City of New York, Borough of Brooklyn, Office of Commissioner of Public Works, June 10, 1903.

Mr. JUSTIN McCARTHY, Jr., Secretary, Borough of Brooklyn:

Dear Sir—Referring to grading and paving report No. 225, handed you on December 9, 1902, and subsequently passed by the Local Board, in the matter of regulating, grading, etc., Caton avenue, from that portion of the street already asphalted to St. Paul's place, etc., will you kindly bring the matter up at to-morrow's meeting of the Flatbush Local Board to change the specifications from bluestone curb to cement curb?

Very truly yours,

(Signed)

A. J. AUBREY,

Secretary to the Commissioner of Public Works.

Memorandum.

Caton avenue, from Flatbush avenue to Brighton Beach Railroad, now paved with asphalt, has cement curb. Road bed is 39 feet in width, fixed by resolution of the Municipal Assembly, approved June 4, 1901. Present resolution for paving Caton avenue, from Brighton Beach Railroad to St. Paul's place, calls for bluestone curb; present width of road bed is 44 feet.

Query: Should not the roadway in the latter district be reduced in width to 39 feet, to correspond with the balance of the street, and should not the curb be of cement instead of bluestone, to correspond with the balance of the street?

Resolution to pave Caton avenue reads "From the Brighton Beach Railroad tracks to St. Paul's place." Should not this read "From the right of way of the Brooklyn and Brighton Beach Railroad," inasmuch as the railroad tracks are situated some 15 feet below the surface of the street?

(Signed)

WILLIS K. TUMEY.

Following communications from the Commissioner of Public Works and report from the Chief Engineer of the Bureau of Highways:

(Copy.)

City of New York, Borough of Brooklyn, Office of Commissioner of Public Works, May 14, 1903.

Mr. JUSTIN McCARTHY, Jr., Secretary to the Local Boards, Brooklyn, N. Y.:

Dear Sir—I am informed that it will be impracticable to get the easements which will be required on Seely street to construct the sewer in this street, Vanderbilt street, East Fifth street, etc., now pending in Miss Agar's hands.

I therefore suggest that street opening proceedings be started at once, be duly advertised and brought before the proper Local Board in order to expedite this all possible.

The street opening proceedings for East Fifth street are already under way, which are but part of the same matter. If it had been practicable to get the easements for Seely street the matter of East Fifth street could have been easily arranged, but I regret the failure to get these easements makes it necessary to take street opening proceedings, which will hold up this important sewer until next year.

Very truly yours,

(Signed)

WILLIAM C. REDFIELD, Commissioner of Public Works.

City of New York, Borough of Brooklyn, Office of Commissioner of Public Works,

June 10, 1903.

Mr. JUSTIN McCARTHY, Jr., Secretary to the Local Boards:

Dear Sir—May I ask that you kindly bring up at the meeting of the Flatbush Board to-morrow, the 11th instant, the matter of excluding from the opening proceedings that portion of East Fifth street, between the centre lines of Church avenue and Albemarle road, because this will be at once ceded to the City as soon as such exclusion is made.

The Bureau of Street Openings informs me that since the City has not vested title this change can be readily made by the Local Board; it will then, of course, have to go to the Board of Estimate for approval.

Very truly yours,
(Signed) WILLIAM C. REDFIELD, Commissioner of Public Works.

Mr. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I return you herewith sketch showing East Fifth street, between Vanderbilt street and Eighteenth avenue. The colored portion of this shows what portion has been open five years or more according to the proposed affidavit. Mr. Bischof has examined this and reports that in his judgment there is no question that from Vanderbilt street to Fort Hamilton avenue the street has been in use for more than five years, probably from fifteen to twenty-five years. From Fort Hamilton avenue to about 100 feet south of Caton avenue he says water pipes have been laid, and it has probably been in use for three years. From Church avenue to Avenue B he says there are chicken houses extending over the line of the street, and that it has water and has been in use for probably thirteen years. From Avenue B to Avenue C it is in use to a point about 400 feet south of Avenue B, and has a row of trees near the curb line about 20 inches in diameter. It is not known how long the street has been in use. From a short line north of Avenue D to a point about 250 feet south of Ditmas avenue he says there is only a wagon track; from that point south to about 475 feet of Ditmas avenue he says there is not even a wagon track.

It seems to me from Mr. Bischof's report that it would not be sufficient to consider affidavits as reliable except between Fort Hamilton avenue and Vanderbilt street.

Respectfully,
(Signed) GEO. W. TILLSON, Chief Engineer.

Herein is also copy of letter to Mr. Lewis of this date, and copy of the report of the Superintendent of Sewers of 8th instant, therein mentioned.

You will notice that I have asked Mr. Lewis to return to you the resolution that it may be amended in accordance with the new sewer report, of which copy is herein.

New York, May 2, 1903.

Mr. WM. C. REDFIELD, Commissioner of Public Works, Brooklyn, N. Y.:

Dear Sir—This is to remind you of our conversation of yesterday concerning the proposed building of sewer basins at both northwest and northeast corners of Albemarle road and East Seventeenth street.

East Seventeenth street would, as you know, pass through the grounds of the Knickerbocker Field Club, involving a very acute crossing of the Brighton Beach Railroad, so that it is scarcely probable that the street will ever be cut through. You seemed to agree with me that but one basin would ever be needed, and I understood you to say that you would have the resolution of the Local Board adopted on March 30 amended so as to provide for one such basin.

I will hold the present resolution until I hear from you, but will write reports at once on the others which you picked out yesterday.

Yours truly,

(Signed) NELSON P. LEWIS, Chief Engineer.

Dear Sir—Permit me to hand you letter from the Chief Engineer of the Brooklyn Rapid Transit Company, which I have made a petition for the installment of sewer basins at the corners of Church avenue and East Twelfth street.

With same I inclose report from the Superintendent of Sewers thereon. To this let me add that I am personally acquainted with the locality; water constantly collects there in large quantities flooding at times nearly the entire width of the street. The basins are much needed, and I beg to request that the matter receive early care.

Dear Sir—On the 15th instant your Secretary transmitted to me a communication from the Chief Engineer of the Brooklyn Heights Railroad Company, dated May 14, 1903, who requests that sewer basins be installed at the intersection of Church avenue and Westminster road (East Twelfth street) to prevent the collection of water at this intersection, which is detrimental to the operation of the cars of the Brooklyn Heights Railroad Company.

I beg to state that our adopted drainage district map calls for basins at this intersection, on the northeast and northwest corners of same, which can be constructed, and if it is the pleasure of the Department that this communication be accepted as a petition, I give an estimate of cost for the above mentioned basins, which is \$480, and the assessed valuation of the real estate within the probable area of assessment which is \$41,000.

I herewith return Mr. Brachenridge's communication.

HENRY R. ASSERSON, Esq., Chief Engineer, Bureau of Sewers, Borough of Brooklyn:

Dear Sir—In response to your inquiry asking if Newkirk avenue, from Coney Island avenue to East Eighteenth street, is an open street or not, I would say that it has not yet been laid down on the map, consequently there is no record of its ever having been legally opened, although it is in use, and has been for some years. This avenue crosses the tracks of the Brighton Beach Railroad, near East Fifteenth street. Proceedings are now under way to lay this street out on the map, from Ocean avenue to Ocean parkway.

Bureau of Highways, Chief Engineer's Office,

May 12, 1903.

HENRY R. ASSERSON, Esq., Chief Engineer, Bureau of Sewers, Borough of Brooklyn:

Dear Sir—In reply to yours asking if the following are open streets or not:

Newkirk avenue, from Coney Island avenue to East Eighteenth street.

East Sixteenth street, from Newkirk avenue to Foster avenue.

East Seventeenth street, from Newkirk avenue to Foster avenue.

East Eighteenth street, from Newkirk avenue to Foster avenue.

—I would say that Newkirk avenue is open on the ground, and has been for many years. This can be considered an open street, although it is not even laid down on the map. Proceedings, however, are now in progress for laying it on the map.

East Sixteenth street, from Newkirk avenue to Foster avenue is laid down on the map, but has never been legally opened, although it is in use on the ground.

East Seventeenth street, between Newkirk avenue and Foster avenue, is laid down on the map, but is not legally opened, and is not in use on the ground.

East Eighteenth street, from Newkirk to Foster avenues, is legally open, the proceedings having been confirmed February 6, 1890.

Respectfully,

(Signed) GEO. W. TILLSON, Chief Engineer.

The following resolution was offered:

Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, after hearing had this 11th day of June, 1903, deeming it for the public interest so to do, hereby determines to initiate proceedings to construct sewer in Newkirk avenue, from Coney Island avenue easterly to East Eighteenth street, and outlet sewers in East Sixteenth street, between Newkirk avenue and Foster avenue; East Seventeenth street, between Newkirk and Foster avenues, and in East Eighteenth street, between Newkirk avenue and Foster avenue, in the Borough of Brooklyn.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Petition for the construction of sewer as described in the following report from the Superintendent of Sewers:

(Copy.)

April 24, 1903.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works and Acting President of the Borough:

Dear Sir—I herewith return a communication, which you referred to me, the same being addressed to the Bureau of Sewers by the Secretary of the President of the Borough, under date of April 16, 1903, requesting information in relation to the construction of a sewer in

East Twenty-ninth street, between Canarsie lane and Flatbush avenue.

I also return original petition which accompanied said communication.

I beg to state that the Chief Engineer of Sewers, Borough of Brooklyn, reports to me as follows:

I beg to report that on December 5, 1902, a report was made from this office for a portion of the length of sewer petitioned for, viz.:

In East Twenty-ninth street, from Avenue F to Avenue G, therefore I amend this petition to read, for a sewer in

East Twenty-ninth street, from Canarsie lane to Avenue F, the estimated cost of which is \$10,900, and the assessed valuation of the real estate within the probable area of assessment is \$193,350.

The items of work necessary are:

- 2,800 feet 12-inch pipe sewer.
- 150 feet 15-inch pipe sewer.
- 32 manholes and appurtenances.

In regard to outlet sewers, information of which is requested, I beg to state that all necessary have been reported upon from this office, under date of October 20, 1902, viz.:

In Newkirk avenue, between Rogers and Nostrand avenues; and in

Avenue D, between Rogers and Nostrand avenues, as outlets for a sewer petitioned for in "Rogers avenue, between Avenue C and Flatbush avenue."

In regard to the legal opening of the streets, information of which is requested, I beg to state that no record of such proceedings can be found in this office.

Respectfully yours,

(Signed) JOHN THATCHER,
Superintendent of Sewers, Borough of Brooklyn.

HENRY R. ASSERSON, Esq., Chief Engineer, Bureau of Sewers, Borough of Brooklyn:

Dear Sir—In response to your request if East Twenty-ninth street, from Canarsie lane to Flatbush avenue, is an open street or not, I would say that it is laid down on the map of New York, and that there are no buildings on the proposed street. There is no record, however, that the street has been legally opened. It is in use. From Canarsie lane to Avenue D, and from Newkirk avenue to Flatbush avenue, there are water mains. From Avenue D to Flatbush avenue there are gas mains.

Respectfully,

(Signed) GEO. W. TILLSON, Chief Engineer.

Petition to regulate, grade and pave Vanderbilt street, between Prospect avenue and Coney Island avenue.

Following communication, from the Commissioner of Public Works, inclosing letter from the Chief Engineer of the Board of Estimate and Apportionment:

(Copy.)

City of New York, Borough of Brooklyn, Office of Commissioner of Public Works,
May 16, 1903.

Mr. JUSTIN MCCARTHY, Jr., Secretary to the Local Boards:

Dear Sir—Please find herein communication from the Chief Engineer of the Board of Estimate and Apportionment of 15th instant sent at my request, returning the papers in the matter of the grading and paving of Vanderbilt street, between Eighteenth street and Coney Island avenue. These are sent for amendment in order that the matter may be revised so as to omit the portion between Eighteenth street and Prospect avenue, which will hold the whole thing up for a great while because of sewer changes. If this single section is omitted the balance, viz., that between Prospect avenue and Coney Island avenue, can go ahead promptly.

Please note carefully what Mr. Lewis writes about the reduction of the width of the roadway. This should never be included in resolutions sent to the Board of Estimate, for the Board of Estimate has no power in the matter, and you will note the suggestion of the Chief Engineer that the presence of this provision might be considered fatal. There are, therefore, two amendments necessary

1. The reduction of the limits.
2. The omitting of the clause about the width of the roadway.

This last should go direct to the Board of Aldermen.

Yours very truly,

(Signed) WILLIAM C. REDFIELD, Commissioner of Public Works.

Hon. WM. C. REDFIELD, Commissioner of Public Works, Borough of Brooklyn:

Dear Sir—In accordance with your request of yesterday, I inclose the resolution and other papers in the matter of the grading and paving of Vanderbilt street, between Eighteenth street and Coney Island avenue, in order that it may be so amended as to omit the portion between Eighteenth street and Prospect avenue.

I would also advise that the clause in the resolution recommending a reduction in the width of the roadway be omitted, as the Board of Estimate and Apportionment has no power to change the width of roadways, and the presence of this provision in the resolution might be considered fatal.

Yours respectfully,

(Signed) NELSON P. LEWIS, Chief Engineer.

Mr. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I return you herewith letter of Justin McCarthy, Jr., asking for a report on Vanderbilt street, between Prospect avenue and Coney Island avenue.

The items of cost are:

2,000 cubic yards of grading at 35 cents.

1,660 linear feet of curb at 85 cents.

2,700 square yards of asphalt pavement at \$2.25.

Total estimated cost, \$8,600; assessed valuation, \$20,000.

The street is legally opened. Sewers and sewer basins have been built. Water and gas mains have been laid.

I would recommend that the roadway of this street be changed from 32 feet to 30 feet, as a 32-foot roadway would necessitate the cutting down of many trees which would be saved by a 30-foot roadway.

Respectfully,

(Signed) GEO. W. TILLSON, Chief Engineer.

No. 168.

On December 19, 1902, the Board of Estimate and Apportionment referred back the resolution of the Local Board providing for grading and macadamizing East Eighteenth street, between Beverley road and Church avenue, and fixing the width of the roadway at 30 feet, the Engineer of that Board having reported that on two blocks covered by the improvement there are a large number of dwellings, but that for 300 feet there is no sewer, and 100 feet of gas main is lacking, and that the surface improvement should not be authorized until the sewer has been built. He also stated that tax books showed that the property is sufficiently valuable to pay for a more permanent improvement. The sewer is now in course of construction. A protest was filed by property owners along the line of the street against the use of asphalt pavement, in which they agree that if macadam pavement is granted they will not ask for an asphalt pavement on East Eighteenth street between Beverley road and Church avenue for at least five years.

The following resolution was offered:

Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, this 11th day of June, 1903, hereby rescinds the following resolution adopted October 13, 1902:

No regular employment will result from securing a place on the eligible list, but it is probable that there will be need of the services of a large or small number of Monitors once or twice a week. The compensation will be \$5 a day when actually employed. Ordinarily the session lasts from about 9 a. m. to about 4 p. m.

The duties of Monitors are to assist in the conduct of civil service examinations; to supervise the candidates while they are at work; to see that they are promptly supplied with such stationery, question sheets, etc., as they need; to collect and properly sort and fasten the candidates' answers and otherwise help in securing a proper and orderly conduct of examinations. To accomplish this, Monitors must be of good physical condition, alert and watchful. All candidates will therefore be required to pass a physical examination.

The mental examination will consist of one paper, on which 70 per cent. is required.

The minimum age is 21.

For applications apply to the Secretary.

For further information as to duties, etc., apply to the Chief Examiner.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable. Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
