## BOARD OF ELECTIONS.

Meeting of the Board of Elections held Friday, September 5, 1902, at 12 o'clock, noon.

Present—Commissioners Voorhis, Page, Maguire and Dady.

The reading of the minutes of the previous meeting was, on motion, dispensed with.

The matter relating to the alleged filing with the branch office of the Board, in the Borough of Manhattan, of sixty-one transfer and become-of-age certificates by Jacob Goldstein from the Twelfth Assembly District, County of New York, was again taken up, and after argument by Alexander Rosenthal, counsellor at law, representing the petitioners, the matter was again laid over till the next meeting.

Supplemental lists of election officers to fill vacancies were received from the branch offices in the boroughs of Manhattan, The Bronx and Richmond.

The Board thereupon by resolution duly appointed said officers.

The President reported that on the 4th instant he was served with copies, affidavits and orders to show cause (issued by Judge Steckler, on the relation of Thomas F. Brady against John R. Voorhis, et al.) why the Board should not strike out from the enrollment books of the Fourteenth Election District of the Nineteenth Assembly District, in the Borough of Manhattan, the name of John Sullivan, and likewise the name of John Siemon. On motion, said papers were referred to the Corporation Counsel.

The following communications were received, viz.:

From C. V. Collins, Superintendent, Prison Department, dated Albany, September 2, returning Order No. 64 of the Board for certain articles of furniture for the new offices of the Board and Manhattan Branch Office, and giving information that he had on that date asked the State Commission of Prisons to issue a certificate authorizing the purchase of said articles in the open market. Filed.

From the State Commission of Prisons, dated Albany, September 3, 1902, a certificate stating that the articles called for in Order No. 64 of the Board cannot be furnished upon the requisition of the Board. Filed.

From J. E. Hardenbergh, Secretary-Manager New York City News Association, dated September 3, 1902, asking for twenty-one sets of election maps to be supplied to certain newspapers. Fifteen copies supplied. Filed.

The Board adjourned to Monday, September 8, 1902.

CHARLES B. PAGE, Secretary.

In the matter of the alleged filing of sixty-one transfer and become-of-age certificates in the Manhattan Branch Office by Jacob Goldstein, which was laid over at the last meeting for further consideration, Mr. Alexander Rosenthal further appeared in behalf of the claimants, and after hearing further argument by said counsel, and the testimony of the clerks in said Branch Office, and of witnesses for the claimants, on motion of Commissioner Maguire, seconded by Commissioner Page, the application to place the names upon the respective enrollment books, which appear upon the alleged copies of sixty-one transfer and become-of-age certificates, was denied, each Commissioner voting "aye."

Supplemental lists of Election Officers to fill vacancies were received from the Chief Clerk of the Branch Office in the Borough of Manhattan.

The Secretary presented an opinion of the Corporation Counsel relative to the claim of Klee Brothers, amounting to \$3,236.65 for the preparation of scale models for the proposed alterations and additions to the New York County Court House, together with a communication from Klee Brothers and a report of the Engineer of the Department of Finance.

LAW DEPARTMENT,  
OFFICE OF THE CORPORATION COUNSEL,  
NEW YORK, September 4, 1902.

To the Board of Estimate and Apportionment:

GENTLEMEN—I have received a letter from J. W. Stevenson, Esq., Deputy Comptroller, dated August 8, 1902, inclosing me a letter of Klee Brothers to Hon. Seth Low, Mayor, and certain other papers therein referred to. The letter of Klee Brothers is dated July 21, 1902, and relates to a claim for \$3,236.65 for the preparation of scale models of proposed alterations and additions to the New York County Court House. They desire the City to pay this claim, which they state has been approved by Horgan & Slattery, the corporation which was in charge of the architect's work in the alteration and extension of the County Court House. The matter is referred to me by your Board for consideration and action.

I am of the opinion that the claim of Klee Brothers is not a legal obligation of The City of New York. The work which is the subject of their claim was done solely on the order of Horgan & Slattery, as appears from the papers submitted to me, and therefore there are no legal relations between The City of New York and the claimants.

Respectfully yours,

THEODORE CONNOLLY, Corporation Counsel.

NEW YORK, July 21, 1902.

Hon. SETH LOW, Mayor's Office, New York City:

DEAR SIR—Inasmuch as you were too busy to allow us an interview Thursday last or this morning, we will follow Mr. Moran's suggestion and write you about the matter we had for your consideration.

We inclose a statement of a claim on account of models for the New York County Court House, as authorized by Messrs. Horgan & Slattery. We have asked Messrs. Horgan & Slattery for their note for the amount, but they refuse to comply, as their controversy with the City may not be adjusted for a long time.

But they inform us that since we are not a party to the main issue, and since we are entitled to our claim, they are perfectly willing to issue a certificate for the amount so we can be paid and the amount can be charged against their account with the City in the Courthouse matter.

This is a fair proposition, and we have been advised to obtain your consent and approval so that the matter can be settled as far as we are concerned.

We understand that Mr. Rives advises a settlement, but that Messrs. Horgan & Slattery will not accept the terms.

Will you please inform us if you will indorse Messrs. Horgan & Slattery's certificate for the \$3,236.65 in our favor so we can obtain payment from the Comptroller?

Thanking you in advance for your consideration of this matter, we are,

Respectfully yours,

KLEE BROTHERS.

Scale model of New York County Court House.....	\$2,350 00

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
July 29, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Mayor, through his Assistant Secretary, in communication under date of July 22, 1902, transmits to the Board of Estimate and Apportionment bill of Klee Brothers, \$3,236.65, for model of New York County Court House (itemized as follows):

Scale model of New York County Court House.....	\$2,350 00
Alterations in general and interior decorations, directed by Architect Kirby .....	350 00
Scale model of Court Room.....	450 00
Removing and repairing scale model of County Court House at the County Court House.....	86 65
Total .....	\$3,236 65

At meeting of the Board of Estimate and Apportionment of July 25, 1902, the matter was referred to the Comptroller, and agreeably to your instructions I have investigated the same and would report:

I have been informed by Mr. Horgan, of Messrs. Horgan & Slattery, architects, that this work was ordered and done under the directions of Hon. P. Henry Dugro, Hon. Charles H. Truax and Hon. Francis M. Scott, a committee in charge of additions and alterations of the County Court House.

I would, therefore, recommend that this claim of Klee Brothers be referred to this committee, with a request that they furnish the Board of Estimate and Apportionment with all the information they may have relative thereto.

Respectfully,

EUG. E. McLEAN, Engineer.

On motion the claim was rejected and a copy of the opinion of the Corporation Counsel was directed to be sent to Klee Brothers.

The Secretary presented the following relative to sites for interior public baths in the Borough of The Bronx:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
August 20, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. Louis F. Haffen, President of the Borough of The Bronx, in communication under date of July 14, 1902, transmits to the Comptroller a map on which are suggested locations for bath sites in the Borough of The Bronx. He also requests the purchase of such of them as are deemed most advisable at private sale.

I would report that the six sites suggested are all within a block or less of Third avenue, east or west, between One Hundred and Fiftieth and One Hundred and Fifty-seventh streets.

Site No. 1. An irregular plot on the southwest corner of Brook avenue and Rose street. The owner of this also owns an adjoining irregular plot, having a frontage on Westchester avenue. He refuses to sell one without the other, and his price, \$65,000, is prohibitory.

Site No. 2. The block front on the northerly side of Rose street, between Brook and Bergen avenues, opposite the site last mentioned. The foundation for a model tenement house are already in place on the easterly half of this plot, which is 234 feet by 200 feet and irregular, and the owner refuses to divide the plot. This site is therefore unavailable.

Site No. 3. Plot about 160 feet by 125 feet and irregular on the southwest corner of Brook avenue and East One Hundred and Fifty-sixth street. This is Section No. 9, Volume 2, Block 2363, Lots Nos. 47 and 52, assessed at \$12,900 in name of E. K. Lyons and unknown. This plot is too large for the purpose, but I am informed that the owners would sell a plot 50 feet by 100 feet on the corner for about \$17,500. This price is high; \$13,000 to \$14,000 would be nearer the correct figures. This property is one short block east of Third avenue, and is about 20 feet below grade.

Site No. 4. Plot 67.7 feet by 100 feet, on the southeast corner of One Hundred and Fifty-sixth street and Elton avenue, one block west of Third avenue. This is Section 9, Volume 3, Block 2377, Lots Nos. 46 and 48. The city owns Lot No. 48 (22.7 feet by 100 feet), on the southeast corner of One Hundred and Fifty-sixth street and Elton avenue. The inside lot, No. 46, which is 45 feet by 100 feet, is assessed at \$3,200 in the name of W. H. Monks. After a diligent search Messrs. J. Clarence Davies & Co., real estate agents, of One Hundred and Forty-ninth street and Third avenue, have succeeded in locating the owner of this property, Mrs. Ida M. Randall, of Camden, N. J., and have obtained from her an authorization to sell the plot for \$6,500, she, of course, being kept in ignorance of the fact that the City is the prospective purchaser.

This property, I am informed, was sold for \$5,500 thirteen years ago, before One Hundred and Fifty-sixth street was opened, and has since paid the assessments for the opening and improvements of the street. The present price of \$6,500, therefore, seems very reasonable indeed, in view of the price asked for the two sites offered one block further north in Elton avenue, \$15,000 each. The purchase of this plot would also have the advantage of enabling the City to turn to use the adjoining corner lot, which it already owns.

Site No. 5. Lots 48.96 feet by 130.42 feet by 49.03 feet by 127.25 feet, on the southeast corner of Elton avenue and One Hundred and Fifty-seventh street. This site is similar in location to the one last mentioned, except that it is one block further north. This is Section 9, Volume 3, Block 2378, Lot No. 55, assessed at \$5,000 in name of J. Berliner. The lot has six to eight feet of rock and earth above grade. The owner asks \$15,000. The full value is not over \$12,000.

Site No. 6. Plot 64 feet 8 inches by 100 feet 6 inches, on the southwest corner of Elton avenue and One Hundred and Fifty-seventh street, directly opposite the one last mentioned. This plot is at or below grade. It is Section 9, Volume 3, Block 2378, Lots Nos. 21 and 23. The corner lot, No. 21, 48 feet 3 inches by 100 feet 6 inches, is assessed at \$4,500 in name of J. Weiner. Lot No. 23, adjoining, 16 feet 5 inches by 100 feet 6 inches, is assessed at \$1,200, "unknown," but is owned by Weiner. I am told he asks \$15,000 for the two lots. The property is worth from \$13,000 to \$14,000.

In conclusion, I consider site No. 4, plot 67.7 feet by 100 feet, on the southeast corner of One Hundred and Fifty-sixth street and Elton avenue, well and centrally located for a public bath, and since the City owns a portion of the plot and the remainder can be purchased at private sale at a reasonable figure, I would suggest,

First. That the Board of Estimate and Apportionment approve of the selection of site No. 4, plot 67.7 feet by 100 feet, on the southeast corner of One Hundred

and Fifty-sixth street and Elton avenue, for an interior bath, in the Borough of The Bronx, and authorize the President of the Borough of The Bronx to enter into the necessary contract (approved as to form by the Corporation Counsel), with Messrs. J. Clarence Davies & Co., real estate agents, of One Hundred and Forty-ninth street and Third avenue, the authorized agents of the owner, for the purchase of a portion of this site, Lot No. 46, in Block 2377, plot 45 feet by 100 feet, on east side of Elton avenue, 22.7 feet south of One Hundred and Fifty-sixth street, at a price not to exceed \$6,500, said contract to be presented to the Comptroller for his consent, pursuant to the provisions of section 149 of the Greater New York Charter.

Second. That if the Board of Estimate and Apportionment approves of this site, and authorizes the purchase of a portion of it (lot No. 46, 45 feet by 100 feet), then I would suggest that the Commissioners of the Sinking Fund set apart and assign Lot No. 48, 22.7 feet by 100 feet, southeast corner of One Hundred and Fifty-sixth street and Elton avenue (premises owned by the City), to the President of the Borough of The Bronx, to be used as a site for an interior bath.

Respectfully,

CHANDLER WITHINGTON, Prin. Asst. Engineer.

THE CITY OF NEW YORK,  
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,  
MUNICIPAL BUILDING, CROTONA PARK,  
NEW YORK, July 14, 1902.

Hon. EDWARD M. GROUT, Comptroller:

DEAR SIR—I transmit herewith a map on which are suggested locations for bath sites in the Borough of The Bronx, as follows:

Block No. 2361, Ward No. 22, situated on the southwest corner of Brook avenue and Rose street, the assessed valuation of which parcel is \$5,000. In connection therewith Ward No. 26 in the same block, or a portion thereof, might be considered, the assessed valuation of which is \$40,000. A portion of this latter plot might be available.

Block 2363, Ward Nos. 47 and 52, on the southwest corner of Brook avenue and One Hundred and Fifty-sixth street, the assessed valuation for which two plots is \$12,900.

Block 2377, Ward Nos. 46 and 48, southeast corner of Elton avenue and One Hundred and Fifty-sixth street, the assessed valuation of above plots being \$5,700.

Block 2378, Ward No. 55, situated on the southeast corner of Elton avenue and One Hundred and Fifty-seventh street, the assessed valuation of which is \$5,000.

Block 2378, Ward Nos. 21 and 23, situated southwest corner of Elton avenue and One Hundred and Fifty-seventh street, the assessed valuation of both parcels being \$5,700.

In connection with plots situated in Block No. 2377, I beg to say that the City owns Ward No. 48, which is assessed at \$2,500, but as this is only a lot with a frontage of 22.7 feet it would not be available for a bath site without the adjoining lot.

The locations suggested are in the more densely populated section of the Borough, where, in my opinion, baths should be located, provided satisfactory arrangements can be made by the City as to price.

I submit this map and these suggestions to you so that you might have your representative arrange, if possible, the purchase of such of them as are deemed most advisable at private sale, if, in your opinion, the interests of the City will be best served thereby.

Respectfully,

LOUIS F. HAFEN,  
President of the Borough of The Bronx.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the selection of the plot, 67 feet 7 inches by 100 feet, on the southeast corner of One Hundred and Fifty-sixth street and Elton avenue, in the Borough of The Bronx, known as Lots Nos. 46 and 48, in Block 2377, Section 9, as a site for an interior bath, and hereby authorizes the Comptroller to enter into an agreement for the purchase of the inside lot, being 45 feet by 100 feet, known as Lot No. 46, at a price not exceeding sixty-five hundred dollars (\$6,500), which agreement is to be submitted to the Comptroller for his approval, pursuant to the provisions of section 149 of the Charter.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Commissioner of Bridges relative to the purchase of the property No. 296 Roebing street, Brooklyn, from Friderike Buttschardt, for the plaza of the Williamsburg Bridge:

To the Honorable the Board of Estimate and Apportionment, City of New York:

GENTLEMEN—I submit herewith for your approval, contract in triplicate, duly executed, between Friderike Buttschardt and The City of New York, for the purchase of the property at No. 296 Roebing street, Borough of Brooklyn, for the sum of \$6,250.

G. LINDENTHAL, Commissioner of Bridges.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. G. Lindenthal, Commissioner of Bridges, in communication under date of September 9, 1902, transmitted to the Board of Estimate and Apportionment, for its approval, a contract in triplicate, duly executed between Friderike Buttschardt and The City of New York, for the purchase of the property at No. 296 Roebing street, Borough of Brooklyn, for the sum of \$6,250.

In reply I would report that the property in question is within the lines of the plaza of the New East River Bridge.

The price asked, \$6,250, I consider just and reasonable, hence I would advise the purchase, and I think the Board of Estimate and Apportionment, pursuant to chapter 652 of the Laws of 1899, can properly give its approval to same, subject to the consent of the Comptroller, as required to comply with the provisions of section 149 of the amended Greater New York Charter.

Respectfully,

EUG. E. McLEAN, Engineer.

The following resolution was offered:

Resolved, That, pursuant to the provisions of chapter 652 of the Laws of 1899, the Board of Estimate and Apportionment hereby approves of the purchase by the Commissioner of Bridges, with the assent of the Comptroller, as required by section 149 of the Greater New York Charter, of the property known as No. 296 Roebing street, in the Borough of Brooklyn, required for the plaza of the Williamsburg Bridge for the sum of six thousand two hundred and fifty dollars (\$6,250).

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following in regard to rescinding of a resolution adopted December 19, 1901, approving of the initiation of proceedings to acquire title

to certain premises on Fifth street, Long Island City, Borough of Queens, as a site for the Seventy-fifth Precinct Police Station.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
August 6, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The attached communication, dated July 29, 1902, from the Police Department, requests the Board of Estimate and Apportionment to rescind the resolution adopted December 19, 1901, approving of the initiation of proceedings to acquire title to certain premises on Fifth street, Long Island City, Borough of Queens, as a site for the Seventy-fifth Precinct Police Station; and also requests that another site be condemned on the corner of Jackson avenue and Pearson street.

This action on the part of the Police Commissioner was taken pursuant to a communication from this Department, copy of which is inclosed, and I would therefore recommend that the resolution of December 19, 1901, be rescinded, as requested.

In regard to authorizing the acquisition of the site corner of Jackson avenue and Pearson street, I would suggest that the matter be deferred for the present, as I am now in communication with the Police Department relative to the use of a certain piece of property on Fourth and Fifth streets, turned over by the Board of Education, and I am of the opinion that this may be acceptable to the Commissioner, and in consequence no acquisition of other property will be necessary.

The Commissioners in the Fifth street property were duly appointed by the Court on December 31, 1901, but I am informed at the office of the Corporation Counsel that they have not as yet filed their oaths of office, and consequently no meetings have been held and no expense incurred.

Respectfully,

EUG. E. McLEAN, Engineer.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
July 21, 1902.

Hon. JOHN N. PARTRIDGE, Police Commissioner:

SIR—At a meeting of the Board of Estimate and Apportionment held December 19, 1901, a resolution was adopted authorizing the Corporation Counsel to initiate proceedings to acquire a plot of land 75 feet by 100 feet, on the north side of Fifth street, 150 feet east of Vernon avenue, Long Island City, Borough of Queens, the Police Commissioner having selected the same as a site for a new station house for the Seventy-fifth Precinct.

The site in question contains a three-story and basement brick building, 50 feet by 100 feet, known as St. Mary's Lyceum. The Board of Estimate and Apportionment, on September 15, 1899, appropriated \$100,000 for the site, and the erection of a station house for the Seventy-fifth Precinct, and on February 19, 1901, the sum of \$4,000 was transferred for the erection of a station house for the Thirty-seventh Precinct, leaving a balance of \$96,000 for the acquisition of a site and the erection of a building for the Seventy-fifth Precinct.

I request that you examine this site and the building thereon, to ascertain if it meets with your approbation, and advise me whether you think it good policy to acquire a building which will presumably require extensive alterations rather than acquire a plot of land and erect a building exclusively for police purposes.

Should you decide that it is not advisable I would suggest that you apply to the Board of Estimate and Apportionment to order the Corporation Counsel to discontinue the proceedings.

Your early attention to this matter will oblige,

Yours respectfully,

(Signed) EDWARD M. GROUT, Comptroller.

Hon. SETH LOW, Mayor of The City of New York:

MY DEAR MR. MAYOR—I have inquired into the matter of school site on Fourth and Fifth streets, Long Island City, which this Department has surrendered to the Commissioners of the Sinking Fund. The site is not suitable for school purposes, and will never be used by us.

Yours very truly,

CHARLES C. BURLINGHAM.

POLICE DEPARTMENT OF THE CITY OF NEW YORK,  
No. 300 MULBERRY STREET,  
NEW YORK, July 29, 1902.

To the Honorable the Board of Estimate and Apportionment;

GENTLEMEN—The Police Commissioner this day on reading and filing communication from the Comptroller, dated July 21, 1902, relative to certain premises in Long Island City for station house purposes for the Seventy-fifth Precinct, and report of Second Deputy Commissioner thereon, dated July 26, 1902,

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested to rescind resolution adopted December 19, 1901, approving of the initiation of proceedings by the Corporation Counsel to acquire title in behalf of The City of New York, to all the lands and premises required as a site for a station house, prison and stable for patrol wagons of the Seventy-fifth Precinct, Borough of Queens, with the improvements thereon erected, situate, lying and being in The City of New York, Borough of Queens, which, taken together, are bounded and described as follows:

Beginning at a point on the northerly line of Fifth street, distant 150 feet easterly from the corner formed by the intersection of the northerly line of Fifth street with the easterly line of Vernon avenue, running thence northerly parallel with Vernon avenue 100 feet; thence easterly and parallel with Fifth street 75 feet; thence southerly and parallel to Vernon avenue 100 feet to the northerly line of Fifth street, and thence westerly along the northerly line of Fifth street 75 feet to the point or place of beginning.

Ordered, That the Corporation Counsel be and is hereby respectfully requested to discontinue all proceedings instituted for the acquisition of such site for the purposes mentioned.

Ordered, That the proceedings of December 26, 1901, approving of the map of said premises, surveyed by Henry Mesa, No. 115 Broadway, for the purposes mentioned, be and are hereby rescinded.

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested to approve of the initiation of proceedings by the Corporation Counsel to acquire the following described land and premises as a site for the erection and completion of a station house, prison and stable for patrol wagons for the Seventy-fifth Precinct, Borough of Queens, to wit:

Lots Nos. 49, 50, 51, and 52, in Block 98, as shown on the map of the Hunter, Van Alst and De Bevoise farms, situate in the First, Second and Third Wards, Long Island City, Queens County, and upon the southwest corner of Jackson avenue and Pearson street.

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully informed that proceedings have heretofore been taken by the Corporation Counsel to acquire said premises under resolution of the Board of Police adopted December 18, 1900, and that five copies of maps of said premises surveyed by Henry Mesa, No. 115 Broadway, were January 8, 1901, filed—one copy in the Chief Clerk's Office and four copies sent to the Corporation Counsel in pursuance of said resolution of December 18, 1900—and that the proceedings of December 18, 1900, were rescinded by Commissioner Murphy May 8, 1901.

Ordered, That the Board of Estimate and Apportionment be and is hereby also respectfully informed that there is standing to the credit of the Police Department \$96,000 for the purposes of acquiring site and erecting and equipping a station-house, prison and stable, etc., for the Seventy-fifth Precinct, authorized by the Board of Estimate and Apportionment September 15, 1899, Corporate Stock of The City of New York having been issued for that purpose.

Very respectfully,

WM. H. KIPP, Chief Clerk.

"Beginning at a point on the northerly line of Fifth street distant one hundred and fifty (150) feet easterly from the corner formed by the intersection of the northerly line of Fifth street with the easterly line of Vernon avenue; running thence northerly and parallel to Vernon avenue one hundred (100) feet; thence easterly and parallel to Fifth street seventy-five (75) feet; thence southerly and parallel to Vernon avenue one hundred (100) feet to the northerly line of Fifth street, and thence westerly along the northerly line of Fifth street seventy-five (75) feet to the point or place of beginning."

—be and the same is hereby rescinded, and the Corporation Counsel be and is hereby requested to discontinue the proceeding.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Police Department requesting the designation of an architect to prepare plans and specifications for the erection of the station-house, prison and stable for patrol wagons for the Seventy-fifth Precinct, Borough of Queens:

GENTLEMEN—The Police Commissioner this day directed the following proceedings: On reading and filing copy of resolution of Commissioners of Sinking Fund, adopted August 21, 1902, assigning to the Police Department property 125 feet in width by 100 feet in depth, situated on Fourth street, Long Island City, and now containing buildings known as Nos. 81, 83, 85, 87 and 89 Fourth street, Long Island City, for the purposes of a station-house, prison and stable for patrol wagons for the Seventy-fifth Precinct,

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested to designate an architect to prepare plans and specifications for the erection of a station-house, prison and stable for patrol wagons, to be located on said premises; it is further

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully informed that there is standing to the credit of the Police Department, under appropriation authorized by the Board of Estimate and Apportionment for the construction of buildings for police purposes for the Seventy-fifth Precinct, the sum of \$96,000, from which, however, is to be deducted whatever expenses may have been incurred by the Corporation Counsel in acquiring site for station-house purposes for said precinct and the preparation of maps therefor.

Very respectfully,

WM. H. KIPP, Chief Clerk.

The following resolution was offered:

Resolved, That the Police Commissioner be authorized to employ the firm of Harde & Short, architects, to prepare plans and specifications for the station-house, etc., for the Seventy-fifth Precinct Police Station, Long Island City.

Which was adopted by the following vote:

The Mayor presented the following resolution:

Resolved, That the Police Commissioner be authorized to employ the firm of Harde & Short, architects, to prepare plans and specifications for the station house, etc., for the Nineteenth Precinct Police Station, and that the sum of two thousand five hundred dollars (\$2,500) be and the same is hereby appropriated for that purpose.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following in relation to the request of the President, Borough of Manhattan, for authority to advertise for and award a contract for restoring to its original condition that portion of Riverside Drive Parkway destroyed during the construction of the Riverside Drive Viaduct, extending from One Hundred and Twenty-seventh to One Hundred and Thirty-fifth street.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
September 9, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. Jacob A. Cantor, President of the Borough of Manhattan, in communication under date of September 3, 1902, requests the necessary authority from the Board of Estimate and Apportionment to advertise for bids and award a contract for restoring to its original condition that portion of the Riverside Drive Parkway destroyed during the construction of the Riverside Drive Viaduct, extending from One Hundred and Twenty-seventh to One Hundred and Thirty-fifth street.

Would report that by letter dated May 2, 1898, Willis Holly, Secretary, Department of Parks, notified Hon. James P. Keating, Commissioner of Highways, that unless an agreement was entered into to restore that portion of the Riverside Park destroyed during the construction of the viaduct, it would be necessary to revoke the permit issued by the Park Department on December 3, 1897, and on May 10, 1898, Commissioner Keating, Department of Highways, accepted the form of agreement of the Park Department, and upon this condition requested Commissioner Clausen to continue the permit as issued on December 31, 1897. A map accompanied the agreement and is referred to in the same as follows:

"It is shown on the map the walks, stops, drainage, etc., as they existed, by block lines, the viaduct by means of red lines and color, and by a blue color the area of portion of the park in which is included walks, drainage, etc., that have been or will be destroyed through the building of the viaduct.

"It is readily seen that practically the entire park north of One Hundred and Twenty-seventh street, and extending from the property road to the railroad, will be affected. The construction of this work has necessitated the cutting away of banks, slopes and walks and made the drainage useless."

From an examination of the plans and specifications now presented I find the work consists of regulating, grading, spreading mould, building steps, making walks, putting in drainage, etc., in that portion of Riverside Park destroyed in the construction of the viaduct.

I have been informed by the Commissioner of Public Works of the office of the President of the Borough of Manhattan that there is a sufficient balance in the fund for the extension of Riverside Drive to do this work, which, according to estimate submitted, will cost about \$20,000.

The money being available, I think the Board of Estimate and Apportionment, pursuant to chapter 665 of the Laws of 1897, may properly approve of the contract and authorize the President of the Borough of Manhattan to advertise for bids and award a contract of restoring to its original condition that portion of the Riverside Parkway destroyed in the construction of the Riverside Drive Viaduct, extending from One Hundred and Twenty-seventh to One Hundred and Thirty-fifth street.

Respectfully,

EUG. E. McLEAN, Engineer,

CITY OF NEW YORK,

OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,

CITY HALL, September 3, 1902.

Hon. JAMES W. STEVENSON, Secretary, Board of Estimate and Apportionment:

DEAR SIR—On May 10, 1898, an agreement was entered into between the Park Department and the Commissioner of Highways whereby the latter Department agreed to restore that portion of the Riverside Drive parkway destroyed by the contractors during the construction of the Riverside Drive Viaduct, extending from One Hundred and Twenty-seventh to One Hundred and Thirty-fifth streets. Copies of letters stating the reasons for this agreement between the above mentioned departments are herewith inclosed. In order that the above agreement may be fulfilled, this department requests the necessary authority from the Board of Estimate and Apportionment to advertise for bids and award a contract for restoring to its original condition that portion of the parkway destroyed—which is shown on the accompanying maps. The Engineer's estimate of the amount of work necessary to be done, together with the estimated cost of same, is also inclosed herewith. The expense of restoring this parkway is to be charged to the fund for extending Riverside drive. Inclosed also you will find copy of contract and specifications covering this work.

Respectfully,

JACOB A. CANTOR, President.

DEPARTMENT OF HIGHWAYS, ETC.,

May 10, 1898.

Hon. GEORGE G. CLAUSEN, President, Department of Parks:

DEAR SIR—I beg to acknowledge receipt of a letter dated the 2d instant, from the Secretary of the Department of Parks, with the plan showing in blue the parts of the park and grounds comprising banks, slopes, walks, drainage, basins, etc., which will be disturbed by the construction of the Riverside Drive Viaduct.

As suggested in the letter, this Department hereby agrees to have restored to their original good condition all the park surface, walks, slopes, etc., which will be disturbed in prosecuting the work under the contract for the Riverside Drive Viaduct.

Upon this condition, you are requested to continue the permit issued by you December 31, 1897, to the contractors for the Riverside Drive Viaduct, allowing them to enter upon the park grounds and to use so much thereof as is necessary for the prosecution of their work.

Very respectfully,

(Signed) JAMES P. KEATING, Commissioner of Highways.

(Copy.)

NEW YORK, May 2, 1898.

Hon. JAMES P. KEATING, Commissioner of Highways:

DEAR SIR—I am directed by President Clausen of the Park Board, Park Commissioner for the Boroughs of Manhattan and Richmond, to notify you that a report has been made by the Acting Engineer of Construction of this Department upon the work being done under the contract with your Department, for the building of what is known as Riverside Drive Viaduct. The report is as follows:

"On an investigation recently made it has been ascertained that the building of the viaduct necessitated the removal and destruction of nearly all of the existing banks, slopes, walks, drainage, basins, etc., comprised within the area shown on the accompanying plan.

"All of this was in a finished condition before the building of the viaduct began and had been executed under a contract made with Mr. Bart. Dunn. The contract for building the viaduct does not cover or specify that the contractor shall restore or make good any damage done to the park or grounds or any underground work; nor does the permit issued by this Department call for any repairs of damages to the park.

"It is very clear that if this Department allows the work of erecting the viaduct to proceed without coming to some arrangement with the Commissioner of Highways that when the viaduct over the park has been completed it will leave the park proper in an unfinished and practically in a destroyed condition, and this Department will be put to a large expense to restore the improvements that have recently been completed.

"It is shown on the map, the walks, steps, drainage, etc., as they existed, by black lines, the viaduct by means of red lines and color, and by a blue color the area of portion of the park in which is included walk, drainage, etc., that has been or will be destroyed through the building of the viaduct.

"It is readily seen that practically the entire park north of One Hundred and Twenty-seventh street and extending from the property road to the railroad will be affected. The construction of this work has necessitated the cutting away of banks, slopes and walks and made the drainage useless."

As will be seen, it is necessary that some agreement shall be entered into between this Department and the Department of Highways, providing that, on the completion of the viaduct work, the portion of the park shown on the map with blue color shall be restored to the condition in which it was before the building of the viaduct began, and the grading, shaping of slopes, sodding, drainage, walks, etc., be all done in accordance with plans prepared by this Department under a supervision done jointly by this Department with the Department of Highways.

Unless such an agreement can be entered into and such an agreement be made part of the contract for the construction of the viaduct, the Park Department will find it necessary to revoke the permit issued by it to the contractors on December 31, 1897, allowing them to enter upon the park grounds and use so much of the park as is necessary for the prosecution of their work.

Sent herewith you will find a map showing the points referred to in this communication, which you will please return with your answer.

Respectfully,

(Signed) WILLIS HOLLY, Secretary, Park Board.

JOHN W. BRANNAN, President, Board of Trustees.

The following resolution was offered:

Resolved, That the sum of ten thousand dollars (\$10,000) be and is hereby transferred from the appropriation made to the Bellevue and Allied Hospitals for the year 1902, entitled "Supplies and Contingencies," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the Department of Water Supply, Gas and Electricity for the year 1902, entitled "Lamps and Lighting," boroughs of Manhattan and The Bronx, the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following in relation to the award of a contract for the final disposition of garbage and rubbish in the Borough of The Bronx:

DEPARTMENT OF STREET CLEANING,  
NEW YORK, July —, 1902.

Hon. J. MCGAW WOODBURY, Commissioner, Department Street Cleaning:

SIR—I have the honor to submit the following report of my visit to Montreal on June 20, as directed by you, to inspect and report upon the incinerating plants of the Decarie Manufacturing Company and the Thackeray Incinerating and Fertilizing Company:

I found the Decarie plant a small one, which had been built for demonstrating purposes, and which had been run for six months under contract with a small municipality, which is a suburb of the City of Montreal. It is a double-shell, water jacketed, steel oven. The principal feature of this plant is its double grate. The upper grates are formed of water tubes, the tubes being placed about 8 inches apart, and are formed in the shape of an "A" without the cross-bar. The plant is accurately described in p. 10 of accompanying catalogue.

The material for incineration is dumped on to these grates from hoppers which receive the material direct from the cart. Additional hoppers are also arranged to throw material on to the lower grates when necessary. The fire is built on the lower grate, which is horizontal and about 8 inches from the bottom of the "A" shaped grate.

As the material in the upper grate is dried out and burned, it drops through on to the horizontal grate, and acts as a feeder for this fire.

I found the work done by this oven very satisfactory, though it put it to a very severe test.

All kinds of material were brought in loads which were incinerated. No attempt is made in Montreal at primary separation. Garbage, ashes and rubbish of every description mixed in one load.

In the eight loads I had burned there were two solid loads of garbage; 25 per cent. of the other eight loads were household ashes.

Incineration was done quickly, and no odor came from the plant. There was no fire in the plant when I had the first loads put in; the plant was cold.

For about an hour there was considerable smoke, which came from the fresh fire, but as the over became thoroughly heated up the smoke diminished and became a thin blue color.

I am satisfied from what I saw that two of these ovens 16 feet long by 10 feet wide, connected with a common stack, would incinerate about 800 cubic yards per day of twelve hours, even if garbage and ashes were mixed with rubbish. If rubbish alone were incinerated, I am satisfied that the capacity of such plant would be about 1,000 cubic yards.

The water jacket and tubular grate will develop, I am informed by the manufacturer, about three horse-power to the ton. No auxiliary fuel is required in running this plant. The stoking is readily done, and comparatively little labor is required.

Through the courtesy of the Street Cleaning Department in Montreal, I was given access to the Thackeray Incinerator, which was built by the municipality of Montreal in 1897, at a cost of \$45,000.

I found it to be a large brick building, with twelve incinerating chambers, arranged six on each side of the main flue. All kinds of mixed material were brought to this plant, and fed into hoppers on the second floor. This was pushed down through the hoppers by stokers from above, and also raked down over the fires in the incinerating chambers by stokers from below. The burning is entirely a surface burning, and forms a large bed of clinker.

The ovens are of brick, and about 14 feet long by 8 feet wide, the grate surface being about 8 feet long by 8 feet wide. There was practically no ash in the ash pits, as the openings of the grate were apparently too small to allow the ash to fall through. Burning was very slow, as this plant only consumes from 65 to 75 loads per day of ten hours, and the charge which was put in at night was allowed to smoulder over night.

The incineration was complete but slow.

I found that no more loads of material were sent to this plant because they found they could not be consumed. The remainder of the output was sent to filling-in places. No barrels or boxes are allowed to be taken up by the collectors.

The amount of smoke from this plant was not what I should consider sufficient to condemn the plant.

The various statements made to me by the different employees regarding the amount of repairs were very conflicting, and I should imagine that with such large arches as they have in their ovens, the amount of repairing of fire brick would be considerable and expensive.

I doubt if such a plant would be adaptable for our work, as it takes up a great deal of space and is not sufficiently rapid in its work.

From my inspection I should not consider that the plant was economically run. From the figures that their superintendent gave me it is apparently costing about 40 cents per load to burn.

The Decarie Plant is being used in Minneapolis for the burning of garbage alone. They are also now putting in a plant at Reading, Penn.; they have several of the small plants in use at hospitals and colleges.

I strongly advise giving this plant a trial, as it has many features which are desirable; I believe it can be run for less money than any of the other plants that I have investigated.

The plant is portable, and in the event of location not being desirable, the oven could be readily picked up and taken to a more desirable situation.

The Thackeray Plant is in use in San Francisco. Their representative here in New York informed me that in San Francisco the garbage and other material come in at times covered with ice and snow and was burned without trouble. I am a little at a loss to understand this, as snow and ice in the City of San Francisco, except where ice is manufactured, is very rare.

I was informed by the Superintendent of the Street Cleaning Department of Montreal that they were going to change one of their ovens from the Thackeray system to the Decarie system, at the expense of the Decarie Company, who have guaranteed that their system, placed in the same size ovens, will destroy three times as much material per day, as in one of the Thackeray ovens. This alteration is to be made at once.

The Decarie Plant at Montreal is not now in use, as it was found that the amount of material brought to the incinerator was not sufficient to make it a paying investment for the operator. It ran successfully for six months without interruption.

I have in my possession a memorandum book of the superintendent of the plant, showing the number of loads brought each day to this plant. The average number of mixed loads consumed was fifty-four per day; the oven is 12 feet long by 10 feet wide; one-half of this space is taken up by the drying chamber used in drying out swill and refuse taken from soil pits.

The capacity of the carts used for hauling the refuse material of the City of Montreal is slightly greater than the carts used in New York.

The average weight that they bring in is about 2,500 pounds per cart load.

Respectfully,  
(Signed) ALEXANDER R. PIPER,  
Superintendent of Final Disposition.

DEPARTMENT OF STREET CLEANING,  
NEW YORK, September 2, 1902.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

SIR—On the 25th of July, 1902, bids were opened in this office for the contract for the final disposition of garbage and rubbish in the Borough of The Bronx, as follows:

De Carie Manufacturing Company, per annum.....	\$16,000 00
Horace J. Subers, per annum.....	22,200 00
Matthew T. Meagher, per annum.....	34,500 00
Melrose Sanitation Company, per annum.....	68,000 00

New York Sanitary Utilization Company (two bids)—	
No. 1, per annum.....	17,500 00
No. 2, per annum.....	14,900 00

From the bids so received I have selected the bid of the De Carie Manufacturing Company, in conformity to the provisions of section 544 of the Greater New York Charter, as the bid the acceptance of which will, in my judgment, best secure the efficient performance of the work, and I transmit to you herewith the said bid for approval by your Board as a part of the terms and conditions of the proposed contract.

Respectfully,  
JOHN MCG. WOODBURY, Commissioner.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
September 2, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. John McGaw Woodbury, Commissioner, Department of Street Cleaning, in communication under date of September 2, 1902, states that on July 25, 1902, bids were opened for the contract for the final disposition of garbage and rubbish in the Borough of The Bronx, as follows:

De Carie Manufacturing Company, per annum.....	\$16,000 00
Horace J. Subers, per annum.....	22,200 00
Matthew T. Meagher, per annum.....	34,500 00
Melrose Sanitation Company, per annum.....	68,000 00
New York Sanitary Utilization Company (No. 1), per annum.....	17,500 00
New York Sanitary Utilization Company (No. 2), per annum.....	14,900 00

From the bids so received the Commissioner has selected the bids of De Carie Manufacturing Company, in conformity with the provisions of section 544 of the Greater New York Charter, as the bid the acceptance of which will, in his judgment, best secure the efficient performance of the work, and the Commissioner transmits to the Board of Estimate and Apportionment said bid for approval.

I would report that it will appear that the bid of \$16,000 per annum of the De Carie Manufacturing Company is not the lowest, bid No. 2 (\$14,900 per annum) of the New York Sanitary Utilization Company being lower, but according to an opinion (see copy attached) of the Corporation Counsel, dated August 29, 1902, the bids of the New York Sanitary Utilization Company have not complied with your requirements,

and he advises "in view of the fact that you have authority, under section 544 of the Greater New York Charter, to reject any or all of said bids, that the bid of the said company should be rejected."

The lowest bid having been declared irregular by the Corporation Counsel, Commissioner Woodbury has selected the next lowest, that of the De Carie Manufacturing Company, for \$16,000 per annum, and requests the approval of the acceptance of same by the Board of Estimate and Apportionment.

This system is incineration by the De Carie system. The garbage is hauled to the second floor of the building, where it is dumped into a dryer which is on top of the machine or furnace; by means of a number of hoppers the garbage is distributed into the incinerator proper.

The incinerator proper consists of two shells, the inner one with a crown sheet and the outer one with top, thus forming a water space on sides and ends and water and steam space on top. Midway between the side walls below the crown sheet a header connects the two ends. To the header (for its entire length) are connected 1½-inch pipes, about 6 inches apart, extending down and outward either way.

The lower ends of these pipes are connected to the inner shell of the side water space. This construction forms the letter "A" and makes a water circulating grate.

The garbage rests upon and is suspended between these hot pipe grates and the hot shell walls of the incinerator, is dried and partly consumed before falling into the bright fire on the lower grate.

Any liquid in the material dumped in the hoppers falls on a screen near the bottom of the hopper, separating such liquid matter from the solid. It flows through a pipe down into the evaporating pan, or if it finds its way with the solid material through into the incinerator, it flows down the inside shell into the evaporating pan. The live steam turned into the steam space (at over 300 degrees Fahrenheit) boils the liquid in the evaporating pan; the gases and vapor arise, passing through the lower grate, where they are consumed by the hot fire.

When burning particularly offensive or gaseous material, to doubly insure against any odor or gas passing through the stack into the atmosphere unconsumed, a grate is provided in the stack just below the inlet to the stack, in which can be burned coke or hard coal.

The steam made by the burning of the garbage can be used, by means of hose and nozzle, to clean out the carts.

A few main features of this plant:

First.—Separation of the liquid and solid matter, and the consumption of each.

Second.—The liquid is not allowed to run into the sewer, but being separated from the solid material, is evaporated by means of steam, and the gases and vapors arising from same pass through the lower grate, where they are consumed by the fire.

Third.—The vapors and moisture in the dryer are drawn down in the furnace where they are consumed.

Fourth.—There is no danger of the fires becoming choked or smothered. This is overcome by the "A" or upper grate, when the material is partly consumed by the bright fire below, before it falls through to the lower grate.

Fifth.—No fuel is required other than the garbage, except where the plant is first put in operation.

I have examined the plans and specifications and a model of the De Carie incineration plant, and consider the principle good and think it can do all that is claimed for it, i. e., satisfactorily consume garbage and light rubbish.

I think, therefore, that the Board of Estimate and Apportionment may properly give its approval to the bid, selected by the Commissioner of Street Cleaning, of the De Carie Manufacturing Company for \$16,000 per annum, for the final disposition of garbage and rubbish, in the Borough of The Bronx, subject to the opinion of the Board of Health, that the erection of the plant on the northeast corner of One Hundred and Fifty-second street and Park avenue (Borough of The Bronx), will not be a nuisance of any kind or menace to public health.

Respectfully,  
EUG. E. McLEAN, Engineer.

LAW DEPARTMENT,  
OFFICE OF THE CORPORATION COUNSEL,  
NEW YORK, August 29, 1902.

Hon. JOHN MCGAW WOODBURY, Commissioner of Street Cleaning:

SIR—A communication from your Department, dated July 26, 1902, has been received. It reads as follows:

"As advertised in the 'City Record,' I opened bids on the 25th inst. for a contract, pursuant to section 544 of the Charter, for the final disposition of garbage and rubbish in the Borough of The Bronx. There were six bids; of the six bids the three lowest were two made by the New York Sanitary Utilization Company and one by the De Carie Manufacturing Company. The two bids of the New York Sanitary Utilization Company were accompanied by a letter, a copy of which I inclose.

"The first paragraph of page 3 of the proposal in the form of contract approved by you as to form for which these bids were made contains certain specific requirements which will be noted from among them that each bid must 'describe and locate the place or places where the contractor is to receive the materials,' etc.

"The above-mentioned letter, if intended to comply with this requirement, is the only thing of the kind that is submitted with the said bids of that company.

"It will be noticed that there is no location of the place or places to be used by the said company under either one of the said bids, but that under bid No. 2 the company proposes 'to locate at some convenient or suitable place in the Borough of The Bronx, to be approved' by this Department.

"It is conceivable that under such a proposition that company might go on for an indefinite period proposing places of which I could not approve until the time for beginning work under the contract had passed by.

"I submit the whole matter to you for your opinion and advice as to whether either of said bids is valid and can be received by me.

"I inclose for your information in the matter copies of the form of contract, etc., as approved by you as to form, of the advertisement which appeared in the 'City Record' and of the two bids of the New York Sanitary Utilization Company referred to, in addition to the letter aforesaid."

The communication from the New York Sanitary Utilization Company referred to in your letter which accompanied the bid reads as follows:

"The method for the disposition of garbage to be pursued under Bid No. 2 is as follows:

"The garbage will be taken to the plant of the Sanitary Utilization Company at Barren Island, and there disposed of in that plant. The rubbish and light refuse will be disposed of in a plant which the company proposes to construct and to locate at some convenient and suitable place in the Borough of The Bronx to be approved by your Department. Such plant will be in all respects similar to the plant now engaged in disposing of light refuse in the City of Boston." \* \* \*

As stated in your communication, there is no place or places designated by the said company under bid No. 2 at which the garbage and rubbish shall be disposed of, notwithstanding the fact that in the proposals for bids or estimates which forms a part of the contract it is provided at page 3 as follows:

"Each bid or estimate must be accompanied by a complete description of the methods to be pursued by the contractor, said description to be accompanied by complete plans and specifications, such plans and specifications to be sufficient fully to set forth the method or methods to be used and the results to be secured and to describe and locate the place or places where the contractor is to receive the materials and to refer to any patent or patents intended to be used by the contractor, such place or places to be furnished at his expense and to be changed only with the consent of the Commissioner."

At page 8 of the specifications, paragraph 2a provides as follows:

"That the contractor will receive all the aforesaid garbage and rubbish at the following places to be provided at the expense of the contractor." \* \* \*

At page 9 of the specifications it is provided as follows:

"(8). That no place other than places aforesaid is to be used by the contractor for the discharge or handling of garbage or rubbish except by special written permission of the Commissioner previously obtained."

I fully agree with your contention that it is possible the company might go on for an indefinite period proposing places which could not be approved by you until the time for beginning work under the contract had passed by.

The contractor has not complied with your requirements.

I would advise, in view of the fact that you have authority under section 544 of the Greater New York Charter to reject any or all of said bids, that the bid of the said company should be rejected.

I inclose herewith copy of the form of contract and of the bid of the New York Sanitary Utilization Company referred to.

Respectfully yours,

(Signed) G. L. STERLING, Acting Corporation Counsel.

The estimated cost of the work to be performed is fifteen hundred dollars (\$1,500), and is to be charged to the fifty thousand dollars (\$50,000) appropriated by the Board of Estimate and Apportionment under resolution adopted June 6, 1902, for defraying the cost of making surveys, plans and specifications for continuing the work of extending Riverside Drive.

Hon. JAMES W. STEVENSON, Secretary, Board of Estimate and Apportionment:

DEAR SIR—President Cantor requests me to send you herewith resolution adopted by the Local Board of the Hudson District on May 27, providing for the construction and maintenance of conduits, suction wells and a coal conveyor runway underneath the surface of West Fifty-eighth street. This work is caused through the construction of the power house of the Rapid Transit Company's railway at this point.

Respectfully,

GEORGE W. BLAKE, Secretary.

P. S.—I also send you herewith map or plan of the proposed improvements.

LOCAL BOARD, HUDSON DISTRICT.

Resolved, That, pursuant to section 433, chapter 466 of the Laws of 1901, the petition of John B. McDonald, verified April 7, 1902, and heretofore presented to the President of the Borough of Manhattan, be and the same hereby is granted, and that there be constructed and maintained under the surface of West Fifty-eighth street, in the Borough of Manhattan, a conduit for the purpose of taking water from the North river to the Rapid Transit Railway power house, to extend from the westerly side of Twelfth avenue, at the foot of Fifty-eighth street, to a point about forty-five feet west of the westerly building line of Eleventh avenue; also a conduit for the purpose of dis-

charging water from the power house into the North river, to be superimposed upon the conduit for taking water from the river, and to extend from the westerly side of Twelfth avenue at the foot of Fifty-eighth street, North river, to a point about eighty-one feet west of the westerly building line of Eleventh avenue; also twelve suction wells, to be situated at intervals along the north side of the said intake conduit and between the said conduit and the power house with pipes leading therefrom, and from the said conduit into the power house, both of said conduits to be constructed north of the centre line of Fifty-eighth street, and both to be constructed of masonry and steel supported upon bed rocks, the opening of the intake conduit to be about nine feet six inches in diameter, tapering as the conduit is extended easterly, to a minimum diameter of about six feet, the opening of the discharge conduit to be of oval section of similar area to the opening of the intake conduit, the centre of the opening of the intake conduit to be located fourteen feet nine inches below the City datum, and the top of the opening in the discharge conduit to be located about five feet below the crown of the street at the westerly line of Twelfth avenue, and about twenty-three feet below the crown of Fifty-eighth street, at the easterly terminal of the said discharge conduit; each of the said suction wells to be constructed of masonry with a vertical opening of five feet four inches in diameter, at the top of each of which there shall be a forty-two inch man-hole with a frame and iron cover placed flush with the sidewalk; also a coal conveyor runway under the surface of Twelfth avenue, in the Borough of Manhattan, to extend from the easterly curb line of Twelfth avenue, on the north side of West Fifty-eighth street across Twelfth avenue to the marginal street or place at the foot of Fifty-eighth street; the said coal conveyor runway to be about twelve feet four inches in width, with a height of about seven feet, and to be at a uniform depth of about two feet six inches below the curb level—as appears more fully by the diagram accompanying the petition aforesaid. The work to be done at the expense of the said Rapid Transit Subway Construction Company or its assigns under the direction of the President of the Borough of Manhattan.

Adopted by the Local Board of the Hudson District, May 27, 1902, having been first advertised as required by law.

JACOB A. CANTOR, President of the Borough of Manhattan.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
August 22, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Local Board of the Hudson District, on May 27, 1902, adopted the following resolution:

"Resolved, That pursuant to section 433, chapter 466, of the Laws of 1901, the petition of John B. McDonald, verified April 7, 1902, and heretofore presented to the President of the Borough of Manhattan, be and the same hereby is granted, and that there be constructed and maintained under the surface of West Fifty-eighth street, in the Borough of Manhattan, a conduit for the purpose of taking water from the North river to the Rapid Transit Railway power house, to extend from the westerly side of Twelfth avenue, at the foot of Fifty-eighth street, to a point about forty-five feet west of the westerly building line of Eleventh avenue; also a conduit for the purpose of discharging water from the power house into the North river, to be superimposed upon the conduit for taking water from the river, and to extend from the westerly side of Twelfth avenue, at the foot of Fifty-eighth street, North river, to a point about eighty-one feet west of the westerly building line of Eleventh avenue; also twelve suction wells, to be situated at intervals along the north side of the said intake conduit and between the said conduit and the power house, with pipes leading therefrom, and from the said conduit into the power house; both of said conduits to be constructed north of the centre line of Fifty-eighth street, and both to be constructed of masonry and steel supported upon bed rocks, the opening of the intake conduit to be about nine feet six inches in diameter, tapering as the conduit is extended easterly, to a minimum diameter of about six feet; the opening of the discharge conduit to be of oval section of similar area to the opening of the intake conduit; the centre of the opening of the intake conduit to be located fourteen feet nine inches below the City datum, and the top of the opening in the discharge conduit to be located about five feet below the crown of the street at the westerly line of Twelfth avenue, and about twenty-three feet below the crown of Fifty-eighth street, at the easterly terminal of the said discharge conduit; each of the said suction wells to be constructed of masonry, with a vertical opening of five feet four inches in diameter, at the top of each of which there shall be a forty-two inch man-hole, with a frame and iron cover placed flush with the sidewalk; also a coal conveyor runway under the surface of Twelfth avenue, in the Borough of Manhattan, to extend from the easterly curb line of Twelfth avenue, on the north side of West Fifty-eighth street across Twelfth avenue to the marginal street or place at the foot of Fifty-eighth street; the said coal conveyor runway to be about twelve feet four inches in width, with a height of about seven feet and to be at a uniform depth of about two feet six inches below the curb level—as appears more fully by the diagram accompanying the petition aforesaid. The work to be done at the expense of the said Rapid Transit Subway Construction Company or its assigns under the direction of the President of the Borough of Manhattan."

I would report that the proposed work to be done by John B. McDonald consists of a coal conveyor, 12 feet by 6 feet 8 inches (inside dimensions), built of brick and lined with concrete, to run from the bulkhead line of the Hudson river to the power house on the northeast corner of Fifty-eighth street and Twelfth avenue. The top of the conveyor is about 5 feet below the surface of Twelfth avenue.

He also proposes to build two brick conduits for intake and overflow of salt water from the Hudson river, as shown on sectional plan. The overflow conduit is to be built over the intake conduit. The intake and overflow conduits run from the bulkhead line of the Hudson river along the northerly curb line of West Fifty-eighth street and extend easterly to a point 42 feet westerly of the westerly side of Eleventh avenue, a total distance of 1,008 feet. The total height of the conduits is 23 feet and 15 feet wide (outside dimensions), and the top of the brick masonry at the bulkhead line is 5 feet below the surface of the street and 21 feet 2 inches at the most easterly point, 42 feet west of Eleventh avenue. There are also ten suction pits (each 9 feet 6 inches by 15 feet), located along West Fifty-eighth street, between the curb and house lines, to be used in connection with the salt water conduits.

I think the Local Board of the Hudson District was in error in passing the resolution for this work. Section 433 of the Amended Greater New York Charter refers only to local improvements, and an improvement that is to be used solely by a private corporation cannot, in my judgment, be called a local improvement, as clearly set forth under title 3, sections 432 to 437 inclusive of the amended Greater New York Charter.

In my opinion, pursuant to subdivision 7 of section 49 of the Amended Greater New York Charter, a resolution granting this improvement should have been adopted by the Board of Aldermen, and referred to the Commissioners of the Sinking Fund, to fix the compensation as is the usual practice in pipe line and vault privileges in the roadway of streets or avenues, for the improvement in question is nothing more than a vault, although it may be used exclusively for the transmission of water and hence is called a conduit.

Agreeably to your instructions to compute the compensation for the privilege, as if the matter had been referred to the Commissioners of the Sinking Fund in the usual way, I submit the following:

As previously stated, the coal conveyor and conduits start at the bulkhead line. The space or distance of 150 feet from the bulkhead line to the westerly side of old Twelfth avenue, is within the jurisdiction of the Department of Docks and Ferries; hence, I will only consider the space occupied by the coal conveyor, conduit and suction pits east of the westerly line of Twelfth avenue and outside of the curb line, except in the case of the suction pipes, which are located between house and curb lines.

#### Annual Rental.

For coal conveyor, 15 feet by 80 feet, 1,200 square feet at 9.3c.	\$111 60
For intake and overflow tunnel, 15 feet by 858 feet, 12,870 square feet at 9.3c.	1,196 91
For suction pits, 10 (9 feet 6 inches by 15 feet), 1,425 square feet at 9.3c.	132 52
	<u>\$1,441 03</u>

Therefore, I think the charge for the privilege of the improvement, as set forth in the accompanying resolution, should be \$1,441.03 per annum, and a fee of \$360.25 for opening West Fifty-eighth street and Twelfth avenue.

I would add that the Commissioner of Highways on December 30, 1901, issued a permit (No. 618) to the Rapid Transit Subway Construction Company for the space

on the northeast corner of Fifty-eighth street and Twelfth avenue, to be occupied by the coal conveyor, and paid \$4,050 for the privilege, calculated as follows:

\$4,050 00

Respectfully,  
CHANDLER WITHINGTON,  
Principal Assistant Engineer.

On motion the matter was referred back to the petitioner together with a copy of the report of the Engineer.

NEW YORK, September 9, 1902.

Board of Estimate and Apportionment:

GENTLEMEN—I beg to state that the sum of \$13,575 appropriated for salaries of eleven Clerks for the Preservation of Public Records in this office will be insufficient and therefore ask that the sum of \$250 be transferred from the appropriation made for 1902 entitled "County Clerk, New York County—Salaries."

Yours respectfully,  
THOS. L. HAMILTON, County Clerk.

The following resolution was offered:

Resolved, That the sum of two hundred and fifty dollars (\$250) be and the same is hereby transferred from the appropriation made to the County Clerk's office for the year 1902, entitled "Salaries—County Clerk, New York County," the same being in excess of the amount required for the purposes thereof, to the appropriation made for "Salaries of eleven (11) Clerks for the Preservation of Public Records, County Clerk's Office, New York County," the amount of said appropriation being insufficient.

The Secretary presented the following relative to the request of the President of the Borough of Manhattan for the necessary authority to advertise for bids and award a contract for paving with asphalt the northerly end of the first section of Riverside drive to One Hundred and Thirty-fifth street:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
September 10, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. Jacob A. Cantor, President of the Borough of Manhattan, in communication of September 4, 1902, to the Board of Estimate and Apportionment, requests the necessary authority be given "to advertise for bids and award a contract for paving with asphalt the northerly end of the first section of Riverside drive to One Hundred and Thirty-fifth street." He states "that this work was omitted from the contract for the construction of the viaduct for the reason that the roadway at that time was not in a condition to pave."

This work is absolutely necessary for the completion of the drive to One Hundred and Thirty-fifth street, but I call your attention to the requirement of section 7, chapter 665, Laws of 1897, under which the construction is made, that "the plans and specifications for said construction shall be submitted in the first instance by the said Commissioners of Public Works to the Board of Estimate and Apportionment of said City and approved by said Board."

When these plans and specifications shall have been submitted and approved, the work may properly be done, there being sufficient funds remaining of the appropriation already made, December 7, 1897, to pay for the work.

Respectfully,  
EUG. E. McLEAN, Engineer.

The Secretary presented the following:

BOARD OF EDUCATION,  
PARK AVENUE AND FIFTY-NINTH STREET,  
NEW YORK, September 12, 1902.

Hon. EDWARD M. GROUT, Comptroller of The City of New York:

MY DEAR SIR—On August 11, 1902, bids were opened by the Department of Education for alterations and repairs to Nos. 75 and 79 Schermerhorn street, as an annex to the Manual Training High School of Brooklyn, the bids being as follows:

P. S. O'Brien.....	\$8,439 00
John H. Goetschius.....	11,661 00
George Hildebrand.....	13,109 00

Prior to the making of the award the lowest bidder, P. S. O'Brien, submitted a communication withdrawing his bid of \$8,439, claiming that he had made an error, leaving out the plumbing work entirely. The work was most urgent, several delays having been experienced, and it was recognized that a readvertisement at that time would throw the work well over into the fall.

After careful consideration of the facts, the Committee on Buildings of this Board was advised that it had the right to discard the bid of O'Brien, which the latter had withdrawn, and that the award might be made to the next highest bidder. The Committee thereupon made the award and reported its act to the Executive Committee of the Board of Education, a certified copy of its action thereon being inclosed herewith.

In order that there may be no question of legality, and as the speedy carrying out of the work is of the utmost importance to the welfare of the Manual Training High School of Brooklyn, I respectfully ask that you present the facts to the Board of Estimate and Apportionment, together with a resolution approving the awarding, as provided by section 419 of the Charter.

Very truly yours,

CHARLES C. BURLINGHAM,  
President, Board of Education.

OFFICE OF THE BOARD OF EDUCATION,  
PARK AVENUE AND FIFTY-NINTH STREET,  
BOROUGH OF MANHATTAN.

To the Executive Committee:

The Committee on Buildings respectfully reports that, in response to a duly authorized advertisement, the following bids for alterations, repairs, etc., at Public Schools 1, 8, 117, C. H. S., B. H. S., Annex E. H. S. and Annex M. T. H. S., Borough of Brooklyn, were received by the Superintendent of School Buildings:

	P. S. 1.	P. S. 8.	P. S. 117.	C. H. S.	B. H. S.	Annex E. H. S.	Annex M. T. H. S.
Wm. Flanagan & Co. ....	.....	.....	.....	\$3,983	.....	\$2,498	.....
John W. Lenox.....	.....	.....	.....	.....	.....	1,887	.....

John H. Goetschius.....	.....	.....	4,300	.....	.....	\$11,661
Neptune B. Smyth.....	\$3,473	.....	.....	\$2,500	.....	.....
George Hildebrand.....	2,891	\$4,452	\$2,491	4,152	3,861	2,723 13,109
P. S. O'Brien.....	.....	.....	.....	4,472	.....	2,775 8,439
Oscar Stevenson.....	.....	.....	.....	.....	2,173	.....

The Committee on Buildings recommends that the awards be made to the lowest bidder in each case, with the exception of alterations and repairs to Annex of M. T. H. S., as P. S. O'Brien withdrew the bid submitted by him before the awards were made by the Committee, and therefore John H. Goetschius is considered the lowest legal bidder.

The following resolution is submitted for adoption:

Resolved, That the contracts for alterations, repairs, etc., at the above-named schools be awarded to the lowest bidder in each case, as follows:

P. S. 1—George Hildebrand.....	\$2,891 00
P. S. 8—George Hildebrand.....	4,452 00
P. S. 117—George Hildebrand.....	2,491 00
Commercial High School—William Flanagan & Co.....	3,983 00
Boys' High School—Oscar Stevenson.....	2,173 00
Annex Erasmus Hall High School—John W. Lenox.....	1,887 00
Annex Manual Training High School—John H. Goetschius...	11,661 00
	<u>\$29,538 00</u>

A true copy of report and resolution adopted by the Executive Committee of the Board of Education on August 20, 1902.

A. E. PALMER, Secretary, Board of Education.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby authorizes the Board of Education to accept the bid of John H. Goetschius, amounting to eleven thousand six hundred and sixty-one dollars (\$11,661) for alterations and repairs to Nos. 75 and 79 Schermerhorn street as an annex to the Manual Training High School, Borough of Brooklyn, said bid having been received among others in response to public advertisement, and which, considering the facts presented by the President of the Board of Education, it is deemed for the public interest to accept.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Board adjourned to meet Friday, September 26, 1902, at 10 o'clock a. m.

The meeting was continued for the consideration of public improvement matters, which will appear in other minutes of this date.

J. W. STEVENSON, Secretary.

#### LESSENE WATER SUPPLY.

NOTICE IS HEREBY GIVEN TO THE homeowners and residents in all those parts of the Borough of The Bronx which are supplied with water from the City's water mains, that on and after October 1, 1902, and during that month, the Old Croton Aqueduct will have to be closed at a point north of the Jerome Park Reservoir, and the operation of the temporary pumping plant which has hitherto pumped from the aqueduct into The Bronx water mains a daily supply of ten million gallons of water, will have to be discontinued during said month, in order to make the connections between the old and the new aqueducts and the new 48-inch water main which will supply the central and lower portions of the Borough, and will, as soon as the connections are completed, increase the water supply at least 50 per cent.

During October the supply will be diminished about one-third, and the pressure in delivery of the water will be correspondingly reduced. The inconveniences which may result from this temporary decrease of supply will be much mitigated if the people will abstain from lavish and wasteful use of water which this Department earnestly requests them to do.
