## DEPARTMENT OF PARKS.

### COMMISSIONER'S REPORT OF THE WORK OF THE DEPARTMENT OF PARKS, BOROUGH OF THE BRONX, FOR THE YEAR 1906.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—I have the honor to send you herewith, in compliance with the provisions of the Charter, a report of the designs for improvement, work accomplished and finances of the Department of Parks, Borough of The Bronx, for the year ending December 31, 1906.

Very respectfully yours,

JOSEPH I. BERRY,  
Commissioner of Parks, Borough of The Bronx.

### REPORT OF THE COMMISSIONER OF PARKS FOR THE BOROUGH OF THE BRONX, 1906.

In the general maintenance and improvement of the parks of this borough considerable work was carried on during the year. The maintenance work consisted of cleaning and repairing paths, roadways, gutters, basins and drains, sprinkling roads, spreading fertilizer on lawns, mowing grass, marking tennis courts and football fields, laying out and repairing baseball diamonds, etc.

The special work accomplished in each park is given in the following details:

#### Pelham Bay Park.

(Area, 1,756 Acres.)

In this, the largest of our parks in this borough, the improvements this year have been numerous and of a most substantial character.

Orchard Beach—A new comfort station has been erected at this beach. The beach has been extended 400 feet, thereby increasing the accommodation for bathers at least 100 per cent.

Two hundred and fifty yards of rock and 200 yards of earth were removed and used to fill the patch of swamp land near the beach. Twenty-five yards of sea wall, 5 feet high, was constructed. Four hundred yards of sand was carted and spread on the beach.

Fifty new bath houses have also been erected, making a total of one hundred now on the beach.

The vast increase in the number of people visiting this beach renders it absolutely necessary that during the coming year at least one hundred additional bath houses be constructed; also a shelter building, as no form of shelter exists there.

Athletic Grounds and Beach—One hundred and eighty yards of new beach has been added to the old one in this part of the park. Rocks and mud were removed therefrom and used for grading and for filling low lands; and 200 yards of sand was hauled and spread on beach.

One hundred additional bath houses have been erected, making about three hundred in all. This number will probably suffice at present, though none too many for the large number of people who patronize the beach.

A new shelter building was constructed on the beach at the boathouse.

A new comfort station has been erected.

Because of the great popularity of the athletic field it was decided to build an athletes' lodge convenient thereto. Plans were prepared and work was begun in September, and the building will be completed in about two months. It presents a handsome appearance, being constructed of logs, and contains one hundred and twenty lockers, together with shower baths and all necessary accommodations for the comfort of those who make use of the athletic field.

A scheme for the extensive planting of trees and shrubs at and in the vicinity of the bath houses was prepared early in the year, and the work is now completed. Included in the plan was a slight change in the line of the roadway.

Roads, Paths, etc.—New paths have been constructed along the Eastern Boulevard. Some work has been done on the Eastchester Bay road, leading from the present road to and along the Tallapoosa Clubhouse. This road, however, cannot be completed until more funds are available for the purpose.

The road along Pelham Bay and the road leading from Orchard Beach to the Hunter's Island Inn have been macadamized.

The road extending from City Island road past the Hunter's Island Inn has been covered with stone prepared by the department crusher, roller-dressed and fully completed.

Drainage—The work of draining along the New York, New Haven and Hartford Railroad was begun during the year, and is now in progress.

#### Van Cortlandt Park.

(Area, 1,132.35 Acres.)

Cleaning the Lake—The work of cleaning, filling and widening the lake has progressed rapidly. Three thousand yards of mud was removed therefrom and used for filling the low lands on the side of the lake. Considerable work yet remains to be done before the cleaning is completed. The amount appropriated this year will be sufficient for the purpose; but it was impossible to finish the work this season, as the lake had to be filled before extremely cold weather set in, so that it could be used for skating.

Eliminating Swamp Lands—Plans and specifications for eliminating the swamp south of the Colonial Garden have been prepared, and the work of converting the swamp into a lake will proceed at once. However, this swamp cannot be entirely eliminated at present, as only \$70,000 is available for this work, and it will require at least twice this amount to complete the contemplated improvement. A further reason for not beginning this work was the judgment of the Landscape Architect that it is not feasible to drain the proposed lake into the Broadway sewer.

Road System, etc.—Part of the road which extends from Grand avenue along the golf links, to the northern line of the City has been widened and macadamized. Twenty-five hundred feet has been completed. One thousand additional linear feet of trap rock foundation was rolled and made ready to receive the surface screenings, when frost caused a temporary suspension of the work. When appropriation was made for this work, it was intended merely to macadamize the existing width, namely, sixteen feet; but as it was later thought advisable to make the road wider, to accommodate the rapidly increasing traffic there, the amount appropriated was sufficient only to construct about one-half of this road, that portion being reggraded and widened to 25 feet. This width, 25 feet, is no more than is absolutely required for the present traffic on that road.

Gun Hill road has been widened to twice its original width and macadamized during the year. The grade of this road was unusually steep, a portion of it being a twelve per cent. grade, this being now reduced to 6½ per cent. Proper gutters were constructed wherever necessary. The improvement is one that was very much needed.

Drainage of Rockwood Drive—An appropriation of \$6,000 was granted for the drainage of Rockwood drive, from Mosholu avenue to the Yonkers line. This work is being prosecuted by park labor, and is now completed. Three thousand feet of cobblestone gutter, 2 feet wide, has been laid and finished. This work required the removal of rubbish and the digging and grading of trenches 3 feet wide by 1½ feet deep. Six thousand feet of side stone was put in position.

Comfort Station—Plans for a new comfort station on the parade ground have been prepared, the contract has been let and the work is now well under way. The building will probably be ready for use by March 1, of the coming year.

Grading, etc.—A considerable amount of grading has been done near the underground passage under the railroad at Van Cortlandt station. After the crossing had been eliminated, the grounds at this place were left in an unsightly and unsatisfactory condition, and the grading was absolutely necessary. Two thousand yards of earth has been removed and used to grade the west bank at Van Cortlandt lake, 1,500 feet of sod having been previously removed and set aside to be replaced when the grading was completed.

The work of grading and raising the Colonial garden to the elevation originally intended, has been commenced; but funds to carry on this work, or to complete even a small portion of it, are lacking. One thousand yards of fill has been carted and graded in the garden.

Topographical Survey—The work of making a topographical survey of this park is in progress, and has been prosecuted by the engineering corps stationed on Mosholu parkway at all times when other work did not demand their attention.

Planting, etc.—Under the supervision of the gardener in charge, the plantation extending from the small lake on west side of railroad track to trestle on east side of parade ground was ploughed and harrowed, and eighteen hundred yards of topsoil spread thereon. In this plantation, three thousand shrubs and fifty trees were set out and pruned, and thirty loads of fertilizer deposited along the road to cover same.

In the Colonial garden, herbaceous plants were transplanted as occasion and season required; flower beds were cleaned and weeded. In the fall, all plants and trees in the northwest corner were taken up and removed to the nursery, and the flower beds, trees and shrubs covered with manure. Rhododendrons and other tender plants were covered with straw to protect them through the winter.

The gardeners were also engaged in cleaning and covering 500 herbaceous plants sent from the Bronx Park greenhouses to make room for other plants to be used early next season; and in transplanting trees and shrubs, when necessary, to grow strong, fibrous roots, which could be had only by transplanting.

A small greenhouse, which was presented to the City by Mr. Hey, of Park avenue and One Hundred and Seventieth street, was removed from his premises to Van Cortlandt Park, and rebuilt to adapt it to the location. This greenhouse is used for the propagating of shrubs during the winter.

Eight thousand cuttings of shrubs of different varieties were made and placed in the greenhouses, for rooting in the spring.

Along the parade ground, thirty-two tree holes 6 feet square were dug and re-filled, and covered with topsoil. The soil taken from the holes was used to grade bank along the lake.

About one thousand yards of topsoil was carted from Mosholu avenue to the Colonial garden.

Grass was mowed on the parade ground and around the Colonial mansion.

The lawn tennis courts, ball fields, cricket fields and golf links, were kept in excellent condition. The great number of golfers using these links on Sundays and holidays makes it imperative that a second course be laid out and constructed in this park. The increased demand for lockers in the golf house has necessitated the building of additional lockers, ninety-six of which are now in course of construction and will be finished early in January.

Walks, roads and paths were kept clean, and the roads sprinkled.

Late in the season, fertilizer was spread on the polo field, and on the lawns around the Colonial mansion.

A number of dead trees were removed, several being large chestnut trees which stood along Rockwood drive and were dangerous to persons or to passing vehicles.

Minor Improvements—An iron railing has been erected around the old cemetery near the Museum, the fence being erected by contract and painted by park labor.

A cairn, to commemorate the slaughter of the Stockbridge Indians who were assisting the American forces in the Revolutionary War, has been erected on the Indian field, and a handsome bronze tablet placed on the cairn by the Daughters of the American Revolution.

The Algernon Sullivan Memorial Association erected, without expense to the City, a handsome granite drinking fountain, in memory of Algernon Sullivan, near the golf house in this park.

**New Lawn**—The tract of low land lying north of Gun Hill road and east of Grand avenue was converted into a lawn, a paved drain having been constructed, into which the stream which spread itself over this field was conducted. This new section will be planted with grass seed next spring and thrown open to the public.

#### Bronx Park.

(Area, 719 acres, of which 261 acres are included in the Zoological Park, and 250 acres in the Botanical Garden.)

**New Entrance**—A new entrance has been constructed at the intersection of the Southern Boulevard and Pelham parkway. Running from this point, nearly the entire westerly side of the park, along the Southern Boulevard, has been improved and planted to the line of the Botanical Garden. In making this improvement, three thousand cubic yards of topsoil was furnished by contract, the work being done by park labor.

**New Walks**—On both sides of Pelham avenue, from the Southern Boulevard to the Bronx river, new walks were laid. The old, rough curb on the southerly side of Pelham avenue was removed and neat sod curbing substituted.

**Foot Bridge**—During the year, sketches were made for the erection of a foot bridge at Lorillard Falls, to take the place of the present foot bridge, which is in a very dilapidated condition. After the plans had been prepared, however, the Landscape Architect decided that the location of the bridge should be changed, and the bridge cannot be built at the new location without additional funds.

**Drinking Fountain**—A small drinking fountain was placed, with proper connections, near the lily pond north of Pelham avenue.

**Drainage**—During the year, the sum of \$3,000 was appropriated for the drainage of a swamp north of Pelham Parkway and east of the Bronx river. The draining of this swamp, which eliminated, also, two mosquito-breeding pools, entailed considerable work, all of which was done by park labor. A stone drain 675 feet in length and 2 feet wide, was constructed, requiring the excavating of 50 yards of rock and 300 yards of earth, and the carting of 225 yards of rock and 700 yards of fill.

**Widening Road**—Boston road, in the rear of the Zoological Park, along the Bronx river, is being widened from 6 to 10 feet, making a 32 foot roadway. 2,075 linear feet of this road has been graded and prepared for macadam pavement. The rock foundation has been laid, preparatory to receiving the traprock and screenings. 200 yards of rock and 400 yards of earth have been excavated, and 1,000 yards of earth carted and used for grading and filling. A retaining wall 200 feet long, 15 feet high, and 3 feet wide at base, has been built. 270 yards of stone was carted from Crotona Park, to be used in this work.

In the workshop located in this park all tools used by the park employees were kept in good condition; signs were painted; rolling stock repaired and painted; new harness made and old harness repaired; snowscrapers, pruning poles, tool boxes, step-ladders and swinging poles for athletic fields, were also made.

In the greenhouse, seeds were sown and upwards of 60,000 plants propagated and cared for.

#### Zoological Park in Bronx Park.

During the year 1906, development work in the Zoological Park has been prosecuted with the usual degree of industry.

**Baird Court Improvement**—In the line of general improvement the most noteworthy feature of the year has been the erection of the western boundary wall and the northern front of Baird Court. The latter constitutes a very imposing composition of stone stairways, sculptured fountains and ornamental balustrades. These two sides have been completed.

**Concourse and Approaches to Baird Court**—To-day work is progressing on the Concourse, by which visitors will enter the park and drive from Pelham avenue to the northern stairways of Baird court. An approach from the west side of Baird court was begun in October of this year; about one-half the wall has been built and nearly all the excavation completed. The work of building Concourse gates has also been commenced. When finished this feature will form an imposing approach to the finest group of buildings in the park, and will practically complete this part of the park.

**Deer House**—The series of installations for animals was increased by the erection of an important building, known as the small deer house, designed to contain a collection of small tropical deer and antelopes, such as are not provided for elsewhere. This building is situated near the southern boundary of the Zoological Park, midway between the large antelope house and the pheasants' aviary. It is built of buff brick of the standard color in use in the park, and is surrounded by an extensive series of outdoor yards. It will contain between thirty and forty species of animals. Its interior is particularly pleasing in its proportions and light effects. The building will be completed about March 1 of the coming year, and will permit of an important increase in the collection of hoofed animals.

**Glass Court for Bird House**—The accommodations for birds were increased by the erection of what is known as the glass court, which is really an annex to the large bird house. This addition has been specially designed for American song birds, and was completed during the summer. It is now well stocked with native species, and is a favorite spot for teachers and classes from the public schools.

**Feed Barn**—The feed barn has been completed and final payment has been rendered.

**Gate House**—Work on the gate house has been moving slowly for the past year, but is now under way, and should be completed by the first of February.

**Boathouse and Dock**—A contract was awarded for the erection of a boathouse and restaurant and the building of a dock at the lower end of Bronx Lake, near West Farms. The work is now well under way, and will be completed in about a month. The boathouse will be stocked with boats, to be rented by the New York Zoological Society, for the pleasure of the public, and will add to the attractions of the park.

**Comfort Station**—After the contractor had started work on this building the contract was declared illegal, owing to some technical irregularity in the wording of it. A bill was then passed by the Legislature permitting payment to the contractor for the work he had done on the contract; but further work was deferred for a reletting. New specifications have been prepared, and the work of completion will be let on January 10.

**Terrace Wall and Steps**—A contract was let on July 26 of this year for the building of a terrace wall and flight of steps near the southwest entrance of the park, and the contract has been completed, adding an important feature to the beauty of the park.

**Widening Boston Road**—Boston road, in the Zoological Park, is now being widened. About three-quarters of the grading is finished and one-half of the telford laid, this work being done by park labor.

Other improvements now in progress are to be found in a new entrance at the intersection of One Hundred and Eighty-second street and the Southern Boulevard, to which walks were constructed last year, and immediately south of which the Zoological Society has planted an extensive group of cedars ranging in height from 20 to 40 feet, and planted closely together for the purpose of screening the park at that point, from the buildings at West Farms; and a new service road constructed from the Rocking Stone past the buffalo house, to the buffalo entrance on the Boston road. In connection with the latter improvement, the buffalo corrals were completely remodeled and rebuilt.

**Attendance**—The attendance of visitors has far exceeded in number the record of all previous years. During 1906 the total number of entrances recorded by our turnstiles was 1,321,917. A considerable proportion of the increase over previous years is due to the attendance of classes and teachers from the public schools, who came to study the collections.

**Collections**—During the year 1906 the animal collections were increased to the utmost limits of available installations. The most important specimens acquired were two double-horned African rhinoceroses, two hippopotami, two jaguars, six bears, five buffaloes, five elk, five sea-lions and two Florida crocodiles. For the three animals first mentioned above the Zoological Society expended \$12,500.

The collection of birds was increased by the addition of 549 specimens.

At the close of 1906 the total number of living creatures in the park was 3,624, of which 620 were mammals, 2,104 were birds and 900 were reptiles and amphibians. These represented a total of 808 species. The increase in species over 1905 was 151, and of individuals the net increase was 757.

By way of comparison, it may be of interest to note the fact that, at the close of 1905, the London Zoological Gardens contained 689 mammals, 1,554 birds, 560 reptiles, and 110 fishes, making a total of 2,913 individuals.

#### Botanical Garden in Bronx Park.

Much additional construction work has been accomplished, the collections in the public museums have been largely increased in number; the educational work has been much expanded; and the number of visitors has been greater than in any preceding year.

Continuation of work on driveways, paths, bridges, grading and drainage, has been carried on.

**Mosholu and Woodlawn Entrances**—Imposing entrances into these Gardens have been constructed from both Mosholu parkway and Woodlawn Road, including all the necessary walls and approaches.

**Road System**—Several new roads have been constructed, and the road system in the botanical garden is practically completed and has been thrown open to the public; but on portions of these roads the lights have not yet been placed. About one-half the southerly portion of the roads in the garden have been resurfaced during the year.

**Comfort Stations**—Plans were prepared and approved by the Art Commission, for the erection of two comfort stations. The contract will be let and work will be commenced on the buildings early in the coming year.

**Grading, etc.**—The grading is completed on the entrance to Scott Avenue Bridge, the telford laid, and the trap rock placed thereon.

The road work, grading, etc., in this Garden, was all done by park labor.

**Drainage**—In the course of the construction of roads and paths, and in grading operations, additional grass gutters, catch-basins, and drain-pipe connections have been built at the Mosholu Parkway and Woodlawn approaches, at the lake bridge, and on the fruticetum plain. At the economic garden, a ditch with stone sides has been constructed to receive the surface drainage of the valley.

In the north meadows, where much filling and drainage still remains to be done, the drainage ditches have been kept open, and the amount of marshy ground reduced to a minimum, under present conditions.

**Planting**—A great deal of additional planting has been accomplished during the year, in many parts of the grounds, especially in the shrub collection on the plain, north-east of the museum building, in the collection of conifers on the hills and slopes near the public conservatories, in the herbaceous garden, and a commencement was made, in the fall, of establishing the economic garden. Many shade trees have been planted along the driveways, and the border screen along the railway has been completed by the planting of a belt of conifers and deciduous trees at the west end of the valley of the lakes.

**The Hemlock Grove**—The forest of Canadian hemlock spruce continues in a healthy condition. The opening of the main park driveway across the long bridge north of the hemlock grove, the closing of the temporary road across the old Blue Bridge, and the construction of the path leading eastward from the north end of the herbaceous garden, have resulted in the closing of the grove to vehicles, in accordance with the original plan, and this has been a great advantage to pedestrians.

#### Crotona Park.

(Area, 156.6 Acres.)

**Entrances**—New entrances from Wendover avenue have been constructed on both the easterly and westerly sides of the park.

**Road System**—Three new telford macadam roads have been constructed in the southerly portion of this park, and two in the northerly end. Several of the old roads have been widened and re-macadamized.

**Draining, Sewers, etc.**—In the northerly portion of the park, east from Crotona avenue, a new drainage system has been completed, funds having been appropriated for the purpose. A stone drain was put in, from Arthur avenue to One Hundred and Seventy-fifth street.

A 2-inch water pipe has been laid from the comfort station to the water main on Crotona Park East. Also a sewer has been laid from the same point, to connect with the sewer leading across the park into the Wendover avenue sewer.

**Comfort Stations, etc.**—Two handsome comfort stations have been constructed in this park, one of brick, in the northerly section of the park, and one of cobblestones, in the southerly section.

The old shelter pavilion was practically rebuilt. It had become very much dilapidated, and the original plan was decidedly unsightly.

**Running Track**—Plans and specifications were prepared in this Department, for the construction of an Athletic Field and running track, at a point where Prospect avenue intersects Crotona Park North. The work is being done under the supervision of the Board of Education, as the track and field are to be used as a public playground for school children.

**Filling, etc.**—A large area of low land has been filled and raised, the fill being furnished and delivered by several contractors, free of all expense to the City. A part of the northern side of the park has been terraced and graded.

**Improving Tremont Avenue Side of Park**—An appropriation of \$24,000 was granted, during the year, for the improvement of this park along Tremont avenue. Plans and specifications were prepared, and bids were invited for the doing of this work; but, owing to its location, in close proximity to surface railways, high tension wires, etc., all bids were in excess of the amount appropriated. In order to complete this work, the additional sum of \$10,000 must be had.

The appearance of the park in the vicinity of Indian Lake has been much improved by the removal of many dead trees and stumps, and the clearing away of undergrowth.

#### Macomb's Dam Park.

(Area, 27 Acres.)

**Road and Path System**—A new carriage-way and new paths have been constructed, extending from One Hundred and Sixty-first street and One Hundred and Sixty-second street.

A new walk has been constructed along Sedgwick avenue, from Jerome avenue to the westerly side of the park.

Two walks between Sedgwick avenue and the railroad company's lands have been completed.

**Filling**—A large area of low land in the northeasterly portion of the park has been filled in and graded.

**Drainage**—Two hundred and fifty feet of drain-pipe was laid and two basins were built. Four thousand yards of topsoil and fill were used for grading in connection with the drainage work in this park.

**Athletic Field**—Early in the year the athletic field was regraded and resurfaced, and a rail fence built around the same, as well as around the running track.

**Fountain**—Plans for a fountain at the entrance to Macomb's Dam Bridge were prepared, and bids were invited for doing the work, but the plans did not meet the approval of the Art Commission. The sum appropriated for this fountain, \$3,000, was inadequate for the construction of such a fountain as the Art Commission would approve for that location. An additional appropriation of \$3,000 will be needed.

#### Claremont Park.

(Area, 38 Acres.)

**Clay Avenue Improvement**—The eastern side of this park, along Clay avenue, north of the main entrance to the park, has been practically filled in, and the grading is now under way for that portion lying along Clay avenue, south of the main park entrance. For this work the sum of \$15,000 was appropriated, but owing to the deep cut made in grading Clay avenue a larger sum of money will be required to complete all of the work.

**Roads, etc.**—The roads have been repaired and put in first-class condition, and many dead and decaying trees have been removed, all work being done by park labor.

## St. Mary's Park.

(Area, 28.7 Acres.)

Road and Walk System—Under contract, all existing walks in this park have been asphalted. Several new walks were constructed and are now being covered with asphalt.

Along the old Passage road a new walk was constructed, and the road itself widened, graded and macadamized.

Grading, etc.—The northerly side of the park has been filled in and graded, and considerable work accomplished during the year in grading and draining other portions of the park.

An old and unsightly barn located on the hill near the northeasterly corner of the park was removed.

Seventy-five hawthorn bushes were planted around the railroad vents, to prevent children from climbing over the ventilators and to screen the unsightly walls.

All the above work, with the exception of asphaltting, was done by park labor.

## Franz Sigel Park.

(Area, 17.5 Acres.)

Plans and specifications were prepared for the reconstruction of the comfort station in this park. Bids were invited on three different occasions; but owing to the very great amount of work the mills had on hand by reason of the numerous building operations in The Bronx during the year, it was impossible to get bids. This work is about to be readvertised at the present time, when bids will, in all probability, be made.

## St. James Park.

(Area, 11.83 Acres.)

Comfort Station—A new comfort station was erected in this park during the past year.

Filling—Considerable filling has been done in the northern end of the park.

The Department of Highways recently regraded Creston avenue, along the entire eastern side of St. James Park, filling in the avenue to the height, in some places, of the top of the wrought-iron fence erected there three years ago. In order to make the park conform to the new elevation of the road a large amount of fill will be required along Creston avenue, in addition to which the entire east side will need replanting. One Hundred and Ninety-third street, at the northern end of the park, is also to be constructed, and it will require considerable fill to make the park land at this point conform to the elevation.

## Echo Park.

(Area, 4 Acres.)

The only work done in this park during the past year has been some filling along Burnside avenue. The Department of Highways has graded and widened Burnside avenue along the park, and this has left the entire east side of the park in an unfinished and unsightly condition. This is one of the handsomest of our smaller parks, and should be put in good condition as soon as possible. The park was increased from one and one-half to four acres, the northern portion of which is still in a very unfinished condition, and considerable funds will be required to put it in proper shape.

## Small Parks.

In the smaller parks of The Bronx, considerable grading has been done.

Twelve thousand linear feet of pipe railing, including the necessary posts, etc., has been purchased, practically all has been delivered, and the work of erecting this railing will be commenced at once, by park labor, for the purpose of protecting the small parks from the depredations of boys and others wantonly destructive.

## Bronx and Pelham Parkway.

(Length, 11,861 feet. Width, 400 feet.)

Pavement—Ten thousand square yards of "Asphalto" pavement has been laid on this parkway, as a trial, without expense to the City. Sufficient time has not yet elapsed to determine whether this new pavement will prove a success; but the Chief Engineer of this Department is of the opinion that it will prove to be a satisfactory pavement. Owing to the tremendous automobile traffic on this road, something different from the ordinary macadam road is necessary; and should this "Asphalto" prove a success, appropriations will be needed for continuing it the entire length of the parkway.

Walks and Paths—A new walk and a bicycle path have been laid from the crossing of the New York, New Haven and Hartford Railroad, to the Baychester road. The entire length of the road has been given a coating of screenings. From the bridge to the north side of the parkway, 200 feet of sidewalk was constructed and regraded, 200 yards of fill being carted and used for filling and grading. On the south side of the parkway, 2,300 feet of new sidewalk was completed.

A stone retaining wall 5 feet high, 2½ feet wide at the bottom, and 2 feet wide at the top, is in course of construction on one side of the road leading from Pelham Parkway to Pelham Bridge. Three hundred feet of this wall, which is built to retain the sidewalk, has been completed. Fill is still being carted to bring the sidewalks up to grade.

All the above work, excepting the laying of pavement, has been done by park labor.

Eighteen thousand shrubs were planted on the parkway, from the railroad bridge to Pelham road, and 50 dead trees were removed and replaced with new trees.

Drinking Fountain—Plans have been prepared and have been approved by the Art Commission, for the erection of a very handsome rustic stone fountain on this parkway. The stones are now being selected, and the fountain will be completed early in the coming year.

## Mosholu Parkway.

(Length, 6,035. Width, 600 feet.)

The contract for grading this parkway is nearly completed and the roads practically finished. However, a large sum of money is still required, in order to construct the necessary walks, erect steps at the Webster avenue approach, construct a bridge across the glen, build a road to Decatur avenue, fill in, and grade the entire width of the parkway where the railroad is now located.

On the crest of the parkway, for a distance of three hundred feet, a new grade has been established. This was accomplished by reducing the grade on one side and using the fill thus removed to raise the grade on the other side.

A cobblestone gutter was laid and finished the entire length.

Eighteen hundred feet of Belgian pavement gutter was laid and finished.

Eight-inch drains have been laid across roads, where found necessary.

Drip pans have been hung over the sidewalk under the bridge at Webster avenue.

Extensive planting has been done on this parkway, during the year.

From Webster avenue to the New York, New Haven and Hartford Railroad bridge, a distance of about 300 feet, a roadway has been built and 12-foot sidewalks laid out, making the roadway and walks the same width as the bridge—100 feet. The road was laid with trap-rock, which was napped, rolled, spread with screenings and small rock, sprinkled and again rolled. At the lowest point of this road, two catch basins have been built and connected with an 8-inch pipe drain 10 feet in length.

Fifty elm trees, which died shortly after planting were removed and replaced by new trees.

## Spuyten Duyvil Parkway.

(Length, 11,500 feet. Width, 60-180 feet.)

During the past year, but little work of a permanent nature has been done on this parkway, other than the completion of some walks, and some grading and terracing along the roadway, which was done by park labor.

Six years ago, the work of constructing the new roadway was practically completed, but the sum appropriated was entirely inadequate for the completion of the parkway including the necessary terracing and planting. The traffic on this road is increasing every year, to a very large extent, and the necessity of bringing this work to completion in the near future, is apparent.

## Street Trees.

Early in the year, plans and specifications were prepared for the erection of substantial wire tree guards around all trees in the streets and highways of this borough. One thousand wire guards have been furnished, under contract, and the work of placing them around trees has been done by park labor. So satisfactory has this been to the residents that numerous applications are being made for similar guards by those whose trees have not yet been thus protected.

The trees on the streets and highways of the borough were placed under the care of the Department of Parks several years ago. These trees number about 130,000. A record showing the kind, location, size, and condition of each, has been established, and the trees are being systematically cared for. During the latter part of the year, 38 men have been engaged in pruning trees and in felling and disposing of dead trees.

## Permits.

The following permits were granted during the year for outdoor sports:

Park.	Athletic Field.	Camping.	Base ball.	Croquet.	Foot-ball.	Golf.	Lawn Tennis.

In addition to the above 560 permits were granted for holding May parties, June walks and other outings, in the various parks, the total attendance being 98,750; a few permits for cricket, basket ball, etc., were also granted.

Permits were granted to fifty-two boys to caddy on the golf links in Van Cortlandt Park.

## Band Concerts.

Commencing June 30, band concerts were given until September 1 on Sunday afternoons in Claremont, Pelham Bay, Crotona, St. James and Bronx parks, and on Saturday afternoons in Van Cortlandt, Macomb's Dam, St. Mary's and Franz Sigel parks. The large attendance at these concerts testified to their popularity.

## Miscellaneous.

The bridge at Mosholu parkway was torn down and the old lumber carted to the mill in Bronx Park.

Flower beds were arranged and planted in the various small parks, squares and gores, and in certain sections of the parks bordering on the parkways.

Thirty thousand young plants were transplanted.

A great variety of chrysanthemums were cultivated and staged in the two green-houses in Bronx Park, making a fine showing, which was greatly admired by many visitors.

Ten thousand cuttings were made from geraniums and many other varieties of plants, and were placed in the growing houses.

Fifteen thousand bulbs, such as hyacinths, narcissus, tulips, lilies, etc., were planted and taken to the green-house, to be forced as occasion required.

Trees and shrubs were pruned and cultivated in all the parks.

At University Park seventy-five dead chestnut trees were removed.

The ball field in the rear of the Municipal Building, in Crotona Park, was flooded, making an additional skating pond of large area in the centre of a populous section.

For the first time the hills in Van Cortlandt, Claremont, Crotona and St. Mary's parks were thrown open to children, and thousands of little ones enjoyed this sport, free from the danger of passing vehicles.

## BOROUGH OF RICHMOND.

## LOCAL BOARD, STATEN ISLAND DISTRICT.

Meeting February 19, 1907, 10.30 a. m.

Present—Aldermen Collins and Rendt, President Cromwell and Consulting Engineer Tribus.

The minutes of the meeting of February 5 were approved.

Petition 704. Resolution 58.

To construct sewers in Sewer District 1D. Second hearing.

President Cromwell stated that First avenue, from Sherman avenue to Westervelt avenue, had been included in the plan for immediate construction, as asked by property owners at the preceding meeting of the Board, and the following resolution was moved by Alderman Collins was adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Richmond; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is Resolved, by the Local Board of the Staten Island District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To construct a combined sewer, with appurtenances, in Tompkins avenue, from a point 175 feet north of Arrietta street northerly to a point about 395 feet north of Wall street; in Fort place, from Tompkins avenue to Belmont place; in Monroe avenue, from a point 150 feet north of Richmond turnpike to Fort place; in Montgomery avenue, from a point about 160 feet north of Richmond turnpike to Fort place; in Madison avenue, from First avenue to Fort place, and in Sherman avenue, from First avenue to Fort place, and in First avenue, from Sherman avenue to Westervelt avenue, and to do such other work as may be necessary to the completion of the work described, all being within the district known as Sewer District No. 1D, in the First Ward, Borough of Richmond; and it is hereby

Resolved, That a copy of the resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Affirmative—Aldermen Collins and Rendt and President Cromwell.

Negative—None.

#### Petition 707. Resolution 59.

To construct sewers in Sewer District 8A. Second hearing.

President Cromwell stated that Wall street, from Stuyvesant place to a distance westward, had been included in the plan for immediate construction, as asked by property owners at the preceding meeting of the board, but that Carroll place, for a distance northward from Wall street, could not be included because The City of New York held no title in the street.

Thomas A. Fulton asked for information, and was told that if he would accomplish vestiture of title in the City, and file the necessary petitions with the President of the Borough, the extension of the sewer construction into Carroll place could probably be effected before the outlet sewer was completed.

The following resolution was moved by Alderman Collins and was adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Richmond; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Staten Island District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To construct a combined sewer, with appurtenances, in Jay street, from a point about 200 feet north of South street to the junction of Stuyvesant place with Richmond terrace; in Hamilton avenue, from Jay street to Stuyvesant place; in Wall street, from Jay street to Tompkins avenue; in DeKalb street, from Jay street to Stuyvesant place; in Stuyvesant place, from DeKalb street to Hyatt street; in Hyatt street, from Stuyvesant place to Central avenue; in South street, from Stuyvesant place to bulkhead crib of the Department of Docks and Ferries; and in an easement through the property of the Staten Island Rapid Transit Railroad Company, from Jay street, opposite the foot of Hamilton avenue to the bulkhead of Pier 4 of said railroad company; and a separate sanitary outlet thence to the head of Pier 4; and to do such other work as may be necessary to the completion of the work described; all being within the district known as Sewer District No. 8, in the First Ward, Borough of Richmond; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Affirmative—Aldermen Collins and Rendt, President Cromwell.

Negative—None.

#### Petition 710.

To hear evidence in relation to complaint of an alleged disorderly place at the northeast corner of Bay and Canal streets, Stapleton, Ward 2.

President Cromwell stated that a letter had been addressed to him as President of the Borough and to the Local Board by counsel for the Stapleton National Bank, owner and lessor of the premises in question, with view to a hearing before the Board, in order to an examination into whatever evidence had been the basis for a public denunciation of the place by the Rev. Oliver Paul Barnhill, pastor of the First Presbyterian Church, Stapleton, and he read the letter and his own reply thereto, in which he informed the writer that the Borough President and the Local Board had no authority or jurisdiction in the premises, beyond hearing a complaint and moving a reference to the proper authorities, which were the Police Department and the Excise Department; and he further stated that the Police Department had already investigated the facts and acted thereon, and was now pursuing further investigation; that the excise license had already been revoked, and that, in his opinion, in view of all the facts related, it would be futile for the Local Board to hold a formal hearing or to move a reference of complaint to the proper authorities, since they already had the matter in hand.

E. C. Delavan, Jr., asked to be heard, and stated that, as the Local Board had no power to subpoena witnesses or administer an oath, it was manifestly impossible for it to collect or verify evidence in such a case; and that, if the Stapleton National Bank, as owner and lessor, felt that its property interests were damaged, it had its remedy in a civil action.

President Cromwell suggested and Alderman Rendt moved that the letters as read, be filed, and that a minute be made of the action of the Board and the reasons therefor, which was carried.

#### Petition 708.

To grade and to pave with cement 5 feet wide the sidewalks in Rose avenue, from Richmond road to Tenth street, Ward 4. First hearing.

J. W. Hughes, petitioner, and A. L. Schwab, agent of property, addressed the Board in relation to sections of sidewalk which were above average grade existing. President Cromwell referred to Consulting Engineer Tribus, who stated that Rose avenue had been accepted by the Town of Southfield, and was shown on a map filed in the office of the County Clerk, and that the President of the Borough could therefore pave the sidewalks on resolution of the Local Board, but that he could not grade except on a resolution of the Board of Estimate and Apportionment, which would not adopt such resolution unless the street had been laid out on the map or plan of The City of New York, according to a survey made by the President of the Borough; and he advised that owners be persuaded to grade their own sidewalks, in which event the President of the Borough could regulate and pave on petition and resolution by the Local Board.

Referred to the Bureau of Public Works.

#### Complaint.

In relation to storm water nuisance at the corner of Cedar and Boyd streets, Ward 2.

Michael Curry asked relief from a condition resultant on change of curb line on Cedar street, and Consulting Engineer Tribus stated that the curb line had merely been regulated in the improvement of the street, and that the sidewalks would be regulated in the spring; and Mr. Curry said that he was content to leave the matter in the hands of President Cromwell.

#### Petition 711. Resolution 60.

To construct sewers in Sewer District 16. First hearing.

Sergeant Edward Fulton, John Fleming, Caspar Mojecki and others objected to the limits defined for the sewer construction plan proposed, and asked for further extensions, and were shown that properties represented at the hearing were provided for by the proposal submitted or by plans under way in adjacent districts, except streets not represented in any petitions on file; and petitions to cover such streets were promised.

The following resolution was moved by Alderman Collins, and was adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Richmond; and

Whereas, He has appointed a time for a meeting of the Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same, and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Staten Island District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To construct a temporary sewer and appurtenances in Innis street, from Nicholas avenue to John street, in Grant street, from Innis street to a point about four hundred and twenty-five (425) feet southerly therefrom, and in Sands street, from Innis street to a point about six hundred and seventy-five (675) feet southerly therefrom, to connect with Nicholas avenue sewer at a point about forty (40) feet north of Innis street, and to do such other work as may be necessary to the completion of the work described; all being within the district known as Sewer District No. 16, in the Third Ward, Borough of Richmond; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Affirmative—Aldermen Collins and Rendt, President Cromwell.

Negative—None.

#### Petition 712.

To regulate and grade, to macadamize, to curb and gutter, and to construct sidewalks in Jefferson street, from Cromwell avenue to Sea View avenue, Ward Four. Referred to the Bureau of Public Works to report.

#### Petition 714.

To improve Wandel, Pleasant Valley and Hillside avenues, Ward Two, in relation to storm water drainage. Referred to the Bureau of Public Works.

#### Petition 715.

To construct a sewer in Daniel Low Terrace, from Hamilton avenue to Crescent avenue, Ward One. Referred to the Bureau of Public Works to report.

On motion, the Board adjourned.

MAYBURY FLEMING, Secretary.

#### No. 5. FOR FURNISHING AND DELIVERING ENGINEERING INSTRUMENTS AND SUPPLIES TO THE BUREAU OF SEWERS.

6 22-inch engineer's V levels, according to the following specifications:

The level is to have achromatic terrestrial telescope with the most improved lenses and of the highest standard, 22 inches in length, with dust cap and sunshade, object glass 1 1/4 inches, with rack movement having a compensating spring. Eye-piece to have the micrometer movement, operated by spring pressing against bell crank and spring, and having a lock-nut to

secure the eye-piece in position when set for proper focus. It is to have a fine sensitive spirit level graduated on the glass, adjustable vertically and horizontally. The bar to be of gun metal and shaped to combine greatest strength with least weight. The telescope to be of gun metal and to rest in Y's, one of which being adjustable for altitude and laterally. These Y's to be provided with adjustable hinged stops for so placing the telescope that the cross-hairs are vertical and horizontal. The telescope to be locked in the Y's by an arrangement dispensing with pin bolts or taper pins. The leveling screws to be of German silver. The clamp and tangent screws to be attached to the bar and revolve with it, so that they are always equally accessible. Tangent screws to be of German silver with counter spring.

Each instrument to be packed complete with adjusting pins, waterproof cover, in a nicely polished mahogany box, and to be supplied with a substantial split tripod, "Bureau of Sewers, Borough of the Bronx," to be engraved on the bar of each Y level.

6 transit-theodolites, in accordance with the following specifications:

Transit-theodolite (4 leveling screws). V-shaped standards mounting the telescope to be of one piece and provided with ribs for lateral strength, and to rest directly on the top flange of the inner centre. On top of each bearing of the telescope axis is mounted a cap provided with an adjusting screw regulating the friction of the revolving telescope. These caps are to be removable readily for reversal of telescope over its bearings. Caps to be arranged to exclude dust, etc. Adjustment for movement of the telescope in the vertical plane to be supplied in its most approved form. The bearing surfaces of the telescope axis to be large and bearings of standards supporting telescope axis to be of the V-shaped order, and as per direction. Vertical clamp to telescope. The leveling screws are to be of the large pattern. Telescope, 11 inches focal length, erecting, 1 1/4 inches clear aperture; power, 24 diameters. Horizontal plate, 6 1/4 inches graduation, on solid silver verniers (two), at about 30 degrees with telescope, reading to 20 seconds and fitted with mounted microscopes with reflectors. Microscopes to be screwed into holders with heavy threads. Telescope to have the most improved lenses and to be of the highest standard. Instrument to be polished metal finish. "Bureau of Sewers, Borough of the Bronx," to be engraved on some conspicuous part of the instrument. Substantial split leg tripod of usual form for each transit-theodolite to be supplied. Each instrument to be packed complete with adjusting pins, etc., with a waterproof cover, in a nicely polished mahogany box, without braces. Heads on all instruments to be extra large and deep, and to dimensions to be required. Workmanship on both Y levels and transit-theodolites to be of the best and fully up to the standard instruments now in use in the Topographical Bureau, Borough of the Bronx.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "if any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third Avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before April 21, 1907, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

WILLIAM H. SMITH, Auctioneer.

AT THE REQUEST OF THE PRESIDENT of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines of property owned by The City of New York, acquired for street purposes, in the

##### Borough of Brooklyn.

All the buildings, parts of buildings, etc., standing within the lines of the new street as an approach to Manhattan Bridge, extending from Nassau street to the intersection of Flatbush avenue and Fulton street, in the Fourth, Fifth and Eleventh Wards of the Borough of Brooklyn, City of New York, said property being more particularly shown on a draft damage map dated New York, October 14, 1904, approved by J. W. Brackenridge, Commissioner of Public Works, and being on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held February 20, 1907, the sale of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

MONDAY, MARCH 11, 1907,

at 11 a. m., on the premises, upon the following

##### TERMS AND CONDITIONS.

It being understood that the purchasers, at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for each and every day the removal of the buildings, etc., remains incomplete, after the expiration of sixty days from the day of sale. A copy of said contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check, drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale and of the contract.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls, shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping, shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within sixty days from the day of sale, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain, and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

## SUPREME COURT—FIRST DEPARTMENT.

### FIRST JUDICIAL DEPARTMENT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of certain land and land under water, together with all riparian and wharfage rights and interests appertaining thereto, necessary to be taken for the improvement of the water front and harbor of The City of New York on the Harlem river in the vicinity of Fordham road in the Borough of The Bronx, pursuant to a certain plan heretofore adopted by the Commissioners of Docks and approved by the Commissioners of the Sinking Fund.

**PURSUANT TO THE STATUTES IN SUCH** case made and provided, notice is hereby given that an application will be made to a Special Term of the Supreme Court of the State of New York in and for the First Judicial Department, to be held in Part III. thereof, in the County Court House, in the Borough of Manhattan, in The City of New York, on the 22d day of March, 1907, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon for the appointment of Commissioners of Estimate in the above-entitled matter.

The nature and extent of the improvement hereby intended is the acquisition of title in fee in the name of and for the benefit of The City of New York to certain land and land under water, together with all riparian and wharfage rights and interests appertaining thereto, with the buildings and structures erected thereon, if any, for the improvement of the water front and harbor of The City of New York on the Harlem river in the vicinity of Fordham road, in the Borough of The Bronx, in The City of New York, in the execution of a certain plan for such improvement duly adopted by the Commissioner of Docks on March 28, 1905, and approved by the Commissioners of the Sinking Fund on the 5th day of April, 1905, and which said land and land under water, together with all riparian and wharfage rights and interests appertaining thereto, are bounded and described as follows:

All that certain tract or parcel of land and land under water situate, lying and being in the Borough of The Bronx, in The City of New York, bounded and described as follows:

Beginning at a point in the bulkhead and pierhead line established by the Secretary of War in 1890, where the southerly line of Fordham road intersects the same, and running thence easterly and along said southerly line of Fordham road 283.85 feet to the westerly line of the 40-foot approach to the University Heights Bridge, recently vested in the City on requisition of the Department of Bridges; thence deflecting to the right through an angle of 98 degrees 34 minutes and running southerly along said westerly line 242.66 feet; thence deflecting to the right through an angle of 74 degrees 58 minutes and 2 seconds and running westerly along the northerly line of property recently vested in the City on requisition of the Department of Bridges for a masonry approach to the University Heights Bridge 250.17 feet to the bulkhead and pierhead line established by the Secretary of War in 1890; thence northerly and along said bulkhead and pierhead line 268.13 feet to the point or place of beginning, together with all riparian and wharfage rights and interests appertaining thereto.

—and which said property is shown on the plan above mentioned, adopted by the Commissioner of Docks on March 28, 1905, and approved by the Commissioners of the Sinking Fund on April 5, 1905, and which said plan is on file in the office of the Department of Docks and Ferries.

Dated New York, March 6, 1907.

### FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the open-

ing and extending of ANDERSON AVENUE (although not yet named by proper authority), from West One Hundred and Sixty-fourth street to Marcher avenue, in the Twenty-third Ward, Borough of The Bronx, City of New York.

**WE, THE UNDERSIGNED COMMISSIONERS** of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 1st day of April, 1907, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 4th day of April, 1907, at 11 o'clock a. m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 2d day of April, 1907.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the northerly line of Jerome avenue with a line parallel to and distant 100 feet westerly from the westerly line of Woodcrest avenue; running thence northerly along said parallel line to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of East One Hundred and Sixty-eighth street; thence easterly along said last-mentioned parallel line to its intersection with the westerly line of Marcher avenue; thence southerly along the westerly line of Marcher avenue, and along the westerly line of Jerome avenue, and westerly along the northerly line of Jerome avenue to the point or place of beginning; excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our supplemental and amended final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 17th day of May, 1907, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said supplemental and amended abstracts of estimate and assessment the notice of motion to confirm our supplemental and amended final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

## FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of EAST ONE HUNDRED AND NINETY-SEVENTH STREET (although not yet named by proper authority), from Bainbridge avenue to Creston avenue, in the Twenty-fourth Ward, Borough of The Bronx, City of New York. In re application for damage to Lots Nos. 29 and 22 in Block 3295, and Lot No. 5 in Block 3301.

**BY REASON OF THE DISCONTINUANCE**, abandonment and closing in front thereof of former Williamsbridge road, between Bainbridge avenue and Valentine avenue, in the Twenty-fourth Ward, Borough of The Bronx, The City of New York, we, the Commissioners of Estimate and Assessment in the above-entitled proceeding, having been directed as follows:

First—By order bearing date the 6th of March, 1906, and duly entered in the office of the Clerk of the County of New York, to ascertain and determine the compensation, if any, which upon proof of all the facts should justly be made and legally awarded to Edward M. Platt, for the loss and damage by or in connection with the premises known as Lot No. 29 in Block 3295, by reason of the closing, discontinuance and abandonment of Williamsbridge road, between Bainbridge avenue and Valentine avenue, in front of and adjoining said premises.

Second—By order bearing date the 2d day of February, 1906, and duly entered in the office of the Clerk of the County of New York, to ascertain and determine the compensation, if any, which upon proof of all the facts should justly be made and legally awarded to Jeannie Z. Leggett, for the loss and damage by and in connection with the premises known as Lot No. 22 in Block 3295, by reason of the closing, discontinuance and abandonment of Williamsbridge road, between Bainbridge avenue and Valentine avenue, in front of and adjoining said premises.

Third—By order bearing date the 26th day of March, 1906, and duly entered in the office of the Clerk of the County of New York, to ascertain and determine the compensation, if any, which upon proof of all the facts should justly be made and legally awarded to Howard Haviland, for the loss and damage by or in connection with the premises known as Lot No. 5 in Block 3301, by reason of the closing, discontinuance and abandonment of Williamsbridge road, between Briggs avenue and Valentine avenue, in front of and adjoining said premises.

All the foregoing premises are more particularly described in the petitions on which the said orders were based and filed therewith in the office of the Clerk of the County of New York and are shown on the damage map attached to our abstract of estimate and assessment.

And we, the said Commissioners, having been directed also by the aforesaid orders and by the provisions of chapter 1006 of the Laws of 1895 to ascertain and determine the benefit and advantage to the lands, tenements and hereditaments and premises which shall be benefited by the closing, discontinuance and abandonment of the aforesaid Williamsbridge road, between Bainbridge avenue and Valentine avenue.

Fourth—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 13th day of March, 1907, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office

on the 14th day of March, 1907, at 12 o'clock m. Fifth—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 14th day of March, 1907.

Sixth—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, and being all that part of Williamsbridge road, being Lot No. 24 in Block 3295, bounded by East One Hundred and Ninety-eighth street, East One Hundred and Ninety-sixth street, Bainbridge avenue and Briggs avenue, and all that part of Williamsbridge road, being Lot No. 12 in Block 3301, bounded by East One Hundred and Ninety-eighth street, East One Hundred and Ninety-sixth street, Briggs avenue and Valentine avenue.

Seventh—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan in The City of New York, on the 6th day of May, 1907, at the opening of the Court on that day.

Eighth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

In the matter of acquiring title by The City of New York to certain lands and premises situated on the SOUTHERLY SIDE OF PARK AVENUE, between Kent avenue and Taaffe place, in the Borough of Brooklyn, duly selected as a site for school purposes, according to law.

**WE, THE UNDERSIGNED COMMISSIONERS** of Estimate in the above-entitled matter, appointed pursuant to the provisions of the statutes relating thereto, hereby give notice to the owner or owners, lessee or lessees, parties or persons respectively entitled to or interested in the lands, tenements, hereditaments and

premises, title to which is sought to be acquired in this proceeding, and to all others whom it may concern, to wit:

First—That we have completed our estimate of the loss and damage to the respective owners, lessees, parties and persons interested in the lands or premises affected by this proceeding or having any interest therein, and have filed a true report or transcript of such estimate in the office of the Board of Education of The City of New York, at Park avenue and Fifty-ninth street, Borough of Manhattan, City of New York, for the inspection of whomsoever it may concern.

Second—That all parties or persons whose rights may be affected by the said estimate and who may object to the same or any part thereof, may, within ten days after the first publication of this notice, March 8, 1907, file their objections to such estimate, in writing, with us, at our office, Room 92, Franklin Trust Company Building, No. 166 Montague street, in the Borough of Brooklyn, in said City, as provided by statute, and that we, the said Commissioners, will hear parties so objecting at our office, on the 21st day of March, 1907, at 2 o'clock in the afternoon, and upon such subsequent days as may be found necessary.

Dated the Borough of Brooklyn, City of New York, March 8, 1907.

### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

#### NOTICE TO CONTRACTORS.

#### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
