Complaint Order No. 362.

Board of Aldermen, Complainants,
against

Interborough Rapid Transit Company, Defendant.

"Additional stairway at the Eighty-ninth street station of the Third Avenue Elevated Road."

This matter coming on upon the complaint of the Board of Aldermen of The City of New York, by which it appears that said complainants are aggrieved by acts done or omitted to be done by the Interborough Rapid Transit Company, said defendant, and set forth in said complaint, which are claimed to be in violation of some provision of law, or of the terms and conditions of defendant's franchise or of an order of this Commission.

Now, upon the said complaint, it is

Ordered, That a copy of said complaint be forwarded to said defendant and that the matters therein complained of be satisfied or the charges in said complaint set forth be answered by said defendant within ten (10) days after service upon it of this order, exclusive of the day of service.

Resolution Adopted by the Board of Aldermen, March 10, 1908.

Whereas, This Board, under date of February 11, 1908, adopted a resolution requesting the Interborough Railway Company to provide an additional stairway for exit from the uptown station of the Third Avenue Elevated Railroad, on the south-east corner of Third avenue and Eighty-ninth street, in the Borough of Manhattan, in order to enhance the facilities of travel and save time for the residents of this largely increased section, who are now much inconvenienced, especially during the rush hours.

Whereas, The Interborough Railway Company have taken no action on this resolution and have sent no communication to this Board regarding the same.

Resolved, That the Public Service Commission be and hereby are urged to investigate the congested condition of the one stairway of exit at this station during the rush hours, and if possible direct the erection of the additional stairway, for exit, requested by this resolution; and be it further

Resolved, That a copy of this resolution be sent to the Public Service Commission and to the Interborough Railway Company.

Dear Sir—I beg to inform you that the Commission at its meeting yesterday took formal action upon the resolutions adopted by the Board of Aldermen on March 18 with respect to the failure of the Interborough Rapid Transit Company to run trains on the Second avenue elevated road between the hours of 1 a. m. and 5 a. m., and with respect to the need of signs and an additional platform at the City Hall station of the Third avenue elevated road, by calling upon said company to show cause why it should not put into effect the changes and improvements above indicated.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the Police Commissioner:

No. 517.

Police Department of The City of New York,
No. 300 Mulberry Street,
March 30, 1908.

To the Honorable Board of Aldermen:

Gentlemen—The Police Commissioner this day Ordered, That the Board of Aldermen be and is hereby respectfully requested to authorize the issue of Special Revenue Bonds in the sum of one hundred thousand dollars (\$100,000), the proceeds thereof to be in addition to the appropriation made to the Police Department for the year 1908, entitled Contingent Expenses, and for the purposes of secret investigations, all disbursements from the said fund to be made by the Police Commissioner under the supervision of the Mayor, the Comptroller and the President of the Civil Service Board.

Respectfully,

THEO. A. BINGHAM, Police Commissioner.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Police Commissioner:

No. 518.

Police Department of The City of New York,
No. 300 Mulberry Street,
March 25, 1908.

To the Honorable Board of Aldermen:

Gentlemen—The Police Commissioner this day Ordered, That application be and is hereby respectfully made to the Board of Aldermen for permission to be given to the Police Commissioner to purchase coal for use of the Police Department, in the Borough of Queens, in the open market without competing bids and that the Board of Aldermen be respectfully informed that endeavor has been made to purchase coal in the Borough of Queens by competing bids with the following results:

January 23, 1908, lowest bid, \$6.75 per ton.

February 7, 1908, lowest bid, \$6.69 per ton.

February 27, 1908, lowest bid, \$7 per ton.
March 25, 1908, lowest bid, \$6.75 per ton.

In the opinion of the Police Commissioner these prices are in excess of what can be obtained in the open market and without competing bids. For use of station houses it has been necessary to purchase coal for the Borough of Queens since January 1, 1908, in the open market and it is respectfully requested that permission of the Board of Aldermen be so given that it shall cover bills paid for that purpose, the whole quantity of coal not to exceed 800 tons and the expense not to exceed \$5,000, for which appropriation has been made by the Board of Estimate and Apportionment under account entitled Supplies for Police.

Respectfully,

THEO. A. BINGHAM, Police Commissioner.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment March 27, 1908, amending resolution adopted May 4, 1906, relative to an issue of Corporate Stock in the sum of \$500,000 for the construction and improvement of parks, parkways, playgrounds, boulevards and driveways under the jurisdiction of the Commissioner of Parks, Boroughs of Manhattan and Richmond, by adding at the end of the following item contained therein "Construction of new concrete and asphalt gutters on driveways and bridle roads of Central Park, \$45,000," the words "and Riverside drive."

I also enclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein and copy of a communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond, relative thereto.

Yours very truly,

JOSEPH HAAG, Secretary.

The City of New York, Department of Parks,
Boroughs of Manhattan and Richmond,
Arsenal, Central Park, March 25, 1908.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—Request is hereby made to have the resolution of the Board of Estimate and Apportionment passed May 4, 1906, pursuant to section 47 of the Greater New York Charter, as amended under chapter 629, Laws of 1905, amended by adding the words "and Riverside drive" at the end of the following title in the item for \$45,000:

"Construction of new concrete and asphalt gutters on the driveways and bridle roads of Central Park."

It is most important for the care and preservation of the Riverside drive that gutters be installed where none exist, there being no gutters whatever on the east side of said drive, to properly drain the roads and avoid the washouts that cause large ruts in the roadways after heavy rainstorms and thaws, making driving unpleasant and maintenance expensive.

The occupants of abutting property wash their sidewalks in the morning hours and the water spreads across the road, creating ruts from this source, there being no gutters to properly carry it off.

I will reserve sufficient funds in this account to provide for all gutters in Central Park on the present driveways and bridle paths, for which the original issue was intended. The balance in this account at the present time is \$41,233.40.

Your early action on this matter is respectfully requested, as work on the Riverside roadways must be prosecuted at an early date after the havoc of the winter, and in order that all the objections referred to may be avoided in the future and relieve this Department of the work and expense of practically rebuilding a portion of these roads every spring, I earnestly urge the amendment of the resolution referred to.

Respectfully,

HENRY SMITH,

Commissioner of Parks, Boroughs of Manhattan and Richmond.

Resolved, That the Board of Aldermen hereby approves of, and concurs in the following amended resolution, adopted by the Board of Estimate and Apportionment March 27, 1908:

"Resolved, That the resolution adopted by the Board of Estimate and Apportionment, May 4, 1906, and which reads as follows:

"Resolved, That pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 629 of the Laws of 1905, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York for the purpose of providing means for the construction and improvement of parks, parkways, playgrounds, boulevards and driveways under the jurisdiction of the Commissioner of Parks for the Boroughs of Manhattan and Richmond, to the amount of five hundred and ninety thousand dollars (\$590,000), said amount to be expended for the following purposes, the amounts to be expended for any of the purposes stated in this resolution not to exceed the amount specified in each case:

Construction and improvement of St. Nicholas Park, between One Hundred and Thirtieth street and One Hundred and Thirty-fifth street..	\$100,000 00

Installation of an improved water supply for the Harlem River Driveway	25,000 00
Construction of new concrete and asphalt gutters on driveways and bridle roads of Central Park.....	45,000 00
Extension of high-pressure water supply and irrigation system in Central Park	100,000 00
Improving the drainage system of Central Park on the west side, between Ninetieth and Ninety-fifth streets, and on the drives and lands adjacent thereto	20,000 00
Concreting bottom and sides, Central Park lakes, and filling in where depth is too great.....	75,000 00
Construction of Colonial Park.....	100,000 00
Construction of additional greenhouses in Central Park for use in propagation of plants, shrubs, etc.....	25,000 00
Construction of repair yard, storage sheds, manure pits and refuse incinerating plant in the North Meadow, Central Park.....	25,000 00

—and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue Corporate Stock of The City of New

York, in the manner provided by section 169 of the Greater New York Charter, as amended by chapter 639 of the Laws of 1905, to the amount of five hundred and ninety thousand dollars (\$590,000), as previously specified herein, the proceeds whereof to be exclusively applied to the purposes aforesaid,"
—be and the same is hereby amended by adding at the end of the item "Construction of new concrete and asphalt gutters on driveways and bridle roads of Central Park, \$45,000," the words "and Riverside drive."

No. 521.

Board of Estimate and Apportionment,
Office of the Secretary, No. 277 Broadway,
March 31, 1908.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment March 27, 1908, authorizing the issue of \$2,580,000 Corporate Stock for the improvement of the water supply system of the Borough of Brooklyn, together with copy of communication from the Commissioner of Water Supply, Gas and Electricity, and report of the Comptroller relative thereto.

I also enclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

Department of Water Supply, Gas and Electricity,
February 21, 1908.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, No. 277 Broadway, City:

Dear Sir—July 1, 1907, I made application to the Board of Estimate and Apportionment for the issue of Corporate Stock in the sum of \$4,450,000, for the improvement and extension of the water supply system of the Borough of Brooklyn, which amount was made up of items from one (1) to eight (8), inclusive, in schedule, copy of which is hereto attached.

Since the date of the above application the needs of the Borough have increased to such an extent that I am obliged to request your Board to authorize, in addition to the amount already applied for, the sum of \$441,000, the proceeds whereof to be applied to the extension of the distribution system, additional pumping engine for the Mount Prospect Tower Service, machinery for additional line pumping stations and installations, coal-weighing scales and additional fire hydrants requested by the Fire Department. I refer in detail to the several items of this application and respectfully direct your attention to the enclosed schedule, in which reference is made to them.

In the whole estimate there is no item of improvement that is not absolutely necessary to provide for the immediate wants of the Borough.

Respectfully,

JOHN H. O'BRIEN, Commissioner.

Schedule accompanying letter of request dated July 1, 1907, from Commissioner O'Brien, to the Board of Estimate and Apportionment:

Memorandum on Bond Issues Required for New Work.

Item No. 1—Land for additional pipe conduits and works to develop the underground supply \$1,000,000 00

The appropriation asked for is the money necessary to buy a strip of land from Clear Stream to the Wantagh Gallery land, which terminates at New Bridge road. This strip of land would be in general about 200 feet in width, and follow the southerly line of the Long Island Railroad Company's property. It would be used both for additional conduits and for the development of the underground supply, either by galleries or by wells, or both. With the railroad and conduit lines to the north it is considered that the proposed width of land to be acquired will be sufficient to prevent any pollution of the water supply.

Item No. 2—Infiltration galleries, or other system of collecting the water from Spring Creek to Bellmore. Estimated cost..... 1,000,000 00

This item covers the development of as much of the watershed between Spring Creek and Wantagh as it will be possible to contract for and complete within the coming year. In order to complete the entire line it will be necessary for us to ask for an additional appropriation next year of at least \$1,000,000. The development will be along the line of the infiltration galleries, it being expected that the water will be collected and conveyed to a small number of large pumping stations, from whence it will be pumped directly into the City's distribution system.

Item No. 3—New high pressure pumping station for the Wantagh infiltration gallery. Estimated cost..... 400,000 00

The pumping plant of the Wantagh infiltration gallery is only leased for a period of one year from the completion of the gallery, and is then to be removed by the contractor. It is proposed to construct a fire-proof building, and equip it with modern high-duty, high-lift, pumping engines, so that the water can be pumped direct to the City through the steel pipe line.

Item No. 4—New high-pressure pumping station for the Massapequa gallery. Estimated cost 450,000 00

While the pumps installed at the Massapequa station belong to the City, they were put in as temporary pumps until the yield of the gallery should be determined. It is proposed to build a modern fire-proof station at this point, and equip it with high-duty, high-lift pumps, capable of pumping direct into the City's distribution through the new steel pipe line. The existing equipment of centrifugal pumps would be placed at the new station as an auxiliary for pumping into the gravity conduit, if it was found advisable to do so.

Item No. 5—Extension of distribution (small mains). Estimated cost.. 400,000 00

The development of the outlying sections of the Borough is dependent more upon the prompt installation of water mains than upon any other public work, and unless a property owner can be reasonably certain that water mains will be installed as soon as required, he will not be able to dispose of, or develop his property. The rapid opening up and grading of streets throughout the outlying sections of the Borough has necessitated the laying of many thousand feet of water mains, and there are at present positions for water mains which have been reported unfavorable, covering 140,000 feet of pipe, for which no money is available without using money appropriated for other purposes. The estimated amount for new mains is therefore no larger than that required to efficiently carry on the work.

Item No. 6—New trunk mains for Eighth, Thirtieth, Thirty-first and Thirty-second Wards. Estimated cost..... 400,000 00

The section of the Borough lying south of Greenwood Cemetery and Prospect Park, with the exceptions of the Twenty-ninth Ward, is mainly dependent upon a single 48-inch main for its water supply, and if for any reason it is necessary to shut off the water from this large main, areas of this section would be entirely deprived of water for domestic use, and for what is still more important, fire purposes. To remedy this condition it is proposed to lay a trunk main paralleling the existing main located several thousand feet south of the existing main, and thus prevent practically the possibility of ever having to shut off the supply to such an extent as to leave any section without water for fire protection. With the rapid development of this territory, the need of this main becomes daily more and more important.

Item No. 7—New trunk mains for Seventh, Twenty-third, Twenty-fifth and Twenty-sixth Wards, etc. Estimated cost..... 650,000 00

The frictional losses in the trunk distribution mains for a distance of from two to three miles from the Ridgewood station are excessive, and result in a reduction in pressure which causes frequent complaint

from property owners and tenants in the higher section of the Borough adjoining the Mount Prospect services. The last trunk distribution main from the reservoir was laid in 1903, and as the consumption has increased approximately 10,000,000 gallons per day per year, and as the carrying capacity of a 48-inch main is about 25,000,000 gallons, the increase in consumption since the last main was laid would be somewhat greater than the carrying capacity of the proposed main.

Item No. 8—Additional supply mains for the Clinton Avenue and Brooklyn Heights Districts. Estimated cost..... 150,000 00

The Mount Prospect Reservoir Districts, known as the Brooklyn Heights and Clinton Avenue Districts, are not adequately supplied with feeding mains in case of a large fire within their limits. The above appropriation is to provide for proper size mains to carry a sufficient supply of water to these districts for fire purposes.

\$4,450,000 00

Summary.

Item No. 1—Land for additional pipe conduits and works to develop the underground supply	\$1,000,000 00
Item No. 2—Infiltration gallery, or other system of collecting the water from Spring Creek to Bellmore.....	1,000,000 00

Item No. 4—New high pressure pumping station for the Massapequa gallery	450,000 00
Item No. 5—Extension of distribution (small mains).....	400,000 00
Item No. 6—New trunk mains for Eighth, Thirtieth, Thirty-first and Thirty-second Wards	400,000 00
Item No. 7—New trunk mains for Seventh, Twenty-third, Twenty-fifth and Twenty-sixth Wards, etc.....	650,000 00
Item No. 8—Additional supply mains for the Clinton Avenue and Brooklyn Heights Districts.....	150,000 00
	\$4,450,000 00

Additional schedule to be forwarded in another letter of request to the Board of Estimate and Apportionment.

Memorandum of Bond Issues Required for New York January 25, 1908.

Item 1. Extension to distribution..... \$250,000 00

In the previous communications \$400,000 was asked for; since then a large number of petitions for new mains have been received and reported on favorably. A further increase is to be expected. If these small mains are not laid, building operations in the sections affected will be seriously handicapped and the attitude of the citizens directly affected and the various local Boards of Trade can be readily imagined.

Item 2. Tower service pumping engine, Mount Prospect Pumping Station

\$20,000 00

The pumping engines at present in use for tower service at this station are inadequate for the demands of this service, and as the district supplied is being built up very rapidly it will only be a short time before we will be unable to keep up the pressure and will have a supply for this district that will be inadequate not only for domestic service but also for fire purposes. In addition to the above weighty reason for pushing the construction of this pumping engine, would state further that owing to the constant service the tower engines are called upon to perform it has been impossible to make repairs and keep the said engines in good condition.

The noise of the machinery, in particular the steam turbine pumping engine, has resulted not only in complaints from the people in the immediate vicinity of the pumping station but also in action on the part of the Board of Health.

Item 3. Machinery for three (3) additional line pumping stations..... \$50,000 00

The constant increase of water consumption of this Borough makes it imperative to strain every effort to increase our supply which in times of extreme heat or cold is inadequate to meet the demands. Three points along our line have been selected and it is proposed to locate pumping stations thereat, each having a capacity of 4,000,000 U. S. gallons per day. The boilers, machinery, etc., included in this item are designed to pump directly against the distribution head through the new steel pipe line.

Item 4. Buildings for three (3) additional pumping stations..... \$21,000 00

As the Board of Fire Underwriters have already subjected this Department to severe criticism as to the character of the buildings used to house our line pumping stations, the buildings herein called for are to be of a fireproof character, the cost being very slightly above that of frame structures.

Item 5. Coal-weighing scales..... \$30,000 00

At present car shipping weights are the only guide we have as to amount, etc., of coal received. In order to avoid waste and underweight it is proposed to install proper coal scales in every pumping station and keep a strict record of all coal received and used. The saving in coal for a single year will probably pay for the cost of these scales.

Item 6. Additional hydrants, etc..... \$70,000 00

This item is for additional hydrants, gates, etc., that are asked for both by the Fire Department and by the Board of Fire Underwriters. Further comment is not necessary.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. John H. O'Brien, Commissioner, Department of Water Supply, Gas and Electricity, in communications addressed to the Board of Estimate and Apportionment under dates of July 1, 1907, and March 6, 1908, requests \$4,450,000 and \$441,000, respectively, making a total of \$4,891,000 for the development of the water supply system of the Borough of Brooklyn.

In report dated March 6, 1908, I reported that \$1,350,000 should be appropriated in the near future to continue and carry out the most needed improvements.

In compliance with your instructions to reconsider the question and allow what will be necessary for land and money to make contracts for the next twelve (12) months, I would raise my previous estimate to \$3,930,000, calculated as follows:

1. Land for additional pipe conduits and works to develop the underground supply	\$1,000,000 00
2. Infiltration galleries or other system of collecting the water from Spring Creek to Bellmore (estimated cost for one year's work)	300,000 00
3. New high pressure pumping station for the Wantagh infiltration gallery	400,000 00
4. New high pressure pumping station for the Massapequa gallery.....	450,000 00
5. Extension of distribution for small mains.....	650,000 00
6. New trunk mains for Eighth, Thirtieth, Thirty-first and Thirty-second Wards	400,000 00
7. New trunk mains for Seventh, Twenty-third, Twenty-fifth and Twenty-sixth Wards	650,000 00

8. Tower service pumping engine, Mount Prospect Pumping Station..	20,000 00
9. Coal-weighing scales	30,000 00
10. Additional hydrants	30,000 00

Grand total \$3,930,000 00

This total, \$3,930,000, should give the Department means to carry on the work for at least one year without interruption.

As the Board of Estimate and Apportionment on March 6, 1908, authorized an appropriation of \$1,350,000 for the development of the water supply system of the Borough of Brooklyn, if you decide at this time to grant the entire total of \$3,930,000, it will be necessary to advise the Board to authorize an additional \$2,580,000, all of which is respectfully submitted for your consideration.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. Metz, Comptroller.

Memorandum.

Schedule of work that \$2,580,000 will provide means for the improvement of the water supply system for the Borough of Brooklyn:

The President laid before the Board the following communication from the Park Department of The Bronx:

No. 526.
Department of Parks, Borough of The Bronx,
Office of the Commissioner, Zbrowski Mansion, Claremont Park,
New York, March 31, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, City Hall, New York City:

Sir—I herewith respectfully request an appropriation of Special Revenue Bonds for the year 1908, of the amount of \$17,400.

The reasons for said application are as follows:

1. In the preparation of the application of this Department for the appropriation in the Budget for the year 1908, money for four additional Clerks was requested. After a thorough examination by the Bureau of Municipal Investigation and Statistics, Department of Finance, the addition of four Clerks was recommended, but with the further recommendation that the compensation be fixed at \$900 per annum.

Unfortunately, in the preparation of the Budget, two Clerks who were employed during the year 1907, under the title of account of Administration, at the rate of \$1,200 each per annum, were omitted, thus making said appropriation \$2,400 less than should have been made.

The Bureau of Municipal Investigation and Statistics further recommended that the salary of Private Secretary, formerly fixed at \$2,400, be increased to \$2,500, and that the compensation of the Stenographers and Typewriters who have been in the service of the Department for years and who have never received an increase be fixed at \$1,200 in place of \$1,050.

All the recommendations cited above seem to have met with the approval of the Board of Estimate and Apportionment and of the Board of Aldermen.

2. Under the title of account of Maintenance of Parks, Boulevards, Drives, Stonework and Street Trees, Parks and Boulevards, Hired Teams and Carts, Road Machines and Rollers, 1908, an appropriation was made in the sum of \$30,000, an amount far less for said purpose than made in many years.

In the year 1907 there was expended for the purpose the sum of \$40,366.12, under the several titles of Maintenance Appropriations.

It has been the policy of the authorities to allow an increase of 10 per cent. in the annual appropriations for the maintenance of parks; the amount under this rule should have been for the year 1908 the sum, approximately, of \$45,000.

The rule was followed in the case of salaries and wages for Laborers and Mechanics for 1908, and I know of no reason why said course should not be followed in the case of teams and carts.

The sprinkling of roads, boulevards and parkways, the hauling of supplies, the necessary work of teams and carts, in the regulating and grading of 4,200 acres of park lands, require a considerable increase in the appropriation for said purpose.

I therefore request an issue of Special Revenue Bonds for the year 1908:

For Clerk hire, as specified, two Clerks at \$1,200..... \$2,400 00
For hired teams and carts, road machines and roller..... 15,000 00

Total..... \$17,400 00

All of which is respectfully submitted.

Yours truly,
JOSEPH I. BERRY,
Commissioner of Parks, Borough of The Bronx.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Department of Water Supply, Gas and Electricity:

No. 527.
Department of Water Supply, Gas and Electricity,
Commissioner's Office, Nos. 13 to 21 Park Row,
City of New York, March 30, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, City Hall:

Dear Sir—The amount of money appropriated for the year 1908 for the purchase of water and rental of hydrants in the Borough of Queens is \$200,000. The actual expense for this service last year was \$207,824.57, this amount including two supplemental appropriations provided by special bond issues to make up deficiencies in the original appropriation. It will, therefore, be seen that there exists a deficit of about \$8,000, without taking into consideration the natural increase in the consumption of water over the preceding year and the placing of additional hydrants. Large new manufacturing in full operation and dwelling houses which are tenanted will draw heavily upon the water supply, and it is estimated that an additional 2,000,000 gallons daily will be consumed. The City's own supply at Station No. 2 has been reduced, owing to the high percentage of chlorine in the water.

The Department has already received applications for the placing of 300 hydrants and it is expected that this amount will be increased fifty per cent. They are absolutely needed to afford proper fire protection and their presence will bring about a reduction in insurance premiums. The expense of repairing City meters is estimated at \$400.

The furnishing of these supplies is an obligation upon the City in return for its assessments against the properties affected, and for each gallon of water purchased and delivered to factory or dwelling the City receives in revenue a much larger amount than it expends.

The total shortage in this year's account is about \$80,000, as shown by the following table:

For purchasing nine million gallons per diem, at \$65 per million.....	\$214,110 00
Rentals of 450 fire hydrants, at \$20 per year, 1908.....	9,000 00
Rentals of hydrants now in place.....	54,670 17
Repairs to City meters.....	400 00
Present Appropriation.....	\$278,180 17
	200,000 00

Additional amount necessary for year 1908..... \$78,180 17

I would respectfully request that the Board of Aldermen make provision for this money by authorizing an issue of Special Revenue Bonds.

A copy of resolution is attached.

Respectfully,
JOHN H. O'BRIEN, Commissioner.

Resolved, That in pursuance with the provisions of subdivision 8, section 188, of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to

the amount of eighty thousand dollars (\$80,000), the proceeds whereof to replenish the appropriations of the Department of Water Supply, Gas and Electricity, Borough of Queens, for the year 1908.

MOTIONS, ORDINANCES AND RESOLUTIONS.

The Vice-Chairman asked and obtained unanimous consent to introduce the following:

No. 528.

Whereas, There has grown up in The City of New York, and in other large centres of population, a system under which a so-called banking business is con-

ducted by individuals, firms, partnerships and alleged corporations, without apparent warrant of law and an utter lack of regulation by the State; and

Whereas, The pernicious conduct of many engaged in this business has entailed loss and privation to a large portion of our citizens and others, mostly of the poorer class, who have been gullible enough to deposit their hard earned savings with those who have nefariously plied this trade, in the hope that said savings might be interest bearing but only to suffer from the thieving practices of these so-called bankers, therefore

Resolved, That the Governor of the State of New York, the Hon. Charles E. Hughes, be and he is hereby requested and urged to recommend to the Legislature the passage of a law which shall have for its object the proper regulation of all systems of banking conducted throughout the commonwealth so that the questionable practices so often charged may be eliminated and so that the State Superintendent of Banks may exercise the necessary and very proper supervision over the particular system hereinabove alleged.

Which was adopted.

m30,a14

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, in accordance with the provisions of chapter 372 of the Laws of 1907, will hold a public hearing in Room 16, City Hall, Borough of Manhattan, at 11.05 o'clock in the forenoon, on

TUESDAY, APRIL 14, 1908,

relative to a plan adopted by the Commissioner of Docks March 2, 1908, for improving the water-front of The City of New York between Montgomery and Jackson streets, East River, and amending the former plan for improving this portion of the water-front adopted by the Commissioners of the Sinking Fund April 27, 1871, and transmitted to the Commissioners of the Sinking Fund for approval.

A technical description of the proposed amendment is as follows:

It is proposed to amend the new plan determined by the Board of Docks April 13, 1871, and adopted by the Commissioners of the Sinking Fund April 27, 1871, between Montgomery and Jackson streets, East River, in accordance with the map submitted herewith in duplicate, as follows:

The six piers between Montgomery and Jackson streets, East River, including the pier at the foot of Montgomery street, shown on the new plan for improving the water-front of The City of New York on the East River, determined by the Board of Docks April 13, 1871, and adopted by the Commissioners of the Sinking Fund April 27, 1871, are hereby discontinued.

The bulkhead line established on said new plan of 1871, extending from the westerly side of Corlears Hook Park and prolonged southerly to a point in said bulkhead line where a line drawn parallel with and 100 feet southerly from the northerly line of South street intersects the same, is hereby discontinued.

A new bulkhead line is hereby established 100 feet southerly from and parallel with the northerly line of South street, to extend westerly from the southerly prolongation of the westerly side of Corlears Hook Park to an intersection with the bulkhead line established in 1871 below Montgomery street.

A marginal street, wharf or place 30 feet in width is hereby established adjoining the southerly side of South street and adjoining said new bulkhead line, extending from the southerly prolongation of the westerly side of Corlears Hook Park southerly to the westerly side of Montgomery street.

A new pier 60 feet wide is hereby established at the foot of Montgomery street, with its easterly line extending southerly and at right angles from the said proposed bulkhead line at a point where the southerly prolongation of the easterly side of Montgomery street intersects said bulkhead line.

A new pier 70 feet wide is hereby established easterly of the preceding pier with its westerly line parallel with and distant 140 feet easterly from the easterly line of the last described pier at Montgomery street.

A new pier 70 feet wide is hereby established at the foot of Gouverneur slip, with its easterly line extending southerly or outshore at right angles from the said proposed bulkhead line at a point where the southerly prolongation of the easterly line of Gouverneur slip intersects said bulkhead line.

A new pier 60 feet wide is hereby established easterly of the preceding pier, with its westerly line parallel with and distant 120.62 feet easterly from the easterly line of the preceding described pier at the foot of Gouverneur slip.

A new pier 60 feet wide is hereby established easterly of the last described pier, with its westerly line parallel with and distant 106 feet easterly from the easterly line of the last described pier.

A new pier 60 feet wide is hereby established at the foot of Jackson street, with its easterly line extending southerly or outshore at an angle of 90 degrees from the said proposed bulkhead line at a point where the southerly prolongation of the westerly side of Corlears Hook Park intersects said bulkhead line.

A new pier 60 feet wide is hereby established westerly of the last described pier, with its easterly line parallel with and 140 feet westerly from the westerly line of the last described pier, at the foot of Jackson street.

All of the seven hereinbefore described new piers to extend from the said proposed new bulkhead line southerly and at right angles with said bulkhead line to the pierhead line established by the Secretary of War in 1890.

The Engineer of the Department of Finance, in his report to the Comptroller, states that the newly adopted plan reduces the width of the marginal street between Montgomery and Jackson streets 30 feet, making the combined width of the marginal street and South street 100 feet, which is wide enough.

The advantage of this plan is that large piers and greater wharfage length is provided than in the plan adopted in 1871, and he recommends its approval by the Commissioners of the Sinking Fund.

The plan as adopted by the Commissioner of Docks, together with his communication and the report of the Chief Engineer of the Department of Finance, approved by the Comptroller, are open to the inspection of any citizen, at the office of the Comptroller of The City of New York, No. 280 Broadway, Borough of Manhattan, at all times during business hours.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application thereto at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
