79-43

Special Permit for Limited Bulk Modifications for Certain Large-scale Community Facility Developments

For #large-scale community facility developments# located within the boundaries of Community Districts 8 and 12 in the Borough of Manhattan, that contain #community facility uses# specified in Section 73-64 (Modification for Community Facility Uses), the City Planning Commission may, by special permit, ~~permit modification of regulations relating to height and setback on the periphery of the #large-scale~~

community facility development#, #courts# and distance between windows and walls or #lot lines# not otherwise allowed in Section 79-21 (General Provisions). As a condition for such action, allow modifications to the following provisions set forth in paragraph (a) of this Section, provided that the findings in paragraph (b) are met.

- (a) The Commission may allow modifications:
 - (1) to regulations relating to height and setback on the periphery of the #large-scale community facility development#, #courts# and distance between windows and walls or #lot lines# not otherwise allowed in Section 79-21 (General Provisions); and
 - (2) additionally, in R9 and R10 Districts, located within Community District 8:
 - (i) to #lot coverage#; and
 - (ii) to #sign# regulations.
- (b) In order to grant such special permit, the Commission shall find that such modification:

 - (b)(2) will provide a more satisfactory physical relationship to the existing #buildings# which form the #large-scale community facility development#, and provide a more efficient and integrated site plan;
 - (c)(3) will better complement the existing character of the neighborhood;
 - (d)(4) will not unduly increase the #bulk# of #buildings# in any #block# to the detriment of the occupants or users of #buildings# in the #block# or nearby #blocks#; and
 - (e)(5) will not adversely affect any other #zoning lots# or #streets# outside the #large-scale community facility development# by unduly restricting access to light and air; and
- (6) in R9 and R10 Districts located within Community District 8:
 - (i) with regard to #lot coverage#, will result in a better site plan and a better relationship among #buildings# and open areas; and
 - (ii) with regard to #sign# modifications:
 - (a) a signage plan has been submitted showing the location, size, height, and illumination of all #signs# on the #zoning lot#;
 - (b) the modifications are consistent with the amount and location of the #large-scale community facility development# that the Commission finds appropriate on the #zoning lot#; and
 - (c) #illuminated signs#, if provided:
 - (1) utilize an illumination type, and are located and oriented in a manner so as to minimize any negative effects on nearby #residences#; and
 - (2) do not alter the essential character of the adjacent area.

The Commission may prescribe additional conditions and safeguards to improve the quality of the #large-scale community facility development# and to minimize adverse effects on the character of the surrounding area.

DDC's Technology and Innovation Division is developing a module specifically for processing EWA requests. This system will manage the intake, review, submission to the Construction Allowance and Change Orders (CACO) Team and Engineering Audit Office (EAO) for review and approval. Designed to provide a comprehensive workflow, it enables Infrastructure Office Engineers, Resident Engineers, Engineers in Charge, as well as Public Building's Project Managers, Deputy Directors, and Directors to review, submit, and make returns as necessary. This electronic module aligns with DDC's new objective of improving capital delivery by ensuring faster and more efficient processes. By introducing a pre-funded contingency with specific limitation and a systematic request process, the City can shorten the time between a field condition change order submission and the actual vendor payment. This reduces the financial strain on vendors, leading to faster payments, minimized project hold-ups, and reduced contract pricing costs related to work financing.

NYC PATHWAYS TO INDUSTRIAL AND CONSTRUCTION CAREERS

- Negotiated Acquisition - Other - PIN# 06923N0071001 - AMT: \$2,453,233.86 - TO: Research Foundation of the City University of New, 230 West 41 Street, New York, NY 10036.

New York City Human Resources Administration (HRA) has received a grant from the US Economic Development Administration (EDA) Good Jobs Challenge program. In partnership with other City agencies, local nonprofits, and employers in the Industrial and Construction sectors, HRA is implementing its Good Jobs Challenge program as NYC Pathways to Industrial and Construction Careers (NYC PINCC). NYC PINCC's a guiding strategy and framework designed to align and connect elements of the city's workforce system. NYC PINCC's primary goal is to support participants in target populations who will participate in training in these sectors. The mission is to lead participants into stable employment with family-supporting wages and advancement opportunities. At each level of the program, participants are provided with support services while gaining the education, skills, credentials, and experience that will prepare participants in the program to become part of a skilled talent pipeline for these in-demand employment sectors. The City University of New York Research Foundation (CUNY RF) will provide the last 24 months of the grant, bridge programming and industrial training programming for clients.

CUNY RF has been selected as one of the sub-awardees by EDA to provide bridge programming for clients with little to no job experience related to employment opportunities and industrial training programming to support clients in earning stackable credentials in-demand occupations through NYC PINCC (NYC Pathways to Industrial and Construction Careers). CUNY will offer participants sector-specific trainings within the grant period distributed throughout CUNY's campuses. 2. Negotiation is required due to a time-sensitive situation where a vendor must be retained quickly because funds available (100% federal) from a source outside the City will be lost to the City, and because there are a limited number of vendors available and able to perform the work. 3. Special case is pursuant to Sections 3-04(b)(2)(i)(b) and 3-04(b)(2)(ii) of the PPB Rules.

NOTICE OF INTENT TO ENTER INTO NEGOTIATIONS - TENNIS PROS

- Negotiated Acquisition - Judgment required in evaluating proposals - PIN# CWTB-2024 - Due 7-8-24 at 5:00 P.M.

In accordance with Section 1-14 of the Concession Rules of the City of New York ("Concession Rules"), the New York City Department of Parks and Recreation ("Parks") intends to enter into a negotiated concession for permit agreements for the Operation of Tennis Professional Concessions at Various Locations Citywide. The selected operator will be permitted to give tennis instruction during the times that the tennis court is open for use.

The concession will have a term not to exceed five (5) years. The concession will be operated pursuant to a permit issued by Parks; no leasehold or other proprietary right will be offered. As compensation to the City, Parks anticipates receiving a permit fee, expressed as a guaranteed annual minimum fee. The available locations are:

Bronx X39-TP: Pelham Bay Park X104-TP: Williamsbridge Oval

Brooklyn B28-TP: Dyker Beach Park (Due to construction, the permit will be for 4 years. The construction timeline and dates are subject to change) B51-TP: William E. Kelley Memorial Park B129-TP: Kaiser Park

Queens Q413-TP: Rochdale Park

At this time, it is neither practicable nor advantageous to award these concessions by competitive sealed proposals or competitive sealed bids as the current outdoor tennis season is currently underway and ends on November 24, 2024. If Parks were to issue either a competitive sealed proposal or competitive sealed bid, there would not be enough time left in the current season for successful operations. As these locations did not receive any bids on the most recent competitive sealed bid solicitation, the sites remain vacant and the community is without permitted tennis instructors. Additionally, with the absence of permitted concessionaires on site, this invites illegal vendors to fill the void. For these reasons, it is in the best interest of the City to pursue a negotiated concession for these locations.

Potential concessionaires that would like to express interest in the proposed concession and/or obtain additional information concerning the concession may contact Andrew Coppola, Senior Project Manager for the Revenue Division, at (212) 360-3454 or via e-mail at Andrew.

Coppola@parks.nyc.gov by July 8, 2024. Thereafter, there will be a process for submission of fee offers. Parks will select the highest fee offers to the City from the responsible and responsive applicant while also taking into account the extent to which the potential awardee concessionaires would be operating or providing instruction at a similar concession on Parks property during all or part of the term of the concession, in determining an award of the concession on the subject premises. In no event shall a potential awardee (or principal(s) of a potential awardee) have more than two concessions total from this or any other solicitation during all or part of the term of the concessions. At Parks' request, the applicant shall submit documentation, satisfactory to Parks, demonstrating that it has the necessary certifications and the financial capability to pay the fees set forth in its fee offer. Failure to provide such documentation will result in a determination of non-responsiveness.

Where applicable, Parks may condition the award of this concession upon the successful completion of PASSPort (the Procurement and Sourcing Solutions Portal) Questionnaires and review of that information by the Department of Investigation. In addition, any person or entity with at least a 10% ownership interest in the submitting vendor (including a parent company), may be required to complete PASSPort Questionnaires (Principal Questionnaire for any person and Vendor Questionnaire for any entity with at least a 10% ownership interest in the submitting vendor).

This concession has been determined not to be a major concession as defined by Chapter 7 of the Rules of the City Planning Commission.

Please note that the concession award is subject to applicable provisions of federal, State, and local laws and executive orders requiring affirmative action and equal employment opportunity.

The New York City Comptroller is charged with the audit of concession agreements in New York City. Any person or entity who believes that there has been unfairness, favoritism or impropriety in the proposal process should inform the Comptroller, Office of Contract Administration, 1 Centre Street, New York, NY 10007, telephone number (212) 669-2323.

Please address any questions and/or correspondence relating to the potential concession award to Andrew Coppola, Senior Project Manager for the Revenue Division, at (212) 360-3454 or via e-mail at Andrew.Coppola@parks.nyc.gov (Office of the Revenue Division, City of New York Parks, The Arsenal-Central Park, 830 Fifth Avenue, Room 407, New York, NY 10065).

AGENCY RULES

TAXI AND LIMOUSINE COMMISSION

■ NOTICE

Notice of Promulgation

Notice is hereby given in accordance with section 1043(b) of the New York City Charter ("Charter") that the Taxi and Limousine Commission ("TLC") promulgates amendments to its rules that 1) require the Technology System Providers to reimburse the Driver Incentive TIF/SHLIF payment directly to the driver 2) permit medallion owners to place a used Wheelchair Accessible Vehicle into service while eliminating the vehicle retirement requirement for Wheelchair Accessible Vehicles 3) extend the Americans with Disabilities Act (ADA) vehicle specification standards, which currently apply to taxicabs, to accessible For-Hire Vehicles, and 4) require licensed drivers re-take Passenger Assistance and Wheelchair Accessible Vehicle On-Demand training courses under certain circumstances.

This rule is promulgated pursuant to sections 1043 and 2303 of the Charter and section 19-503 of the Administrative Code of the City of New York. This rule was published in the City Record on April 8, 2024 for public comment. On May 8, 2024, a public hearing was held virtually by the TLC and the rule as adopted by the Commission on June 12, 2024.

STATEMENT OF BASIS AND PURPOSE OF RULE

The TLC is promulgating rules that will take proactive steps to facilitate the agency's long-term commitment to accessibility for all New Yorkers. Due to the financial state of the medallion industry over the last several years, which was aggravated by the pandemic, coupled with the TLC's mandate to have 50% of the medallion fleet comprised of Wheelchair Accessible Vehicles, it is incumbent upon the TLC to ensure the continued commitment to accessibility.

A larger rule proposal was originally contemplated for which a hearing was held on May 8, 2024. However, due to the ongoing federal litigation in the *Taxis for All Campaign, Inc., et al. v. New York City Taxi and Limousine Commission, et al.*, the TLC has determined that it is not currently feasible to increase the allocation of the TIF fees to medallion owners and drivers for initial hack-up and operational payment subsidies. TLC may re-examine the possibility of a potential increase in TIF subsidies at a later date.

The amended rules will:

- Eliminate the scheduled vehicle retirement dates for new and used Wheelchair Accessible Vehicles placed into service, in addition to currently licensed Accessible Taxicabs (vehicles must still pass regularly scheduled inspections).
- Permit the conversion of used vehicles to Wheelchair Accessible Vehicles in accordance with the TLC's existing Accessible Vehicle specifications.
- Clarify TLC's re-hacking rules to ensure that medallions eligible for re-hacking new vehicles adhere to TLC's existing accessibility requirements.
- Require Technology System Providers to streamline the process of returning the TIF driver incentive payment per fare directly to the driver.
- Create consistency among the industry sectors by requiring accessible For-Hire Vehicles to meet the same Americans with Disabilities Act standards that are required of taxicabs.
- Require TLC Drivers to re-take the Passenger Assistance and Wheelchair Accessible Vehicle Training ("Re-Training course") at a TLC-approved Education Provider upon investigated and founded complaints of drivers violating their duties to passengers using wheelchair accessible vehicles (WAVs).
- Require applicants for a TLC Drivers License to take the Passenger Assistance and Wheelchair Accessible Vehicle Training again as a condition of licensure upon renewal.

The Commission's authority for this rule is found in section 2303 of the New York City Charter and section 19-503 of the Administrative Code of the City of New York.

- (3) The vehicle is included in the list of Commission approved vehicles posted on the TLC Web site.

Section 11. Subdivisions (b) and (d) of section 67-06 of Title 35 of the Rules of the City of New York are amended to read as follows:

(b) Putting Vehicle into Service the First Time. A Taxicab Model may be Hacked-up for use as a Taxicab, only if it:

- (1) Is new, having fewer than 500 miles on the odometer and is one of the manufacturer's two latest vehicle model years (Example: If in calendar year [2008] 2022 the manufacturer introduces the [2009 Caprice] 2023 Camry, only [2009] 2022 and [2008] 2023 [Caprices] Camrys may be Hacked-up); or

- (3) Compressed Natural Gas Vehicle. The owner of a Medallion (or the owner's agent) may transfer a vehicle fueled by Compressed Natural Gas to any other Medallion owned by the same owner.
- (4) Transfer of Medallion and Vehicle. A vehicle which is in use with an Independent Medallion and is not at its Scheduled Retirement Date can continue in use with that Medallion following the transfer of that Medallion until its Scheduled Retirement Date if it passes all inspections and if the vehicle meets all of the following:
 - (i) the vehicle is acquired by a Transferee of an Independent Medallion together with that Medallion from the Transferor of that Independent Medallion and
 - (ii) the vehicle was operated by the Transferor of that Independent Medallion with that Medallion.

Example (1)

If a medallion is currently affixed to an Accessible Vehicle and has completed its required 4-year Accessible Taxicab cycle, the medallion may be re-hacked with a used non-Accessible Vehicle, since the next cycle would permit the use of a non-Accessible Taxicab.

Example (2)

If the medallion is currently affixed to a non-Accessible Vehicle, pursuant to section 58-50 of these Rules, the medallion may only be re-hacked with a used Accessible Vehicle once the non-Accessible vehicle is removed from service.

NOTICE OF PUBLIC INPUT SESSION

The New York City Charter Revision Commission ("CRC") will host a second round of Public Input Sessions in all five boroughs to discuss proposed changes to the New York City Charter and recommendations made in the 2024 Charter Revision Commission Preliminary Report (available June 24, 2024 at www.nyc.gov/charter). A vote by the Commission to accept the recommendations of the preliminary report is anticipated at the June 26, 2024 public meeting.

What is this Forum & Public Input Session about?

The New York City Charter ("Charter") provides the structure of City government and key powers of City elected officials and agencies. The CRC is empowered to review the entire Charter. It may recommend changes that would help City government to work more efficiently and better serve all New Yorkers.

The public is invited to testify about any matter of importance to City government, to suggest changes to the Charter, and share feedback on the Commission's Preliminary Report. You can find out more about the New York City Charter Revision by visiting us at our website: www.nyc.gov/charter.

Who can give input?

These meetings are open to the public, and the public will have the opportunity to testify before members of the Commission.

Any member of the public may testify about their ideas for improving the City Charter, for up to three (3) minutes. The Commission will hear testimony from people who attend the meeting in person and also from people who attend by Zoom. A group, organization or institution wishing to testify shall select a single designated representative. New Yorkers from any of the five boroughs may testify. The CRC will attempt to accommodate everyone who signs up to speak at this hearing, but if time does not permit that, the public is encouraged to utilize other opportunities to testify at subsequent public input sessions of the CRC or submit written comments to charterinfo@citycharter.nyc.gov.

Is there a deadline to submit written comments?

The public may submit written comments to charterinfo@citycharter.nyc.gov instead of or in addition to testifying live at a hearing. Written testimony must be received by 5:00 P.M. on Friday, July 12.

When and where are the hearings?

RFI FOR POTENTIAL SOLE SOURCE FOR SAVANT-JUSTICE SYSTEM DATA FUSION SERVICES

Historically, data produced by separate, siloed sources in NYC's criminal justice system has been used to inform decisions made across the public safety spectrum. Unpacking those data feeds to understand how they relate to each other is quite labor intensive, and without standardization across data sources, identifying trends and making resource investment decisions has been challenging to accomplish with precision. As the Department of Correction (DOC), the Office of Court Administration (OCA), Criminal Justice Agency (CJA), among others, have made significant investments in improving their data capacity, they have remained siloed sources of information, which in turn, limits the ability to use their data effectively. The 2020 legislative reforms to the New York State Criminal Procedure Law (CPL), however, significantly altered NYC's criminal justice landscape and thereby increased the urgency of developing a cohesive data infrastructure. MOCJ seeks to facilitate the enhancement, integration, and standardization for NYC justice data. This infrastructure build-out will not only provide the offices better information with respect to case processing, justice programs, jail population, and other key public safety infrastructure, but will also provide greater insight into the state of the criminal justice system as a whole by allowing for easier analysis of data.

To build out a data infrastructure, MOCJ seeks to contract with Luminosity because it is the only source for the infrastructure needed in the timeframe it must be executed unless a provider can show they have the capabilities to do so. Luminosity is uniquely situated to build out this much needed public safety data infrastructure because of their familiarity with the data collected by the City, and used by MOCJ and other City justice agencies for the past seven years. As a subcontractor to MOCJ's contract with the Criminal Justice Agency (CJA), Luminosity's data analysts have worked with NYPD, DOC, and MOCJ programmatic data, and have a strong command of the programming and requirements underpinning that data collection and infrastructure, which they helped build. Over the past 7 years, Luminosity has developed a detailed data cleaning and optimization database model for NYC-specific data streams. This was generated through the successful completion of three distinct pretrial database projects in NYC, including MOCJ, the Bronx District Attorney's Office, and CJA. MOCJ's project involved working in the City's AWS data warehouse to integrate court and pretrial services data, generate 198 pretrial metrics, and create internal facing dashboards using Tableau (MOCJ's preferred visualization software). Further, Luminosity uses its proprietary tool, Savant-Justice System Data Fusion, to develop the infrastructure for the DAs MOCJ seeks to build-out. Savant-Justice System Data Fusion is a tool that has been revised and optimized over the past five years, and that Luminosity has used to develop a data model that generates key pretrial performance metrics. This model has been created to evaluate NY State's 2020 criminal justice reform, which significantly changed the public safety landscape in New York City. These systems took years and many iterations to develop and cannot be replicated by another vendor in the timeframe in which MOCJ needs to build out this essential data infrastructure. Services Sought For these reasons, MOCJ seeks to contract Luminosity for the following services: 1. Develop a data infrastructure that tracks a standardized set of metrics for quality assurance, data integration, and policy coordination at MOCJ and available as needed for adaptation and integration to coordinating agencies; 2. Create a data warehouse of data feeds across the public safety spectrum, including the DAs, OCA, NYPD, DOC, MOCJ pretrial, ATI, and reentry as the next iteration of the existing infrastructure currently siloed at respective sources; 3. Standardize and clean data (e.g., remove redundant or superfluous files); 4. Define terms and metrics for the evaluation of data and analysis; and 5. Produce data models and dashboards in a timely and uniform fashion for easier consumption and evaluation by decision-makers.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.
