BOROUGH OF RICHMOND.

THE BUREAU OF BUILDINGS.

Amendment to the Plumbing and Drainage Laws of the Bureau of Buildings, Borough of Richmond, published as required by paragraph 1 of section 141 of the Building Code.

Amendments to the Plumbing and Drainage Rules and Regulations of the Bureau of Buildings for the Borough of Richmond, published as required by paragraph 1 of section 141 of the Building Code:

Paragraph II. is hereby amended so as to read as follows:

"Once in each year every employee or master plumber carrying on his trade, business or calling in The City of New York, shall register his name and address in the office of the Bureau of Buildings in the borough in which his place of business is located."

Paragraph III. is hereby amended by adding at the end thereof these words:

"A plumber proposing to do work in a borough other than that in which he is registered shall present his certificate at the office of the Bureau of Buildings in that borough before commencing work, so that the fact of his having been properly registered may be recorded."

Section 79. Substitute the following:

"Section 79. A fresh air inlet must be connected with the house drain just inside of the house trap; where under ground, it will be of extra heavy cast iron. It must extend to the outer air and finish with a return bend at least one foot above the grade and ten feet away from any window or cold air box. When this arrangement is not possible, the fresh air inlet must open into the side of a box not less than eighteen inches square, placed below the sidewalk at the curb. The bottom of the box must be eighteen inches below the under side of the fresh air inlet pipe. The box must be of cast iron, or it may be constructed with eight-inch walls of brick or flagstone laid in hydraulic cement. The box must be covered by a flagstone fitted with removable metal grating, leaded into the stone, having openings equal in area to the area of the fresh air inlet, and not less than one-half inch in their least dimension. The following communication was also received from the Acting Chief Engineer:

REPORT No. 377.

NEW YORK, May 27, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—On June 6, 1899, Chief Engineer A. Fteley submitted to you Report

No. 76, dated May 22, 1899, recommending the building of a gate-chamber 1,000 feet north of Jerome Park Reservoir and "to make in the design of the adjacent section of the aqueduct such modifications as may be rendered necessary thereby." This gate-chamber was proposed to take off four 48-inch mains east and west from the New Aqueduct, for the purpose of supplying the City distribution directly from the aqueduct and also supplying the four affluent gate-houses on the margin of Jerome Park Reservoir, in case the Reservoir should require to be drawn off. Mr. Hill and myself have found that by changing the position of this proposed gate-chamber and gate-house to a point directly north of the Jerome Park Reservoir it will require about the same expense to build, and it will make it unnecessary to build these pipes over the aforesaid 1,000 feet spoken of in the report, and will be in a much better position for connection with the four gate-houses above alluded to.

Therefore, I recommend that your resolution passed June 6, 1899, empowering him "to construct at a point about 1,000 feet north of Jerome Park Reservoir an additional gate-house and to make in the design of the adjacent section of the aqueduct such modifications as may be rendered necessary thereby," be changed "to a point directly north of said Reservoir," as shown on a plan herewith submitted, dated May 27, 1902. I also recommend that you empower the Chief Engineer to build a dry wall on the northwesterly, or Sedgwick avenue side of the Reservoir, extending from Van Cortlandt avenue along the northwesterly boundary of the City's property to Sedgwick avenue, in such manner as to retain the embankment or slopes of the Reservoir, and at the same time act as a permanent fence along said boundary line, and to so finish the embankment as to enable the City to enter from the south, or from the north, with teams to Gate-house No. 2 and for general maintenance. This driveway or berm will also serve to check the flow of water which will fall on the embankments and therefore preserve the slopes. This wall and driveway are indicated on the above plan of May 27, 1902.

I also ask approval for a slight change in the core-wall and the arrangement of the roads just east of the above proposed new location of Gate-house No. 7, as shown on the above plan.

Very respectfully,

F. S. COOK, Acting Chief Engineer.

On motion of Commissioner Ryan, Report No. 377 was laid over.

The Commissioners had under consideration Report No. 372 of the Acting Chief Engineer, dated May 16, 1902 (laid over at the previous stated meeting), relative to fences along the present highways and the new highways in the New Croton Reservoir and the possibility of cattle encroaching or trespassing upon land of property owners.

On motion of Commissioner Power, Report No. 372 was referred to the Construction or Executive Committee.

The Commissioners also had under consideration Report No. 374 of the Acting Chief Engineer, dated May 20, 1902, in relation to the petition of property owners and others interested in the new highways in the New Croton Reservoir; which report was laid over at the previous stated meeting.

On motion of Commissioner Power, the Secretary was directed to notify the petitioners that the Aqueduct Commissioners cannot comply with their request, and the petition and the report (No. 374) of the Acting Chief Engineer, were ordered filed.

On motion of Commissioner Ryan, the President was authorized and directed to request the Commissioner of Water Supply, Gas and Electricity to submit to the Aqueduct Commissioners forms of contract, specifications and bond, with the necessary maps and plans, for building fourteen highway bridge superstructures in the environs of the New Croton Reservoir.

A communication was received from McDonald & Onderdonk, contractors, Jerome Park Reservoir, dated May 26, 1902, accompanied by a statement of the additional cost of inserting the eight-hour clause in the contract for building the Jerome Park Reservoir, as requested by resolution of the Aqueduct Commissioners of May 13, 1902.

On motion of Commissioner Ryan, the matter was referred to the Acting Chief Engineer.

The Commissioners had under consideration the following communication from the Mayor, which was laid over at the previous stated meeting:

May 13, 1902.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, or shall be, become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to The City.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done. Plans and drawings of construction work may also be seen there.
