## BOARD OF EXAMINERS.

October 24, 1905.

Present—Messrs. Walter Cook, Warren A. Conover, Charles Buck, Lewis Harding, Charles G. Smith, Edward F. Croker and William J. Fryer, Chairman.  
 Meeting called to order at 2 p. m.  
 On motion, minutes approved as read.  
 Appeal 49—New Building 1093 of 1905, Public School 92, corner of Rogers avenue and Robinson street, Brooklyn, C. B. J. Snyder, Superintendent of Buildings, for Board of Education, architect and appellant.  
 "Cement brick which is being used on the rear of building for a face brick inside around the stairs has not been approved by this Bureau.

"You are hereby required to discontinue the use of said brick and what has already been used taken out."

Approval of the material is desired for this work on this one school only.

Permission to use sand and lime brick, manufactured by the Peerless Brick Company for the facing of walls of yard and vestibules and halls adjoining same, including columns, jambs, etc., as shown on plans, from floor to ceiling in the interior of the building and upon front, sides and rear of exterior of building, between limestone water-table of first story up to limestone sill course of second course of Public School 92, Rogers avenue and Robinson street, Borough of Brooklyn.

That said material was approved by this Bureau for use on this building after exhaustive tests and with the knowledge that it had been approved for use by the Building Department, Borough of Manhattan, and was in use for exterior work on new buildings in The City of New York, and it never occurred to appellant that it was not acceptable to the Bureau of Buildings, Borough of Brooklyn. Further, the plans require the use of only about forty-eight thousand of gray brick, for which the brick in question were approved and of which from twenty thousand to twenty-five thousand are now built into the work, and as it is public work and the use of the brick is to be limited to this one job, it would seem unwise to oblige the appellant to compel the contractor to take down the walls, with not only the probability of incurring a lawsuit, but also surely delaying the work which has already suffered greatly by the controversy.

Olcott Payne, President of the Peerless Brick Company; William F. Kimber, attorney for the company, and C. W. Cameron, representing the Board of Education, appeared before the Board.

List of documents cited by counsel and submitted to the Board:

Certificate of test made by R. P. Miller, Chief Engineer of the Bureau of Buildings, Borough of Manhattan.

Report of tests, dated April 3, 1905, made by R. P. Miller.

Letter of Isaac A. Hopper, Superintendent of Buildings, Manhattan, dated July 3, addressed to Mr. C. B. J. Snyder.

Report of three tests made by Professor Woolson of Columbia University, dated March 2.

Report of Professor Woolson on freezing tests, also comparative tabulated statement.

Letter of Superintendent I. A. Hopper, dated April 13, 1905, addressed to Peerless Brick Company.

On motion, laid over for one week.

Appeal 50—Alteration 557 of 1905, premises south side of One Hundred and Thirty-fifth street, about 50 feet from west side of Park avenue, The Bronx, Thomas M. Shannon, appellant.

"That it is unlawful."

I respectfully ask that the provisions of the law be modified as far as to allow petitioner to erect an additional story on part of the above named building now used as freight shed by strengthening same by the use of wooden girders and posts and putting a new tier of floor beams for carrying second story office floor, raising the two (2) centre trusses shown on drawing on file in Building Bureau and reinforcing the present iron posts by bolting 4 by 8-inch yellow pine timber to each side with an additional timber on said iron post to support the trusses after same have been raised.

The outside walls on four (4) sides of additional story to be built of 3 by 4-inch joists with three (3) lines of cross bridging and covered with corrugated iron.

This building is entirely isolated from any other building, it being the only structure on the block, and in a measure only temporary. Should the block be used for any other purpose than a freight shed, the building would be entirely impracticable and would be torn down.

On motion, laid over for one week.

Adjourned.

THOMAS F. DONOHUE, Clerk.

NEW YORK, November 10, 1905.  
J. W. STEVENSON,  
Secretary.  
n13,24

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, having caused an inquiry to be made, pursuant to chapters 629 and 630 of the Laws of 1905, of the State of New York, upon the application presented to the Board by the New York and Port Chester Railroad Company for a grant to such company of the right or franchise to construct, maintain and operate a railroad across certain streets, avenues and highways in the Borough of The Bronx by such company, as is more particularly set forth in its petition dated May 29, 1905, will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on November 24, 1905, at 10.30 o'clock a. m., consider said application and hold a public hearing thereon, at which citizens shall be entitled to appear and be heard; and

Notice is hereby given that questions raised as the result of the inquiry, and which it would seem pertinent that the Board should decide, are as follows:

1. Should the application be denied upon the grounds that the City may furnish such additional transportation as is required on lines which may be built as extensions to the existing or proposed rapid transit railroads, and thereby retain the power and fix absolutely the rate of fare within the City limits?

2. Should the application be granted as applied for, the City making an additional provision that a four-track road shall be constructed from the City limits to the Harlem river, and denying the right of connection with the existing rapid transit railroad, upon the grounds that such connection would place more traffic upon the rapid transit railroad than it could bear?

3. Should the application be granted upon the route applied for, or should the company be obliged to change its route between the Bronx river and the City line and adopt a new map and lay out a route adjoining that of the New York, Westchester and Boston Railroad Company, previously granted a franchise by The City of New York, and thereby avoid the mutilation of the street system in the Borough of The Bronx east of the Bronx river?

4. Should the application be granted as applied for?

Subject to such changes as may be required when decisions are reached on the above questions, the Bureau of Franchises of the Department of Finance has submitted the following:

#### PROPOSED GENERAL TERMS AND CONDITIONS.

For the grant of a franchise or right or privileges to construct, maintain and operate a railroad across, either above or below the grades of certain streets in the Borough of The Bronx, City of New York, along the following routes: [Technical Description of Main Line and Branch to be inserted.]

—and being more particularly shown on a map adopted by the Board of Directors of the New York and Port Chester Railroad Company on February 8, 1904, and filed with the County Clerk of New York County May 6, 1904, or any lawful amendment thereof, consented to by the Board of Estimate and Apportionment, the New York and Port Chester Railroad Company shall be bound by the following terms and conditions:

1. The provisions of section 6 of the Railroad Law shall be fully complied with, and in addition to the maps required to be filed with the Railroad Commissioners, it shall be incumbent upon the grantee to file with the Comptroller of The City of New York a map or maps

showing the number of tracks and length of same, including crossovers, switches, turnouts, sidings and stands, such lengths to be accurately determined by measurements to be taken after the commencement of the operation of any portion of the railroad.

2. The said right to cross the streets and the privilege to construct and operate said railroad shall be held and enjoyed by said railroad company, its lessee or successors, for the term of twenty-five (25) years from the date of signing this contract, without privilege of renewal.

3. Upon the termination of this grant, all rights and privileges hereby granted to cross the said streets shall cease and determine, unless the said railroad company, its successors or assigns, shall have previously procured a new grant for the same from The City of New York.

4. The New York and Port Chester Railroad Company, its successors or assigns, shall pay for this privilege to The City of New York the following sums of money:

During the first ten years, commencing from the day when this contract is signed, an annual sum of eighteen thousand dollars (\$18,000), and during the succeeding fifteen years, an annual sum of thirty-five thousand dollars (\$35,000).

From the date of the commencement of the operation of any portion of the railroad until the end of the first ten years of this grant, an additional sum of ten cents (10 cents) per linear foot of single track, including all crossovers, switches, turnouts, sidings and stands, and for the succeeding fifteen years an additional sum of twenty cents (20 cents) per linear foot per annum, in lieu of said sum of ten cents (10 cents). All said payments shall be made to the Comptroller of the City in equal payments at the end of each quarter year, on the first day of January, April, July and October of each year.

5. The said annual charge or payment shall continue throughout the whole term of the privilege hereby granted, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights or privileges hereby granted, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sub-lease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute relating in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgage or mere lienor, but shall apply to any purchaser upon foreclosure or under or by virtue of any provision of a mortgage or lien.

6. The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the New York and Port Chester Railroad Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

7. No street or railroad shall be crossed by the railroad at grade. All streets now open or in use and streets hereafter opened crossing the line of the railroad shall be carried over or under the said railroad by the grantee at the sole cost and expense of said grantee. The cost of all changes in grades of all approaches to such crossings, and all damages to property injured thereby, or by said railroad crossings, shall likewise be borne and paid by the grantee. All damages to property along the line of said railroad or contiguous thereto, caused by reason of the construction or operation of the said railroad, shall be borne and paid by the grantee, its successors or assigns, and The City of New York shall assume no liability for any damages so caused.

The City shall have the right at any time it so desires, to open across the route of the railroad company, any new streets other than those now open or in use, and the railroad company hereby gives its consent to said opening.

8. All viaducts over streets and all tunnels under streets and all bridges necessary to carry the streets over an open cut, shall be constructed at the expense of the grantee, and in such manner as shall not interfere with the ordinary use of the street as a public highway. All viaducts over streets shall have a height of at least sixteen feet in the clear throughout, and in the case of arch construction not less than sixteen feet in the clear at the centre and ten feet in the clear on the building or side line of said street. In the case of tunnel construction under a street, there shall be at least four feet between the grade of the street and the exterior surface of the arch of said tunnel.

9. Any superstructure of the railroad crossing a street and having a length of one hundred (100) feet or less, shall be constructed in a single span; if more than one hundred (100) feet in length, intermediate columns to support the structure may be placed in the street in such manner as may be approved by the Board of Estimate and Apportionment. The width of such superstructure of the railroad shall not exceed sixty (60) feet when measured over all.

10. The plans for all structures over or under any street must first be submitted to and approved by the Board of Estimate and Apportionment, and all such structures shall be constructed of steel, concrete or masonry, or a combination of these materials. Such structures shall be floored throughout and shall be watertight.

11. The railroad shall be constructed in the most modern and approved manner of railroad construction. The roadbed shall be ballasted throughout its entire length within the limits of The City of New York, with a sufficient quantity of either blast furnace slag or broken trap rock of a hard and durable quality, and no dirt, sand, gravel or cinders shall be used in such ballast.

12. The roadbed within the limits of The City of New York shall be watered daily whenever the thermometer is above 35 degrees Fahrenheit. Should, however, watering the roadbed in any way injure electric line equipment which has been approved by the Board of Estimate and Apportionment, or its successors in authority, then other means of preventing dust shall be used, which shall be first approved by the Board of Estimate and Apportionment. For any failure to comply with the foregoing the railroad company shall be liable to a penalty of fifty dollars (\$50) per day.

13. The entire right of way of the company within the City limits, except at stations, shall be fenced throughout.

14. All abutments or foundations for bridges, viaducts and stations and the stations proper, except intermediate supports for viaducts, as hereinbefore provided, shall be placed on the land of the company.

15. There shall be constructed along the line of the route of the main line of the railroad as proposed, for the accommodation of local passenger traffic, at least six stations between the Harlem river and the Bronx river, and at least six stations between the Bronx river, and the northerly line of The City of New York, as now fixed. On the branch line there shall be constructed at least three stations east of Morris Park avenue.

16. Said railroad may be operated by electric power or by any other mechanical motive power, which may be lawfully employed upon the same, except locomotive steam power. If electrical power is used the railroad company shall, before the commencement of any of the construction of the electrical line equipment, file with the Board of Estimate and Apportionment plans showing such proposed construction, including all methods of insulation, position of contact conductor and all feed wires, conductors or cables, with method of carrying the same, and said plans must be approved by the said Board before construction thereof shall begin. The Board of Estimate and Apportionment hereby retains the right to make such conditions relative to construction of such line equipment as it may see fit at the time of the approval of such plan.

17. No wires for the transmission of power shall be permitted unless they be placed in conduits or carried in a manner which shall have been approved by the Board of Estimate and Apportionment. The New York and Port Chester Railroad Company shall provide, for the exclusive use of the City, two conduits upon the property of the company which may be used for carrying wires or cables; said conduits to be at least three inches in diameter.

18. The railroad company shall not carry wires or conduct power on its structures or along its right of way for any purpose except for the operation of its railroad and except, as provided above, for the use of the City.

19. The railroad company shall maintain a train schedule on the main and branch lines of at least sixty (60) trains on each line in either direction daily, stopping at all of the stations within the City limits, and at no time, either day or night, shall there be greater headway between such trains than thirty (30) minutes; provided, however, that said railroad company during the first five years after the commencement of the operation of any portion of the railroad shall not be required to operate its trains within the City limits between the hours of 1 o'clock and 4 o'clock a. m., each day, unless the Board of Estimate and Apportionment shall determine, after a hearing had thereon, that public convenience requires the operation of its cars during such hours.

20. All cars on said railroad shall be heated during the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and any failure to keep the temperature of any of the cars of the company above 50 degrees Fahrenheit, shall make the company liable for a penalty of fifty dollars (\$50) per day for each offense.

21. All cars operated by the company shall be vestibuled and the system of lighting same shall be adequate and be made satisfactory to the Board of Estimate and Apportionment. For any failure to comply herewith the railroad company shall be liable to a penalty of fifty dollars (\$50) per day for each violation.

22. The grantee shall light the space beneath any superstructure which it shall erect across streets and the approaches to stations, in a manner which shall be satisfactory to the Board of Estimate and Apportionment.

23. During the term of this grant the rate of fare upon said railroad within the limits of The City of New York, as now fixed, shall not exceed five cents (5c.) for any passenger. The said company shall not charge any passenger more than such sum for one continuous ride from any point on said railroad, or a line or branch operated in connection therewith, and controlled by it, to any point thereof or of any such connecting line or branch thereof, within the limits of The City of New York, as such limits now exist, during such term. The company shall operate cars over the route hereby authorized, and the company shall not operate cars over the route of any other railroad company within the limits of The City of New York until it shall have received authority for such operation from the said Board of Estimate and Apportionment, and it shall not permit cars of any other company to run over the railroad hereby authorized. The Board of Estimate and Apportionment reserves the right to fix the compensation to be paid by such other company as shall be authorized to run cars over the route hereby authorized for such privilege, and said Board further reserves the right to fix the compensation to be paid to The City of New York by said "Port Chester Company" for the privilege of operating cars over the route of any other railroad company.

Whenever the "Port Chester Company" shall have entered into a contract with another railroad company, permitting the cars of said company to run over the route hereby authorized, or whenever the said "Port Chester Company" shall receive from the Board of Estimate and Apportionment of The City of New York, or its successors in authority, permission to operate cars over the route of said other railroad company, a single fare of five cents (5c.) shall be the maximum charge by either company to a passenger desiring to make a continuous trip in either direction between any two points within the limits of The City of New York on the lines of said companies. For every refusal to comply with the requirements of this section, the corporation so refusing shall forfeit \$50 to the aggrieved party. Two or more penalties may be recovered in one action.

The rates for carrying of property upon the routes of the grantee within the limits of The City of New York shall, in all cases, be reasonable in amount, and shall be subject to the control of the Board of Estimate and Apportionment, or its successors in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successor or assigns, and no greater sums shall be charged for such service than provided for by said Board of Estimate and Apportionment.

24. The said railroad company shall carry free within the limits of The City of New York during the existence of this grant all letter carriers of the United States Government and members of the Police and Fire Departments of The City of New York, when such employees are in full uniform.

25. The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters, under the Charter of the City.

26. In case of any violation or breach or failure to comply with any of the provisions herein contained this grant may be forfeited and avoided by The City of New York by a suit brought by

the Corporation Counsel, provided that in case of any such violation, breach or failure to comply with any of said provisions the said City shall cause notice in writing thereof to be served upon said company, and said company shall remedy such violation, breach or failure within ten (10) days thereafter, and in default thereof, then, and not otherwise, said right of forfeiture shall accrue and may be enforced by the said City; provided, further, that if the said railroad company, grantee hereunder, shall within said ten (10) days commence to remedy said violation, breach or failure, and shall prosecute the work of completing such remedy with diligence and with the utmost practicable dispatch until the same shall be completed, then no right of forfeiture shall accrue.

27. The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

28. The said railroad company shall commence actual construction within one year from the date of the signing of this contract, and shall complete a four-track railroad upon the main line, from the northerly line of the City to the southerly terminus, as hereinbefore described, within five years from said date; otherwise this grant shall cease and determine.

The said railroad company shall expend the sum of at least one million dollars (\$1,000,000) for construction within the limits of The City of New York within two years from the date of the signing of this contract, which sum shall be exclusive of any moneys expended for land acquired for the right of way.

A statement of moneys so expended for construction shall be submitted to the Comptroller of The City of New York, who shall, after investigation, report to the Board of Estimate and Apportionment his opinion as to whether such sums have been actually expended, and if in the opinion of the said Board the grantee has not proven an expenditure of the said sum within the time given, then said Board may declare that this grant has ceased and determined, and the said action of said Board shall be prima facie evidence of said forfeiture.

Any portion of the route covered by this grant which shall not be completed and in full operation within seven years from the date of the signing of this contract shall be deemed to have been abandoned, and all rights hereby granted in and to such portions of said railroad shall cease and determine, and The City of New York may exact such sum of money by way of liquidated damages as is hereinafter provided.

A majority vote of the members of the Board of Estimate and Apportionment shall be prima facie evidence in regard to the forfeiture of any or all the rights under this grant, as provided for in this section. Before action is taken by the Board of Estimate and Apportionment, under the provisions of this section, the grantee shall have at least thirty (30) days' notice of the intention of said Board to take action and at such time as is appointed shall be allowed a hearing. In case any or all of the rights hereby granted are forfeited, it is a condition of this grant that all sums theretofore paid to The City of New York, together with the deposit of \$50,000 and the deposit of \$150,000, as provided for in sections 39 and 40 of this contract, and all structures erected by said grantee, its successor or assigns, within the lines of any street, shall be forfeited to and become the property of The City of New York.

The Board of Estimate and Apportionment shall have power to extend the time provided for in this section for the completion of the railroad and for the work to be performed and expenditure to be made, as above, for a period or periods not exceeding in the aggregate two years, but such extension shall not be made unless the reasons given by the grantee for non-fulfillment, in the opinion of the Board of Estimate and Apportionment, for causes over which the grantee had no control and was in nowise responsible.

29. The grantee shall assume all liability by reason of the construction and operation of the railway, and the City shall assume no liability whatsoever to either persons or property by reason of said construction, maintenance or operation.

As a condition of this grant, the grantee, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the railroad company, its successor or assigns.

30. Any portion of the right of way of the said railroad company falling within the lines of a street now shown on the map of The City of New York, which it may be necessary for the City to subsequently acquire, shall be ceded to the City, without cost to it, subject to the company's easement therein.

31. Said company shall not operate cars over any extension of any length whatsoever not specifically hereby authorized, and shall not make any connection with any other railroad company either by means of extensions or branches or by means of a platform building, unless it shall have received authority therefor from said Board of Estimate and Apportionment of The City of New York, or its successors in authority, and upon such terms as shall be fixed by said Board.

32. In case any of the streets as now shown on the map of The City of New York and crossed by the said railroad above grade are altered or widened after the grantee has completed its railroad, and such widening requires the alteration of the superstructure of the railroad, the grantee and The City of New York shall each pay one-half of the cost of such alteration as may be necessary.

33. In case the route as laid out shall make it necessary in the opinion of the Board of Estimate and Apportionment to change the map of The City of New York in order to avoid unnecessary or undesirable crossings, or for other reasons purely on account of the location of the railroad, and by such change or alteration additional streets bounding the grantee's right of way are determined upon, then the grantee shall acquire such streets and cede them to the City without cost.

34. Any alterations which may be required to the sewerage or drainage system, or to any sub-surface structures, pipes, etc., laid in the streets, on account of the construction or operation of the railroad, shall be made at the sole cost of the railroad company and in such manner as the proper City officials may prescribe.

35. The railroad company shall cede, without cost, to the City a strip of land 50 feet in width, along the side of the right of way; said strip beginning at the easterly side of White Plains road and extending along the right of way to the City line. The railroad company, at its own expense, shall regulate and grade said strip of land to such grade as shall be hereafter fixed by the City authorities, such regulating and grading to be done from time to time as directed by the Board of Estimate and Apportionment.

36. All construction of railroad crossings shall be done in such manner as shall not substantially interfere with the ordinary use of any street as a public highway, and all streets in any way disturbed by such construction shall be restored to their original condition. In case of failure on the part of the grantee to restore such streets within a reasonable length of time, The City of New York shall have the right, under resolution of the Board of Estimate and Appor-

tionment, to cause the work to be done and the materials to be furnished after due notice and shall collect the reasonable cost thereof from the fund hereinafter provided.

37. The company's property and structures shall not be used for advertising purposes in any way, under a penalty of fifty dollars (\$50) per day for each offense. Such restriction shall not apply to the interior of stations or cars.

38. The City, the Board and all duly authorized representatives of the City shall have the right at all reasonable times, as well during construction as afterwards, to inspect the railroad and any part thereof, and to enter thereon when necessary for the examination, supervision or care of any property of the City or of abutting property-owners or for any proper purpose. Nothing in this franchise shall be deemed to diminish or affect the sanitary or police jurisdiction which the public authorities shall lawfully have over property in the City.

39. The company shall deposit with the Comptroller, after the date of signing this contract, the sum of \$150,000, which fund shall be security for the construction of the entire road authorized hereby, and said fund shall be repaid to said company only as hereby specified. Whenever and as often as the company shall have actually completed one mile of single track, a certificate showing the completion of construction of such track shall be prepared by the engineer of said company, and such certificate shall be delivered to the Board of Estimate and Apportionment. The said Board shall, as soon as practicable thereafter, verify the correctness of such certificate and either accept such certificate as correct, or if it finds it to be incorrect, return said certificate to said company, specifying in writing the respects in which it finds such certificate to be incorrect. Upon the verification of the correctness of any such certificate, or if any such certificate shall be found to be incorrect, upon its being corrected, and subsequently verified, the said Board of Estimate and Apportionment shall thereupon prepare and certify a voucher in due form for payment to said company the sum of \$2,000, and the amount so certified by said Board shall be forthwith paid by said Comptroller from said fund to said company, upon the completion of the work of construction of the said mile of track. This procedure shall be followed by said company as often as it shall complete an additional mile of single track.

Upon the completion of the construction of the entire track authorized hereby, a final certificate shall be prepared by the engineer of said company and approved by the president thereof, showing the fact of such completion and the fact that the road is ready for operation. Such final certificate shall be delivered to the said Board of Estimate and Apportionment of The City of New York, and shall be subject to a like verification as the certificate hereinbefore mentioned. Upon the verification of the correctness of such final certificate, or if such final certificate shall be found to be incorrect, upon being corrected, the said Board of Estimate and Apportionment shall thereupon prepare and certify a voucher in due form for the payment by the Comptroller to the said company of the balance of said fund of \$150,000 remaining in his hands.

If such final certificate, certifying to the completion of the entire construction of the road, shall not be delivered to the Board of Estimate and Apportionment on or before the expiration of five (5) years from the date of signing this contract, and if the construction of the entire road authorized hereby shall not have been completed by said date, the balance of said sum of \$150,000 shall be forthwith delivered by the Comptroller to The City of New York, and thereafter said company shall have no claim or cause of action therefor.

The word completion, as used herein, shall include the laying of tracks, conduits and all structures necessary to the operation of trains over the route authorized hereby, and shall include also such street bridges or other structures as the company is required hereby to make, and such final certificate shall include proof that all of the antecedent acts required by this franchise have been performed by said company, in so far as their completion is required hereby.

The parties hereto hereby agree that the statement of the Board of Estimate and Apportionment, or its agent, shall be accepted as final, as to the completion or non-completion of the road or any part thereof.

40. This grant is upon the express condition that the said company, within thirty days after the execution of this contract and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of \$50,000, either in money or securities to be approved by him, which fund shall be security for the performance by said company of all the terms and conditions of the contract, especially those which relate to the payment of the annual charge for franchise granted; in default of which payment of the annual charge, the Comptroller, acting in behalf of the City, shall collect same with interest from such fund after five days' notice in writing to the president of said company. In case of failure of the said company to comply with the terms of this contract or its neglect or refusal to comply with any demand or direction of the Board of Estimate and Apportionment, or other municipal officials, made pursuant to the terms of the contract, or under the authority of any laws or ordinances now or hereafter in force, in such case and in any of these events the said company shall pay to the Comptroller of The City of New York a penalty of \$1,000 for each violation; and in case of any violation of the provisions relating to the lighting of cars, watering of roadbed, advertising signs, heating of cars and vestibuling of cars, the said company shall pay to the Comptroller of said City such penalties as are herein provided.

The procedure for the imposition and collection of the penalties provided in the grant shall be as follows:

The Comptroller of The City of New York, on complaint made, shall, in writing, notify said company through its president to appear before him on a certain day not less than five days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If said company fail to make an appearance, or, after a hearing, appear in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or, where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund, the said company shall, upon ten days' notice in writing, pay to the Comptroller of The City of New York a sum sufficient to restore said security fund to the original amount of \$50,000, and in default thereof the contract may be revoked at the option of the Board of Estimate and Apportionment, acting in behalf of the City. No action or proceeding or rights under the provisions of the grant shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

The right of the City to collect any penalties imposed for non-compliance with the terms of this grant, or with any law or ordinance now in force or hereafter adopted, shall not be limited to the

said sum of \$50,000, and the enumeration or reservation of any rights by the City herein shall not operate to the exclusion of any other rights belonging to the City, either in law or in equity.

41. That if the said New York and Port Chester Railroad Company, its successor and assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures, and all street crossings in good condition throughout the full term of its occupancy of said streets, the Board of Estimate and Apportionment of the City may give written notice to said company, specifying any default on the part of said company and requiring said company to remedy the same within a reasonable time, and upon the failure of said company to remedy its said default within a reasonable time, said company shall, for each day thereafter during which the default or defect remains, pay to The City of New York the sum of two hundred and fifty dollars (\$250) as fixed and liquidated damages, or the said City in case said structures over or under streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the company, in which case the said company shall pay to the City the amount of the cost of such repairs, with legal interest thereon; all of which sums may be deducted from the fund hereinafter provided.

42. This grant shall not become operative until said company shall duly execute, under its corporate seal, an instrument in writing, wherein said company shall promise, covenant and agree on its part and behalf, to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained, and file the same in the office of the Comptroller of The City of New York within ten days after the adoption of this contract.

43. The said company shall not operate cars over any portion of the route designated herein until it shall have received a certificate from the Board of Estimate and Apportionment to the effect that all of the antecedent conditions herein have been complied with, and to the further effect that the road has been constructed satisfactorily to the said Board of Estimate and Apportionment, and to the further effect that all the parts thereof which it shall have been possible for the grantee to construct have been constructed.

44. This grant shall take effect from the date of the signing of the contract by the Mayor of The City of New York.

Secretary.

7. It is also provided by the Charter that this stock, if issued in registered form, may be issued in denominations of ten dollars or any multiple thereof; and that "preference shall so far as practicable, and without pecuniary disadvantage to the City, be given to applicants for the smallest amounts and smallest denominations of said bonds and stock in issuing the same."

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

### NOTICE TO CONTRACTORS.

#### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
