Boiler Squad.

The Boiler Squald is empowered by law to inspect and subject all steam boilers carrying over ten pounds of steam to the square inch to a hydrostatic test once a year, and to examine and qualify engineers and firemen to operate them.

The force of the Boiler Squad consists of twelve members of the uniformed force, three deputy clerks, two civilian boiler inspectors and four civilian drivers, under command of a Lieutenant.

Two members of the uniformed force who are practical engineers are assigned to examine applicants for engineers' and firemen's certificates, and to hear and determine charges preferred against engineers and firemen for neglect of duty. There are nine boiler inspectors, seven are members of the uniformed force and two are civilians.

DEPARTMENT OF HEALTH.

REPORT FOR THE WEEK ENDING APRIL 11, 1914.

MORE SMALLPOX.

Exposed to a patient who was discovered last week with smallpox at 446 Central Park West, Charity Davis, colored, twenty-two years old, living at 9 W. 137th st., has been found by Department of Health Inspectors to be suffering from smallpox. The young woman was employed as a laundress in the family visited by Mrs. Oldham, the smallpox patient who arrived from Jacksonville, Florida, about ten days ago. The Davis girl was exposed from March 18 to March 23 and was vaccinated on March 27 for the first and only time. The eruption was first noticed on April 4. The vaccination therefore came too late to give full protection, but that a considerable degree of protection was obtained, is shown by the fact that her smallpox was of the mildest possible type. There were only a few pustules and practically no subjective symptoms whatever. The patient was at once removed to the isolation hospital.

Physicians of the Department of Health vaccinated the people living in the house where the Davis girl lives and they also looked up all those who might have been exposed to the disease.

With the enormous commercial intercourse which this City has with all parts of the country, with people constantly arriving from infected districts by train and steamship, the people of this City are exposed to smallpox infection whenever the disease is prevalent in other parts of the country.

Physicians should do all in their power to encourage vaccination and should impress upon their patients the fact that vaccination is the one sure preventive of smallpox.

FOOD SHOULD BE PROTECTED AGAINST FLIES AND DUST.

In accordance with the provisions of section 46, the Department has recently formulated rules and regulations for the protection of food in lunch rooms, restaurants, etc. It is the intention of the Department to wage a vigorous campaign against careless and indifferent shop-keepers and others handling food sold to the public.

The Police Commissioner has promised the co-operation of his Department in the enforcement of these regulations, and Patrolmen are to be instructed accordingly. A committee is now engaged in preparing a form of "Extracts from the Sanitary Code, With Instructions to Police Officers." This form will be submitted to the Police Commissioner with a request that it be edited from the police standpoint and then printed and distributed to his force.

All citizens can help in this work by promptly reporting instances which come under their observation where the Department of Health's regulations are being violated.

LEGISLATION AGAINST FRAUDULENT ADVERTISING.

The Board of Aldermen has finally passed the bill introduced by Hon. William H. Chorosh which provides that anyone who publishes an advertisement containing assertions, representations or statements which are untrue, deceptive or misleading, shall be subject to a fine (of not less than $25), or imprisonment (not less than five days or more than six months) or by both fine and imprisonment.

In Chicago, a similar ordinance has proven most effective in a campaign directed against venereal quack advertisers, and steps are being taken by the Department of Health to make similar use of the new law in this City.

REPORTING OF INFECTIOUS DISEASES.

The Department has recently undertaken studies to discover whether the physicians in any one borough are negligent about reporting infectious diseases. Some knowledge concerning the degree to which cases are reported can be obtained from a study of case fatalities. A high case fatality in any one part of the city may be due to an unusually virulent type of disease or to the fact that fewer cases of the disease are being reported, whereby the number of deaths, in proportion to the smaller number of cases, causes a high case fatality. The following figures are taken from the records for the year 1913 and give the case fatality of five reportable diseases in the Borough of Queens as compared with the figures for the entire city:

	New York City.		Queens		Case Fatality.	
	Cases	Deaths.	Cases.	Deaths.	N. Y. City.	Queens.
Diphtheria	14,535	1,333	1,003	88	9.17	8.77
Scarlet Fever	10,719	507	839	46	4.73	5.48
Measles	29,163	628	1,718	29	2.15	1.88
Typhoid	2,643	362	163	24	13.70	14.72
Pulmonary Tuberculosis	22,671	8,601	980	419	37.94	42.93

It will be noticed that the case fatalities in diphtheria, scarlet fever, measles and typhoid fever do not differ markedly in the two communities. In fact, in both diphtheria and measles, they are somewhat less than the corresponding figures for the entire city. In pulmonary tuberculosis, however, the calculated case fatality is noticeably higher in the Borough of Queens, and, as there is no reason whatever for believing this disease to be more fatal in the Borough of Queens than in the city at large, it is probable that there is some negligence in reporting tuberculosis in that borough.

The Bureau of Records looks up each death from tuberculosis to see whether the case has previously been reported. During 1913, in the Borough of Queens, 11 per cent. of the cases of pulmonary tuberculosis (representing 105 cases) came to the knowledge of the Department of Health only at the time of death and had not previously been reported as cases.

HE WATERED THE MILK; NOW IN JAIL.

A representative of a large milk company in Brooklyn complained to the Department recently that one of its drivers was apparently watering their milk and requested the assistance of the Department. Two inspectors were immediately detailed to keep the driver under observation. On February 20th, they watched him deliver a can of milk to a baker and saw him return after a short time with a can, which they presumed was filled, since the driver had considerable difficulty in loading it on the wagon. After driving on a short distance, the driver was observed taking water out of a can and pouring the same into a can containing milk. The inspectors watched him for a moment, and then arrested him in the midst of his nefarious operations. The driver was taken to the Magistrate's Court, where he was held in bail for trial. Subsequently, at the Court of Special Sessions, he pleaded guilty to violating Section 53 of the Sanitary Code and was sentenced to thirty days in the City Prison.

TRAINING OF MIDWIVES.

There appears to be some misunderstanding as to the attitude of the Department of Health relative to the supervision and training of midwives. Until within a few years ago, there was practically no supervision whatever of midwives in this City, and the Department of Health undertook this supervision merely to insure that women, not properly qualified, would not attempt to practice midwifery. In due course, Bellevue Hospital established a training school for midwives and adopted, after the result of many conferences in which experts participated, a curriculum based on a six-months' course of training. This course is undoubtedly better than anything that has heretofore been available in this part of the country, and the Department of Health, therefore, felt bound to encourage those desiring to become midwives to take the course at Bellevue Hospital.

The objection has been made that a six-months' course is too short a time to provide adequate training. This objection is based on ideal rather than on practical conditions. For the present, conditions are such that we should be satisfied if prospective midwives take a course which is, in all essentials, equal to the Bellevue course.

The Department of Health believes that the supervision and training of midwives should be undertaken by the State and the Department will withdraw whenever the State assumes this duty. In the meantime, however, necessity demands that the Department establish minimum requirements for the licensing of midwives.

A copy of the new rules and regulations relating to schools for midwives can be obtained from the Bureau of Child Hygiene, Department of Health, 149 Centre st.

SCARLET FEVER IN DONGAN HILLS, STATEN ISLAND.

Scarlet fever has been quite prevalent in Dongan Hills, Staten Island, since the end of January, 1914. Thirteen cases occurred during February and twelve during March; four cases have occurred during the present month. The responsibility for the increased number of cases of this disease probably rests with the parents of certain children, who failed to summon a physician and permitted their children to return to school while the latter were still in an infectious condition, and capable of spreading the disease to others. Some time later, the cases were recognized as scarlet fever by a physician of the Department of Health, and excluded from school, but the damage had already been done.

The Department now has the situation well in hand, and it is probable that but few cases will occur from now on.

PUBLIC SERVICE COMMISSION.

Proposals.

INVITATION TO CONTRACTORS.

Part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The Public Service Commission for the First District (hereinafter called the "Commission"), acting for and in behalf of The City of New York (hereinafter called the "City"), invites proposals to construct Section No. 2 of Route No. 20, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2. Beginning at a point under Canal street, in the Borough of Manhattan, about thirty (30) feet east of the easterly building line of Broadway and extending thence easterly under Canal street to a point about thirty-five (35) feet east of the easterly building line of the Bowery.

The general plan of construction calls for a subsurface railroad having two tracks.

The Contractor will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

Two alternative designs for the Railroad have been prepared, which are known as Alternative S and Alternative T, respectively. The design for Alternative S calls for a steel beam and concrete structure, and the design for Alternative T calls for a structure partly of steel beam and concrete construction and partly of cast iron tunnel construction. The method of construction for Alternative S is by trench excavation under cover, unless otherwise permitted by the Commission, and the method of construction for Alternative T is partly by trench excavation under cover and partly by tunneling, unless otherwise permitted by the Commission, as set forth in the forms of contract. Proposals may be submitted for either or both of such Alternatives.

Partial payments to the Contractor will be made as the work proceeds, as provided in the forms of contract.

The Contractor must complete the work within thirty-two (32) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of three hundred thousand dollars ($300,000). As further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the total estimated amount to be paid to the Contractor under the contract. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor.

A fuller description of the work to be done in the case of each Alternative and other requirements, provisions, details and specifications are given in the form of contract for each Alternative and in the contract drawings therein referred to. A separate form of contract has been prepared for each Alternative. Copies of the forms of contract, contract drawings, and forms of bond and contractor's proposal may be inspected and purchased at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City. The forms of contract and the contract drawings and the forms of bond and contractor's proposal are to be deemed a part of this Invitation.

Bidders must examine the forms of contract and the specifications and contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 12th day of May, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Separate forms of proposal have been prepared for Alternatives S and T. Proposals for each Alternative must be in the form prescribed for such Alternative by the Commission. The Commission may award the contract for either Alternative.

A statement based upon the estimate of the Chief Engineer of the Commission of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required in the case of each Alternative is to be found in the Schedule in the form of contractor's proposal for such Alternative. The quantities given in such Schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and forms of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed *"Proposal for Constructing Part of Rapid Transit Railroad—Route No. 20, Section No. 2, Alternative* "* and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. If any bidder shall submit proposals for both Alternatives, the proposal for each Alternative shall be in a separate sealed envelope properly endorsed as aforesaid. No proposal will be received unless accompanied by a separate certified check for thirty thousand dollars ($30,000) payable to the order of the Comptroller of the City and drawn upon a National or State bank or trust company satisfactory to the Commission and having its principal office in New York City. One such certified check for thirty thousand dollars ($30,000) will be sufficient to enable a bidder to bid upon both alternatives. Such check must not be enclosed in the envelope or envelopes containing the proposal or proposals.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

Resolved, That the following rules and regulations for the proper maintenance of cows and cow stables within The City of New York, where milk is produced and prepared for sale within The City of New York, be and the same are hereby adopted, to take effect June 1, 1914:

Rules and Regulations for the Proper Maintenance of Cows and Cow Stables Within The City of New York, Where Milk Is Produced and Prepared for Sale Within The City of New York.

1. Milk produced in violation of these rules and regulations shall be deemed adulterated as described in section 53, subdivision 10, of the Sanitary Code.

2. All water used for washing and cleaning containers, utensils or apparatus used in preparing milk for sale in The City of New York shall be clean and wholesome. The water shall be, whenever possible, from a public supply of known purity. No water other than from a public supply shall be used within The City of New York without a permit therefor issued by the Board of Health.

THE STABLE.

3. The floors of all cow stables must be constructed throughout of cement, and shall be so graded as to discharge all drainage from one or more points into properly trapped sewer-connected drains. Where no sewer is provided the drains must discharge into properly constructed cesspools. The floor opening of each drain shall be covered by a suitable metal strainer.

4. All manure gutters shall have a depth of at least 6 inches at all points, and shall be constructed of cement and be properly graded and drained.

5. In all stables which are so constructed that the cows shall stand tail to tail, there shall be a space of at least 6 feet between the outer edges of the opposite manure gutters. The floors and all of the spaces behind the cows shall be at least as high as the floors of the cow beds.

6. The cow beds shall be constructed of such a length that all excreta will naturally fall into the gutters.

7. All floors and cow beds must be flushed with water at least once each day, and must at all times be kept in a cleanly condition.

8. The ceiling and walls must be sheathed and smoothly finished to prevent the collection of dust.

9. The ceilings, side walls and ledges must be properly whitewashed or painted with some light-colored waterproof paint, unless constructed of smooth cement or other similar material. They shall at all times be kept clean and free from dust, dirt and cobwebs. In all stables constructed hereafter the ceilings, side walls and other woodwork shall be built of dressed material.

10. The stable shall be of sufficient size to provide 600 cubic feet of air space for each cow. There shall be at least four square feet of window light for each six hundred cubic feet of air space, and the windows shall be so situated as to afford an equal distribution of light throughout the entire stable.

11. The window panes must be kept clean at all times.

12. The stable must be provided with some adequate means of ventilation of an approved automatic or gravity system, allowing thirty square inches of intake flues per six hundred cubic feet of air space, and at least forty square inches of outlet flues per six hundred cubic feet of air space.

13. The ventilation of the stable must be such that the air will be kept constantly fresh and sweet.

14. In all stables hereinafter constructed or buildings altered to be used as stables, there shall be no interior constructions of wood other than the walls and ceilings. All stanchions, racks and supports must be of smooth round metal.

15. All stables must be provided with a water supply conveniently located and sufficient for all purposes.

16. No rubbish, refuse or material foreign to its proper maintenance shall be kept or allowed to remain in a cow stable.

17. All liquid excreta must be discharged through a proper connection into a sewer or properly constructed cesspool, or must be absorbed by some suitable material.

18. Manure must be removed from the stable as often as may be necessary to prevent the creation of a nuisance or the discharge of offensive odors.

19. Upon its removal from the stable, manure must be immediately taken from the premises or else stored in the boxes provided for that purpose and removed from such boxes daily.

20. Manure boxes constructed of cement and furnished with closely fitting metal-lined covers shall be provided of sufficient capacity for the needs of the stable.

21. Whenever wet brewers' grains are used for feeding cattle, such grains must be kept in cement boxes or pits. The floors of such grain pits must be so graded as to discharge drainage into properly trapped drains that are connected with a sewer or cesspool. The doors of all grain pits must be tight fitting and lined with sheet metal on the inside. There shall be no direct opening from a grain pit to the stable.

22. The surface of the ground in front of all grain pits and manure boxes must be covered with cement over a stone foundation for a space of at least fifteen feet (15') wide and twenty feet (20') long. This surface must be so graded as to discharge all drainage into a centrally located, properly trapped, sewer or cesspool connected drain.

23. Connected with all stables in which milk is produced for sale in New York City there shall be suitable barnyards or exercise paddocks, and except during extremely inclement weather the cows shall be turned out of the stable for exercise at least three hours each day.

24. The premises surrounding the stable and the milk house shall be so graded as to prevent the accumulation of surface water and shall be maintained in a clean and dry condition and free from rubbish, garbage or other objectionable matter.

25. No stagnant water, soggy or water or sewer-saturated ground, uncovered cesspool or uncovered manure pit shall be maintained on the premises, or adjacent thereto, nor shall any hog-pen be maintained within fifty feet (50') of any cow stable or milk house.

26. No privy shall be maintained within fifty feet (50') of a cow stable or milk house. All privies on premises, or adjacent thereto, shall be constructed with water-tight vaults, the top and sides of which shall be sealed and protected from flies. All seats of privies shall be provided with automatically closing tight covers. All privies must be maintained in a clean and sanitary condition at all times.

27. All wagons used for the transportation of manure and brewers' grains shall, if kept on the dairy premises, be always maintained in a cleanly condition and shall be kept covered with clean and suitable canvas or tarpaulin.

If a pool is used for these purposes it shall be constructed of impermeable material and shall be properly drained and trapped. All pools used in the cooling or storage of milk shall be emptied and cleaned at least once in twenty-four hours.

To accompany petition verified December 10, 1913 to the Board of Estimate and Apportionment,"

—and signed by Alfred A. Stuart, President, and Norman G. Degnon, Engineer; a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and the description thereof which are not inconsistent with the other provisions of this contract may be permitted by resolution of the Board.

This grant is made with the understanding that the tracks herein authorized are to be operated as a necessary part of the railroad of the Company, as shown by the layout upon the map attached hereto, and is only granted upon condition that all of the tracks shown upon said map whether upon private property or upon streets or avenues shall be operated as one railroad.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said three (3) months or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railroad shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor, until January 1, 1929, with the privilege of renewal of said contract for the further period of ten (10) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company each paying one-half thereof.

Third—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

Fourth—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(*a*) The sum of fifteen thousand dollars ($15,000) in cash within thirty (30) days after the date on which this contract is signed by the Mayor and before anything is done in exercise of the privilege hereby granted.

(*b*) During the first term expiring January 1, 1924, an annual sum of two thousand five hundred dollars ($2,500).

During the remainder term of five (5) years an annual sum of ten thousand dollars ($10,000).

The annual charges shall commence from January 1, 1914.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Any and all payments to be made by the terms of this contract to the City by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fifth—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any person or corporation a franchise or right to use the streets hereinbefore mentioned, or any part of them, for railroad purposes, and the Company shall not at any time oppose, but shall consent to the construction and operation of a railroad by any such other corporation or individual which may receive a franchise therefor from the City; provided, however, that nothing in this clause contained shall estop the Company from appearing before the Board and being heard on any application for rights in said streets.

Seventh—If the right of way on private property upon which the Company proposes to operate or any location of track herein authorized (all as shown on the map hereto attached) shall

be crossed, intersected or joined by the right of way or tracks of another railroad corporation, then the Company shall unite with such corporation in forming the necessary connections between the railroads of the Company and such corporation, and shall grant the requisite facilities therefor, whether the tracks on the right of way of such corporation are at the same or a different grade from the tracks of the Company at the point of such crossing or intersection.

In case the Company and such corporation cannot agree upon the amount of compensation to be paid therefor, such compensation shall be fixed in the manner provided in section 22 of the Railroad Law.

When such railroads shall be so connected, the Company shall receive from such other corporation, and forward to their destination, all goods, merchandise and other property intended for points on its railroad, and receive and forward to the railroad of such other corporation all goods, merchandise and other property shipped by way of the Company's railroad and intended for points thereon, with the same despatch and at a rate of freight not exceeding the local tariff rate charged for similar goods, merchandise and other property received at or forwarded from the same points for individuals and other corporations.

The intent and purpose of the foregoing is to provide for the use of the Company's railroad by any other railroad which may be constructed in the vicinity, so that such other railroad may be afforded an outlet and rail connection with a trunk line railroad or a water connection with the Dutch Kills Creek by means of the railroad of the Company.

Eighth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Ninth—Should it be deemed advisable by the Board at any time during the term of this contract to require the extension of the tracks of the Company to reach property owned by any individual or corporation making application to the Board for such extension, and the Board shall so order, then the Company shall, immediately after reaching an agreement with such applicants with respect to the terms upon which such extension shall be constructed, or in lieu thereof a determination of the arbitrators, as herein provided apply for and accept a franchise upon terms and conditions similar to those contained herein to extend its tracks beyond the tracks now planned by the Company, as indicated by the layout of track shown upon the map attached hereto, to the property of such applicant, and upon receiving such a franchise the Company shall, upon terms to be agreed upon between the petitioner and the Company, so extend its tracks and deliver and receive freight for shipment to all persons desiring such service along the line of such extension or extensions; such service to be performed at the rates charged for similar service upon the railroad herein authorized, or as may be fixed by the Board.

In case the Company and the applicants for such extension cannot agree upon the terms upon which such extension shall be constructed, including the division, if any, of the cost of the extension and of the maintenance thereof, then such terms shall be determined and fixed by three arbitrators selected in the following manner:

One fit and impartial person shall be chosen by the Company; one fit and impartial person shall be chosen by the applicant or applicants for such extension, and the two so chosen shall choose a third fit and impartial person. The decision under oath of any two of such persons who shall be so selected shall be final and conclusive. If either the Company or such applicant fails to appoint an arbitrator, as herein provided, or should the first two arbitrators fail to agree on the selection of a third arbitrator within thirty days after the first two arbitrators shall be chosen, or if no two arbitrators so selected shall agree upon the terms upon which such extension shall be constructed and maintained within sixty (60) days after the arbitrators shall be so selected, then such may be fixed by a commissioner appointed by the Supreme Court on the application of either party.

Tenth—The Company shall commence construction of any portion of the railroad herein authorized which shall be necessary to transport freight to or from property proposed to be so served, as indicated by the layout of the railroad shown upon a map attached hereto, within thirty (30) days from the date upon which application for service shall be made by the owner or occupier of such property, provided that the consents of the property owners, as herein required have been obtained, or, in lieu thereof, an order of the Appellate Division of the Supreme Court made pursuant to section 174 of the Railroad Law confirming the determination of the commissioners appointed thereunder that such railroad ought to be constructed, has been issued. If the consents of property owners have not been obtained, nor the order of the Appellate Division issued, at the time when application for the use of such railroad is made by such owner or occupier of such property, then, the Company shall commence the construction of that portion of the railroad for which application has been so made within thirty (30) days after the obtaining of such consents or the issuance of such order. The Company shall complete such portion of said railroad and place the same in operation within sixty (60) days after such application has been made by such owner or occupier of said property, or if neither the consents of the property owners or said order of the Appellate Division of the Supreme Court has been obtained at the time such application is made, then within sixty (60) days from the date of filing such consents or the date of such order. If the Company shall fail to complete the construction of the railroad and put the same in operation as herein required, all rights hereunder shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City. Provided, however, that the period for commencement and the period for completion and placing the railroad in operation may be extended by the Board; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Eleventh—If the grade of the tracks or any portion thereof herein authorized be at any time during the existence of this contract changed to a position either above or below the surface of the streets or avenues, then the Company shall pay to the City any sum or sums which the City may be required by law to pay toward the change of grade of such tracks.

Twelfth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railroad shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railroad within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Thirteenth—The work of construction of the tracks hereby authorized shall be done in such manner as shall not substantially interfere with the ordinary use of any street or avenue as a public highway.

Fourteenth—During the period prior to January 1, 1916, cars may be operated upon said tracks by steam locomotives which shall be housed or boxed so as to conform with the type commonly known as the "dummy engine." On or before January 1, 1916, the Company shall discontinue the use of said dummy steam locomotives and operate said tracks by electric power or any other motive power which may be approved by the Board and consented to by the abutting property owners in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York. It is understood, however, that no overhead wires except trolley wires shall be permitted for the operation of said tracks by the electric power.

Fifteenth—Neither pedestrians nor vehicles shall be prevented from crossing the tracks hereby authorized by the occupation of such tracks by cars or trains operated thereon, for a greater period than five (5) consecutive minutes at any time, and the aggregate of such periods shall not exceed ten (10) minutes in any hour between 7 o'clock a. m. and 6 o'clock p. m.

Sixteenth—Should the Company be allowed to operate at the same grade as the streets and avenues, the Company shall station flagmen at such points as shall be necessary to exclude pedestrians and vehicles from the tracks at all times when cars or trains shall be operated thereon. Should it seem necessary in the opinion of the Board at any time during the term of this contract that gates be erected, maintained and operated across any of the streets or avenues for the purpose of excluding pedestrians and vehicles from the tracks hereby authorized, then the Company shall erect, maintain and operate such gates as may be designated upon thirty (30) days' notice by the Board to the Company.

Seventeenth—As long as the said tracks or any portion thereof shall remain in the streets and avenues during the term of this contract the Company shall, at its own expense, set the curbs and pave the entire roadway and sidewalk and keep the same in permanent repair upon that portion of Nott avenue between the southeasterly side of Meadow street and the westerly side of School street, that portion of Anable avenue between the easterly side of Orton street and the westerly side of School street and those portions of Davis street, Pearson street, Creek street, Orton street, Manly street, Mount street and Anable avenue, except Anable avenue between Orton street and School street, between the tracks and the rails of the tracks hereby authorized in said streets and avenues and for a distance of two (2) feet beyond such rails on either side thereof; all of the work to be done under the supervision of the local authorities in such manner and at such time as they may prescribe. In case of the neglect of the Company to make pavement or repairs after the expiration of twenty (20) days' notice to do so from the President of the Borough of Queens, said President may make the same at the expense of the Company, and the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Eighteenth—Should the Company be allowed to operate at the same grade as the streets and avenues, it shall at all times keep that portion of Nott avenue between the southeasterly side of Meadow street and the westerly side of School street, that portion of Anable avenue between the easterly side of Orton street and the westerly side of School street and those portions of Davis street, Pearson street, Creek street, Orton street, Manly street, Mount street and Anable avenue (except Anable avenue between Orton street and School street), between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the President of the Borough of Queens, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Nineteenth—Should the grades or lines of the streets and avenues in which the railroad is hereby authorized be changed at any time after the railroad has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets or avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twentieth—It is agreed that the right hereby granted to operate a railroad shall not be in preference or in hindrance to public work of the City, and should the said railroad in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-first—Any alteration to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railroad, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-second—Said railroad shall be constructed and operated in the latest approved manner of railroad construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railroad equipment, including rolling stock and railroad appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Twenty-third—The rates for carrying property upon the tracks hereby authorized shall in all cases be reasonable in amount, subject to the control of the Board, and may be fixed by the Board after notice to the Company, and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no rates in excess of those fixed shall be charged for such service.

Twenty-fourth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding and at any other time upon request of the Board, which shall give the result of the operations of the railroad during the year and such other information in regard to the business of the Company as may be required by the Board.

Twenty-fifth—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total length of track in operation within the limits of the City and the length of track constructed and operated under this contract and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-sixth—In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board acting under the powers herein reserved, the franchise or consent herein granted, may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-seventh—If the Company shall fail to give efficient public service at the rates herein provided, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars ($250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-eighth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-ninth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of ten thousand dollars ($10,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at reasonable rates, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railroad, and the maintenance of the property in good condition throughout the whole term of this contract; and in case of default in the performance by the Company of such terms and conditions, or compliance with such orders or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder relating to the obstruction of traffic and the maintenance of gates and flagmen, the Company shall pay a penalty of fifty dollars per day for each day of violation, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice pay to the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars ($10,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirtieth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues in which the Company is hereby authorized to operate.

Thirty-first—The Company hereby agrees that it will not institute any proceedings to acquire by condemnation any land, property, appurtenances or rights pursuant to any law, unless and until permitted to do so by resolution of the Board, otherwise this grant shall cease and determine.

Thirty-second—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-third—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
