AQUEDUCT COMMISSION.

Minutes of Stated Meeting of the Aqueduct Commissioners, held at their office, No. 209 Stewart Building, on Wednesday, September 29, 1886, at 2 o'clock P. M.

Present—Commissioners Spencer, Dowd, the Commissioner of Public Works, Commissioners Baldwin, Ridgway, and Fish; also Chief Engineer Church, and Chief Engineer Birdsall, of the Department of Public Works.

The minutes of the Stated Meeting of September 22 were read and approved.

Commissioner Dowd, from the Committee of Finance and Audit, reported their examination and audit of Voucher No. 2,020, sub-estimate for work done at Shaft No. 19½ by Heman Clark, \$4,500; Voucher 2,021, final estimate for culvert at Shaft No. 20 by Heman Clark, \$1,234.20; also their examination and audit of bills contained in Vouchers Nos. 2,023 to 2,036 inclusive, amounting to \$735.68; and the same were approved and ordered certified to the Comptroller for payment.

Commissioner Spencer, from the Committee on Real Estate, presented the following report:

NEW YORK, September 28, 1886.

To the Aqueduct Commissioners :

GENTLEMEN—A meeting of this Committee was held on the 24th instant, and in view of the fact that a vacancy exists, it was decided to defer the permanent organization of the Committee until that vacancy has been filled. Therefore, the Committee was temporarily organized, and has made an examination of the business and matters relating to real estate which were transferred to them from the late Special Committee, and now make the following report thereon :

We find that there is much work yet to be done in connection with the acquirement of lands and rights, for the New Aqueduct and reservoirs, which work, briefly stated, is as follows :

1st. The preparation of matter required by the Counsel to the Corporation in the proceedings to acquire lands for the East Branch reservoirs, was very nearly completed when it was found necessary to make some changes, and to include additional lands for highways and other purposes. This caused unavoidable delay, and will require further time for completion.

2d. Under the advice of counsel, as set forth in their communications of the 13th and 16th instant, there are many additional parcels of lands and property rights to be obtained in Westchester County, and there are also lands required there for additional shafts, and for the open cut at shaft site No. 8.

3d. Negotiations are in progress with the owners of the parcels of land between the Harlem river and the north line of the City, for an enlarged easement right which will give to the City all that is deemed necessary, and under conditions which will greatly reduce the amount of the awards for said easement rights.

4th. There are also additional lands and rights yet to be acquired on the Manhattan Island Section, for which a large part of the preparatory work has been done, but further time is required to complete it.

Up to this time the work above referred to has been carried forward as far and as rapidly as was possible, and it is very important that what yet remains to be done should be pushed to an early completion. This can best be accomplished by retaining the services of Mr. McCulloh, who has done the work so far, and being familiar with all its details, and experienced in its performance, can complete it with greater dispatch and to better advantage than anyone else.

We therefore recommend that the term of service of Mr. McCulloh, as Special Assistant to the Chief Engineer, be extended to the first of January next.

We also recommend that we be authorized to make a temporary arrangement for the small room No. 206, adjoining the rooms of the Commissioners, for the use of the Committee, and keeping of the maps, records and papers entrusted to its custody.

On motion of Commissioner Ridgway, action upon said report was deferred until the Chief Engineer could be present.

A communication was received from the Commissioner of Public Works, submitting a plan showing all of the lands upon the line of the New Croton Aqueduct, between One Hundred and Forty-fifth street and Convent avenue, and One Hundred and Fifty-second street and Tenth avenue ; and also of the adjacent parcel composing the city lot through which the Aqueduct passes, in accordance with the resolution passed September 15, 1886.

The communication and plan referred to were referred to the Chief Engineer and the Committee on Real Estate.

The Commissioner of Public Works presented a communication received by him from Thomas Faye, calling attention to the enormous blasts in the Aqueduct tunnel at St. Nicholas place and One Hundred and Fifty-second street.

On motion of Commissioner Ridgway, the communication was referred to the Chief Engineer, with instructions that he take the necessary steps to prevent dangerous blasting in the locality referred to.

The Secretary submitted a statement received from O'Brien & Clark, and Heman Clark, contractors, addressed to the Aqueduct Commissioners, again calling their attention to the non-payment of their estimates, and that they are now overdue ten days. They reiterate their complaint of the loss and damages they are sustaining in not receiving their pay promptly from the City for work done, and that they will hold the City responsible for all damages they have sustained through the City's neglect to fulfill their part of the contract.

On motion of Commissioner Dowd, the communication was referred to the Committee of Finance and Audit, and the Secretary directed to transmit a copy of the same to the Comptroller.

The Comptroller, under date of September 25, 1886, reports the issue of warrants for the payment of the following vouchers not certified to by the Aqueduct Commissioners :

Edwin Dobbs, \$100.
Benj. P. Fairchild, \$50.
E. H. Martine, \$50.

for services on the New York County Section, which was ordered placed upon file.

In compliance with the resolution adopted on the 22d instant, the Secretary reported that from the inquiries made by him, and from the replies received from each of the Clerks employed in the Secretary's office, that none of the members of the clerical force have been or are now performing private services for any of the Commissioners.

On motion of Commissioner Dowd, the same was ordered placed upon file.

The Secretary submitted a communication from the Comptroller, requesting the Aqueduct Commissioners to prepare and send to the Board of Estimate and Apportionment before the 30th of September, an estimate in detail of the amounts required to pay the expenses of conducting the business of the Commission in and for the year 1887.

On motion of Commissioner Spencer the communication was referred to the Committee of Finance and Audit, with the request that they take counsel with the Counsel to the Corporation, and advise with the Comptroller about the subject-matter therein contained.

The Secretary then submitted the final estimate for work done and performed by Charles Peterson under an agreement made by him with the Aqueduct Commissioners on the 27th day of July, 1886, for the construction of a crib-dock upon the westerly side of the Harlem river, at the crossing of the New Croton Aqueduct, near Shaft No. 25, in the Twelfth Ward of the City of New York, and in connection therewith submitted the following resolution :

Whereas, The Chief Engineer of this Commission has certified in writing that, in his opinion, Charles Peterson has completely performed his agreement made with this Commission on the 27th day of July, 1886, for the construction of a crib-dock upon the westerly side of the Harlem river, at the crossing of the New Croton Aqueduct, near Shaft No. 25 of said Aqueduct in the Twelfth Ward of the City of New York, and has stated from actual measurements the whole amount of work done and materials furnished under and according to the terms of said agreement, and of the true value thereof, and said Charles Peterson having furnished to this Commission satisfactory evidence that the claims of all persons who have done work or furnished materials under said agreement have been duly paid or satisfactorily secured ; now, therefore, be it

Resolved, That the Aqueduct Commissioners do accept the work done and materials furnished by Charles Peterson under his agreement made with this Commission on the 27th day of July, 1886, for the construction of a crib-dock upon the westerly side of the Harlem river, at the crossing of the New Croton Aqueduct, near Shaft No. 25 in the Twelfth Ward of the City of New York, and that a proper voucher for the final payment for work done and materials furnished under said agreement be approved by the Commissioners, and certified to the Comptroller for payment.

On motion of Commissioner Dowd, the resolution was unanimously adopted.

The Secretary then submitted the final estimate for work done and performed by O'Brien & Clark under an agreement entered into by them with the Aqueduct Commissioners on the 17th day of September, 1885, for the construction of a culvert across the dumping-grounds of Shaft No. 23, in the Twenty-fourth Ward of the City of New York, and in connection therewith presented the following resolution :

Whereas, The Chief Engineer of this Commission has certified in writing that, in his opinion, O'Brien & Clark have completely performed their agreement made with this Commission, on the 17th day of September, 1885, for the construction of a culvert across the dumping-grounds at Shaft No. 23, in the Twenty-fourth Ward of the City of New York, and has stated from actual measurements the whole amount of work done and materials furnished under and according to the terms of said agreement, and of the true value thereof ; and said O'Brien & Clark having furnished to this Commission satisfactory evidence that the claims of all persons who have done work or furnished materials under said agreement have been duly paid or satisfactorily secured ; now, therefore, be it

Resolved, That the Aqueduct Commissioners do accept the work done and materials furnished by O'Brien & Clark, under their agreement made with this Commission on the 17th day of September, 1885, for the construction of a culvert across the dumping-grounds at shaft No. 23, in the Twenty-fourth Ward of the City of New York, and that a proper voucher for the final payment for work done and materials furnished under said agreement be approved by the Commissioners and certified to the Comptroller for payment.

On motion of Commissioner Spencer, the resolution was unanimously adopted.

Commissioner Dowd, from the Committee of Finance and Audit, made the following report, out of its regular order :

To the Aqueduct Commissioners :

GENTLEMEN—At the meeting of the Aqueduct Commissioners on the 22d instant, it was

Resolved, That the President of the Commission be requested to inquire and report to this Commission, at its next regular meeting :

First—Whether any member of this Commission has lived in the building known as the "Tarrytown Headquarters" of the Commission, and if so, for how long a time ; and whether at the expense of the Commission or any of its employees.

Second—Whether any member of the Commission has kept his private horse at the expense of the Commission. If so, for how long a time.

Third—Whether any member of the Commission authorized the purchase of the furniture at the expense of the Commission for a room to be occupied by him in the Tarrytown Headquarters, and whether such purchase (if any) was approved or disapproved by the Finance Committee or the Commission.

And that he submit at the same time any records in this office bearing upon these matters.

This resolution being referred to the Committee of Finance and Audit, with a request that they report at the next meeting of the Commissioners, the Committee now have to report :

That the President and Commissioner Fish appeared before the Committee, and in reply to the resolution, the President submitted the following statement :

To the Committee on Finance and Audit :

GENTLEMEN—I make this brief statement in regard to the matter referred to you for inquiry.

I commenced to use my horse and equipment in the Aqueduct service in connection with my duties as Aqueduct Commissioner as early as June, 1883. I have used the same almost exclusively in the Aqueduct service since that period until last July. During that time the whole expense of keeping said equipment has exceeded \$500 per annum, that has been paid by me, and for which I have presented no claim or account against the Aqueduct Commissioners. During the summer of 1884, say from the 15th of June to the 15th of September, I kept my horse, buggy, harness and saddle at the stables of the Aqueduct Commission at Tarrytown, and the same was used there and in that vicinity in the aqueduct service by me or by some of the engineers or employees whenever required. Every expense of feed, shoeing and repairs incurred thereby during this summer was paid by me, and no claim for the same was ever made against the Aqueduct Commission. If it is deemed important or necessary by you, I will furnish proof that all these bills were paid by me personally.

In regard to my living at the Headquarters, I would say, that during the summer of 1884 I was Chairman of the Committee on Construction, and when it was necessary and convenient for me to make the offices at Tarrytown my point of departure each morning and return each evening on the work of the Aqueduct, I occupied a furnished room in these offices for a sleeping-room. The expenses of my personal board and attendance when there and on the work was paid by me, and no claim ever made by me for reimbursement of the same from the Aqueduct Commission.

According to my memory in the premises, I occupied the room in question during the summer of 1884, for about two weeks, and subsequently, on two or three separate occasions, I occupied the same when engaged upon Aqueduct business and found it convenient to remain there over night.

Dated New York, September 28, 1886.

(Signed)

JAMES C. SPENCER.

We find that the President did occupy a room in the Tarrytown Headquarters while engaged on Aqueduct work ; that he did keep a horse in the stable belonging to the Aqueduct Commissioners, at his own expense, which was used by him, and during his absence, by some of the Engineers employed upon the work ; that he did not live at the expense of the Commission or any of its employees ; and we find one voucher for \$25.96, and another for \$18.50, which represents the payment for furniture in use at the Headquarters at Tarrytown ; and we find that the above bills were duly audited by the Committee of Finance and Audit.

The President making no denial of the occupancy of a room or the quartering of his horse, but producing his reasons justifying the act, we are of the opinion that he was perfectly justified in so doing, and the Committee ask to be discharged from any further consideration of the subject.

In connection with the report, Commissioner Dowd offered the following resolution, and moved its adoption :

Resolved, That the Board approve the findings of the Committee, and discharge them from any further consideration of the subject.

The resolution was adopted ; Commissioner Fish voting in the negative.

The Chief Engineer being present, Commissioner Ridgway moved that the report of the Committee on Real Estate, which had been laid on the table, be then taken up.

Commissioner Spencer moved the adoption of the same.

Commissioner Ridgway stated that he meant to oppose its adoption, and that he desired his objections entered upon the minutes, together with such statements as might be made by the Chief Engineer.

In answer to a question of Commissioner Ridgway, the Chief Engineer stated that he was not familiar with all of the duties performed by Mr. McCulloh, but that an assistant acting in a clerical capacity as Mr. McCulloh frequently did was worth from \$1,800 to \$2,000 per annum ; but that when he performed services as an expert in the valuation of real estate and the like, he was worth considerable more, whereupon Commissioner Ridgway said that the Chief Engineer should be familiar with the duties of all of his subordinates, and that he thought the Committee itself should assume the responsibility of purchasing lands, etc., and that the Secretary of that Committee should act under their direction. If the Committee intended to have Mr. McCulloh perform their duties then a new committee should be appointed.

Commissioner Ridgway then called the attention of the Board to the fact that Mr. McCulloh was a non-resident of the State of New York, and that under the law he was ineligible, and could not hold a civil office, that he believed the salary paid Mr. McCulloh was excessive, inasmuch as the Consulting Engineer to the Engineer-in-Chief only receives \$5,000 per annum, and that it would be ridiculous to pay a subordinate \$6,000 per annum, which belief seemed to be coincided in by the Chief Engineer, who is his superior officer ; that he was not an engineer, and therefore not a proper person to hold a position as assistant to the Chief Engineer.

Commissioner Newton, seconded by Commissioner Ridgway, moved that the matter be laid over for one week.

The motion was afterwards withdrawn, and Commissioner Newton then moved that the report of the Committee be so amended as to continue the employment of Mr. McCulloh for the time being, and that the duration of his term of service shall be definitely fixed at the meeting of the Commissioners to be held two weeks hence.

The report of the Committee, as amended, was then adopted by the following vote :

Affirmative—Commissioners Spencer, Dowd, the Commissioner of Public Works, and Commissioner Baldwin—4.

Negative—Commissioners Ridgway and Fish—2.

The Commissioner of Public Works then moved that the Commissioners proceed to fill the vacancy on the Committee on Real Estate. Carried.

The ballot being taken resulted in the selection of Oliver W. Barnes, and the Chair declared that he was duly elected as a member of the Committee on Real Estate.

Commissioner Spencer then moved that a special committee of three be appointed by the Chair to take into consideration the character and value of the services rendered by Mr. McCulloh, and to report upon the same.

The Chair then appointed Commissioners Spencer, Newton, and Barnes as such committee (Vice-President Dowd in the Chair.)

Commissioner Fish then offered the following resolution :

Whereas, The Commission on August 11 adopted the following resolution :

Resolved, That the President be requested to communicate with Mr. H. S. Craven, late Construction Engineer, and request him to return, at once, all the books, papers, documents or other property in his possession or under his control and belonging to this Commission. Therefore

Resolved, That the President be requested to submit to this Commission copies of correspondence that have passed between Mr. Craven and himself in conformity with the resolution of the Commission.

On his motion, the same was unanimously adopted.

Commissioner Fish next offered the following resolution, and moved its adoption :

Resolved, That this Commission will not fill any positions in the Engineering Corps above the grade of Chainman without first having requested from the Chief Engineer the names of suitable persons to fill such positions.

The same was lost by the following vote :

Affirmative—Commissioners Dowd, Ridgway, and Fish—3.

Negative—Commissioners Spencer and Baldwin, and the Commissioner of Public Works—3.

Commissioner Fish then offered the following resolution, and moved its adoption :

Resolved, That the Committee of Finance and Audit be requested to refuse to approve any bill hereafter presented for meals furnished members of the Commission.

The same was adopted, Commissioner Dowd voting in the negative.

Commissioner Fish next offered the following resolution, and moved its adoption :

Resolved, That hereafter no Commissioner shall be permitted to live in any of the buildings rented by this Commission or to stable his horse in any of said buildings.

The resolution was adopted, Commissioner Dowd voting in the negative.

The Commissioners then adjourned.

JOHN C. SHEEHAN, Secretary.

ARMORY BOARD COMMISSIONERS.

TO CONTRACTORS.

ARMORY BOARD—CITY HALL,
NEW YORK, October 6, 1886.

PROPOSALS FOR ESTIMATES FOR PAVING, CURBING AND GUTTERING THE STREETS AROUND THE ARMORY BUILDING AT NINTH AVENUE, SIXTY-FIRST AND SIXTY-SECOND STREETS.

Proposals for estimates for paving, curbing and guttering the streets around the Armory Building, at Ninth avenue, Sixty-first and Sixty-second streets, County and City of New York, will be received by the Armory Board at the office of the Secretary, M. Coleman, Tax office, Staats Zeitung Building, until 2 o'clock P. M., of October 19, 1886, at which time they will be publicly opened and read by said Board at the Mayor's office, City Hall.

Any person making an estimate for the above work shall furnish the same in a sealed envelope to the President of said Armory Board, indorsed, "Estimate for Paving, Curbing and Guttering Work of the Armory Building, at Ninth avenue, Sixty-first and Sixty-second streets," and also with the name of the person or persons presenting the same, and the date of its presentation.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal sum of \$1,500.

Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become part of every estimate received:

- 1st. Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the estimate, and shall not at any time after the submission of an estimate, dispute or complain of the statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

- 2d. Bidders will be required to complete the entire work to the satisfaction of the Armory Board, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed, at the prices therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimate their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation or the Armory Board may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount

in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract and stated in the proposal, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Board who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk, and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him by the Comptroller.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter as surety or otherwise, upon any obligation to the Corporation.

Bidders are required, in making their bids or estimates, to use a blank prepared for that purpose by the Board a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the architect, James E. Ware, No. 239 Broadway.

The Board reserves the right to reject any or all estimates not deemed beneficial to or for the public interest. Plans may be examined, and specifications and blank forms for bids or estimates obtained, by application to the architect, at his office, No. 239 Broadway, New York.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Dry Goods," with his or their name or names and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the estimated amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk, and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same, respectively, at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate, in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, from time to time, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 10 to 3 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must NOT be enclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall neglect or refuse, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, and herein stated, over and above all his debts of every nature, and over and above his liabilities as bail, surety, and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. No estimate will be received or considered unless accompanied by either a certified check upon one of the National or State Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded.
