The Applicant, Westfarms Realty LLC and 1480 Sheridan Realty LLC (two entities under control of Simone Development), is seeking the approval of four discretionary actions including a zoning map amendment, zoning text amendment, zoning authorization, and financing for affordable housing from the New York City Department of Housing Preservation and Development (HPD). The proposed development, located in the Crotona Park East neighborhood of Bronx Community District 9, would include three buildings totaling 866,017 gross square feet (gsf) across two development sites: Block 3107, Lot 74 (1460 Sheridan Boulevard, Projected Development Site 1) and Lot 29 (1480 Sheridan Boulevard, Projected Development Site 2). Lot 74 would be redeveloped with a 24-story, 263,862 gsf building containing approximately 304 dwelling units, all of which are proposed to be affordable, and 5,000 gsf of ground floor retail; Lot 29 would be redeveloped with two 24-story buildings totaling 602,155 gsf, containing 666 affordable dwelling units, 16,229 gsf of retail and 100 accessory parking spaces. The Mandatory Inclusionary Housing (MIH) program would require a portion of units to be permanently affordable. The development would provide 55,949 sf (1.28 acres) of publicly accessible waterfront open space along the Bronx River. The proposed buildings would be 225 feet tall (roof height) with mechanical bulkheads reaching a maximum height of approximately 240 feet. The Proposed Actions may facilitate redevelopment of additional lots within the Rezoning Area that are not controlled by the Applicant; therefore, the EAS considers a future with-action scenario that also includes one potential development site comprising Block 3107, Lots 60, 65, and 68 (Potential Development Site A).

Specifically, the Proposed Actions include:

- **Zoning map amendment** to rezone Block 3107, Lots 29, 60, 65, 68, 74, and portions of Lots 6 and 20 (the "Rezoning Area"), from an M1-1 light manufacturing district to an R7-3 medium density residential district with a C2-4 commercial overlay (R7-3/C2-4).
- **Zoning text amendment to the New York City Zoning Resolution (ZR)** to:
  - o Section 62-92 (Waterfront Access Plans) to establish the Bronx River Waterfront Access Plan (WAP); and
  - o Appendix F (Inclusionary Housing Designated Areas and Mandatory Inclusionary Housing Areas) to establish the Rezoning Area as a Mandatory Inclusionary Housing (MIH) area. At this time, the Applicant is proposing MIH Options 1, 2, and 3.
- **Waterfront Zoning Authorization**, pursuant to ZR Section 62-822 to modify requirements for the locations of waterfront public access areas and visual corridors.
- **Affordable housing financing** from the Department of Housing Development and Preservation (HPD) to develop two buildings with fully affordable residential components on the Applicants' development sites.

The proposed development would require discretionary waterfront actions from the New York State Department of Environmental Conservation (NYSDEC) and the U.S. Army Corps of Engineers (USACE). Environmental review of the Proposed Actions will be coordinated with HPD, NYSDEC, and USACE. The proposed

development also would require one non-discretionary ministerial action by the City Planning Commission: a waterfront zoning certification pursuant to ZR Section 62-81 to demonstrate compliance with applicable waterfront zoning regulations.

The Analysis Year for the Proposed Actions is 2031.

**SANITATION**

■ NOTICE

**CITYWIDE ADMINISTRATIVE PROCEDURE ACT  
REGULATORY AGENDA FY 2023**

**PURSUANT TO SECTION 1042 OF THE NEW YORK CITY CHARTER, THE NEW YORK CITY DEPARTMENT OF SANITATION SETS FORTH BELOW ITS REGULATORY AGENDA FOR THE CITY'S FISCAL YEAR OF 2022 COMMENCING JULY 1, 2022 THROUGH JUNE 30, 2023:**

**SUBJECT AREA: RULES GOVERNING REQUIREMENTS RELATING TO THE PROVISION OF WASTE COLLECTION SERVICE BY CERTAIN PRIVATE HAULING COMPANIES TO**

**BUSINESS ESTABLISHMENTS WITHIN COMMERCIAL WASTE ZONES**

**REASONS FOR RULE:** In November 2019 comprehensive waste reform legislation to reform the private carting industry in New York City was signed into law. Local Law 199 of 2019 authorizes the Department to create a commercial waste zone system in New York City for the collection and removal of solid waste and recyclable materials generated by businesses in such newly-created waste collection zones throughout the City. The Department may promulgate new rules that are consistent with the local law as may be necessary.

**SUMMARY OF ANTICIPATED CONTENT:** Pursuant to Local Law 199, the Department may promulgate rules under Title 16 of the Rules of the City of New York to carry out the mandates of Local Law 199, including rules governing customer service for commercial establishments, operational requirements for private carting companies, health and safety protective measures for private carting employees, and recycling and organics requirements, following its creation of 20 designated commercial waste zones across New York City in the first half of 2020.

**SUMMARY OF OBJECTIVES:** The Department may promulgate rules governing private carter and business customer practices consistent with the implementation plan for comprehensive reform of the commercial waste industry. The rules will improve and enhance the City's regulatory practices pertaining to commercial waste collection, transport and disposal in the City.

**INDIVIDUALS AND ENTITIES LIKELY TO BE AFFECTED BY PROPOSED RULE:** Private waste hauling carters and generators of commercial waste who receive private carting collection service.

**RELEVANT FEDERAL, STATE AND LOCAL LAWS AND RULES APPLICABLE TO PROPOSED RULE:**

- (a) Title 16 of the Rules of the City of New York; and
- (b) *City Administrative Procedure Act:* New York City Charter Section 1043.

**SCHEDULE FOR ADOPTION:** Fiscal Year 2023.

**SUBJECT AREA: RULES GOVERNING THE ESTABLISHMENT OF A PENALTY MITIGATION PROGRAM FOR CERTAIN FOOD SERVICE ESTABLISHMENTS WHICH DONATE EXCESS FOOD**

**REASONS FOR RULE:** Local Law 74 of 2018 requires the Sanitation Commissioner to review violations enforced by the Department against certain small businesses to establish a penalty waiver program.

**SUMMARY OF ANTICIPATED CONTENT:** Local Law 74 of 2018 was enacted as part of efforts by the Administration and the City Council to improve the local regulatory climate for small businesses. Specifically, Local Law 74 requires the Sanitation Commissioner to review violations enforced by the Department and study the feasibility of establishing a program for which civil penalties imposed by notices of violation issued to food service establishments and retail establishments may be waived through a penalty mitigation program. Such penalty mitigation program would allow the waiver of payment of civil penalties for a food service establishment that donates its excess food to a non-profit organization, and a retailer that provides public access to its bathrooms.

The Department reviewed all violations it currently enforces and determined one such infraction that would be feasible for penalty mitigation relating to sign requirements for employees instructing them how to source separate food waste material in large food service establishments in the City's commercial organics program.

**SUMMARY OF OBJECTIVES:** The Department may promulgate a rule allowing certain food generator businesses covered by the city's commercial organics program to waive into the penalty mitigation program contemplated under Local Law 74 by donating its excess food to a non-profit entity. This is consistent with the Department's goal to facilitate food recovery for food-challenged New Yorkers, reduces the environmental impact on the City's food system, and is an appropriate link between the violation infraction and penalty waiver activity.

**INDIVIDUALS AND ENTITIES LIKELY TO BE AFFECTED BY PROPOSED RULE:** Commercial food waste generators and private carters that furnish collection service to them.

**RELEVANT FEDERAL, STATE AND LOCAL LAWS AND RULES APPLICABLE TO PROPOSED RULE:**

- (a) Section 1-10 of Title 16 of the Rules of the City of New York governing commercial organics recycling requirements;

- (b) Section 16-306 (c)(1)(iv) of the New York City Administrative Code; and

**SUBJECT AREA: COMMERCIAL WASTE REMOVAL -- RULES RELATING TO COMMERCIAL GENERATORS OF "INFREQUENT" OR "INSIGNIFICANT AMOUNTS" OF WASTE PURSUANT TO SECTION 16-116(c) OF THE NEW YORK CITY ADMINISTRATIVE CODE:**

**REASONS FOR RULE:** Section 16-116(a) of the New York City Administrative Code requires commercial establishments in New York City to arrange for the removal of solid waste by a licensed private carter or by obtaining a trade waste permit from the New York City Business Integrity Commission allowing the establishment to dispose of its own solid waste. Section 16-116(c) authorizes the Sanitation Commissioner to promulgate rules exempting from this requirement any commercial establishment that generates infrequent or insignificant amount of waste. Section 1-06 of Title 16 of the Rules of the City of New York currently allows commercial establishments generating less than 20 gallons of trade waste within a seven day period to be exempt from the requirements outlined in Section 16-116(a) and (b) of the New York City Administrative Code. This has resulted in some commercial establishments improperly placing out their trade waste material at the curb for the Department to collect, or improperly placing such material in Department corner litter baskets.

**SUMMARY OF ANTICIPATED CONTENT:** A proposed rule would require that all commercial establishments, regardless of the quantity of waste or recyclable material generated, must retain a private carter to collect and remove trade waste generated at such establishment for proper disposal.

**SUMMARY OF OBJECTIVES:** The Department may amend section 1-06 of Title 16 of the Rules of the City of New York to clarify that all commercial establishments, regardless of the amount of waste generated, must arrange with a private carter for removal of such waste and recyclable material.

**RELEVANT FEDERAL, STATE AND LOCAL LAWS OR RULES APPLICABLE TO THIS PROPOSED RULE:**

- (a) Section 1-06 of Title 16 of the Rules of the City of New York;
- (b) Section 16-116 of the Administrative Code of the City of New York;
- (c) Section 753(a) of the New York City Charter relating to the Commissioner's authority to promulgate rules governing the removal of solid waste;
- (d) City Administrative Procedure Act: New York City Charter Section 1043.

Owners, lessees and/or persons in control of any commercial establishment.

**SUBJECT AREA: VARIOUS PLAIN LANGUAGE AMENDMENTS**

**REASONS FOR RULE:**

Working with the City's rulemaking agencies, the Law Department, OMB, and the Office of Operations conducted a review of the City's existing rules, identifying those rules that should be repealed or modified to reduce regulatory burdens, increase equity, support small businesses, and simplify and update content to help support public understanding and compliance. This proposed rule meets the criteria for this initiative.

**SUMMARY OF ANTICIPATED CONTENT:**

The Department will modify its rules to incorporate plain language changes that were identified during the retrospective rules review conducted by the City.

**SUMMARY OF OBJECTIVES:** Modification of such rules will help to reduce regulatory burdens, increase equity, support small businesses,

and simplify and update content to help support public understanding and compliance.

**SUBJECT AREA: RECEPTACLE REQUIREMENTS FOR YARD WASTE AND ORGANICS**

**REASONS FOR RULE:**

The Department may establish specifications relating to the size and dimension for organics receptacles, similar to what is already in place for refuse and recycling receptacles. This would allow the Department to provide decals as it currently does for mixed paper and metal, glass and plastic containers used by residents. It would also expand the types of bags that would allowed for the disposal of lawn, leaf and plant material.

**SUMMARY OF ANTICIPATED CONTENT:**

The Department may amend its rule to establish specifications for receptacles for organics. Additionally, the rule may expand the types of bags that lawn and leaf material may be used for disposal.

**SUMMARY OF OBJECTIVES:** The Department may amend section 1-08 of Title 16 of the Rules of the City of New York to establish specifications for receptacles used in its organics program and also expand the types of bags permitted to be used for the disposal of lawn and leaf material.

**RELEVANT FEDERAL, STATE AND LOCAL LAWS AND RULES APPLICABLE TO PROPOSED RULE:**

**SUBJECT AREA: RULES DEFINING COMPOSTABLE MATERIAL**

**REASONS FOR RULE:** Local Law 64 of 2021 restricts food service establishments, such as restaurants, cafes, delis, bars, grocery stores and food trucks, from providing single-use plastic straws, stirrers, or splash sticks to customers. Food Service Establishments may only provide compostable plastic straws. This rule would set forth standards a material must meet in order to be considered compostable.

**SUMMARY OF ANTICIPATED CONTENT:** Local Law 64 was enacted to help prevent plastic waste by restricting food service establishments, such as restaurants, cafes, delis, bars, grocery stores and food trucks, from providing a single-use plastic straw, stirrer, or splash stick to customers. Providing single-use plastic stirrers or splash sticks is prohibited. Non-compostable, single-use plastic straws are to be provided only upon request of the customer. Food Service Establishments may only provide compostable plastic straws.

This law defines compostable as (i) capable of undergoing biological breakdown in an industrial composting process, (ii) degradable into biomass that results in a material that is safe and desirable as a soil amendment and (iii) where applicable, as set forth in rules of

the department: (A) compliant with ASTM D6400, ASTM D6868 or successor standards or other applicable standards developed by ASTM or other international standards organizations that specify criteria relating to the degradation of manufactured items into safe and environmentally beneficial material and (B) approved by a third-party field testing organization that has tested the item at issue to ensure that it is degradable into biomass that results in a material that is safe and desirable as a soil amendment.

The Department’s rule would set forth the procedure for verification of standards for compostable materials and for third party testing to confirm a material is compostable.

**SUMMARY OF OBJECTIVES:** The Department may promulgate a rule further defining compostable by setting forth standards a product must meet in order to be considered compostable in order to ensure that products used by New York City businesses would be capable of being discarded as part of New York City’s organics programs. -

**INDIVIDUALS AND ENTITIES LIKELY TO BE AFFECTED**

**BY PROPOSED RULE:** Food Service Establishments and Manufacturers of Compostable Products.

**RELEVANT FEDERAL, STATE AND LOCAL LAWS AND RULES APPLICABLE TO PROPOSED RULE:**

- (a) Chapter 4 of Title 16 of the New York City Administrative Code; and
- (b) City Administrative Procedure Act: New York City Charter Section 1043.

**Name, Description and Location of Proposal:**

1460-1480 Sheridan Boulevard

The Applicant, Westfarms Realty LLC and 1480 Sheridan Realty LLC (two entities under control of Simone Development) is seeking the approval of four discretionary actions including a zoning map amendment, zoning text amendment, zoning authorization, and financing for affordable housing from the New York City Department of Housing Preservation and Development (HPD). The proposed development, located in the Crotona Park East neighborhood of Community District 9, would include three buildings totaling 866,017 gross square feet (gsf) across two development sites: Block 3107, Lot 74 (1460 Sheridan Boulevard) and Lot 29 (1480 Sheridan Boulevard). Lot 74 would be redeveloped with a 24-story, 240-foot-tall, 263,862 gsf building containing approximately 304 dwelling units, all of which would be affordable units pursuant to the Mandatory Inclusionary Housing (MIH) program, and 5,000 gsf of ground floor retail; Lot 29 would be redeveloped with two 24-story, 240-foot buildings totaling 602,155 gsf, containing 666 affordable dwelling units, 16,229 gsf of retail, and 100 accessory parking spaces. The development would provide 55,949 sf (1.28 acres) of publicly accessible waterfront open space along the Bronx River. The proposed buildings would be 225 feet tall (roof height) with mechanical bulkheads reaching a maximum height of approximately 240 feet. The Proposed Actions may facilitate redevelopment of additional lots within the Rezoning Area that are not

controlled by the Applicant; therefore, the EAS considers a future with-action scenario that also includes one potential development site comprising Block, 3107, Lots 60, 65, and 68.

Specifically, the Proposed Actions include:

- **Zoning map amendment** to rezone Block 3107, Lots 29, 60, 65, 68, 74, and portions of Lots 6 and 20 (the “Rezoning Area”), from an M1-1 light manufacturing district to an R7-3 medium density residential district with a C2-4 commercial overlay (R7-3/C2-4).
- **Zoning text amendment to the New York City Zoning Resolution (ZR)** to:
  - o Section 62-92 (Waterfront Access Plans) to establish the Bronx River Waterfront Access Plan (WAP); and
  - o Appendix F (Inclusionary Housing Designated Areas and Mandatory Inclusionary Housing Areas) to establish the Rezoning Area as a Mandatory Inclusionary Housing (MIH) area. At this time, the Applicant is proposing MIH Options 1, 2, and 3.
- **Waterfront Zoning Authorization** pursuant to ZR Section 62-822 to modify requirements for the locations of waterfront public access areas and visual corridors.
- **Affordable housing financing** from the Department of Housing Development and Preservation (HPD) to develop two buildings with fully affordable residential components on the Applicants’ development sites.

The proposed development would require discretionary waterfront actions from the New York State Department of Environmental Conservation (NYSDEC) and the U.S. Army Corps of Engineers (USACE). Environmental review of the Proposed Actions will be coordinated with HPD, NYSDEC, and USACE. The proposed development would also require one non-discretionary ministerial action by the City Planning Commission: a waterfront zoning certification pursuant to ZR Section 62-81 to demonstrate compliance with applicable waterfront zoning regulations.

Absent the Proposed Actions, the future no-action scenario assumes that the existing conditions in the Rezoning Area would remain. Current uses include an automobile mechanic training facility, an open parking facility with accessory buildings, a three-story hotel, and a vacant industrial building. In the last decade, the surrounding area has been transformed from manufacturing and low-density residential uses to higher density mixed-use residential and commercial development, much of it with an affordable housing component. In the no-action scenario there would be no incentive to redevelop the area with M1-1 allowable uses, and existing conditions would remain.

The Proposed Actions would result in an incremental increase of 824,788 gsf of residential space (970 DU, all affordable), and 21,229 gsf of retail space, as well as a net reduction of 39,137 gsf of warehouse space and 325 parking spaces on the Applicant-owned development sites. There would be a net increase of approximately 55,949 sf of waterfront public open space. The Proposed Actions would result in an increase of 2,735 residents and a net increase of 83 workers.

The Analysis Year for the Proposed Actions is 2031.

**Statement of Significant Effect:**

On behalf of the CPC, the Environmental Assessment and Review Division has determined, pursuant to 6 NYCRR Part 617.7, that the Proposed Actions may have a significant effect on the quality of the environment as detailed in the following environmental impacts, and that an environmental impact statement will be required: land use, zoning and public policy; socioeconomic conditions; community facilities; open space; shadows; historic and cultural resources; urban design and visual resources; natural resources; hazardous materials; water and sewer infrastructure; transportation; air quality; greenhouse gas emissions and climate change; noise; public health; neighborhood character; and construction.

The Proposed Actions would not have significant adverse impacts related to solid waste and sanitation services, and energy.

**Supporting Statement:**

The above determination is based on an Environmental Assessment Statement prepared for the Proposed Actions which finds that:

1. Land Use, Zoning and Public Policy – The Proposed Actions would result in new land uses and a change in zoning. The Rezoning Area is within the Coastal Zone boundary and will require a consistency assessment with the NYC Waterfront Revitalization Program (WRP).
2. Socioeconomic Conditions – The Proposed Actions would introduce more than 200 residential dwelling units to the Project Site and could result in indirect residential displacement.
3. Community Facilities – The Proposed Actions would introduce 970 new residential dwelling units and would

- increase demand at public schools, publicly funded child care facilities and libraries.
- 4. Open Space – The Proposed Actions would introduce new residential populations that could increase demand for use of publicly accessible spaces.
- 5. Shadows – The Proposed Actions would introduce buildings of a maximum height of 240 feet in the vicinity of nearby sunlight sensitive resources, including the Bronx River and Starlight Park.
- 6. Historic and Cultural Resources – The Proposed Actions could result in new construction within close proximity to known architectural and archaeological resources.
- 7. Urban Design and Visual Resources – The Proposed Actions could result in physical changes to the Rezoning Area beyond the bulk and form currently permitted as-of-right. These proposed changes could affect a pedestrian’s experience of public space.
- 8. Natural Resources – The Proposed Actions would result in construction on sites adjacent to a natural resource, the Bronx River.
- 9. Hazardous Materials – The Proposed Actions could result in new construction and in-ground disturbance within the Rezoning Area, which has a documented history of hazardous materials conditions.
- 10. Water and Sewer Infrastructure – The Proposed Actions could result in an increase of 970 dwelling units in the Bronx, and would involve development on sites located within the Bronx River drainage area that are larger than one acre, where the amount of impervious surface may increase.
- 11. Solid Waste and Sanitation Services – The Proposed Actions would not have the potential to generate 50 tons or more of solid waste per week and would not involve a reduction of capacity at a solid waste management facility.
- 12. Energy – The Proposed Actions would not affect the transmission or generation of energy. Although significant adverse energy impacts are not anticipated for the Proposed Actions, the EIS will disclose the projected amount of energy consumption during long-term operation of development in the future with-action scenario.
- 13. Transportation – The Proposed Actions would generate vehicular traffic and increase demand for parking, pedestrian traffic and subway and bus riders.

- 14. Air Quality – The Proposed Actions would have the potential to create new mobile and stationary sources of pollutants and introduce new emissions stacks so that changes in the dispersion of emissions from the stacks may affect surrounding uses.
- 15. Greenhouse Gas Emissions and Climate Change – The Proposed Actions could generate greenhouse gas emissions.
- 16. Noise – The Proposed Actions would introduce new noise-sensitive receptors in an area with existing high ambient noise levels and would generate vehicular traffic.
- 17. Public Health – The Proposed Actions could result in effects related to air quality, hazardous materials or noise, and consequently public health may be affected.
- 18. Neighborhood Character – The Proposed Actions could affect land use, urban design visual resources, historic resources, socioeconomic, transportation, and noise; consequently, the affected area’s neighborhood character may be affected.
- 19. Construction – The construction period for the Proposed Actions would be longer than two years, which is considered long term, and would occur on sites adjacent to a natural resource and public open space. As such, construction activities could affect the surrounding area.

**Public Scoping:**

The CEQR lead agency hereby requests that the applicant prepare or have prepared, at their option, a Draft Environmental Impact Statement (DEIS) in accordance with 6 NYCRR 617.9(b) and Sections 6-08 and 6-12 of Executive Order No. 91 of 1977 as amended (City Environmental Quality Review).

**A public scoping meeting has been scheduled for Monday, June 13, 2022 at 2:00 PM.** In support of the City’s efforts to contain the spread of COVID-19, DCP will hold the public scoping meeting remotely. To join the meeting and comment, please visit NYC Engage (<https://www1.nyc.gov/site/nycengage/events/index.page>). Written comments will be accepted by the lead agency through 5:00 P.M., Thursday June 23, 2022.

This determination has been prepared in accordance with Article 8 of the Environmental Conservation Law.
