W. DE F. DAY, M. D., Sanitary Superintendent:

SIR—I have the honor to report that, as directed by you, I have carefully investigated the water-supply furnished to the Twenty-third and Twenty-fourth Wards, for the purpose of ascertaining the cause of the numerous complaints received against the said supply. I have had analyses made at short intervals by Prof. Waller of samples of water taken from taps at different points in the Wards. During the past eight months, with one exception, the results of these analyses have been satisfactory, indicating that the water is of fair quality and free from sewage contaminations. In the case of the exception, another analysis of a sample taken at the same point after blowing off the adjoining main, proved that the cause of the apparent pollution was purely local and probably due to decomposing matter in the main. An examination of the reservoir at Kensico and of the streams supplying it, made on June 1 of the current year, by President Shaler and myself, showed that any causes of contamination at the headwaters previously existing had been removed, or were being eliminated at the time of the inspection (see Report, June 3, 1885).

It is my opinion, after carefully investigating the subject, that the cause of trouble is to be found in the arrangement of the water-mains. The engineers have been compelled by the peculiar growth of the annexed district, to lay miles of pipe along streets not yet built up; the result of this is many miles of dead ends. The Chief Engineer of the Department of Public Works informs me that all the mains north of the Harlem river terminate in dead ends, except one, which, running through Third and Fordham avenues to the Harlem river, crosses it, and is distributed to a small district in Harlem.

The length of these dead ends varies from seven hundred feet to two and one-quarter miles; their total length being about thirty-five miles. During the warm weather the water in them deposits a large amount of sediment and decomposes. Whenever for any purpose the pressure in the main is increased the sediment in the ends is stirred up and driven with the foul water into the house pipes. Luke-warm water is more offensive to taste and smell than cold water in the same condition. The temperature of the water during the past two weeks has fallen from 72° to 53° Fahr. As it continues to fall the decomposition in the ends will be less and less, and the water as it grows colder will be less and less offensive. The Chief Engineer informs me that during the spring and summer of next year it is his purpose to connect most of the dead ends, thereby making through circuits. This will cause the water to circulate, and will prevent it from decomposing. I consider it a very necessary work, and until then the ends should be frequently blown off, which will do something to prevent the existing evil, though it cannot be expected to entirely abate it, as the pressure is not sufficient to carry off much sediment and clean the pipes, being only about four pounds to the inch.

Very respectfully yours,

CYRUS EDSON, M. D., Chief Inspector Second Division.

The Comptroller presented the following:

To the Board of Estimate and Apportionment of the City of New York:

GENTLEMEN—We, the undersigned, were appointed a Committee by the Memorial Committee of the Grand Army of the Republic of the City of New York, at a meeting thereof, on the 17th instant, to present an application to the Board of Estimate and Apportionment for an increased appropriation to inter the bodies of discharged soldiers, sailors or marines who served in the army or navy of the United States during the late rebellion, as provided by chapter 247 of the Laws of 1883.

As such Committee, we beg leave to respectfully call your attention to the following facts, viz.: The appropriation for 1885 was but \$5,000, which amount has long since been expended; and there are about one hundred certified claims filed by divers undertakers in the City of New York awaiting payment. The Committee are informed that certain undertakers are hesitating about burying the soldier-dead, in consequence of the fact of the appropriation having been expended.

We would also call the Board's attention to the further fact that the death rate of soldiers, sailors and marines is yearly increasing, by reason of their advanced age, and we are therefore of the opinion that an increased appropriation will be necessary to meet the demands of the current year and to liquidate existing unpaid claims, to wit, at least \$15,000.

Should the Board desire to have further information from the Committee on the subject embraced in this application, we will, on notification to our Chairman, be happy to call on you.

We would therefore ask your Honorable Body for an appropriation of at least, the sum above named.

All of which is respectfully submitted.

Dated NEW YORK, October 28, 1885.

JOHN JEROLOMAN, Chairman,  
229 Broadway,

MEMORIAL COMMITTEE OF THE CITY OF NEW YORK, G. A. R.,  
HEADQUARTERS, No. 32 CHAMBERS STREET,  
NEW YORK, October 12, 1885.

Hon. ADOLPH L. SANGER, President Board of Aldermen:

DEAR SIR—At the last annual encampment of the Grand Army of the Republic, Department of New York, held in Uuca last winter, it was decided, upon the invitation of the New York City Posts, to hold the next encampment of the department in this City. Nearly one thousand delegates will assemble here, and remain for at least two days. This will bring here, of course, many of their friends and a number of distinguished soldiers and citizens from all parts of the country. This will be the first occasion since the organization of the G. A. R. that it has convened in this City, and as Chairman of the Memorial Committee representing the City Posts, I respectfully petition in their behalf that the Honorable Body over which you preside may take such action as to you may seem best toward obtaining a small appropriation of \$2,500 to pay certain necessary expenses—places of meeting, printing, etc., which, I regret to say, the Posts in this City, owing to the many calls upon them of a charitable nature, find themselves unable to defray.

In all other cities where the encampment has met from time to time, an appropriation of this nature has been made, in many cases a very liberal one, and the veteran soldiers have been received with much hospitality and considered as guests of the city.

Be assured that any action you and the Honorable Body over which you preside may take in this matter will be gratefully appreciated by every comrade of the Grand Army of the Republic.

Very respectfully, your obedient servant,

M. T. McMAHON, Chairman Memorial Committee.

Resolved, That the Board of Estimate and Apportionment, in making up the provisional estimate of the amount of money required to conduct the business of the City Government for the year 1886, which is to be presented to this Board, as required by section 189 of the New York Consolidation Act, before the 10th proximo, be and is hereby respectfully requested to include therein the sum of \$2,500 towards paying certain necessary expenses of the next annual encampment of the Grand Army of the Republic, which is to be held in this City some time during the year 1886.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—I have a full set of indices of all judgments filed in the County Clerk's Office in the City and County of New York for the past twenty years, also part of a set of Equity Suits commencing January 1, 1856 and which could be completed by the City at a small outlay in sixty days. I have also thousands of indices against single names, such as all Browns, Joneses, Whites, etc. I propose to sell these indices to the City for the use of the searchers in the County Clerk's office, where I was employed for fourteen years and during that time I made these indexes and have kept written up to date. I propose to the Honorable Board's consideration to buy these from me for the sum of \$5,000, which I think is a small consideration for the years of labor I have bestowed upon them.

Yours very respectfully,

THOMAS BLOOMER, No. 13 Chambers street, room 4.

Which were placed on file.

On motion, the Board adjourned.

OFFICE OF COMMITTEE FOR ENFORCEMENT OF LAW,  
SOCIETY FOR THE PREVENTION OF CRIME,  
NEW YORK, October 20, 1884.

Hon. JOHN R. VOORHIS, Commissioner of Police, New York City:

DEAR SIR—It was my pleasure, by invitation of the Chief of Police, Wm. Murray, Esq., to make an inspection below Forty-second street by midnight Saturday night last, October 17, together with Inspector Henry Steers; we wished to see if officers on post were doing their duty; also, to see if the Excise and Gambling Laws were being enforced; to also see if the public streets were free of the presence of women of doubtful character, and the law fully observed. That the inspection should be perfectly fair, and to show to me that no notice of the intended inspection was planned beforehand the offer was made that I should select the route and go where I should wish, which I did, from street to street, from avenue to avenue, and from and to different station-houses, and at and between the hours of 10 P. M., and 4 A. M. We visited sixteen different Police Precincts, and thoroughly inspected the same; we found that the officers on duty to a large extent, were doing honest service, and in but few instances, did we find officers who were talking together; when so found, we stopped and they were quietly and kindly reprimanded by Inspector Steers. We found in all parts of the City the saloons closed and curtains up, to a very large extent. Where there were lights to be seen, in a few instances, we found that parties who tried the doors and with pails were unable to obtain admission. We found but one liquor store open and doing business, that was in the Fourth Ward, where an instant arrest was made by the Captain and the place closed up. We witnessed the midnight roll-call of officers at the Fourth Precinct, under Captain Webb, and will say, a

finer and better body of men, and under discipline, can rarely be found. This Precinct is a marvel under the direction of Captain Webb, who is enforcing law and order here (in one of the worst parts of the city) as it never has been done before. Much praise is due him. Other Precincts we found the force was under a better discipline and the streets clear and clean of the criminal classes that in years back have made the lower part of the city dangerous. And let me here say, too much praise and honor cannot be given to the new Chief of Police, William Murray, Esq., who grasps the great question, which has never been solved before, how to give this great city protection and guard it so that the lives and property of its citizens shall be safe at all times, day and night. Thus, to my mind, he has accomplished, and with the able assistance of his right-hand man, Inspector Henry Steers, the city may not only do honor to these two men, but feel as never before, this grand city of ours will take its place as the leading one where law and order is strictly and honestly enforced. I thought it would be pleasing to you to know of the silent, quiet and firm work done by the present Chief of Police, and will here say, we thoroughly endorse his work, manner and mode, and will give him all the aid in our power to help him in the work of giving us a clean and safe city to dwell in.

I am, respectfully yours,

D. J. WHITNEY, Chairman of Committee.

Resolved, That Patrolman Robert Kopp, Twenty-second Precinct, be directed to appear before this Board on the 30th instant, at 12 M., and that the attendance of Knox McAfee, Clerk Second District Police Court, be requested.

Resolved, That the name of Maggie S. H. Smalley be stricken from the Pension Roll, she having married, and that the report of the Treasurer's Bookkeeper, and the papers in the case, be referred to the Counsel to the Corporation for advice as to the proper action to be taken in the case.

## JURORS.

## NOTICE

IN RELATION TO JURORS FOR STATE COURTS.

OFFICE OF THE COMMISSIONER OF JURORS, ROOM 127, STEWART BUILDING, CHAMBERS STREET AND BROADWAY, NEW YORK, June 1, 1885.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 10 to 3 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only) under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if deemed for the interest of the Corporation of the City of New York.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

### TO CONTRACTORS.

PROPOSALS FOR ALTERATIONS, ADDITIONS AND REPAIRS TO CARPENTER AND JOINER WORK OF STEAMBOAT "MINNAHANONCK."

THE SPECIFICATIONS AND PLANS FOR which are at this office—will be received at No. 66 Third Avenue, the Central office of the Department of Public Charities and Correction, in the City of New York, until 9.30 o'clock A. M. of Friday, November 13, 1885. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for ALTERATIONS, ADDITIONS AND REPAIRS TO CARPENTER AND JOINER WORK OF STEAMBOAT 'MINNAHANONCK,'" for which there is one separate set of specifications and the work for which is to be let in one contract, and with his or their name or names and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

The person or persons to whom a contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of TWO THOUSAND (\$2,000) DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent in writing of two householders or freeholders in the City of New York, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National Banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the BOND required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the lowest formal estimate be accepted by the Board of Public Charities and Correction, due notice of the fact will be given forthwith upon the receipt of the Comptroller's approval of the sureties, presented by the bidder as consenting to be bound for the faithful execution of this contract, if awarded. Thereupon, if the Board shall not deem it for the best interests to reject all the proposals, the contract for this aforesaid work and materials shall be awarded to this lowest bidder, who shall execute the contract and bond of even date therewith in due form, to the satisfaction of said Board, within five days after the award aforesaid. If the party or parties to whom said contract is awarded neglect or refuse to execute the same as aforesaid, and the BOND accompanying the same, the said contract shall be regarded as having been abandoned, the party or parties notified as in default to the Corporation of the City of

New York, and the work and materials will be re-advertised as provided in section 64, chapter 410, Laws of 1882.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contracts, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Commissioners of Public Charities and Correction, AND ARE PARTICULARLY CAUTIONED TO EXAMINE WITH CARE THE PROVISIONS OF ARTICLE 5 OF THE PRINTED CONTRACT FORM.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.
