventy-five thousand dollars ($75,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.
