During the early part of this quarter all the public buildings were inspected and made ready for winter, awnings were taken down, storm doors and storm steps were put up, and weather strips put on windows and doors.

Painters have been employed redecorating, painting and varnishing in the different buildings.

The plumbing in all buildings has been regularly inspected and repairs made wherever necessary.

Additions, alterations and repairs have been made to the electrical equipment in the various buildings.

Alterations of partitions in buildings and offices, and general repairs to wood-work have been made by the Carpenters.

The buildings under the supervision of this bureau have been regularly cleaned, heated and kept in a comfortable condition.

The number of people using the interior bath located in 8th st., Long Island City, increases yearly and proves a great convenience to the residents of this section.

Owing to lack of funds, many requests for office furniture and fittings could not be granted. The furniture, fittings, etc., in use, have been repaired and kept in the best condition possible.

REPORT OF THE TOPOGRAPHICAL BUREAU.

Report of the work done by the Topographical Bureau for the quarter.

Before proceeding to a detailed description of the work done by this office, a few words regarding its duties and organization may facilitate a better understanding of the details of this report.

The work of this bureau falls naturally into two divisions. First (to quote from the Greater New York Charter), "To prepare a map of that part of the territory embraced within the Borough of which a map or plan has not heretofore been finally established and adopted," and, second, make surveys and maps required by Commissioners of Estimate and Assessment.

For the better prosecution of this work the force of this office is similarly divided into two divisions, one division charged with the preparation of the final map of the Borough, the other division charged with all work incidental to street opening proceedings.

The division charged with the preparation of the final map of the Borough is subdivided into three corps:

Monumenting Corps—Charged with all the surveys and field work incidental to the preparation of the final map and the monumenting of the Borough.

Computing Corps—Charged with all the computations incidental to the preparation of the final map of the Borough.

Drafting Corps—Charged with all drafting work required to prepare the final maps.

The division charged with the preparation of the maps required by the Commissioners of Estimate and Assessment is subdivided into two corps:

Surveying Corps—Charged with all the field work necessary to the preparation of the maps required by the Commissioners.

Office Corps—Charged with all the computations and drafting necessary for the preparation of the maps required by the Commissioners.

In addition to the several corps mentioned above, we have a small corps engaged in gathering data and making reports concerning the legal status of the various streets in the Borough.

The following detailed description of the work done by this bureau is arranged according to the work performed by these several corps.

Hon. WILLIAM J. GAYNOR, Mayor, and Chairman of the Commissioners of the Sinking Fund:

Sir—I respectfully beg to withdraw this department's communication of May 14, 1913, requesting the adoption of a resolution by the Commissioners of the Sinking Fund, directing that title to the property between the foot of Fulton street and the foot of 66th street, Borough of Brooklyn, vest in The City of New York on the day after the filing of the oaths in the office of the clerk of the county where proceedings for the acquisition of such property are pending, of the Commissioners of Estimate and Assessment in such proceedings appointed; also this department's communication of May 15, requesting authority to institute condemnation proceedings for the acquisition of property between the foot of Fulton street and the foot of 66th street, Borough of Brooklyn.

The approval by the Governor of the Walker-Cullen bill (Chapter 521 of the Laws of 1913) makes action by the Sinking Fund unnecessary. Yours very truly, R. A. C. SMITH, Commissioner of Docks.

In view of the above, the advertised hearings in regard to both matters were withdrawn, and so announced at this time.

The Board took a recess, and proceeded to the Mayor's office, where it reconvened. His Honor the Mayor presiding.

The following report was received from the select committee appointed by the Commissioners of the Sinking Fund, relative to the allotment of space in the new Municipal building:

May 5, 1913.

To the Honorable Board of Sinking Fund Commissioners of The City of New York:

On June 12, 1912, on June 26, 1912, and also on December 12, 1912, your Honorable Board, following the suggestions contained in reports of this Committee, assigned space in the the Municipal building to various city departments. Of the space so assigned, certain allotments were definite, both in location and in the amount of space, and certain other allotments were approximate in amount and tentative in location.

The total amount of space in the building available for assignment is now 702,055 square feet; 4,518 square feet available in basement, plus 700,297 square feet (per report dated June 30, 1911, by Ralph M. Comfort, B. Ar., Consulting Expert on Space Efficiency and Interior Equipment; transmitted by McKim, Mead & White, Architects, with accompanying layouts) equalling 704,815 square feet (per this Committee's report dated December 3, 1912), less 2,760 square feet since required for elevator purposes.

The space heretofore definitely allotted is 541,383 square feet; 668,203 square feet previously reported, minus the sum of 66,814 square feet reserved for definite consideration, and 60,006 square feet tentatively located with approximate amounts.

Your committee respectfully recommends modification of previous definite allotments to departments, as follows:

	Square Feet.
Department of Finance—	
Fifth floor	5,135
Third floor	842
	5,977
Third floor (deduct)	690
Second floor (deduct)	690
	1,380
Add.....	4,597
The change of allotment on second and third floors is due to the taking of necessary further space for elevator purposes, as mentioned above.	
The allotment on fifth floor is for filing (which may be provided in this space two tiers high).	
Board of Estimate and Apportionment—	
Thirteenth floor (revised)	15,806
Thirteenth floor (previous)	13,122
Add.....	2,684

The change of allotment on thirteenth floor is to provide additional space for office of Secretary, for Bureau of Franchises, and for Division of experts.

Standard Testing Laboratory—	
Twenty-fifth floor (previous)	7,934
Twenty-fifth floor (revised)	5,396

Deduct..... 2,538

The change of allotment on twenty-fifth floor is necessary to provide sufficient space for the Department of Water Supply, Gas and Electricity and the Department of Docks and Ferries.

Making a net addition of 4,743

Your committee respectfully recommends definite allotments to the departments for which space was reserved, as follows:

	Square Feet.
Department of Water Supply, Gas and Electricity—	
Twenty-third floor	26,265
Twenty-fourth floor	20,115
Twenty-fifth floor	10,742
	57,122
Department of Docks and Ferries—	
Twenty-fourth floor	9,166
Twenty-fifth floor	8,809
	17,975

Housing this department in the Municipal Building and surrendering that portion of Pier A, North River, at present used by it will make possible the turning over of the entire pier for commercial use, if at the same time the Police Department (joint occupant of the pier with the Department of Docks and Ferries), shall surrender the portion used for police purposes.

Making a total of 75,097

Your committee respectfully recommends definite allotments to the departments heretofore tentatively located, as follows:

Department.	Floor.	Area.
Armory Board	9	1,437
Art Commission	20	Omit.
Board of Ambulance Service	9	1,533
Board of Inebriety	13	2,083

Second floor south	4,049
Municipal Reference Library—	
Fifth floor	8,063
Fourth floor	1,224
	9,287

Making a total of..... 13,336

Your Committee respectfully recommends that the spaces remaining vacant (after the allotments made in June and December, 1912, and as herein recommended), be held unassigned to provide for as yet undeveloped requirements, due to unforeseen growth, temporary Boards or Commissions, and the accommodation of such privileges as barber shop, tobacconist, etc., as may be admitted to the building by your honorable Board, as follows:

	Area Sq. Ft.
Second floor, north	568
Third floor, south	2,132
Fifth floor, centre	2,660
Ninth floor, centre	1,121

Making a total of..... 15,691

Your Committee respectfully recommends that the vacant space on:

	Sq. Ft.
Fifth floor, centre	2,660

—be reserved for assignment to the purposes of a barber shop. The allotments, made and as herein recommended, provide space for all the City Departments and Bureaus which it is contemplated will occupy the building. The floor spaces, allotted and recommended, and the vacant spaces, making up the total amount of space in the building available for assignment, are shown in the Architect's tabulations, drawings and diagram (dated May 5, 1913, Ralph M. Comfort, B. Ar., Consulting Expert), submitted by the Commissioner of Bridges, herewith, as follows:

Tabulations.

Diagram.

Allotment diagram of entire building showing locations of Departments on the various floors.

Your Committee begs to report that, as a result of the Expert's study under the Architects' special contract therefor approved by this Committee after recommendation by the Commissioner of Bridges, your Honorable Board has been able to assign to the Municipal Building 22 additional City Departments or Bureaus with about 2,000 additional persons (beyond those tentatively decided upon September 30, 1910, to occupy the entire building) in the space saved therein (about 200,000 square feet space for additional Departments, vacant space and additional spaces for further needs of original Departments) under convenient and efficient housing and working conditions; and, as this saved space (with the exception of about 15,000 square feet which is vacant and available for further departmental or rental purposes), is fully occupied by the additional Departments, the saving of the space, with the vacating of

outside quarters, has saved the City a rental value amounting to about \$400,000 per annum. Respectfully submitted,

WM. A. PRENDERGAST, Comptroller; R. R. MOORE, Chamberlain; HENRY S. THOMPSON, Commissioner of Water Supply, Gas and Electricity; ARTHUR J. O'KEEFE, Commissioner of Bridges, Ex-officio; Select Committee on Allotment of Space in the New Municipal Building.

TERMS AND CONDITIONS OF SALE.
The work to be done is to fill in with suitable material as hereinafter described the area behind the new bulkhead wall extending from the southerly side of E. 124th st. southerly a distance of 120 feet, and extending inshore a distance of about 165 feet to the present stone wall along the easterly side of Pleasant ave.

The purchaser will be required to place the filling in accordance with the following specifications:

All of the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore.

All material must be dumped and filled in only in such manner, at such points, and in such order of procedure, and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

The purchaser shall provide all plank and other appliances and all necessary labor, and shall at all times keep the dump graded to the satisfaction of the Engineer.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Chief Engineer of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held April 17, 1913, a communication was received from the Public Service Commission for the First District transmitting resolutions adopting route and general plan of construction for a proposed rapid transit railway in the Borough of Manhattan, known as Park Avenue-Lexington Avenue Connection at Fortieth Street, and requesting the approval and consent of this Board thereto.

By resolution duly adopted on that date the consideration was fixed for April 24, 1913, when it was continued until May 22, 1913, when it was continued until June 5, 1913, and on that day was continued until June 12, 1913, at 10.30 o'clock a. m., in Room 16, City Hall, Borough of Manhattan, when all persons interested will have an opportunity to appear and be heard.

Dated New York, June 5, 1913. j7,12

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held this day the following communication was received from the Public Service Commission for the First District, submitting for approval amended plans and conclusions for an additional rapid transit railway in the Borough of Queens, known as "Flushing Route."

To the Board of Estimate and Apportionment of The City of New York:

The route and general plan of construction adopted by this Commission on April 22, 1913, for an additional rapid transit railroad in the Borough of Queens, known as the Flushing Route, provided that the route should extend over private property, the Flushing River and intersecting streets to private property in the block bounded by Amity street, DeLong street, Redwood street and Lawrence street, where the route passes from an elevated structure to a subway or tunnel. A copy of the resolutions adopted by the Commission on April 22, 1913, establishing the route and general plan of construction for the Flushing Route was duly transmitted to your honorable Board, but said resolutions have not been approved or consented to.

As a result of conferences held with representatives of your honorable Board, the Commission now understands that it is proposed to change the grade for that portion of Roosevelt avenue west of the Flushing River and to widen that part of Amity street west of Lawrence street, so that the route may be continued along Roosevelt avenue to Amity street, wherein the portal for the change from elevated to subway construction may be built, thus making it unnecessary to construct said portal on private property. Accordingly the Commission now transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of resolutions adopted by it on the 3d day of June, 1913, rescinding and revoking those portions of its said resolutions of April 22, 1913, establishing the route and general plan of construction for the Flushing Route, and in lieu thereof establishing a new route and general plan of construction for an additional rapid transit railroad, to be also called the Flushing Route. Except for the change referred to above, the route now adopted is exactly the same as the one adopted on April 22, 1913.

Dated New York, June 5, 1913.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by EDWARD E. McCALL, Chairman.

Attest:

TRAVIS H. WHITNEY, Secretary.

—and thereupon the following resolutions were adopted:

Resolved, That the communication be received and, in pursuance of law, this Board fixed Thursday, June 12, 1913, at 10.30 o'clock a. m., and Room 16, City Hall, Borough of Manhattan, as the time and place when and where such plans and conclusions will be considered, and all citizens interested will have an opportunity to appear and be heard; and be it further

Resolved, That the Secretary of this Board be and he is hereby directed to cause notice of such consideration to be published in the City Record.

PROPOSED FORM OF CONTRACT.

This Contract, made this day of 1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the New York Quotation Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to lay, construct, maintain and operate suitable wires or other electrical conductors under the streets and avenues within that portion of the Borough of Manhattan lying south of a line beginning at a point on the Hudson River on a line with the northerly side of Chambers street; running thence easterly along the northerly side of Chambers street to the northerly side of New Chambers street on a line therewith; thence continuing easterly along the northerly side of New Chambers street to the easterly side of James slip; thence southerly along the easterly side of James slip to a point on the shore of the East River in line therewith, for the purpose of electrically connecting its places of business with each other and with other offices and places of business of persons, firms and corporations so as to allow of the distribution of stock and bond quotations and dividend and other notices over the said wires to printing telegraph instruments, commonly known as "stock tickers," and for no other purpose whatsoever.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits, for the purpose aforesaid, shall be held and enjoyed by the Company for the term of fifteen (15) years from January 1, 1913, with the privilege of renewal of said contract for a further period of ten (10) years, upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the

three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

1. The sum of ten thousand dollars (\$10,000) in cash within thirty (30) days after the date upon which this contract is signed by the Mayor.

2. For past use and occupation of the streets of the City a sum at the rate of eight thousand dollars (\$8,000) a year from April 24, 1912, to the date of the signing of this contract by the Mayor.

3. During the first term of five (5) years, an annual sum which shall in no case be less than eight thousand dollars (\$8,000) and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of eight thousand dollars (\$8,000).

4. During the second term of five (5) years, an annual sum which shall in no case be less than ten thousand dollars (\$10,000) and which shall be equal to four (4) per cent. of its gross annual receipts, if such percentage shall exceed the sum of ten thousand dollars (\$10,000).

5. During the remaining term, an annual sum which shall in no case be less than twelve thousand dollars (\$12,000) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of twelve thousand dollars (\$12,000).

The annual charges shall commence from the date on which this contract is signed by the Mayor.

All annual charges as above shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the moneys due when this contract is signed by the Mayor shall be paid into the Treasury of the City within thirty (30) days immediately following such date; and provided further that the first annual payment thereafter shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, shall be valid or effectual for any purpose, unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Upon the termination of this original contract, or, if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the wires and equipment of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its wires and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall construct, maintain and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City and in strict compliance with all laws or ordinances or departmental rules and regulations now in force, or which may be adopted, affecting companies operating electrical conductors in the City.

No construction or repair of said electric system shall be commenced until written permits have been obtained from the proper City officials. In any permit so issued, such officials may impose such conditions, as a condition of the granting of the same, as are necessary for

the purpose of protecting any structures in the streets and avenues and the proper restoration of the surface of such streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

Upon the completion of any work of construction the Company shall furnish to the President of the Borough a plan of such character as he may direct, showing accurately and distinctly the location, size and type of construction and complete dimensions of the structures erected, installed or constructed under this contract and the location and dimensions of all substructures encountered during the progress of the work. The depth below the street surface of the new structure and of the substructures encountered must be shown; also their location with reference to the nearest curb line and the nearest curb line intersection.

The electrical and other equipment to be installed by the Company, whether the same be under streets and avenues, in any Department of the City or in private property, shall be constructed and maintained subject to the approval and under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Seventh—The plant, conduits, wires, conductors, connections, instruments and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner and with the most modern and improved appliances, and it is hereby agreed that the Board may require the Company to improve or add to its plant, conduits, wires, conductors, connections, instruments and appurtenances, from time to time, as such additions or improvements are necessary in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine. Nothing herein contained shall be deemed to affect the patent rights of the Company or the patented devices used or in the future to be used by it in the operation of its system.

Eighth—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as subways). Such subways shall be leased from the company or companies having control thereof under the provisions of law, or from the City should it succeed to the rights of such company or companies. If the City shall construct or acquire subways for electrical conductors of the character or tension of those used by the Company or similar companies, in the Borough of Manhattan, the Company hereby agrees to lay its wires and conductors in such subways and the City agrees to lease to the Company such space as may be necessary and available for the operation of the system hereby authorized. No cables or wires shall in the future be strung above the surface of the streets and avenues by the Company and those at present in existence shall be removed and placed underground when and where required by the Board or the Commissioner of Water Supply, Gas and Electricity.

Ninth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant.

Tenth—The Company shall, upon request from any individual, firm or corporation occupying or owning premises in the territory in which the Company is authorized to operate by this contract, not personally in arrears to it for services already rendered, and who shall be designated by the sender of the stock and bond quotations and dividend or other notices requested by the applicant and transmitted by the Company, extend its wires to such premises and transmit such stock and bond quotations and dividend or other notices to such individual, firm or corporation so designated. The Company shall also, upon request of any financially responsible individual, firm or corporation, occupying or owning premises in the territory in which the Company is authorized to operate by this contract, not personally in arrears to it for services already rendered, undertake to, and transmit for such individual, firm or corporation, stock or bond quotations and dividend or other notices furnished it by such individual, firm or corporation for that purpose to such individuals, firms and corporations as may be designated by the sender thereof, provided that such service shall not be required to be furnished in any given case until after the expiration of a reasonable time for procuring and installing the necessary equipment and apparatus for rendering such service, and provided further, that when the undertaking of the transmission of such messages shall require the installation of additional plant and equipment the Company may require the individual, firm or corporation, hereinbefore referred to, to enter into such agreement with respect to the length of time for which the said service is contracted as may be fair and reasonable.

Eleventh—The Company shall file with the Board on the first day of November in each year a map or plan upon which shall be plainly and separately indicated the number of wires which were in use by the Company on September 30 preceding, and the streets in which the same are located, and also those which were put in use during the year preceding that date. It shall also file with the Department of Water Supply, Gas and Electricity, on or before the tenth day of each month, a map or plan of the locations in which wires have been placed by it during the preceding month.

Twelfth—The rates to be charged by the Company shall not be in excess of the following, and it is agreed that the same may be altered or changed by the Board, as hereinafter provided:

(a) For transmitting financial news, including stock and bond quotations received from the New York Stock Exchange and including the use of one printing telegraph or ticker during such period as financial news may be transmitted to a designated recipient, the sum of twenty dollars a month or two hundred and forty dollars (\$240) a year.

(b) For any other service authorized by this contract furnished or to be furnished by the Company at the request of any person, partnership, corporation or exchange the rates charged shall be reasonable and fair and before being put into effect shall be submitted to the Board for its approval. In the event that it shall be necessary for the Company in order to undertake to render such additional or other service, to install plant or equipment additional to that at present in use, the rates to be charged may be such as to enable the Company during the life of the contracts for the furnishing of such additional or other service, to receive a return of the moneys so invested by it in such additional plant and equipment and a fair and reasonable profit on such investment.

The Company agrees, upon request of the Board, to transmit messages addressed to any department or bureau of the City where no additional equipment need be installed by the Company, save the laying of wires and installation of tickers, free of charge.

Thirteenth—During the term of this contract, or any renewal thereof, the Board shall have the power, by resolution, to regulate and fix the maximum and minimum rates to be charged by the Company in the City, provided such rates shall be reasonable and fair.

Fourteenth—The Company shall not require nor receive from the individuals, firms or corporations to which it transmits stock or bond quotations or dividend or other notices, any

deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate whenever such money is held for more than one month. Unpaid bills, unless due from its owner, shall never be charged against property, and no person not himself in arrears shall be denied service because any previous occupant of the same premises is in arrears to the Company for service.

Fifteenth—The wires of the Company shall be employed for no other purpose than those explicitly set forth herein and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

Sixteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Seventeenth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions in the territory covered by this contract, or any part thereof.

Eighteenth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars (\$100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Nineteenth—If for a period of six consecutive months the system of the Company shall not be operated, or if the same shall not be operated for a period of nine months out of any consecutive twelve months, the Board may declare the right and franchise and this contract terminated without further proceedings at law or in equity.

Twentieth—The Company shall at all times keep accurate books of account and shall, on or before November 1 in each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding. Such report shall contain a statement of the gross receipts of the Company, together with such other information and in such form and detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Twenty-first—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors and officers elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number and location of premises served by the Company and number of instruments in each.
16. Total receipts of the Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-second—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of fifteen thousand dollars (\$15,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privileges hereby granted, in default of which payment of the annual charges, the City shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company.

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, furnishing of service to applicants, as herein provided, or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of the contract, or under the authority of any laws, ordinances or departmental regulations now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars (\$50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller

to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of fifteen thousand dollars (\$15,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-third—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board, by resolution of said Board, which said resolution may contain a provision to the effect that the system constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such cases such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-fifth—The words "notice" or "direction," wherever used in this contract shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-sixth—The words "streets and avenues" or "streets or avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, included within the limits of the territory in which the Company is hereby authorized to operate.

Twenty-seventh—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues of the territory in which the Company is authorized to operate by this contract.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

The City of New York, acting by the Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct section No. 4 of Route 5, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

The general plan of construction calls for a subsurface railroad having four tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

The contractor will be required to prosecute the work of construction from working shafts located at the points specified in the contract.

Bidders must examine the form of contract and the specifications, maps and plans; must

visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of this contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 24th day of June, 1913, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 5, Section No. 4," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or State bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal, shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the contractor will be required to furnish security to the City by giving a bond for seventy-five thousand dollars (\$75,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons mak-

ing the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with. The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land of the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
