AMENDING THE DISTRICT OF ASSESSMENT FIXED FOR THE PROCEEDING RELATING TO THE ACQUISITION OF TITLE TO LEFFERTS AVENUE, BETWEEN LIBERTY AVENUE AND ROCKAWAY ROAD, BOROUGH OF QUEENS.

(At the meeting of May 13, 1910, this matter was laid over two weeks at the request of the Corporation Counsel.)

The following communication from the Assistant Corporation Counsel in Charge of the Bureau of Street Openings was presented:

Law Department, Bureau of Street Openings,
Nos. 90 and 92 West Broadway, Borough of Manhattan,
New York, May 24, 1910.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—I beg to acknowledge your letter under date of May 13, 1910, relative to a cession of a portion of Lefferts avenue, of the Borough of Queens, and asking that I advise you on this matter by May 24, 1910, as the copy of the calendar is sent to the printer on that day.

In answer thereto, I beg to say that a complete examination of the titles of the grantors has not been made, but so far it is evident that other deeds will have to be procured before the title will be in shape acceptable to the Corporation Counsel. Therefore I request you to lay this matter over two or three weeks more so that the examination of the title may be completed.

Very respectfully,

JOEL J. SQUIER, Assistant Corporation Counsel, in Charge of Bureau of Street Openings.

On motion of the President of the Borough of Queens, the matter was laid over for one week.

PLANS SHOWING BRIDGES WHICH IT IS PROPOSED TO BUILD TO CARRY THE NEW YORK, WESTCHESTER AND BOSTON RAILWAY OVER BRADY AVENUE AND MATTHEWS AVENUE, BOGART AVENUE AND COLDEN AVENUE, AND MULLINER AVENUE, IN THE BOROUGH OF THE BRONX.

The following communication from the Chief Engineer of the New York, Westchester and Boston Railway Company and report of the Chief Engineer of the Board were presented:

New York, Westchester and Boston Railway Company,
Chief Engineer's Office,
New York, May 23, 1910.

MR. NELSON P. LEWIS, Chief Engineer, Board of Estimate and Apportionment:

DEAR SIR—I am enclosing you herewith a copy of a letter from Mr. Cyrus C. Miller, President, Borough of The Bronx, under date of the 23d inst., approving blueprints of bridges at Brady and Matthews avenues, Bogart and Colden avenues, Mulliner avenue.

I also am sending you herewith the following blueprints which have been signed “approved” by Mr. Cyrus C. Miller, President, Borough of The Bronx:

Brady and Matthews avenues, drawing No. 167, dated September 18, 1909.

Bogart and Colden avenues, drawing No. 169, dated September 25, 1909.

Mulliner avenue, drawing No. 171, dated September 27, 1909.

The approval of these plans by the Borough President removes the objections contained in your letter of recent date.

We will be very glad if you will have these bridge plans put upon the calendar this week for approval.

Yours truly,

J. L. CRIDER, Chief Engineer.

Report No. F-118.

Board of Estimate and Apportionment,
Office of the Chief Engineer,
May 24, 1910.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Under date of May 23, 1910, through its Chief Engineer, Mr. J. L. Crider, the New York, Westchester and Boston Railway Company has, in conformity with the provisions of paragraph 10, section 2, Article III. of the agreement of June 24, 1904, between The City of New York and the New York Westchester and Boston Railway Company, transmitted for the consideration of the Board of Estimate and Apportionment general drawings showing the bridges proposed for carrying the railroad over the following streets in the Borough of The Bronx:

Brady avenue and Matthews avenue, Bogart avenue and Colden avenue, Mulliner avenue.

The plans indicate that plate girder bridges of the half-through type with a minimum clearance of 16 feet above the street level are to be provided at these crossings. The floor system will in each case be a solid steel trough filled with concrete and waterproofed. The abutments will be constructed of concrete and will be built within the railroad right-of-way outside of the street area. The general dimensions and characteristics of the bridges are as follows:

Brady Avenue and Matthews Avenue.

The railroad here crosses these streets diagonally at their intersection, making an angle of about 45 degrees with each. Intermediate column supports will be provided inside of the curb lines and at about the middle of the extreme outside girders. Marginal streets have been laid out adjoining the railroad right-of-way at this point, and it seems reasonable to suppose that the latter columns will not in any way interfere with the free use of the streets by the public. The width, centre to centre, of outside girders is 64 feet and the average length of the bridge is about 130 feet.

Bogart Avenue and Colden Avenue.

The railroad here crosses these streets at their intersection, making an angle of approximately 45 degrees with the former and of about 80 degrees with the latter. Intermediate column supports will be provided inside of the curb lines and in the roadway halfway between these, the distance between curbs being too great to permit of the use of a single span. The bridge will have a width of 64 feet from centre to centre of outside girders and a length on the centre line of about 160 feet.

Mulliner Avenue.

The railroad crosses this street at an angle of about 45 degrees. Intermediate column supports will be provided inside of the curb lines. The width, centre to centre, of outside girders is 64 feet and the length of the bridge is about 90 feet.

The drawings indicate that the bridges will be built in accordance with the best modern practice and that the elevations proposed conform in all particulars with those heretofore established for the railroad and for the streets.

The Borough President has signified his approval of the plans and I can see no reason why they should not be accepted by the Board, favorable action being recommended.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Whereas, the New York, Westchester and Boston Railway Company, through its Chief Engineer, has, in conformity with the provisions of paragraph 10, section 2, Article III, of the agreement of June 24, 1904, between The City of New York and the New York, Westchester and Boston Railway Company, submitted to the Board of Estimate and Apportionment plans showing the bridges proposed for carrying the tracks of the said railway over the following streets in the Borough of The Bronx: Brady avenue and Matthews avenue, Bogart avenue and Colden avenue, Mulliner avenue.

Resolved, That the Board of Estimate and Apportionment of The City of New York hereby approves the aforesaid plans.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

PROVISION IN CONTRACTS FOR SHEET ASPHALT AND ASPHALT BLOCK PAVEMENTS FOR THE RETENTION OF 8 PER CENT. OF THE COST OF THE WORK AS A GUARANTEE FOR REPAIRS.

The following report was presented:

Report No. 117.

Board of Estimate and Apportionment,
Office of the Chief Engineer,
May 24, 1910.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On behalf of the committee appointed by the Board to report upon the standardization of contracts and specifications for highway work, and by authority of the said committee, I beg to suggest that the Board of Estimate and Apportionment recommend to the Board of Aldermen the adoption of a resolution authorizing the retention of certain percentages on contracts for asphalt and asphalt block pavements in all Boroughs.

On June 26, 1908 (see page 2689 of the Financial Minutes of that date), the Board recommended to the Board of Aldermen that it authorize the President of the Borough of Manhattan to provide in contracts for sheet asphalt and asphalt block pavements for the retention of 8 per cent. of the cost of the work as a guarantee for the necessary maintenance, the money so retained to be payable in equal installments at the end of the second, third, fourth and fifth years, this, of course, being applicable to contracts containing a guarantee for maintenance for five years. When the Board of Estimate and Apportionment took this action it had before it two different suggestions, one being the retention of 8 per cent. of the contract price, as above described, and the other being the provision annually of a certain sum, estimated to be \$15,000, for the Borough of Manhattan, from which the expense of repairs of pavements under guarantee could be met in case the contractor failed to live up to the obligations imposed by his contract for maintenance during the guarantee period. That some provision for promptly making such repairs is necessary is quite apparent, the President of the Borough of Manhattan having been very seriously embarrassed where the contractor has failed to make the repairs called for by his guarantee and where no funds were available for the purpose. Whether the Board ultimately adopts the plan of retaining a certain portion of the money earned, or whether it decides to provide annually a sum from which the expense of such repairs can be met and then recovers the amount so expended through suits brought against the contractors and their sureties, the authority to retain this percentage can be given whether it is availed of or not, and the committee therefore recommends the adoption by the Board of the accompanying resolution.

Respectfully,

NELSON P. LEWIS, Chief Engineer, Chairman of the Committee.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 422 of the Greater New York Charter as amended, hereby recommends that the Board of Aldermen confer authority upon the Presidents of all Boroughs to provide in contracts for sheet asphalt and asphalt block pavements for the retention on completion of the work of eight per cent. of its cost as a guarantee for repairs, the moneys so retained to be payable on said contracts in equal installments at the end of the second, third, fourth and fifth years, respectively.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following communication from the President of the Borough of Manhattan was presented:

City of New York,
Office of the President of the Borough of Manhattan,
City Hall, May 24, 1910.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—Enclosed you will find resolutions, providing for the improvements mentioned below, which I ask that you have placed on the Calendar for the meeting on next Friday, May 27, 1910:

Resolution providing for the widening of the roadway and the removal of encumbrances on the east side of Fifth avenue, between Forty-seventh and Forty-eighth streets.

Very truly yours,

GEORGE McANENY, President, Borough of Manhattan.

The following resolution was then offered by the President of the Borough of Manhattan:

Resolved, That all ordinances, resolutions, permits or licenses heretofore passed, issued or granted by The City of New York, or by any board, body, council or officer thereof, or by any department, division, bureau or officer thereof, permitting licensing or allowing any stoop, steps, courtyard, area, platform, porch, fence, railing, or any other projection or encroachment of whatsoever kind or description, on Delancey street, between the easterly line of the Bowery and the westerly line of Clinton street, beyond a line parallel to the building line and distant 2½ feet therefrom and less than 10 feet above the curb grade, be and they hereby are, in all respects, repealed, canceled and revoked; and be it further

Minutes of Meeting Held Monday, May 2, 1910.

Minutes of Meeting of the Municipal Civil Service Commission of New York, Held at the Offices of the Commission, No. 299 Broadway, on Monday, May 2, 1910, at 10 o'clock a. m.

Present—President John C. McGuire and Commissioners Richard Welling and Alexander Keogh.

The President, Mr. John C. McGuire, presided.

A public hearing was had on the proposed amendment of the classification by including in the non-competitive class, under the heading "Positions in the Department of Public Charities, the Department of Correction, the Bellevue and Allied Hospitals, etc.," the position of Instructor in Anaesthesia, Bellevue and Allied Hospitals. Dr. John W. Brannan, President of the Board of Trustees, and Dr. Winford H. Smith, General Medical Superintendent of Bellevue and Allied Hospitals, appeared before the Commission in behalf of the proposed amendment. Mr. Albert De Rood, Assistant Secretary of the Civil Service Reform Association, appeared and requested that the position be included in the exempt rather than in the non-competitive class, or that the persons to be appointed to the position of Instructor in Anaesthesia be excepted from examination and appointed in the competitive class, pursuant to the provisions of paragraph 5 of Rule XII.

After the Commission had gone into regular session the minutes of the meetings held April 27 and 28 were approved.

William P. Walther, No. 2556 Elghth avenue, Manhattan.

William M. Kelleher, No. 231 East Ninety-fourth street, Manhattan.

John J. Ward, No. 305 East Ninetieth street, Manhattan.

Michael F. Sullivan, of No. 568 Macon street, Brooklyn, a candidate for Patrolman appeared before the Commission in relation to his age. It appeared from a communication of the Police Commissioner, dated April 19, 1910, that according to the records in the Register's Office, Dublin, Ireland, Sullivan had been born on July 10, 1887, and was, consequently, over thirty-two years of age. After consideration the matter was laid over in order to admit of the furnishing of further proof as to the date of his birth.

Louis S. Futersky, of No. 1856 Prospect place, Brooklyn, a candidate for Patrolman, appeared before the Commission relative to his age. In view of the proof submitted by the candidate, the Commission directed that his name should not be removed from the eligible list.

Home, of No. 20 Vesey street, New York City, be and they hereby are appointed Examiners for the practical test for the positions of Compositor, Feeder and Pressman, compensation to be at the rate of \$10 per session.

On motion, it was

Resolved, That the Departmental Board of Examiners for the position of Monitor arrange an examination for Mr. John J. Reilly, of No. 273 Woodward avenue, Brooklyn, through which to qualify for appointment to that position.

On motion, it was

Resolved, That the eligible list of Battalion Chief, Fire Department, resulting from the examination held on December 9, 1909, be and the same hereby is established as of April 25, 1910, the date on which the rating of the papers was completed.

A report was presented from the Chief Examiner, dated April 28, relative to a communication of Assistant Chief Examiner Conway, with reference to the investigation of experience papers. After consideration, the Commission ruled that the investigation of experience papers was a matter that came within the jurisdiction of the Chief Examiner and that the Chief Examiner should direct such work and designate an Examiner to make the investigations.

A report was presented from Mr. James P. Conway, Acting Chief Examiner, dated April 23, stating that in the examination for female attendant, candidate No. 27 had left the examination without turning in her arithmetic paper, and after she had left the room several sheets worked out in pencil had been found by the Monitor on her desk, and requested instructions as to whether or not the papers should be rated. The matter was laid over, pending the receipt of additional information.

A report was presented from the Chief Examiner, dated April 27, forwarding a letter and the examination papers of Joseph Unterweiser, a candidate in the examination for first grade Clerk, who had been disqualified for disobeying the instruction to do his work in black ink. In his letter the candidate stated that he had used David's black ink, and that it had been perfectly black at the time of writing. After consideration of the matter the Commission directed that the papers be rated.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in charge of promotions, dated April 27, relative to the request of the Deputy and Acting Commissioner of Bridges, Mr. William H. Sinnott, that an examination be held for promotion from the position of Riveter, Housesmith and Bridge Mechanic to that of Foreman Riveter, at \$1,800 per annum, and recommending that the request be granted in accordance with Rule XV., paragraph 17, the examination to be open to all Riveters, Housesmiths and Bridge Mechanics who had served for not less than three years in those positions. The recommendation was adopted.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in charge of Promotions, dated April 27, relative to the request of the Acting President of the Borough of Brooklyn, that Thomas J. Lyons, a messenger in the General Administration office, be granted an examination to qualify him for change of title to Clerk of the third grade. It was stated that Mr. Lyons had participated in an examination for that position early in the year, but had been disqualified as a result of placing his examination number upon several of his papers. The Secretary was directed to state that in the opinion of the Commission the reasons presented were not sufficient to justify the holding of a special examination, and that the application should be renewed at the time of the holding of the regular clerical promotion examinations in the fall.

Reports were presented from Mr. James A. Rafferty, Examiner, dated April 26, recommending that the following named candidates be marked qualified on the eligible list of Inspector, Board of Water Supply:

James J. Clarkin, No. 313 East Seventy-eighth street, New York City.

June 22, 1890, and in the preliminary sheet of his examination papers as June 22, 1891. It appeared from a baptismal certificate submitted by the candidate that the latter date was correct. On motion, the Secretary was authorized to permit the candidate to correct the date of birth in his application to conform with the certificate furnished.

A report was presented from Examiner Fuld, dated April 23, stating that in compliance with the President's order he had carefully investigated the experience paper of Joseph Friedmann, a candidate in the examination for X-Ray Photographer, with the following result:

Statements of Candidate.	Facts.

2. Had full charge of X-Ray Department at Lebanon Hospital.	2. Dr. Friedmann assisted Dr. Hirsch in the X-Ray Department at Lebanon Hospital. (See letter of Dr. Waldo).
3. Assisted Dr. Hirsch at Beth Israel Hospital during the summer of 1909.	3. Dr. Friedmann has never had any official connection with the Hospital, but for a few days. Dr. Hirsch instructed him in the X-Ray Department. (See letter of Dr. Frank).

After consideration of the matter the papers were ordered filed.

A report was presented from the Labor Clerk, dated April 29, relative to the request of the President of the Borough of Brooklyn for approval of the change of title of Margaret Brown from Cleaner to Attendant, and stating that according to the records of the Labor Bureau Margaret Brown had been appointed as a Cleaner in the Brooklyn Court House, at a salary of five hundred dollars per annum, at some time prior to 1898, and that from February 11, 1898, she had been employed in the Department of Public Buildings at a salary of \$360 per annum as Cleaner. A letter was presented from the Commissioner of the Tenement House Department, dated April 22, requesting approval of the change of title of a number of Typewriting Copyists and of one Stenographer and Book Typewriter employed in his Department, to Stenographer and Typewriter. A letter was presented from the Secretary to the Commissioner of Public Works, Manhattan, dated April 22, requesting authority to restore the title of Assistant Engineer in the case of Harvey J. Kutz, a Mechanical Draftsman serving in the Bureau of Sewers. The Secretary stated that on November 1, 1909, Mr. Kutz had been regularly promoted to the grade of Assistant Engineer at a salary of \$1,800 per annum, but that on January 1, 1910, it had been necessary to reduce him to the grade of Mechanical Draftsman at a salary of \$1,650 per annum (the position formerly held by him) in order to conform with the new Budget. A letter was presented from the Secretary of the Department of Docks and Ferries, dated April 29, with further reference to the request for authority to employ Mr. Valentine Anderson as a Confidential Inspector, and setting forth in detail the work upon which Mr. Anderson would be engaged. On motion, it was

Resolved, That, pursuant to the provisions of paragraph 6 of Rule XII., Mr. Valentine Anderson be and he hereby is excepted from examination, to serve as a Confidential Inspector in the Department of Docks and Ferries; provided, however, that the total compensation shall not exceed seven hundred and fifty dollars.

A letter was presented from Deputy Commissioner Bemis of the Department of Water Supply, Gas and Electricity, dated April 30, requesting authority to employ Mr. L. B. Shoemaker, of No. 220 Broadway, Borough of Manhattan, as an Assistant Engineer, for pitometer work, at the rate of \$208.33 per month, pending the completion of the open competitive examination for that position. A letter was presented from Mr. John Osborne, General Bookkeeper of the office of the President of the Borough of The Bronx, dated April 26, relative to the request of Mr. Daniel J. McMahon, of No. 2310 Beaumont avenue, that the date of his original appointment in the City service be noted on the Commission's roster as December 19, 1889. The letter stated that the records of the office covering the period from December 19, 1889, to May 3, 1897 (the date on which, according to the Commission's records, Mr. McMahon had entered the service), had been mislaid, but that a memorandum book in the possession of Mr. Osborne showed that Mr. McMahon had entered the Department on July 17, 1891, coming from the Park Department as a Laborer; that he had served under the title of Laborer until about 1892 or 1893, when he had become an Assistant Foreman. From that time until May 3, 1897, Mr. Osborne knew nothing of Mr. McMahon's record. Dr. W. H. Smith, the General Medical Superintendent, reported as follows:

From April 17 to April 30, inclusive, the following operations were performed, at all of which the attending Surgeons or their Assistants were present:

Bellevue Hospital.....	72	Harlem Hospital.....	38
Gouverneur Hospital.....	36	Fordham Hospital.....	23

In accordance with the rules a fire drill was held at Gouverneur Hospital on April 21; at Harlem Hospital on April 26; at Fordham Hospital on April 24 and 27, and at Bellevue Hospital on April 21 and 28.

Submitted herewith are the reports of attendance of the Visiting Physicians and Surgeons and their Assistants, at the various hospitals, during the month of April, 1910.

Seven special Nurses have been authorized for isolation cases for twenty days' treatment, two of whom are still on duty.

Seven special Nurses, for duty in the general wards, for emergency cases, have been authorized for twelve days' treatment. Your approval is asked for.

The following Nurses, suffering from contagious diseases, have been sent to the Minturn Hospital:

Elizabeth Henderson, April 20; scarlet fever.
Jean Henley, April 22; scarlet fever.
May Helner, April 26; diphtheria.
Theodora Koehler, April 28; diphtheria.

On Thursday, April 28, ambulance No. 3, Gouverneur Hospital, while standing in front of the Ninth Precinct Station House, in response to a call, was run down by a runaway horse attached to a light truck. The ambulance was more or less demolished. It has been sent to the shop for emergency repairs. An investigation is being made to determine whether or not the owner of the runaway team is financially able to pay for the damage done.

George F. Sinram had the contract for coal to be delivered at Gouverneur Hospital on or before April 30. He asks for an extension of time, owing to the fact that lack of space in our bins made it impossible for him to deliver coal before that date. Under the circumstances an extension of time was granted him.

The Auditor and Contract Clerk recommends that certain vouchers be transferred from the accounts C. B. H. 11 to C. B. H. 10, in order to bring our books into harmony with the books of the Finance Department. It is recommended that this transfer be requested.

The terrace surrounding Pavilions A and B, and certain portions of the east end of the grounds in front of the administration building, Bellevue Hospital, look very badly, owing to the fact that the soil is sandy, stony, and the grass cannot be made to grow. It is estimated that three or four hundred loads of top soil would be needed to properly cover this area. It is recommended that as soon as the Board of Estimate and Apportionment shall have granted the necessary corporate stock for improving the grounds, that sufficient top soil to properly cover these areas be ordered at once.

It appears that the ambulances from the Flower Hospital are being called by the Police Department for all charity maternity cases in the district from Twenty-third to Eighty-sixth street north, and from Lexington avenue west to the East River. This covers a part of Bellevue Hospital territory, namely, from Twenty-third street to Forty-second street and from Lexington avenue west to the East River. In view of the fact that the Flower Hospital has a regular ambulance district sufficiently large to tax its facilities under any condition, and in view of the fact that we have provision to properly handle an extensive maternity service in Bellevue Hospital, it is recommended that some action be taken to prevent ambulances from other institutions being called to take cases from within the Bellevue district.

Early in April a complaint was made by a member of the House Staff at Harlem Hospital against the nursing department. This complaint was investigated by the Executive Committee at Harlem, together with the General Medical Superintendent and the General Superintendent of Training Schools. The report of the Executive Committee at Harlem is at hand. There are certain features which it would seem well to investigate still further. It is recommended that the investigation be continued by the Committee of the Month and the General Medical Superintendent.

It is recommended that an advertisement for a public auction be authorized for the sale of the following material:

Twenty-five hundred pounds chicken entrails, 12,000 pounds raw fat, 15,000 pounds grease, 80,000 pounds bones, 10,000 pounds iron, 500 tons of ashes at Fordham Hospital, garbage at Bellevue Hospital, 2,500 incandescent lamps.

The acceptance of a bid for the garbage at Bellevue should depend entirely upon the amount offered, inasmuch as it will be better to burn the garbage unless a sufficient amount is bid to warrant the extra trouble of handling the same.

On motion, duly seconded and carried, the appointment of special Nurses reported by the General Medical Superintendent was approved.

On motion, duly seconded and carried, the transfer of Nurses suffering from contagious diseases to the Minturn Hospital was approved.

On motion, duly seconded and carried, the report in regard to the accident to the Gouverneur Hospital ambulance was approved, and the General Medical Super-

intendent was instructed to present a claim to the owner of the runaway team for the damage done to the ambulance.

On motion, duly seconded and carried, the action of the General Medical Superintendent in granting an extension of time on the contract of George F. Sinram was approved.

On motion, duly seconded and carried, it was Resolved, To request the Department of Finance to make the transfer in the accounts recommended.

On motion, duly seconded and carried, the General Medical Superintendent was authorized to purchase the top soil desired as soon as the necessary corporate stock fund is available.

On motion, duly seconded and carried, the report in regard to the transfer of a maternity patient by an ambulance to Flower Hospital was referred to the President and the Commissioner of Public Charities.

On motion, duly seconded and carried, it was Resolved, To refer the report of the Executive Committee of Harlem Hospital to the Committee of the Month at that institution and the General Medical Superintendent for further investigation.

On motion, duly seconded and carried, it was Resolved, To advertise a public auction as recommended by the General Medical Superintendent.

The General Medical Superintendent submitted a report in regard to the recommendations of the Inspector of the State Board of Charities, referred to him at last meeting. On motion, duly seconded and carried, it was

Resolved, To send a copy of the report of the General Medical Superintendent to each member, and to consider it at next meeting.

The General Medical Superintendent presented lists of changes in help at Bellevue Hospital for the two weeks ending April 9 and April 16, and as these had already been reviewed by the Committee on Officers and Employees, it was

Resolved, upon the recommendation of that Committee, That they be approved as follows:

The Building Committee reported that a meeting had been held with Professor Sever, at which a letter received from Mr. Ross, under date of April 15, renewing his recommendation that a fire alarm system be installed, was considered. A letter dated April 26 was also presented from Edward F. Croker, Chief of the Fire Department, strongly recommending that a fire alarm system be installed in preference to telephone service. The General Medical Superintendent had verbally reported in regard to the delay which must arise in answering telephone calls. In regard to the dispute as to the style of box, Professor Sever had stated that he approved of the box manufactured by the Gamewell Company.

The Building Committee therefore recommended that a fire alarm system be installed as had been proposed and for which an appropriation of \$7,000 had been received. The Committee further recommended that all interior wiring should be installed in conduits as had been ordered by the Department of Water Supply, Gas and

Electricity, and that with this exception the original specifications be approved. Upon motion, duly seconded and carried, the report of the Building Committee was adopted, and it was

Eggs broken from the shell intended for food purposes shall be promptly cooled to a temperature not to exceed 50 degrees Fahrenheit and shall be deemed adulterated for the purposes of this section if the temperature at the time of delivery to the consumer be above said temperature.

No person conducting the business of trucking or draying, or engaged in the transportation of goods or merchandise, or conducting the business of storing food or other products in cold storage buildings, shall be required to have a permit for receiving, holding, transporting or keeping eggs opened from the shell, whether canned, frozen, dried or treated in any other manner, provided that such person shall show to said Board, when required, satisfactory proof of the ownership of such eggs.

No person shall receive, have, hold, sell or offer for sale, or deliver in the City of New York any eggs broken from the shell, designed for use in manufacturing processes or for tanning, unless the same shall have been denatured with some denaturant approved by the Board of Health. The cans or receptacles containing eggs broken from the shell designed for use in manufacturing processes or for tanning, shall be plainly and indelibly labeled with the words "for manufacturing purposes—denatured with," to which shall be added the name of the denaturant.

The term "denatured" where used herein as applied to eggs, means eggs that are broken into receptacles into which has previously been placed a denaturant or denaturants approved by the Board of Health in proportions as may be prescribed and the mixture thus made thoroughly stirred, or which are transferred to receptacles promptly after breaking and on the premises where broken to receptacles into which has previously been placed a denaturant or denaturants approved by the said Board in proportions as may be prescribed, and the mixture thus made thoroughly stirred.

No person shall wilfully or intentionally crack or check eggs intended for sale in the shell, the shells of which are whole and sound, with intent to make any false representation in respect to the quality thereof or as being what the same are not, as respects wholesomeness, soundness, or safety for food. Wilful cracking or checking of eggs to be sold in the shell shall be prima facie evidence of intent to deceive.

Every person who shall receive, hold, keep, sell or offer for sale or deliver in the City of New York any eggs known as "spots" shall keep a record in a manner approved by the Board of Health, of all such "Spot Eggs" received or held by him and the disposition of such eggs.

Every person who conducts the business of breaking out eggs for canning, freezing, drying or other purposes or for preparing eggs for tanners or manufacturing usages shall keep a record in a manner approved by the Board of Health, of all eggs received or held by him and the disposition of such eggs.

Corporation Sales.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE BY SEALED BIDS.

AT THE REQUEST OF THE PRESIDENT of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale by sealed bids, the buildings, parts of buildings, etc., now standing upon property owned by The City of New York acquired by it for street opening purposes in the

Borough of Brooklyn.

Being all the buildings, parts of buildings, etc., situated within the lines of Hemlock street, from Jamaica Avenue to Fulton street, in the Borough of Brooklyn, all of which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, No. 280 Broadway, Borough of Manhattan.

At a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held May 18, 1910, the sale by sealed bids of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

TUESDAY, JUNE 14, 1910,

at 11 a. m. in lots and parcels and in manner and form as follows:

Parcel No. 1. Two-story frame house, with one-story frame extension, No. 13 Danforth street.

Parcel No. 2. Two-story frame house, with one-story frame extension, No. 15 Danforth street.

Parcel No. 3. One-story frame house, No. 20 Danforth street.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 14th day of June, 1910, and then publicly opened for the sale for removal of the above described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposit of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be enclosed in properly sealed envelopes, marked "Proposals to be opened June 14, 1910," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under

the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curbs in front of said buildings extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point.

The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all other sums paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will employ proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against them or any of them, and against the City of New York from all damage and costs to which they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property, not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain, and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PUBLIC NOTICE IS HEREBY GIVEN that at the meeting of the Board of Estimate and Apportionment held this day the following resolutions were adopted:

Whereas, The Electric Protection Company of New York in a petition dated September 15, 1909, made application to this Board for a grant of the right, privilege and franchise to lay, erect, construct and maintain wires and other conduits and appliances in, over and under the streets, avenues and highways within The City of New York for the operation of electrical call boxes in connection with telephones, telegraph and other systems for providing wires and signals for protection service; and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on October 8, 1909, fixing the date for a public hearing thereon as October 29, 1909, at which citizens were entitled to appear and be heard, and publication was had for at least two days in the "New York Herald" and the "Morning Telegraph," newspapers designated by the Mayor, and in the City Record, for ten days immediately prior to the date of hearing, and the public hearing was duly held on such date; and

Whereas, This Board has made inquiry as to the manner and procedure of the right to be granted to the Electric Protection Company of New York, and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Electric Protection Company of New York containing the form of proposed contract for the grant of such franchise or right be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Electric Protection Company of New York, the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

This contract, made this day of 19 , by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Electric Protection Company of New York (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company subject to the conditions and provisions hereinafter set forth the right and privilege to lay, construct, maintain and operate suitable wires or other electrical conductors in conduits under the streets and avenues within the Borough of Manhattan and the portion of the Borough of The Bronx lying west of the Bronx River, for the purpose of electrically connecting detecting and signaling apparatus to be located upon the premises of subscribers with signal recording apparatus located at some suitable point or points where such signals are to be received, and thereby maintaining and operating burglar and fire alarm systems for the protection of the premises of subscribers and for no other purpose whatsoever.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits for the purpose aforesaid shall be held and enjoyed by the Company, for the term of fifteen (15) years from the

date when this contract is signed by the Mayor, with the privilege of renewal of said contract for a further period of ten (10) years upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of five thousand dollars (\$5,000), in cash within three (3) months after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum which shall in no case be less than twelve hundred dollars (\$1,200), and which shall be equal to two (2) per cent. of its gross annual receipts if such percentage shall exceed the sum of twelve hundred dollars (\$1,200).

During the second term of five (5) years an annual sum which shall in no case be less than twenty-five hundred dollars (\$2,500), and which shall be equal to two and one-half (2½) per cent. of its gross annual receipts, if such percentage shall exceed the sum of twenty-five hundred dollars (\$2,500).

During the remaining term of five (5) years an annual sum which shall in no case be less than forty-five hundred dollars (\$4,500), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of forty-five hundred dollars (\$4,500).

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the wires and equipment of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its wires and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall construct, maintain and operate its protection system, subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters under the Charter of the City, and in strict compliance with all laws or ordinances, now in force or which may be adopted, affecting companies operating electrical conductors in the City.

Seventh—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as subways). Such subways shall be leased from the City or the City shall construct or acquire subways for electrical conductors in the Borough of Manhattan, and the Bronx, or in any portion thereof, the Company hereby agrees to lay its wires and conductors in such subways and the City agrees to lease to the Company such space as may be required for the operation of the signal and alarm systems hereby authorized.

Eighth—The Company shall, upon request from any individual or corporation occupying or owning premises in the territory in which the Company is operating, not in arrears to it for service already rendered, extend its wires to such premises and furnish protection service to such individual or corporation, provided that such premises are not more than one-half mile from any other premises in which the Company has its apparatus installed at the time such request is made.

Ninth—The Company shall file with the Board on the first day of November in each year a map or plan upon which shall be plainly indicated the number of wires which are in use by the Company on that date, and also those which were put in use during the preceding year.

Tenth—It is agreed that the Board shall have absolute power to regulate all charges or rates for fire or burglar alarm services rendered by the Company to subscribers, pursuant to this contract, and it is further agreed that the charges or rates for certain classes of service furnished by the Company shall be limited as follows:

(a) For automatic fire alarm protection of five-story double tenement houses, or tenement houses of less dimensions, the annual charge for service shall not exceed fifty dollars (\$50), where there are sufficient subscribers within the same city block to require the protection of not less than ten tenements in the same city block, and the Company shall make no charge for installation of equipment in such buildings.

(b) For interior manual fire alarm protection, installed according to the requirements of the National Board of Fire Underwriters, the annual charge for service shall not exceed the sum of twenty-five dollars (\$25) for the first manual fire alarm box, and the sum of five dollars (\$5) per annum for each additional manual fire alarm box in the same building, where there are sufficient subscribers within the same city block to require not less than fifty manual fire alarm boxes, and the Company shall make no charge for installation of equipment in such buildings.

Eleventh—The Board may, by resolution and notice to the Company, direct the Company to install manual fire alarm apparatus in any or all offices or buildings used by the City, situated in the portion of the City in which the Company shall operate at the time when such notice shall be given. The Company, upon receiving such notice, shall install such apparatus, free of charge, and shall furnish service at rates not exceeding fifty (50) per cent. of the rate charged by the Company for similar service to any corporation or to any other individual.

Twelfth—The Company shall not require nor receive from its subscribers any deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate whenever such money is held for more than one month. Unpaid bills, unless due from its owner, shall never be charged against property, and no person not himself in arrears shall be denied service because any previous occupant of the same premises is in arrears to the Company for service.

Thirteenth—The wires of the Company shall be employed for no other purposes than those explicitly set forth herein and the Company shall itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

Fourteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Fifteenth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant.

Sixteenth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars (\$100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Seventeenth—If for a period of twelve consecutive months, the fire alarm and burglar alarm systems of the Company shall not be operated, or if the same shall not be operated for a period of eighteen months out of any con-

secutive twenty-four months, the Board may declare the right and franchise and this contract terminated without further proceedings at law or in equity.

Eighteenth—The Company shall at all times keep accurate books of account and shall, on or before November 1 in each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding. Such report shall contain a statement of the gross receipts received from the operation of the system hereby authorized from all subscribers served by the Company, together with such other information and in such form and detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Nineteenth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

Twentieth—This grant is upon the express condition that the Company, within ninety (90) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of five thousand dollars (\$5,000), either in money or securities to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privileges hereby granted, in default of which payment of the annual charges the City shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company.

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, furnish service to applicants as herein provided or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of the contract, or under the authority of any laws or ordinances now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars (\$50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day, upon ten (10) days' notice, after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board to be in default, said Board shall forthwith impose the prescribed penalty, or where the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, in writing, pay to the City a sum sufficient to restore said security fund to the original amount of five thousand dollars (\$5,000), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day, upon ten (10) days' notice, after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-second—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such cases such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to

and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate must be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inscribing the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
