BOARD OF ESTIMATE AND APPORTIONMENT

BOARD OF ESTIMATE AND APPORTIONMENT—CITY OF NEW YORK,
MAYOR'S OFFICE, CITY HALL,
THURSDAY, May 4, 1893, 11 o'clock A.M.

The Board met in pursuance of the following call :

OFFICE OF THE MAYORALTY,
EXECUTIVE DEPARTMENT—CITY HALL,
NEW YORK, May 4, 1893.

In pursuance of the authority contained in the 189th section of the New York City Consolidation Act of 1882, and chapter 106, Laws of 1893, a meeting is hereby called of the Mayor, Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments and the Counsel to the Corporation, constituting a Board of Estimate and Apportionment, to be held at the office of the Mayor, on Thursday, May 4, 1893, at 11 o'clock A.M., for the purpose of transacting such business as may be brought before the Board.

THOS. F. GILROY, Mayor.

INDORSED :

Admission of a copy of the within as served upon us this 1st day of May, 1893.

THOS. F. GILROY, Mayor;

THEO. W. MYERS, Comptroller;

GEO. B. MCCLELLAN, President of the Board of Aldermen;

E. P. BARKER, President of the Department of Taxes and Assessments;

WM. H. CLARK, Counsel to the Corporation.

Present—Thomas F. Gilroy, the Mayor; Theodore W. Myers, the Comptroller; George B. McClellan, the President of the Board of Aldermen; Edward P. Barker, the President of the Department of Taxes and Assessments; William H. Clark, the Counsel to the Corporation.

The minutes of the previous meeting were read and approved.

The following communication was received :

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS,
COMMISSIONERS' OFFICE, NOS. 49 AND 51 CHAMBERS STREET,
May 4, 1893.

To the Honorable Board of Estimate and Apportionment :

GENTLEMEN—On reception of the Comptroller's report on the extension of the museum buildings of the Museum of Natural History, the application of the Trustees and of the Department of Public Parks, for the appropriation authorized by law, will then be in order; and by reason of the new law of 1893, the application is now limited to the appropriation for the museum extension only, not including the Lecture Hall. The museum extension will require the entire amount, \$350,000.

Very respectfully,

A. B. TAPPEN, President, D. P. P.

The Mayor stated that under the act of 1892, which provided that the Department of Public Parks, out of the appropriation of \$350,000 made to them, should build a lecture-room, the plans for such improvement were submitted to this Board and referred to the Comptroller (in whose hands they still remain), for examination and report.

Since such plans were submitted to this Board, however, an act has been passed changing the obligatory character of the previous act with regard to the lecture-room, by substituting the word "may" for "shall," and in effect allowing the construction of either an extension or a lecture-room; and as I understand that the Park Department has practically abandoned the idea of building a lecture-room, I move that the Comptroller be requested to return the plans to the Park Department, in order that said department may prepare and approve, under the provisions of the amending act referred to, such plans as may be decided upon by them, with regard to the Eastern Extension.

Which was adopted by the following vote :

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments and Counsel to the Corporation—5.

The Comptroller, to whom was referred on April 25, 1893, a communication from the Health Department, requesting an appropriation of \$1,000 for salaries of Medical Inspectors for the month of May, offered the following :

Resolved, That the sum of one thousand dollars (\$1,000) be and the same is hereby transferred from the appropriation for the year 1893, entitled "Judgments," which is in excess of the amount required for the uses and objects thereof, to the appropriation made to the Health Department for the year 1893, entitled "Health Fund—For Salaries," which is insufficient to enable the Department to continue in its service for one month from May 5 ten of the Medical Inspectors now engaged in the inspection of lodging-houses and other work necessary to prevent the spread of typhus fever in this city.

Which was adopted by the following vote :

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments and Counsel to the Corporation—5.

The Comptroller called up the communication from the Health Department dated April 24, 1893, requesting an appropriation of \$10,220 for expenses required to be incurred under chapter 535, Laws of 1893, which was referred to him at the meeting of this Board held on April 25, 1893.

And offered the following :

Resolved, That, pursuant to the provisions of chapter 535, Laws of 1893, the Board of Estimate and Apportionment hereby appropriates the sum of ten thousand two hundred and twenty dollars (\$10,220) for the purpose of defraying the necessary expenses required to be incurred by the Board of Health for the preservation of the health of the community, as specified in its requisition under date of April 24, 1893.

Which was adopted by the following vote :

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments and Counsel to the Corporation—5.

A communication was received from the Northern Dispensary, requesting that asphalt pavement be laid upon the streets in front of the said institution.
Referred to the Commissioner of Public Works.

The following communications were received :

From the Board of Education—

HALL OF THE BOARD OF EDUCATION,
NO. 146 GRAND STREET,
NEW YORK, May 3, 1893.

(In Board of Education, April 26, 1893.)

To the Board of Education :

The Finance Committee respectfully report that the appropriation made by the Board of Estimate and Apportionment for the "Salaries of Teachers in Grammar and Primary Schools" for the current year will not be sufficient to meet all the claims which will be made upon it. The estimated deficiency for the year will be about \$46,000.

It will be remembered that this Board requested an appropriation for 1893, for this account, of \$3,212,650, based upon a careful consideration of the number of additional Teachers likely to be required for new schools, increased attendance in existing schools and kindergarten classes.

The Board of Estimate, however, granted only the sum of \$3,133,000, being \$79,650 less than the amount requested.

The first quarter of the year being now ended, it appears beyond doubt that the amount granted by the Board of Estimate will be inadequate, and that while the whole amount asked for might be used with advantage, the most careful economy will not prevent a deficiency of about the sum named above, viz., \$46,000.

A number of claims under the by-laws are now awaiting the action of the Board, in regard to this emergency.

At the request of the Finance Committee, the City Superintendent prepared an estimate in relation to this matter, which is presented herewith, viz. :

CITY SUPERINTENDENT'S OFFICE,
April 17, 1893.

To the Finance Committee :

In relation to the amount of money required for payment of Teachers' salaries for the remainder of the year 1893, I would say that I have made a very careful estimate of the number of Teachers needed for classes to be formed by the opening of new schools, and by the completion of annexes to schools already existing. I have ascertained, also, the amounts needed for payment of Teachers whose absences are excused, of Teachers entitled to minimum salary, and of Teachers who should receive the same salary as they received in 1892. These facts, together with others shown by the account of appropriations and payments, furnish the basis for the following summary :

Appropriation for Teachers' salaries..... \$3,133,000 00
Monthly average of appropriation..... 261,083 00

Payments for Teachers' salaries, January, February and March..... \$784,591 00
Appropriation for the three months..... 783,250 00

Deficiency..... \$1,341 00

This account of payments does not include the sums that should be paid for absences of Teachers in the months of February and March, for applications sent in since January 31 for authority to pay the "minimum" salary and the "same" salary as was paid in 1892.

Required for payment of absentee Teachers for nine months at \$5,000 per month... \$45,000 00
" " "minimum" salary..... 550 00
" " "same" salary as in 1892..... 4,978 00
" Teachers in new schools and annexes..... 7,136 00
" additional Teachers (ten)..... 2,000 00
" kindergartens..... 5,000 00
Deficiency for January, February and March..... 1,341 00

Total..... \$66,000 00

Deduction for special and additional Teachers—vacations..... 20,000 00

Estimated deficiency in Teachers' salaries..... \$46,000 00

Very respectfully,

JOHN JASPER, City Superintendent.

The impending deficiency may be met in one of the following ways, viz. :

1. By denying all claims of absentee Teachers for payment of salary during the period of absence, no matter what may be the excuse.

2. By a general deduction of one and one-half per cent. from the salaries of all Teachers.

Before resorting to either of these measures, however, the Committee believe that an appeal should be made to the Board of Estimate for a transfer of funds to the amount required.

The Finance Committee do not believe that the Teachers of this city receive more than their just remuneration. They do not believe that any reduction can be made in the number of Teachers without detriment to the schools. On the contrary, with a larger number of Teachers the size of primary classes especially might be reduced, and the teaching made more effective.

The Committee do not believe that faithful Teachers, who occasionally are compelled to be absent for brief periods through indisposition by overwork, bad ventilation of school-rooms and similar causes, should suffer deductions of salary.

The Committee are, therefore, of the opinion that either method which has been suggested for the making up of the impending deficiency will be an injustice and an unfortunate necessity.

They believe that the Board of Estimate, if appeal be now made to them, will recognize the necessity for a transfer, but the Committee are unable to designate any account of the present year from which such transfer may be made, for the reason that, with the results of the first quarter of the year in view, no account seems more than sufficient for the special purpose for which it was appropriated. In fact, deficiencies appear probable, to the extent of several thousand dollars, in two accounts at least, viz., that of Corporate Schools and Nautical School, in each of which cases the Board of Estimate refused to grant the sums estimated by this Board as necessary.

The Finance Committee therefore suggest that a transfer be asked for from such city funds as may be available for the purpose, and submit the following resolution :

Resolved, That the Board of Estimate and Apportionment be and it is requested hereby to apportion to the appropriation for the current fiscal year, entitled, "Public Instruction—for Salaries of Teachers in Grammar and Primary Schools," which said appropriation is insufficient for the purposes thereof, the sum of forty-six thousand dollars (\$46,000) from such appropriation or appropriations for the year 1893 other than those of the Board of Education, as may be in excess of the needs thereof.

The President put the question whether the Board would adopt the resolution attached to the report of the Finance Committee, and it was decided unanimously in the affirmative.

That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested in the estimate, or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for his faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

Board of Commissioners for New Municipal Building.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested.

The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities, as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within ten days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

N. B.—The prices must be written in the estimate and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items for which bids are herein called, or which contain bids for items for which bids are not herewith called for. Permission will not be given for the withdrawal of any bid or estimate. No bid will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The Department of Public Parks reserves the right to reject any or all the bids received in response to this advertisement if it should deem it for the interest of the City so to do, and to readvertise until satisfactory bids or proposals shall be received. But the contract when awarded in each case will be awarded to the lowest bidder.

Blank forms for proposals and forms of the several contracts which the successful bidders will be required to execute can be had at the office of the Secretary, and the plans can be seen and information relative to them can be had at the office of the Department, Nos. 49 and 51 Chambers street.

ESTIMATES FOR DREDGING AT THE ABOVE-named place on the North river will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, on Pier "A," foot of Battery place, North river, in the City of New York, until 1 o'clock P. M. of

THURSDAY, MAY 11, 1893.

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name and names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of Four Thousand Six Hundred Dollars.

The Engineer's estimate of the quantities of material necessary to be dredged, in order to secure at the premises mentioned the depth of water set opposite thereto in the specifications, is as follows:

ON THE NORTH RIVER.

At Pier, new 15 (south side)..... 23,000 cubic yards.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the locations of the proposed dredging, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor, per cubic yard, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under this contract is to be commenced within five days after the date of the contract, and the entire work is to be fully completed on or before the 1st day of July, 1893, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price, per cubic yard, for doing such dredging, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

The conditions under which this competition is to be conducted and the requirements of the Board are described in a paper entitled "Instructions to Architects" which may be obtained, on application, at the Comptroller's office, 260 Broadway.

NOTE.—The paving-blocks therefor are to be furnished by the Contractor.

5. Labor of all kinds, including removal of existing earth, etc., all grading, spreading, leveling, ramming of earth, paving sand or gravel and paving-blocks, moving of paving-blocks, timber, etc., framing and carpentry, etc., as set forth in the specifications, and shown on plan herein referred to.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as is possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plan therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work contracted for is to be fully completed on or before the 1st day of July, 1893, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price for the whole of the work to be done in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

The conditions under which this competition is to be conducted and the requirements of the Board are described in a paper entitled "Instructions to Architects" which may be obtained, on application, at the Comptroller's office, 260 Broadway.
