No. 575.

AN ORDINANCE to amend sections 315 and 316 and 379 of chapter 7, title 2, Article 3 of the Code of Ordinances of The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 315. Every person driving a licensed hack, or express (other than the person named in the license therefor), shall be licensed as such driver, and every application for such license shall be indorsed, in writing, by two reputable residents of The City of New York testifying to the competence of the applicant. No owner of a licensed hack or express shall employ an unlicensed driver under a penalty of ten dollars for each and every offense.

316a. Any meter, instrument or device by which the charge for hire of a licensed hack is mechanically calculated either for distance traveled or for waiting time or both, and upon which such charge shall be indicated by means of figures, shall be deemed a taximeter. Every vehicle upon which such taximeter is affixed shall be deemed a taxicab.

316b. Each vehicle upon which a taximeter is affixed shall be licensed and the owner thereof shall pay annually such fees as are hereinafter provided:

Each special taxicab, \$10.

Each public taxicab, \$10.

Each driver of a taxicab shall pay an annual license fee of two dollars. The owner or driver of any hack upon which a taximeter is affixed and who has duly procured a license to use or drive such vehicle according to the provisions of any ordinance hereinafter enacted, may continue to use or drive said vehicle under such license until its expiration.

316c. There shall be under the direction of the Chief of the Bureau of Licenses such inspectors as may be found necessary to carry on the work hereinafter described, who shall be appointed by the Mayor and who shall be paid such compensation as shall be fixed by law.

316d. It shall be the duty of such inspectors to test, inspect and ascertain the accuracy of each and every taximeter affixed to or about to be affixed to any vehicle

offered for hire, and to measure, test and examine every wheel, tire, gear, shaft and every part of the mechanism of such vehicle which may affect or control the operation of such taximeter. An inspector shall mark and number each taximeter and vehicle which is approved by him at least once every six months and as much oftener as the Chief of the Bureau of Licenses may deem necessary, with some suitable device, which device shall be recorded in the office of the Bureau of Licenses. Any person may provide and keep on his premises a suitable and proper apparatus to be approved and marked by the chief inspector, for testing and proving the accuracy of taximeters and vehicles furnished for use by him and by which apparatus all taximeters and vehicles may be tested and proved. It shall be the duty of any person using or permitting to be used any taxicab immediately after any inspection or test to effectually seal up the case containing the working parts of the taximeter and the case or cover of the gear which operates the distance recording apparatus, if it is not included in the main part of the taximeter.

316e. Any person who shall use or permit to be used or who shall drive for hire any taxicab the seal of the case or cover of the taximeter or gear of which is not intact, shall, upon conviction thereof by any city magistrate, be fined for such offense a sum not exceeding ten dollars, and in default of paying any fine which is imposed, may be committed to the city prison not exceeding ten days, each day of imprisonment to be taken as a liquidation of one dollar of the fine.

316f. No license shall be issued to a taxicab unless an inspector shall certify to the chief or deputy chief of the Bureau of Licenses that the taximeter of and such vehicle have been duly inspected and approved.

316g. Such inspectors shall keep a register of the name of each person owning or using a vehicle upon which a taximeter is affixed, together with a serial number, size and make of such taximeter, the description, make and necessary dimensions of such vehicle, with the date and complete record of such inspection, and such record shall be open to the inspection of the public at all reasonable times.

Each inspector shall issue a certificate of inspection of taxicabs and shall keep a record of such certificates given on a corresponding card. The certificates and corresponding stubs shall be numbered consecutively. All registers and books shall be public records and extracts may be certified by the Chief Inspector for use as evidence.

316h. Five thousand two hundred and eighty (5,280) feet shall be deemed one mile.

316i. No owner or driver of any taxicab which seeks admission on the streets, avenues or highways of The City of New York, or occupies space thereon by reason of a permit or license from The City of New York, shall exact any fare from a passenger greater than set forth in the official schedule of rates hereinafter provided.

316j. The legal maximum rate provided in this ordinance and any schedule of rates promulgated by the owner of any such vehicle charging less than the legal maximum rate, shall be displayed in a conspicuous place on the inside of such vehicle.

Legal Maximum Rates.

For each taxicab intended to seat two persons inside and driven by motive power, for one-half mile or any part thereof, 30 cents.

For each additional quarter mile or any part thereof, 10 cents.

For waiting time at the rate of \$1 per hour.

For each taxicab intended to seat four persons inside and driven by motive power, for one-half mile or any part thereof, 40 cents.

For each additional quarter mile or part thereof, 10 cents.

For waiting time at the rate of \$1.50 per hour.

For one piece of baggage, 20 cents.

No charge shall be made for handbags, dress suit cases or child under five years of age by any taxicab.

316k. All rates of fare shall depend on the number of persons which each vehicle is intended to seat inside and not on the number of passengers actually carried, and no owner or driver of any taxicab shall use or permit to be used on such vehicle, any taximeter which shall calculate or indicate a rate of fare which shall depend on the number of persons actually carried, under a penalty of twenty-five dollars (\$25) for each offense.

316l. After such taximeter and vehicle have been duly marked, numbered and approved, any person who shall substitute and affix any other taximeter on such vehicle than that numbered, marked and approved for such vehicle, unless he immediately notifies in writing the Bureau of Licenses, giving the serial number, size, gear and make of such substituted taximeter and shall within forty-eight (48) hours after such substitution cause such taximeter to be marked, numbered and approved for said vehicle by an Inspector, and any person who shall use or permit to be used or drive any vehicle upon which such taximeter has been substituted, and affixed, unless as aforesaid, and any person who shall tamper with, manipulate or operate any taximeter which has been duly marked, numbered and approved, or any part of the mechanism of such vehicle which controls or affects such taximeter so that the taximeter is defective or incorrect to the prejudice of any passenger, or who shall use or permit to be used or drive any vehicle the taximeter of or such parts of the mechanism of which have been so tampered with, manipulated or operated, or any person who shall use or permit to be used or drive any taxicab for hire, not inspected, examined, marked and numbered as hereinafter provided for, shall, upon conviction thereof by any magistrate, either upon confession of the party or competent testimony, be fined not more than fifty dollars (\$50) for each and every offense, and in default of payment of such fine may be committed to prison by such magistrate until the same shall be paid, but such imprisonment shall not exceed ten days.

316m. No person shall use or permit to be used or drive any taxicab for hire the taximeter of which shall be adjusted or installed in such manner or which shall be in such condition as to be over five per cent. (5%) defective and incorrect to the prejudice of any passenger, under a penalty of fifty dollars (\$50) for each and every offense.

316n. No taximeter affixed to a taxicab propelled by steam, electricity, gasoline, compressed air or other motive power, shall be operated from any wheel to which power is applied, under a penalty of twenty-five dollars (\$25) for each and every offense.

316o. Each figure used to indicate the fare on a taximeter shall be of such size as to be legible from the rear seat of such vehicle, and each taximeter shall be placed in a position approved by an Inspector so that its face can be easily seen by a passenger from the inside of said vehicle and after sundown such face shall be illuminated by a suitable light.

316p. All persons shall exhibit on demand, at all reasonable times, any taximeter or vehicle to any Inspector for the purpose of inspection. Any person offending against this section on conviction thereof by any City Magistrate, may be fined for each such offense a sum not to exceed ten dollars (\$10), and in default of paying any fine which is imposed, may be committed to the City Prison not exceeding ten days, each day of imprisonment to be taken as a liquidation of one dollar of the fine.

316q. If any passenger shall request an inspection of any taxicab, giving in writing a full statement of any trip made by him, upon investigation of said request the Chief or the Deputy Chief or the Chief Inspector of the Bureau of Licenses may order the owner of the vehicle complained against to withdraw the same from service until inspected and tested, and the same shall be forthwith inspected and tested; if the same on being so tested shall be found 5 per cent. defective or incorrect to the prejudice of any passenger, the Inspector shall order the owner to remove said incorrect taximeter. Any person who refuses to comply with or who disobeys said order or orders shall, upon conviction thereof by any City Magistrate, be fined for each such offense a sum not to exceed ten dollars (\$10), and in default of paying any fine which is imposed may be committed to the City Prison not exceeding ten (10) days, each day of imprisonment to be taken as a liquidation of one dollar of the fine.

Sec. 379. Except as hereinafter otherwise provided, no person shall violate any of the regulations of this ordinance under a penalty (of not less than two dollars or more than) of ten dollars for each offense. No such violation shall be con-

timed under a penalty of (one) ten dollars for each day so contained. Any person engaging in or carrying on any business herein regulated without a license therefor, or any person violating any of the regulations of this ordinance (shall be deemed guilty of a misdemeanor, and) upon conviction thereof by any Magistrate, either upon confession of the party or competent testimony, may be fined not more than (two) and ten dollars for each offense, and in default of payment of such fine may be committed to prison by such Magistrate until the same be paid; but such imprisonment shall not exceed ten days.

Sec. 2. The provisions of this ordinance shall take effect sixty (60) days after the appointment of the Inspectors, as provided in Article C.

AN ORDINANCE to amend "An Ordinance regulating the placing of electric signs in The City of New York, and providing that the same shall be licensed."

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. "An Ordinance regulating the placing of electric signs in The City of New York, and providing that the same shall be licensed," adopted April 30, 1907, and approved May 7, 1907, is hereby amended so as to read as follows:

Section 1. Any electric letter, word, model, sign, device or representation in the nature of an advertisement, announcement or direction erected at right angles to any building shall be deemed to be an electric sign.

Sec. 2. Electric signs may be hung or attached at right angles to buildings, and extend not to exceed six feet therefrom in said space, and to be ten feet in the clear above the level of the sidewalk in front of such building, upon the payment of an annual license fee of 10 cents for each square foot of sign space or part of square foot of such sign space, to be collected by the City Clerk of The City of New York. The square feet of sign space on one side of an electric sign, however, shall be deemed to be the entire number of square feet of sign space for the purpose of computing the license fee herein referred to and required to be paid.

All electric signs shall be constructed entirely of metal, including the uprights, supports and braces for the same, properly and firmly attached to the building, and shall be so constructed as not to be or become dangerous.

Before any permit is issued by the City Clerk plans and statements of the proposed sign and method of attachment to the building must be filed with the Superintendent of Buildings having jurisdiction, as provided in part 2, section 4 of the Building Code, and his certificate of approval be obtained as to the sufficiency of the construction and method of attachment to the building. A certificate must also be obtained from the Department of Water Supply, Gas and Electricity certifying that the proposed electric wiring and electric appliances are in conformity with the rules and regulations of that Department.

A license issued hereunder, before its expiration or within thirty days thereafter, may be renewed upon payment of the license fee, without the filing of a new set of plans and statements, provided that the old license be surrendered, accompanied by satisfactory proof to the City Clerk in the form of an affidavit that the method of hanging, size and style of sign are the same as when originally licensed and that the wiring of said sign is in good condition.

Sec. 3. No certificate shall be given by the Superintendent of Buildings, and no permit shall be issued by the City Clerk, for the erection of electric sign or signs on any building when such building adjoins a building occupied exclusively as a private residence, unless the written consent of the owner or owners of said private residence for the erection of such electric sign be first obtained.

Sec. 4. No electric sign shall be placed, hung or maintained, except as in this ordinance provided, under a penalty of ten dollars for each offense, and a further penalty of ten dollars for each day or part of a day the same shall continue.

Sec. 5. All ordinances or parts of ordinances inconsistent or conflicting with the provisions of this ordinance are hereby repealed.

Sec. 6. This ordinance shall take effect immediately.
